MR. SWANEY TALKS OF STEEL

PACIFIC COAST PLANT MUST BE BUILT ON THIS SIDE

The Market is on American Side and Would Be Inaccessible Through Import Duty—A Small Plant for Island.

For a couple of weeks past rumors to the effect that certain directors of the Pacific Steel Company would shortly arrive in the city for the purpose of conferring with the local director and treasurer with a view to making a selection of a site for the permanent location of the big steel plant which is to built on the sound have been in circulation, but confirmation of the rumor by local parties cannot be had at this time, though it is given out that this program is to be carried out during the next two months. It is certain that if it can be shown to the satisfaction of any of the big roads now on the sound that a plant will be erected here of the magnitude which this company says it will build and operate they will build here and be ready to haul off the product as soon as the product is ready to be hauled. It is stated that the railroad company approached in the matter has so notified the steel company officials.

Some weeks ago the Victoria papers stated that there was a probability of the British Columbia legislature now in session recommending the passage of an act placing a prohibitory export duty on ore, for the purpose of compelling any parties contemplating erecting smelters or steel works to erect them on the British side. This alarmed the Pacific Steel company for a while and upon receiving clippings from the papers through a prominent friend in Victoria Mr. Swaney president and general manager wrote from Irondale as follows: (It is understood now, however, that all danger from this source is over.)

"I have studied this proposition very carefully, and am satisfied that a fairly good sized works can be now built upon the Pacific Coast and live, making a fair profit; but as the largest population is on this side of the line, I think its location should be here. However, it is my plan, and our company will carry it out, that very shortly after getting our large plant started here, say within a year from the time we are well under way, we will build a small furnace on Vancouver Island and make pig iron for that trade, as well as some small finishing mills. To put a large works on Vancouver Island and attempt to get the product into the American market, at the high rate of duty, would be to place the manufacturer in such a position that he could not compete with the Colorado Fuel & Iron Company or the Alabama irons, upon the Pacific Coast, and would be to simply make a blank failure of the whole enterprise. A heavy export duty put upon iron ore would be to simply close the mines of British Columbia, in my opinion; and I think any one who will look into this question without bias will come to the same conclusion that I have, namely, that, while there is a market on this coast, and while there are raw materials, that pig iron cannot be made here as cheaply as in the East or even in Colorado, and that nothing would permit an iron or steel plant to exist on this coast except the freight rates. If, therefore, a company were to put itself in position to pay duty in order to get its product into this market, the Eastern manufacturers would completely shut the Coast concern out.

"I think, on the other hand that there is not market enough on the British Columbia side to justify the expenditure of any considerable sum of money in manufacturing iron there for local use. At the present time I do not believe that there are 20 tons of pig iron used per day throughout the year in the foundries there. I may be mistaken in this estimate; if so, my sources of information are wrong. To put up a furnace that would only make 20 of pig iron would be a very bad investment.

"There is another point, too; that while these irons are rich in metallic iron, a furnace that will make 30 tons of pig iron a day from magnetite would easily make 50 tons or 60 tons if operated on a soft hematite found in the lake regions of the east. This may sound queer, but I believe it to be a fact from our short experience at Irondale. This furnace is supposed to make 50 tons per day. We have pushed it pretty hard and have not gotten above 35 tons. In fact, it will be questionable if we can get up to 50 tons inside of 60 or 90 days; while the same furnace operated on hematite ought to make from 70 to 100 tons per day.

"I hope the government of British Columbia will assume no such attitude as indicated in the columns of the paper which you sent to me. If I had thought there was any danger of such a thing, I assure you I would not have spent the money and time that I have in developing iron properties there, but would have spent the money and time in developing properties in the state of Washington, where good iron deposits do exist, but are some distance from railroad connections, and will be more expensive to open, at first, and carry possibly a little higher freight rate."

RAILROAD WORK.

Northern Pacific Now Completed to Grass Creek.

The Hoquiam extension of the Northern Pacific railway up to wards the Straits of Fuca has made satisfactory progress during the nine months since Nelson Bennett began work on his contract.

Work began in the early spring and though many obstacles have been met with, a great deal of permanent work has been done. At the present time track is laid seven miles from Hoquiam. This reaches the bridge at Grass Creek, which bridge is now being constructed. Seven miles further the right of way has been cleared and most of the grading done. This takes the road to the proposed town of Fredrick, on the Humptulips river and fourteen miles from Hoquiam.

The line has been definitely located and the contract let for another fourteen miles, which reaches the Indian agency. This will no doubt be built during the present year.

There is no doubt that work on this line will be pushed steadily until Grays Harbor and the Straits of Fuca are connected by that great civilizer and country builder, a railroad.

COUNTY NEWS.

Clallam Bay Record.

A crew of men have repaired the broken bridge near Beaver falls.

Three Lemm brothers arrived on Wednesday from Seattle and went out to Tyee.

School opened on the west side last Monday with Miss Lawrence of Sequim teaching.

Notices are posted on the west side of the bay requesting that all buildings now occupied on Robinson's land be vacated within 20 days.

Port Crescent.

Mr. and Mrs. George Sands were among the passengers from up-sound, on the Gertrude last Wednesday. Mr. Sands has recently obtained the position of operator at Neah Bay and was on his way down to that port.

S. Johnson, after having a severe attack of scarlet fever is again able to be out.

A large new boiler was put off here last Friday, for the machine shop.

ADVERSE REPORT.

Franchise Committee Says People Decisively Voted to Own Light Plant

The mayor and council were in a retrenching mood Wednesday night and some of the same old methods of retrenchment were resorted to. Hunt and Lauridsen were absent.

One of the important features of the evening was the reading of the report of Mr. Hallahan of the Franchise committee, who reviewed in detail the history of electric lighting the city and showing the purchase of the plant after a very decisive vote of the people in favor of municipal ownership. The proposed grant he thought very unwise, especially so inasmuch as the rent offered would not pay for the lights now used by the city to say nothing of the interest on outstanding bonds.

The other member of the committee was not prepared to report and the committee was given another week to bring in a full report

The street committee recommended the expenditure of $12 to repair walk to the cannery. The amount was allowed.

The mayor reported having procured design for city letterhead. Action was approved and committee directed to order a number printed sufficient to supply each of the councilmen and city officers.

The following bills were allowed:

S. Land, work on Peabody street	$25 00
D. S Allen and men, street work	47 20
P. A. H. & H. Co., supplies	8 82
A. D. Baldwin, care of J Ball	20 00
Filion Mill Co, lumber	19 12
Angeles Water Co, services Feb.	29 00
H. L Mitchell, wood	94 80

The mayor then read a communication calling council's attention to the fact that current expense fund is already in the hole $448.16, and warrants now issued are drawing interest, something avoided in the past, and contrary to the law which reads that the fund must be maintained. He construed this to mean that no warrant should be issued unless the money was in the treasury to pay same, and feared if extravagance was continued warrants would soon be at a discount. He hoped the council would adopt a resolution he had prepared to effect that after March 15, no claim would be allowed that was not authorized by a vote of the council; no officer of the city may contract a bill, and in no case shall the street commissioner or other officer place himself on duty.

The mayor then called attention to several claims recently allowed which he thought an unnecessary drain upon the city's finances.

No action was taken on the resolution.

Councilman Smith, as an economic matter, moved that the extension be closed, stating that it would take $500 to keep same in repair.

Councilman Hallahan thought the motion premature. It was one of the main thoroughfares and should not be closed until dryer weather set in.

Councilman Miller thought the motion timely, the city was very fortunate in not having a damage suit on its hands before this. The motion carried.

Mr. Smith thought that while economy was in order certain patrons of the light plant should be investigated, that all should pay a just proportion of the expense of operating.

Mr. Miller stated that residents of Georgiana street were leveling off four blocks in front of their residences and asked for use of city scrapers, which was granted.

It was ordered that hereafter merchants would have to see to the cleaning of cross walks on Front street.

A Printer Greatly Surprised.

"I never was so much surprised in my life, as I was with the results of using Chamberlain's Pain Balm," says Henry T. Crook, pressman of the Asheville (N. C.) Gazette. "I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit. One day while looking over the Gazette, I noticed that Pain Balm was positively guaranteed to cure rheumatism, so bought a bottle of it and before using two thirds of it my rheumatism had taken its flight and I have had a rheumatic pain since." Sold by all Druggists.

A NORTHERN LINE.

The Dunsmuir government of British Columbia have entered into a contract with Messrs. Mackensie and Mann of the Canadian Northern railroad, now building north from Lake Superior in Ontario province into the Northwest territories to commence with expedition a line of railway from Bute Inlet along the vicinity of the 52nd parallel to the east boundary of the province, there to join their road being extended from the Lake.

The plan is to then extend the Dunsmuir road to the north end of Vancouver island and there connect with the northern Canada system, making Victoria the coast terminal. Connection will be made at the east end with roads to all points east and south. At this end on the American side the plan is said to be for the U. P. to build to the sound, thus completely belting the Hill combination.

A great country would be opened and the scheme looks feasible.

ERIE MAN SAYS HE CAN LOCATE 600 FAMILIES HERE.

All Have Just Sold Their Eastern Farms and Are Well-to-Do — Club Raises Funds to Employ Two Agents.

The Commercial Club convened at the rooms in the Morse building yesterday morning at 10 o'clock upon call of President Griggs to consider certain statements of two gentlemen from Erie, Pa., and to discuss certain plans of action in securing a share of the vast number of settlers now seeking locations in this state, and to devise ways and means of reaching these people and interesting them in this section.

Messrs. J. N. Wilson and J. W. Bigler late of Erie, Pa., were introduced, and stated they were of a party of twenty who had purchased tickets to Port Angeles. They got as far as Townsend when they were notified by a party claiming to live here that there was nothing here for them and the rest of the party except these two gentlemen were induced to leave the boat at that point. These gentlemen upon arrival here were much pleased with our city and had concluded to remain and had telegraphed to their families at Seattle to come on.

The gentlemen further stated that 600 families were to leave Erie on the 18th inst. and they were in a position to influence them to get their tickets through to this point, and would telegraph them through the secretary of the club here and the ticket agent there recommending this place and advising them to secure their tickets as above. They also thought if settled up sound they could induce the others of their party to locate here and many of the hosts now pouring into the state by train loads.

The question was discussed at length by prominent members present, all expressing confidence in the gentlemen's

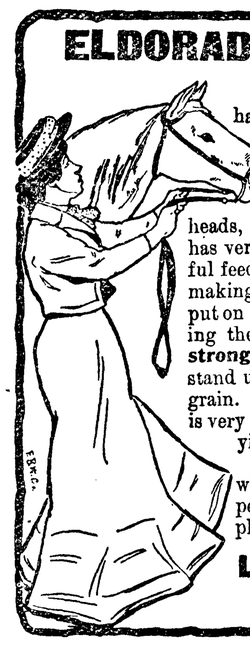
ELDORADO KING OATS



has the best record as a main crop variety of any ever grown. The most productive and the hardiest. Very early, with heavy, stiff straw, bearing large and heavy heads, with **well filled, plump grain.** It has very thin and soft hulls. Has wonderful feeding value, and is well adapted to making oat meal. Most oats lodge when put on good, rich ground, many times losing the whole crop. On account of the **strong stiff straw,** the Eldorado King will stand up erect and produce a heavy crop of grain. This oat is never affected by rust, is very handsome, a good seller, and will yield an average of **116 bushels per acre.**

WE have very little sympathy for the man who gets beat by the robber slot-machine, but when a proprietor of a joint allows boys of a tender age to play the machine in his establishment, we believe he should be made an example of. We see boys make a beeline for one place in particular with every nickel they get hold of, and the "respectable" proprietor seemingly encourages them.

A SPECIAL to the N. Y. WE hoped to give the court house boys a rest this week, but on looking over the commissioners' proceedings published last week, we find the following innocent item which we feel called upon to expose: "Board ordered Albert Draper, supervisor of road district 52 to replace bridge on Ennis creek, recently washed out, warrant (to pay for same) to be drawn on Bridge Fund." Now the facts are Albert Draper is not supervisor of the district. The chief push of the Board took the whole matter out of the hands of the duly elected supervisor and put it into those of a political pet, and to cover up the act of injustice, the auditor has "doctored" the minutes.

Those who let a cough run on, in ignorance of the danger, find no escape from the consequences when the cough develops into lung trouble.

The best time to kill a snake is in the egg. The best time to cure a cough is when it starts. Ordinarily, a few doses of Dr. Pierce's Golden Medical Discovery will cure a cough at the beginning. But even when the cough is deep-seated, the lungs bleed and the body is wasted by emaciation, Dr. Pierce's Golden Medical Discovery will in ninety-eight cases out of every hundred effect a perfect and permanent cure.

"My husband had been coughing for years and people frankly told me that he would go into consumption," writes Mrs. John Shireman, of No. 265 25th Place, Chicago, Ill. "He had such terrible coughing spells we not only grew much alarmed but looked for the bursting of a blood-vessel or a hemorrhage at most any time. After three days' coughing he was too weak to cross the room. The doctor did him no good. I stated the case to a druggist, who handed me a bottle of Dr. Pierce's Golden Medical Discovery. My husbands recovery was remarkable. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around, and in two more days he went to work. Two bottles cured him."

statements and it was decided to give them a chance to do as they said they could. A special subscription was started and in the neighborhood of $200 was obtained for this work. Mr Wilson and Wm. Banks to be each paid $2.00 per day until further notice from the club.

To the party east the following telegram was sent yesterday by the secretary for Mr. Wilson:

"I have arrived at Port Angeles, and am delighted. Send all that wish a good home to Port Angeles. Fine country; fine climate.

J. N. WILSON."

Matter of cheap transportation from Seattle here was also discussed, and Mr. Peabody having failed to appear as was expected, question was left open until the evening meeting and the meeting adjourned until 7:30.

There was quite an attendance at last evening's session.

A resolution was presented by Mr. Cochran and adopted, asking President Peabody of the steamship line for free transportation for Messrs. Banks and Wilson for the next 60 days.

The secretary was directed to procure a dozen more chairs for the rooms, and to have electric lights installed.

Mayor Bradley addressed the club on the subject of closing Front street extension to traffic.

Mr. Cain made a motion that a committee be appointed to draw up resolutions protesting against the closing of Front street extension. Motion carried and the president appointed as such committee Wm. Ritchie, T. T. Aldwell and Willard Brumfield.

The secretary was instructed to notify by mail all members to be present at the regular meeting Friday evening.

The Commercial Club met in regular session Friday evening March 7th, with President Griggs in chair. The following bills were read and allowed:

The matter of securing an excursion rate from Seattle to Port Angeles for home seekers was discussed at length. The secretary was instructed to communicate with Mr. Peabody, manager of the Steamship Co. and ascertain if he could meet a committee of the club to discuss the situation on Tuesday afternoon.

Mr. Cain brought up the question of building a railroad to the southwest of the city. The proposition was fully discussed. A motion prevailed to appoint a committee to solicit subscriptions of labor and money for the purpose of building such a railroad. The president appointed as such committee J. E. Cochran, Wm. Ritchie, G. M. Lauridsen and John Cain.

THE CITY COUNCIL OF THE CITY OF PORT ANGELES DO ORDAIN AS FOLLOWS:

SECTION 1. No application for any franchise shall hereafter be considered or acted upon by the city council unless such application be accompanied by the sum of one hundred dollars ($100) gold coin of the United States, which said sum shall be held by the city until such time as the conditions of the franchise (if granted) are fully complied with and performed by the grantee named in said franchise, his successors or assigns; but in case any such application for a franchise shall be rejected or for any reason refused said sum of $100 shall be returned to the applicant or his agent duly authorized to receive the same.

SECTION 2. That in case the grantee of any such franchise, his successors or assigns, shall fail or neglect to perform and fully comply with all the conditions, reservations and restrictions contained in such franchise, then the said sum of $100 shall immediately become forfeited to the city for the purpose of paying attorney's fees for drafting ordinance repealing such forfeited franchise and the costs and expenses of publishing the same; and the said sum of $100 shall, as soon as any such franchise has been granted, be placed in the current expense fund to be used in the manner provided in this ordinance.

SECTION 3. All the conditions and provisions contained in sections 1 and 2 hereof shall apply with like force and effect to any application for renewal or extension of any franchise heretofore granted or which may hereafter be granted and to all renewals or extensions of such franchises.

SECTION 4. This ordinance shall take effect and be in force from and after its passage, approval, and from and after five days after the date of the publication of this ordinance. Ordinance No. 305 is hereby repealed.

Passed, the City Council Mar. 5th, 1902.
Approved, March 5th, 1902.
Published, March 7th, 1902.

THE HOME GOLD CURE.

An Ingenious Treatment by Which Drunkards are Being cured Daily In Spite of hemselve.

No Noxious Doses. No Weaking of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that the drunkeness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of drunkers into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS! ! CHILDREN CURE YOUR FATHERS! This remedy is in no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. thousands of drunkards have cure themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. E637 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

S. J. Lutz & Co., have a very liberal offer in this issue. They sell you a regular $10 G. A. R. suit for $9, and throw in a G. A. R. hat worth $2, a fine gold cord worth 25c, and a full set of G. A. R. buttons worth 25c.

Watson Brothers, the butchers, received a new six-ton platform scale yesterday which they will have erected at the entrance to their yards at Front and Lincoln streets.

Through a typographical error G.A.R. suits, with hat, cord and buttons were advertised in Lutz' display at $10.00. It should have read as it appears this week a $10 suit for $9 making each purchaser a present of the other articles.

Port Angeles Lodge No. 54, A. O. U. W., gave an enjoyable social dance and supper at their hall last Friday night and invited the ladies auxiliary and the wives and sweethearts to help make the evening joyful. They kept good hours, too, being on the way home before the midnight hour.

Wm. S. Lawson was arraigned before Commissioner Lutz last Saturday on the charge of smuggling certain dress goods from the British side. The defendant was bound over to appear before the grand jury and bonds fixed at $200. Mr. Charles Tillman furnished the required bond Monday. Mr. Lawson was apprehended by Inspector Fisher who found the goods wrapped around his body.

A small blaze damaged the residence of L. H. Smith to the value of $50 or $75 yesterday morning. It originated from a defective flue and smoldered for several hours before breaking out into the open air. Neighbors say they saw the chimney burn out in the early morn but an alarm was not wrung until ten o'clock. The fire burned along the joist between the ceiling and up-stairs floor, running up the studding and rafters between the inner and outer walls and the upper ceiling and roof. Plenty of water was procured before an opening was made and thus the fire was extinguished before it got beyond control. Meanwhile every article was removed from the building. Water did more damage than fire.

Miss Draper is displaying this season the newest and swellest line of Ladies', Misses' and Children's street hats ever brought to Port Angeles. Some of the latest are the Crban, Tuscan braids, Cuban plaques, Cuban bodies. The bleached Hawaiian is a very beautiful roll-brim sailor. The Japanese roll-brim double-edged sailors are of a beautiful satin finish and decidedly up-to-date. The duck hats for ladies and children in the graceful floping trim effects are again popular. Miss Draper has also a complete line of flowers, laces, silk trimmings, jet crowns, dress hats, children's mull hats, muslin hoods, sun-bonnets, tams, patterns, etc. These goods are direct from the east and are selling at eastern prices.

Peter Chambers and J. O. Morse have entered into a contract with the tugboat combine and the steamboat company to furnish 500 cords of wood per month to the various boats of the companies. Mr. Chambers has made nothing furnishing wood in the racks on the dock at $2.50 a cord and did not care to secure more teams to have a constant supply on hand The steamboat people were thinking of changing to burning coal, and seeing the probability of losing a trade that distributed $1600.00 a month among the woodcutters here Mr. Morse agreed to supply two teams. An effort will be made to do away with the practice of hauling wood out of the woods during the wet season.

THE TRUST KILLERS.

The Republican Party's Mania For Destroying Monopolies.

Everybody knows how the Republican party hates trusts, how it denounces them in all of its platforms, how it, by building a high tariff wall around the country and keeping out foreign competition, stimulates "internal competition" among the trusts and in this way pampers them to death; how it has made all of the antitrust laws in existence; how hard it tries to get officials who will enforce these laws; how it rewarded, by forgetting to renominate them, Judge Marshall and Attorney General Monnett of Ohio for trying to enforce antitrust laws against the Standard Oil company; how, under all this harsh Republican treatment of the last 40 years, trusts have withered and died like weeds in rainy weather, until, as Mark Hanna tells us, there are today no trusts; how even after they are all dead this party continues to jump on and kick and stamp the trusts.

Their naturally innate modesty in claiming credit for slaying the trusts was temporarily overcome the other day when the Ohio Republicans in their platform adopted the following plank on the trust question: "The only legislation, national or in Ohio, on this subject has been enacted by the Republican party, and that party can be safely trusted to deal with this problem."

A Two Edged Sword.

Secretary Long has discovered that having a snide historian on the navy department pay roll is a two edged sword. The bureau of fabrication overplayed its hand and Admiral Schley has ten friends where he had one before the so called history was published.

The Neely Farce.

What a farce this Neely business is! There is no intention to convict him. The administration dare not do it because, as Rathbone said, if he suffered there would be others that would suffer, too, implying that some persons much higher in authority were implicated. The government has been making a pretense of obtaining evidence in the case in this country, but nearly all those who were asked to testify or to go to Cuba as witnesses refused to do so. Of course they did.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

PINE HILL NEWS.

Mr. Stillwell's family have gone to their ranch east of town.

Mrs. Critchfield has been seriously sick, but is now convalescing.

Mrs. Albert Petterson expect to depart for San Francisco the 29th.

Mrs. Jarnuette McDonald has about recovered from her recent illness.

The Bible Study class at home of E. S. Doyle is increasing in interest and attendance.

Mrs. Underwood has been in the country this week for her health's benefit, visiting Mrs. Emery.

Mrs. John Gutenberg left for St. Paul Wednesday morning on an extended visit among relatives and friends. Her many Pine Hill friends were sorry to see her depart.

A sad case is that of a family by the name of Flood, who came here about five weeks ago from Michigan. Mr. Flood disposed of his holdings back east and at Seattle his wife was taken seriously ill. Arriving here her condition was most serious and only by prompt attention was her life spared. To add to their afflictions their children, three in number, were taken down of measles, and the husband also has been ill. They may return to Michigan in a short time. The family live on Tumwater Hill.

Schley and Santiago
BY GEORGE EDWARD GRAHAM.

The intrepid Associated Press war correspondent, who was aboard the U. S. S. Brooklyn during the entire five months of the campaign. Illustrated with photographs taken by the Author during the fight.

The Most Sensational Book of the Day.

The true story of the famous cruise of the Flying Squadron under Commodore Winfield Scott Schley, including the blockade and destruction of the Spanish fleet, TOLD FOR THE FIRST TIME.

Contains an autograph endorsement and personal account of the battle by Rear-Admiral Schley.

"The facts of the story of the movements and operations of the Flying Squadron as the author tells them in this book are correct."
—W. S. SCHLEY.

An interesting narrative of facts. Explains the so-called "Retrograde Movement;" the "Loop;" the "Coaling Problem," and settles conclusively every adverse ruling of the Court of Inquiry.

PRESIDENT ROOSEVELT, when Governor of New York, said:—"Mr. Graham's story is the best account I have heard or read of the naval fighting during the war. It needed just as much courage to go about taking photographs as it did to work the guns."

THE NEW YORK HERALD says:—"Mr. Graham, in the telling of facts, leaves the reader free to make the deduction that several naval officers need a Court of Inquiry to re-establish their reputations, if they can be re-established."

No subject has ever been before the public that has interested everybody as the manner in which Admiral Schley has been treated, and the American people demand the ***full recognition of the Hero of Santiago.*** This book tells everything just as it occurred and as the eyewitnesses saw it. Book is selling like wildfire. Liberal commissions. Outfit and books now ready. Send seven 2-cent stamps for canvassing outfit. ACT QUICK. Now is the time to MAKE MONEY.

Price $1.50, $1.75, $2.25, $2.75, according to style of binding desired.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

BREAKERS AHEAD.

The Panic In Germany, and Lessons We May Learn From It.

The dispatches from Berlin give an alarming account of the panic raging in Germany. "A fatalistic tone possesses the bourse," says the Frankfurter Zeitung, "which makes an exceedingly despondent impression and augurs much evil." Banks and financial institutions are failing and the stocks of others falling sharply. And then comes the extraordinary statement: "The ease of the money market increases. Lenders are seeking for borrowers." This shows that money may be plentiful, but few have the security that is required by the lenders; hence there are no borrowers. It is only a year or two ago that there was a big boom in Germany. Combinations or trusts were being formed, trade was expanding and exports were increasing largely. Now a panic prevails, and no one wants the boom stocks at any price, and the banks that have loaned on them are going to the wall.

There is a lesson to be learned from this. We are going through a similar inflation, and our overcapitalized trust stocks and the banks that have underwritten them and made advances on them will be in similar condition to the Germans if care is not used. Let the Wall street gamblers have a monopoly of our inflated stocks and the bad effects of the panic which is sure to come will be greatly lessened except in Wall street, which has created it.

The New York Sun is controlled by the trusts, as are nearly all the Republican daily newspapers. It therefore calls the demand in the Ohio Democratic platform for their suppression "a monstrous proposition," and continuing its comment says: "Were there any way of carrying it into effect, industrial disaster more widespread and ruinous than has ever fallen upon the country would be the result. There would be a commercial cataclysm. The amount of capital and of labor dependent upon these combinations is so vast that to crush them would be to bring on unparalleled economic calamity, compared with which the free coinage of silver would have been a fly bite."

Mr. Bryan in The Commoner replies: "So we are to have a panic and all sorts of calamity if we destroy the trusts? Well, this is discouraging. But it only shows that there is running through all the Republican policies the same vicious principle, and every policy is defended by the same brutal argument, 'Accept our policies, submit to our demands or we bring on a panic.' Some think that they can make peace with the money trust and then fight the other trusts, but it is a vain hope. There is no middle ground. The Democratic party must be with the people entirely or against them entirely. The moment it begins to compromise it loses more than it can possibly gain."

Life Guards.

The Life Guards are two regiments of cavalry forming part of the British household troops. They are gallant soldiers, and every loyal British heart is proud of them. Not only the King's household, but yours, ours, everybody's should have its life guards. The need of them is especially great when the greatest foes of live, diseases, find allies in the very elements, as colds, influenza, catarrh, the grip and pneumonia do in the stormy month of March. The best way that we know of to guard against these diseases is to strengthen the system with Hood's Sarsaparilla—the greatest of all life guards. It removes the conditions in which these diseases make their most successful attack, gives vigor and tone to all the vital organs and functions, and imparts a genial warmth to the blood. Remember the weaker the system the greater the exposure to disease. Hood's Sarsaparilla makes the system strong.

A WORTHY SUCCESSOR

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARR CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE.
