# THE DEMOCRAT-LEADER.

VOL 14, NO 49 PORT ANGELES, CLALLAM COUNTY, WASH., FRIDAY, MARCH 6, 1903. PRICE FIVE CENTS

## WHARF TO BE BUILT AT ONCE.

### CONTRACT IS LET AND WORK IS ALREADY BEGUN.

**Must Be Completed Quickly—Will B a Substantial Structure Built to Deep Water and With Room For Big Vessels to Tie Up—Will Take 500 Piles.**

THE DEMOCRAT-LEADER is in a position to state this week definitely that the proposed new wharf at the foot of Oak street will be built and that the work will be commenced at once. In fact, the work of getting out the piles has already been begun. The contract for the building of the wharf has been let to the Gate City Contracting Co., and work will be rushed; all the men that can possibly be employed to expedite the work will be put on the job, which according to the terms of the contract must be completed in a very short time.

The new wharf will be 750 feet in length from the north line of Front street. It will be 30 feet in width, solidly built, and will have a T of 150 feet frontage; large enough to accommodate good-sized vessels. It will take 500 piles to complete the dock, each of which must be ten inches in diameter at the small end.

The company has secured by purchase after much difficulty the tide land area on either side of the street giving them if found necessary a wharf frontage of 245 feet.

The company, which will be known as The Merchants' Wharf Company, was organized this week and the articles of incorporation will be filed at once. John Gutenberg is named as president; W. K. Clark, secretary and treasurer; J. Gutenberg, F. F. Miller and W. K. Clark, trustees.

Practically all the prominent business men in the city have taken stock in the new enterprise and having a most excellent manager its success is assured from the outset.

## On the West Side.

**Olympic Peninsula Will Attract Much Attention.**

The people living at various points on the Olympic peninsula, and those who are familiar with conditions in the part of the state, are looking forward to a period of great and rapid development during the spring and summer of 1903. The unexcelled beauty of valuable timber and the incomparable farming valleys, in the region between Puget sound and the Pacific ocean attracted more attention last year than ever before. Now with the plans for considerable railroad building already being carried out and the general belief that a system of railroads will ultimately traverse the entire peninsula, unprecedented prosperity is looked for.

While a great body of timber on the peninsula is embraced within the Olympic forest reserve, there are still thousands of acres to be taken from outside the boundaries with little or no difficulty. At the same time the many valleys and other lowlands offer exceptional opportunities to those who have not exercised their right to homestead.

The Northern Pacific has lately taken over the Port Townsend Southern railroad, extending southward from Port Townsend and northward from Olympia with a short gap between. The same company has completed its surveys for a line from Grays harbor through the Humptulips valley to the Quinault indian reservation, and has asked permission to cross the reserve. The Port Angeles Pacific is now building from Port Angeles, along the Strait of Juan de Fuca, toward the coast. Thus, as has been semi officially announced, is formed the nucleus for a system that will eventually gird the great peninsula.—Seattle Post Intelligencer.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

## Baby Scalded to Death

**Little Ruth Cram Falls Into Boiling Water, Receiving Frightful and Fatal Injuries**

Ruth, the little daughter of Mr. and Mrs. Frank H. Cram, Jr., aged two years and five months, died last Sunday morning at 8:30 o'clock, as the result of frightful injuries received about 24 hours previous by falling into a large can of boiling water.

The accident occurred about 8 o'clock Saturday morning. Mrs. Cram was preparing to scrub and had set a five gallon oil can of boiling water upon the floor, one side of the can having been partially cut out. During a momentary interval when her attention was occupied, the baby girl, with the remark to her mother that she was going "bye-bye," backed over to the low side of the can and sat down in the scalding water, receiving fearful burns from the neck to the knees. The frantic young mother at once rushed to her baby's rescue and lifted it from the can. She immediately sent for Dr. Woodward, who came at once, meanwhile acting with rare presence of mind at such a time by removing the baby's clothes and using such ointment as she had at hand. So badly burned was the little one that large patches of skin and flesh came off with the under clothes. Dr. Woodward dressed the burns and did everything possible to make the little girl comfortable, but medical skill was of no avail to save her life.

During the time of the funeral services the Moss Mercantile Company, with which Mr. Cram has long been connected, closed its store as a mark of respect and to permit his associates to join with the many friends of the sorrowing parents and relatives who crowded the church and followed the remains to the grave as an expression of their sympathy.—Payette Independent.

Mr. Cram was for many years prior to his removal to Payette, Idaho, a resident of this city, and his many friends here extend to him and his young wife their heartfelt sympathy in their dark hour of trial.

## COUNCIL ROUTINE.

All members were present at the council session Wednesday night. Some important business was transacted looking to the repairing of streets the building of two bridges and the opening of the reservation blocks.

The street committee reported recommending expenditures for street repairs as follows: Front, $175; Race, $80; First, $100; Peabody, $170; Second, $125; Foot of Tumwater to B, $75; B, between 5th and 11th, $75; new Dry Creek road, $75. Total, $875 The committee also advised improvement of road to the cemetery. Upon motion of Mr. Grubb the report was adopted and the work ordered prosecuted as rapidly as possible under the supervision of the street committee

Bond and affidavit of Ellen Taylor for payment of lost coupon were approved and treasurer was directed to make payment.

City attorney advised council of the irregular manner in which licenses were heretofore granted, citing that the ordinance was not regarded, the papers alone of the previous applicant being copied. Every petition, he said, must be signed by ten freeholders, not indiscriminate signers, the consent of a majority of the resident property holders residing in the block in which the saloon is to be located should be secured and the number of the lot and block upon which the saloon is to be located should be given.

The police judge wanted the funds of the court set aside for the repair of jail and court expenses, but the treasurer was directed to place all moneys from this source into the current expense fund.

Special committee reported acting with the Commercial Club in matter of securing the sale of the 10-acre blocks and asked for further time.

A communication was read from Benton Embree, who again demanded that council take immediate steps to collect First street assessments. The city attorney reported that active proceedings could not begin until Judge Joiner arrives, March 13th.

Corrected bond of Messrs. Miller and Kimble for license was read, approved by the city attorney and license was ordered granted.

The city engineer was ordered to prepare the grades for a bridge across Lincoln street gulch at 4th street and another across Francis street gulch at 8th street. These bridges are to be for heavy traffic and for their construction citizens and merchants will contribute.

The county commissioners met Tuesday in adjourned session.

Christopher was given a warrant for $56 48 on bridge fund "to pay for labor to date on the Blater-Marsh road."

Board accepted surveyors report on the C. Bradshaw road, ordering route No. 2, opened.

Salaries of deputy assessors in the field were fixed at $3 per day; for work in office $75 per month.

Auditor was directed to wire representatives urging passage of house bill No. 105.

Seguin and Dungeness cemeteries were ordered investigated and if found necessary surveyed.

Wharf rates outside of cities, for 1903, were fixed as follows:

Minimum charge, under 200 lbs., 10c.; 200 lbs., and not over 400 lbs., 15c; ton, 50c.; horses and cattle, each, 25c.; calves and hogs, 10c.; sheep, 5c.

Board allowed Christopher 7 days, extra services on Blater road, $27.

**An Exciting Ride.**

Through the courtesy of Chief Engineer, Norman Smith, the editor was permitted to take a ride yesterday down the entire length of the new railroad from the mill to the wharf, and an exciting ride it proved. The car came down with forty tons as smoothly as on any well ballasted transcontinental track and at a pretty fair clip. Of course the route is all curves and speed could not be tested, especially with nothing but a brake to govern the car, but the ride was fast enough to make the trip exciting and most interesting.

The cars will be used regularly now to take the rails up and bring timbers back, using gravity for the latter and a steam donkey, which is fastened to the platform of one of the cars for the former. The locomotive can be ulilized at any time now, but will not be for a couple of weeks yet, as there is little for it to do. When another quarter of mile of track is laid logging operations will be begun and the locomotive will be put to work.

## CARS ARE NOW IN USE.

### CARRY TIMBERS FROM THE MILL TO THE WHARF

**Track is Laid to Some Distance Beyond the Mill and Graders are Some Distance Ahead—New Store Building and Platform at Wharf.**

The rails on the Port Angeles Pacific have been extended to the millsite and beyond and cars for the supplying of material are being used over the entire length of the road transporting ties and rails to the far end and bringing down timbers on the return trip for the completion of the wharf.

Sawed ties are now being used exclusive, being considerable cheaper and just as serviceable.

During the week nearly one half mile of roadbed has been cleared and constructed, including two more bridges across the stream, two small cuts, and considerable crib work. The valley where the men are now at work is considerable harder to clear and is some narrower, though as long as it keeps nine feet wide Engineer Smith says there will be no difficulty. The graders are now not a great ways from the water works intake and have just cut through a point of hard pan—hard work but something permanent when complete. The valley here is covered with timbers, all of which are being utilized in the crib work.

Chief Engineer Smith who accompanied the editor on his weekly trip this time states that they will begin hauling out logs just as soon as they get around the next point. Messrs. Johnson and Woods have established a logging camp just above the mill and have a 300 foot shute in place which is utilized to throw the logs over the bluff to the vicinity of the mill. One big one struck the mill carriage last Saturday and laid it up for some time, now a warning whistle is blown before a log is started down.

Mr. Smith stated to the editor that 75 miles of the line has been surveyed; that the company has secured practically all the the timber land between here and the Solduck; that the government is anxious to have the old timber on the forest reserve taken out if the tops and all are removed, and will sell it at a very low figure; that there is an unlimited amount of business for the road from this source alone. He further stated that the road would skirt the forest reserve for many miles, that it would follow up the entire length of the valley to Geo Hatch's, entering Indian creek just beyond Little river. As soon as the locomotive is placed in operation things will hum faster and in six months people won't know the country it traverses. Many more men will be put to work shortly, and the road will have an income before many days pass.

The mill is working steadily and improvements are being made.

### THE WAY THE MONEY GOES.

The present legislature has not been economical. Its appropriations will aggregate more than the available revenues of the state. Beginning with $80,000 for its own expenses, a sum which is at least 30 per cent more than it ought to be, there has been nowhere any appreciable tightening of the purse strings such as their ought to have been under the present condition of state finances. —Spokesman-Review (Rep.)

THE Seattle chamber of commerce has very properly denounced the compulsory pilotage bill presented by the member from Jefferson county. Our great inland sea needs no special pilots and the experience of the past proves that more disasters have occurred while ships were in charge of pilots than when the regular officers had control.

ALREADY Republican leaders are looking forward with apprehension to the campaign of 1904. With an overwhelming majority in both branches of the legislature they have discovered that all the campaign ammunition they have manufactured just fits the Democratic Krag-Jorgensens and will be of no use to their old smooth-bores.

There are no depths of political inefficiency and infamy which the present Republican legislature has not sounded. Many of their own journals have repudiated them and the political horizon is lurid with the flames of their statesmen burned in effigy. The English language cannot communicate the divergence between Republican promises and Republican performances.

## Extra Session.

President Roosevelt, on Tuesday, ordered that as public interests require the senate of the United States will convene in extraordinary session on the fifth of March. The president notified the senate two weeks ago if the Cuban reciprocity or canal treaties were not acted upon at the close of the session he would issue the call and has made good the promise.

**Tendency of the Times.**

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pheumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all druggists.

## THE STROLLER

The Angeles Brewing and Malting Co. are entitled to much praise for their enterprise and persistent efforts to advertise Port Angeles. Besides their handsome calendars, cards and other unique advertising matter they are now distributing to their patrons all over the Sound a neat five-inch metal plate, in the bowl of which is the townsite, harbor, and spit of Port Angeles, with the brewery and other buildings, the various wharves and the lighthouse at the end of the spit. Above the town are the monogram letters A.B.&M.C., and above this on a banner thrown to the breezes by the figure of a woman floating in the air are the words, Angeles Brewing and Malting Co. The souvenir is very pretty.

Saturday night last Messrs. Harry Trumbull, Frank Dustman and Jack Woods got into a little difficulty over a game of cards in the Merchants Hotel. They made a few passes at each other in the hotel and then passed into the street where the difficulty was renewed. Marshal Church requested them to appear before the police justice on Monday where they plead guilty, and the bunch were fined $10.00 and costs; about $4.50 each.

Marshal Church, by the way, is making a good officer.

I wonder what has become of the council's order regarding the Second street walk. Better not make any orders, gentlemen, if you do not intend to see that they are carried out. A law that is not enforced breeds contempt for law.

I have been expecting for sometime to see the old abandoned wharf carried away to the damage of property along the water front. Luckily the northeasters of Monday and Tuesday came in at low tide or a big portion of this wharf would have gone. It is a menace to the water front and should be ordered torn down. The council's negligence in this matter may yet cost the city something.

A couple of soiled doves from up sound who have been making their head quarters in the city for the past two weeks were asked this week to vacate by the authorities, and it is reported they have left the city.

I notice that property values are increasing in the minds of certain owners to such an extent that only when a great big sucker is found a sale is made. It is poor policy to put a ficticious value on realty and while a slight rise is probably justified at this time, it will be well for some to remember the days of 1891-2. We want capital and new blood to aid us in the up building of our beautiful city, and the way to get these is to treat all fair and honorably. There are thousands coming from the East during the next few months, but we must not hold our figures too high if we expect to interest any considerable number of them.

A county officer is doing considerable plumbing at his new residence, and a prominent local plumber wants to know whether the work is being done on the officer's own time or on time which should be given to the county business.

We are indebted to Capt. Charley of the steamer Gertrude for refusing passage to a woman whom the authorities of Seattle tried to ship down to us. She was later put aboard the Garland for Whatcom but sneaked off before the steamer departed and turned up at headquarters next morning on the same old charge, drunk and disorderly. "Gee," she exclaimed, "this is like getting back home."

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is an antiseptic and unequalled as a quick healing liniment for cuts, bruises and burns. For sale by all druggists.

## A True Story.

Mr. G W. Morley, of Seattle, was troubled for ten years with catarrh of the head and bronchial tubes. The discharge of mucus was so profuse as to necesitate his sitting up in bed at night to preven strangulation.

As is always the case where there is a dropping down of the mucus behind the palate, a catarrhal condition of the stomach prevailed and in consequence the whole system was run down.

On the advice of a friend he undertook the complete MacKenzie treatment for catarrh. He says now (more than a year since commencing) that he is entirely free from colds, that the nasal passage and throat are entirely free from catarrhal discharges, that his stomach and digestion are in better condition than for yearf. In fact, he says that he is a well man and attributes his good fortune to the MacKenzie "Method." What is this "Method?" It is simply the double treatment for catarrh, locally and internally. While the system is renovated and toned and the poison in the blood eliminaten; the original point of infection, namely, the nasal passage and throat, is cured and the source of the blood contamination removed.

**MRS. RAYMOND IS DEAD.**

**Goes to Join Her Late Husband After a Separation of Two Months.**

Mrs. Catheride Raymond died at her home on Front street Monday afternoon at 4 o'clock in the presence of two of her sons and a daughter and other relatives, of diabetes. She survived her late husband two months and eight days. She leaves three daughters, Mrs. R. L. Moses, of Nova Scotia; Mrs. Kate Terry, of Westville, N. H.; Mrs. Geo. Mock, of Whatcom; and four sons, Leonard, of Douglas; Stephen R, of Valdez; Benj. R, of Seattle; Charles M., of this city. Mrs Mock, Ben. and Charles were at her bedside when she passed away.

Deceased was born in Nova Scotia in 1833, and 20 years later was married in Massachusetts to Capt. S. P. Raymond. Had the couple lived another year the half century mark of happy married life would have passed.

In 1887 deceased joined Capt. Raymond in this city, where the family has since resided, and where they have endeared themselves to a host of friends. She has been a loyal Christian worker and has endeavored to point the path of righteousness to her children.

The funeral services were held from the family residence Wednesday at 1 o'clock and the house was crowded with sorrowing friends. The Eastern Star took charge of the services after a short address by the Rev. Doyle of the Baptist church. Flowers were profuse and the Order presented a very pretty star piece with a different color for each representative point. The Rev. Mock, who came from Whatcom to take charge of the burial, also gave a few short personal reminiscences of Grandma Raymond as he knew her. Interment took place Wednesday afternoon at Ocean View Cemetery.

Dr. and Mrs. T. J. Appleton entertained at progressive whist Saturday evening last about twenty-five of their numerous friends of the city. Tables were placed for twelve couples and the contest began at 8:30 continuing until 11 o'clock. Chinese coins were used for counters each being supplied with 20. At the close Mrs. Willie Stewart held 36 and was awarded the ladies' prize. Mrs Jno. Trumbull was also given a prize, she having lost all of her original 20 and 11 besides. Delicious coffee, waters, ice cream, and cake were then served and thoroughly enjoyed, after which story telling and music occupied the time most pleasantly until the approach of Sunday. The guests were: Messrs. and Mesdames Clark, Johnson, McNutt, Farmer, Herbert Babcock, Ritchie, O Morse, W. Ware, Cosser; Mesdames Willie Stewart, Jno. Trumbull; Miss Wilcox; Messrs. M. von Schlosser, E. Day.

## THE FARMER FAILS

In health just as does the city-man, and he fails commonly from the same cause, "stomach trouble." The farm is a wholesome place to live; the farmer's life is a healthy life; but no external advantages can overcome the effects of a diseased stomach. When the stomach and its allied organs of digestion and nutrition are diseased, the food eaten is imperfectly digested and assimilated, and the consequent loss of nutrition results in physical debility.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food. It builds up the body with sound flesh and solid muscle.

"I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his 'Pleasant Pellets' a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed that the doctors could do me no good. I got down in weight to one hundred and twenty-five pounds, and was not able to work at all. Now I weigh nearly one hundred and sixty and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose, therefore accept no substitute for "Golden Medical Discovery."

## Dry Creek.

Special to THE DEMOCRAT-LEADER.

A jolly party of twenty-two surprised Axel Forsberg at his home at Dry Creek last Saturday, the occasion being the celebration of Mr. Forsberg's birthday. The party very quickly made itself at home and the hours passed swiftly in merry games dancing and music. As is usual on these occasions a lunch was served at midnight, after which the merriment took new force, and it's whispered about that day light saw the last of the party go home.

The residents of this place have petitioned the post master general to establish a post office in their neighborhood. As there is quite a settlement here now the people are certainly entitled to the granting of their request.

Miss Carrie Gleason, who has been teaching school here for the past five months, has been engaged to teach a four months term at the lower Elwha school.

**Surprise Party.**

A very pleasant surprise party was given last Thursday evening at the home of Mr. and Mrs. W. B. Gould in honor of Earl Michael, who left Friday for his home at Gettysburg. Earl has been attending school here for the past six months. He has many friends and all regretted to see him leave. A very delightful time was had by all. Refreshments were had before departure. Those present were: Mr. and Mrs. Gould, Mrs. H. M. Duane; Misses Alice and Jennie Finch, Magdalene and Ella Meagher, Bertha Culver, Franc Church, Elsie Albright, Theo McLaughlin, Cora Allen, May Gordon, Ruth and Alice Gould. Masters Earl Michael, Harvey Woodard, Harvey McDonnell, Roy Finch, Alex. Church, Ray Albright, Guy McLaughlin, Corwin Stanley, Robert and Willie Gould, Frank Lusk.

Mrs. S. F. Phelps places on sale today a large line of very nice tailor made suits. The are all very fine Persian suits and will be offered at great bargain prices. Don't miss this opportunity to get a good article cheap. New goods constantly arriving. Mrs. S. F. Phelps, Front street.

**GRAND SPECIAL CONCERT.**

On Tuesday evening, March 10 h, Prof. Magnus Schutz and Miss Clara White Cooley will will give a concert in the opera house under the auspices of the Ladies' Clubs, of the city, for the benefit of the High School. There is no question that this concert will be a rare treat to all overs of good music.

Prof Schutz is a splendid baritone singer of high culture and wide range. He is a great favorite in musical circles in Seattle and Tacoma, and is considered by competent critics to be one of the best male singers on this coast.

Miss Clara White Cooley is Prof. of music at Whitworth College. She is a graduate from some of our best American schools of music, such as the "Smith College of Music," the "American College of Music," etc.; she also studied for several years under Heinrich Barthe, in Berlin, Germany. She has met with unqualified success on the coast as a piano artist. Out of a multitude of press notices we have selected the following:

"Miss Clara White Cooley showed her mastery of the pianoforte in a brilliant solo and was heartily recalled."—Portland Oregonian.

"The audience was most enthusiastic and sympathetic in its appreciation of Miss Cooley's solos."—Tacoma Evening News.

"Miss Cooley's playing gave much showing much technical form and careful interpretation." — Tacoma Daily Ledger.

## Over-Work Weakens Your Kidneys.

**Unhealthy Kidneys Make Impure Blood.**

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

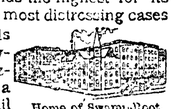
If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.



Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## CHOICE MISCELLANY

**Buffet Cars In Japan.**

The Sanuki railway of Shikoku has arranged to have its refreshment cars served by waitresses, says the Japan Times. Every train includes one such car, and each has a waitress as attendant. This arrangement was started a few months since, and the girls were selected from about thirty applicants as having the following qualifications: First, a passable personal appearance; second, education; third, good health; fourth, good conduct, and fifth, an absolutely respectable past. The waitresses rank as officials of the railway and are under the following regulations: First, hair to be dressed in the agemaki styles—resembling a Greek helmet; second, costume to consist of a kimono of an improved style and a brown skirt; third, the girls to rest morning or afternoon by turns and every sixth day; fourth, the girls on duty to behave with military discipline, to take no "tips," to refrain from chatter with the passengers, and when passengers are in the carriage to stand in the corner of the carriage. Among the girls who have entered the service are many from respectable families, and they have behaved well and decently. The company had apprehended that passengers might behave vulgarly toward them, but happily every respect has been paid to them, and the railway authorities consider the service a success.

**The Tongues of Johannesburg.**

Johannesburg is a town of many tongues. You might walk from one end of Commissioner street to the other and at each of its very numerous crossings hear a different lingo spoken. The court of justice is a veritable tower of Babel. Within its walls all sorts of languages are spoken.

One moment the witness box will be occupied by a sturdy black "clicking" like a couple of bones in the hands of a clever manipulator, the next you may hear the elegant French language being unmercifully murdered. Provision is made for interpreting some twenty tongues.

Besides the many native lingos—Amaxosa, Basuto, Zulu, Fingo, etc.—you may from time to time hear such languages as Livonian, Greek, Yiddish, German, Assyrian, Turkish, Spanish, French, Chinese, Hindoostanee, Arabic, Dutch, Russian, Japanese, Portuguese—and, as the song says, "many more besides."

**Appendicitis.**

An Egyptian mummy of 2,000 years ago recently examined showed evidences of having died of appendicitis, so that the disease is not by any means new. Four hundred cases were operated on in London hospitals last year, all but ten successfully. Sir Francis Treves has operated with success on 100 consecutive cases. It is said that the modern fine flour is one of its causes. The increasing occurrence of the trouble has opened a new field for insurance in England. One of the most prominent firms in Lloyd's has made a new departure in the form of policies insuring against appendicitis. For a premium of 5 shillings the insured, should he undergo an operation, will have all his direct expenses paid up to $1,000. In the event of his death under or as a result of the operation a total sum of $1,000 will be paid.

**Mexican Substitutes For Cotton.**

The attempt to utilize two native delicate fibers as a substitute for cotton in many of its uses seems to be progressing, says Modern Mexico.

The plants produce a cotton of two classes. The smaller one gives a coffee colored seed and grows and multiplies without special care all the year round. Its fiber is thicker than that of the common cotton.

The seed of the other plant is of a light blue color. This plant requires special cultivation and irrigation, without which it will give but one crop in the year. The fiber is finer than the other and as fine as the finest cotton.

Hilario Cuevas of San Luis Soyatlan, in the state of Jalisco, who first experimented with these two plants, is distributing seeds all over the hot lands, for which it is most suited.

**Birthplace of Trusts.**

Vienna is called the birthplace of the trusts. They first saw the light there in 1873, and cartels regulating production, restricting competition and governing prices now exist in steel rails, iron, petroleum, sugar, alcohol, plate glass, glassware, paper, boots and shoes and textile fabrics. A comprehensive iron and steel trust covering the entire empire and consciously modeled on the American steel trust has lately been formed. Even in the production of honey a cartel obtains, and on occasion the busy mountain bee is practically put upon short hours.

**Now a "Weed Burner."**

The oldest engine in active service on the Northern Pacific reached the west coast ahead of the roadbed, being shipped around Cape Horn, and did service in construction work. It does duty now in the humble capacity of "weed burner." In the fertile sections along the division this locomotive pushes a flat car arrangement equipped with an oil contrivance used to burn the weeds that grow rank along the right of way, thus threatening when left to catch fire from passing trains the destruction of meadows or crops.

**Rapid Coaling.**

Good as is the coaling record of H. M. S. Terrible, it is quite eclipsed by the performance of the Empress of China. She took on board 1,210 tons of bunker coal in the remarkably quick time of three and one-half hours, the quickest on record in Nagasaki and, we believe, the quickest on record for the world.

**Mrs. Fred Unrath,**
President Country Club, Benton Harbor, Mich.

"After my first baby was born I did not seem to regain my strength although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

Wine of Cardui reinforces the organs of generation for the ordeal of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery should commend this great remedy to every expectant mother. Wine of Cardui regulates the menstrual flow.
