RAILROAD PROGRESS.

GRADE IS WITHIN HAILING DISTANCE OF MILL.

Rail Laying Pushing Forward Rapidly —Several Bridges Are Constructed—Piling for Dock All Driven.

Railroad construction continued unabated this week and good progress was made in all branches. The graders are within about 400 feet of the millsite, which in about one and one-half miles up the valley. They are cutting through a point and for the next mile will make slow headway owing to the narrowing and zigzag route of the valley which will necessitate the construction of much trestling and cutting through points in crossing and recrossing the stream in the endeavor to secure a direct route. It is possible, however, that the rise to the top of the west bank will be made before the next mile is reached.

Following close upon the heels of the graders is the crib and trestle crew who have put in four small bridges a pier and a couple of cribs The piledriver has also been kept busy with bridge work and snaking logs. Rail laying has been completed almost to the boulevard, and by another week it is very probable the cars will be running to the mill, which will then be cutting timbers for railroad construction.

Tuesday the last pile in the wharf was driven and all the caps have been placed. Owing, however, to a breakdown at the Filion mill and the consequent delay in the supply of long timbers the wharf has not yet been put in shape for the removal of the locomotive.

The steamer O'Conner arrived Tuesday noon with another shipment of 100 tons of 35-pound rails, together with a large assortment of railroad iron. These rails are considerably lighter than those received for the main line, and will be used for feeders to the service.

THE NEWS.

Saturday.

Alaska homestead bill will go to conference.

Bill passes creating department of commerce. President names Secretary Cortelyou new cabinet officer while Wm, Loeb, Jr., will act as secretary to president.

Senator Geo. Turner, War Secretary Elihu Root and Senator Lodge are named Alaska boundary commisssoners.

R. B. Albertson, ex-speaker of house, is named the fifth judge of King county by Gov. McBride as a reward for help in commission cause two years ago.

SAWMILL IS RUNNING.

STARTS UP TODAY ON UNDER LIGHT STEAM

Manager Keene Was Determined to Be Cutting Timbers Before Railroad Reached the Millsite.

The railroad saw-mill up Tumwater Valley is now in running order, the last details having been completed today and the test made this afternoon. The boiler and the donkey engine were taken over the hill during the week and down over the bluff at the millsite. The new mill will be kept very busy from now on, and will aid materially in the construction of the line. It is located on the banks of the stream and has easy access to timber in all directions.

On the hill above the mill is the camp of the employes, some fourteen in number, where they have every convenience.

A night watchman has been placed on duty here to prevent the removal of tools, etc., which have been disappearing at an alarming rate of late.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all it stages and that is Catarrh. Hall Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

WILL KNOCK OUT MANY LAND LAWS.

Quarles Bill Leaves Only Straight Five-Year Residence Homestead Law.

The senate committee on public lands Saturday, after an animated controversy, decided to favorably report Senator Quarles' bill repealing the desert land law, the timber and stone entry law and the commutation provision of the homestead law, leaving only the straight five-year residence homestead law under which the public lands may be taken for homes.

A GOOD LAW.

All Taxes Must Be Included In Certificate of Delinquency.

Unusual local interest is being centered round a measure now before the legislature. The measure affects the enforcement for local improvements and provides that delinquent improvement assessments shall be certified at stated intervals to the county treasurer. The county treasurer is directed to include such local improvement assessments in the amount of taxes against property when issuing a certificate of delinquency.

Some cities have been making a fight for such a bill for a long time. Under present conditions property against which a large sum of money is due in payment of local improvement assessments might be sold for an insignificant sum due as general taxes. The city or warrant holder—it has not yet been determined which—would lose the amount of the local improvement assessment. Collusion might even be practiced by a property owner and a friend to escape a heavy local improvement assessment by this means.

Clallam Bay Record.

Surveyor L. D. W. Shelton was a visitor at Clallam this week.

Merritt Day and S. P. Scanlan, Chicago lumbermen, are here looking over the country.

The Robinson logging camp has been at work lately logging and is now hauling logs to the bay.

Mr. and Mrs. W. M. Johnson are in town waiting for good weather to go out to the Ozette country.

Charles Schneider is now at the home of an uncle in New Jersey, John Runge, who is seriously ill with dropsy.

A new organ consigned to M. J. Warminski was taken out yesterday to Mr. Warminski's ranch near Tyee.

G. W. O'Brien recently sold the Geo. Smith place on the Hoko river to John A. Campbell of Port Blakely.

Edward Last has sold off his live stock and will leave for the East next week, where he expects to remain for some time, at least. Gill Lee bought his horses and Charles Welker his cattle. The ranch has been leased to Peter McNally for a term of three years.

James McCary, an old time resident of Beaver, and who has been sick here for several months past, left last week to try and get into the state soldiers home at Orting. He made an application for admission about three months ago but so far it had not been acted upon. He expects to get in anyhow by going and asking admittance in person.

The church building at Forks is nearly completed. It is located on a piece of land donated by Mrs. Maybury, a short distance from the cemetery, and has been completed through the energy and industry of the Rev. W. R. Fletcher. Mr. Fletcher has put in four or five months hard work on the building, and although he has only one arm to labor with, has succeeded in constructing a very creditable house of worship.

There is considerable merit in the proposition naw up to the legislature to cut off the tail end of Jefferson, known as the Queets country, and tack it onto Chehalis county. The people there are isolated and might as well have Tacoma or Seattle for a county seat as Port Townsend. There is no disguising the fact that the Queets is naturrlly tributary to Grays harbor. The settlers there are deserving of the relief they demand.

TO ELECT YOUNG LADY

TO CHRISTEN STEAMER CLALLAM NOW BUILDING

Five Cents a Vote and Vote as Often as You Please—New Boat Will Be Put in Water Some Time in April.

The Commercial Club met in special session Tuesday for the purpose of formulating a plan for the proper recognition of the naming of the steamer Clallam after this county and the selection of a lady to christen the boat when launched.

The steamboat company has advised the Club that it will run a free or practically free excursion from this county on the occasion of the launching, and desires a young lady of Clallam to christen the steamer.

At the Club meeting Tuesday it was the sense of those present that we should do what we can to make the event a success and to present some suitable present to the boat on the occasion.

It was decided that the entire county will be asked to name some lady between the ages of 18 and 25 years to christen the new steamer; votes may be left with any postmaster who will co-operate and forward them to the general committee. Five cents will be charged for each vote to raise funds for a present, and any party may vote as often as desired. Nominations must be certified by two reputable citizens and nominees must be unmarried ladies.

The amended plans and rules will be given to the public as soon as the committee hears from Supt. Burns.

TO OPEN RESERVE

A communication from Commissioner Richards, of the General Land Office, was read at Wednesday's council meeting relative to the ten-acre blocks west of the city. The letter is in response to a letter from the mayor, and points out a way of securing relief.

The mayor recited to the Interior Department that there is within the city limits 1,400 acres in ten-acre blocks that are withheld from the tax rolls and from private ownership because of a high assessment which defeats their sale. A portion of this land was withdrawn for military purposes or fortifications. The people here are desirous of getting this land on the tax rolls to help pay for roads through it, and would like it opened to settlement, including that reserved for fortifications, as the latter, in his opinion, were not desirable so close to the city.

In answer Commissioner Richards states that the law whereby the reservation lots were opened to settlement was for that purpose only and these suburban "lots" cannot be opened in that way. It is intimated that the only concession the department can make without a special act of congress is to vacate the reserve for fortifications and order a new appraisement. The commissioner suggests that the proper action is to petition the Secretary of the Interior, making necessary affidavits and showing necessity for action desired.

Councilmen Hallahan and Brumfield were appointed a special committee to act with the mayor in prosecuting this work.

COUNCIL ROUTINE.

Present Wednesday night, all members of the council except Mr. Gutenberg.

The street committee reported, recommending that $5 be expended in placing a railing on the west side of Peabody street The committee also reported that natural channel for ditch draining vicinity of 9th and Albert streets was down 7th street. Great damage is being done at 6th and Albert streets by this water. The street commissioner was directed to turn water down 7th street at least possible cost.

In response to a letter from the mayor to the commissioner of the general land office, a communication from the latter to the former was read advising the city to petition the secretary of the interior for the relief desired in matter of ten-acre blocks.

Mr. Hallahan asked the city attorney if the council could make cost of repairs on sidewalks a lien upon abutting property where no assessment district existed. The attorney replied that they could. Mr. Hallahan desired that the attorney take a week to be sure and the matter was laid over.

Application for a liquor license for a saloon adjoining "Mona's," with R. E. Miller and Geo. E. Kimble as applicants, was read. No bond accompanying the application, same was referred to committee.

Claim of C. Wise and men for street work, $42.60, was read and referred.

The light committee was asked to report regarding dangerous condition of light pole at Front and Oak streets.

THE Port Townsend Call has the audacity to say that Port Angeles is not in it with Port Townsend for harbors. Well, if Bre'r Satterlee has never seen Port Angeles harbor he should come down here and be convinced that there is no other in the world like ours. Friend and foe alike have been compelled to admit this.

MAY PASS THE HOUSE.

The railway Commission bill, which received its death blow at the hands of the senate last week, was in reality a Democratic measure. It was part of the policy of Governor Rogers and was strongly favored by him. Governor McBride when he succeeded to the Governorship, took up the idea and made it the dominant one of his administration, because he believed as his predecessor did, that a commission of this character would force fairer treatment of the people by the railways. The bill was introduced in the senate by Senator Tolman, a Democrat of Spokane; and was known as the Tolman bill. The commission bill introduced in the house by Dr. Dix, of Whitman, was simply a printed copy of the Tolman bill. Senator Tolman, in arguing in behalf of the bill, dwelt principally on its legal status, showing that in the opinion of many of the Supreme courts of the states and of the Supreme court of the United States it was constitutional, and that there is no other means by which the legislature can provide for the adequate control of the common carriers. Senators Graves, Garber and Ballet, for the Democratic minority side in support of the constitutionality of the act, showed the necessity of it, and that it was the defire of a majority of the people when freed from the influence of the paid agents of the common carriers to have such an act on the statute books. On the other hand, Senator Hamilton, who led the forces opposed to the railway bill, attacked Governor McBride and declared that he forced the measure by unfair means down the throats of the Republicans of the state, hinted at chicanery and unfair methods and declared that if the bill was adopted that it would simply be in the interests of a faction of the party and in order that Governor McBride might build up a strong personal machine. Senator Moultray, of Whatcom, declared that he had been in attendance on the Republican conventions for the past 20 years and that they had all been dominated by railroad influence and he for one was getting tired of the party being so run.

In the house the speaker made a most infamous ruling which practically shut off further action on the bill, but the effect was so severe on him he was compelled to reverse himself and the bill has again been placed on the calendar with prospects of passing by a close vote.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. COMMONER SAYINGS.

The shacklers of cunning seem to be following up a cold bear trail

The coal tariff has been remitted. Robbery under the guise of other tariffs is still permitted.

Senator Dolliver should study the case of William E. Mason and be careful how he poses as a stickler for principle.

The people of India now know who is emperor of their country, but do they know where their next meal is coming from?

The Democratic party will not nominate a man for the presidency whose democracy must be certified to by the republican organs and leaders.

The Republican organs that still claim "the foreigner pays the tax" have not explained the reason for remitting the coal tariff.

Perhaps those Republican senators could persuade Senator Quay to send the statehood bill over to The Hague for adjudication.

The Littlefield anti-trust bill also provides for criminal prosecution. If enacted into law the criminal section should be printed in two line pica black face for the benefit of Philander Knox's failing eyesight.

"As a result of the war we came into the possession of Cuba, Porto Rico and the Philippines," declared President Roosevelt at the McKinley birthday anniversary banquet. This rather disproves the oft-repeated claim that the Philippines were tossed into our laps by Providence.

Congressman Sulzer has introduced a bill providing for the publicity about which the president has spoken so much But Mr. Sulzer will probably find that he followed the words rather than the intention of the president and made his bill entirely too drastic to suit the trusts. If the Sulzer bill was enacted the corporations engaged in interstate commerce would have to tell all about their capital stock, their gross earnings, their net earnings, the names of their stockholders, and, worst of all, would have to state whether they had received any rebates or were trying to monopolize trade. This is probably farther than the rupublican leaders care to go.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pheumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all druggists.

The threatened extermination has not materialized, though I have been informed that the faro-bank man, who was closed up by the slot machine people threatened to retaliate. The faro bank which was operated a couple of weeks was making the machines very unprofitable, hence the "dog eat dog" incident.

The fact that the house has passed another bill against slot machines calls to mind the fact that before the legislature monkeyed with these machines two years ago, the city was receiving $10.00 license from six or eight of them, and that number was about all that were then in operation. The prohibition law stopped the city from licensing and the validity of the law being in doubt machines were operated in defiance of it, until today there are nearly ten machines in operation to where there was one and the city gets no license whatever. There is not a saloon in town now that has not from one to five of these machines in operation.

Of course everybody heard the curfew ring Tuesday night! Ask Marshal Ken why it rang at 8:45.

Port Angeles is not what is considered a tough town as there are very few real hobos here, but occasionally one hears of an incident that would only be expected to occur in Seattle's tenderloin. I am informed a sensational happening took place just as THE DEMOCRAT-LEADER printed its last issue. A stranger strolled into one of the well-known back rooms and came into somewhat of an intimacy with a couple of loungers. A "quiet game of draw" was suggested and the loungers secured possession of the house's chips, taking what they desired and selling the stranger what he desired. Of course the stranger didn't "hold" worth a cent and soon had to purchase more chips, and again and again still more. Still he didn't "tumble." This went on until Mr. stranger was $50.00 shy. Finally, Mr. Smooth-dealer made a mistake. He gave the hand he intended for his partner (four aces) to the stranger, and to his partner that intended for the stranger (four kings). Betting and raising became quite exciting, the stranger knowing he had the best of it and the partner implicitly trusting that the dealer had given him the best hand, "raised" every bet of the opponent. Chips representing the latter's $50 and others to the amount of $35. were piled up in the center, at the show-down the stranger took in the pile. The stranger then desired to "cash in" and found that the others had not the wherewith to "make good." Now he tumbled, and after roundly cursing his would-be "robbers" he pulled a big gun and told them to "dig." He would just as soon kill them as not, he said. Realizing they really had no money with which to cash the chips, it is related he marched them up the street at the point of the gun, and to quiet up the affair they borrowed the money from a saloon keeper and paid the stranger what was coming to him.

It appears that the "Easy Boss" is hard to pry loose.

The Change Proposed By Present Legislature.

The judiciary committee of the house of representatives at Olympia is at present struggling with a bill which may materially lessen the duties at present discharged by Judge Hatch, of this district. It is the intention expressed in the pending bill, to join Island with Snohomish county among the other changes suggested.

An effort is being made to have San Juan take the place of Island in this judicial district, to make the judicial and senatorial territory the same. It is to be hoped this will be defeated as we have nothing in common with San Juan and were only joined with her in the senatorial fight to insure the election of a republican.

Everything which the transcontinental Washington requires to see or thinks it ought to see—is described in the simple manner characteristic of Mr. Lease's book, with the subject matter.
—New York Tribune.

The most valuable feature of the book is its series of pictures and caricatures of men prominent in national life to-day.—N. Y. Mail and Express.

That which does not arouse enthusiasm within us with its sayings, is often brought vividly before us an' like a stroke of lightning awakens our faculties. Is the adept use of pen and pencil by a gifted artist, and such is the merit of the book before us, which is not only very interesting an' amusing, but instructive in the highest degree.—New York State Zeitung.

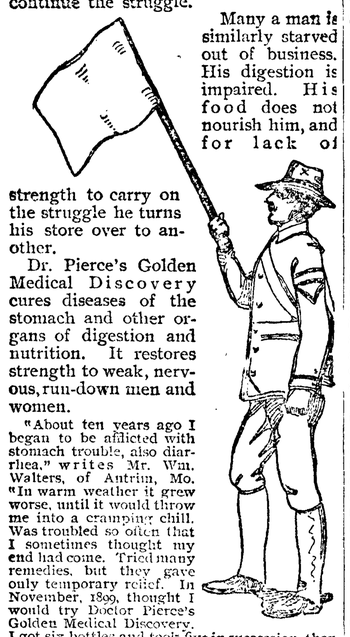
STARVED OUT.

Many a garrison has been forced to give up the fight and hang out the white flag of surrender, when lack of food has weakened the men past all power to continue the struggle.



Many a man is similarly starved out of business. His digestion is impaired. His food does not nourish him, and for lack of strength to carry on the struggle he turns his store over to another.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores strength to weak, nervous, run-down men and women.

"About ten years ago I began to be afflicted with stomach trouble, also diarrhea," writes Mr. Wm. Walters, of Antrim, Mo. "In warm weather it grew worse, until it would throw me into a cramping chill. Was troubled so often that I sometimes thought my end had come. Tried many remedies, but they gave only temporary relief. In November, 1899, thought I would try Doctor Pierce's Golden Medical Discovery. I got six bottles and took five in succession, then thought I would wait for a time and take the one left. Soon found I had symptoms of the trouble coming back, so took the sixth bottle and it cured me. I have enjoyed the best of health this summer, and the credit all belongs to your 'Golden Medical Discovery.' I can't express my many thanks to Dr. Pierce for his remedy, for it did so much for me. Words cannot express how severely I suffered,

"If any doubt the above statement let them address me, and I will take great pleasure in answering."

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

A Serious Accident.

A very sad and serious accident occurred on the wharf at Washington harbor Tuesday night in which a former Port Angeles girl was filled with bird shot and the young man whose carelessness was responsible for the accident received slight wounds from a couple of stray shot.

Young Sullivan, son of Manager Sullivan of the cannery, and Miss Blanche Shepherd, were out on the wharf or cannery platform (less than 150 feet long), when the former grabbed a gun which was set against the railing. As he took the gun from its place the hammer caught and the contents were emptied into the young lady's side; about fifty shot entering her side, two in her hand and one in her arm.

Dr. McGeorge, of Seguin, was called who refused to remove the shot until the wounds heal some. The young lady is said to be in a serious condition but does not want to be sent to the hospital,

Double Wedding.

A double wedding was solemnized last Sunday afternoon at 2 o'clock, at the residence of Mrs. Rogers, on Second st., near Valley. Miss Annie McRoberts became the wife of Mr. William J. Hawthorn, and Miss Grace E. Dorr became the wife of Mr Homer Anderson.

Mr. Martin Kepler was best man and Miss Clara Dorr acted as bridesmaid.

The wedding march was played by Mrs. Alfa Hatch. The ceremony was performed by E. S. Doyle, pastor of the Baptist church. Only the immediate friends of the contracting parties were present. After the ceremony a sumptuous dinner was served. All parties are well known in this city, The editor joins the many friends in extending best wishes.

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury, All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

IT'S A DOUBLE TREATMENT.

And that is why Dr. MacKenzie's English catarrh cure is so successful in accomplishing permanent cures in cases of catarrh of even from ten to thirty years standing.

It's a home treatment and that's why it's easy to be persevering and faithful in its use—a most important factor in the cure of catarrh.

It's an inexpensive treatment and that's why it's in the reach of all. Dr. MacKenzie's English Remedy is a positive cure for all cases of catarrhal inflamation of the nasal passage, bronchial tubes, throat, lungs, stomach and the resultant condition of catarrhal poison in the blood and system. That's the reason why everyone who has the slightest desire to get rid of the catarrh should commence at once, today.

The MacKenzie local treatment cleanses the air passage, allays the inflamation of the lining membranes, heals the suppurating sores, and stops the poisonous discharge. Internal treatment destroys the virous in the blood and stomach and enables the system to resist future attacks. For further information write,

Properly Mixed Diet.

A properly balanced ration for stock has solved the problem of supplying animals with the elements which their natural appetites crave. This could not be consummated in a restricted diet, which is shown by the unnatural desire of animals for bones and other substances which evidently contained the desired element. Such animals display an unthrifty condition until the desired element is supplied with salt, bonemeal or some other ingredient lacking in their regular ration. A balanced ration involves a variety of elements which go to make muscle, fat and bone in the proper proportion, and stockmen are now giving this subject special attention, as the best results can only be achieved by feeding a properly mixed diet.

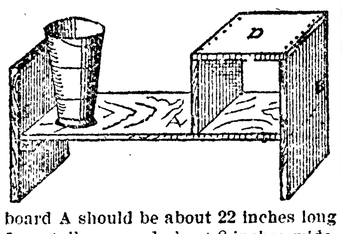
Siloing Millet and Clover.

I have ensiloed millet and clover successfully without cutting, but always prefer to cut everything for silo, says W. F. McSparran of Pennsylvania in National Stockman. I think the silo will hold more when the silage is cut, and, as the process of cutting more thoroughly breaks up the organism of the feed, the digestive agents of the animal more readily and perfectly attack its nutrients.

Millet is a reasonably good feed, but should be cut just when in blossom, and both it and the clover, while perfectly ensiloable alone or together, will make a much nicer and more valuable feed if mixed with corn in the silo. By all means fill the silo with anything green in sight.

Milk Stool and Pail.

We have tried several kinds of stools and have seen all styles in operation in various parts of the country, but nothing suits us so well as the style shown here, says a Michigan farmer in Hoard's Dairyman. We made the first one when we commenced dairying. The cut shows just how to make it. The



board A should be about 22 inches long for a tall man and about 8 inches wide. The two end pieces, B and C, can be cut and adjusted to suit each milker. We made the stool so as to have the seat D about ten inches high. All pieces are about 8 inches wide. It is a pleasure to use this stool. One can sit comfortably without bracing. No need of hugging the pail; simply let it rest between the knees. The pail should be tilted slightly, and, thus arranged, a good, rapid milker will spatter very little milk. This stool keeps the pail off the floor and thus keeps it clean. We prefer a heavy tin pail, slightly flaring and of good depth. A flange at the bottom is a protection and strengthens the pail.

BIBLE FOR GOOD ROADS.

Commanded That Valleys Be Exalted and Mountains Lowered.

Speaking at a good roads meeting at Grenada, Miss., the Rev. W. A. Hamlett said:

"The subject of good roads, now being agitated, is worthy the profoundest consideration. The necessity of such improvement is so potent that he who would oppose it would only advertise his stand against progress. This matter of good roads improvement is not without its precedent, both anciently and scripturally. We, in this modern age of energy and invention, are rather inclined to scoff at the people whose existence is but a dim historic memory. Nevertheless, on the subject of improved, well kept highways, we may well sit at their feet and learn. A mere glance at Rome teaches us that.

"What would Rome's senators or legions of war have done for the City of Seven Hills had it not been for her splendid system of good roads? Having conquered an outlying province, she linked it to herself by one of her enduurable highways, over which social and commercial communication was established or over which an army could march with ease in time of rebellious. Today traces of these roads still exist, and, having endured the ravages of weather and time, they remain to remind us of that principle of Rome worthy of imitation by any nation. Rome would never have been what she was had it not been for her roadways. A system of good roads makes a good city or nation. This is axiomatic.

"Moreover, Scripture uses this principle as a figure: When the Almighty, through prophecy, had promised a Savlour, he likened him to a king who was about to visit his people and in honor of whom the highway should be put in perfect order. 'Prepare ye the way of the Lord; make straight in the desert a highway for our God. Every valley shall be exalted, and every mountain and hill shall be made low' (Isaiah xl, 3). Even so there is another king, though an uncrowned one, who wishes to visit our cities, but who is hindered by the unsatisfactory condition of our roads. If he comes, he will bring plenty with him. I refer to his majesty the farmer. He can exist in his independent way without the cities, but the cities can't exist without him. Prepare your highways, exalt the valleys, bring low the hills, and let this king come in. Citizens, build good roads!"

Miss Ida M. Snyder,
Treasurer of the Brooklyn East End Art Club.

"If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctors' prescriptions do not perform the many cures they are given credit for.

"In consulting with my druggist he advised McElree's Wine of Cardui and Thedford's Black-Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me."

Wine of Cardui is a regulator of the menstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregular and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All druggists have $1.00 bottles of Wine of Cardui.
