WEALTH OF CLALLAM COUNTY

Total Valuation, as Equalized, $4,267,854, an Increase of $1,694,011.

Clallam county's assessed valuation, as equalized by the Board, is placed at the grand total of $4,267,854, an increase of $1,694,011 over the assessment for 1905. Of this $4,017,262 is realty, increased from $2,380,911; and $250,592 personal, increased from $192,932.

The assessed valuation of acreage, not including additions, is given at $3,223,-256; additions $122,164; city realty $671,-841; city personal, above exemptions, $78,615.

There are 455,292.93 acres assessed in the county, of which 14,463 are fenced, 8,546 improved and 446,616 unimproved; assessed value of improvements on land $89,615.

PICNIC AT MORSE CREEK

Contests of Speed and Strength Please Children.

On Friday last the members of the school and various friends were taken to Morse Creek by several conveyances for a day in the woods. Trout fishing immediately claimed its devotees among the boys while the elders set the coffee pot aboiling and prepared a bounteous lunch, which disappeared as soon as spread. The afternoon was occupied by ring games, ball, strolling, etc., until the races were begun at three o'clock. Mr. McNutt acted as judge, Mr. Edwards as starter and badges were bestowed upon the victors by Miss Bernice Allen. The honors in the fat men's race were borne off by Warren Morse and Mr. McLaughlin. The first 50-yard dash was won by Lyle Beam, Norman Cloukie second; the second dash for the younger boys was won by Duane Allen, Charlie Beam second; the potato race was won by Fred Ramsay, Bessie Fowler second; in the three-legged race the winning combination was Duane Allen and Clarlie Beam. There was a 50-yard dash for the little girls and a relay race for the young ladies. The most hotly contested event was the tug of war. All took part in this and great was the dust they raised.

After the last water melon was disposed of the party gradually found their way out of the woods and wended the dusty road homewards. All voted it a good time. Teams were furnished by Wm. Graham, A. J. Cosser and C. C Henry.

COLLISION AT PORT CRESCENT

Engineer Killed; Fireman Badly Injured.

Edward Fields was brought to the hospital Saturday night with a fractured leg, which injury he received in a collision of two engines at Port Crescent that afternoon. Wm. Sharrar, one of the engineers, was killed; he was a married man, his wife living at Crescent.

The sale of tickets for the excursion on the Indianapolis Tuesday must have been considerable of a surprise to the management of the steamboat company. Some 800 came down and it is said fully as many more were left at the dock when the steamer reached her capacity limit. The company should run another later, when the atmosphere is clear and the ride down the straits a real scenic treat. While many took the advantage of the opportunity to spend the afternoon with relatives and friends here, there were a goodly number of people from eastern points, gaining their first impressions of this country.

At the services held Sunday, the 26th at Seguin, Rev. Mr. Cheal held Holy Communion and baptized a class of 8. Mr. and Mrs. Muskett, who were present, report a good congregation. After the service, what they thot to be a wedding ceremony was held, but it proved a rehersal, the prospective bride and groom being Mr. John Potter and Miss Quinn.

ANNOUNCEMENTS

STATE REPRESENTATIVE.

I hereby announce my candidacy for the nomination of State Representative, subject to the action of the Republican county convention. C. W. THOMPSON.

UNKNOWN QUANTITIES

Such Things Never Heard of in Clallam County

There are four columns, right in the center of the pages giving the recapitulation of assessable property in the county, now on file in the auditor's office, which have somehow managed to preserve their virgin spotlessness. Not a scratch of a pen, nor a drop of ink, has marred the bookbinder's art. They are headed:

Monies and Credits of Banks, Bankers, etc.

Monies on Hand or on Deposit, etc.

Notes, Accounts, Tax Certificates, Mortgages.

Bonds, Stocks and Shares.

It has been rumored that the editor of the Clallam Bay Record held the proud distinction of being the only man in the county with these various evidences of wealth to his credit on the assessor's rolls, but like many another fond delusion, the truth was not in it.

WEDDING BELLS AT SEGUIN

Prominent Rancher of Prairie Town Marries Minnesota Bride.

"The voice that breathed o'er F-den,
That ear-liest wed-ding-day,
The pri-mal marriage bless-ing,
It hath not pass'd away."

The marriage of Miss Elizabeth Ellen Quinn and Mr. John Charles Potter took place at St. Lukes Church, by Rev. James Cheal, Tuesday, noon, Aug. 28.

The bride was gowned in white Japan silk, with vest of tulle caught up with white rosebuds and carried Brides roses. The groom wore a black suit.

Miss Florence Wooden, in pale crepe de Paris, was maid of honor, carrying Bridesmaid roses.

Mr. Vernon Grant was best man.

Hazel Grant, with Lily Fetterly, (little maids of seven), strewed flowers before the bride and groom; while Flora McDougall, aged three, carried the ring on a silver tray.

The bride and groom marched up the aisle to the beautiful strain of Mendelssohn's wedding march, played by Mrs. Gordon.

The church was beautifully decorated with pink and white flowers over a ground of smilax and asparagus.

The bride and groom stood under an arch, where was suspended in white flowers the emblem of The Trinity, with a ring composed of golden-rod in its center. After the records were duly signed, the happy couple passed out to the usual recessional music. Their host of friends surrounded them and an informal reception followed. The bride threw her bouquet to be caught by some fair maiden—Miss Gladys McGeorge and Miss Wellie Miller both shared in the spoil; a shower of flowers fell upon Mr. and Mrs. Potter as they approached their carriage.

A reception was given at the home of the bride, Mr. and Mrs. Thos. Quinn, Port Williams, where sixty guests partook of a sumptuous repast.

John Charles Potter is the youngest son of Mr. and Mrs. B. R. Potter, of Seguin, who celebrated their golden wedding one year ago the 28th of August.

Mrs. Potter is the only daughter of Mr. and Mrs. Thos. Quinn, who came to Port Williams over three years ago from Minn. She soon won a host of friends. In the church she is a willing helper.

Mr. and Mrs. Potter will make their home at Seguin, where they have a lovely new cottage to go into. They left Wednesday morning on the Rosalie for up sound cities.

KNIGHTS OF KING ARTHUR

Castle of Boys to be Organized this Evening.

A local castle of the Knights of King Arthur, the largest organization for boys in the country, will be launched in Angeles tonight, when some twenty lads of from twelve to sixteen years will take the degree of Page. Rev. G. N. Edwards and W. T. Stewart are the moving spirits in getting the local castle started, they having become familiar with this order in other places.

The order, which is comprised of some 400 castles, several being in this state, is not especially tributary to any church, but of course the work is of an uplifting character. The three first degrees conferred are Page, Esquire and Knight, and there are others higher for special proficiency. Rev. Edwards states the young people become so interested in the round table work and gymnasium exercises they would meet several times a week were it possible. The order certainly is capable of great good and should have a large membership; it will also be in order for some of the ladies to take up the auxilliary work for girls.

The City Council

The sum of $100 was ordered expended in repairing walks and road up Tumwater Hill, the action being taken in response to a petition for such improvement signed by 54 of those interested.

Ordered that a 33-ft. approach be built on the alley east from Oak, between Front and First.

Bills allowed: O'Brien $22.50; Willson Hdw. Co. $7.70; Jas. Gibson $2.00; O'Brien $45.00; McIvor & Swanson $4.35.

Rev. Edwards Will Remain

Rev. Edwards is to remain with us another year, which decision on his part, in response to the unanimous call extended him by the Church, will be good news to the many warm friends both Mr. and Mrs. Edwards have made since they have become residents of Angeles. Here's hoping they may grow gray—in the fullness of time—right here in Port Angeles.

Buys More Elwha Land

Thos. T. Aldwell bought, probably for other parties, the Ben Lewis home of ten acres on the Elwha in sec. 28-30-7 this week, paying $750 therefor.

H. E. Risley has sold Mr. Aldwell the 25 feet adjoining the Olympic office on the west; consideration not given.

The Republican primaries will be held September 8th, to select delegates to the convention of Friday, the 14th.

NO LIMIT TO BUSINESS

Unable to Take Contract for Presbyterian Church

It is far from being a question of securing orders with the Angeles Stone Company these days. During the month just passed they refused over $30,000 worth of business, that amount being just that much in excess of the present capacity of the plant.

First Street Lot Brings $2,000

The enterprising real estate dealer, J. P. Hawkes, profited by the excursion all right. He sold D. Hoffman lot 4 of block 23, being the fourth lot west of the city hall, Al. Freeman owner, for $2,000.

The N. P. surveyors have been at work along the water front this week, taking things easy after running about three miles of preliminary line out in the smoky woods from the beach.

CALLS FOR AID TO VALPARAISO

President Roosevelt Asks People to Give of Abundance.

Oyster Bay, Aug. 27.—President Roosevelt has issued a proclamation for aid for earthquake stricken Chile. The proclamation reads:

"A dreadful calamity has befallen our sister republic of Chile in the destruction by earthquake of Valparaiso and other localities. We at this moment see the City of San Francisoc struggling upwards from the ruins in which a like catastrophe overwhelmed her last spring. We keep keenly in mind that half of the appreciation we then felt for the way in which the people of Europe, Asia and both Americas came forward with generaous offers of assistance. In this time of woe of our sister republic, I ask that our people out of their abundance now strive to do to another as others last spring did to us. The National Red Cross Association has already taken measures to collect any subscriptions that may be offered for this purpose, and I trust that there will be a general response."

Award Contract for New Steamer

Seattle, Aug. 25.—The Morna Company has been awarded the contract for the new steel freight steamer which the Northwestern Steamship Company has been figuring on for the past several months. Street Car Strike at 'Frisco

San Francisco, Aug. 27.—A general strike was declared yesterday, resulting in a general tieup of all the street car lines in this city, with the exception of the Geary and California street cable roads. This action was taken at a mass meeting of the carmen's union to enforce the demands for $3 a day of eight hours made upon the company a week ago. Failing to get a definite reply within the specified time, the carmen, after a brief, but exciting meeting, voted, it is said unanimously, to strike.

TERRORISTS' WORK

UNSUCCESSFUL ATTEMPT ON LIFE OF STOLYPIN.

Bomb Thrower Invades Country Home of Russian Premier and Drops Bomb With Terrible Effect---Stolypin Escapes, but Many Others Are Killed.

St. Petersburg, Aug. 27.—Thirty-two are dead and more than thirty wounded as a result of an attempt Saturday afternoon to assassinate Premier Stolypin with a bomb while he was holding a public reception at his country house on Aptekassy island. The premier was slightly wounded on the face and neck by flying splinters.

The terrorist who carried the explosive into the house was literally converted into pulp by the force of the explosion. Inside the gendarme coat which he had on was found the death sentence of Premier Stolypin that he had tried to execute. The police refuse to make public the contents of the document.

The tragedy created a tremendous sensation here and extra editions of the newspapers were sold in the streets until midnight. In the clubs, where officials and officers were gathered, the most intense indignation prevailed, and the prediction was freely made that the revolutionists would pay dearly for such senseless crimes, and no doubt was entertained that their only effect would be to drive the government to more severe methods of repression.

From information received from revolutionary sources it is certain that the crime was committed by the fighting organiaztion of the social revolutionists in retaliation for the war which the government has been waging against them. Since M. Stolypin's accession to the premiership over 1,000 of their members have been arrested, 400 in St. Petersburg alone, and many of these have been deported.

St. Petersburg, Aug. 27—Saturday's unsuccessful attempt on the life of Premier Stolypin, with its sickening slaughter of thirty-two persons, was followed last night by another revolutionary outrage, in which Gen. Min, commander of the Seminovsky guard regiment, and who, since his promotion to be a general, has been attacehd as a personal adjutant to the suite of the emperor, was killed on the station platform at Peterhof by a young woman who fired five shots into his body from an automatic revolver and then, without resistance, submitted to arrest.

The capture of the girl was effected by Gen. Min's widow, who held her until the arrival of an officer. This was the third successive attempt on the life of Gen. Min, who was condemned to death by the terrorists immediately after the Moscow revolt last Decmeber on account of stern repression practiced by a battalion under his command, and especially for the wholesale execution of persons condemned by drumhead courtmartial for being caught with arms in their hands.

St. Petersburg, Aug. 27.—Talk of a military dictatorship is again in the air. Grand Duke Nicholas Nicholaivtch, who has jost returned from calling on Premier Stolypin, is especially in favor of the plan. Grand Duke Nicholas and other grand dukes went to the emperor to demand his authorization, but up to the present moment this has not been received.

STANDARD OIL WANTS DISTILLING PLANTS

Chicago, Aug. 28.—The Standard Oil Company has taken steps toward acquiring ownership of all the principal distilling plants in the United States, according to a special dispatch to the Tribune from Peoria, Ills.

A conference was held Friday last in Chicago between representatives of the distilling interests and the Standard Oil Company. A price has been set on every distillery in Peoria and indications are a deal will be effected and the plants will pass into the hands of the Standard Oil Company soon.

The price asked, it is said, was considered too high by the Standard Oil people, and the latter threatened, if suitable terms could not be reached, they would build distilling houses of their own.

Fraud in Mining Patents

Conconully, Aug. 27.—A number of placer claims that have been patented within the last six years, along San Poli creek and the Columbia river, wcill have to be vacated. These are some of the finest orchards in the district, and Capt. Webster, Indian agent for the Colville reservation, has been busy, at the request of the department of the interior, securing the evidence of fraud in the proving. He has stated that he finds in a number of instances work in digging irrigation ditches has been sworn to as assessment work on a mining claim, and steps will be taken by the government to rescind the patents and punish the offenders.

Acting Governor of Warsaw

Warsaw, Aug. 28.—Gen. Von Liarliarski, acting military general of Warsaw, was shot and killed yesterday afternoon while driving in a cab. The assiassin escaped.

MILWAUKEE RUSHING WORK

Fifteen Grading Camps from Snoqualmie to Cedar Valley.

Seattle, Aug. 27.—Fifteen grading camps have been established along the route of the Milwaukee road between the summit of Snoqualmie pass and the point where the line of the road enters the Cedar river watershed at the city's power station. Already more than three miles of the grade on the west side of the pass have been completed. Much clearing has been done along the right of way at different points where the camps have been established. All work at this time is concentrated on this clearing and only light grade work. Rock excavation in the pass and along the entire line is left for fall and winter.

The construction has been let out in small sections to subcontractors by H. C. Henry, who has the contract for the line in Washington. All contracts have been awarded with the provision that the line through the pass is to be completed before the winter makes construction impossible. It is now estimated that the road through the pass will be completed by the time specified, despite the delays occasioned by the controversy over the entry through the Cedar river watershed. Trains through the Snoqualmie pass will be operated with switchback until the tunnel is completed.

It is planned to construct the tunnel next winter, when it will be impossible to carry on other construction work in the mountains. The heavy rock work will be handled at the same time.

GOVERNMENT'S BID FOR PEASANT VOTE

St. Petersburg, Aug. 27.—The government has decided to proceed with its original plan for settling the agrarian question, regardless of parliament, and go to the country upon the issue at the coming election. An imperial ukase will almost immediately be issued directing the agrarian commission to begin the distribution of 1,800,000 dessiatines (a dessiatine is about 2½ acres) belonging to the appanages, 4,000,000 dessiatines belonging to the crown and 2,000,000 dessiatines of land offered for purchase through the Peasants' bank.

Only the forest lands belonging to the state, the preservation of which is considered necessary for the future agricultural prosperity of the country, will be reserved.

The transaction will be financed through the Peasants' bank. Little cash will be required. The landlords and other sellers will be given marketable land scrip, eventually redeemed by the peasant purchasers in installment notes designed to meet the interest and amortization.

The emperor will not give the land of the imperial family as a free gift, but like other landlords he will accept scrip. It is not believed that any parliament will ever dare to repeal this temporary law.

Nearly all the present restrictions upon the peasant class will also be removed. This is in substance the government's bold bid for the support of the Russian peasant millons against the propaganda of the revolutionists.

OFFICERS OF PERRY ASCEND NEW PEAK

Washington, Aug. 27—The treasury department has received a brief report of a visit made by the officers of the revenue cutter Perry, a few weeks ago, to the new peak which recently sprang up on Fire island, one of the Bogoslov group of the Aleutian islands, about sixty miles west of Unalaska.

The southern end of Fire island consists of two long spits from a half to three-eights of a mile in length and about fifteen feet above high water.

On the western spit the new volcanic peak has sprung up, rising abruptlv from the water to a height of about 700 feet and in shape resembling a monster beehive, with a base 900 feet in diameter. From numerous crevices columns of steam and sulphurous smoke continuously rise and form a cloud which is visible for more than thirty miles.

Although the surface of the new peak was warm and soft in places, the officers succeeded in reaching the summit. In recognition of the fact that the officers of the revenue cutter Perry were the first persons to visit the new peak they named it "Perry peak."

Strike Breakers for 'Frisco

San Francisco, Aug. 29.—The principal developments in the street railway strike yesterday were the receipt of a report that Thomas M. Farley, professsional strike breaker, had left New York with 700 nonunion men; the statement of Thornwall Mullally, assistant to President Calhoun, declaring that the United Railroads was finding no difficulty in engaging men to fill the places of the strikers, and the meeting of ten unions connected with the electric and cable roads, including ironworkers and teamsters, who decided to fully support one another in the present controversy.

Selecting Site for Lighthouse

Vancouver, B. C., Aug. 27.—Chief Hydrographic Surveyor W. T. Stewart, of the federal department of marine, is now in Northern waters on the Canadian cruiser Kestrel, engaged in the selection of sites for lighthouses, fog alarms and other aids to navigation for the use of shipping which will shortly make use of Prince Rupert harbor.

AGAINST STANDARD

OIL OCTOPUS INDICTED ON THOUSANDS OF COUNTS.

Chicago Grand Jury Returns Ten True Bills, Charging 6,428 Offenses Against Anti-Rebate Law---Penalty Not Less than $1,000 for Each Conviction.

Chicago, Aug. 28.—The first and second federal grand juries yesterday returned ten indictments against the Standard Oil Company before Judge Bethea in the United States circuit court.

The indictments, which contained 6,428 counts, are all in connection with the granting of rebates. No railroad was mentioned in the indictments.

Each of the 6,428 indictments covers an alleged offense and is based on a tank car shipment of petroleum products from the refineries at Whiting, Ind.

According to a statement issued after the indictments had been returned from the offices of the United States district attorney these shipments were carried by the following roads:

Chicago, Burlington & Quincy, Chicago & Alton, Chicago & Eastern Illinois, Evansville & Terre Haute, Illinois Central, Southern Railway and Lake Shore and Michigan Southern.

Character of Concessions

According to this statement, the Burlington and Alton roads "Had published lawful rates of 18 cents per hundred pounds to East St. Louis from Whiting and 19½ cents to St. Louis, but carried oil for the Standard Oil Company on a secret unpublished rate at 6 and 7½ cents to those points respectively."

The statement then continues

"On shipments to points in the South, beyond Grand Junction, the Standard Oil Company should have paid the different lawful rates for the different points of destinatiion, but was given concessions which averaged about 27½ per cent of the published rate. The same is true of the shipments handled by the Chicago & Eastern Illinois and Evansville & Terre Haute to Evansville, Ind., and points beyond.

"The concessions given to the Standard Oil Company by the Lake Shore & Michigan Southern road were in the shape of cancellation of storage charges at Chicago of 5 cents per ton per day on all oil in delivery. Other oil shippers were compelled to pay the storage charges."

It was stated by the district attorney's office that the penalty for each offense alleged in the indictments is a fine of not less than $1,000 nor more than $20,000.

EUROPE APPLAUDS ROOT

Secretary Gets Credit for Sending Drago Doctrine to Hague Conference

London, Aug. 28.—South American affairs and ambitions have been very much in the eye of Europe this week, the chief topics being the financial consequences of the Chilean earthquake and the decision of the Pan-American congress to submit the Drago doctrine to the next conference at The Hague.

Mr. Root has come in for general commendation, because the press of Great Britain, Germany and France believe it was his personal influence more than anything else that prevented the congress from taking the unwise and provocative course of declaring the doctrine to be a part of international law without further ado. On this point the attitude of the Berlin press is highly flattering to the Americans. So far from adopting the insolent tone in which a leading Russian paper referred recently to Mr. Root's partipation in the congress and his visit to South America—a ludicrous burlesque of the policy of the Washington government—the German writers admit the fairness of his course in overruling the mistaken Latin sentiment that too long has perverted the administration of South American states.

"The sound principle that Europe should be invited to give assent to departures in international law," says one of the best reviews on the question printed in Paris, "is clearly established by all the American republics. Will the day dawn when the Monroe doctrine, which is as arbitrary an asumption as the Drago doctrine, shall be merely presented for international approval? Is Washington willing to follow its logic to the end?"

STATES TO BE INVITED

All to Be Asked to Have Buildings at Alaska Fair.

Seattle, Aug. 29.—Every state in the Union which has a session of the legislature next January will be visited before that time by a special commissioner from the Alaska-Yukon-Pacific exposition and urged to make appropriation for buildings at the big Seattle fair in 1909.

Maj. T. S. Clarkson has been appointed by the publicity committee to take charge of the campaign and push it vigorously. Maj. Clarkson, now a resident of this city, was director general of the Omaha exposition and was last year connected in an official capacity with the Lewis and Clark exposition at Portland. Ten years ago he was commander in chief of the Grand Army of the Republic.

September 6—Snohomish, Skamania, Skagit, King, Whatcom and San Juan.

September 7—Clarke, Jefferson, Cowlitz, Island, Wahkiakum, Clallam, Kitsap and Chehalis.

September 8—Pierce, Lewis, Thurston, Mason and Pacific.

September 15—All railroad representatives.

The rules adopted by the board last year will govern at this meeting.

PRESIDENT ADOPTS REFORMED SPELLING

Oyster Bay, Aug. 27.—President Roosevelt has indorsed the Carnegie spelling reform movement. He has issued orders to Public Printer Stillings that hereafter all messages from the president and all other documents emanating from the White House shall be printed in accordance with the recommendations of the spelling reform committee headed by Brander Mathews, professor of English at Columbia.

This committee has published a list of 300 words in which the spelling is reformed. The list contains such words as "thru" and "tho" for through and though.

The president's official sanction of this reform movement is regarded as the most effective and speediest method of inaugurating the new system of spelling throughout the country. Not only will the printed documents emanating from the president utilize the reform spelling, but his correspondence also will be spelled in the new style.

As the spelling reform committee shall adopt new reforms those will be added to the president's list and also to that of the public printer.

While the order to the public printer just issued does not contemplate an immediate reform in the spelling of official documents from the executive departments in Washington, it is regarded as more than likely that the respective heads of departments will fall into line with the president's ideas and have their official documents printed in the new spelling.

CHILE APPROPRIATES MONEY FOR SUFFERERS

Valparaiso, Aug. 25.—Fernandez Blanco, governor of the province of Valparaiso, has proclaimed the city of Valparaiso in a state of siege and has conferred supreme authority on Navy Captain Gomez Carreno. The prefect of police is charged with the duty of collecting and distributing food. Meat and bread are scarce. Meat is now being distributed by the authorities. The grocery shops which were not destroyed by the earthquake are nearly out of stock. The water supply is fairly adequate.

Telephone and telegraph communication with Santiago has been re-established, but the lines are used almost exclusively by government officials.

As a first installment the government has appropriated $40,00,000 for the relief of the destitute. The custom house has been reopened and traffic by rail and water has been resumed. The postal service is also in operation.

A movement is on foot to organize a company to facilitate the raising of the money necessary to reconstruct the city. It is proposed to advance the amount needed without interest for the first six months.

All the provinces of the north and south which have not suffered from the earthquake are sending supplies of food and money.

The department of public works at Santiago has appropriated $100,000 for the construction of sheds to shelter the refugees.

New York, Aug. 25.—The directors of the Merchants' Association has ordered a letter sent to the members of the association and other citizens of New York, asking subscriptions for the relief of the earthquake sufferers in Chile.

American Consulate Destroyed

Washington, Aug. 25.—Robert S. Atkins, the American vice consul at Valparaiso, has sent a dispatch to the state department announcing that everything in the American consulate in that city was destroyed and no supplies are available.

New Spelling in Departments

Washington, Aug. 29.—The president's order reagrding phonetic spelling will be extended to all parts of the government. By his direction all documents are to be printed with that form of spelling. A meeting was held Monday, called by Public Printer Stillings. of all the chief clerks of the various departments and a committee was appointed to formulate rules for carrying out this order. The committee will report at a future meeting.

WORN TO A SKELETON.

A Wonderful Restoration Caused a Sensation in a Pennsylvania Town

Mrs. Charles M. Preston of Elkland, Pa., says: "Three years ago I found that my housework was becoming a burden. I tired easily, had no ambition and was fading fast. My complexion got yellow, and I lost over 50 pounds. My thirst was terrible, and there was sugar in the kidney secretions. My doctor kept me on a strict diet, but as his medicine was not helping me I began using Doan's Kidney Pills. They helped me at once, and soon all traces of sugar disappeared. I have regained my former weight and am perfectly well."

Missed the Whip.

When the summer resident offered to show his new automobile to Uncle Ephraim Dodge of Cyrusville, and explain all the workings of the machine, his offer was promptly accepted.

The old man's face wore its most impassive look as he listened to the explanations and descriptions of the various details; he felt of handles and levers, wheels and boxes as he was requested to do; lay flat to investigate the workings of mysteries under the vehicle; bent double and squinted at half-hidden gearing, and put his foot in several designated places.

At last the inspection was over, and the owner, flushed and full of pride, waited for Uncle Ephraim to speak.

"Going to run that up here, be ye?" inquired the old man, after a silence.

"Yes, indeed, these roads are all right for it," said the owner.

"Um-m!" and Uncle Ephraim stroked his beard reflectively. "Well, how do you puppose to git red o' the' boys that'll be on the back o' your wagon, sir? Strikes me there's a consid'able of a lack that way."

CATCHING YOUNG FOXES.

Hunters Buy Cubs from Boys, Raise Them and Turn Them Loose.

The eastern part of North Carolina teems with gray foxes, and any alert boy can make from $1 to $25 a day catching them and selling them to the hunters in this section of the State, according to a writer in the Charlotte Observer.

"How do they catch them?" was asked.

"That is easy; the old fox deposits her babies in a hollow log or a stump, and an old dog will find them for the hunter Once they are located they are watched until large enough to take away from the mother, and then they are removed to the home of the man who ships them. A little fox will eat anything that a young dog will, but he prefers raw meats and rats. When about the size of a house cat they are sent to the man who would have them increase in his section of the State. They are kept until blackberries are ripe, and then turned loose in some thicket, where they can forage for themselves."

"What about your neighbors' chickens."

"A fox that eats chickens should be killed, for he is an exception to the rule. He is like a suck-egg dog, once he gets a taste of chicken he will always have it, and the desire for barnyard poultry is so great that he cannot restrain himself. There are ten foxes to one that never visit a poultry pen. The sweetest morsel to the fox is a ground rat, these little fellows that make paths in the grass and destroy birds' eggs. When the foxes were plentiful in this country we had partridges in great aboundance, but now that fine little game bird has almost disappeared from certain sections. The ground rat is largely responsible. When the fox passed on to other regions, where he finds it more congenial, the rat family multiplied. Any observant farmer will tell you this. I have turned about seventy young foxes loose in this country within the last three years, and if any of them ate chickens I have never heard of it; they had fine, fat rats to feast upon. I have made a rule not to turn too many loose in the same territory. If reds, they do better scattered one or two in a place.

"This thing of buying young foxes in the east and turning them loose here is all right. The little fellows are cared for and watched until all of the cotton is out, and then chased, most of the running being done after Christmas. The fox is given a chance."

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Tapioca Custard.

Soak three tablespoonfuls of pearl tapioca over night in water. In the morning put one quart of milk in a double boiler, and when it reaches the boiling point stir in the tapioca, which should be well drained. Cook about five minutes. Add yolks of three eggs beaten with one-half cupful of sugar and one-half teaspoonful salt; when it thickens, take from fire and flavor. Beat the whites of the eggs stiff with three tablespoonfuls of sugar, spread over the pudding and brown lightly in oven.

TO BATHE OR NOT TO BATHE.

"When doctors disagree, who shall decide?" The much discussed question of bathing has lately been brought up at an important medical meeting, and the opinions on the subject are as widely separated as the cities of the doctors who advanced them. Cold water, hot water, tepid water, dry rubbing, frequent baths, few baths—all have their ardent advocates. Everyone may be suited, from the country guest at the Waldorf-Astoria, who found the big white tub so enticing that she declared she could hardly wait until Saturday night, to the lady who confessed to washing and powdering herself twelve times in thirteen hours.

Different persons hold different ideas in regard to the value and use of water. The Frenchman who refused to consult an English physician, because, as he said, "He will order me to bathe and then I shall die," could not sympathize with the Somerset farmer who remarked when he first saw the sea, "If I'd known what her were like I'd ha' brought down a bit o' soap and had a good wash."

Sinclair's "Code of Health," an old book published in 1807, quotes, as a laudable example, an extract from a letter written by Dr. Adam Ferguson. The worthy physician's conclusions on the subject may prove amusing to modern readers:

"Why I took to warm bathing I cannot give any precise account of, but so it was, that I borrowed a bathtub and used it frequently; but, mind, I was turned of fourscore and had little else to do; and this, whether from age or infirmity, is required to excuse so much waste of time.

"Bathing is most natural, I take it, in countries whose people are made idle by extremes of heat and cold. I have always wondered how the Romans could afford to give so much time to it, but they were very idle, especially under the emperors.

"I have not found any particular precaution against those occasional checks to animal life called colds, at all necessary on bathing days, and I am less subject to these acidents since I began bathing, except on occasional intermissions of days or weeks of bathing. I now bathe every day when there is no particular hindrance."—Youth's Companion.

Weighty Joke.

"What's old man Groucher kicking about?" asked the hardware dealer.

"Wanted ten pounds o' nails," replied the clerk, "an' wouldn't trust us to send 'em. Insisted on taking them with him."

"Huh! I hope he'll sweat for it."

"I'll bet he will. I sneaked five or six extra pounds of 'em in the package."—Philadelphia Press.

CONTAGIOUS BLOOD POISON

HUMILIATING—VILE—DESTRUCTIVE

The very name, Contagious Blood Poison, suggests contamination and dread. It is the worst disease the world has ever known; responsible for more unhappiness and sorrow than all others combined. Nobody knows anything about the origin of this loathsome trouble, but as far back as history goes it has been regarded the greatest curse of mankind.

No part of the body is beyond the reach of this powerful poison. No matter how pure the blood may be, when the virus of Contagious Blood Poison enters, the entire circulation becomes corrupted, the humiliating symptoms begin to appear, and the sufferer finds himself diseased from head to foot with the vilest and most destructive of all poisons. Usually the first symptom is a small sore or ulcer, so insignificant that it rarely ever excites suspicion, but in a short while the skin breaks out in a red rash, the glands of the groin swell, the throat and mouth ulcerate, the hair and eye-brows come out, and often the body is covered with copper-colored spots, pustular eruptions and sores.

There is hardly any limit to the ravages of Contagious Blood Poison; if it is not driven from the blood it affects the nerves, attacks the bones, and in extreme cases causes tumors to form on the brain, producing insanity and death. No other disease is so highly contagious; many an innocent person has become infected by using the same toilet articles, handling the clothing, by a friendly handshake or the kiss of affection from one afflicted. But no matter how the disease is contracted, the sufferer feels the humiliation and degradation that accompany the vile disorder.

Dear Sirs:—I had a friend who had a bad case of Contagious Blood Poison and was in a terrible condition. He tried all the medicines he could hear of, but nothing did him any good. He went to Hot Springs but it was like the other treatments he had used, and he was in despair of a cure when he heard of S. S. S. After taking it for awhile the sores all healed, his hair stopped falling out, and, continuing with it, he soon found himself cured entirely of this hideous disease. JOHN LESLIE,
Rockford, Ill. 719 W. State St.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever, I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S. and began to improve. I continued the medicine, and it cured me completely. W. R. NEWMAN.
Hamlet, N. C.

Mercury and Potash are commonly used in the treatment of Contagious Blood Poison, but these minerals cannot cure the disease—they merely mask it in the system. All external evidences may disappear for awhile, but the treacherous poison is at work on the internal members and tissues, and when these minerals are left off the disease returns worse than before, because the entire system has been weakened and damaged by the strong action of the Mercury and Potash. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the great vegetable blood purifier. It attacks the disease in the right way by going down into the blood, neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system, and cures this humiliating and destructive disorder permanently.

The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the poison is driven from the blood and the sufferer is completely restored to health. S. S. S. is not an experiment; it is a success. It has cured thousands of cases of Contagious Blood Poison, many of which had given the Mercury and Potash treatment, Hot Springs, etc., a thorough trial, and had almost despaired of ever being well again. S. S. S. is made entirely of roots, herbs and barks, and does not injure the system in the least. We offer a reward of $1,000 for proof that it contains a particle of mineral of any kind. If you are suffering with this despicable and debasing disease, get it out of your blood with S. S. S. before it does further damage. We will gladly send our book with instructions for self-treatment and any medical advice, without charge, to all who write.

You and each of you, are hereby summoned and required to appear within sixty (60) days after the first publication of this notice and summons, exclusive of the first day of publication, to-wit: within sixty (60) days from and after August 24th, 1906, and defend the above entitled action in the above entitled court, in so far as it does or may effect your several interests or estates in or to said lands, or any part thereof, or pay the amount of taxes due severally upon said lands or any part thereof in accordance with your joint or several interests or estate, together with the costs and interest; and in case of your failure so to do, judgment will be rendered foreclosing said tax lien for such taxes, interest and costs due against said lands or lots.

The object of this suit is to foreclose the lien for the above mentioned taxes, interest and costs, and to sell said premises to pay the same.

Any pleading or process may be served upon the undersigned attorney for the plaintiff at the address hereinbelow stated.

Dated this 20th day of August A. D. 1906

In the Superior Court of the State of of Washington, for Clallam county.

E. A. Fitz Henry, plaintiff
vs.
Simon Leeser and Jane Doe Leeser, his wife,

and all persons unknown, if any, having or claiming an interest or estate in and to the hereinafter described real property, defendants.

State of Washington to Simon Leeser and Jane Doe Leeser, his wife, whose true first name is unknown, who are the owners, or reputed owners, of, and all persons unknown, claiming or having an interest or estate in the hereinfter described real property.

You and each of you are hereby notified that the above named plaintiff,

E. A. Fitz Henry,

is the holder of a delinquent tax certificate No. 1689, issued by the treasurer of Clallam county, Washington, embracing the following real property situated in Clallam county, Washington, and more particularly described as follows, to-wit:

Lots 5, 6, 7, 8, 9, 10, 11 and 12 of block (5) five of Carlton's addition to the city of Port Angeles, Clallam county, Washington.

That said certificate was issued on the 4th day of May 1906, for the sum of $11.35 for the delinquent taxes for the years 1899, 1900, 1901, 1902, 1903 and 1904: that the taxes for the following years have been paid by the plaintiff, to-wit: the year 1905 the sum of $1.28; which several sums bear interest at the rate of fifteen per cent per annum from said date of payment.

You and each of you are hereby summoned to appear within sixty days after the date of the first publication of this notice and summons, exclusive of the day of said first publication to-wit, within sixty days after the 4th day of August 1906, and defend the above entitled action or pay the amount of the taxes due together with the costs, penalties and interests; and in case of your failure so to do judgment will be rendered foreclosing said tax lien for such taxes, penalties, costs and interest against said lands and premises hereinbefore mentioned.

E. A. Fitz Henry, plaintiff.

Geo. Venable Smith, att'y for plaintiff.
P. O. address, Port Angeles, Wash.
Date of first publication, Aug. 4, 1906

Notice of Sale of Real Estate.

Pursuant to an order of the Board of County Commissioners of Clallam County, State of Washington, duly made in regular session on the 5th day of July A. D. 1906, and duly entered on their minutes directing the Auditor to give notice of sale in the manner prescribed by law of the following described real estate, to-wit:

Lots Eleven (11), and Twelve (12) in block Thirty-five (35) and lot Four (4) in block Thirty-six (36) of Norman R. Smith's Subdivision of the Townsite of Port Angeles, and the undivided one-half of Suburban Lot Twenty-seven (27) of the City of Port Angeles, all in Clallam County, State of Washington.

Now, therefore, Notice is hereby given that on Saturday the 22nd day of September A. D. 1906, at the hour of two o'clock in the afternoon of said date, the sheriff of said county and state will sell the above described property.

Said sale will take place at the front door of the court house at Port Angeles, in said County and State, and will be at public auction, for cash in hand, to the highest and best bidder.

Dated at Port Angeles, Washington, this 15th day of August A. D. 1906.

[Seal.]

Order to Show Cause

No. 366.

In the Superior Court of Clallam County State of Washington.

In the matter of the estate of William A. Nichols, deceased.

It appearing to this court, by petition this day presented and filed by Joseph Krajewski, the administrator of the estate of William A. Nichols, deceased, that it is necessary to sell the whole or some portion of the real estate of said decedent to pay the debts of decedent and the expenses and charges of said administration.

It is therefore ordered that all persons interested in said estate appear before said Superior Court on Saturday, the 6th day of October, 1906, at the hour of 10 o'clock A. M. of said day, at the court room of said court, at the court house in the city of Port Angeles, County of Clallam, State of Washington, to show cause why an order should not be granted to said administrator to sell so much of said real estate as shall be necessary, and that a copy of this order be published four successive weeks in a weekly newspaper of general circulation printed and published in said city of Port Angeles.

Dated September 5th, 1906.

Easy Pill

Easy to take and easy to act is that famous little pill DeWitt's Little Early Risers. This is due to the fact that they tonic the liver instead of purging it. They never gripe nor sicken, not even the most delicate lady, and yet they are so certain in results that no one who uses them is disappointed. They cure torpid liver, constipation, biliousness, jaundice, headache, malaria and ward off pneumonia and fevers.

For Thin, Poor Blood

You can trust a medicine tested 60 years! Sixty years of experience, think of that! Experience with Ayer's Sarsaparilla; the original Sarsaparilla; the Sarsaparilla the doctors endorse for thin blood, weak nerves, general debility.

But even this grand old medicine cannot do its best work if the liver is inactive and the bowels constipated. For the best possible results, you should take laxative doses of Ayer's Pills while taking the Sarsaparilla.

MR. BRYAN'S SPEECH

DEMOCRATIC CANDIDATE TALKS ON ECONOMIC QUESTIONS.

Principal Portion of His Speech Devoted to the Question of Trusts and Their Regulation. Favors Government Ownership of Trunk Lines.

New York, Aug. 31.—The home coming welcome of W. J. Bryan was made complete last night, when he was greeted in Madison Square Garden by a throng of welcomers numbering more than 20,000. It was such a welcome as seldom, if ever, has been accorded to a private citizen.

Mr. Bryan's eyes filled with tears as he acknowledged the thundering welcome. For eight minutes, while the great building seemed to tremble and shake from the shouts and applause, he strode nervously from side to side to side of the platform.

Mr. Bryan spoke for an hour and twenty minutes and was constantly interrupted by cheers and applause. He said:

Mr. Bryan's Speech

"Like all travelers who have visited other lands, I return with delight to the land of my brith, more proud of its people, with more confidence in its government and grateful to the kind providence that cast my lot in the United States.

"My national pride has been increased by the abundant evidence I have seen of the altruistic interest taken by Americans in the people of other countries. No other nation can show such a record of benevolence and disinterested friendship.

"My love for our form of government has been quickened as I have visited castles and towers and peered into dark dungeouns, and I am glad that our nation, profiting by the experience of the past and yet unhampered by traditions and unfettered by caste, has been permitted to form a new center of civilization on new sod and erect here a government of the people, by the people and for the people.

"I also return more deeply impressed than ever before with the responsibility which rests upon our nation as an exemplar among the nations, and more solicitous that we, avoiding the causes which have led other nations to decay, may present a higher ideal than has ever before been embodied in national life and carry human progress to a higher plane than it has ever before reached.

"I do not know that I can better show my appreciation of the welcome accorded me by my countrymen than to submit some suggestions drawn from observations during the past year.

Brings Peace Message

"The first message that I bring from the old world is a message of peace. The cause of arbitration is making real progress in spite of the fact that the nations most prominent in the establishment of The Hague tribunal have themselves been engaged in war since that court was organized.

"There is a perceptible growth of sentiment in favor of the settlement of international disputes by peaceful means.

"It was my good fortune to be present at the last session of the interparliamentary union, at which were represented all the leading nations of the world.

"This peace congress, as it is generally known, not only adopted resolutions for the limitation of armaments and the arbitration of all questions relating to debts, but unanimously endorsed the proposition that all questions of every nature should be submitted to an impartial tribunal for investigation or the mediation of friendly nations before hostilities are commenced.

"While the idea is of American origin, it was heartily accepted by the representatives of England, France, Germany and other European countries.

Would Have America Lead

"I believe that if our nation would propose to make with every other nation a treaty providing that all questions in dispute beween the parties should be submitted to The Hague court or some other impartial international tribunal for investigation and report before any declaration of war or commencement of hostilities it would find many nations willing to enter into such a compact.

"I am sure from the public utterance of the present prime minister of Great Britain that such a treaty could be made between the two great English speaking nations, and their example would be followed until the danger of war would be almost, if not entirely removed.

"To take the lead in such a movement would establish our position as a world power in the best sense of the term. And what argument can be advanced against such action on the part of the United States?

"Shall we yield to any other nation in the estimate to be placed upon the value of human life? I confess that my aversion to killing increases with the years. Surely the creator did not so plan the universe as to make the progress of the race depend upon wholesale bloodletting.

"I prefer to believe that war, instead of being an agency for good is rather the evidence of man's surrender to his passions, and that one of the tests of civilization is man's willingness to submit his controversies to the arbitrament of reason, rather than of force."

Mr. Bryan here declared it his opinion that the use of the navy for the collection of debts is unwise. While protecting the lives of our citizens everywhere and guaranteeing personal safety he would give notice that persons engaging in business and holding property in other lands for business purpose must be subject to the laws of the countries in which they engage in business enterprises.

Mr. Bryan spoke briefly of the Philippines, saying that at some future time he would discuss this subject more fully. He believed we should announce our purpose to deal with the Philippines as with Cuba.

The main portion of Mr. Bryan's speech, as was anticipated, dealt with the trusts. He congratulated President Roosevelt on the steps he had taken to enforce the anti-trust laws, and counseled the support of any remedy which promises substantial advantages in the warfare against monopolies. He favored the licensing of corporations engaged in interstate commerce and would forbid privileges to those which endeavored to monopolize trade.

"The control which congress has over interstate commerce is complete, and if congress can prevent the transportation of lottery tickets through the mails, by the express companies or by freight, it can certainly forbid the use of the mails, the railways and the telegraphs to any corporation which is endeavoring to monopolize an article of commerce, and no party can long be credited with sincerity if it condemns the trusts with words only and then permits the trusts to employ the instrumentalities of commerce in the carrying out of their nefarious plans."

The tariff, he said, was closely allied to the trusts, and the reduction of the tariff furnishes an easy means of limiting the extortion the trusts practice.

Railroads and Rebates

"The high tariff has long been a burden to the consumers in the United States and it is growing more and more a menace to our foreign commerce because it arouses resentment and provokes retaliation.

"The railroad question is also interwoven with the trust question. Nearly all the private monopolies have received rebates or secured other advantages over competitors.

"Absolute equality of treatment at the hands of the railroads would go far toward crippling the trusts, and I rejoice that the president has had the courage to press the question upon congress. While the law, as it was finally distorted by the senate, is not all that could be wished, it deserves a fair trial.

"Rate legislation was absolutely necessary and it furnishes some relief from the unbearable conditions which previously existed, but we must not forget that the vesting of this enormous power in the hands of the commission appointed by the president introduces a new danger.

"If an appointive board has the power to fix rates and can, by the exercise of that power, increase and decrease by hundreds of millions of dollarls the annual revenues of the railroads, will not the railroads feel that they have a large pecuniary interest in the election of a president friendly to the railroads?

Favors Public Ownership

"Experience has demonstrated that municipal corruption is largely traceable to the fact that franchise corporations desire to control the city council and thus increase their dividends. If the railroad managers adopt the same policy the sentiment in favor of the ownership of the railroads by the government is likely to increase as rapidly throughout the country as the sentiment in favor of municipal ownership has increased in the cities.

"I have already reached the conclusion that railroads partake so much of the nature of a monopoly that they must ultimately become public property and be managed by public officials in the interest of the whole community in connection with the well-defined theory that public ownership is necessary where competition is impossible.

"I do not know if the country is ready for this change. I do not know that a majority of my own party favors it, but I believe that an increasing number of people see in public ownership the sure remedy for discriminations and for the extortionate rates for the carrying of freight and passengers.

"Believing, however, that the operation of all the railroads by the federal government would result in a centralization which would all but obliterate state lines, I prefer to see only the trunk lines operated by the federal government and the local lines operated by the state governments.

"Some have opposed this dual ownership as impracticable, but investigation has convinced me that it is entirely practicable.

States Government Rights

"As to the right of the governments, federal and state, to own and operate railways, there can be no doubt. If we can deepen the water in the lakes and build connecting canals in order to cheapen railroad transportation during half the year, we can build a railroad and cheapen rates the whole year; if we can spend several hundred millions on the Panama canal to lower transcontinental rates, we can build a railroad from New York to San Francisco to lower both transcontinental and local rates."

Mr. Bryan closed his argument on the railroad question with the statement that the action of the roads themselves had brought about all the agitation in favor of public ownership, and been an argument a thousand times more powerful than all the speeches and arguments of the opponents of private ownership.

UNITED STATES CRUISER HAD BAD ACCIDENT.

Struck in a Fog on Peapod Rock, Twenty Miles from Bellingham. Seven Compartments Were Flooded, But Extent of Damage Not Yet Known.

Bellingham, Sept. 4.—The United States cruiser Boston foundered at low tide in a fog on the rocks of Peapod islands, in the straits of Rosario, twenty two-miles from here at noon yesterday. The torpedo boat Paul Jones, on passing at 3:30, was signaled by the distressed warship, and an effort of an hour was made to pull the Boston free. Finally the rising tide, which throws a strong eddy from the Gulf of Georgia into the strait, forced the Jones to leave the Boston and proceed to Bellingham without her.

The cruiser Boston reached Bellingham under her own steam at 6 o'clock, and at midnight was sinking two miles off shore. The plan of Commander Coffman is to beach the vessel if the water cannot be kept down.

A line of bluejackets, with a string of buckets, is working in conjunction with the pumps to prevent the Boston from going to the bottom. At a late hour an effort to secure fire tugs with strong pumping capacity was being made.

Seven Compartments Flooded

Seven compartments are flooded and the extent of the damage cannot yet be determined.

The cruisers Boston and Princeton and the destroyer Paul Jones were directed to leave Bremerton for Blaine for target practice. The Princeton has reached her destination. The Boston and Jones planned to anchor here last night and proceed early in the morning for the northern town. The order has been countermanded and the future movement of the craft depend upon the outcome of the Boston accident.

The officers and crew of the Jones are at the service of their fellows on the cruiser. The men worked all night keeping down the water.

The Boston is the flagship of the Pacific squadron. She has 4,000 tons displacement and carries 300 men.

Bellingham, Sept. 5.—The inrush of waters on the United States protected cruiser Boston is under control. Repairs are making on the inside of the vessel preparatory to an attempt to move her to Bremerton.

The incessant working of the pumps of the cruiser has kept the vessel afloat since she went on the rocks in Rosario straits Monday, and the inrush of water is now apparently under control. Today an effort will be made to reach the navy yard at Bremerton under the vessel's own steam. The tug Pawtucket, which arrived last evening, will convoy the wounded vessel, to extend relief in case of distress.

Divers have located six holes in the cruiser's hull. In one spot a seam had opened for about three feet. Seven cell compartments are filled and the vessel is slightly listed to port

EMPEROR PROMISES REFORMS FOR CHINA

Peking, Sept. 4.—The emperor has issued an edict promising constitutional government when the people are fitted for it. The edict says:

"Since the beginning of our dynasty there have been wise emperors who have made laws suited to the times. Now that China has intercourse with all nations, our laws and political system have become antiquated and our country is always in trouble. Therefore, it seems necessary for us to further more knowledge and draw up a code of laws, otherwise we shall be unworthy of the trust of our forefathers and the people."

The edict cites the fact that traveling commissioners report that the cause of China's weakness is antagonism between the rulers and the ruled and promises administrative and financial reforms.

When these are fully accomplished and the people have been educated to understand their relations to the government, a constitution will be framed.

A time for putting this into effect, the edict says, will depend upon the rapidity of the nation's progress toward enlightenment.

Peddlers to Test Rights

Spokane, Sept. 5.—Trunk & Clarke, of Spokane, have brought suit for $20,000 against the Spokane wholesale grocers, alleging that the wholesale dealers have refused to sell goods to them because they are trading direct with the farmers of the Big Bend country. It is a test of the peddlers' rights.

Charges Violation of Insurance Law

New York, Sept. 4.—Complaint has been made by the international policy holders committee to StateSuperintendent of Insurance Kelsey that the New York Life Insurance Company is collecting proxies whose date lines are left blank, in violation of a law recently enacted.

Montt Now President of Chile

Santiago, de Chile, Sept. 3.—Pedro Montt, the vice president, who was chosen president on July 27 for five years by the electoral delegates, has been proclaimed president of Chile by the unanimous vote of congress.

DARK FOR PALMA

INSURGENTS APPEAR TO BE GAINING RAPIDLY.

Western End of the Island Overrun With Insurgents, and Eastern End Is Also Becoming Disaffected—Possibility of Intervention Is Discussed.

Havana, Sept. 1.—The situation is far darker tonight than at any previous time since the insurrection broke out. News of an uprising in Santiago province, while not yet published here, is spreading about the city and causing the greatest concern. When Mr. Sleeper, the American charge d'affaires here, was told the contents of the Associated Press Santiago dispatch he endeavored to verify it through the state department, but was told that it was absolutely untrue. Subsequently the dispatch was verified from private and newspaper sources.

The extent of the rising in Santiago is not known, but it is the opinion here that the worst calamity of all to the Palma government would be an insurrection in Eastern Cuba. The Associated Press was informed last night by two reliable eye-witnesses that Cardenas, which hitherto has been considered a perfectly peaceful city, was the scene Thursday of desultory fighting between police and rural guards on the one side and roving insurgents on the other. The only province remaining perfectly peaceful is Puerto Principe.

Railroad Trains Plundered

The Associated Press correspondent at Cienfuegos telegraphed last night that there are 3,000 armed insurgents in that vicinity and that all the small towns in Santa Clara province are controlled by insurgents, who attack and loot trains and seize the property of foreigners, as well as of Cuabns.

Trinidad is surrounded by insurgents,and the government appears powerless to protect the property of Americans and other foreigners. Railway trains are held up at will and passengers searched. The Cuban Central railroad has declined to assume responsibility for the safety of passengers or freight.

The government continues to make fine headway wherever there is open fighting, but the troops have not yet come up with Pino Guerrera, and there is no present likelihood of their doing so, as the troops might march for years and all the while Guerrera would be still just ahead of them in the hills. If Guerrera cared to harrass the government its troops could be killed off by sharpshooters.

To add to the apprehension, the American missionaries of Havana, who are in general charge of the field, say that reports from missionaries outside of Havana are practically unanimous in stating that the insurrection is sweeping all the country districts in the Wetsern half of the island and that they are unable to continue their work and ride over their routes in their several districts.

The increasing gravity of the situation has revived discussion of the possibility of intervention by the United States. La Discussion, the semi-official organ of the administration, in an editorial, calls upon Cubans to lay down their arms and save the republic from the danger of intervention. The article appeals to the patriotism of the people, depicting the terrible conditions which would result from intervention—administrative officers like Tasker H. Bliss, judges like Capt. Pitchers, with their "ten dollars or ten days," beer drinking American ocffiers, with clanking spurs, masters of all.

JOINT RATE HEARING TO BE AT OLYMPIA

Olympia, Sept. 5.—The joint wheat rate case, which is set for hearing at Colfax September 11, before Superior Judge Chadwick, has been transferred to Olympia and will be heard here by Judge Chadwick on Monday, September 17. This arrangement was agreed upon between the commissioners, the attorney general and the attorneys for the railroads.

Coffee Drinkers Deceived

Chicago, Sept. 4.—According to August E. Gans, secretary of the Chicago Cooking school, the coffee drinkers of Chicago are being mulcted out of $1,250,000 annually through the deception of the coffee dealers. He declares he intends to appeal to Mayor Dunne and the state authorities for the enforcement of the state laws prohibiting the sale of goods through deception. Mr. Gans says there is only 12,000,000 pounds of Mocha and Java coffee imported each year, still in Chicago alone last year there were 27,000,000 pounds of the alleged article sold.

Tacoma Well a Disappointment

Tacoma, Sept. 5.—Tacoma is again doomed to disappointment in its temporary water supply with which it had hoped to tide over until the Green river gravity system is perfected. This is because of the failure of the new well at South Tacoma to furnish water enough to run the big pump just installed. A test was made Sunday and the pump worked only a few minutes when the water supply ceased. From this well the water department expected to receive about two million gallons daily.

"Hist, Johnny!" called the old gentleman to the little boy, as the latter edged toward the parlor door. "Come here, son."

The little boy stopped and looked back doubtfully.

"I want you," said the old gentleman. "What do you suppose I've got in my pocket?"

The little boy approached slowly. "What have you got?" he asked.

"Come here and I'll show you. Closer yet. Now, I've got you, you scamp! Where were you going?"

"What you got in your pocket?" asked the little boy.

"I'll tell you after a while, but you answer my question first. Where were you going? Well, if you won't tell I'll have to tell you. You were going into the parlor and I think I heard your dear mother tell you that you were to stay out. Didn't I?"

"Aw, she won't care."

"I don't think you quite believe that yourself, so how do you expect me to believe it? Suppose we go and ask her? No? Very well, then. Now, what were you going into the parlor for? To see Mr. Plimby? I thought so. You like Mr. Plimby, don't you?"

"Uh-huh."

"And you think Mr. Plimby likes you. Yes, I know you do. You've got an idea that he's wondering now why you don't come in and get up in the chair behind him and rumple his hair and straddle his neck and crush that nice high shiny collar that he's wearing. You think he wants to ride you on his knees and make you turn apple pies between his legs. You are firmly convinced in your own mind that he wants you to ask him a few hundred questions on various subjects, mostly personal. Well, he doesn't, Johnny. I don't like to hurt your feelings, but I feel quite sure that the more you stay out the better he'll be pleased. Your big sister is a pretty good single-handed entertainer when it comes to Mr. Plimby. She can take care of him and keep him interested without any of your help. Believe me, sonny. What I say, is the pure, unadulterated truth. You never knew me to tell fibs, did you?"

"You said you had somethin' in your pocket."

"Very true. I did say something of that sort. Well, I have. I've got the nicest bright, shiny key ring you ever saw. I'll let you jingle the keys on it some of these fine sunny days if you are a good boy right along and do exactly what you are told and don't get into mischief. Johnny, Mr. Plimby is a fraud."

"He isn't either. He gave me a nickel the last time he was here. He often gives me nickels."

"I know it. And he rides you on his knee and lets you clamber up on his back and he talks nicely to you and never spanks you. Because he does these things you think he likes you. But I tell you he's a fraud. You'll find him out one of these days. He smiles at you with murder in his heart, and if you went in there now he'd be likely all of a sudden to break out foaming at the mouth and bite you."

"He wouldn't either," asserted the little boy.

"Do you suppose your mother would tell you to keep away from the parlor if she wasn't afraid of that very thing? She knows. She doesn't want her dear little boy all chewed up."

"Why doesn't he bite sister?"

"Well, she's big, of course, and she could bite back. Anyway, don't you trust him. Don't trust to appearances. He may look harmless; I think he does, myself, but I wouldn't butt in on him nevertheless. I've known lots of people just like Mr. Plimby. I've met them and talked to them and they'd act as if they were tickled to death to have me around, and they've given me nickels and taffy and let me climb all over 'em, but there nearly always came a time when I'd get bit. It's a wicked world, Johnny, my boy. It takes us a long while to learn to keep out of the parlor."

"I don't care. I know he wouldn't bite me."

"Yes, you're relying on your pretty little winning ways. You know what a sweet infant you are. You know that your mother is fond of you and that I love you and would share my last key ring with you; but Mr. Plimby isn't one of the family—not yet?"

"Will he be?"

"Not if you don't keep out of the parlor. I know that because when I was Mr. Plimby's age I once visited at a house where there was a boy just about your age, and I might have been one of the family and you might have been, too, if it hadn't been for that boy. You're going to ask me if I bit him, I suppose. I did. I wouldn't have, though, if he hadn't come into the parlor where I was talking with another member of the family. Now, you needn't ask any more questions, because I'm not going to answer them. All you have to do is to keep out of Mr. Plimby's way and you won't get hurt. Always do what your father and mother tell you, and what I tell your particularly, and you'll be all right."

"I'm going to fell in your pocket," said the little boy.

"Take care, now, or you'll burst the sack," cautioned the old gentleman. "Don't muss yourself all up with it. Just take out one and put it in your mouth and let it dissolve gently and easily. That's the way to take your pleasures. They last longer and they don't have the disastrous effects they do if you wolf them down. Johnny, if you'd only take to heart the moral lessons I am always supplying you'd grow up to be a great man. But I see you're not going to. Aren't you going to save any of that candy for your little playmate?"

"Uh-uh," replied the little boy, shaking his head. "He doesn't like chocolates—at least, I don't think he does. I don't 'member seeing him eat any. When can I go into the parlor, grandpa?"

"Let's give 'em about three weeks," suggested the old gentleman. "If nothing happens in three weeks' time I'll turn you loose on him."—Chicago Daily News.

A SKIPPER'S WOOING.

The captain of a clipper-ship in the old days of the China tea trade had little leisure time to spend on shore. His ship was in and out again as fast as it could be unloaded, and if he had not a wife when he went out to sea, his wooing of one was apt to be a hurried affair. That was the experience of the captain of the Houqua as he gives it in his "Recollections."

"Charley," said one of his brothers, when he came to port one trip, "why don't you get married? There is a fine girl for you up in South Danvers—Miss D.—the handsomest girl in town."

Charley had been thinking of something of that sort himself, so he started for South Danvers post-haste.

"I was invited to a party the evening after my arrival," he says, "to meet Miss D. I did not take to her at all, although she was handsome. I was invited to several parties, and at one of them some young ladies were asked to sing. One made this excuse, one that, until at last the request was passed to a very prim- black-eyed girl, who made no excuse at all, but without a word of affectation went to the piano and played and sang as long as they wanted her to. As soon as I heard her voice I went and leaned over the piano, and I was a goner. I said to myself, 'That is the girl for me.'

"I ate a philopena with her, and after the party I went back to the hotel and was happy. Next morning I went to see her to philopena her, but she opened the door and was too smart for me, and philopened me—just what I wanted her to do.

"I had hired a horse and green chaise, and I asked her to go and take a ride. We soon had her mother's consent, and off we went.

"Where we went I do not know, but we must have driven fifteen or twenty miles, and I had never driven a horse before. But I did finely. When we got back to the house her cousin was there, and I got him to hold the horse until we got out, as I was rather uncertain about how to bring a team to anchor.

"There is not much more to say. I was very happy and forgot all about my ship and that I was captain of one, and had got to leave my beloved, until I was rudely awakened by a letter telling me my ship was almost ready for sea.

"I had then known the young lady six days or a week. I proposed and was accepted, started at once for New York, and arrived home in Brooklyn, to find mother sitting up for me.

"'Charles,' she cried, "where have you been?'

"'I have been getting engaged,' I replied. Next morning I reported on board ship, and when I came back from that trip we were married."

Nothing Unusual.

Two neighbors were confiding their troubles to each other over the backyard fence that separated their premises.

"You know," said Mrs. Higgins, "that my husband is a carpenter?"

"Yes."

"Well, I give you my word that all our up-stairs rooms are unfinished, and the roof leaks whenever it rains, and I can't get Henry to do a thing to 'em!"

"You're not any worse off than I am," said Mrs. Clingham. "You know my husband used to be a fireman on a locomotive?"

"Yes."

"Well, just as true as I stand here, I always have to get up in the morning and make the fire!"

Enjoyment of Nature.

Should Get Out of the Way

The position in which certain members of the council have placed themselves by their open statements that the present council has not the ability to handle water system should a bond election be held and the people vote in favor thereof, and that they are not in favor of submitting the question to an election of the people because they themselves are in doubt as to the advisability of the city's owning its plant, is well illustrated by the following reminiscence of Col. Livingston, of Georgia:

They were telling tales of fright in battle in the cloak-room of the House of Representatives. General Joe Wheeler, of Alabama, said that on one of the battlefields he met a private who was tearing toward the rear like a race-horse. "Here," shouted General Wheeler, "what are you running for?" "Running?" gasped the soldier. "Why, I'm running because I can't fly!"

"Reminds me," said Colonel Livingstone, "of the man I saw when Sherman was marching across my state. He was whooping it up in great style. A rabbit ran out in front of him. He kicked the rabbit aside, saying: 'Get out of my way, you, and give somebody a chance to run who can run.'"

The cruiser Boston smashed into the rocks near Bellingham but luckily got off without irreparable damage. It is a good thing for the country that the United States navy can fight better than it can navigate, for there seems to be a delusion among navy officers that the proper place for a United States vessel is ashore, and not afloat.—Call.

It is perhaps sufficient to add that no accident ever has or ever could happen to a ship of the fleet while on the way to or when practising in Angeles Bay.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Raise in Rates.

The recent raise in insurance rates is causing the stock companies to spend still more money in their fight against the Northwestern Mutual Fire Association, which refuses to recognize this raise in rates.

The stock companies are circularizing the state showing a Supreme Court decision in the State of Michigan to the effect that a mutual company could not make a by-law limiting the liability of its members contrary to the laws of the state. This circular will hardly have the desired effect, for even the average school boy in the State of Washington already knows that a company cannot make a by-law contrary to the state law. Our average school boy also knows that the people of Washington are not subject to the state laws of Michigan, but only to the laws of the State of Washington which require a mutual company to limit the liability of its policy holders and also give the directors of such company power to issue cash premium or paid-up policies free from assessment liability.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed *free* to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 550,000 copies a few years ago, at $1.50 per copy. Last year we gave away $30,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will **you** share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.
