## Quarry Land Deal Closed

### One-Third Payment of $2,166 Made in This City on Saturday

Negotiations which have been pending for some two months past for the Geraghty-Dodge sandstone quarry were completed in this city Saturday by the passing of the deeds to Messrs. Barnett, Burroughs and associates, and the payment to the former owners of the lands, Messrs. Warren Dodge and Michael Geraghty of $2,166.00 as one-third payment. Balance is to be paid in nine and eighteen months.

After the deal was closed a meeting of the Commercial club was called for Monday afternoon, which was largely attended, to consider the proposition of the "Port Angeles Quarry Co."

Mr. Ferree, an attorney of the company, of Seattle, speaking for his clients, told those present of the rich and varied resources of this section which he declared only awaited action on the part of its people to secure unlimited capital for its development. Here was a chance for an awakening, for by the simple raising of about $1,000 for the purchase of three lots on Third and B streets and a little additional rustling to secure the Tumwater creek water-way, the city was guaranteed an industry that would mean much for its development.

Mr. Barnett followed, giving the history of the negotiations for the stone; its practical development, exhibition and sale, as given heretofore in these columns. He asked now that the city meet them halfway by securing for them now, while the lands can be had cheap, such waterfront as will be absolutely necessary for later use. He felt that his company should use their every facility in development, and the least the citizens could do would be to secure for them what they asked. They do not want title, he said, until they comply with stated conditions, and are willing to bind themselves.

The club looked on the proposition with considerable favor, and the following committee was named to take entire control; to work in the name of the club for the accomplishment of the end that the company be enabled to begin work of development with all possible dispatch: President G. M. Lauridsen, Secretary Horace White, J. D. Mosher, W. S. Caldwell, D. W. Morse.

## "I have no more nervous headaches and rest very well at night."

When a woman suffers from female weakness and irregularity or other forms of womanly disease, the effect is certain to be marked in her nervous system, the general effect being, as in Mrs. Woodin's case, "nervous headaches, restlessness at night" and a run-down condition. It is simply common sense then which says if you cure the female weakness, irregularity, etc., you will cure the nervousness, sleeplessness and other consequences of womanly disease.

Dr. Pierce's Favorite Prescription cures the womanly diseases which undermine the general health. It establishes regularity, dries enfeebling drains, heals inflammation and ulceration, and cures female weakness. It cures headache, nervousness, sleeplessness, etc., by curing the womanly diseases which cause these ailments.

Sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I feel more than grateful to you for the benefit I have received from Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery.' Describes Mrs. Ervie E. Woodin, of Millerton, Dutchess Co., N. Y., care of Box No. 1. "For a number of years I had been troubled with female weakness, nervous headache, irregularity, restlessness at night, and, in fact was all run-down, but after taking three bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' feel that I am entirely cured. I have no more nervous headaches, and rest very well at night, in fact, feel like a different person. Thanks to your kind advice and wonderful medicine. I earnestly advise all who suffer from any similar troubles to write to Dr. Pierce at once. They will not regret it."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" when ever a laxative is required.

# THE BAD ROADS TAX

MUD HIGHWAYS ARE COSTLY, ESPECIALLY FOR THE FARMER.

**Some Figures Showing What Is Lost by Hauling Farm Products Over Unimproved Roads—How the Merchant Is Affected.**

The name "public highway" indicates that roads are matters of public rather than private concern, and nothing but the fact that we have all been giving attention to our private affairs to the exclusion of public affairs can account for the lack of interest that has been taken in the highways in the past, said a speaker at a good roads convention held in Winterset, Ia. But fortunately a change is taking place. Interest is increasing. Country and city alike are awakening to the necessity of something being done.

The people of Madison county, Ia., are paying a small road tax, 5 mills being the limit that can be levied, but they have for years been paying a larger sum in the shape of a bad roads tax, or a mud tax, as it is frequently called. The largest tax is paid by the farmers. The farm products of this county, that can find a market only when hauled to town, are enormous. If the farmer was always sure of a good road to town whenever his stuff was ready to market, he could haul a larger load and make better time and thereby materially lessen the cost of production. The Madison county hog will not walk to market. He must ride. Every time a farmer is caught with a bunch of hogs ready to sell and the bad roads keep him away from a good market he makes a substantial contribution to the mud tax.

It costs $40 to ship a carload of hogs weighing 17,000 pounds from Winterset to Chicago. One thousand seven hundred pounds make a good average wagon load of hogs, and it would therefore take ten teams to haul such a carload of hogs to Winterset from the country at one trip. Allowing $2 per load for the cost of hauling to Winterset from the country, which is certainly a conservative estimate, it costs just half as much to haul a carload of hogs over the country roads ten miles to Winterset as it does to haul them from Winterset to Chicago by railroad, a distance of 400 miles. If the hogs could be hauled over a stone road all the way to town about twice as large a load as the present average load could be hauled. It costs $2 to haul a cord of wood eight or ten miles that will sell in Winterset for $4, the cost of hauling being one-half of the selling price. If two cords could be hauled at one load, the cost of hauling would only be one-fourth of the selling price.

In the old countries or in localities in this country where permanent roads have been built the farmer can haul a load of produce to town when the fields are too wet for work. In our country the roads are usually unfit for hauling when the fields are unfit for work. The merchant helps to pay the mud tax. When the roads are bad he and his clerks are idle. When they mend he needs extra help for awhile, provided his customers have not done without the article he sells so long that they conclude to do without it entirely, as is very frequently the case. Many merchants carry a line of goods that must be sold at certain seasons of the year. Let bad roads keep their customers away during that season, and they will have left on their hands a lot of goods that they could have sold at a profit if their customers from the country could have reached them. Every one in Winterset who uses wood for fuel must contribute to the mud tax if he happens to run out of wood when the roads are bad. He must then pay a high price to some person that has stored up a quality of wood that could not be sold in competition with good wood. The railroads pay mud tax. When the roads in the live stock district are bad the stock cars and train crews and engines are idle, and when the roads get better in their own good time they do not have cars, crews and engines enough to handle the traffic properly, traffic is rushed and wrecks occur. This explains why it is that railway companies are willing to make cash contributions to aid in building country roads and to haul at cost the material needed.

Without going into details further it is sufficient to say that there are very few people living in agricultural communities who do not directly or indirectly pay in the form of a tax to the bad roads more than the ordinary levy for road purposes.

### Abortion In Cows.

A cure for abortion in cows has long been desired. Mr. N. A. Lind, a breeder of Shorthorn cattle at Rolfe, Ia., states that he finds carbolic acid a cure. He states that, knowing carbolic acid to be a deadly poison, he feared to use it, but tried it on one cow, giving her an eighth of an ounce in bran mash every other day. Finding that it did not kill her and that she improved, he gave it to the entire herd, gradually increasing the dose to half an ounce. The disease disappeared, the first cow has produced a strong, healthy calf, and not a case of abortion has since appeared.

**The Democrat-Leader,**

Published ever Friday at Port Angeles, Washington, by THE DEMOCRAT-LEADER CO.

A. J. COSSER, Editor and Proprietor.

Official Paper

Of Port Angeles, Clallam county.

Entered as second-class matter, in the Post office at Port Angeles, Washington.

PRESIDENT HILL says if control of Northern Pacific goes into hands of Harriman, he will sell out as he is tired of fighting the battles of the northwest.

WE shall have a real exhibition of strenuosity next winter when congress tries to crowd through in three months all the measures that have been postponed till "after election."

WE are glad to see a young man in the field for prosecuting attorney of the integrity and ability of Mr. Roy McClinton. We feel safe in saying that if Mr. McClinton is elected to the office to which he aspires it will not be necessary for the county to pay an extra attorney to assist him, as has been the case in the past four years.

INTERESTED parties in Washington are still making a desperate effort to have congress fasten a civil pension list upon the country. It ought to fail. If clerks who have been at government desks for many years at a much higher salary than is ever paid other clerks of the same class and a good deal more than the ministers or school-teachers of the country get, or the average farmer, are so improvident that they cannot save enough to live on by the time they are sixty or seventy, they are estopped from asking the government to take care of them. If all the superannuated, in congress and in departments, could be peremptorily retired, and new blood given a chance to show what it could do, public affairs would progress with increased satisfaction and Congress would not have to indulge in so much talk.

Port Angeles, Wash., April 13, 1904

EDITOR DEMOCRAT-LEADER: As the city now owns a park, or rather Cook's Prairie' to make a park of, and as I am very well acquainted with that locality I wish to offer a few suggestions as to improvements that could be made there with very little expense.

There is a road on the East and South sides and there should be a road or trail cut on the North and West sides so as to make a distinctness of the park grounds.

The piece of the park grounds East of the prairie is level and contains very nice shade trees, and if a drive-way was cut around it would be greatly improved.

The old race track can be put in good condition with very little expense, and could be used on the Fourth of July to an advantage.

Quite a number of willow bushes are growing in the prairie that should be slashed and burned this summer which would make a decided improvement.

If the city wished to drain the water from the park the best place I found to do so is on the North side near the middle of the prairie.

I am very anxious to see the city have a fine park, and one that we can all feel proud of. I am willing to render such aid as lies in my power.

Respectfully, Citizen

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless this inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

### THE FIGHT FOR CONTROL.

As the day of the Republican primaries draws nigh the ring and anti-ring factions fighting for control show to considerable extent their anxiety. While at the East End of the county this week the editor was advised that that section will send a solid delegation for Church and Foster as against Dyke and Wilson, and the Church managers claim eighty per cent of the city and adjacent country precinct delegates. If these claims should prove true it would seem that the Aldwell-Dyke-Palmer combination is in vain. It is reported that Palmer is being traded in the interest of Dyke, and that he has offered to withdraw from the commissioner contest, provided, Lauridsen will agree to support him for state senator two years hence. When his friend Levi Ankeny again comes up for re-election, being a holdover, he would then be in a position to help. It is reported also that Mr. Lauridsen refused to bind himself.

It is amusing to watch Aldwell button-holing every passer-by for support. Even Democrats and Socialists are approached, and this despite the fact that the customs' employes are supposed to keep hands off in a political way.

In every precinct there are strong influences at work quietly and openly and slates are being made. with all kinds of combinations and trades, and one would think from the earnestness of the leaders that it is a case of life or death with them as well as their political aspirations.

Dyke claims that he is unpledged and to some that he is a Foster adherent, but the signs point to the fact that he is both bound hand and foot, and must support Wilson or whom Wilson may name.

Of course, we have no voice in this preliminary battle, but in the interest of Clallam county it looks to us as though Clallam can ill afford to name a candidate that is in any way pledged to a Seattle man. Seattle fought for years for representation at the National Capital, and no sooner got a congressman than she began her campaign of grabbing everything in sight. We have nothing but tears and trouble to expect from this Seattle aggregation, who have never lost a chance to swat us, and the quicker we recognize this and join hands with all interests naturally opposed to them the better for us.

To the City Council of Port Angeles:
Gentlemen:—

In making this, my final report for the year 1903, I should like to make a suggestion, which would facilitate matters in striking a balance between the clerk's and treasurer's books.

You will notice a wide discrepancy between my balance and the treasurer's in the Current Expense Fund, and also in the First Street Improvement Fund.

This is caused because duplicate receipts are not issued when money is turned in to the treasury, of which I should keep one on file in this office; and in the case of saloon licenses, where ten per cent goes to the state, I have no record of the transaction at all; therefore our books cannot possibly balance.

Trusting that these suggestions will be heeded, for the assistance of future city clerks. I am, very respectfully yours

R. D. MCLAUGHLIN,
Ex-City Clerk.

Revenue cutter Grant was in port Thursday. Capt. Tozier has been engaged for the past two or three weeks in carrying government agents from place to place on the sound, testing the new system of wireless telegraphy, which under the direction of Mr. H. A. Yarnell, formerly of this city, is progressing nicely. On the last trip of the cutter Mr. Yarnell was enabled to "talk" nearly double the distance possible prior to that time. He has perfected a receiver that is very sensitive and which has proved a great help on board vessels where the pounding of the engines makes it very difficult to get satisfactory results.

Mr. Yarnell is in sole charge of the Puget Sound stations during the absence of General New and is much interested in his work.

**Thousands Have Kidney Trouble and Don't Know it.**

**How To Find Out.**

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

**What to Do.**

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

# Suffering

## Will Not Help Your Disease, but Will Weaken Your Nerves.

Folks who think it is better to bear pain than soothe it—are wrong.

Old-fashioned doctors used to say it was better, because they had nothing with which to ease pain but dangerous, heart-paralyzing drugs.

But now, that a safe remedy has been found, Dr. Miles' Anti-Pain Pills, it is wrong to suffer, for nothing can be gained but weakened nerves.

A safe rule to remember is: When in pain, take an Anti-Pain Pill.

This will soothe your quivering nerves.

Dr. Miles' Anti-Pain Pills relieve pain by restoring the natural secretions, in which they differ from opium and similar narcotic drugs, which relieve pain by checking the action of the glands.

They are sure and harmless, and are the latest medical treatment for the cure of Headache, Neuralgia, Backache, Rheumatism, Dizziness, Toothache, Stomachache, Menstrual (Monthly) Pains. Also nerve irritations like Sea-Sickness, Car-Sickness, Sleeplessness, Indigestion, etc.

Pleasant to take, quick in results.

"I have used Dr. Miles' Anti-Pain Pills for sick, nervous headache, and have received the best results. I heartily recommend their curative properties, for they are successful."—REV. RAY A. WATROS, D. D., Iowa City, Ia.

## FAMOUS GEORGIAN'S CHOICE.

**Historian Thomas Watson Names His Candidate For President.**

Thomas E. Watson, the historian, who represented a Georgia district in congress, but has retired to private life, in an open letter sets forth reasons why, if in public life, he would support Congressman William Randolph Hearst for the presidency. Mr. Watson's letter follows:

"Were I in politics I should heartily approve and support the candidacy of William R. Hearst because he has for many years been exerting all the power of his millions and his mental energies in favor of the principles of Jeffersonian Democracy.

"I would support Mr. Hearst because he is a young leader inspired by the old spirit of equal rights to all and special privileges to none, because he favors the rights of the many rather than the greed of the few, because he does not represent sectionalism of any sort, but stands for the common people of the entire republic. I would support him because he is young enough to cherish a generous enthusiasm of the public good at the same time that he has demonstrated a capacity to succeed in the most trying affairs of practical life.

"I would support him because he wears no man's collar and because he is not the craven tool of any ring, syndicate, corporation, trust or interest.

"I would support him because he has brains enough to realize what this public needs and pluck enough to do battle for his convictions.

"A Democrat who knows what Democracy is and is loyal enough to stand by it in this day of decadence, I would give him the aid of my entire strength, believing that I would thus be doing the highest public service."

In commenting on the above utterance the Atlanta News says in the same issue: "The Hon. Thomas E. Watson is no longer a politician. No temptation of office, no plea of the public, has been sufficient to draw him from his brilliant and honorable retirement to engage in the personal ambitions of politics. He has made fame. He has achieved fortune by his brains and his labor, and he is today by general consent looked upon as without a superior among the thinkers and patriots of the state. But whether in retirement or in active service, Thomas Watson is still the great tribune of the common people of Georgia. They trust him and follow him as they do no other man. And Tom Watson, the philosopher, the scholar in politics, the patriot in retirement, viewing all measures and all men from the tranquillity of unselfishness and repose, sends through the News a message to the people of Georgia today which rings like a bugle call. It is the voice of the real tribune of the people calling the people to their opportunity.

"Tom Watson's letter is the most notable and significant utterance which the presidential campaign has so far evoked. It is the highest possible vindication of the contention of the News that Hearst is the man of the people and the choice of the people. It now remains to see that the people have their choice."

**Six Million Approvals.**

Honest and fearless newspapers are the search lights of modern civilization. They lay bare the hidden, insidious and powerful influences that tend to destroy that equality of opportunity to mankind which bring content and justice to the homes of all the people. Running a modern daily requires great ability, immense energy, steadfast courage. Running an independent paper in the interest of all the people demands character of the highest quality.

The attributes of William Randolph Hearst find expression and effective and beneficial dissemination in his great journals published in New York, Boston, Chicago, San Francisco and Los Angeles.

The fact that 6,000,000 people read the Hearst dailies indicates that he is expressing sentiments approved by a large portion of the American commor wealth.

**Producer Not In It.**

Uncontradicted facts, brought to light in committee hearings in congress during inquiries concerning legislation affecting labor and agricultural interests in the United States, show that nearly all American products are sold cheaper in foreign countries than at home. By applying business experience and facts to this disparity Representative William Randolph Hearst of New York has forced certain trust managers to admit that they benefit by this system of production under special tariff privileges, yet they do not permit their workmen to share any proportion of the advantages. The employers take all the prosperity, and, as the New York statesman has repeatedly emphasized in and out of congress, they give no concern to the laborer or farmer.

**To Make Law Effective.**

Among the important bills before congress is one restoring the imprisonment clause to the Sherman antitrust act. The Elkins amendment eliminating imprisonment for violation of the law, which passed the Fifty-seventh congress, left the act practically valueless so far as trust magnates are concerned. House bill 11,594, introduced by Representative William Randolph Hearst of New York, restores the imprisonment clause.

# Dragging Pains

2825 Keeley St.,
CHICAGO, ILL., Oct., 2, 1902.

I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, that blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

RESOLUTION.

Whereas, it appears from the records and files of the auditor's office of Clallam county. Washington, and from affidavits heretofore submitted, that during the year 1893, one Hans L. Walby, was the duly elected and qualified and acting road overseer of road district No 33 of said county.

And Whereas: It appears from the quarterly statement and affidavit of Hans L. Walby, road overseer, that one Gus Norin worked on the public road of said district 19 days in the summer of 1893 for which he was to receive the sum of $2.00 per day.

And Whereas: Road warrant No 1,439 for the sum of $38.00 was on or obout the 24th day of July, 1893, duly and legally issued to him in payment therefor.

And Whereas: He afterwards and before there was funds in the treasury for the payment of said warrant sold and assigned the same to one G. M. Lauridsen.

And Whereas: Said G. M. Lauridsen on or about the 27th day of March, 1903, presented to the county treasurer of said Clallam county, the said warrant for payment, and the said treasurer then and there paid to said G. M. Lauridsen the cash therefor which together with the interest to that date was ($65.25) and then and there marked said warrant "Paid."

And Whereas: Nearly or quite all the other road warrants of said district issued in said year for road work under the same conditions have been paid without objection or protest of any nature.

And Whereas: It appears to the entire satisfaction of the board that said Gus Norin did the 19 days work on the public roads of said district under the direction and supervision of said road overseer as per quarterly statement then returned to the board by him and by his affidavit.

And Whereas: It appears that the county treasurer has not returned said paid warrant to the county auditor or received credit therefor.

And Whereas: This board afterwards ordered said payment to be refunded and repaid into the county treasury, and whereas said sum was thereafter repaid into said county treasury, but was not so paid by said Lauridsen, nor with his consent or knowledge, nor by any one thereunto authorized by him, and whereas said order of this board for repayment of the same was made under a misapprehension of the true facts of the case, therefor be it

Resolved: That the county treasurer of Clallam county be and he is hereby instructed to repay said sum of $65.25 to the person or persons who paid the same into the said county treasury and that he includes the same in his next quarterly report to the county auditor and that the said auditor give him credit therefor on his account.

Respectfully submitted,
C. W. THOMPSON.
