Trans-Canadian Road

Englishmen have built 380 miles of a $100,000,000 railroad paralleling the Canadian Pacific. By 1907 the entire road will be in operation. It crosses the continent in almost a straight line about 280 miles north of the Canadian Pacific, passing along the northern shore of Lake Winnipeg, tapping ing the water outlet of the Manitoba wheat crop. The average grade of the roadbed will be only about 1 per cent. and engines can haul enormous loads. The line from Quebec to Port Simpson will be 248 miles shorter than the Canadian Pacific from Quebec to Vancouver.

It is described as England's answer to Russia's trans-Siberian railway. England can put troops into Manchuria four days earlier than Russia, and into China and India three weeks earlier than by using the Suez canal.

The agricultural belt produces 52,000,000 bushels of wheat, and the road will be tributary to the great undeveloped wheat areas in Athabasca.

The road is called the Trans-Canada railway. The Canadian government has already granted a subsidy of $3,200 a mile.

Council Routine.

Only councilmen Lauridsen, Milles, Grubb and Hallahan were present at council Wednesday. Little business was transacted.

The marshal was directed to make an endeavor to catch and prosecute boys who are in the habit of destroying property of parties who are temporarily absent. It was suggested that he appoint several parties not known to the boys for the purpose.

A communication was read from Trumbull & Trumbull representing that one Ellen Taylor of Pennsylvania was the holder of a certain city bond, interest coupon in amount of $30 on same being lost and payable. They asked that council make an order allowing her to collect interest when she files proper bond to protect said city. Referred to city attorney.

Mr. Hallahan secured $5 to clean out ditch on Chase, between 8th and 9th; $2 to repair culvert on 8th and Peabody; $2 for new ditch on Peabody and the Boulevard.

Mr. Miller had voted $5 to clean out and straighten ditch on south-side of First street, between Peabody and Lincoln, and $5 to repair sidewalks on First and Front sts., east of Lincoln. The councilman also called attention to promiscuous shooting at head of bay.

Mr. Grubb called attention to the very bad condition of Second st. Matter was left in hands of street committee to do as they see fit. On motion of the same gentleman the street committee was directed to purchase for Valley street extension, 500 feet of 3-inch plank and 1,000 feet of 2-inch plank.

Editors Comment.

What to do in cases of accidents, before the physician arrives, is told in a compact little volume "Accidents, Illnesses and Emergencies" issued by the Medical Department of the Mutual Life Insurance Company of New York. This book is sent on request to those who address the Home Office of the Company, Nassau, Cedar, William and Liberty Streets, New York City.

The book makes suggestions about diet, ventilation, disinfectants, drainage, and gives hints on first aid to the injured and the general care of health.

(At the Remenyi Concert, Monona Lake Assembly, July, 1895.) The readings given by Mrs. Harriet Colburn Saunderson were given with strength, cleverness, and were very effective. Her voice reached all parts of the tabernacle, while the audience evidenced its appreciation by its rapt attention and generous applause.—**Madison Democrat.**

Mrs. Harriet Colburn Saunderson completely captivated her Milwaukee audience. She is both artistic and original and never misses a point.—**Milwaukee Sentinel.**

Harriet Colburn (Saunderson) was very happily received. Her reading is very strong and natural. She delighted one of Boston's most critical audiences and was called back after every reading.—**Boston Herald.**

Professor Saunderson held his audience with ease. Smiles, visible and audible, spoke the enjoyment of every listener for the Yankee dialect in "Laughin' in Meetin'," and the real fun of Mr. Dooley's "Grip". The "Vagabonds", familiar to many people, will never grow old while rendered with the true understanding of one who appreciates its thorough naturalness and pathos as Professo Saunderson does.—**Ripon Commonwealth.**

A Typical South African Story.

O. R. Larsen, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about twenty-five miles from the nearest town. Mr. Larsen says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by all druggists.

CANDIDATES ARE SCARCE

INTEREST IN CITY ELECTION NOT FULLY AWAKENED.

Aspirants Probably Not Willing to Take Chances of a Turndown Where so Little is Offered.

Very few avowed candidates for the various city offices to be filled by the electors of the city a week from next Tuesday are in evidence though a number are spoken of for certain of the offices.

For mayor several names are mentioned but the two most prominent candidates seem to be Dr. F. S. Lewis and Mr. G. M. Laurid sen. The final candidacy of neither, however, is assured.

For city attorney Mr. T. J. Murphy and Mr. Wm. Ritchie have declared themselves as out for the office and are about urging their friends to be present next Tuesday evening. There is also some talk of Mr. J. E. Cochran coming out for the office though because of his short residence here he may not conclude to do so.

For city clerk the base ball boys have been very active the past week in behalf of their fellow player, Mr. Ray McLaughlin. They want Ray to stay with them and so are rustling a job for him. City Clerk Smith, who has filled the office so creditably for the past five years is also a candidate for reelection and promises to give the ball boys a run for the plate.

Up-to-date city treasurer Nailor has no opposition—and why should he? He is not only capable and honest but very deserving and obliging.

In the event of Mr. Lauridsen making the run for mayor, of course another candidate would have to be found for councilman-at-large.

Doctor Lewis for Mayor.

Every citizen of this city believes that this is to be an important year in the history of Port Angeles. Therefore all recognize the importance of having in the mayor's chair a man fully competent to manage the complex affairs of the city: First, he should be a good parliamentarian, a man of stamina who can say no to his best friend if need be; one who has convictions and the courage to carry them out; above all, a man who will hold the interests of Port Angeles above any clique or class. If to these qualities he adds those of a pleasing address and an ability to publicly represent the city so much the better.

Doctor Lewis fills the above requirements to the full. He has an intimate knowledge of the city's history and in the opinion of the DEMOCRAT-LEADER is the most available man for the place and we believe we voice the sentiment of a large majority of the people of Port Angeles.

Dungeness.

EDITOR DEMOCRAT-LEADER:

Mrs, Levi Cays, whose death occurred in Port Angeles, on Saturday morning last, was very unexpected to her immediate family and friends, as she seemed to be improving. Her remains were brought to the family residence on Tuesday where the funeral was held, the Rev. Mr. Marsh conducting, assisted by a quartette who rendered suitable selections The interment was made in the family plot in the Dungeness cemetery A very large concourse of people attended the services both at the residence and the cemetery. "Aunt Jane," as she was familiarly known In the community will be very much missed. She was a noble woman ;with a cheerful nature, a loyal mother and a true friend.

A noisy, boisterous crowd of school children had a jolly good time on Tuesday evening, in a surprise tendered their teacher, Mr. Rieley at his home. The first intimation he had was when some twenty or thirty youngsters went tramping and yelling up his stairway, making enough noise to raise the dead. At any rate the children and Mr. and Mrs. Risley had a good time. During the evening they romped and ate candy and cake and did about as any child desired who was not under restraint, and of course it wont be long until the above occurrence will want to be repeated.

CANDIDATES ARE SCARCE

Continued from Page One.

There is some talk of several candidates for this office but none have as yet formally declared themselves.

In the wards there is little contest in evidence. In the first Mr. Miller may be named. He will have considerable opposition, however, as all councilmen naturally have if at all aggressive. Among those prominently mentioned are druggist E. J. Nailor and Robert Shields.

In the second it is understood Mr. Grubb is a candidate and there is some talk of making Mr. H. M. Guptill run for the office. Other names have been mentioned but the contest seems to be between these two.

The only name mentioned so far in the third is that of Wm. H. Clegg. Mr. Clegg would make a good councilman.

In the fifth Mr. Gould announces his retirement and among those mentioned for the honor of succeeding him are Mr. Jno. Gutenberg, and engineer E. R. Gehrke. The friends of Mr. Gehrke feel that "their hill" is entitled to the councilman this year as "Pine Hill" has had the office for many years.

In the sixth a strenuous effort is being made to have Mr. Filion stand for the office, but he positively refuses. T. F. Bradshaw and E. J. Hoare are also mentioned.

The caucuses to be held Monday night next will alone determine who will represent the wards in the coming council.

The steam collier Edith, Capt. C. F. Hall, coal laden from Seattle to 'Frisco, put in here Tuesday night in a badly leaking condition. She filled rapidly and it looked for a while she would have to be beached to save her from sinking. A diver from Victoria made a survey of her yesterday and says she will have to be docked. He patched the crack sufficient to check the leak and Capt. Hall is awaiting orders as to whether to unload here or up sound. The Edith narrowly escaped the fate of the Mattewan. She began leaking and took water so fast in the storm off Umatilla reef that the captain barely had time to reach the straits and assistance before the ship's propeller was near the surface and the bow deep in the water ready for the fatal dive.

It is estimated that the output of the mines of Butte and Anaconda, Mont., is over 11,000 tons a day of copper ore.

The Pittsburgh Dispatch places the annual cost of smoke in that city at $5,000,000, to say nothing of the discomfort.

The right hand, which is more sensitive to the touch than the left, is less sensitive than the latter to the effect of heat or cold.

A writer in the Arena declares that 500,000 men now do the work, with the aid of machinery, which needed 16,000,000 persons to do a few years ago.

The Florentine excavations at Fiesole have now recovered nearly the whole of the northern pre-Roman city walls. Valuable finds of coins and other objects have been made.

Szczepanik, the Polish schoolmaster who invented the fernseher, which enables one to see an object in its natural colors a great distance by means of an electrical device, announces that he has invented an apparatus operated by a beam of light, which he has applied to exploding bombshells.

Dr. Becquerel has announced to the Academy of Sciences at Paris the discovery of a new supposedly elementary substance which has a close affinity to barium. Its discoverers, MM. Curie and Bremona, have named it "radium." It is so sensitive to light that it will take photographic impressions.

The heaviest metal is osmium, which has bulk for bulk, very nearly twice the weight of lead. The specific gravity of gold is about 19¼, while that of osmium is almost 22½. Osmium is also the most infusible of metals, remaining unaffected by a degree of heat capable of causing platinum to run like water. It even resists the inconceivable temperature of the electric arc.

He Had No Choice.

The wife of a dynamo tender went to a haberdasher's to buy a necktie for her husband. She selected a brilliant red one, ready made; whereupon the young and inexperienced salesman, with compassion for the future owner, was moved to remark:

"Excuse me, missus, is this for your husband?"

"It is," said the woman.

"Don't you think he'd rather have some other color? I'm afraid he won't wear this red tie."

"Oh, yes, he will," said the woman, firmly; "he'll have to—he's dead."—

LAUNDRIES ON BATTLESHIPS.

Naval Officers Will Have Their Dirty Linen Washed Free of Charge.

Naval officers of the proposed battleships Pennsylvania, New Jersey and Georgia are to have their linen washed free on board. This means a great deal to them, not only in the saving of laundry bills, but because the average naval officer is a natty man who does not like to wear celluloid collars and flannel shirts, as he sometimes has to do on long voyages. There are no laundries on any United States naval vessel except some of the auxiliary cruisers purchased at the beginning of the war with Spain. Each of the battleships will have a laundry-room in charge of an enlisted man under the new rating of laundryman. The washing and ironing will be done by electricity.

Philippine Forest Preserves.

Upon the recommendation of the war department the agricultural department is preparing an order setting apart as forest reserves the island of Romblon, which is north of the island of Panay; also the island of Pauitani, which is one of the extreme group of the Jolo islands of the Philippine group. Officers of the army who have been investigating the islands have found that these are the richest lands in the world for rubber trees, and it is the intention of the Washington authorities to have the trees preserved and cared for.

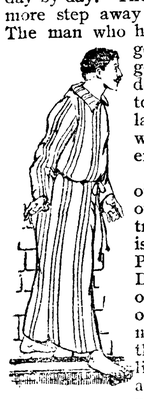
ONE STEP MORE

Will be fatal to the sleep-walker. Will he draw back or will he take the final, fatal step? A great many people are in peril like the sleep-walker. They are diseased. The disease is progressing day by day. The time comes when one more step away from health is fatal. The man who has suffered from indigestion or gastric trouble goes some night to a dinner and returns home to find he has taken that last step from health which can never be taken back.



To neglect the cure of indigestion or some other form of stomach trouble is dangerous. It is also inexcusable. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, stimulates the liver, cures biliousness, and eliminates bilious poisons from the system.

"The praise I would like to give your 'Golden Medical Discovery,' I cannot utter in words or describe with pen," writes Jas B. Ambrose, Esq., of 1205½ Mifflin St., Huntingdon, Pa. "I was taken with what our physicians said was indigestion. I doctored with the best around here and found no relief. I wrote you, and you advised me to use Dr. Pierce's Golden Medical Discovery. I took three bottles and I felt so good that I stopped—being cured. I have no symptoms of gastric trouble or indigestion now."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.
