PARK BILL PASSED

[Special W. U. Telegram]

Washington, D. C., February 19.

Mayor Lewis: Port Angeles: Glad to advise you of passage of Park Bill through House to-day.

W. L. JONES.

QUARRY WILL SOON BE OPENED

And Building Stone Shipped To Various Points On the Coast

Messrs. Wm. Barnett and A. J. Burroughs, of Seattle, representing a company which is to take hold of and operate the Geraghty-Dodge stone quarry, were in the city Friday and in company with Messrs. Geraghty and Dodge visited the location. They found the stone to be a very good and serviceable sandstone, of a pretty gray color, hard, and easy to secure, The railroad runs right to the quarry, in fact, in building the road for the switchback up the hill the face of the immense bluff was exposed as to give the inspectors a clear view of its magnitude and character.

Before leaving on Saturday the gentlemen expressed themselves as very well pleased with the stone, the location and the shipping facilities and while no definite answer or arrangement was made with the owners, the latter are daily expecting papers to be forwarded for the final signatures which will transfer the property.

The company has a ready market for stone of this character and the success of the venture means much for Port Angeles.

COAL DRILLERS TO BEGIN WORK

Start Monday to Continue The Drilling at Prospect

Manager D. J. O'Brien with a crew of assistants will recommence drilling at the coal prospect West of the city next Monday morning.

COMMITTEE APPOINTED.

The Commercial club held a special meeting Tuesday afternoon for the purpose of considering the coal company's request that citizens assist by raising $6,000 by sale of stock at 10c.

At the previous meeting Mayor Lewis was given power to name a soliciting committee, and it was his intention to name a committee of stockholders who might subscribe, but the subscriptions came in so slow that the Doctor finally decided to have the Club name the committee from among its members.

The Club named as a soliciting committee: Dr. Lewis and Messrs. E. E. Day and J. Lloyd Aldwell, with W. F. Delabarre as treasurer.

The gentlemen are meeting with considerable success.

WAR NEW IS CONFLICTING

Port Arthur Was Not Taken, and, It Seems, Will Not Be Except at Great Cost—There Also Seems to be a Number of Ships Left in Russia's Asiatic Fleet and it is Reported the Japs Have Lost Four Ships.

Since last report of the Russ-Japanese war it is found that the story that the Japs hand taken Port Arthur is erroneous, as was feared. All other victories, however, seem to be confirmed.

Saturday came the news that a Russian transport was sunk at Port Arthur by striking a mine. Captain and 94 officers and men lost.

Russians win small land victory on Yalu.

The Manchurian railroad is being badly damaged by Chinese sympathizers, it is thought.

It is given out that armies of of 90,000 Russians and 80,000 Japs are rushing to meet each other in vicinity of Yalu river.

Powers will accept plan of U. S. for preservation of integrity of China, if Manchuria is not included England will insist upon whole of China.

It is officially stated that three of the four warships of the Vladivostok fleet were blown up by mines while attempting to pass through the straits of Isagaru to attack Hagodate,

Monday one-fourth of a mile of the Japanese railway on the main island was blown up by dynamite.

Japs change crews on Russian cruisers captured and send them after prizes.

600 Russian troops loose their way crossing lake Baikal and die.

The Russians are incensed over America's pro-Japanese manifestations and troops threaten U. S. gunboat Helena.

Thursday Russia seizes Newchang for a base of operations.

Japanese torpedo fleet hits a guardship and a warship.

Russia abandons St. Louis exhibit and Japan immediately applies for the vacated space.

Japanese official at Rome admits Japan has lost four warships, and declares Russia has lost sixteen warships, besides twenty merchantmen.

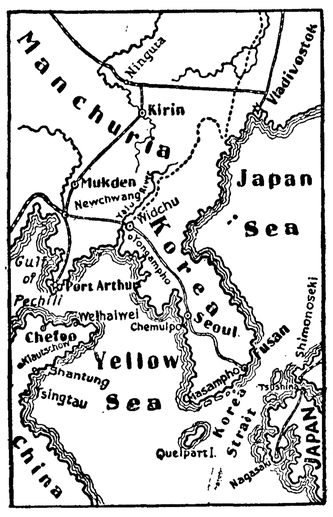
The Vladivostok fleet is reported back in port without damage.

Battery at Port Arthur is reported blown up.

Admiral Alexieff and general staff go to Harbin.

Russians perpetrate atrocities on foreigners and Cinese at Newchang.

Russians clamor for Alexieff's recall and appointment of Gen. Kuropatkin.



MAP OF KOREA AND VICINITY.

[The dotted line between Korea and Manchuria marks the boundary. As it continues north it divides Russia from Manchuria. All railroads on the map are completed except the line from Fusan, Korea, to Newchwang. There is also a short line completed between Chemulpo and Seoul.]

Quillayute News.

While the new road law is clearly experimental, it has been passed and is in effect, and the only thing to do is to give it a fair trial and make the best of it. It will take some time for it to bring out practical results and to demonstrate whether it is an improvement over the old law or not. In the mean time there are a good many things which the taxpayers will keep an eye on among which are, is it going to make a political machine used for the benefit of private individuals at the public expense? Another question is of interest and that is how many high priced men are going to draw salaries out of the road fund while but little work is being done? Will the county surveyor and our four road supervisors put in solid time at $4. per diem keeping the roads open, while there is no general road building going on, and while common labor can be had at $2. per diem.

The Floating Needle.

A small needle will float in water. This seems contrary to the law of gravitation, but the explanation is simple. The superficial molecules of water arrange themselves horizontally under the action of gravity and cohere sufficiently to make a superficial "skin."

Foot and Mouth Disease.

Foot and mouth disease is said to cause more loss in Europe than all other animal plagues combined.

Hard Sauce For Puddings.

Cream half a cupful of butter. Beat in gradually one cupful of sugar and then the unbeaten white of an egg. Beat vigorously throughout. The sauce should be very light and fluffy when finished.

Bookbinding.

The first book to have a cloth binding was a volume of Pickering's "Diamond Classics." The second volume of the seventeen volume edition of Lord Byron's works, issued in 1832, marks the introduction of gold stamping upon book cloth.

Right Handedness.

Investigation shows that right handedness is due to a transmitted functional pre-eminence of the left brain.

Steamer Nurseries.

Some of the steamers of the great transatlantic lines have large and pleasant nurseries and playrooms especially for children. The playrooms contain toys and equipments for games. There is also a children's library.

Turkestan Courtship.

A wedding engagement in Turkestan begins with the payment of a substantial consideration to the girl's parents. If the girl jilts her lover, the engagement gift has to be returned unless the parents have another daughter to give as a substitute.

The Dahlia Tuber.

The dahlia tuber when roasted and eaten is wholesome and makes an excellent substitute for the potato.

Clocks.

The water clock was known in Rome B. C. 158. Dial clocks were first put up in A. D. 913. Striking clocks were Saracenic, about 801. Pendulum clocks were invented in 1641 and repeating clocks in 1676.

Fireproof Cities.

Most Mexican cities have no fire department, as they are built almost entirely of stone, with stone floors and tile roofs, leaving little to burn.

An Accurate Artist.

A Dutch painter in the picture of the magi worshiping the infant Saviour represented one of them booted and spurred in a large white surplice and bearing in his hand as an offering to the babe a model of a Dutch frigate.

Coin Classification.

Coins are classed, according to their state of preservation, as "proof," "uncirculated," "fine," "good," "fair" and "poor."

The Necessity For Air.

A human being can live ten days without food, but only five minutes without air. Therefore breathe deep and long the purest air you can get. If we could sleep outdoors in all warm and moderate weather it would be of great benefit to us.

Crested Canaries.

Perfect crested canaries are very difficult to breed, and they are subject to blindness, the crest being cultivated to such an extent that it grows over the eyes and hides even the beak.

Polite Spaniards.

No one enters or leaves a street car in Spain without bowing politely to the occupants, and the person who goes into a shop and asks for what he wants without first saluting the shopkeeper is considered very ill mannered.

Sardine Fisheries.

The sardine fisheries employ many thousands of men. One Sicilian fleet fishing along the shores of Algiers and Tunis consists of 2,500 boats and employs 12,000 men.

Herrings and Onions.

Herrings and onions are delicious for those who do not object to this flavoring. Cut the onions in rings and fry. Then fry the herrings, which, after cleaning and drying, should be brushed over with egg and dipped in bread crumbs.

Juvenile Criminals.

"No child is a born criminal," says a French writer. "After many years of study I am convinced that criminals are produced by bad surroundings and lack of training and not by heredity."

THE WRITERS.

Thomas Wentworth Higginson has just celebrated his eightieth birthday.

Clyde Fitch, the playwright, collects in scrapbooks specimens of the errors foreigners make in dealing with strange tongues.

Maurice Rollinat, a French poet who died recently in an asylum, was at one time the rage in Paris, and his weird and gloomy lyrics were set to music and sung in fashionable circles.

Mr. Noel Williams, who has already written interesting volumes on Mme. Recamier and Mme. de Pompadour, has recently completed the first biography of Mme. de Montespan ever printed in English.

Sir Gilbert Parker, the author, has achieved a prominent place in the house of commons in a short time. A good deal of this is due to the unusual magnetism of his personality, which always attracts people.

Prisoners' Privilege.

Prisoners in France are permitted to pay one visit to dying parents.

Mental Activity.

An English alienist says it is doubtful if mental labor alone is ever an actual cause of insanity, for habitual application of the mind when not excessive strengthens it and renders it less liable to disease.

White Pepper.

White pepper is apt to be purer than the black, which is largely an admixture of paper shells, pepper dust and other adulterations.

Another Case of Rheumatism Cured by Chamberlain's Pain Balm.

The efficacy of Chamberlain's Pain Balm in the relief of rheumatism is being demonstrated daily. Parker Triglett, of Grigsby, Va., says that Chamberlain's Pain Balm gave him permanent relief from rheumatism in the back when everything else failed, and he would not be without it. For sale by W. J. Mathewson.

Thousands Have Kidney Trouble and Don't Know it.

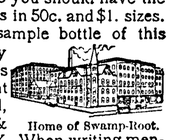
How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.



Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Wakeful?

Sleeplessness Is a Sign of Nerve Trouble and Should Be Looked To.

There are three different manifestations of sleeplessness.

First, hardly to sleep a wink all night, second, to lie awake a long time before falling asleep; third, to fall asleep soon, waking up after several hours and then find it hard to sleep again.

They mean that somewhere in the nerve fibres, somewhere in the brain cells, somewhere in the blood vessels that carry blood to the brain, something is radically wrong, and must be righted, or the end may be worse than death.

To right it, take Dr. Miles' Nervine.

Some other symptoms of nerve trouble are: Dizziness, Headache, Backache, Worry, Fretfulness, Irritability, Melancholy, Lack of Ambition.

They indicate diseases which may lead to Epilepsy, Fits, St. Vitus' Dance, Nervous Prostration, Paralysis, Insanity.

Nothing will give such quick and lasting relief as Dr. Miles' Nervine.

"My husband had been sick for weeks, could not sit up to have his bed made. With all the medical help we could get he continued to grow worse. He could neither sleep or eat. Our baby girl was sent away, and all callers barred, because he could not stand a bit of talking. I read of a case of nervous prostration cured by Dr. Miles' Restorative Nervine. We began giving it to him, and in a few days he was able to be dressed. From that time he steadily improved. Nervine saved his life."—MRS. A. G. HASKIN, Freeville, N. Y.

A WONDERFUL WORK.

To be a man who can excel one hundred thousand men in any one line is good; to be one in a million is better; but to be the only living man, (and the second one in the history of the world), who has drawn a perfect single line picture, is wonderful! This Mr. Fleming, author and illustrator of "Around the Pan," and "Around the Capital," ($2.00 books) has done in his drawing of McKinley. Price on best Japanese paper, $1 00.

His "Around the Capital," containing one hundred and fifty full-page Washington life pen and ink sketches and five hundred picture of prominent Americans, including statesmen, ambassadors and commanders participating in the Spanish-American War—comprising by far the greatest collection of facts and faces ever produced in one volume in condensed form, will interest the entire civilized world. The drawings equal, if they do not surpass, those of John Tenniel's, for which work he was knighted by Queen Victoria. The humorists.

Schwab and the Hammer.

When Charles M. Schwab was manager of the Carnegie Steel works he was one day showing a party of eminent foreigners through the mills and furnaces. A German nobleman of great wealth displayed unusual interest in the 125 ton steam hammer. He had never seen anything larger than the eighty ton one at Krupp's works in Essen. Schwab spoke in high praise of the workman who operated the monster, and the usual invitation was extended, "Place your hand on the anvil, and Greene will stop the hammer

"NOW YOU CAN TAKE THE COUNT'S PRESENT FROM MY OWN HAND."

within a hair's breadth of it." "Not my hand, but, with pleasure, my watch," said the German, placing a splendid jeweled timepiece on the anvil. Down came the immense mass of steel, and Greene, his hand on the lever, stopped it a hundredth part of an inch from the crystal.

When he went to hand the watch back the nobleman said, "No, Mr. Greene, I want you to keep it as a memorial of an interesting occasion." Greene was too much embarrassed to say a word, but stood there with his hand outstretched till Schwab stepped forward and took the watch, saying, "Never mind, Greene; I'll keep it for you if you're afraid to take it from the count." A few minutes later the party again passed the spot, and Schwab, summoning Greene, said, "Now you can take the count's present from my own hand," and presented to the mechanic the watch wrapped in a $100 note.

CANADA'S LATEST.

Canada wants to buy Greenland. We are willing if the ice trust has no objection.—Washington Post.

Canada wants to annex Greenland. Having lost a strip of Alaska that didn't belong to her, she now wants an entire country that doesn't belong to her as a sort of consolation prize.—Memphis Commercial Appeal.

That the Dominion of Canada should want to include among its provinces Newfoundland, with its long strip of Labrador coast, would seem to be perfectly natural, but the proposition to annex Greenland is decidedly a cool one even if Denmark is willing.—Boston Transcript.

Dragging Pains

2825 Keeley St.,
CHICAGO, ILL., Oct., 2, 1902.

I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, that blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Mandy Bush

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

CHURCH AND CLERGY.

Pope Pius X. speaks French fluently and can read German as well as Italian.

Rev. Clyde W. Broomell of the Swedenborgian church, West Utica street and Atlantic avenue, Buffalo, for years was a cowboy in the Bear river country of Colorado.

The Rev. Dr. Henry H. Jessup of Beirut, Syria, for forty-eight years a missionary in that land, has returned to New York. Dr. Jessup expects to sail for Syria with his wife and daughter on March 8.

The Methodist year book for 1903 estimates the church membership, including probationers, on Dec. 31, 1903, as 3,029,560, an increase of 29,265 over 1902 and 29,886 over 1900. There are now 28,213 church edifices, valued at $131,203,120.

Mansion House Plate.

The plate used at the Mansion House dinners of the lord mayor of London weighs nearly 4,000 pounds, and the lowest estimate of its value is $250,000. Much of it is gilt, and some of the modern plate is fashioned by remelting from old articles made from silver mined in England 400 years ago.

People in Paris who are interested in giving working girls a bit of pleasure now and then have devised a scheme where worthy girls receive two tickets to a good theater once in awhile. The scheme calls for an elaborate system of registration, but it is working to perfection. The kaiser is thinking of introducing the idea into the royal theaters in Germany.

The eye of a young child is as transparent as water; that of the youth a little less so. In the man of thirty the eye begins to be slightly opaque; in the man of fifty or sixty it is decidedly opaque, and in the man of seventy or eighty it is dull and lusterless. This gradual development of opacity is due to the increase of fibrous tissue and deposit of waste matter in the eye.

The harvest of wheat alone engages about 1,000,000 men and 50,000 teams three months of summer, while at least 10,000 women are needed to prepare food for the workers. The harvest of other crops employs less men, but the entire number of harvesters needed in gathering the crops of the United States has been estimated at 1,520,700—that is, exclusive of the farmers who reside on their own land and aid in the harvest.

When Emma Booth married Frederick St. George Latour in Calcutta she adopted the clothes and the manner of life of the native women, and, barefooted, "dipping her unaccustomed fingers in the curry dish," she begged her way through the streets. Latour, then a worker in the Salvation Army, had adopted the same plan. And when they were married it was in the way of religious teachers, he appearing as a barefooted, turbaned, calico robed mendicant, with his begging bowl.

Cremation is growing in public favor in Scotland. From the latest report of the Scottish Burial Reform and Cremation society we learn that for the year ended Sept. 30 last twenty-five cremations were carried out in Scotland, being an increase of ten over the number of the preceding year. For a reduced charge of 6 guineas a certificate is now issued in Scotland carrying the rights first to one cremation either in Glasgow or any of the crematories in Great Britain and, second, to a niche for deposit of the ashes in the columbarium at Maryhill, Glasgow.

THE CLALLAM INQUIRY.

The marine inspectors have given their verdict in the inquiry into the loss of the Clallam and the public is no wiser than it was before, except that its suspicions of a whitewash for Roberts and the victimizing of DeLaunay have been confirmed. The inspectors put the blame of the disaster primarily on DeLaunay and take away his license; they hold Captain Roberts for not seeing to it that the boat was towed to the nearest land and "suspend" his license for one year.

The decision is all that could be expected when it is considered that the inspectors were on trial as much as any one and to find different would be to convict themselves.

Despite the findings, the public will not be satisfied until some other authority has passed upon the case. Even though DeLaunay did pump water into the ship, (experts say such a thing is impossible) Capt. Roberts is responsible for the loss of life, and the whole story seems very clear that uppermost in his mind was the saving of his vessel with no thought of life. There were 50 things that could have been done to save the lives of the passengers, but it seems that the course taken was the only one whereby such a disaster could result.

It is to be hoped that this decision will not end the matter.

Later news is given out that Capt. Roberts will go South on a trip and will not testify before the coroner's jury. Engineer DeLaunay will appeal from the findings to Chief Bermingham of San Francisco.

THE Democratic state convention will meet at Olympia, June 2. This decision was reached at a meeting of the state committee. Olympia winning out over Bellingham, 15 to 11. The basis of representation is 1 at large and 1 for every 100 votes cast for Revis for judge in 1802, making an assemblage of 434 delegates.

THE Republicans have decided for one convention to be held in May at Tacoma. It is figured that Gov. McBride can be more easily defeated at this time than in August.

SENATOR HANNA passed away Monday night at 6:50 o'clock.

Croup

Begins with the symptoms of a common cold; there is chillidess, sneezing, sore throat, hat skin xuick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment to the throat.

Mrs. A. Vliet, New Castle, Colo., writes March 19th, 1901: "I think Ballard's Horehound Syrup a wonderful remedy and so pleasant." 25c, 50c and $1.00. Sold by C. E. Nailor & Co.

Things Political.

By Hon. Horatio Alling.

THE Senatorial question is pretty sure to contribute its usual share of complexity to the coming campaign. That it is not an ideal situation, everybody will admit, but the fact remains that rival contestants for senatorial honors will and, under present conditions, must go to the very primaries themselves to lay the foundations of their campaigns. There is no way in which they can get their claims and candidacies before the people. That it adds confusion and bitterness to a complication already sufficiently confiused and embittered is only an incident. There is no way of avoiding it but to elect our senators by a popular vote. The overwhelming majority of the people of this country are in favor of such constitutional amendments as will permit them to vote directly for United States senator, but the Lords of the Senate who assume to be Lords of the Land contemptuously say them nay. It speaks well—too well in fact—for the patience and long sufferance of our people that they have for so long brooked the haughty arrogance of their paid servants.

Two Panthers

During the past week Mr. Willis Chambers, who recently purchased the Shomar farm and removed here from Minnesota, caught two good sized panthers in traps just back of his new home. The last one which measures 6¾ feet from tip to tip and weighs 85 lbs. was captured Monday night and was brought to the city Tuesday where curious crowds viewed it.

Mr. Chambers is showing the old timers some new tricks in panther hunting.

When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the remedy in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by W. THE WEEK IN SOCIETY

A Valentine party was given by the W.P.C. at the pleasant home of its president, Mrs. J. C. Hansen, Saturday afternoon. The rooms were decorated in red with a profusion of hearts. Misses Flora McGill and Cecil Griswold were dressed as cupids and acted as the messengers of Saint Valentine; the company was first entertained by a spearing contest and much amusement arose from absurd failures to pierce the inner heart of target. Mrs. Hugh Phelps won the prize. Next contest was in finding nine hidden cities concealed by hearts pinned to curtains; Mrs. Herbert Babcock won the prize in this contest. Then followed a recitation by the cupids and two recitations by Miss McGill. Refreshments were then served at individual tables, the cupids distributing to each guest a napkin in holder of two red hearts pierced by white arrow with a card attached upon which was written a conundrum for each to solve—a pretty little affair; the menu was elaborate and daintily served by the cupids. Although in the afternoon, the cutains were drawn and the luncheon served by lamplight.

Monday night the Manhatten whist club met with Dr. and Mrs. N. K. Mead and was pleasantly entertained. A feature of the evening was the souvenir score cards, upon which Mrs. Mead had inscribed appropriate verse hits for each individual player. A delicious luncheon was served in the Mead dining parlors.

Last Friday was the 25th. wedding anniversary of Mr. and Mrs. C. C. Bradshaw, of Eden Valley and a large number of their neighbors took advantage of the occasion to give them a surprise party in honor of the event. A most enjoyable time was spent by those present and an excellent luncheon was served.

E. E. Day, mine host at the Merchants, entertained at dinner Sunday, Mrs. O. G. Barron, Miss Daisy Lane, of Boston; Mr. and Mrs. T. S. Brophy, Mr. and Mrs. J. A. Cameron. The former left on Tuesday for their eastern home, Mrs. Brophy accompanying them as far as Seattle.

The Diamond whist club met Wednesday night with Mr. and Mrs. W. K. Clark where a most pleasant session was held. After delicious refreshments served in the spacious diningroom story telling filled in a pleasant half hour.

Wednesday night Mr. and Mrs. W. E. H. Lyster entertained a select number of friends at dancing at their social hall on Front street. An enjoyable time is reported.

✦ ✦ ✦

The Valentine party given Saturday night at the opera house by Mesdames T. T. and J. Lloyd Aldwell was a very pretty affair and was largely attended. A most enjoyable time was had and the ladies netted the neat sum of $66 which will go to the building fuad of St. Andrew's Episcopal church. Much fun was provoked by the Cupid's P.O., nearly all present receiving valentines by this means. Mrs. J. A. Cameron made a charming post mistress and aided materially during the evening. The Peerless orchestra contributed the music and played splendidly. The Mesdames Aldwell were assisted by Mrs. John Troy and Mrs. Ovington in the refreshment room. Mrs. Will Church and Mrs. Delabarre attended the Valentine table and did a good business. Miss Margaret Delabarre made a beautiful little cupid, while Miss Ruth Church and Master Jack Cross as the king and queen of hearts were very interesting.

✦ ✦ ✦

The "Good Times" whist club met Thursday afternoon at the home of Mrs. E. R. Gehrke, where a pleasant time was had. This women's club has the distinction of being the first of its kind in the city, having been organized seven years ago, and yet few outside of its members knew of its existence. This is a startling example which goes to prove that some women can keep a secret. On this occasion there were present: Mesdames McKee, Gutenberg, H. Gutenberg, Blin, Hickok, Hitch, Shaeffer, Peterson, Gehrke, E. E. Fisher, Swanson, McIvor, Wm. Smith, Lollick, Stokes, McMullen. The last three named were visitors.

Dr. and Mrs. D. E. McGillivray entertained a large circle of young friends Monday night at their beautiful home on Second street. to meet Miss Daisy Lane, of Boston, sister of Mrs. McGillivray. A most interesting and pleasant time was spent.

Once in a while some one who has traveled to the very edge of the danger line of stomach disease stops just in time to save his health. But the majority of people go across the line, and slight symptoms of indigestion grow to disease of the stomach, involving the other organs of digestion and nutrition.

Indigestion and other forms of stomach "trouble" are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It strengthens the whole body by enabling the perfect digestion and assimilation of food.

When I wrote you for advice I was hardly able to work, and you advised me what to do. I took nine bottles, five of 'Golden Medical Discovery,' four of 'Favorite Prescription,' also two vials of the 'Pellets.' Dr. Pierce's medicines will do all that you claim for them. New Type And Machinery.

THE DEMOCRAT LEADER is now better than ever prepared to do fine job printing; in fact it is the only office in the city that has a large press for large work and small presses for small jobs.

We recently purchased the handsome Courier press—the best in the city—and have received direct from the manufacturers in the East some handsome new type of mammoth size together with borders, rules, etc., and a handsome new furniture rack. We now have everything to do first class work, and if we cannot now do satisfactory job work of any description it cannot be done in town, or this side of Seattle. Our prices are right, too, as you will find them.

Don't Count

The following resolution was presented by Commissioner Christopher:

Whereas, This board has unanimously passed the bill of James Henrie, purporting to be Road Supervisor of Road District No. 4, for the month of January, 1904,

And, Whereas, Said bill was passed by this board regardless of recommendations made by the Commissioner whose Commissioner district comprises all the territory embraced in said Road District No. 4.

And, Whereas, We believe that each commissioner's recommendations of the respective road districts of his district should be considered regardless of any political, personal or factional differences.

And, Whereas, Commissioner Districts Nos. 1 and 2 do not pay any part of the expenses of the aforesaid road district No. 4, and hence by right and justice should not assume entire jurisdiction of the funds of said Road District No. 4.

Therefore Be It Resolved, That the order allowing the bill of the said James Henrie, the purported road supervisor for road district No. 4, for the month of January, 1904, be reconsidered.

Respectfully submitted,
D. A. Christopher.

Commissioners Thompson and Morse voting against the reconsideration of said report and Commissioner Christopher voting for the reconsideration of same.

The following resolution was presented by Commissioner Christopher:

RESOLUTION:

At a regular meeting of the board of county commissioners of Clallam county, State of Washington, held on Tuesday, the 9th day of February, 1904, at the board room in the city of Port Angeles, in said county and state, there being present Commissioners Thompson Morse and D. A. Christopher, the following resolution was offered by the said D. A. Christopher:

Whereas, It appears from the records of the clerk of the Superior court of said Clallam county, State of Washington, that on, to-wit, the 31st day of December, 1897, the said county of Clallam, did on said date recover a judgment against D. W. Morse in the sum of $3,637.23, and against C. E. Mallette in the said sum of $3,637.23, and against Frank Chambers, sr., in the sum of $3,637.23, and against Donald McInnes in the sum of $3,637.23, and against the said C. W. Thompson in the sum of $1,600.

And it further appearing by said records that said judgment had not been collected, and that the same was on the 24th day of December, 1903, still due and unpaid, and it further appearing that the county attorney, Geo. H. Clementson, had taken no steps to revive said judgment in favor of said county and against said Morse, Mallette, Chambers, McInness and Thompson, and it appearing that unless said revival proceedings were instituted before the 31st day of December, 1903, said judgments would become barred by reason of the statue of limitations. And it further appearing that the said Geo. H. Clementson, after having been duly notified by the said D. A. Christopher, as one of said board of county commissisners, that said judgments were about to lapse by reason of the statute of limitations as aforesaid, unless he, the said Clementson did institute the necessary proceedings to revive said judgments, which said notice was served on said Clementson by the sheriff of Clallam county on the evening of December 24, 1903, the return of which said notice was duly made by said sheriff, and was by him filed with the clerk of this board and is now a part of the files of this board.

Some Cogent Reasons

And whereas the said Clementson refused and neglected to take the necessary steps to revive said judgments, and did on the morning following the service of said notice upon him leave and depart from the said county of Clallam, and did remain absent from said county until after the first day of January, 1904,

And whereas, it further appears from the record of this board, that one E. F. Gierin who was up to the 4th. day of January, 1904, a member of the board of county commissioners of said Clallam county, was absent from said county, and had been so absent from said county for a long time prior to the 31st. day of December, 1903, on which date the said judgments lapsed by reason of said Statute of limitations as aforesaid, and it further appearing that said Gierin was on said date and had been for a long time prior thereto residing in Los Angeles in the state of California, and could not be present in order to take action to have said judgments revived, that said Gierin resigned from said board on the said 4th day of January, 1904, whilst he still resided in said state of California,

And whereas, it further appears by the record of this board, and from the record in the office of the clerk of the said Superior Court for Clallam county, that C. W. Thompson, who is chairman of the board of said county commissieners, is at the same time one of the judgment debtors, and therefore disqualified to act in the matter under the law,

Therefore, Be it Resolved by the board of county commissioners of said Clallam county, that it appearing to said board, that at the time said judgments were about to become barred by reason of said Statute of limitations, that neither the said Gierin, nor the said Thompson were in a position to act in the matter, and it further appearing to said board that the only member of said board qualified and able to act was the said commissioner, D. A. Christopher, and it further appearing that the said Christopher as such member of said board, in order to protect the interests of said county of Clallam, and in order that said judgments might be revived, and the same continue a lien in favor of said county of Clallam, and against the said D. W. Morse, and against the said C. E. Mallette, and against the said Frank Chambers, Sr.; and against the said Donald McInnes, and against the said C. W. Thompson, did employ one William Ritchie, an attorney at law, to bring such revival proceedings in favor of said county of Clallam, and against the said defendants.

It is, therefore, in accordance with the foregoing resolution, ordered that the clerk of this board enter on the minutes of this board, that on this 9th day of February, 1904, said board of county commissioners being then met in regular session, did on that date ratify the said acts of the said D. A. Christopher wherein he the said Christopher did so employ the said William Ritchie for the purpose of attempting to protect the interests of said Clallam county in the judgment revival proceedings heretofore referred to, and that the action of this board, together with said resolution be spread on the record of the proceedings of this board. D. A. Christopher

Commissioner Christopher moved that the above resolution be adopted. Commissioners Thompson and Morse voting against the adoption of said resolution and Commissioner Christopher voting for the same.

The board adjourned to meet at 1:30pm

The board met pursuant to adjournment. Present commissioners Thompson, Christopher and Morse and deputy auditor Hawkins.

It appearing that there was $75.00 improvements assessed against lot 6, block 42, N R Smith's subdivision, belonging to Florence P. Embree, for the year 1903, and that said improvements should have been assessed against lot 5. block 42, N. R. Smith's subdivision, belonging to Milvine Cross; the board ordered the treasurer to correct the tax rolls, and transfer the said $75.00 improvements assessed against lot 6 to lot 5 block 42 N. R. Smith's subdivision.

It appearing that an error had been made in assessing lots 9 and 10 block 243 townsite of Port Angeles for the year 1903 at $145.00 instead of $110.00. The board ordered the treasurer to correct the tax rolls and assess said above described lots at $110.00 instead of $145.00.

Itch--Ringworm.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable; I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me completely and permanently. Since then I have used the liniment on two separate occasions for ring worm and it cured completely. 25c. 50c. and $1.00. Sold by C. E. Nailor & Co.

SOMETHING DOING

It is Rumored that the P. A. P. R. R. Has Been Re-organized

General Manager Norman R. Smith accompanied by John H Miller, of New York, arrived Thursday from Seattle and after consultation with Receiver Farmer and others interested in the road, left Friday morning for Seattle. It is said they will return here next week when more definite news will be given out.

It is understood that while the gentlemen was here a meeting of those interested was held and the railroad company reorganized in a manner that guarantees Mr. Miller and associates taking hold and pushing through the original proposition of building to a transcontinental connection.

The T.-T. takes the credit for the posting of the daily war bulletins. The fact is the DEMOCRAT-LEADER and citizens helped subscribe the fund for expenses, and the bulletins come to a paper only to receive the benefit of press rates.

Railroads

The latest is another railroad from Seattle to the North End of Vancouver island, The promoters claim they were working on the deal with Mr. Swaney when he was suddenly taken off, and one was only saved from a like fate through sickness, being compelled to remain at home.

This particular friend, who is no other than Jno. Cain, is now in New York, and expects to return shortly and submit the scheme in detail. He claims to have a bonus from the Canadian government of 5,000 acres and $10,000 per mile for all road built on the island, provided the Seattle-Angeles-Victoria connection is made.
