VOL 14, NO 5 — PORT ANGELES, CLALLAM COUNTY, WASH., FRIDAY, MAY 9, 1902. — PRICE FIVE CENTS

LAKE STAGE NOW ASSURED.

BIG TRAFFIC TO LAKES PROMISED THIS SUMMER FROM UP SOUND.

The Commercial Club met in special session Wednesday afternoon at 2 o'clock to meet Manager Charles E. Peabody and Supt. Frank E. Burns of the Puget Sound Navigation Company operating the steamers Majestic, Gertrude, Rosalie, and Garland to and from this city, relative to the pushing and advertising of Lakes Crescent and Southerland as summer resorts and fishing grounds throughout the state, and to arrange for the running of a stage from this city to the Lakes, making close connections with the company's steamer Rosalie which is expected to bring most of the visitors.

The meeting was largely attended and thoroughly representative. Mr. Peabody spoke briefly of the purpose of their visit. His company has advertised extensively the manifold advantages of our beautiful Lakes as fishing points and the home of myriads of the finest trout to be caught. They have been bounteously supplied through their Seattle ticket agent Mr. McClinton and others with excellent views for illustrating and had exhibited trout caught here that attracted great attention. They had arranged with Mr. Johnson for the conveyance of all whom they might send to the lakes, but that gentleman on his way east had notified them that he could not handle the business and they were here to make arrangements for the improvement of the road and the establishment of a stage to connect this city with the Lakes, one that they could depend upon to take their passengers through with dispatch, that no time would be lost. They had made the rate from Seattle very reasonable, $4 for the round trip, the stage driver to get one-half of this amount, and they believed they could send a large number of people down here.

The Club then discussed the situation, and decided that the new Eden Valley route was the best and could be made an excellent one with little expense. It can be traversed in three hours with a fair sized load.

Arrangements were then made with Mr. Peter Chambers to operate the stage at the price offered, and Mr. Fisher moved that the Club guarantee to Mr. Peabody and Mr. Burns stage connection with his boats to the Lakes, to accommodate all they might send. The motion carried unanimously.

Mr. Peabody again spoke briefly. "We are interested down here," he said, "and we don't want to get into anything unless we make a success of it. We are going to give you the service we have advertised for this summer without fail. You can bank on it.

The schedule of the Rosalie is now just what is wanted for a business of this kind. A passenger to the lakes can go to bed at 9 in Seattle and wake up at this end ready for an early start for the Lakes and can reach the fishing point without delay or inconvenience. The stage should leave at 5 or 6 in the morning. We have also made arrangements with the N. P. and Gt. N. railways to advertise this locality extensively, not only as a summer resort, but as a good location for new settlers, and these roads will co-operate with us in making this scheme a success. We are going to make a success of it, too, and will do all in our power that is reasonable to develop this part of the country. You have a great country here and it is to our interest to help develop it."

Mayor Bradley here moved a vote of thanks to the gentlemen for the excellent service already provided, that promised, and the interest manifested in our city. This carried with a whoop.

Mr. Peabody thanked those present and said he wished all connected with his company considered residents of Port Angeles, ready and anxious to do what they can for the up building of the city and the country along its line.

How Cheap Baking Powder is Made.

The Health Department of New York has seized a quantity of so called cheap baking powder, which it found in that city. Attention was attracted to it by the low price at which it was being sold in the department stores. Samples were taken and the chemist of the health department reported the stuff to be an alum powder, which analysis showed to be composed chiefly of alum and pulverized rock.

The powder was declared to be dangerous to health, and several thousand pounds were carted to the offal dock and destroyed.

It is unsafe to experiment with these so-called "cheap" articles of food. They are sure to be made from alum, rock, or other injurious matter. In baking powders, the high class, cream of tartar brands are the most economical, becouse they go farther in use and are healthful beyond question.

WEEKLY CROP BULLETIN.

A Brief Summary of the Condition of Crops in All Parts of the State.

SEATTLE, WASH., May 6, 1902.

U. S. Department of Agriculture Climate and Crop Bulletin of the Weather Bureau, Washington Section for the week ending May 6th.

The week was too cool, wet and cloudy for rapid growth of vegetation, but the abundant moisture in the soil, resulting from the copious showers, will probably prove beneficial to all crops in the end. The temperature was about three degrees below normal on every day except the last two, which were warm, sunshiny and probably most conducive to growth of any days yet this season. In the western section there were copious showers on all but the last two days of the week while over much of the eastern section the total rainfall was about half an inch.

Not much progress has been reported for wheat, and some fields are said to look sickly, but there is yet no room for discouragement as long as there is abundant rain. There have been no frosts severe enough to damage fruit blossoms during the week, and the prospect remains very favorable for the fruit crop.

Plowing, oat sowing, potato planting, and general gardening have been much interrupted and delayed by rainy weather. Some early potatoes are up but are not growing much. The season is an unusually backward one.

WANT ONLY A DELEGATE

But Not a Territorial Form of Government at Present.

The following extract of a resolution passed by the city council of Douglas City, Alaska, of which our former fellow citizen, Jno. Henson, is now city clerk, is taken from a copy of the resolution sent us by that gentleman:

Whereas, The attention of Congress has been directed to Alaska by the agitation of the question of a territorial form of government for this district:

And whereas, It is believed that such a step would be unwise at this time for the reason that the industries of Alaska are yet in their infancy, and on them would fall the burden of the taxes necessary to sustain such a government, at a time when they need encouragement and support, rather than taxation, therefore be it

Resolved, By the board of councilmen of Douglas City, Alaska,

First—That we heartily indorse the bill introduced by Congressman Cushman asking for a delegate to Congress to represent Alaska.

Second—That we are opposed to the enactment of any law, at this time, giving Alaska a territorial form of government, as premature and inimical to the best interests of the district.

Approved this 12th day of April, A. D. 1902. CHAS. A. HOPP, Mayor.

Attest: JOHN HENSON, City Clerk.

Institute Next Week.

County school superintendent A. N. Taylor is a visitor in the city and states that everything is now in shape for a highly successful session of the Teachers' Institute. Enough pupils have already been secured, and the prize contest will be interesting.

Prof. A. H. Yoder and Prof. Meredith of the State University, Dr. E. T. Mathes of the Whatcom Normal, and Pres. Wilson of the Ellensburg Normal have all written their acceptance of the invitations to be present and a delightful and interesting session is promised.

Tuesday evening the Gate City Orchestra will entertain the assembled teachers and every evening during the session some special entertainment will be given.

The program is now on the press.

The Courier Sold.

Tuesday a deal was consummated whereby the Courier printing plant passed from the hands of Messrs. Cain, Hartt, Tyrrell, Brown and Morse, to T. T. Aldwell, the consideration being $1200.

For some time past there have been rumors afloat to the effect that the Tribune-Times was about to absorb the Courier under the management of a stock company, and this rather alarmed the local Fosterites represented by Mr. Aldwell. It was found that the Tribune people really had an option on the plant and were in a fair way to succeed until they bumped up against a lease held by Mr. B. T. Smith, which does not expire for some time. In face of this lease negotiations on the part of the T.-T. people ceased. The purchase money was secured from some unknown source by Mr. Aldwell, and the possibility of a consolidation without consent of the Fosterites checkmated.

The guess is now as to who put up the liberal sum for the purchase of the plant — Ankeny (improbable), Foster, Clapp, or whether Tommy fearing to lose an organ was forced to dig up the whole amount.

There will be no change in the management.

The statistics collected at Washington show a decrease of fifty-nine millions in exports and an increase of seventy-nine millions in imports for the last nine months, as compared with the same months of last year, but the department is ready with an excuse. When things go well the republicans claim everything, but they begin to explain whenever things go wrong.

Won't Follow Advice After Paying For It.

In a recent article a prominent physician says, "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatmen." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. In the absence of Mr. Gould, Mr. Grubb was named to act on street committee and Mr. Bowman to act on franchise committee.

The mayor reported in matter of care of J. McInnes, reported to be suffering from chronic alcoholism. Sunday week he was reported in danger of taking his life and guards in the persons of J. Davis and Charles Wood were appointed. The expense of this plan is big, and the mayor recommended that the man, being without friends or money, be sent to Townsend hospital for treatment.

The marshal further reported that the man was partly demented and he believed this was brought on by injuries sustained in falling down stairs.

The mayor's recommendation carried and the health committee was directed to attend to details.

$1 was allowed to repair walk in front of Thad Wagner's residence.

Mr. Miller stated that through heavy hauling, East Front street from city limits to Lincoln street, was in very bad condition. He moved that this and First street, between Lincoln and Peabody streets, be referred to the street committee for report.

The health committee reported that Mrs. Williams was maintaining a nuisance and recommended that same be abated within three days. Marshal to act in event of lady not doing so.

Mr. Murphy protested that the drain which Mrs. Williams had constructed was torn up and the connection made with new sewer by the city officer.

The recommendation was adopted.

Mr. Andresen protested against reduction in allowance of bill for work on culvert east of city. Laid over.

Mr. Smith stated he understood on good authority that work on connecting road was to be held up for probably two months, and moved that contractors be notified that they would be held to their contract for the completion of road. This date is fixed for latter part of this month.

Whooping Cough.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—JESSIE PINKEY HALL, Springville, Ala. This remedy if for sale by all druggists.

MRS. D. M. PARRY, who has just returned from an extended visit to Cuba, states that the impression prevails at Havana that this government will not allow the Maine to be raised for fear it will be proved that the explosion was from the inside instead of from mines in the harbor.

THE question as to whether Gov. McBride may legally serve the remainder of the term of Gov. Rogers or only till the next election, and the further question as to the manner of selecting the presiding officer of the state senate has been revived. It is said the Democrats are planning to name candidates for governor and lieutenant governor this fall, though Chairman Drum refuses to confirm or deny the report. It is probable the supreme court will be asked to decide the question.

EX-REPRESENTATIVE A. B. Dorsey's many friends in this locality will be pleased to know that gentleman has been more successful in landing the office which he accepted in lieu of the Deputy Collectorship here, than he to whom the collectorship was given up to. Mr. Dorsey has been named as Receiver of Public Moneys in the Waterville land office displacing the Wilson candidate L. E. Kellogg. When the appointment of a good Democrat is impossible we like to see a good Republican named.

"IF Cushman cannot accomplish for his constituents what other men are accomplishing for theirs, in spite of the handicap of the rules," says the Yakima Republic, "he gains nothing by advertising the fact. If he isn't admitted to the councils of the big men of the house it isn't especially to his credit." This illustrates the fact that it makes all the difference in the world which way you look at a proposition. This view is also a good reason why Senator Turner should be renominated. He is a big man among men, while his colleague is hardly known, and can do more for the state in one month than any we have yet had can do in a whole session.

PRES. ROOSEVELT has refused to recognize the charges against ex-marshal Ide and refuses to withdraw his name despite the array of big men from the state to protest against confirmation, and it is very likely Mr. Ide will be collector in fact very shortly. It is evident from the personal of the committee appointed by the senate committee on commerce that the ex-marshal now intends not only to land the collectorship, but to be vindicated of any charge brought against him.

THE sale of the Courier to Fosterites and the fear shown for its loss by the payment of a magnificent sum for the plant proves the long suspected condition of affairs in the Republican ranks of Clallam. Soon the ball will open for one of the most vigorous and desperate primary fights in the history of Clallam for the control of the Republican convention. When the ring factions fall out, just men may hope to get their reward—and the people their rights. It will be interesting to watch the line-up.

WAR RECORDS.

It appears that General Miles is to be retired because President Roosevelt and Secretary Root do not approve of his ideas. In this connection the Springfield Republican publishes the following comparison of the military records of the three men:

"War record of Nelson A. Miles—Entered United States army in 1861 as a volunteer; saw service in some 20 battles and engagements, many of them the greatest and most sanguinary of the civil war; rose grade by grade, for highly meritorious service, to the rank of major-general of volunteers, and commanded an army corps in active service at the age of twenty-five; conducted several successful campaigns against hostile Indians, notably the one against the Apaches in 1885-86; led in person the army which invaded Porto Rico in 1898, and conquered the island without bloodshed, at the same time winning the confidence of the people, his military strategy in making a landing on the south side, contrary to the plans of the war department, being universally commended; made lieutenant general of regular army in 1900.

"War record of Theodore Roosevelt—President New York Police Board, 1895-87; assistant secretary of the navy, 1897-98; lieutenant colonel and colonel of "Rough Riders" in campaign against Santiago, June and July, 1898.

"War record of Elihu Root—New York lawyer of large practice."

Lady Minstrels.

The diver dies without air to breathe. The consumptive dies without lungs to breathe the air, or of lungs rendered incapable of breathing by disease. The blood as it flows in and out of the lungs indicates the consumptive's progress. As the lungs grow weaker less oxygen is inhaled and the blood changes from scarlet to purple. Oxygen is the life of the blood as the blood is the life of the body.

The effect of Dr. Pierce's Golden Medical Discovery upon weak lungs is to strengthen them, to enable the full oxygenation of the blood, arrest the progress of disease, and heal the inflamed tissues. Lung diseases have been and are being cured by "Golden Medical Discovery," in cases where deep-seated cough, frequent hemorrhage, emaciation, weakness, and night-sweats have all pointed to a fatal termination by consumption.

"Some years ago I was almost a helpless victim of that dread disease—consumption," writes Mr. Chas. Fross, P. M., of Sitka, White Co., Ind. "I was confined to my room for several months; my friends and neighbors had given up all hope of my recovery, until one day a friend advised me to take Dr. Pierce's Golden Medical Discovery, and after I had taken the contents of the second bottle I began to improve. After taking six bottles I was, I honestly believe, delivered from the grave and entirely cured. I am now a strong and hearty man."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

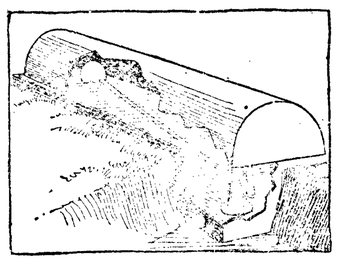
AUTOMATIC FOUNTAIN.

A Sure Method of Giving Fowls Fresh Water All the Time.

The accompanying illustrations represent an automatic drinking fountain designed to be connected with a supply of water. Either tank or city water pressure will do.

Those I use in my yard in the summer are of the following proportions, although they may be made in any length desired, provided they are set perfectly level: Ten inches wide, 6 inches deep, 36 inches in length. Make the body of the tank out of 1 by 6 inch stuff and have it lined with galvanized iron.

The cover is also made of galvanized iron formed into a half circle. This



THE AUTOMATIC FEEDER.

cover answers several purposes. It covers the entire top of the tank, all but one inch, the full length of the fountain. This prevents leaves, straw and other accumulation from blowing into the water, yet gives the fowls plenty of room to drink without upsetting or polluting the water. It also guards young chicks from drowning, as they cannot possibly get into the water.

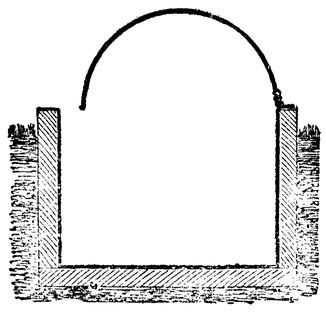
The fountain is to be placed four and a half inches in the ground and set perfectly level. This will leave it out of the ground one and a half inches, which will prevent any dirt, etc., as in case of a heavy rain, washing into it, as would be the case if it set level with the surface. It also keeps the water perfectly cool and fresh.

As the name indicates, this fountain is perfectly automatic, requiring no filling the entire season. The automatic fittings may be procured at any plumbing establishment, as it is the same as is used in all flush water closet tanks.

Fasten the automatic feeder at or near one end of the fount so as to give the rod and hollow copper ball plenty of freedom so that it will not catch the sides or end. Connect the feed pipe (one-half inch will answer) with your supply and the fountain is ready for use.

As the water enters the fountain the copper ball float rides on the surface, raising the water, and in so doing is gradually closing the shut off valve, and when level full it is entirely closed. As the fowls drink the water it lowers the copper float, thereby opening the valve, and admits just enough water to hold the fountain level full.

If in any case you wish to clean out the fountain it may be done inside of one minute by simply pressing the cop-



SECTIONAL VIEW.

per ball float to the bottom. This opens the valve to its full capacity and overflows the fountain, thereby carrying off any dirt that may have accumulated on the bottom.

I have used this drinking fountain for two seasons, and would not give it up for anything I have ever seen on the market.—F. H. Scothill in Poultry Keeper.

Coeping and Feeding Chicks.

I do not have any particular style of coop—a good roof and bottom of boards always made so that it can be conveniently cleaned. Twenty chicks to a hen I think about right. The coops are placed near the house for convenience while the chicks are young, moving them farther away as they grow older. At about 5 or 6 weeks they are located near a blue grass pasture, with a number of apple trees for shade. Here they have range until cold weather drives them into winter quarters.

My first food for little chicks is dry wheat bread moistened with sweet milk. This is good enough for the first day. The second day oatmeal and millet seed are given, with mica grit. They get water from the start. Up to 4 weeks old their food is bread moistened in milk, millet seed, oatmeal, corn bread baked as for the table and cracked wheat. After they are 4 weeks old I discontinue the oatmeal and bread and milk and feed millet seed, whole wheat and cracked corn, with corn bread for breakfast, baked the day before. After the chicks are 2 months old I feed a bran mash consisting of one-third each of ground oats, corn and wheat bran, moistened with milk, clabber or sour milk preferred. This I feed in the evening, all they will eat.

I follow this method of feeding the old fowls, believing the evening the proper time for soft food. For late hatched broods (say the last of June or first of July hatches) I know of no place better for cooping than near a cornfield, with a clover meadow near by. The corn furnishes plenty of shade through the warm days, and the clover field supplies grasshoppers. I have had good results from late broods raised in this manner.—O. L. King.

A rumor is current in this city that the new steamer now nearing completion at Tacoma for Capt A. W. Horn, is to be called the Stillwater. It is also said that the vessel was to have been operated on the Tacoma-Seattle-Townsend-Angeles and Clallam route, making tri-weekly trips, until this route was virtually appropriated recently by the changes in the Majestic, Rosalie and Garland. Now it is said that the Stillwater will be operated in conjunction with the vessels owned by Carey Cook of Tacoma, covering the Vancouver run, with probable stops at Anacortes, Fairhaven, Whatcom and Blaine en route. The route is being covered straight now by the new steamer Mainlander.

Mr. Harlow is the eldest son of Mrs. W. J. Harlow of this city and for many years resided here where he, too, has many friends who extend their best wishes at this eventful time.

Keep the Balance Up.

It has been truthfully said that any disturbance of the even balance of health causes serious trouble. Nobody can be too careful to keep this balance up. When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness, or debility. The system needs a tonic, craves it, and should not be denied it; and the best tonic of which we have any knowledge is Hood's Sarsaparilla. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventative that it enjoys as a cure. Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength and endurance.

THE HOME GOLD CURE.

An Ingenious Treatment by Which Drunkards are Being cured Daily In Spite of themselves.

No Noxious Doses. No Weaking of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that the drunkeness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of drunkers into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS!! CHILDREN CURE YOUR FATHERS! This remedy is in no sense a nostrum but is a specific for this disease only, and is no skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. thousands of drunkards have cure them selves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea; and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Spicial advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. NEWS NOTES.

The Louisiana Purchase Exposition has been postponed until 1904 because of lack of time.

Congressman Amos J. Cummings succumbed to an attack of pneumonia Friday evening, and on Monday Congressman Atey also passed away.

The low homeseekers' rates which have been in effect since March 1st were withdrawn April 30th and it is estimated in the two months the various roads running into this state brought at least 27,000 homeseekers. This number being the tickets sold it is thought nearly double that number of people were brought here as no charge is made for children under 5 years. In one coach representing 32 tickets there were 86 persons.

Tuesday was a fatal day for notable people. On that day Rear Admiral Sampson, Arch Bishop Corrigan and Bret Harte passed away.

Queen Wilhelmina underwent an operation during the week through which life held by a thread. There are now hopes of her recovery.

Logger Killed.

Saturday morning the sad news was brought to this city from Twin of the accidental killing of a logger in Thompson and Dillon's camp, caused by a log falling on a stump, a fragment striking the unfortunate. The remains were brought here by the proprietors of the camp for interment.

Deceased's name was given as Harry Kennedy, but his true name is presumed to be from papers found on his person Frank Mero, of Ludington, Mich.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

COUNTY NEWS

Clallam Bay Record.

Lawrence E. Cohenor and Miss Francis A. Miller of Clallam were married in Seattle last Sunday.

L. T. Sands and family moved out from town yesterday to their ranch at Bucyrus on Dickie lake.

Mrs. Rose Saylor returned on Monday night to Port Crescent after a trip to Tyee looking up a homestead.

The Pysht postoffice has been re-opened and is now located at Pontine's place. The mail is carried from East Clallam by the postoffice people.

The locomotive and rails for the Robinson logging railway are expected down Seattle next week to be brought on a scow by a tug.

About fifty persons landed here Monday evening from the steamer Gertrude and the steamer is pretty well crowded every trip. No wonder a daily boat has been arranged for.

Washington Notes.

DEMOCRAT-LEADER BUREAU,
NEWSPAPER ROW.

FROM OUR REGULAR CORRESPONDENT.

WASHINGTON, D. C., May 1, 1902.

As all of the appropriation bills, with the exception of the general deficiency bill which will not be reported until the last of the session, it is possible to make an approximate estimate of the total appropriations of this session and to a certain extent of this Congress. The general appropriation bills so far reported, some of them already laws, aggregate $658,851,208. This is without taking into account the $17,000,000 appropriated on Tuesday for public buildings and numerous other special appropriations. As it is estimated that the general deficiency bill will approximate several millions it is considered safe to predict that this will go down in history as the "billion-and a-half dollar Congress," for it is safe to assume that the appropriations of the short session will at least equal those made this year. Should the Nicaraguan Canal bill become a law that would add $180,000,000 more to the aggregate. In this connection, too, it is worth remembering that, by the repeal of the war revenue taxes, the annual receipts of the government have been curtailed by a sum estimated at $70,000,000. The greatest incentive to lavish expenditure at this session of Congress has been the apprehension on the part of the protectionists that a surplus in the Treasury would lead to tariff reduction and their object has been to expend the surplus, irrespective of necessity, in order to obviate any revision of the tariff schedules. Later they will advance, against the agitation for tariff revision, the argument that the revenues are no more than is needed for the expenses of the government.

The methods employed to secure the passage of the Omnibus public building bill this week serve as an excellent example of the manner in which the dominant party effects its ends. This bill contained many appropriations for worthy objects and some long needed public buildings, but it also contained provisions for others which were little short of "looting the Treasury." In order to secure the passage of the unworthy bills the Republicans consolidated all bills for public buildings into one measure. Opposition to one would mean opposition to all. They even went farther and included in the bill a provision for some public improvement in almost every state in the Union so that any Representative who voted against it would be voting against the wishes of his constitutents. A special rule was adopted which made it impossible to amend by striking out any of the notoriously unworthy provisions and limited the debate to three hours, manifestly too short a time in which to consider a bill with objects so numerous and diverse. I cite this case merely as a sample of republican methods in the House.

"Mind" for May.

The May number of the New Thought magazine, Mind, opens with a biographic sketch, accompanied with portrait, of Charles Fillmore editor of Unity. This is followed by a symposium entitled "Mental Echoes of the Foreworld." The contributors are Felix L. Oswald, M. D., who describes "Our Animal Characteristics," and George S. Seymour, who discusses "Customs and Peoples." "The Will to be Well," by W. J. Colville, is a valuable paper on the mental healing phase of the New Thought. "Revelations of the Hand," by Mayme Raynescroft, is a unique contribution from the pen of an expert pianist. Emily Wright Hood has a vigorous and inspiring article on the "Gospel of Love," and a fine poem called "The World of Thought," is by W. S. Whitacre. In her series on "Hindrances to World-Betterment." Abby Morton Diaz discusses "The Lack of a Working Principle." A luminous article by May Stranathan is entitled "Spiritualism and Theosophy," and Miriam Isbel writes upon "The Study of Symbology." Editor John Emery McLean considers the expansion of the metaphysical movement in an article on "New Thought Headquarters." B. O. Flower describes its development in Boston, and Hildegard Henderson discusses "Radient Matter." In the Family Circle department, the Rev. Helen Van Anderson answers some pointed questions—preceding five other contributions. Editor McLean's "Reviews of New Books" concludes the number. (20 cents a copy, or $2.00 a year. The Alliance Pub. Co., Fifth Avenue, New York.)

A WORTHY SUCCESSOR

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARR CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE.
