OIL FIELDS OF CLALLAM.

SURFACE INDICATIONS EXCEEDINGLY GOOD.

Much Better Than Those Found in Pennsylvania, Texas, California, or any Other Part of This State—Expert Bellamy's Report.

An important meeting of the Commercial Club was called for Tuesday afternoon to meet Messrs. H. R. Bellamy and Wm. Simison of Seattle, the former an oil expert sent by the company of which the latter is a member to look into the indications to be found on the bonded property of said company in the vicinity of Ozette Lake, 12 miles south of Neah Bay.

The gentlemen were asked to stop off here on their return and impart to the people of this city their findings, and to get the sentiment prevailing here looking to the development of the oil fields should it prove worthy of further development. Besides the gentlemen named O. V. Wentworth of Quillayute, Judge Ford of Forks, and George Draper of Neah Bay, all interested in oil development in western Clallam were also present.

Mr. Bellamy in stating the object of calling the citizens of Port Angeles together said $15,000 would probably be necessary for the proper development of the field. $10,000 of this amount he believed would be raised in Seattle, but he thought the community that was most to be benefitted should oil be found in paying quantities should assume part of the risk—in all virgin oil prospects there is risk.

The company he represented is known as the Cape Flattery Oil Development Company, as yet not fully incorporated. So far the men interested have simply acquired 2,160 acres of land at the point above stated in an old marine dike which Mr. Bellamy claims was before the eruption of the Olympics the bed of a large stream. He had made five tests of oil found oozing from the ground on these lands, each of which had 'proved successful and as a result he was taking back with him five bottles of as fine a grade of oil as is found anywhere—oil which when cleared of the dirt and rock would be almost as clear as coal-oil

He had visited the wells at Gray's Harbor where oil and gas was struck at a depth of 80 feet and had lit the gas himself, and this was proof to him that there was oil in that locality without a doubt. The well is now down about 800 feet, and he wouldn't be surprised if they found a large flow near that depth.

In the Ozette country he thinks it probable oil will be found at a depth of 500 feet, but it might not be had until down 1500 feet—at any rate he is positive the oil is there and the only question is the quantity—he is willing to put his own money into a no-stock partnership concern where each gets the full benefit of the amount he puts in to develop the field and prove just what it contains. To do this a $3,000 outfit would be necessary and the other cost would be according to the depth and nature of the formation to be passed through—the surface indications are certainly very promising, much more so than any of the fields were where vast oil finds are now a matter of history.

After some discussion by the members it was decided that Port Angeles would do all it could to aid in the development of these fields. Meantime the oil people would prepare a definite proposition for consideration later.

In this connection it might be well to state that the LaPush people are now down a considerable depth and are awaiting the arrival of more tubing before continuing work. They are highly encouraged in their work thus far and have considerable more hope than when first starting to drill.

Mr. Bellamy states that he does not believe the people of Clallam need fear that an oil reserve will be established at request of anybody until proof can be made that oil in paying quantities has been found, and no party will be able to acquire title to lands under the mineral act without proving pretty conclusively that the mineral is there.

Lady Minstrels.

The Maccabee ladies are marshalling their forces and have called a large cast of home talent to their aid and will present a thoroughly prepared and entirely up to date minstrel show at the opera House Monday and Tuesday evenings, May 19th and 20th. There will be fifty or sixty people in the cast and the latest character songs and specialty work, combined with fine coon dancing, will be the order of the day. There will be refined fun, mirth and melody to suit the most critical. Snap, go, ease and grace will characterize the entire performance.

You will miss it if you miss it.

We are proud of the butter we handle have you tried it? Seevers, the cash man.

A Quiet Election.

The school election held Saturday for the selection of a member of the Board of Directors to succeed D. W. Morse and a clerk to succeed Mrs. Trumbull, both of whom declined to accept re-nomination, passed off without a ripple, there being no contest whatever, and a small vote was cast.

Mr. J. E. Beam for director received 97 votes, and Mrs. Annie D. Carusi for clerk 96.

The new officers take their positions the first week in June, and the teachers will not be chosen until that date. The board is said to be very desirous of keeping the present efficient corps of teachers, but fears several new ones will have to be chosen owing to the resignation of at least three, two of whom will go to new fields of labor and the third to college.

The district is in good shape, and the heavy special tax will be considerably lightened in the next levies.

TAXES MUST BE PAID.

No Matter How Long Delinquent They Are Always a Lien on Property.

An important decision has been rendered by the supreme court of this state with reference to the collection of delinquent taxes which will be read with great interest by every owner of real estate, as well as by the investors at tax sales. It is held, in brief, that the statute of limitations does not apply to actions for the collection of such dues, but that taxes once legally levied upon property remain a lien upon it until paid.

Another Big Hit.

Tuesday's concert was very well attended, as was also the ball which followed, and a neat sum was netted by the members of our enterprising musical organization, the Gate City Orchestra. All the numbers given were well played as proved by the generous rounds of applause after each selection.

Mrs. J. Lloyd Aldwell, contralto soloist, was at her best and received somewhat of an ovation. Her articulation was such that every word in her songs was distinctly heard and this proved a pleasing feature.

Won't Follow Advice After Paying For It.

In a recent article a prominent physician says, "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by C. E. Nailor & Co., Druggists.

THAT LITTLE WESTERN SCHOOL HOUSE.

A school house is a school house, no matter where 'tis found,
Yet you'll find they differ widely the whole world 'round.
There are some of broad dimensions; there are others that are small.
But the first that met my eyesight that was scarcely one at all
Was that little western school house.

My schooldays had just been finished in a brick four-story grand
When some weird and wandering impulse bade me seek this western land.
With a view to mounting higher, I decided that I'd teach—
Teach those wild and western children just as soon as I could reach
That little western school house

Through a shady devious woodpath traveled we one pleasant day
Till we reached a lowland valley where the Elwha river lay,
We stood on the lofty hill-top, looked across the broad expanse,
But there nestling by the hillside was a rural little manse—
That little western schoolhouse.

Silently I viewed the building as some thoughts ran through my mind
That I wisely left unspoken, yet a simile I find
Which it seems is very fitting, as it came to mind that minute,
How much like a dry goods box with a door and windows in it
Is that little western school house.

Read at 13th annual session Clallam County Teachers' Institute.

MONDAY, MAY 12TH.

The Thirteenth Annual Session of the Clallam County Teachers' Institute was called to order by Superintendent Taylor at 10 o'clock. After singing our National Hymn the organization was completed by the selection of Chas. S. Bown as secretary. The enrollment showed 28 teachers present at the morning session.

After some remarks by Supt. Taylor Miss Emma C. Nevins read an excellent paper on Word Analysis which brought out quite an interesting discussion. The Institute then adjourned to meet Prof. Yoder at the noon boat.

At the afternoon session Prof. Yoder, of the State University, spoke on the subject of Adolescence in a most fascinating manner, and after a short recess took up the Study of Geography and Nature Study Work.

The evening session at the Congregational church was well attended, and after vocal music by Miss Mary Willson, and some recitations by Miss Hazel Belt, Prof. Yoder was introduced and delighted his audience by the able way in which he treated his most interesting subject. Prof. Yoder is one of the best known authorities in the United States upon the subject of Adolescence and Child Study, and fortunate indeed are we to be privileged to have him with us. Parents should take this opportunity to hear him.

TUESDAY, MAY 13.

The first session of the morning was occupied by Prof. Yoder with an interesting talk on Commercial Geography, illustrating the commercial supremacy of the United States by means of charts and maps. We learn that the United States has two-sevenths of all the wealth of the world, that she leads in the production of wheat, corn, iron, coal, steel, silk machinery, rubber goods, beef, pork, in fact in nearly all the commodities that the world requires in daily use.

After recess Prof. Yoder continued his talk on Nature Study. This can be nicely taught by observing animal life, not only the animals with which we are familiar, but wild ones as well.

Dr. Mathes, of Whatcom, was the first speaker of the afternoon and presented the subject, The Basis of Good Order. A teacher to govern well must take into consideration: 1st, the child's, physical condition; 2nd, his mental condition; 3rd, the moral condition of the school. If these conditions are right they will go far towards solving the question of good order. The principles of self control and of endurance should be cultivated, as they enter largely into the conditions of good order.

Miss Hazel Belt read an original poem, "That Little Western School House," relating some of her first impressions of Washington and its schools.

Prof. Yoder then resumed his talk on Adolescence. The stories of Tom Brown, the Little Men and Little Women of Louisa Alcott, the Guardian Angel, by Holmes, will give good study along these lines. Prof. Yoder further illustrated his talks by reading from Kipling's Captains Courageous.

Institute adjourned at 4 p. m. No. on roll, 39.

WEDNESDAY.

Institute opened with a session of singing, and after the reading of the minutes, Prof. Yoder resumed his talk upon Commercial Geography. By the means of his large chart many interesting comparisons between the leading nations of the world, in regard to area, population, armed forces, navy and other things.

After recess Dr. Mathes spoke on the economics of Daily Program, giving the results of many interesting experiments by Dr. Khron and others, in regard to best order of studies in making up a program. From these it is evident that as the mental condition of children is best early in the day, the studies that require most effort and concentration should be placed near the beginning of the day.

At the opening of the afternoon session, Dr. Mathes spoke of the lecture courses, their institution, and the elevating effect upon the schools and the community. The Dr. then took up the subject of Daily Preparation for school work.

The teacher must prepare the lesson intelligently, logically, and in relation to other lessons; must find the central truth; must prepare judicious questions; must be able to sum up the results of the lesson.

After going down stairs to look at Mr. Hetzel's camera, the institute listened to Prof. Yoder upon Adolescence. Prof. Yoder paid special attention to the control and management of children during the changing period of life, when about 12 or 14 years of age.

Anger is one of the oldest elements of our physical life, and fighting is often the way the mind is aroused to intense action and develops self-control.

Prof. Yoder said that the so called criminal instincts of children are the racial survivals of acts that in past ages fitted their possessors to survive; that this is normal for all healty boys; that those whose surroundings are bad will continue it, but the other boys grow away from it.

The Prof. believes in games—good hearty games, such as football, baseball and basketball. Partaking in these game arouses the abitious spirit, and develops self-mastery.

One aim of school education should be to develop the individuality.

It is more unfortunate that a few men should do the thinking for a nation, than that a few should control its wealth.

Institute adjourned at 4 p. m.

Enrollment 41.

The lecture at the Congregational church was attended by an unusually large and interested audience. Dr. Mathes, a favorite with the people of Angeles, and his subject, Descriptive Astronomy, was handled in a masterly style. The singing of Miss Mabel Dick was also highly appreciated.

Bids have lately been called for by the War Department for a five year lease of the water front for wharf and commercial privileges on the military reservatisn west of Neah bay. The privilege includes 1,000 feet of water front 500 feet back. The object of the war department in doing this is said to be for the purpose of giving a Tacoma man named Morris a chance to put in a fish curing plant at Neah bay. It is his plan to buy the entire catch of the Neah bay Indians and instead of shipping the fish up sound as soon as caught he will freeze them and establish a regular fish supply headquarters at Neah bay and use a little steamer to supply the up sound markets. The scheme promises to be a paying one as the supply of fish in the vicinity of the cape is enormous.

Fantastic stories have been written of magic mirrors in which the future was revealed. If such a thing were possible many a bright-faced bride would shrink from the revelation of herself, stripped of all her loveliness. If there is one thing which would make a woman shrink from marriage it is to see the rapid physical deterioration which comes to so many wives. The cause is generally due to womanly diseases.

Lost health and lost comeliness are restored by the use of Dr. Pierce's Favorite Prescription. It cures irregularity and dries weakening drains. It heals inflammation and ulceration, and cures female weakness.

"It is with the greatest pleasure that I tell you what Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' have done for me," writes Mrs. Emma L. Barkes, of 1012 North 7th Street, Harrisburg, Pa. "They have done me a world of good. I had female weakness for six years; sometimes would feel so badly I did not know what to do, but I found relief at last, thanks to Dr. Pierce for his kind advice. I have this medicine still in my house and will always keep it."

TO-MORROW is the Norseman's independence day. May they long continue to celebrate.

THE Tacoma Ledger says the San Francisco Call is a Democratic paper without the gumption to know what ails it. And all this because the Call is against the administration's Philippine policy.

EXPERT Bellamy says there are much better surface indications of oil found in Western Clallam than ever was found in Pennsylvania, Texas or California. If this is true don't let's lose any time letting practical oil men know it.

SINCE this paper went to press last week news has been received of the awful death of nearly 50,000 human beings—5,000 in Guatemala, about 40,000 in the awful catastrophe that fell on the city of St. Pierre, Martinique, and nearly 2,000 in the eruption on the isle of St. Vincent. Truly we know not when the hour cometh.

A WASHINGTON dispatch to the Oregonian says Senator Foster has been given to understand that if he does not withdraw his opposition to Ide there will be charges preferred against Frye, his candidate for Attorney-General. Strange how convenient these charges are when those on the inside of Republican politics want to use them.

THE Republican state convention will convene in Tacoma Sept 10th. This was decided at a gathering held in Tacoma Saturday. Frink's vote—the smallest cast—was taken as the basis of representation and under this Clallam will have eight delegates. It is said the Frink basis was adopted by the smaller counties to clip the power of the big counties of King, Pierce and Spokane, and some take it as a rebuke to ex-senator John L. Wilson.

THE law and order league of Seattle are getting after the gamblers with the aid of the Democratic sheriff, and from the distance it looks as though Mayor Humes' detectives are keeping tab on the sheriff's office and notifying the gamblers when to expect a raid. Seattle occupies a very undesirable position in the minds of the people of the state.

EX-STATE SENATOR Hutchinson has written a letter to the Spokane Review regarding Mr. Ide and ex-Senator John L. Wilson, from which we clip the following:

"The records of the Superior Court of Spokane County show that in December, 1897, while John L. Wilson was drawing a salary of $5,000 per year as a Senator of the United States, he declared himself a bankrupt and settled for money borrowed at about 8 cents on the dollar."

DAVID B. HILL's friends are now out with the statement that that gentleman will not aspire to the Democratic nomination for president, much as he desires it, and it is admitted he is fearful Mr. Bryan would not permit the naming of Hill. Hence it is given out that Mr. Hill is working night and day to have Alton B. Parker, chief justice of the N. Y. court of appeals named. We have Mr. Bryan's word for it that a Democrat who is known to be such will be name

THE Commercial Club would do well to look into the order of the N. P. and Gt. N. railroad companies which the P.-I. exultantly declares makes Seattle the principal purchasing and distributing point for the sound cities. We called attention to this order at the time the terminal rates were withdrawn from points on this side of the sound, and other places have recognized the injustice done and are taking steps to protest in no uncertain language. President Coon of the Townsend Chamber of Commerce says, "We do not propose to submit to the dictum of four freight agents of Seattle who would rob us of our rights."

Things in this part of the country are moving along quietly and most of the farmers are nearing the end of their spring work. There will be a great diversity of crops this year; wheat and barley will be tried in addition to the other regular crops. It is to be hoped that our energetic farmers will be pleased when they come to harvest in the fall.

We learn that our genial friend Mr. Furguson has returned from California where he has been for the past few months investigating the oil properties down there and has now gone out on his oil lands south of Bogachiel to decide on location to commence work on.

Another old resident has returned, Mr. Will Bowlby. He had to take his wife east last fall for her health and reports her improving but says there is no place like Quillayute yet. We hope he will not change his mind but stay with us.

Information has just come to hand that a man has been sent to Washington, D. C., to represent the oil men and to confer with the President and Secretary of the Interior and get them to use their influence to secure proper legislation regarding the setting aside of lands for oil reserve.

Council Notes.

The city council met Wednesday with all members present except Mr. Grubb and Mr. Gould.

Dr. Lewis appeared before council in case of J. McInnes, stating that he had telegraphed the hospital people at Port Townsend and had received an answer to effect that he would be taken at $2 per day. This was more than council desired to pay and the matter is passed up for further consideration. The man is undoubtedly insane at this time, but it would be straining a point to send him to the asylum yet. The matter was left in the hands of the committee.

A communication was read from John Cain stating that as his entire time was occupied in the east in his endeavor to finance the Western railroad scheme, he was compelled to leave matter of light proposition wholly to his associate. Filed.

Mr. Tillman appeared before council protesting against the cutting down of his bill heretofore mentioned. He stated he specially agreed with Mr. Gould that he was to get $5 for work while he only charged $4 50. Matter laid over until return of Mr. Gould

A communication was also read from Mrs. Williams regarding order of council, ordering removal of drain, submitting that a closet connection with a drain is far less dangerous to health than a pit. This was accompanied by a protest signed by 15 ladies of the neighborhood to effect that they knew of no menace to health coming from the premises of Mrs. Williams.

Dr. Lewis also spoke in reference to council's action, stating that the alternative which the lady was forced to in the premises was more detrimental to public health than that complained of. The doctor then read extracts from hygiene reports of camps, etc., to prove his point—dishwater gases are just as dangerous. No action was taken.

A petition was read from residents of 4th ward asking that council petition the Angeles Water Company to lay a four inch main up Peabody street for the purpose of furnishing water to residents along said street. The petition was signed by about 25 prospective water renters. Referred to Fire, Light and Water committee.

Bills ordered paid:

A. L. Johnson, st. com. livery....	$ 3 00
Filion mill, lumber	7 48
Fire dp't, Globe hotel fire.....	39 00
Julius Danz, light supplies	1 70
G. G. Teachman, cash pd out....	2 64

The street committee reported that Front st. needed graveling between Lincoln and Peabody sts at cost of $25; that same street bet. Frances st. and high bridge should be filled at cost of $35; between bridge and limits of city $5 would put street in repair. The amounts were allowed and work ordered done.

Upon motion of Mr. Smith walks on Race st., between 2nd and 5th and on 4th st., between Union and Washington, and ditch on Liberty st., between 4th and 5th was referred to street committee for repairs.

The mayor reported that Mr. Grubb had seen enough councilmen to authorize the job and the light manager had been directed to place these lights on wharf for accommodation of public visiting boats on new night schedule. Action was concurred

Additional Institute Proceedings

THURSDAY, MAY 15.

At the opening exercises the Superintendent spoke of several matters the School Journals, the Correspondence Schools, Libraries for District Schools, and the matter of a County School Book Board.

Supt. Taylor then gave a charming character sketch of Louisa Alcott.

Dr. Mathes occupied the next period by speaking of Promotions, the manner of making promotions, the time and the basis of promotion. The teacher should be the judge of promotions.

After recess, Mrs. Aldwell delighted the Institute by singing two beautiful selections.

Prof. Yoder gave us a delightful talk on his trip through some of the southern states, showing the state of the schools through-out those states, also giving an interesting sketch of Booker T. Washington, who has done so much for the uplifting of the negro race in the South.

At the afternoon session the Institute had the pleasure of welcoming Prof. Meredith, who is visiting us for the fourth time Prof. Meredith is thoroughly at home in Clallam Co. Institutes and proceeded at once to the consideration of some phases of his favorite study—Literature. English may be considered as a tool, as science, as history, as a joy and comfort, this last is Literature. The poet helps others to express thoughts that they could not express themselves.

At this time it was moved and seconded that a committee be appointed to wait upon the County Commissioners and urge upon them the appointment of the County Board of Education, as provided for by the Gunderson Law. Motion carried, and the Superintendent appointed R. E. Risley, E. E. Governman and Miss M. Lawrence as such committee.

After another charming solo by Mrs. Lloyd Aldwell, Pres. Wilson of the Elberta Normal School [illegible] and [illegible] of the Plan of Nature Study, [illegible] the program. Joseph Jackson [illegible] Nature Study [illegible] the [illegible] Teach from nature, and the child will get from observation and the use of his senses, a better expression and understanding, than he will from words. Nature Study is one of the fundamental studies; it starts the child in his own thinking.

The committee to visit the Commissioners reported that the Commissioners were ready to appoint the County Board of Education, but offered the Institute the privilege of recommending names of persons to act upon said Board of Education. It was moved and carried that the sense of the Institute was that the Superintendent recommend the Board, and Superintendent Taylor stated he would make an appointment at once, and would recommend the following persons: Thad Wagner, H. E. Risley, Chas. S. Bown, C. P. Brown.

Dr. Mathes, having to leave before morning, took the next few minutes to say a few words to encourage and inspire the teachers in going out to the work of the next year.

Prof. Yoder took the closing period of the day to finish his talks on Adolesence, taking the subject of the Relation of the Sexes.

Institute adjourned at 4:30.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

FOUND GUILTY.

Mrs. Riley is Deserted By Her Main Witnesses and Jury Decides Against Her.

The third trial of Mrs. Tillie Blanche Riley convened Tuesday in the Superior Court here with Judge Geo. A. Joiner of Skagit county in the chair.

The regular panel of jurymen was exhausted quickly and Court adjourned until Wednesday to permit the sheriff to obtain a new batch of jurymen. The following jury was secured by 4 o'clock that day: Orin Mason, W. T. Belford, T. F. Kerrihard, J. Gutenberg, C. L. Babcock, M. N. Albright, E. Roare, E. L. Lockhart and T. H. Bradshaw of Port Angeles; L. M. Ford and S. L. Kilby of Forks, M. Patterson.

The prosecution made practically the same case as in last trial, and when it rested defense moved that jury be instructed to bring in a verdict for defendant on ground that material allegations had not been proved. The judge decided to hear defense and here came the weak point—two of the main witnesses in the last trial, Messrs. Jos. Priest, jr., and sr., did not appear in her behalf. The case was given to the jury late yesterday afternoon and after seven hours deliberation brought in a verdict against defendant.

The minimum sentence is said to be five years. As we go to press defense is preparing a motion for a new trial.

Spring Medicine

There is no other season when good medicine is so much needed as in the Spring.

The blood is impure, weak and impoverished—a condition indicated by pimples and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

Hood's Sarsaparilla and Pills

Make the blood pure, vigorous and rich, create appetite, give vitality, strength and animation, and cure all eruptions. Have the whole family begin to take them today.

"Hood's Sarsaparilla has been used in our family for some time, and always with good results. Last spring I was all run down and got a bottle of it, and as usual received great benefit." MISS BEULAH BOYCE, Stowe, Vt.

Hood's Sarsaparilla promises to cure and keeps the promise.

THE HOME GOLD CURE.

An Ingenious Treatment by Which Drunkards are Being cured Daily In Spite of themselves.

No Noxious Doses. No Weaking of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that the drunkeness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of drunkers into sober, industrious and upright men.

WIVES CURE YOUR HUSBANDS!! CHILDREN CURE YOUR FATHERS! This remedy is in no sense a nostrum but is a specific for this disease only, and is no skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. thousands of drunkards have cure themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all time. The "HOME GOLD CURE" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing $25 to $50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world on receipt of One Dollar. Address Dept. DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

WEEKLY CROP BULLETIN.

A Brief Summary of the Condition of Crops in All Parts of the State.

SEATTLE, WASH., May 13, 1902.

U. S. Department of Agriculture Climate and Crop Bulletin of the Weather Bureau, Washington Section for the week ending May 13th.

The reports from correspondents are more favorable than for any week this season. Nearly all agree in stating that the weather has been all that could be desired, and that all crops have made splendid progress. All except the last two days of the week were unusally warm for the season, and abundant showers occurred on several days, some in the eastern counties being the heaviest for years, and approaching the character of water-spouts.

There were no frosts during the week. It would now appear that the fruit crop must be beyond any probable danger, as a large portion of it is set. The prospect for an apple crop is fine.

Garden vegetables have made excellent progress. Field potatoes are coming up well, and early potatoes are growing fast.

The early sown winter wheat is now quite tall. In some localities it is in "the boot." Late sown winter wheat and spring sown have been greatly improved by the warmth and moisture. Oat sowing is practically finished.

Prize bred White Wyandotte eggs for hatching, $1.00 for 15. Roosters one dollar each. Geo. V. Smith, 4th and Peabody, Port Angeles, Wash.

Anyone knowing of the whereabouts of Roy Long (supposed to be on sound) will confer a favor by writing Newton Long, Hartline, Wash., age, 20; brown hair; blue eyes; slender build; weight 130; height, 5 feet 9 or 10 inches.

COMMONER SAYINGS.

"Preserve Democratic principles."

Weylerism was mild and gentle compared with Smithism."

"If you don't like our style, don't eat meat."—Beef Trust to the People.

What if General Smith refuses to be a scape goat and tells all he knows?

Now, what in the name of mercy would Mr. Root consider "marked severity?"

Does it simplify matters to admit issuing an order to murder all over ten years old?

The Democratic candidate for president in 1904 will be a man who is, was and will be a Democrat.

Senator Carmack is now the target for the g. o. p. organs. And judging from the amount of mud they are slinging Mr. Carmack must have crowded an immense amount of unpalatable truth into his speech.

The name of the "copperhead, little American and traitor" who is to haul down the flag in Cuba has not yet been made public.

Captain Charles Clark has declined to be an envoy to the coronation. Whitelaw Reid could do Mr. Roosevelt a great favor by doing the same thing.

The gentlemen who promised the full dinner pail now quietly inform the workingmen that if the price of foodstuffs is too high they may chew the cud of reflection.

Up to date Kitchener has not seen fit to order the killing of all Boers over ten years of age, yet Kitchener has not been credited with any great amount of tenderness.

If Weyler had issued an order to kill all Cuban rebels over ten years of age a lot of Republican organs that now seek to excuse Smith would have had conniption fits.

Major Waller says he acted under orders from General Smith. Gen. Smith says he acted under orders from Corbin. Corbin is under Root, and Root is under the president.

The best way to secure the supremacy of Democratic principles is to attend the Democratic primaries, put none but Democrats on guard, and then make an enthusiastic campaign.

In view of the fact that we would still be in ignorance of many things going on in the Philippines if General Miles had not spoken, we can understand why Mr. Roosevelt is willing to allow Miles to remain if the general will agree to talk no more.

Whooping Cough.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—JESSIE PINKEY HALL, Springville, Ala. This remedy if for sale by all druggists.

A WORTHY SUCCESSOR

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE.

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E637, EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.
