VOL 14, NO 35 PORT ANGELES, CLALLAM COUNTY, WASH., FRIDAY, DECEMBER 5, 1902. PRICE FIVE CENTS

GOOD VOTE POLLED.

THE ENTIRE CITIZENS TICKET ELECTED BY GOOD FIGURES.

A Few Sore-Heads Vote For The Opposition, and Mr. O'Brien Receives a Good Complimentary Vote In His Own Ward.

THE ELECT.

Dr. F. S. Lewis.. .....Mayor
Willard Brumfield, Councilman-at Large
Thos. J. Murphy.....City Attorney
Ray McLaughlin,.....City Clerk
Charles E. Nailor.....City Treasurer
Dr, T. J. Appleton...City Health Officer
J. D. Mosher...Councilman, First Ward
Peter Grubb, Councilman, Second Ward
Wm. H. Clegg, Councilman, Third Ward
Jno. Gutenberg, Councilman, Fifth Ward
Edward Hoare, Councilman, Sixth Ward

The municipal election held Tuesday passed of quietly and with little or no contests outside the First and Sixth wards. Considering this latter fact a big vote was polled, and of course the entire Citizens' ticket is elected. The entire city government, except Treasurer Nailor and Councilmen Hallahan and Grubb will be composed of new men; some who never before held public office and it is very fortunate indeed in face of this fact that we have an able and efficient presiding officer, for chaos could easily come to the body without an experienced head when business of importance comes before it. On every hand expressions of satisfaction are heard of the result and all are equally satisfied with the administrations of the past few years. Port Angeles has, indeed, been fortunate in the selection of her officers since the mad rush of ten years ago; not a semblance of scandal has been heard, and each succeeding administration has been economical and practical.

The current expense fund under which the county and city administrations have been run has practically had the cash on hand with which to pay all warrants as issued. At present this fund for the first time in its history is about $1,000 behind in payments, but with a succeeding economical administration of city affairs this can be wiped out and warrants again paid on demand.

The following tabulated figures give the result in detail:

Deafness Cannot by Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless this inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

P. A. P. RAILS ARRIVE.

FIRST OF THREE SHIPMENTS GET HERE YESTERDAY.

It Comprises Two Very Heavy Logging Trucks, Over Two Miles of Rails and the Necessary Spikes and Iron.

The steamer Rapid Transit, which had been on the way since Monday from Seattle, arrived here yesterday at 2 p. m., having on board the first of three shipments of rails and railroad iron for the construction of the railroad west. Other shipments are expected later as the weather will permit. The material has been unloaded at Peterson's dock and is now piled on the beach just east of the Peterson mill.

The cargo comprises over two miles of heavy new rails and the necessary iron and spikes for laying same, and two huge logging trucks. This is said to be just one-third of the material that has been secured.

Mr. N. R. Smith says the same people are behind him that he first interested and despite the severe antagonism of prominent business men he has overcome great difficulties; difficulties that would have long ago discouraged most men.

The P. A. P. now has before the city council a new franchise ordinance to take the place of the old one which expired the early part of this week. According to the provisions of this new grant work on the proposed road is to be begun at once and must be continuous

The line at present will follow the curvature of the west bluff of Tumwater valley until the top is reached and then proceed in a southwesterly direction.

PORT ANGELES PACIFIC PRESENTS NEW DRAFT.

Will Begin Work Immediately Upon Passage of Ordinance and Complete Connection with Northern Pacific by December, 1904.

At Wednesday's council meeting little business of importance was transacted outside the canvassing of the election returns and the reference of a new franchise ordinance. All members except Councilmen Bowman, Smith and Mayor Brailley were present. In the absence of the mayor Mr. Lauridsen was called upon to preside.

The new franchise ordinance granting certain rights to the Port Angeles Pacific R. R. Co. was read. The ordinance provides for right of way through the city on Tumwater street from Front to the Boulevard; on First street from east line of Tumwater to east line of Lincoln street; on Third street west from Tumwater to Sampson estate. The conditions of the grant are that the said company holds city harmless for any loss; that by Dec. 31, 1904, said company shall have completed and in operation a continuous line of railway in a southwesterly direction one hundred miles, fully equipped, or shall connect with the Northern Pacific or other transcontinental line and shall operate said road continuously thereafter. Work shall begin immediately upon passage of ordinance and such work shall be continued until road is built 100 miles or is completed to a connection with the Northern Pacific or some other transcontinental road. Other conditions are of the usual regulation clauses governing railroads. The ordinance was referred to the city attorney and the ordinance and franchise committees.

New Quinault Survey.

The survey of the Quinault Indian Reservation has been completed, and is ready for examination. The field examination, however, will probably not take place until next spring.

By the survey the Indians will be allotted 80 acres of land per capita and then a treaty will be made by which the government will be given back all the land in the reservation with the exception of that allotted to them.

It will be a long time before the land will be thrown open for settlement.

MESSAGE SUMMARY.

TRUSTS SHOULD BE CURBED BUT NOT THROUGH TARIFF.

The Message is Not as Strongly Worded As Was Expected, but is Still Vigorous Enough to Make a Showing.

The message delivered by President Roosevelt to Congress, Tuesday, was of the usual long winded variety which few will read. The message, however, is a vigorous rehash of what has already been discussed and gives little new. To the subjects of finance, immigration, irrigation, Cuban and the Philippines, etc., considerable space is given reiterating past utterances. Alaska comes in for a little mention which may prove an opening wedge for the people there.

The three main subjects discussed are prosperity, the trusts and the tariff and we give the following summary as summarized by the Republican Tacoma News:

PROSPERITY.

Our prosperity is not the creature of law, but, undoubtedly, the laws under which we work have been instrumental in creating the condition. Unwise legislation will destroy it. No country has ever occupied a higher plane of material well being, and this is due to no sudden or accidental causes. It is due to our laws, our sustained and continuous policies and the high average of our citizenship.

THE TRUSTS.

Combinations of corporations should be managed under public regulation. State action does not grant the necessary supervision. We are not hostile to corporations; we are merely determined that they shall be so handled as to subserve the public good. We draw the line against misconduct, not against wealth. In curbing the combinations of capital we must not stop the great enterprises which have legitimately reduced the cost of production. This country cannot afford to sit supine on the plea that under our peculiar system of government we are helpless in the presence of the new conditions. The power of congress to regulate interstate commerce is an absolute and unqualified grant. I believe that monopolies, and unjust discriminations can be prevented under the power of congress * * * If it prove impossible to accomplish this purpose then we should not shrink from amending the constitution.

THE TARIFF.

Reductions of the tariff as a means of reaching the evils of the trusts would be wholly ineffective. The only relation of the tariff to big corporations as a whole is that the tariff makes manufactures profitable, and the tariff remedy would simply make manufactures unprofitable. From time to time there should be made the necessary reapplication of the principle of tariff to the shifting national needs. The cases in which the tariff can produce a monopoly are so few as to constitute an inconsiderable factor. In my judgment the tariff on anthracite coal should be removed.

As was expected from the indifference of the contractor and consequent delay the state legislature will have to meet in an "old barn" again this winter.

WE will soon see if the Republicans meant anything by their commission plank in the state platform. It all depends on whether McBride gets control.

THE first page article in this issue says there are three loads of the railroad iron. It should say five. The present cargo is of 225 tons and there is over 1,000 tons to come.

NO MORE PILES
PERRIN'S PILE SPECIFIC GIVES
IMMEDIATE RELIEF.
Urbana, Ill., Oct. 20th, 190?.—Dr. Perrin, Helena, Mont., Dear Sir: I have been trying through the druggists here to obtain another bottle of your Pile Specific as I have been a sufferer from them off & on for some years. I saw an ad. in the P.I of Seattle, Wn., sometime in May last. At that time I was 100 mi. north of Seattle so I went down to Seattle & found it. I have used it up and have been trying to get more. It has helped me very much, more than anything I have ever used and I have been very anxious to get another bottle. Yours respectfully, B. S. CHANDLER
DR. C. A. PERRIN, Helena, Mont.
PERRIN'S PILE SPECIFIC

THE N. P. SURE.

Slowly but surely the Northern Pacific railroad is planning for the early encirclement of the Olympic peninsula by the iron steed. Link after link in the circuit chain are being secured, and in three or four years, and probably much sooner, the peninsula will be encircled with rails and traversed by that great developer, the railroad.

The formal transfer of the P.T.S. to the Northern Pacific Company took place last week and this week I. A. Nadeau, Gen. Agent of the N. P., was elected president of the road and C. S. Mellen, Pres. of the N. P. vice. The other officers of the N. P. were elected to like positions on the P.T.S. This purchase includes forty miles of road now in operation between Townsend and Quilcene and Olympia and Tenino. Between Olympia and Shelton, this way, a projected road is to be considered, leaving thirty miles to make two-thirds of the circuit, or 150 miles to make the circuit complete.

Keep your eye on the Olympic peninsula.

Washington Notes.

DEMOCRAT-LEADER BUREAU,
NEWSPAPER ROW,
FROM OUR REGULAR CORRESPONDENT.
WASHINGTON, D. C., Dec. 1, 1902

THERE will be no attempt to amend the present tariff law at the short session. Even the tariff on anthracite coal, which the Secretary of the Navy has pronounced "infamous," will be allowed to stand, the plea being that the time is too short for intelligent action. The time will not be too short, however, for consideration and passage of the ship subsidy bill, according to leading republicans.

NOTWITHSTANDING the short time at the disposal of the Fifty-seventh Congress an earnest effort will be made to pass the Fowler currency bill, a measure so iniquitous that the republicans dared not consider it when an election was pending. The Anti-Anarchy bill will also be taken up. Appropriations on the usual extravagant scale of republican majorities will be made and, with a depleted treasury, the members of the Fifty-seventh congress will seek their homes with the knowledge of having performed the duties for which they were elected.

A NEW deparment of the government, the Department of Commerce, with Secretary Cortelyou as its chief, is the end to which Representative Hepburn of Iowa is now working and in his efforts he has the earnest cooperation of the President. He believes it will be favorably reported before the Christmas holidays and hopes to see it become a law, even during the early winter.

PREPARING THE MESSAGE.

Associated Press Dispatch.

Serious factional differences have developed in President Roosevelt's cabinet on the question of Recommendations in his message relating to trusts and railroad legislation. The radical members, comprising Shaw, Knox, Wilson and Hitchcock, endorse the President's views that this feature of the message should be strong and uncompromising, and that these combinations should be vigorously denounced.

Though the President has consented to consideration. His present attitude is to permit the arraignment of the combinations to stand as at first framed. In view of his determination, requests have been sent to all prominent railroad men, financial men and politicians who favor conservative action to exert their utmost influence on the President during the coming week and seek to have his trust and railroad utterances modified.

The President has been strengthened in his determination to make strong recommendations through the action of the railroads in following an increase in employes' wages by an advance of their rates. He construes this as a proof that the railroads are all in combination.

THERE is a great feeling of confidence among the democratic members and senators who are assembling in Washington this week. They all believe that the republican party is about to demonstrate to the people its inability to legislate for the interests of but a comparatively few, and they are confident that the good sense of the American people will cause them to revolt and will result in a democratic land-slide in 1904. There is no little anxiety among the republicans themselves and particularly on the part of the President. They appreciate that they stand between the people and the trusts and protected manufacturers, but they dare not abandon the latter and trust themselves to the mercies of the former.

THEDFORD'S BLACK-DRAUGHT THE GREAT FAMILY MEDICINE

Thedford's Black-Draught has saved doctors' bills for more than sixty years. For the common family ailments, such as constipation, indigestion, hard colds, bowel complaints, chills and fever, biliousness, headaches and other like complaints no other medicine is necessary. It invigorates and regulates the liver, assists digestion, stimulates action of the kidneys, purifies the blood, and purges the bowels of foul accumulations. It cures liver complaint, indigestion, sour stomach, dizziness, chills, rheumatic pains, sideache, backache, kidney troubles, constipation, diarrhoea, biliousness, piles, hard colds and headache. Every druggist has Thedford's Black-Draught in 25 cent packages and in mammoth size for $1.00. Never accept a substitute. Insist on having the original made by the Chattanooga Medicine Company.

I believe Thedford's Black-Draught is the best medicine on earth. It is good for any and everything. I have a family of twelve children, and for four years I have kept them on foot and healthy with no doctor but Black-Draught. A. J. GREEN, Hewara, La.

Port Angeles Lodge No. 54, A.O.U.W. was materially strengthened last Friday night by the admission of thirty-six new members. Grand Master Workman Cox, of Tacoma, and Grand Overseer Hitt, of Port Townsend, came down to assist the local officers in the initiation of the new members. Immediately after the initiations and the signing of the roll the new members were escorted to the opera house where those tireless workers and lovers of a good time, the ladies of the Degree of Honor, served a delicious repast. Just before supper the grand officers addressed the gathering and Mr. Cox gave an excellent lecture on the good of the Order, illustrated profusely by Bro. Fulmer's stereopticon. Miss Jennie Manning Jordan also gave two light selections and easily captured every hearer. The evening proved most pleasant.

HOW TO AVENGE AN INSULT.

The Squire's Advice May Have Been Good, but Would Hardly Be Followed.

There have been humors as well as tragedies in connection with the code duello, now happily numbered among the things of the past in most countries. Though these so-called "affairs of honor" were always disgraceful and sometimes fatal, they had the merit, like all other human things full of human error, of being fruitful in good jokes. Michael MacDonaugh in his book on "Irish Life and Character" gives some cases in which humor, from within or without, came to the rescue of would-be duelists.

A witty Dublin barrister was consulted by a physician as to calling out a man who had insulted him.

"Take my advice," said the lawyer, "and instead of calling him out get him to call you in and have your revenge in that way. It will be more secure and certain."

An upstart squire went to an old squire for advice as to sending a challenge.

"Healy, of Loughlinstown," said he, "has threatened to pull my nose whenever he meets me. What would you advise me to do?"

"Has he really used that threat?" asked the squire.

"He has."

"Well," said the squire, "I'll tell you what to do. Soap your nose well and it will slip through his fingers."

Perhaps the most contemptuous declination of a challenge was that of an Irish gentleman of the old school.

"Fight with him!" he exclaimed. "I would rather go to my grave without a fight."

FROM remarks made at the White House and among the Cabinet officers it appears that the vested interests of the country have succeeded in scaring the President out of making any important recommendations in his annual message and in preventing him from expressing in his usual forcible style his convictions that the tariff needs revising and the trusts need drastic measures to effect their control. "A conservative communication" is heard on all sides, which means that it will be a milk and water communication.

NEW PEERS FLEECED

Obtaining the Patent of Nobility Is Expensive in England.

The Newly Installed Members Are Mulcted Without Mercy by the Powers Behind the Throne —Some Instances.

English titles are conferred either directly or indirectly. Directly, when no third person recommends a candidate for royal recognition, and indirectly when a third person brings a candidate's name forward, he having good and valid grounds for doing so.

It is a very easy matter for the prime minister to distinguish a name celebrated in politics, science, art, or literature, and to decide whether the merits of any given prominent person deserve recognition at the hands of the king, says the Baltimore Herald.

Armed with the person's approval, the prime minister now takes the next step—that is, the obtaining his majesty's sanction, which is never refused.

As a general rule a plain "Mr." is transformed into "Sir"—that is, knight or baronet—and one who is already a "Sir," and has done some signal service to the state entitling him to royal recognition, finds his reward in the ultimate elevation to the peerage.

The total number of peers is just under 600, while the baronets exceed 800, and the knights number 1,000.

Letters patent accompany the conferring of a title on an individual. They take the form of a royal mandamus, and the issuing of the documents is a costly matter, which has to be borne by the ennobled: $500 is practically the amount of the fee a new knight has to pay for the letters patent conveying the royal authority. A baronet's liabilities are about the same.

When a "Mr." or a "Sir," is advised of the royal intention to elevate either to the dignity of baron, the letters patent conveying the royal authority carries a fee of $750; of a viscount, $1,000; an earl, $1,250; a marquis, $1,500, and a duke, $1,750.

When Lord Roberts was promoted to the dignity of an earldom as a reward for his services in South Africa, he had to forward a check for $1,250 to the authorities of the college of arms for the parchment confirming his new title.

But to be fined $1,750 for marrying a princess in harder still. When the earl of Fife—as he was then—became the husband of Princess Louise, of Wales, Queen Victoria, at the wedding breakfast which followed the happy ceremony, drank to the "health of the duke of Fife."

That drink cost the semi-royal bridegroom the amount of his letters patent confirming the dukedom.

It is a serious item when a man is made a peer. Baronets or knights wear no robes; peers do. A peer's robe is made of very fine royal scarlet cloth, suitably trimmed with ermine, the rank of the wearer being known by the number of ermine bars which encircle the upper or shoulder part of the robe. A duke shows four of these bars, a marquis three and a half, an earl three, a viscount two, and a baron one.

The cost of a peer's robe varies somewhat, but the average price paid for a set is about $1,000.

Coronets—they are of silver-gilt, not of solid gold—cost from $125 to $250 apiece.

The new lord, on being summoned to the house of lords, attends, arrayed in his official robes, and is introduced to the lord chancellor and informally to the members of the house of lords by two peers of his own rank.

On walking down the floor of the house the new lord and the two peers bow three times to the throne, the obeisance being acknowledged by the lord chancellor, who receives from the newcomer the letters patent relating to the elevation.

The royal authority is read as a matter of form, and the document is handed back to the new peer, who, bowing ceremoniously, again retires.

Odd Bridal Gift.

A German paper reports a singular freak of paternal liberality in the matter of wedding dowry. On the betrothal of his daughter Herr Duchatscheck had announced that he would give her as her marriage portion her weight in silver currency. Accordingly on the wedding day the bride was formally weighed in the drawing room in the presence of the assembled guests before proceeding to the church. The bride turning the scale at 140 pounds, a sack was at once filled with silver crowns to the same weight. The exact number of crowns was 13,500, about $2,800.—Chicago Chronicle.

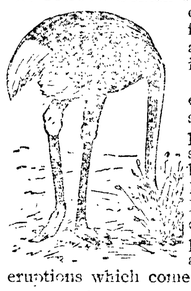
OSTRICH LOGIC

"When I can't see danger, there is no danger." That's the logic of the ostrich which hides its head and exposes its body to the hunter. There are not a few people who seem to have gone to the ostrich to learn logic. The most dangerous enemies of humanity are the enemies which can't be seen, the disease breeding microbes which infect the blood. It is harder to get the microbe out of the blood than to keep it out, but Dr. Pierce's Golden Medical Discovery does both, by purifying the blood and then keeping it pure.



If there are eruptions on the skin, boils, pimples, sores or other signs of impure blood, use Doctor Pierce's Golden Medical Discovery, which will purify the blood and cure the eruptions which come from it.

"My blood was all out of order, and I had to go to the doctor," writes Mrs. James R. Moss, New London, Sandy Co., N.C. "He gave me medicine which helped me for a short time. In the winter of 1895 I got worse than I had ever been. My tonsils were enlarged and my neck swollen all out of shape; my throat was sore and I could not cure it. My husband went for the doctor, but he gave me no encouragement. He helped me a little, but it did not last long. He attended me for twelve months, when I heard of a lady whose condition was like mine, who was taking your medicine and was getting well. So I secured some of the medicine and began taking it. In one week I was able to do my cooking. When I began taking the medicine I could sit up only a few minutes at a time, and I could rest or sleep only a little while at a time. My throat was so sore at times I could not even swallow sweet milk, and my tonsils were full of little cutting sores. My left side was swollen out of shape and I could hardly get my breath. The doctor said I would not get well, but I gave him three bottles of Dr. Pierce's Golden Medical Discovery, three bottles of his Pellets, three bottles of Dr. Sage's Catarrh Remedy, and the use of salt water did the work and cured me."

Dr. Pierce's Pleasant Pellets cure constipation and its consequences.

Floor Walking

Head Floorwalker (severely)—I heard you tell the lady she would find the ribbons at the third counter to the left.

New Floorwalker—That's where they are.

"Yes; but you should have told her to go to the right past the necktie bargain counter, turn to the left past the stocking bargain counter, then three counters to the right past the shirt waist bargain counter, and so on. You'll never make a floorwalker."—Judge.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.
