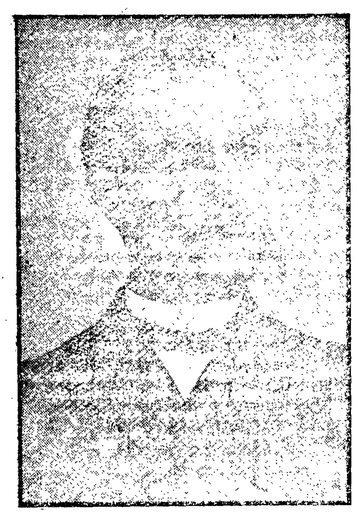
THE ONLY DEMOCRATIC PAPER IN THE 24TH SENATORIAL DISTRICT.

THE DEMOCRAT-LEADER.

VOL 14, NO 30 | PORT ANGELES, CLALLAM COUNTY, WASH., FRIDAY, OCTOBER 31, 1902. | PRICE FIVE CENTS

A BOMBSHELL DROPS INTO THE CAMP OF THE SUBSIDIZED PRESS



STATE SENATOR,

Dr. F. S. Lewis, of Port Angeles, born upon a farm in Norwalk, Ohio, 1848, removing later to Vassar, Michigan, where he graduated from the high school; later on he took up the study of medicine and was graduated from the Detroit Medical College with highest honors in 1874; he has been a practicing physician ever since, except for a brief service with the B &M.R.R.Co. at Omaha, Neb ; came to Port Angeles in 1887; has been honored by his party several times by being nominated in 1892 for state land commissioner, and for representative in 1900, The doctor is earnest, energetic and capable of representing Clallam county in the state senate.

JOBBERY!

The Calawa Bridge Contract More Than One-Half Profit.

FORKS, Wash., Oct. 27, 1902.

TO THE EDITOR: The people of the West End should know a few of the facts regarding the building of the new Calawa bridge before election day, that they may vote against the re-election of the jobbery commissioners.

The contract price for building this bridge was something close to $7,000 00. The lumber used was 75,000 at $10 per M, $750; the labor cost less than $1,000, and the iron laid down at site about $1,500, making a total cost to contractors of $3,250; the balance is profit and may be some boodle.

The work on the bridge is badly out of line, having already swayed down stream as though starting for La Push. The foreman must surely have felt quite certain he had the board of county commissioners pretty solid or he never would have left the work in such horrible shape.

One-half payment has already been made and with the present board re-elected, there is no doubt the other half will be ordered paid without a murmer, as many other claims have been paid without knowledge of work done or question as to amount

It is up to the people to inspect this bridge as one of the acts of gross negligence or collusion, and it is up to them to say if they will vote to continue such men in office.

COMMISSIONERS' RECORD.

The people of the West End are very much opposed to the re-election of D. A. Christopher, if private correspondence from citizens there of both parties is any conveyor of the will of the majority. These parties demand that Mr. Christopher's record be published and from the tenor of a couple of the communications published in this week's issue one would be led to believe they are extremely suspicious of the gentleman from the West.

Taking what we know, we are inclined to regard the man as unsafe, unreliable and somewhat freakish, being exacting in small things—things that he only seemingly can comprehend, and easy, very easy on larger and more important ones.

The time is short in which to hunt over records of the past two years, but we find by skimming, a record that casts a suspicion—a record that looks as though the mind failed to grasp anything above an ordinary day's labor, and one that is responsible, therefore, for loss to the fellow who actually earned his claim and great gain to the fellow the magnitude of whose job he failed to get an intelligent idea of. Other instances bear evidence upon the face of them an interestedness that is wholly illegal, namely, the bridge contracts, in which he persistently visited up-sound contractors and solicited bids—one in each instance; no competition—and gave, in the case of the Dungeness bridge, the contract to one of these in preference to the home concern at an advanced figure of $1,500. There is also a very shady transaction in the Calawa bridge contract, which was explained in these columns at the time, the bidder raising his price over $1,000 after coming here and finding no other bidder.

But why pick on only Mr. C. for this? Because Mr. Gierin only attends the commissioners session when he has some company's matter to attend to, or is absolutely compelled to in the absence of Mr. Thomson, and because Mr. Thompson takes very little interest in county affairs that do not personally interest him, and acquiesces in anything and everything that does not step upon his toes. Mr. Christopher has been THE BOARD and has drawn more salary and mileage in the past two years than all three commissioners in the days of Mr. Tuttle. Possibly for this, however, the other members are to be more censured than he.

Besides this large salary as commissioner Mr. C. has appointed himself to deputyships in the county offices and while here holding two offices has collected mileage at the semi-monthly short sessions held, in some instances his salary and mileage reaching $17.40 for one day's services.

Then in May he voted himself the exclusive use of $1,500 to be expended at his own discretion in the west end, bills to be approved by him, and the auditor to issue warrants upon his say-so!

The Calawa bridge incident is well taken care of in our correspondent's account elsewhere. The famous Dungeness bridge deal is also fresh in the minds of the people, and so rank was it that injunction proceedings were threatened, and he was compelled to give the contract to the proper parties—the lowest and best bidders.

Then we have the spectacle in the Carnes murder case, wherein this egotist appointed himself deputy sheriff and absolutely ignoring the duly elected officer, took charge of the case, employing detectives at $5.00 a day and expenses. This was kept up until $800.00 was eaten up, and what the detective knows he kept to himself. Nobody else knows anything of the findings except that the murderer escaped and the county is $800 in the hole. The amount is charged against the sheriff's office, but Mr. Smith is in no way responsible therefor.

This man is responsible for part of the enormous increase in the attorney's office, he not permitting one solitary case, no matter how small, to come to trial without having named assistance for the attorney, whether or not he wished it. The expenses of this office raised from $698 in 1899 to $1,788 in 1902.

He has also named himself for several junketing trips up sound at county expense.

Then one thing the editor well remembers, though it in no way effected him because he expected nothing at the hands of the Republican board. Last spring this man Christopher came up from below armed with a bid from the irresponsible Quillayute News, many times in excess of the local bids, when service is considered. He tried all kinds of tricks to give this work to his political friend who, hoped to use this graft to establish his paper in this city when the land notices, for which he located in the West End, ran out; and failing in this, has held up the sucessful bidder. Although the contract was let in April last to the Courier, the T.-T. still draws the pay.

So much for this year's work. Space and time will not permit a review of last year.

We pass to the people to vote on the record. Tuttle's they know, and point to with pride.

Despite the fact that the county has since maintained a cash fund, under the beneficent law of the Fusionists creating the current expense fund, the expense figures of the past year are shown to far exceed the expenses for the fiscal years ending June 1, 1896 and 1897, when everything the county bought it had to pay for three times in warrants. The figures are: 1895-6, $24,994 91; 1896 7, $26,456.00; 1901-02, $30,036.04.

OLEMARGARINE.

Turner Voted for the Bill By Pairing With an Opponent During His Absence.

With their usual facility for prevarication Republican papers are circulating the report that Senator Turner was opposed to the Olemargarine bill. The way they do it is this: "The dairymen are highly incensed at Senator Turner for not voting for the Olemargarine Bill."

It is true he did not VOTE FOR the bill because he was absent at the time, but his vote counted for the bill just the same as he arranged before his departure that he be paired with an opponent of the measure, which is the same as voting for it.

This fashion of lying by suppressing the truth is an old Republican trick, and is as purely false as saying Senator Turner voted against the measure.

Mr. Christopher attended the state board of equalization at the expense o the county and Clallam's figures were raised many thousand of dollars, while Jefferson's representatives succeeded in getting a like reduction.

They Find There is Still a Loyal Democratic Paper in the 24th Senatorial District.

PORT TOWNSEND, OCT. 30.—The appearance of THE DEMOCRAT-LEADER championing the cause of democracy of Jefferson fell as a bombshell in the ranks of the republicans who thought by subsidizing both papers of this city the claims of the democrats could not be heard, neither could the corrupt practices of the republicans in Jefferson be heralded to the public. When the republicans realized that copies of THE DEMOCRAT-LEADER were being scattered broadcast there was a general flurry in their ranks. The wise men were assembled and it was decided to brand the statements contained therein as false. The facts, however, remain the same, and many republicans who believe in honesty in politics as well as in business transactions have been making quiet investigations, and find that the accusations are all true and they have signified their intention of casting their votes for the democratic ticket to show their disapproval of corruption in office as well as corruption in politics and thereby put a check to the fraudulent and illegal use of the people's money.

The appearance of the charges

A "FAIR" DEAL, THEY SAY

The defense of the opposition to the figures given last week and this will be that there is more work in the offices now than there was in 1895-6, that salaries have been raised, and that certain delinquent tax list had to be published. We answer, the tax list hsd to be published every year prior to 1896; only once since; the extra salaries according to law do not exceed $1,000; we admit there is more work in the treasurer's office occasioned by the forced payments under the Fusion law, but this certainly does not add more than another $1,000; we deny that there is any more general work, hence the comparison comes into play without any unfairness, while the opposition's effort to compare to day's cash expenses with those of the days when warrants were selling at 35c cannot

Why were warrants selling at 35c. Everybody knows why. Everybody knows that when a county is plunged into overwhelming debt, as Clallam was during the days of Gray, Gordon and Davis, warrants at once begin to depreciate, taxes begin to multiply, and despite all efforts to stem the tide the debt will keep piling up, until some such relief comes as the Fusion legislature of 1896-7 provided. The time of reducing the debt of course dates from then, and the increase was inevitable till then.

But why reiterate? The people of Clallam know these truths too well. They know that the county officers are paying off the debt with the back taxes collected from individuals who have been compelled to sacrifice some to pay on other property, to prevent losing it altogether. A tax that eats up the entire value of property in a few years is a very high tax. And behold the vast amount which the county could not get a bidder to pay the tax, and was compelled to take it itself! Nineteen-twentieths of the delinquent property which the people have been practically robbed of, has been bid in by the county. According to the last auditor's report $79,691.30 in delinquent taxes was bid in by the county, and the former owners, according to the law, have no more rights in the premises than any other individual when the property is finally put up for sale to the highest bidder.

Not only this source of revenue to pay off old indebtedness, but the board levies a large unnecessary tax for current expenses, transfering the surplus collected to the old funds. The present enormous tax could be materially reduced if it was not for this fact. Instead one-fourth more was added this year.

The commissioners continue to tax the people at the same old ratio, increase rather than reduce running expenses. and they make a great splurge about "Haven't we reduced the debt?"

THE DEMOCRAT-LEADER'S STATEMENT is NOT SO RIDICULOUS when the FACT is known that WORK has NOT INCREASED to any extent. The Fees Earned in 1899-0 were $4156.00 and in 1902 $597 more or $4760.

'Tis the crowd that is ridiculous when it tells the people in its fright that the work have doubled.

Does anyone remember the date when the G. O. P. candidate for treasurer first got hold of the teat? Isn't it about time the family office was broken up?

MAKING VOTES AT ALL POINTS.

The Democratic Legislative Candidates in Favor in Jefferson County.

CHIMACUM, Wednesday, Oct. 29. The people of this place laid aside the cares of business and turned out en masse to attend the Democratic rally here last night and after hearing Dr. Lewis' address they did not regret their action. Dr. Lewis not only made a telling speech, but made many votes, and if Clallam and San Juan counties do their duty he will be elected with hands down. W. A. Pfeiffer and Samuel Curry, both of whom are well known, will receive many votes outside of the party which they represent as well as the other candidates on the ticket. The people here, and especially the Republicans, are like the Republicans at other places in this county, are tired of ring-rule and extravagance in conducting county affairs, and by their votes on November 4th will show their disapproval by casting them for the Democrats. Your correspondent has visited all sections of the county and has found that many Republicans are up in arms and say that the ring has pulled the wool over their eyes until the county is almost bankrupt, and taxation is higher than in any county in the state and that the ring needs a rebuke and this election is the time to administer it.

QUILCENE IN LINE.

Gives the Democratic Candidates a Royal Welcome and Promise them a Handsome Vote.

QUILCENE, Thursday, October 30.—Last night was a gala night at this place, the occasion being a Democratic rally and a dance. Dr. Lewis, W. A. Pfeiffer and Samuel Curry, of the legislative ticket, and other candidates on the county ticket, were here. The hall was well filled with ladies and gentlemen, and the various candidates presented their claims for office. Dr. Lewis was the principal speaker of the evening, and he presented his claims in a logical and dignified manner, winning the admiration of all who heard him. He confined himself to facts and figures and refrained from entering into personal matters. He, as well as the balance of the Democratic candidates, will receive a large vote here.

At the close of the speaking dancing was indulged in and all had a most enjoyable time, and it is safe to say that if the ladies of this place had the say the entire Democratic ticket would be elected.

caused renewed activity in the republican ranks. The committee, having drained the pocket books of the candidates in order to subsidize the newspapers, were in sore straights for more cash, and F. W. Hastings, a member of the executive committee and candidate for re-election as county commissioner, made a hurried trip up sound and it is said that he went to get funds from the state committee, but it is thought that he did not succeed in his alleged mission, as he does not stand very high with leading republicans of the state, they not having forgotten his betrayal of his trust a few years ago when he was elected to the legislature as a Calkins man, and that the money with which he made his campaign and secured his election was furnished by Calkins and his friends; but like Judas of old, he betrayed not only his constituents but Calkins, and voted for Squire for U. S. senator. The republicans of Jefferson have not forgotten his betrayal of their interests, and will vote for J. C. Christian for commissioner, a man who will put a stop to the boodling operations of the board

The republicans through their subsidized papers have resorted to personal attacks and ridicule of the candidates on the opposition ticket, which rebounds against them as the unprejudiced among the ranks of their own party realize that the nominees on the democratic ticket are men of high standing in both business and social circles and are not chronic office seekers, but only consented to become candidates in order to call a halt in the wastful extravagance of the people's money in the management of the affairs of the county.

The republicans claim that the enormous expense in conducting the affairs of the county is due to a wave of prosperity which has swept over the country during the past two years. But when we come to consider this wave of prosperity we refer to an article published in one of the subsidized papers, some months ago stating that the board of county commissioners appeared at Olympia before the state board of equalization and stated that Jefferson county was the poorest county in the state; its debt was the largest, its lands the poorest and its taxation the highest. If the voters will stop to consider they will see that the very men who are seeking their votes to continue them in power are the ones responsible for the bankrupt condition of the finances of the county and its present rate of taxation. The republican taxpayer as well as the democratic taxpayer are victims of the misrule of county affairs, and now they are in open revolt against its continuance and will cast their votes for the democratic ticket which means retrenchment.

As the election approaches and the voters in the republican ranks begin to realize that their party leaders subsidized the two papers of this city for the purpose of avoiding an expose of their methods in looting the county, the ranks of the G. O. P. are being thinned by men who will cast their votes for the democrats as a rebuke to the corrupt methods of their party leaders.

Dr. F. S. Lewis arrived here on Monday and was given a warm welcome. In the afternoon, he with other candidates on the democratic ticket, started on a campaigning tour of the county and from reports received at the democratic headquarters all are making honorable and telling canvasses, and at every place they have visited they have made votes.

CENTER, Tuesday, Oct. 28.—A grad Democratic meeting was held here last night and the announcement that Dr. F. S. Lewis, candidate for Joint Senator would speak, was the signal for a large gathering of both Democrats and Republicans. He has made a most favorable impression upon the people and by his candid and matter of fact manner made many votes for himself. W. A. Pfeiffer and Samuel Curry also created a most favorable impression and will poll a big vote.

WHAT DOES A REPUBLICAN LEGISLATURE MEAN?

The question is easily answered:

Sixty days of fight over the election of a United States Senator, since the Republicans at their state convention did not dare to name a person for that position.

Sixty days of wrangling and the introduction of those methods often used to influence members.

Trades made on matters of interest to the people for the advance of the selfish interest of some aspirant for the United States Senate.

The wishes of the people disregarded.

No labor legislation.

No legislation for the people.

Broken pledges and promises as evidenced by broken pledges and promises of former Republican legislatures.

WHAT DOES A DEMOCRATIC LEGISLATURE MEAN?

The question is easily answered:

The election of Hon. George Turner to the United States Senate on the first ballot.

The passage of the four labor bills as declared for in the platform.

Other needed legislation for the people, pledges and promises carried out.

An early adjournment of the legislature.

THE INDEPENDENT VOTER.

Several causes exist for the quiet revolt that is going on in the republican party in this county and state, prominent among which may be named the renomination of Congressmen Cushman and Jones. The republican party of the state of Washington is almost unanimous in support of the president in his fight with the sugar trust, in the matter of Cuban reciprocity, and it is a serious conundrum with a large number of that party to see how they can, consistently, vote for the two men who have bitterly opposed President Roosevelt, and sided with the sugar trust during the last session of congress. A great many have already decided to stand by the president and to turn down the insurgent congressmen at the ballot box.—Ex.

CLALLAM county is justly entitled to the Senator this year. Even our friends of Jefferson will concede this. They would rather be represented by a Clallam man than a King county man, anyway.

IT is a notorious fact, and any number of Republicans can attest to it, Mr. Clapp, in 1898, promised as a condition of his support, that he would concede the nomination to Clallam in 1902. This fact makes the spectacle of his vigorous fight for renomination a glaring example of misplaced confidence.

County Platform.

We, as Democrats, unreservedly condemn the system of an endless chain in office holding, whereby the county offices are parceled out to a set of office hunters who, after filling an office for the constitutional limit, think they have a vested right to fill all the offices in turn in the gift of the people.

We insist that s public office is a public trust and that the public offices of the county should be administered with the least expense possible to the most efficient administration. The Democracy urther insists that in the assessment and levy of taxes there shall be no partiality or favoritism shown to the person or corporation; but that all shall be assessed and levied according to the intent and object of the law.

We believe that a just and honest administration of our affairs cannot be had under such a system, that a change of the offic als from time to time is necessary for an honest and efficient administration of the county affairs; that it was to guard against combinations and rings among office-holders, that the highest law in the land prohibited the holding of an office by one incumbent for more than two successive terms; that this is violated in spirit when the office holder merely steps from one office to another; that the evils intended to be guarded against by the const tution are merely aggravated by such a system.

We cordially invite all the voters of this county, without regard to politics, to co-operate with us in placing the seal of their condemnation upon this pernicious system.

That old copybook maxim finds its most forceful application in the waste of vitality, which is called "burning the candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous, run-down women, there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.

"No doubt you have forgotten me, but after you read my letter you will remember me," writes Mrs. Annie E. Moring, of 238 7th Avenue, S. W., Roanoke, Va. "In the year 1897, I wrote to you for advice, which you gave me free of charge. When I wrote to you I was a wreck; I could not walk straight for pains in my abdomen; could not sit down, lie down, or get any ease at all. I had what was called the best doctor here, but did not get any better until I went through a course of your medicine. I took eight bottles each of 'Favorite Prescription' and 'Golden Medical Discovery,' and ten bottles of the 'Pleasant Pellets.' I tell you the medicine made a cure of me."

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pellets cure biliousness.

Independent republicans are turning up in every precinct.

A man need not be a politician to do the duty of a citizen.

Have your taxes been reduced in the last six years? No! Raised!

The president's opposition in this state promises to be turned down.

It is significant that Cotterill is getting the crowded houses while Cushman goes begging.

Who pays for the deputies while the county officers are out campaigning? You and I!

The county offices now support series of families, No one without a family connection need apply.

Our Republican adversaries complain of the apathy in the ranks. What have the people to get enthusiastic over?

The people would have more confidence in the ring's statements if they would reduce their taxes instead of raising them.

Overcoats! overcoats!!—for fall and winter. Don' fail to see them. Times Clothing Mart.

THE crowd that now runs the Courier got the money for delinquent tax publications! Now hear thom howl!

THE Courier man got his figures twisted. A Republican board conducted affairs from 1892 to 1896; a Democratic board from '96 to '98. The commissioners spend the money; the auditor issues the warrants. See the record.

To the Voters of Jefferson, San Juan and Clallam Counties:

Having been nominated by the Democrats of the 24th district as their candidate for Joint Senator, and being unable to make such a personal canvas of the three counties as could be desired, I take this means of laying before you a statement of my position on some matters of interest and the grounds whereon, it seems to me, I can reasonably claim your support.

It is a notorious fact that in my own county and I think also in Jefferson if not in San Juan, a system of over-valuation of property has been maintained for the express purpose of raising the price or of maintaining the price of warrants for the benefit of warrant holders on the one hand and of aiding real estate speculators on the other. This unjust and dishonest system has not only compelled us to pay more than our just portion of the state tax but has been one of the causes for the loss of property by tax foreclosure.

This wrong can and should be remedied.

The counties comprising this district are sparsely settled and cover a large territory, much of which is inaccessible to markets. There are quite large settlements to say nothing of isolated settlers without roads or other means of marketing their products. Yet, nevertheless, their improvements bear the same burden of taxation as those more favorably situated. Every acre cleared, fence built or tree planted, adds to the burden of taxation although if more is raised than can be consumed on the farm there is no recourse but to let it go to waste. The only remedy for this species of injustice is a law exempting from taxation improvements on the farm or home to a reasonable amount. The man who goes into the Washington wilderness to hew himself out a home should rather be paid a premium than have every tree he fells and every stump he digs out add to the burden of his taxes. A law should also be enacted to prohibit county commissioners from making settlements with rich corporations and others whereby large reductions are made to the prejudice and injury of the rest of the community.

ROADS—As above stated there are many settlers in these new counties without roads or other means to market their products. One of the obstacles to securing roads is the fact that the state has many thousands of acres of selected lands in the western part of Clallam and Jefferson counties not open to purchase or settlement. Settlers located in the vicinity of such tracts are unable to secure road taxes with which to build roads because of the large amount of untaxable land held by the state. The same is true of the government timber reserve which has forced hundreds of settlers to abandon their ranches or live in utter seclusion. That state or government aid should be had in these cases is but a matter of the plainest justice, and if elected I pledge myself to do all in my power to secure liberal appropriations for that purpose.

More or less complaint is constantly being made of the manner of operating the fish traps in this district. In any industry not subject to close observation by the people at large abuses are likely to develop of a nature destructive of the best interests of the industry itself. Government supervision of the sealing industry was thought necessary to prevent the destruction of the fur seal. Why not such state supervision of the fishing industry within our jurisdiction as shall prevent wanton destruction of fish and dangerous obstruction to navigation?

Common sense would seem to dictate such a course. In case of my election this matter will receive my earnest consideration.

Both the state platforms this year demand the creation of a railway commission to be appointed by the governor. Having held a responsible position in the service of one of the largest railway companies in the United States for several years I can safely leave it to your judgment whether I am not better qualified to serve the people of this district than my opponent. A railway commission law gotten up by men having no knowledge of the inner workings of railroad companies will, in all probability, be a dead letter. If elected I shall give this matter my most careful attention.

A few words to the voters of Jefferson county: I think I should feel no diffidence in asking your suffrages at this time as you have had the choice of joint senator from your county with the exception of one term ever since Washington became a state. I have it on good Republican authority that Mr. Clapp made an agreement with his supporters in this county four years ago that he would yield the nomination to Clallam in 1902, but he failed to keep his word, making a strenuous fight for the nomination.

It is a fact that if I am sent to Olympia I shall use every honorable means to secure the return to the United States Senate of the Honorable George Turner. I could not support a better man. Although a member of the opposition he is one of the few men who have gone to the senate from a new state and walked speedily into the front rank and staid there. His influence more than equals that of all the other representatives of this state combined, as the history of the appropriation bills will show.

I do not suppose, however, that any Republican who reads this has any fear of him having a ghost of a show of election, in which case my success could do no possible harm. And one thing I should surely do if I saw that his election was impossible and that would be to use my best endeavors to break any deadlock to the end that the whole session might not be wasted by warring factions over the election of a Senator, but that it be used in enacting wise and useful legislation To each individual voter to whom this may come let me say, to you is the liberty of choice, upon you is the responsibility. If you go to the polls on the 4th of November bearing in mind the one and exercising the other intelligently, you will have done your full duty as a citizen of the 24th district and of the great commonwealth of Washington, and will merit and receive my regard whether or not I am deemed worthy of your support.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

ORDER TO SHOW CAUSE WHY ORDER OF SALE SHOULD NOT BE MADE.

In the Superior Court of the State of Washington, for Clallam County.

In the Matter of the Estate of Edward O'Connell, Deceased.

W. S. Morrisey, the administrator of the estate of Edward O'Connell, deceased, having filed his petition herein, duly verified, praying for an order of sale of the real estate of the said deceased, or so much thereof as may be necessary for the purposes therein set forth; and it appearing from such petition that there are no moneys in the hands of the administrator belonging to said estate and that no personal property of the estate has come into the hands of the administrator, and that certain debts and claims against the estate have been allowed and approved by this Court and that the same are wholly unpaid, and that it is necessary to sell the whole or some portion of the real estate belonging to said estate for the purpose of paying said debts and claims and the expenses of administration which are unpaid:

Now, Therefore, It is ordered by the Court that all persons interested in the estate of said deceased appear before said Court on Monday, the 17th day of November, 1902, at the hour of ten o'clock in the forenoon, at the court room of said court in the city of Port Angeles, Clallam county, Washington, to show cause why an order should not be made authorizing said administrator to sell the real estate of the deceased, or so much thereof as may be necessary to pay said debts, charges and expenses of administration.

It is further ordered that a copy of this order to show cause shall be published for four successive weeks in "THE DEMOCRAT-LEADER," a newspaper printed and published in the city of Port Angeles, in said county.

Done and dated this 15th day of October, 1902.

GEO. C. HATCH, Judge.

Date of first publication October 17, 1902.

While Harve Lesure was showing a Seattle timber claimant over his claim in the hills near the Quillayute the dogs jumped a big bald-faced bear out of the brush in a few yards of where the unsuspecting wayfarers were plodding along unarmed with anything but an ax. The bear seeing the men near by made for them. The men could do nothing but await the result as the big fellow advanced on them with blood in his eye and fight in every attitude. When he had reached within twenty feet of where they stood the dogs succeeded in getting out of the thicket and taking bruin by the heels stopped the pursuit until the men were enabled to get away.

School Benefit Recital.

In the course of two or three weeks a recital will be given for the benefit of the public schools, by Mr. and Mrs. Saunderson, of Seattle.

Prof. Saunderson, who is a graduate of the Emerson School of Oratory, Boston, has taught successfully during the past twelve years as professor of rhetoric in the University of Indiana, as professor of rhetoric and elocution in the University of Wisconsin, and as instructor in elocution and oratory in Ripon College, Ripon, Wis.

Mrs. Saunderson, also a graduate of the Emerson School of oratory, has been a teacher in Smith College, Northhampton, Mass., the largest Woman's College, in the world, in the University of Indiana, and in the University of Wisconsin. As a college woman and a lecturer she is most successful, and is reader for the Wisconsin Federation of Women's Clubs.

The testimonials of Mr. and Mrs. Saunderson show many names known throughout the nation, such for instance,

One of the juiciest places in town just now is the crossing at the entrance to Morse's wharf, and the crossing at First street. At the latter place we notice school children picking their way in the middle of First street, the crossing being absolutely impassable. These places should be taken care of by the proper parties promptly.

While in Tacoma E. S. Doyle visited for a few hours the Rev. G. W. Frame and family. Their home is at the corner of 45th and M streets where they are very nicely quartered. The Rev, Frame is getting his church work well in hand and extends to all his Port Angeles friends an invitation to visit with them when in or passing through Tacoma. Mr. Doyle also enjoyed the hospitality of W. H. Mock and family a portion of the time he was in Whatcom in attendance at the Baptist state convention. Mr. Mock has opened up one of the handsomest undertaking parlors in the state, carrying a very expensive as well as cheap grades of coffins. He has fitted up a chapel annex in which services are conducted when thought best. Mr. Mock has the most substantial furnishings in his line in Whatcom. He is rapidly becoming acquainted with the people and feels hopeful of a large patronage in the near future.

Whatcom has upwards of twenty thousand people.

While there the writer also visited Mr. and Mrs. George Mock, the latter (nee Miss Fronie Raymond). They are comfortably situated close in town, and enjoy the comforts of life. Both of these young people take a very active part in church work and are constantly engaged in social duties and are popular among the young people. Mr. Mock is in the employ of a prominent real estate firm.

The writer made his headquarters while in Whatcom with Mr. and Mrs. L. C. Currie. Mr. Currie built a home since moving over on the Bay.

He has not been idle a day since leaving Port Angeles finding plenty of work at the carpenter's trade. Miss Mullen's sister lately arrived from Boston. They all take an active part in church work.

A Typical South African Story.

O. R. Larsen, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about twenty-five miles from the nearest town. Mr. Larsen says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by all druggists.

DON'T forget you can vote for senator this year, if you want to—Turner or Ankeny.

Do you believe in rewarding faithful service and pronounced ability? Vote for Geo. Turner!

A GLANCE over the columns of the last issue of the ring organ will convince any one conversant with the facts, that the 2nd page writer is not the least bit particular about the language used.

EVERY vote for a Democrat for the legislature is a vote for Turner; every vote for a Republican is a vote for senatorial deadlock and a waste of the session in political wrangle.

SENATOR TURNER has been a firm friend of human liberty and of legislation in the interests of those who labor for their living.—A. Furnseth, chairman legislative committee of American Federation of Labor.

WE don't like to hit the knuckles of our contemporaries but for consistency's sake it would seem that when they flop they should at least have respect for their past utterances. That is if they make any pretention of flopping for principle.

IF the Courier heavy man is looking for calumny of the rankest sort to give a few columns to we would refer him to the Seattle, P.-I. A more beastly partizan sheet is hard to find.

CLALLAM COUNTY will never again make the mistake of having all the officers at the court house of the same political faith. This sounds a little like sour grapes, but we submit to every fair minded citizen if it is not true that such a policy is very, very dangerous?

TUTTLE AND WARD should be the battle cry of every patriotic citizen.

If Unwell,

Try a 50c bottle of HERBINE, notice the improvement speedily effected in your Appetite, Energy, Strength and Vigor. Watch how it brightens the spirits, gives freedom from Indigestion and Debility!

Isaac Story, Ava, Mo., writes, Sept. 30th, 1900. "I was in bad health, I had stomach trouble for 12 months, also chills. Dr. J. W. Mory prescribed HERBINE, it cured me in two weeks. I cannot recommend it too highly, it will do all you claim for it." Sold by C. E. Nailor & Co., druggists. See our window

CLALLAM'S WOULD-BE.

The following conversation was listened to on the street this week:

"What! You are not going to vote for Palmer for representative?"

"No."

"Why you are a particular friend of his, are you not?"

"Yes. But I have heard him hundreds of times say, 'there is nothing in Clallam county to keep a man here, and if my wife's health was better I wouldn't stay long!'"

And yet Mr. Palmer wants to represent Clallam in the state legislature.

"Least said soonest mended" is the crowd's position on the Govan incident. 'Tis true, the Courier gave a half column apolegetic defense; but that only equals one-tenth that much in any other paper.

Hasn't the crowd reduced the indebtedness of the county? Well, we guess! But then the people had to pay their taxes or lose their property, and the treasurer had to accept the money. What was he to do with it? Spend it all for running expenses?

GEO. CAMERON, the Democratic nominee, is a graduate of one of the best business colleges on the coast, and through his mercantile experiences he is eminently qualified to conduct the auditor's office without the aid of a deputy if need be.

A. A. RICHARDSON will in truth run the office without a deputy and will save the immense salaries paid to Messrs. McClinton and Cochran should a like emergency arise. It is nothing against Mr. Clementson's character to say he absolutely cannot do this.

IN another column Mr. Lewis H. Smith presents an open letter to the voters of Clallam that voices his sentiments clearly. Mr. Smith would make an ideal sheriff.

AGAIN we wish to call to the attention of the taxpayers of Clallam county the necessity of electing a man of years and experience to the office of assessor. It comes pretty close to their pocketbooks and they are quite liable to heed the call. Mr. Cays is an old settler of Clallam, in the neighborhood of 50 years of age and of ripe experience, while Mr. Maxfield is a mere boy.

THERE is no comparison in the abilities of Prof. Ullery and Mr. Risley, and the former should be elected hands down even though he were not a strictly non-partizan candidate as he should be and is. Here, where he is known, he will carry the city 2 to 1. Every educator in the city endorses him.

CHARLEY BORK is not only thoroughly conscientious, but eminently fitted and highly capable, as everybody who has had any dealings with him knows full well. A vote for Chas. Bork is a vote for good, clean government, and retrenchment. The treasurer's office expenses increased from $1700 in 1899 to $3300 in 1902.

CARPET-BAGGER'S TALK.

FORKS, WASH., Oct. 23, 1902.

EDITOR DEMOCRAT-LEADER:

The Republican candidates were here and addressed the citizens of this place last evening. After the candidates had each spoken his little peace and made the customary promises, Judge Cochran, the speaker of the occasion, was introduced by W. H. Willis, (without rising from his seat.)

Mr. Cochran first paid his respects to the ladies, and then began a long and somewhat wandering talk, going back to slavery days, and by a straggling review came down to county affairs, to the affairs that are of interest to the taxpayer. He said hard times and ruin had been the result of Democratic administration of our county. Let us see how this compares with truth. Let us go back to the time John Gordon, A. G. Davis, and W. W. Gray were elected, in 1890. At that time the county indebtedness wos about $27,000. To offset this there was to the credit of the county about $25,000 tied up in the different funds. It was during the administration of the above-named Republican board of commissioners that the county was looted and bankrupted. Aye, more, if my memory serves me right, the whole county administration was Republican, and there was not a peep from the whole lot. They, as every taxpayer knows, robbed the county of everything but her name, and left that in such shape that no one could do anything with it. It was then that the Republicans were willing to turn her over to Democratic care and management, and let them wrestle with the financial problem. It was then that J.W. Troy did his hard work on his county current expense fund bill and had the satisfaction of seeing it become a law. It was then we paid $5.00 per can, in warrants, for coal oil. It was then every scheme possible had to be resorted to to keep the county from absolute repudiation, because of the enormous interest-bearing debt saddled upon it by the Republican board.

Who has born the smoke and battle of the hard times in Clallam county? I answer, and every honest citizen knows I answer truly when I say, the Democratic party. They have proved themselves faithful to every trust. What has made it possible for the present administration to make such a splendid showing, despite the increased expenditures? It has been the Democrats, together with the back taxes that have been paid in by the taxpayer, and to say the least, it is unjust for the Republicans to claim the credit. It is simply a case of one party sowing the seed and another reaping the harvest.

The Judge also said the present commissioner from the West End was always soliciting appropriations for roads and bridges. Is it such a hard job to get anything for the West End? Commissioner Tuttle got two bridges for the West End, while Christopher got but one. It did not seem to worry S. G. Tuttle much, and yet he got us those at a time when there were threats of injunctions; at a time when all kinds of schemes and plans had to be resorted to to get money to pay the men for labor, yet at that time and under those conditions S. G. Tuttle helped the West End at a ratio of nearly two to one, as compared with Christopher. Yet I will match Commissioner Christopher against any man that has ever held the office for handling county funds in a way to perpetuate himself in office. There is ample evidence of this to any and all who will take the trouble to see it.

In conclusion, I wish to say that it seems to me that every good, fair-minded citizen should support S.G.Tuttle for county commissioner regardless of politics, and for Mr. Ward, to give him necessary support.

TAXPAYER.

Oh, how Mr. Palmer does love Clallam now.

Tommy, the figures manipulator, sees his pet idol fall and comes to the rescue.

Seventy-four mills tax makes a fellow real glad he is a property owner, and yet they dare raise it.

Tommy is now really scared and has taken the legislative candidate on an extended junketing trip.

Our figures of the large increase in expenses has set the court house boys to explaining how it all came about.

"Reaping what others have sown" is a very good way of putting it. And they won't even give credit to the sower.

If you didn't get a tax reduction you have a big kick coming. The "big fellows" got from one-half to two-thirds thrown off.

With all Cushman's hours of talk about big I, the modest representative from Oregon outstripped him in securing appropriations.

The new tax law is a good one to make the tax payers dig—when they can. But what about the poor fellow who can't! Oh, he shouldn't own property, they tell us.

There is a saying that is appropriate in county affairs as well as to the individual "If you live above your present circumstances, you are in great danger of living, after a while, much beneath them."

Despite the fact that last year the tax levy for current expenses, together with the fees, etc., brought in more than $15,000 over the $30,000 used for current expenses, the levy this year was raised one-fourth more!

To the Voters of Clallam county:

GENTLEMEN: — Having received the unanimous nomination for representative of this district, unsolicited and unsought, it is only fair and just to the people of the county to give an expression of my views and state what my acts will be in the event of my being elected as representative. In doing so I cannot do better than call attention to what I have done for the improvement and upbuilding of this county. I have been a resident of the county for over 19 years arriving here in the spring of 1883. I was entranced with its delightful climate, its magnificent harbors and its natural resources; believing from the first as I believe now, that there is no better place on earth for a man to live, either rich or poor, than in Clallam county. I have made six trips to St. Paul and Chicago on every one of which I have made every endeavor to interest people in this county and with no little success—six trips over 2,200 miles long. I never have asked for or accepted a pass over any of the roads, and I believe the acceptance of a pass is no more or less than a bribe when given to a public officer, the acceptance of which places the recipient under obligations to the doner—those who pay their fare really paying the cost of the pass.

I am in favor of good roads and was the only one from this county who, at his own expense, attended the recent "good roads" convention at Seattle.

There never has been a proposition of public improvement submitted to me to which I have not contributed. I am in favor of patronizing home industries as my past record will show. I am in full accord with every American principle as enunciated in the Democratic Platforms and am in favor of the State and U. S. government building and extending roads across their reserves and public lands whenever the requirements of the settlers demand it. I am in favor of equal and just taxation to all and believe in an exemption of $500 00 on personal property and improvements, the law so framed that it will not benefit the rich at the expense of the poor.

The above principles are, I trust, in harmony with your ideas and I pledge myself to carry them out to the best of my ability if elected. Yours truly,

FRANK CHAMBERS, SR.

MR. CHAMBERS AND MR. LEWIS are in absolute harmony, and will work together in every measure. Contrast this advantage with the opposition, Mr. Clapp, of Seattle, and Mr. Palmer, of Pomeroy, on the Washington-Idaho line!

CLALLAM'S business interests demand the unanimous support of the Democratic legislative candidates, and in fact the entire Democratic ticket.

Charley Bork will make the best treasurer the county ever had.

Catarrh Cannot Be Cured.

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrah Cure is taken internally, and acts directly on the blood and mucous surfaces. Ball's Catarrh Cure is not a quack medicine. It was precribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

Democratic Candidates.

We herewith present to the citizens of Clallam county a brief biographical sketch of the local candidates who appear upon the Democratic ticket:

STATE REPRESENTATIVE,

Frank Chamber, of Port Angeles, born in Callavanges county, N Y.; emigrated to Ill. in 1855, where he taught school several terms; later on he went to Minnesota where he took up 160 acres, upon which he remained 26 years; enlisted as a private in Co. A 10th Minn., Inf., becoming a veteran in the service of his country'scause; came to Angeles in 1883; is a business farmer of wide experience and is the first farmer in Clallam county to can fruit in large quantities, one order alone being for seven thousand pounds of prunes, thus opening up the industry of fruit canning. He is identified with every interest of Clallam county, and is a member of Pacific Post 48 G.A.R of Port Angeles—a true patriot.

SUPERINTENDENT of Public Instruction.

Prof. Ira Lee Ullery was born in Miami county, Ohio, in 1868. His boyhood was spent in the country, where he attended the district school. As his parents were in meager circumstances he received from them no pecuniary aid in his efforts to get an education. Having saved a small amount from his earnings on the farm, he entered Otterbein University in 1887, where he remained in school two years, A year after leaving this institution, he entered the Ohio Normal University, where he remained three years, graduating from the classical course as a Bachelor of Arts. In 1895 the faculty of the Ohio Normal University conferred upon him the degree of Master of Arts, as the result of continuous professional study after date of graduation. After five years of experience in graded and high school work, Mr. Ullery was elected to the professorship of Civics and History in the North-Eastern Ohio Normal College, which position he occupied over two years, resigning to accept the principalship of Prineville Academy. He is now teaching his fourth year in the Port Angeles city schools, doing high school and eighth grade work. Mr. Ullery was granted a life certificate by the State Board of Examiners of Ohio in 1896, and was likewise granted a life diploma by the State Board of Education of Washington in 1901.

CORONER.

No practicing physician being obtainable in either party the Democrats have named for this position Chas. A. Wood, one of Angeles' pioneers, who has served the city in several capacities and will make an excellent officer.

WRECKMASTER.

For this office the Democrats have named Capt. O. Johnson, a life-long seaman, who has sailed the waters of the world, and is now enjoying deserved rest and perfect health as a permanent resident of the "Port of the Angels."

Don't fail to attend the big meeting at the opera house Monday night before election.

Clallam has an opportunity to again get a board of commissioners of the people. Grasp it.

The county superintendent of schools should be a resident of the county seat, any way.

Vote to put the superintendency in capable hands and out of politics as far as possible.

Port Angeles should substantially manifest its appreciation of the opportunity it has to reward merit.

Do you believe in remittance of taxes to the big fellows whose only claim is might? Vote for Tuttle and Ward.

THAT CLALLAM JEFFERSON ROAD.

Much ado is being made the Republican legislative candidate about securing state aid to complete the road into the western part of this and Jefferson counties. That this is a meritorious project goes without argument. But the voter should not forget that this very matter was one put forward two years ago by Dr. F. S. Lewis in his campaign for representative, and was made all manner of fun of by the Republican candidate.

The surest way of getting action on that matter by the State Legislature is to elect men who have the interest of that large section at heart and who are capable to push its claims.

The argument that some one in sympathy with the state administration could do more, falls to the ground after the confessed failure of the rekresentatsves of this and Jefferson counties to do anything in the last legislature. And although Jefferson county had three representatives and Clallam one—all Republicans—they allowed other sections the state to get away with all the available money.

Democrats could not have done worse. Cast your votes for Dr. F. S. Lewis for State Senator and Frank Chambers for Representative, and you will get something or know the reason why.

Notice to Teachers.

The quarterly teachers' examination will be held at the office of the superintendent of schools, in the court house, Port Angeles, Washington, November 13, 14 and 15, 1902.

A. N. TAYLOR,
Co. Supt. Schools, Clallam County, Wn.

A SURE WINNER

Mr. Lewis H. Smith Submits to the Voters of Clallam a few Pointed Promises.

Having been nominated by the Democratic County Convention as one of the candidates to be voted for at the next general election, but being unable to make a personal canvas of the entire county, as I had intended and would be much pleased to do, on account of finances, I am obliged to take this, the only means left me, for reaching the voters of the county.

It is the general opinion of the people here in Port Angeles, irrespective of party, that the nomination of my opponent on the Republican ticket was purely accidental. He being the "machine" candidate slated for that office he was pulled through by a scratch, and a large number of citizens claim they cannot, and will not, support him and have not only pledged me their votes voluntarily, but have promised me their substantial assistance, to do all they can in season and out of season to bring about my election.

Being thus encouraged by citizens and having the solid support of my own party, I am induced to make as complete and active a canvas of the county as time and circumstances will permit. But I find that there will be many of the voting precincts which it will be impossible for me to visit, hence this open letter.

In asking for your suffrage I invite a thorough investigation of my standing in this city and county during my residence here for the past 16 years and my ability to transact the business of and to properly conduct this office if elected.

Should I be elected to the office of sheriff, I pledge myself to a full and exact performance of the duties of this office, and I faithfully assure you that the rights of the people shall not be infringed upon. I shall be the servant of the whole people—the slave of no interest or faction.

I further pledge myself that if elected I shall not be a candidate for re-election to this or any other office, for I am a firm believer in passing the good things of this world aronnd, and let those who may, test their flavor.

Expecting to receive your favorable consideration on election day, but whether elected or not I shall always remain

Yours very respectfully,
LEWIS H. SMITH,
Democratic candidate for Sheriff.

VOTE to elect Thompson to stay at home and herd his cattle, and have not them grazing in the city streets, twenty miles from home.

THE DEMOCRAT-LEADER believes it to be the duty of every fair minded citizen, who believes in home first, the rest of the world afterward, to vote for Frank Chambers, Sr., for representative. We believe this because Mr. Chambers has been identified with every interest of the county for the past twenty years and has assisted in the material development of the county. He is now a permanent resident and he and his large circle of children and grandchildren are numbered among Clallam's best citizenship. We believe this, not because his opponent is any the less intelligent, but because Mr. Palmer is practically not a resident of the county. He is here simply for his and his wife's health and as his biography published in the Seattle P.-I. says, "he has no business at present." His interests are all in Garfield county, as is his home, and we submit in all candor and frankness, eastern Washington's interests are not our interests, and our interests cannot be represented as they should be by a man with eastern Washington prejudices. On the other hand Mr. Chambers' only interests are Clallam's. Clallam's advancement means his own advancement, and in this age of selfishness we cannot afford to leave our interests in the hands of one whose interests are elsewhere. We have too long put party above business judgment. It is purely business that Clallam's representative should be wholly identified with this county, and that his interests are ours. Vote for Clallam county.

WELL, we might have expected it of Lipsett, anyway.

LIPSETT always was the tool of the city Reps.

THOMPSON appropriated the townsite for a cow pasture last summer, and now wants all opposition removed to prevent losing his graft in the county.

WE are indeed pleased to present and point with pride to the most excellent record published this week in the biography of our non-partizan candidate for school superintendent, Prof. Ira L. Ullery. The prefix "Professor" is in proper place earned through years of study. He served for years as Professor of Civics and History in the faculty North-Eastern Ohio Normal College Read the record.

COUNTY Attorney Clementson, it seems to us, makes a great mistake when he prates about saving the county deputy expenses. Such is in no wise a fact and it is generally commented upon as well-known. Not one case which Mr. Clementson has defended during his term of office, has he done so without expensive assistance. As will be seen by the figures submitted from the auditor's exhibit, the attorney's expenses this year were almost as much as in the three previous years combined!

THE DEMOCRAT-LEADER strongly believes a life-long resident should be chosen to represent this county, in preference to a transient health seeker. What think you?

WHEN Risley heard of Prof. Ullery's nomination he immediately applied to the directors for a three weeks' leave of absence. Meanwhile his pupils are deprived of that which belongs to them.
