THE DEMOCRAT-LEADER.

VOL 14, NO 9 PORT ANGELES, CLALLAM COUNTY, WASH., FRIDAY, JUNE 6, 1902. PRICE FIVE CENTS

THE BREWERY.

Is Fast Nearing Completion and the Bottling Works is Already Turning Out a Superior Soda.

A visit to the magnificent new brewery building this week revealed the fact that an enormous amount of work has been quietly done in that establishment during the past two months. For the past three weeks the bottling department has been in running order and delicious soft drinks—ginger ale, sarsaparilla, lemon and strawberry soda—have been bottled in all sizes from the 5c pop up to the bigger and fancy sizes. The machinery in the brewery is very largely in place and is an eye-opener to one who does not know the magnitude of an up-to-date large brewing plant. Manager Jensen confidently expects to be ready to produce the beverage in this department within the next month or thereabout, and says that absolutely no adulterations will be tolerated—a pure hop and barley beer will be produced.

In the bottling department though yet incomplete is installed the "rapid-fire" small pop-filler which is run under a pressure of 150 to 200 pounds, then there is the syphon filler, and the new patent crown stoppler which effectively and completely seals the bottle with a simple cork-lined cap, removing the necessity for a cork puller when using. These machines at present are operated by hand, but the electrical machinery for its future operation is already on hand and will be placed at once. The boxing and casing of bottles also takes place here.

In this building also is the labratory where the syrups are manufactured under the direction of Pres. Hirsch, who is an experienced chemist and druggist. Mr. Hirsch says there is absolutely nothing injurious in these drinks, being made wholly from pure sugar and extracts and pure spring water taken from the spring in the hillside where the water runs into a 300-barrel tank.

The brewery building and fixtures is much more difficult to describe, owing to the vastness of the plant and the enormity of the machinery therein placed, and the half is hardly yet installed. The entire structure is built solidly and permanently as a brewery of necessity must be, and the cost is something probably no one in Port Angeles has any idea of. One half the lower floors are solid cement, the other portions of the building being floored with heavy 3 inch matched flooring, lined with non-consuming asbestos paper and sealed. The building throughout with the exception of the outer walls of the engine room and office has walls eight to twelve inches in thickness all heavily papered to enable owners to keep all the various operating rooms at the freezing point at all times.

On the lower floor of this mammoth building is to be found the office, two large engine rooms, the boiler room, the ice plant with a 25 ton refrigerator plant, ice storage room and two immense rooms in the northwest end for casing and washing. Also the cooling apparatus.

On the second floor are the immense cookers, each of about 125 barrels capacity, the fermenting room which contains seven 100 barrel vats, and the storage room also filled with huge barrel shaped tanks with capacities of from 50 to 100 barrels.

The third floor comprises a large cooking room with a steel cooking and working tank, two large steel tanks of 125 barrels for hot and cold water and a large platform scale of 12,000 pounds capacity.

The mixtures are first placed in the working tanks and from these run to the cooking tanks. The product is then run over the cooling apparatus on the lower floor and pumped to the fermenting vats, after which it is stored and ready for casing for shipment.

The brewery will have a capacity of 150 barrels per day. The building will be lighted throughout with electricity by a plant of 300 light capacity, and will be modern and up-to-date in every department.

The product will be almost wholly exported, all the local dealers, however, readily recognizing the advantage of the home product.

Since the purchase of the Peterson mill by Messrs. Hirsch and Jensen the gentlemen have been very busy with their other industry, but are anxious to get the mill in shape to begin the cutting of shingles on an enlarged scale.

A new lot of Baking Powder prizes—finest yet offered. At Seevers.

EJECT THE MINORS.

Uphold the Prohibitive Law By Enforcing It or Repeal It.

The following from the Port Townsend Call is respectfully referred to the local authorities:

Since Officer Moore has been on the police force he is doing good work in the way of ejecting young men who have not reached the age of 21 years from saloons, and a few evenings ago he notified several to leave the saloons. Officer Moore has the names and ages of this class and he proposes to see that the prohibitive law is enforced and in this he is upheld by the saloon keepers as well as the parents and relatives of the boys, and in after years it is probable that the boys will feel gratified to him for restricting them in that respect.

How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints, both for children and adults. No family can afford to be without it. For sale by C. E. Nailor & Co.

Lake Crescent.

Special to THE DEMOCRAT-LEADER.

Pete Nelson returned Sunday from Port Angeles to continue his residence on his claim.

A. A. Smith and Ensign Jensen of the Wisconsin were enjoying the fishing at both lakes this week.

Mr. and Mrs. C. A. Griggs, Mabel Griggs, and Mr. and Mrs. Gleason of Seattle were at Lake Southerland Sunday.

A party from the U. S. battleship Wisconsin were registered at the Marymere hotel Saturday and Sunday. It included Lieut. Williams and wife, Miss O'Conner, Dr. Smith, Lieut. Senn and H. C. Davis.

L. R. McArdle of Portland was combining business with pleasure in making a quick trip to the lake Friday. He has been interested in Piedmont property for five years but this is his first trip to the lake. He was a very successful fisherman.

Lake Southerland was the scene of a most enjoyable event on Sunday last. A picnic was held in the grove at R. N. Wilson's ranch which brought a large gathering from Eden valley and vicinity, while Port Crescent and Port Angeles were also well represented. Those present included: Messrs. and Mesdames Albert Eacrett, J. W. Epperson, Dougherty, Bradshaw, Drumb, Gallagher, Misses Mary and Belle Bradshaw, Maggie Gallagher, Irene Dougherty, Gertie Johnson, Ella Johnson, and Messrs. Singhose, Drumb, Hart, Bacon, John Grant, Alec Grant, Welch, Dary, Hilt, Peters, Epperson and Barnes.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

BASE BALL.

Port Angeles Boys Play Two Interesting Games With Wisconsin and Dungeness Teams.

Last Friday — Decoration Day —the local ball team donned their new suits of gray, with black stockings, and made prominent the defeat of their adversaries, the boys from the Battleship Wisconsin by a score of 7 to 19 in nine innings. There was a good attendance and an interesting game. The fact that the Wisconsins were all picked scrubs with the exception of their regular pitcher took a little of the cuss off the defeat.

Sunday afternoon the regular Dungeness team came down to annihilate the victors but their advent on the diamond here at this time proved a failure on this score. The local team put up a very strong game and one of the most exciting and interesting of recent years. It was throughout a pitchers' game, and one mistake on either side would have given the game to their opponents. The visitors also made it very interesting for the boys in gray, but failed to reach the home plate once. The nine innings resulted in a score of 2 to 0.

Of what does a bad taste in your mouth remind you? It indicates that your stomach is in bad condition and will remind you that there is nothing so good for such a disorder as Chamberlain's Stomach and Liver Tablets after having once used them. They cleanse and invigorate the stomach and regulate the liver and bowels. For sale at 25c per box by all druggists.

Port Crescent.

Rev. and Mrs. Doyle of Port Angeles were here Monday night. Preaching services were held in the school house and the audience enjoyed a very good sermon preached by Rev. Doyle.

The infant daughter of Mr. and Mrs. Joe Albright was taken very ill Sunday night. Dr. Appleton of Port Angeles was summoned and came overland Monday and was accompanied by his wife. The baby, we are pleased to hear, is much better.

Married, May 27th, at the home of the bride's parents, Wm. Baker to Miss Maude Welch, Rev. Frame of Port Angeles officiating.

Helping the Trusts.

Mark Hanna takes the credit, or at least his friends are giving it to him, for adjusting the coal strike last year. The settlement increased the cost of production 10 cents a ton by the increase of wages. To get even and profit by the strike the operators have increased the wholesale price of coal 10 cents a ton per month for five consecutive months, and another raise of 25 cents is due.

The trust is said to have put up $500,000 for the Republican campaign fund, and all of us have been paying our share to recoup the trust since McKinley was re-elected. It is a rather expensive matter to the public when Hanna undertakes to settle strikes. The trust must be protected at any cost.

Come, ye lovers of ice cream and try Eckley's Delicious.

For biliousness use Chamberlain's Stomach and Liver Tablets. They cleanse the stomach and regulate the liver and bowels, effecting a quick and permanent cure. For sale by all druggists.

To Select Text Books.

The County Board of Education, of Clallam County, Wash., will meet on July 12, 1902, to select text books for the use of all the school districts of the second class in Clallam County.

The Board invites proposals for the furnishing of such books; the proposals to state an exchange price, a wholesale price, and a retail price, at which the proposer will furnish books for the schools of districts of the second class, during the period of their use in the schools of such districts of said county.

The Board reserves the right to reject any or all bids.

We Now Have Most Excellent Steamer Service But Still They Come. Horne's New Boat.

The new steamer Georgia was successfully launched from the Hardy shipbuilding yards at Tacoma Saturday afternoon in the presence of Capt. A. W. Horne, the owner, and a number of friends from Port Townsend. The steamer is named in honor of the captain's wife, and his little daughter did the christening. The steamer is 110 feet long and has 22 feet beam. It is reported in a dispatch from Tacoma that the vessel will be put on the Seattle-Port Crescent route.

Mrs. Doty Dead.

Saturday afternoon at 4:40 Mrs. W. A. Doty passed away after an illness of a year and a half with that dread disease consumption. She had been confined to her bed since March 1st last from which she never arose. The funeral took place from the family home on Eighth street Monday, and was attended by a large circle of friends.

Deceased was 43 years, 11 months and 4 days of age. She leaves an husband and four children to mourn her loss.

Mr Doty is also laid up with a much crippled leg, having some two months ago driven the ankle bones through the sides of his right foot and the upright almost through his heel while prying with a peavy at the Filion mill.

To all friends and neighbors who so kindly helped us during the illness and death of our beloved wife and mother we send our card of thanks.

Filipino Sailors Arrive.

The following from the Townsend Call is given simply for the information it conveys:

"The Sam Skolfield II. which arrived here a few days ago, had among her crew a number of Filipinos, and in speaking of the new addition of American "citizens," Captain Hall praised them quite highly. He said they made excellent sailors, were quick, industrious and performed their duties cheerfully and willingly. Captain Hall further stated that if they make as good "citizens" as they do sailors, then the United States will never regret taking them within its fold."

COMMONER SAYINGS.

The patriotism of some men is never aroused until they can see money in it.

Of course it is not necessary, neither is it always justice, for the flag to stay put.

After carefully noting the date of the next congressional election Mr. Babcock has thought better of it.

The why and the how of volcanoes is information that interests but is not essential. What we want to know is the when.

Mr. Secretary of the Navy Moody should hesitate before interfering with the pink tea duties of the naval officers stationed in Washington.

The name of the next Democratic candidate for the presidency is not yet definitely known. But it is definitely known that whoever he is he will be a Democrat who has been faithful to Democratic principles as enunciated in Democratic platforms.

"Is the ship subsidy bill dead, or only sleeping?" queries the Chattanooga Times. Neither. It is merely locked in its dressing room completing its disguise.

The Cubans whom we helped are free. The Filipinos who helped us are being given the water cure, benevolent assimilation of the Smith brand and arbitrary military rule.

Alfonso XIII was the center of interest in a very imposing pageant, but he did not get as much fun out of it as the average American boy of the same age gets out of a day's bobbing for bullheads.

Just as long as the coal trust can keep adding $1 to the price of a ton of coal whenever it sees fit, the coal trust will have the best of the situation. The place to hit the coal trust is at the baliot box.

"There is no energy in beefsteak," remarks a scientific gentleman. Perhaps not, but in these days of beef trust manipulation it requires an awful lot of energy to get the money wherewith to purchase the steak.

You will search in vain through a Republican organ for any denunciation of General Leonard Wood. Yet General Wood hauled down the flag where it had been "put," and by so doing contradicted Mr. Roosevelt, who said the flag would "stay put."

Whenever a Republican policy is attacked the Republican leaders begin to whine and declare that attacks are being made on "the army," "the navy," "the honor of the country," or make some other foolish and untrue charge. Republicans have ceased defending their policies.

The naval appropriation bill carries a proviso that no part of the money appropriated shall be expended in the purchase of Edgar Stanton Maclay's alleged history of the Navy Department. There seems to be a cruel snub for certain strenuous individuals concealed in that little paragraph.

Only the press made heroes of war are howling about "attacks on the army." The soldiers who won their straps and spurs in open, honorable and lawful warfare are not complaining because instances of brutality have been pointed out. The real soldier is glad of it, because it means that his profession will not be made dishonorable without a protest from the people.

The Philadelphia North American suggests an apt answer to those who say that the men and women who protest against torture and cruelties in the Philippines are assailing the honor of the army when it very pointedly remarks: "The only way to preserve the honor of the army every man who disgraces his uniform."

In a speech in the senate Mr. Carmack of Tennessee made an interesting point when he said that the American people have a right to demand that the party in power shall define its policy in the Philippine islands.

The Federal Grand Jury reports indictment against a former collector and the mayor's secretary, and says the city of St. Louis has been ruthlessly and pitilessly robbed.

The Republicans at request of the President have decided to await the announcement of the Democratic plans for the coming congressional election. This is another evidence that the Republican party is on the defensive.

Senor Buencamino, the Filipino secretary who deserted Aguinaldo to accept a position in the Taft government, appears before the senate committee in behalf of the Federal government, and says the loyal Filipinos want congress to fix the status of his people. His party favors annexation but opposes a colony. He thinks in a few years the people of the islands would be able to say whether they desired independence or annexation.

WAR IS OVER.

Papers Signed Monday—Boers Get Good Terms But Lose Independence.

The Articles of Peace were signed Monday at Petoria, by Generals Dewet and Bremner, and Judge Hertzog, for the Orange Free State, and Generals Schalkburger, Reitz, Botha, and Delarey for the Burghers, on the following terms. The war is ended and although Great Britian came down from its high perch of unconditional surrender the populace in England went wild when the news was received and are still celebrating, the scenes of jubilation being unprecedented.

In figuring the cost of the African war a London exchange declares it has cost Great Britian $32,000 for each armed Boer in the field, or a total cost of in the neighborhood of $1,000,000,000.

The terms follow:

The burger forces lay down their arms and hand over all their rifles, guns and munitions of war in their possession or under their control.

All prisoners are to be brought back as soon as possible to South Africa, without loss of liberty or property.

No action to be taken against prisoners except where they are guilty of breaches of the rules of war. Dutch is to be taught in the schools, if desired by the parents, and used in the courts, if necessary.

Rifles are allowed for protection.

Military occupation is to be withdrawn as soon as possible and self government substituted. There is to be no tax on the Transvaal to pay the cost of the war.

The sum of £3,000,000 sterling is to be provided for restocking the Boer farms.

Rebels are liable to trial, according to the colony to which they belong. The rank and file will be disfranchised for life.

"WE'RE blooming glad its over," is the popular refrain in London these days.

AN action has been begun to compel the Governor to call for the election of a governor, lieutenant and justices of the supreme court this fall.

A FAIRMINDED Democrat is as rare as an impartial umpire.—Courier.

When it comes to talking about fair-mindedness the above item serves for self-condemnation.

WOULDN'T Seattle wish she had not antagonized us so, if in our desperation we induced a southern road to put in here and compete for the northern trade? to say nothing of the Oriental business. If it is one-half of what it is claimed to be it would prove a bonanza to the Union Pacific.

THEY HATE THE SEARCHLIGHT.

"If the press were to consult its own ease it would ignore its moral obligation to thepublic and refrain entirely from the disagreeable task of exposing weak and dishonest men in the public service. Many journals do, in fact, pursue that course. "Why should we," they reason, "concern ourselves with these matters? We should gain thereby not an additional subscriber or advertisement, and we should incur the hostility of the men whose misconduct we exposed."

From the selfish viewpoint this reasoning is sound; but journals pursuing that comfortable course fall short of meeting their moral duty to the public. Fortunately for the people, newspapers guided by that narrow policy are in the minority. And fortunately for the welfare of popular government there are fearless journals everywhere that are not afraid to do their duty.

Journals of this character invite and receive the undying hatred of weak, incompetent and dishonest men in all branches of the public service. Fearing exposure themselves, their sympathies go out to the criticised official, regardless of the nature of his misconduct. They hate the searchlight.

If newspapers everywhere failed to expose official misconduct, unfit men would enter the public service in increasing numbers, and republican government would be a failure. By reason of this fact popular governments everywhere defend the rights of free speech and free press and encourage newspapers in their higher duty to the public and the state.—Spokesman-Review.

THE LEADER PRINTERY

PEACE IN AFRICA.

The dove of peace has at last hovered over South Africa and the title of Johnny Bull to the gold fields and diamond mines and grazing lands of the Transvaal is settled. It has been an unholy war. It has cost Britian all it is worth in pounds sterling. The lives that have been sacrificed are a dead loss to humanity. No compensating principle has been secured in the interests of the race. It may be shouted about by the Englishman, but he will rejoice more at the cessation of the drag on his pocket book than for any glory that can reasonably be figured out for the British flag. The Boers will lose their independence. They are to become British subjects. They have, however, secured honorable terms.

Comparing the parties to the conflict and the Boers easily take the lead for glory. They were vastly outnumbered. They contended against greatly superior resources. But they waged a brave and fearless and skillful war to an honorable close for a principle and only surrendered when the interests of humanity demanded it.

Under the British colonial form of government they will enjoy local independence, can preserve their language, bear arms for self-protection, pay no war taxes, and gradually recover their great financial losses. But what of the British dead? What of the Boers who lie buried upon the strand? Their lives have been sacrificed for British dominion. The blame of the sacrifice can justly be laid at the door of the ambition of a few British aristocrats, The whole empire was drawn into the unholy conflict by the dreams of Rhodes and Jameson and Churchill and their intimates. The ambition will be only half realized, and its cost cannot be justified. The historian will be compelled to write the British arms victorious without glory—the British territory expanded unjustly—the British character smirched and the cause of humanity so far as liberty and freedom and justice is concerned, the sufferer. The courage and tenacity and skill of the Boers, if it had been seconded with resources partially comparable to those of Britian, would have changed the result of the war.

BANKERS SQUEAL.

The Missouri and Kansas bankers, at their meeting held in Kansas City May 15th, give evidence of feeling the grinding hand of the Bankers' trust which now seeks to freeze out all the independent banking houses. At that meeting a resolution was adopted protesting against the branch banking houses of the big millionaires, condemning it "in all its forms as being unpatriotic, un-American, unbusinesslike and tending to establish a monopoly of the great and honored business of banking in the hands of a few millionaires."

DUNGENESS CREAMERY SOLD.

Passes Into Hands of Glendale People of Chimacum.

The Groveland creamery at Dungeness has sold out to the Glendale creamery at Chimacum, Jefferson Co, which will be run in connection with their large plant at that place. Mr. Baker, the present owner, will give possession the 15th of June, but will be kept as local manager of the creamery interest in this county. It is the intention of the present owners to make this plant one of the best in the county and with the united support of all the dairymen in the county this plant can be made one of the best in the state.

We wish, through the columns of the Democrat-Leader, to extend to all of our cream patrons our most cordial thanks for their support while we have been doing business here and would like to have you all come and give the present owner your entire support, as you will be treated better in the future than in the past. THE PRISONER

Who escapes from jail is by no means free. He is under the ban of the law and punishment is written over against his name. Soon or late he will be caught again and bear added punishment for his short escape from his cell.

Those who by the use of palliative powders and tablets escape for a time from the sufferings of dyspepsia are in the same condition as the escaped prisoner. Soon or late they will go back to the old condition and pay an added penalty for temporary release.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and organs of digestion and nutrition. Its cures are lasting.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Secord, Esq., of 13 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not bear any solid food on my stomach for a long time; felt melancholy and depressed. Could not sleep or follow my occupation (tinsmith). Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets stimulate the liver

The importance of having the front part of the udder well developed is but little realized by those who handle dairy cows says American Cultivator. There are some cows in which the amount of milk produced by the front udders or the two forward teats is noticeably less than that from the two rear teats. In an experiment made a few years ago by Professor Plumb he found that in 13 cows which had the front part of the udder much smaller than the rear part he obtained 57 per cent more milk from the hind teats. With 226 milkings from 65 cows which had udders not apparently much smaller in front than rear he obtained 4.1 quarts as an average from front teats and 4.9 quarts from rear teats, a difference of over 16 per cent. Some may claim that the cow gives just as much as though the front udders were well developed, as we have heard them claim that when one teat was useless the cow gave as much from three, but we never believed it.

Properly Mixed Diet.

A properly balanced ration for stock has solved the problem of supplying animals with the elements which their natural appetites crave. This could not be consummated in a restricted diet, which is shown by the unnatural desire of animals for bones and other substances which evidently contained the desired element. Such animals display an unthrifty condition until the desired element is supplied with salt, bonemeal or some other ingredient lacking in their regular ration. A balanced ration involves a variety of elements which go to make muscle, fat and bone in the proper proportion, and stockmen are now giving this subject special attention, as the best results can only be achieved by feeding a properly mixed diet.

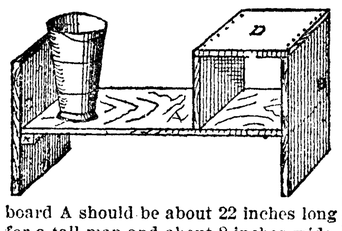
Siloing Millet and Clover.

I have ensiloed millet and clover successfully without cutting, but always prefer to cut everything for silo, says W. F. McSparran of Pennsylvania in National Stockman. I think the silo will hold more when the silage is cut, and, as the process of cutting more thoroughly breaks up the organism of the feed, the digestive agents of the animal more readily and perfectly attack its nutrients.

Millet is a reasonably good feed, but should be cut just when in blossom, and both it and the clover, while perfectly ensiloable alone or together, will make a much nicer and more valuable feed if mixed with corn in the silo. By all means fill the silo with anything green in sight.

Milk Stool and Pail.

We have tried several kinds of stools and have seen all styles in operation in various parts of the country, but nothing suits us so well as the style shown here, says a Michigan farmer in Hoard's Dairyman. We made the first one when we commenced dairying. The cut shows just how to make it. The



board A should be about 22 inches long for a tall man and about 8 inches wide. The two end pieces, B and C, can be cut and adjusted to suit each milker. We made the stool so as to have the seat D about ten inches high. All pieces are about 8 inches wide. It is a pleasure to use this stool. One can sit comfortably without bracing. No need of hugging the pail; simply let it rest between the knees. The pail should be tilted slightly, and, thus arranged, a good, rapid milker will spatter very little milk. This stool keeps the pail off the floor and thus keeps it clean. We prefer a heavy tin pail, slightly flaring and of good depth. A flange at the bottom is a protection and strengthens the pail.

WEEKLY CROP BULLETIN.

A Brief Summary of the Condition of Crops in All Parts of the State.

SEATTLE, WASH., May 27, 1902.

U. S. Department of Agriculture Climate and Crop Bulletin of the Weather Bureau, Washington Section.

The striking characteristics of the week just past was the spell of four days of heavy, soaking rain that occurred throughout the eastern and southern counties from the 19th to the 22nd inclusive. From one to two inches of water fell in that time. The following three days were pleasant, growing quite warm on Sunday and Monday. Temperature above 80 degrees occurred over the Puget Sound country and Eastern Washington. Light showers occurred west of the Cascades, and it was cloudy and cool until the 23rd.

Previous to the warm days the growth of vegetation was very slow, but the warm spell has doubtless given all crops a great impetus. It is considered conjectural what effect the very heavy rains will have upon the crop of wheat and other grain. If rust does not set, as some are inclined to fear, wheat will receive great benefit from the plentiful moisture the soil has been stored with.

The fore part of the week was too wet for farm work, Planting is practically finished, however, and plowing for summer fallow will now be continued. Wheat is all stooled out well, and covers the ground completely. Fall wheat is now 18 inches to two feet high, and the earliest is beginning to head. In Columbia county, where wheat raising has given place to barley raising in a measure, the barley looks very well. Oats are up and growing well in the Skagit country. Potatoes on the dry lands look well, but in the bottoms it has been too wet and cold for them. Hops have not grown well during the past week. It is now quite certain that plums, prunes and cherries were badly injured by the cold rains ten days ago. Grass and clover are luxuriant, making the meadows look very fine. Early strawberries are just ripening; the crop is ten days late.

Mrs. Embree left for her home in Seattle this morning.

The Good Templars held a very enjoyable picnic on the banks of Morse creek Saturday last which was well attended and thoroughly enjoyed. It was one of those old fashioned, everybody welcome affairs where all go together in as few rigs as possible and where everybody is sociable and full of fun. One of the features of the day's sports was an interesting ball game between the high school boys and the Good Templars, resulting in a victory for the latter.

The ladies of the Book Club indulged in a picnic at Innes creek Tuesday last, that despite the light showers which tried to dampen their ardor proved a very enjoyable event. The ladies drove out in buggies and camped up the creek a considerable distance in a delightful clearing and merry making and story telling made the day pass quickly. Luncheon was served at 1 o'clock and of course was heartily relished, as all picnic lunches are. The ladies returned home at 5 o'clock delighted.

Messrs. Walter Oakes and Sam Hill of Seattle, son and son-in law of their illustrious namesakes, were visitors to the lakes Saturday. They are delighted with the magnificence of these two bodies of water and Mr. Hill declares that of the thousands of beautiful lakes he has fished in these are the finest. They spent five hours en route, however, over the new Eden valley route and are loud in condemning the dilitoriness of the commissioners in not putting the road in respectable condition. The traffic would be enormous if the trip could be made quickly. They recommend that politics be thrown to the winds, and that the road be fixed good and substantial upon good business principles.

IMPROVEMENTS.

Cannery Plant Being Thoroughly Overhauled for Summer Pack.

Six or eight men are being constantly employed at the cannery these days in the work of thoroughly overhauling the plant preparatory to the summer pack which will commence some time during early part of next month. New piling will also be placed beneath the buildings and the latter will all be painted white. This will add greatly to their appearance.

Mr. Farmer regrets that things could not be satisfactorily arranged sooner so that the pack this season could be definite, and as things are is doing all possible to make a thorough test of this locality. As has been said, next year elaborate improvements will be made, and if conditions will warrant an ice and cold storage plant will be built.

The gentleman readily recognizes the advantages of this place as a shipping point for frozen fish, and with the advent of the railroad not a schooner will pass our doors laden with fish, as is notoriously the case now.

The handsome new steamer Haven just off the ways at Fairhaven has been secured by the cannery people for their business here.

Ling Toy, manager of the local bazaar of Hong, Yuong & Co., left yesterday morning for Portland to secure the necessary Chinamen to work in the kitchen and around the machinery—about 18 in number. These men are seemingly absolutely necessary to the successful conduct of a cannery, and white labor will in no way be supplanted.

Council Notes.

All members except Mr. Gould were present at Wednesday's council meeting.

Matter of grade assessment against H. P. Cramer was reported by the city attorney who presented a receipt signed by P. A. Meagher showing this tax to have been paid in 1892 in the sum of $157.92 on lot 18 block 14 and lot 12 block 17. The tax was ordered cancelled.

Mr. Grubb asked that light pole in front of the Angeles hotel building be removed eight feet west, and upon motion it was so ordered at a cost not to exceed $10.

Jack Reay was appointed deputy marshal without pay.

Laurel street was referred to the street committee for report.

Upon motion of Mr. Lauridsen the street committee was directed to contract with Messrs. Wise & Fisher for fill at 13th and C streets at cost of $25.00.

The clerk was directed to advertise for bids to furnish wood for light plant for coming year.

COAL AT SEQUIM.

The Port Townsend Call says:

According to indications the Sequim country will develop into a coal field. Some time ago some promising prospects of coal were found back of Sequim, which lead to further investigation with the result that excellent croppings have been found. Mr. McBeth, of this city, who is an experienced miner visited the scene and he was so favorably impressed with the find that he and his partner, Mr. McLennen, will develop the property, Today they placed several men at work driving a tunnel to tap the vein at a considerable depth below the croppings. Later it is their intention to increase the force and continue work until the extent of the deposit is ascertained

The croppings are the most promising yet found on the west side of Puget Sound and if it develops into a paying proposition it will revive coal prospecting which will no doubt result in finding coal in other places in this section.

Young Mr. Stillwell will leave for Kansas in a few weeks.

Joseph Ralph Hayne, aged 17 years, passed away Monday morning, June 1st, at the home of his parents on Pine Hill, after a lingering illness of eight weeks. Death was due to general breaking down of the system, caused by abscesses in the neck, ear and side. The young man had many friends and was well-liked by all.

The funeral services were held from the home Tuesday afternoon, conducted by E. S. Doyle of the Baptist church.

Kind friends and neighbors did all in their power to help take care of the young man throughout his illness, but the best of care could not save him. Throughout his illness he never murmured nor complained, and was extremely patient considering the intense suffering through which he passed.

Farm for Sale.

The well equipped and beautifully located Spring Valley Dairy Farm, situated in the Blyn District, consisting of 120 acres, of which there are 60 acres under cultivation, the remaining 60 acres are in open slashing pasture. Also 20 cows, 4 horses, 1 new separator and water power, 3 [illegible]as, 1 hay press, 1 mowing machine, 1 hay rake and many other tools. The above can be had at $60.00 per acre, everything included. Call on or address JOE KIRNER, Sequim, Wash.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

THE TARIFF DILEMMA.

The Republican Machine In an Uncomfortable Situation.

IT WOULD NOT STAY SETTLED.

The People Are Learning a Few Things About the Dingley Bill and the Trusts—The Reciprocity Dodge Proposed—Expansion Is Also Disturbing the Protection Policy.

The unexpected often happens in politics. When the Republicans enacted the Dingley tariff bill, they said it settled the tariff question and that the policy of protection would not again be disturbed. They claimed that prosperity is dependent upon the maintaining of the protection wall they have so carefully erected. But suddenly some of the most pronounced friends of protection express their purpose of making a breach in the wall and the whole tariff matter is again brought up for discussion by the very men who said it was settled for all time. The enormous growth of trusts and monopolies under the protection granted them by the Republicans was foretold by the Democrats when the Dingley bill was enacted and now that the people are being aroused by the fact that the foreigners are buying trust productions for less than they are the allies of the trusts in congress are in a dilemma. They must cut off protection from the trusts or the prospect of defeat stares them in the face. But to acknowledge they are wrong and that their theory of protection is at fault is another awkward predicament and the great majority of the Republicans under the leadership of Hanna and the president have determined to evade the straits they are in by the unconstitutional and roundabout way of reciprocity.

But reciprocity will not accomplish what the people are demanding, that protection be withdrawn from the trusts. There is another danger looming up to disarrange the protection theory, and the only way that can be averted is by giving up the colonies that have been acquired by the expenditure of such vast sums and the sacrifice of so many lives.

The only way the people will ever get any relief from the tariff tax and the extortion of the protected trusts is by revising the tariff on the Democratic principle of a tariff for revnue only large enough to produce what money the government requires economically administered. Protection is the mother of trusts and must go the way of all monopolies.

Roads and Rural Delivery.

The determination of the postoffice department not to establish rural free delivery where the roads are bad will deprive many farming communities of the benefits of the system. There are innumerable bad roads in the United States.

A WORTHY SUCCESSOR

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucuous membranes causing them to crack open and bleed. The powerful acids in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARR CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE.

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept E637, EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.
