COUNCIL WILL LEASE PLANT

Pass a Resolution to Effect That Electric Light Plant Is To Be Disposed Of.

Wednesday's council meeting made one think of the old days when franchies were granted to all comers. The chief business of the evening being the consideration of the Cain-Filion grant and the reading of a proposition of the water company to furnish power for the running of the plant. All members were present except Mr. Smith.

The following bills were allowed:

G G Teachman, special police $20 00
D S Allen and men..... 12 45
Employes light plant, July 74 25

The street committee reported recommending that C street, between 12th and 14th streets, be repaired at a cost of $35; that ditch on Tumwater hill between bridge and O'Brien's barn, be cleared at cost of $6: that boxes be placed at Valley and 5th and Valley and 4th streets at cost not to exceed $8. The amounts were allowed.

A communication was read from W. C. Seymour, of Tacoma, offering to furnish power necessary to run plant of present capacity for $1,000 per year for a period of twelve years. Mr. Seymour was present and further stated that he would like matter laid over for two weeks instead of one as he desired to make a further proposition. He desired to consult an hydraulic engineer, and was satisfied he could develop 60 horsepower; this would allow him to give the city power for eight hours run and would enable city to increase receipts. Receipts now aggregate $1,800 per annum. He was therefore very much of the opinion that his proposition was by far the better for the city, as the council would doubtless see upon investigation. Things are now at the lowest stage possible, and now that the city has carried the plant through the worst, why not continue when the prospects are better.

The question of granting franchise to Messrs. Cain & Filion also came up and there was manifest a disposition on the part of some of the members to railroad the ordinance through without the least consideration of any other proposition that might be before that body.

Miller wanted the ordinance put on its third reading stating he knew as well how he would vote as he would in a month.

Hallahan wished it laid over to enable council to consider other proposition. Miller pressed the question and Hallahan asked a decision as to the status of the ordinance. It had been laid over to be taken up at a definite period; that period had passed without the ordinance being called up. The mayor stretched a point and ruled such inaction did not effect the ordinance. Mr. H. then called attention to ordinance requiring deposit of $100 gold coin. Mr. Cain tendered his check written upon a piece of blank paper, and it was accepted.

Here a couple of the members weakened, fearing to be accused of railroading, and the Hallahan substitute to lay over was first lost on tie vote, then likewise the Miller motion to proceed. Hallahan, Grubb and Lauridsen voting together, and Miller, Gould and Bowman; Smith absent.

Losing, Miller then moved to lay the matter over and the motion carried unanimously.

Mr. Seymour again asked that matter be laid over for two weeks to enable him to make a more definite proposition, offering as a guarantee of good faith to have the armature repaired at once at his own cost, so city could have lights.

Miller said we didn't need lights and the mayor decided that if Mr. Seymour could not get his amended proposition before council by next week it was no business of councils. Mr. Grubb stated if council saw fit they could postpone action another week next Wednesday.

Bids for repair of Lincoln street sewer at Front street were opened. The Gate City Contracting Company offered to do all work as per specifications, except filling with rock, and furnish all material for $404.00; to fill with gravel at 25c per yard or with stone at $1 per wagon load. Bid was accepted.

Sidewalk on Lincoln street south of Second, and walk just west of Brewery were refered to street committee.

Light manager was ordered to have armature repaired at once.

Council then adjourned.

IMPORTANT DEPARTURE

City Schools Will Now Issue Certificates Upon Which Graduates May Enter U.

The city schools will enter upon a new departure this year, making the high school course four years instead of three as heretofore, and there will be no graduation exercises next year unless some of the graduates of this year decide to take the additional year here. The departure is a very important one, enabling as it does the graduates to enter the state university direct without examination. Heretofore the graduates of the school here have been compelled to take a year's preparatory course before they would be allowed to enter. It is therefore very probable that the graduates of this year will take the additional course the coming year whether or not they intend to go to the university or the normal later.

The directors at their last session also placed the teachers for the coming year, as follows:

Superintendent—L. E. Mahaffy.

High School—Principal, Samuel Treby; assistant, I. L. Ullery.

Central—C. S. Bown, 7th grade; Miss Wilcox, 6th; Mrs. McNutt, 4th; Miss Nevin, 3d; Miss Fields, 1st.

Lincoln Heights — Miss McNamara, principal; Miss Knapp.

Pine Hill—Miss Hogan.

Fourth Ward—Herbert Babcock, principal; Miss Hogan.

According to present arrangements there will be no school in Belleview district, as a large proportion of the scholars heretofore attending there have been taken from the Central, and it will be nearer for them to attend the latter.

20th Wedding Anniversary.

One of the most enjoyable events of the season was a surprise party given to Mrs. McIvor by her husband and daughter, last Saturday evening, at their home on 6th street near Peabody. The party was to celebrate their 20th wedding anniversary. Ice cream, cake, and watermelons, were abundantly served. The evening was passed into the "wee sma' hours" in keen enjoyment of cards, music, conversation, etc. The large company were not crowded in the spacious rooms of the hosts. Countless presents from the guests were appropriately displayed. It being the china wedding, there were handsome vases, tea-sets, water-sets, fruit-sets, plates and other beautiful articles. Those present were Messrs. and Mesdames G. V. Smith, Wm Smith, L. H. Smith, R. Treby, Finch, Swanson, Griggs, McLaughlin, Dermul, Clegg, Lease, Madison, Stakemiller, Dilling, Haynes, Nailor; Mesdames John Morrisey, Allie Maxfield, Mollie Phelps, Mitchell, A. L. Johnson; Misses Lizzie Mitchell, Frane Nace, Josie Phelps, Hypatia Dermul, Leona Finch, Sadie McKinley, Lorna Smith, Addie Smith, Mae Gordon, Mabel Griggs, Flora Stakemiller.

CHAS. E. NAILOR,
City Treasurer.

The Rev. John Brann who has so ably filled the pulpit of St. Andrew's Episcopal church during the past ten months has received and accepted a call from Trinity church in Everett, this state. During his pastorate Mr. Brann has endeared himself to the members of his flock and his scholarly sermons and eloquent discourses have been enjoyed and appreciated by all who have had the privilege of attending services at St. Andrew's. During his pastorate here there have been received into the church by baptism eight adult persons and seven have been presented for confirmation. On last Sunday morning Dr Brann preached his farewell sermon, choosing as his subject "The fall of Jerusalem." At the evening service he preached on "The Transfiguration." Dr. Brann left last evening for Everett carrying with him the best wishes of all in the city.

WEEKLY CROP BULLETIN.

Summary of the Weather and Condition of Crops in All Parts of the State.

U. S. Department of Agriculture Climate and Crop Bulletin of the Weather Bureau, Washington Section. Week ending August 4, 1902:

With the exception of showers in the Western section on the 31st, the week was a dry one. It was a week of moderate temperature, neither too hot nor too cool. The day temperatures were from 75 degrees to 80 degrees in the Western section, and from 80 degrees to 95 degree in the Eastern section.

Except for the rain damaging some hay that was down in the Western counties on the 31st, the week was all that could be desired for haying. It was almost perfect harvest weather in the Eastern counties where fall wheat cutting is under full headway. The temperature was very favorable for spring wheat filling. Spring wheat is now generally in the dough and rapidly approaching maturity. The spring wheat cutting will become general in the Palouse country in about two weeks. Everything so far seems to indicate a fine yield.

In the island counties the weather has been too dry for the past three weeks, and the oat crop on all except low lands will consequently be light. Potatoes have not been affected seriously by the dry weather. Pastures have dried up badly. Corn has not done well. A good second crop of alfalfa has been saved in the Yakima country. Prune trees are reported heavily loaded in Clarke and Lewis counties.

Henry L. Shattuck of Shellsburg, Iowa, was cured of a stomach trouble with which he had been afflicted for years, by four boxes of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedies and a number of physicians without relief. For sale by all druggists.

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoe Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now [nearly a year since] a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by C. E. Nailor & Co.

Impaired Digestion

May not be all that is meant by *dyspepsia* now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

CALL FOR MEETING OF

Democratic County Central Com

NOTICE is hereby given that a meeting of the Democratic County Central Committee is hereby called to meet in Port Angeles, on Saturday, the 9th day of August, 1902, at 2 p. m. for the purpose of naming the date of the Democratic County Convention, fixing the apportionment of Delegates to same, and for the transaction of such other business as may come before said meeting.

W. K. CLARK, Chairman.
A. J. COSSER, Secretary.
Dated, Port Angeles, July 28, 1902

IF ever a county organization was sold out, the Republicans of Clallam were last week.

AND the Tribune very meekly ate its dish of crow! Such is the life of a poor print who has to live.

DEMOCRATIC County Central Committee meeting tomorrow at 2 o'clock p. m. Don't fail to attend.

WHO will say that the ex-chairman of the Republicans has not or will not receive a nice little consideration for his services in behalf of the Jefferson candidate?

EX-DEMOCRATS are allowed to write the platforms for Republican conventions, and to help out generally, but they have to take a back seat when the spoils are distributed.

OF course, one cannot tell until the ballots are counted, but if the Democrats don't elect several of the county officers this year, we are no judge of the sentiment that is afloat against the perpetuation gang.

ONE year ago certain Republicans were talking of hanging a certain Populist for saying, they allege, that McKinley ought to have been shot long ago. This year they picked him up and elected him a delegate to their county convention.

THE Democrats of Clallam stand a very good show of electing at least one-half of their ticket this year despite the returns that rolled up last Presidential election. So turn out and help put up as good a ticket as was put in the field last year.

PERRIN'S PILE SPECIFIC

LIGHT PLANT AGAIN.

The city council has passed a resolution in effect that it will dispose of the electric light plant as seems most advantageous to the city. At any rate they seem bent on disposing of the plant and the franchises. This we believe is contrary to the wishes of the people. They do so in the face of the overwhelming vote for municipal ownership, and by the sale either brand themselves incompetent or public ownership a failure. The former is more in keeping with the facts, as there is not a business man in the city or out, if he owned the plant and the perpetual franchise, as the city does, would dream of practically giving it away. If it did not pay in one plan they would try another, and we submit there is a way to make the plant pay if business methods were adopted.

But for the sake of argument let us concede that if one of the gentlemen owned the plant and franchises and for lack of funds could not make the necessary improvements for economical operation, and was willing to lease the whole to any individual. What would be their policy? Would they give a franchise for ten, fifteen or twenty-five years, and take present conditions as a basis for the entire time? We think not. For a lease of five years the price offered is a fair rental, and at that figure the grantees would make a very good thing of it, under the plan they propose to run. (The city could adopt a like plan.) For a longer period the price offered is not enough, and even those who favor lease are opposed to longer time at that price, and opposed to more than ten years at any price.

There are also the proper safeguards to look after so that at the end of the lease period the grantees will not be in a position to dictate.

THE WATER PROPOSITION.

The city council has a proposition before them that it will undoubtedly pay to look into. Mr. W. C. Seymour agrees to furnish the city water power of 60-horse power for a period of twelve years for the sum of $1,000 per year. Possibly this sum can be cut, but take it as it is, the city dads should look into the matter.

The present power is not only expensive but laborious, and but 40-horse power is developed, and even this power is not all consumed with the lights now furnished Hence for a less sum the city will have a labor-saving power that will enable the light manager to more than double its present system. At first glance the saving in two year's alone would install the water wheel necessary, construct the simple power-house and permit the introduction of modern current machinery. Give the proposition proper consideration.

WANTED—The people of the east and west ends to put their heads together between now and convention day and unite on a man for county commissioner from their respective district who is capable, honest and fearless. The people of Clallam have had enough of the gang that has prostituted their very interest to accomplish selfish ends.

THIRTY-SIX out of the forty-five states have railway commissions and the Seattle Times very meekly admits that Gov. McBride has "very great authority and precedent" for his position.

BLIND-FOLD.

Blindfold a woman and she loses all confidence in herself. Her step is slow, hesitating and uncertain. Her hands are raised to ward the imaginary blows which threaten her. When a sick woman seeks the means of health she is often like a woman blindfold. She has no confidence. She cannot tell what her effort will lead to. She turns now to this side and then to the other in uncertainty and doubt.

The sick woman who uses Dr. Pierce's Favorite Prescription may do so with absolute confidence. It invites open-eyed investigation. There need be no hesitation in following the hundreds of thousands of women who have found a perfect cure for womanly ills in the use of this medicine.

"Favorite Prescription" cures irregularity and dries weakening drains. It heals inflammation and ulceration and cures female weakness.

"With a heart full of gratitude to you for sending out over the land your wonderful medicine I send these few lines, hoping that some poor suffering women will try Dr. Pierce's medicines," writes Mrs. Cora L. Root, of Greenspring Furnace, Washington Co., Maryland. "I had suffered severly from female weakness and had to be in bed a great deal of the time. Had headache, backache, and pain in left side when lying down. I commenced taking Dr. Pierce's Favorite Prescription, and had not taken two bottles when I was able to be around again and do my work with but little pain. Can now eat anything and it never hurts me any more. Have taken seven bottles of Dr. Pierce's Favorite Prescription, and one of his 'Compound Extract of Smart-Weed and several vials of his 'Pleasant Pellets.' Feeling better every day. My husband says I look better every day."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

THAT BRIDGE CONTRACT.

THE DEMOCRAT-LEADER regrets to be compelled to again make an attack upon the policy of the county commissioners. It makes no friends and loses patronage by its aggressiveness, but as long as we are satisfied that business principles are being violated, and there are evidences of a graft we will not hesitate to speak out.

The commissioners, at last Friday's session, attempted to do an illegal act in the face of full knowledge of the fact and were only stopped from doing so by citizens threatening to enjoin them. They now seem determined to carry out the plan, in a legal way, by dodging.

One month ago the commissioners called for bids to construct a bridge over the Dungeness river, as per specifications filed by the county surveyor. In accordance with such specifications the Gate City Contracting Company bid $3,072 to do the work. Commissioner Christopher had been up sound and had seen the Puget Sound Bridge and Dredge Company and that company put in a bid for $4,550 and $4,800 for a patent bridge of their own specifications. Then came the surprising part of the program. Everything seemed to be prematurely agreed upon and the contracts were about to be signed up with the Bridge and Dredge Company not only at a figure $1,500 in advance of the lowest bid, but wholly outside of the specifications and therefore wholly illegal.

Mr. Lauridsen then appeared before the board with council and warned them of his intentions to enjoin such illegal action, and was told by Commissioner Christopher that they would let the contract anyway, and he didn't care if every taxpayer in the county protested.

Here is arrogance for you.

Seeing an injunction in sight, however, the commissioners agreed to not sign the contract, and it is now understood a new call will be made allowing contractors to furnish their own specifications, and unless further protest is made it looks as though the larger bid will be accepted and the additional $1,500 thrown to the dogs.

This is the second instance wherein the county is likely to be roundly soaked by fake bridge companies. The agent who received the contract for the building of the bridge over the Calawa river at a cost of nearly $7,000, undoubtedly "did" the county to the tune of $1,500. The bids called for a deposit of ten per cent of the contract price, and the gentleman drew up his certified check for $500, proving that his intended bid was to have been $5,000. Finding no threatening opposition the bid was raised over $1,600 and accepted.

There is such a thing as keeping money at home. There is such a thing as making a fair call and awarding the contract in a legal manner, to the lowest bidder. To make a call as is intended and has been a favorite plan of the commissioners allowing the bidder to draft his own plans is not only not fair, but leaves a very nice opening for a graft on the part of the awarding board, for the only thing that can then be called into question is their judgment.

THE DEMOCRAT-LEADER therefore protests against a continuance of such tactics, and at the same time wishes to enquire why a bridge of such a price is desired where a change of channel is liable to leave it a worthless structure high and dry at most any time?

The commissioners will bear watching.

COUNTY NEWS

Clallam Bay Record.

A new locomotive for Robinson's camp arrived here on a scow in tow of the tug Dolphin, last Tuesday. The new locomotive is a new Shay built especially for D. A. Robinson. The old one was taken back to Seattle this week.

Fire destroyed three buildings here last Saturday afternoon including two dwelling houses and the telegraph office. The fire broke out in James Wilson's house which he recently purchased from Robert Smith. It was caused by Mary Wilson pouring coal oil into the stove to start a fire to get dinner.

Forks.

Forks is getting to be quite metropolitan as is fitting the leading city of the West End. The Revs. Scudder of Seattle, and Fletcher of Latona, have been here on a missionary enterprise, holding meetings on Sunday and Monday. While they were here a Sunday school was organized.

A church was organized with about seven members and preparations are being made for a $1,200 building. Rev. Scudder represents the Congregational Home Missionary Society, and promised the aid of his Association in the work. It is hoped to begin work on the new building this summer.

With the new Odd Fellow's hall and a new school house, Forks will take the front seat among the cities of the Quillayute.

The rush of land hunters has again commenced. Jim Henrie sent a party of eight, mostly ladies, in a bunch to be located by his partner, Billey Snell, on the Hoh.

At present the hotels are full of strangers looking for claims.

The Indians at Neah Bay are reaping a harvest on the big run of salmon. They are catching these fish in large numbers and find a ready market at a good figure at salmon cannery at Port Angeles.

The Northwest Magazine.

In the current mid-summer edition of the Northwest Magazine of St. Paul, the cover is appropriately printed on a delightful white surface, and shows a fisherman in the St. Joe, Idaho, with two fine trout caught at one cast. This must be based on a true fish story, inasmuch as the photograph of the angler and his trout was made by Mrs. E. E. Gimble of Fairfield, Wash. This number of the magazine abounds in good things, light and solid reading being agreeably varied.

Each article is illustrated with great taste in keeping with the old-time reputation of the magazine. In "Stillwater, Solid and Progressive," Mary Alcott McKusick provides a readable article of general practical interest. The same author writes interestingly of "Twelve Miles of Lumber, Logs and Mills," being a graphic account of the industry which has made Stillwater and the St. Croix famous. Rufus A. Hoyt of St. Paul describes from a business man's point of view "Picturesque Pine County, Minn." "Questions of the Day" contains aphorisms by James J. Hill. Frank I. Mason tells agreeably "A True Story of the Indian Chanentsy," while Roy W. Reynolds, a Western author, who is ascending the pathway to fame, recites the story of "Old Hawley's Ghost," in a way to interest railway men as well as the public in general. Charles S. Fee, the veteran General Passenger Agent of the Northern Pacific, writes with much force and clearness on the wonderful growth he has observed during a recent visit to Washington and Idaho. E. G. Blaine, a prominent Seattle lawyer, contributes and article on "The Famous Totem Pole of Seattle." Frederic L. Seixas gives timely facts concerning "Wheat and Flour for China and Japan." The merry home of the Olympia Rod and Gun Club is described in the article entitled "Amid Majestic Pine Trees of Washington" "The attractions of Wildwood" refers to the new summer resort on White Bear Lake, Minn. This excellent number of The Northwest Magazine is worthy of the fame of its founder, the late E. V. Smalley, who designed it to promote the advancement of the Northwest, as well as to develop literary sentiment there. The customary "Record of Industrial, Commercial, and Railroad Progress of the Northwest" makes a gratifying showing.

THE LEADER PRINTERY

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

The 11-year old daughter of Mr. and Mrs. Bowers of the upper Seibert's creek district broke her left arm at the wrist yesterday morning and was brought to the city to have it set. She is now resting easy.

John McLeod was brought up from Crescent yesterday morning with a broken leg, which he sustained through getting tangled in the rigging at the camp. He is getting along nicely at the Commercial hotel under the doctors care

A very pleasant surprise party composed largely of members and young folks of the Baptist church, arranged by Mr. Bowlby, was given to Miss Lizzie Mitchell, Wednesday evening. A few hours of pleasant enjoyment terminating with a delicious lunch, concluded the evening.

The lakes are the center of attraction these days, no less than a dozen large parties from this city alone being in camp there, besides several from up sound. The stage last month did a business of $250, besides the large number that visit the lakes in private vehicles. The steamboat company also has done good work advertising these attractions and has brought down a large number of visitors.

In the serious brush fires which have been raging just south of the Pine Hill school building the past week Mr. Peter Chambers had the misfortune to lose 310 cords of wood, which he was compelled to leave in the woods for the present owing to the rush to the lakes and the scarcity of teams. The fire was started by campers who let it get away. If an object lesson was made of some of these inconsiderates, they would be more careful with fires.

The New Option Policy

OF THE STATE LIFE INSURANCE COMPANY combines every desirable advantage to the policy-holder that can be obtained in the policy of any safely conducted, progressive, old line company. It is non-forfeitable, upon very liberal surrender conditions, after the second year, and is adjustable to nearly every important financial contingency in life. In short, it may be said to furnish three kinds of insurance for one and the same premium, viz:—

FIRST—Insurance for the benefit of the family, in case of death of the insured.

SECOND—Insurance against poverty in old age, by its cash settlement.

THIRD—Insurance against sudden financial disaster, in that it is available as collateral security for a cash loan, to the amount of its loan value, at any time after two years.

Every policy in the State Life is secured by a deposit of its entire cash value with the state of Indiana

TRACY IS DEAD.

Shoots Himself After Being Mortally Wounded.

Outlaw Tracy wandered into the open in Eastern Washington, near Creston, and was surrounded Tuesday evening, and shot in the leg fracturing that member. Being unable to walk or to stop the flow of blood, he shatters his skull with a 45 revolver, and is found dead in a wheat field.

Five Creston people whom Sheriff Cudihee was instrumental in organizing will get the reward. Tracy was much excited in the chase, and had he kept up his reputation as a crack shot a different tale would have been told. He fired eight shots at his pursuers before he was hit. He then gave up, crawled into a wheat field and cheated the gallows by shooting himself.

H. E. Morrell, of Toledo, Wash., was a business visitor this week.

Mr. and Mrs. Hays Evans, of Dungeness, were visitors Wednesday.

Mrs. Short, of Cherry Hill, has gone to Iowa on a visit to her parents.

Eugene Bowman returned to Portland Sunday after a pleasant visit at home.

Mrs. A. H. Gould, of Pine Hill, returned from her visit to Seattle Monday.

Miss Lillie Brewster, of LaConner, is a guest of Judge and Mrs. McClinton this week.

Mr. and Mrs. Howard, of Chicago, are visiting Mr. and Mrs. Herman Fisher. They will spend a vacation of some length here.

Mr. and Mrs. Averell, of Portland, are spending a short vacation with Mrs. Alice Raymond, mother of Mrs. Averell.

Miss Emma Bodum, of Seattle, and friend Miss Kate Goehring, of Minneapolis, arrived Monday for a two week's visit, here and at the lakes.

Rev. J. Cheal and wife arrived Wednesday from Yakima for a visit to the lakes. Rev. Cheal will occupy the pulpit of the Episcopal church Sunday, and perhaps permanently.

Mr. and Mrs. Larkfield, of Elgin, Ill, were guests of Mr. and Mrs. H. Fisher last week. They are making a tour of the sound cities and are much pleased with Port Angeles. Mr. Larkfield says we have the best location and best harbor and townsite on the sound.

A. T. Glassburn, a prominent banker of Tampica, Ill., is spending the week here and at the lakes with his uncle, Councilman Smith. Both Mr. Glassburn and his uncle are well acquainted with Tracy's grandfather who died this week at Pittsville, Wis., and they say the Severns family is not the best in the world.

NOTICE OF SETTLEMENT OF FINAL ACCOUNT.

In the Superior court of the State of Washington, for Clallam county.

In the matter of the estates of James, Lucy and Frank Fielding, minors.

Notice is hereby given that Ben C. Keller, guardian of the estates of James Fielding, Lucy Fielding and Frank Fielding, minors, has rendered and presented for settlement to and filed in the Superior court of Clallam county, State of Washington, his final account as such guardian; and that on Saturday, the 6th day of September, 1902, at 10 o'clock, a. m., at the court room of our said Superior court, in the city of Port Angeles, in said Clallam county, has been duly appointed by our said Superior court, for the settlement of the final account, at which time and place any person interested in said estate may appear and file his exceptions in writing to the said final account, and contest the same.

WITNESS the Hon. Geo. C. Hatch, Judge of the said Superior court, and the seal of said court affixed this 5th day of August, A. D. 1902.

FREE MAIL DELIVERY.

Will Give Impetus to Good Roads Movement.

Now that the postoffice department has announced that the continuance of free delivery of the mails in rural districts depends upon the maintenance of good roads the question of the keeping up of the roads is of more importance than ever, says the St. Louis Post-Dispatch.

Free mail delivery has been of great benefit wherever it has been tried. It means a saving of time and money to the people. It is the use of well organized effort for the desultory and wasteful method of each man going for his own mail. In many cases it may save individuals of families much money and suffering. There are plenty of instances where the prompt delivery of a letter was a matter of life or death.

When it is understood that those sections that maintain good roads have free delivery, while those that allow the roads to become impassable are cut off from its benefits, it can hardly be doubted that we shall see a great improvement in roadmaking. Country people do not like to pay for something which they do not get.

To Clean Kitchen Zinc.

For cleaning zinc under the kitchen stove a housewife writes that she never found anything equal to spirits of turpentine. Spread the fluid all over the zinc and let it remain for a few minutes. Then take an old soft cloth and go all over it, rubbing every inch thoroughly. Wash up with hot water and soap and wipe dry.

A WONDERFUL WORK.

To be a man who can excel one hundred thousand men in any one line is good, to be one in a million is better; but to be the only living man, (and the second one in the history of the world), who has drawn a perfect single line picture, is wonderful! This Mr. Fleming, author and illustrator of "Around the Pan," and "Around the Capital" ($2.00 books) has done in his drawing of McKinley. Price on best Japan paper, $1.00.

His "Around the Capital," containing one hundred and fifty full-page Washington ink sketches and fifty full-page pictures of prominent Americans, including the ambassadors and statesmen, among those participating in the Spanish-American War—comprising the greatest collection of facts and faces ever produced in one volume in condensed form, will interest the entire civilized world. The drawings equal, if they do not surpass those of John Tenniel's, for which work he was knighted by Queen Victoria. The humor is contagious.

LONG AND SHORT.

Views of the Advocates of the Large House and the Small House.

M. Sumner Perkins writes to The Poultry Monthly:

"I believe in poultry colonization—that is to say, many small coops and houses scattered over large areas and occupied by few fowls rather than a few very large houses occupied by many fowls. Better put 1,000 fowls into 50 different houses than into only two or three large houses, even if the latter really contains the same area as the former. We don't want too many under the same roof. It is the same case as it is with the human habitations in congested city quarters, the so called tenements or rookeries where men, women and children are so huddled together that they arrive at neither physical nor mental standards of proper development. So with poultry. It won't do to crowd them. They need abundant air space and to be so separated into small numbers as to avoid contagion from disease. The small isolated house is the ideal plan at all times and especially as summer comes on foraging room is needed and a liberal area for each colony of birds. Under such conditions strong breeding stock and vigorous laying stock may be maintained. It is very good policy to have light coops and fencing built in sections so as to be taken apart and put together at will."

The editor of The Monthly responds as follows:

"We publish the above not because we believe it or indorse it in toto, but because we wish to give all sides of such questions. The colony house has its place, especially for breeding stock, its greatest advantage being that it allows the use of larger yards in connection therewith than are possible in connection with a long house cut into comparatively narrow pens. But for houses for laying stock, especially where hens are kept by the thousand, and more especially for winter laying, these colony houses come well nigh being impracticable.

"The assumption in the above that the fowls are crowded or suffer from impure air or disease simply because they are in large houses in large numbers is entirely wrong. Some of the worst cases of overcrowding and filth and disease we have ever seen or heard of were in small houses. The comparison between the crowded city tenements and large poultry houses would have had more force a quarter of a century ago. Today some of the most sanitary dwellings in the world are some of these modern city tenements and apartment houses. The average poultryman will keep a large house cleaner than he will a lot of small houses of equal capacity, simply because he can do it easier. On the score of economy of material, of time and of labor the long house is ahead. It is cheaper to build and cheaper to care for and keep in repair. It is less exposed to storms in winter, and everything can be better kept under the eye of the overseer. Let some of the advocats of colony houses try to care for 1,000 hens each kept in 50 colony houses in separate yards during some of our northern winters. Let them visit these houses several times daily to feed, water and clean platforms and replenish grit and shell boxes and supply new litter and spray the roosts and gather eggs and a few other details, and some one would be looking for another job before many weeks had passed. It is well to have some colony houses. They are good for the breeding stock during spring and summer. They are good for the young stock during the growing season. But when it comes to keeping hens by the thousands in houses accommodating only 20 each they are not what are wanted. The long house is the only one to economize labor, allow the use of labor saving devices and reduce cost of care to minimum."
