Ready to Begin Work

The Quarry People Only Await Guarantee of Shipping Facilities

Mr. Wm. Barnett of the company of Seattle people who have been negotiating for the purchase of the Geraghty-Dodge stone quarry South of the city, arrived Wednesday for the purpose, he says, of getting some samples of the stone of the dimensions asked for by the government for its new building, the samples on hand being too small. These new samples he secured yesterday and he may go up to Seattle tonight and may remain over to close the deal with the owners of the property.

To THE DEMOCRAT-LEADER Mr. Barnett said in plain language that his people are ready to complete the negotiations just as soon as Mr. John Arthur, attorney for Dodge and Geraghty returns. He is expected down here next week. He further stated that things have been going along very smoothly since his last visit and parties in charge have been making every effort to secure for his company the necessary shipping facilities. When his people can be assured that they will have no difficulty in getting what they want in this line, they are ready to pledge themselves to have men at work on the quarry within 60 and if necessary within 30 days, and says he, "the moment we put men to work to open up that great industry, that moment we begin substantially to help every individual in Port Angeles. The people of the city cannot help us in any way after we are started, as our market is assured elsewhere. They can, however, help us very materially now, and when we are assured that we can get what we need when we comply with stated conditions, we are ready to begin work at once.

"We have, as I stated before, made very satisfactory arrangements with the steamboat people to carry our stone in not less than 100 ton lots, and since have made arrangements with the railroad people, through Mr. John H. Miller, to get our stone down from the quarry.

"The stone is absolutely far the best of any in the state, or on the coast, and all the builders who have seen it are very anxious for us to get to work, and many are ready from the samples shown to contract for the stone for their buildings.

"It might as well be stated in plain language from the start, however, that we do not propose to be held up in any manner. We want assurance of facilities for the future before we begin work, and if necessary, we can simply purchase the stone lands and wait. We are anxious though to begin work at once."

Plate Glass

The new quarters of the Citizens National bank, corner of Front and Laurel streets, are fast approaching completion and will be one of the most beautiful in the city. The old sash windows have been replaced by full size plate, and the walls are receiving a high polish calcimine this week.

Plate glass windows are also being put in the store of Hanson & Cushing, grocers, adjoining.

Blight Apparent

Appointment of Road Supervisors Proves a Nice Club for Commissioners

The damning blight on the body politic and the dangerous club in hands of the machine given by the new road law in allowing the commissioners to appoint the road supervisors was made plain this week when the commissioners laid off James Henrie of district No. 4 and named James Smith in his stead.

The Morse - Thompson faction which named Henrie in Mr. Christopher's district over the protest of the latter, began to feel that Mr. Henrie could not send the delegates of his section to the convention pledged for their faction, and he was notified to show cause why he should not be removed. He came up with his books and turned them over, and Mr. Smith was named in the hope of securing favor from Com. Christopher.

Port Angeles Pacific R. R.

A Story is Sent Down From Seattle that Details Are Perfected

From no less an authority than Mr Norman R. Smith comes the report from Seattle that Mr. John H. Miller, the new president of the Port Angeles Pacific railroad, has floated a sufficient loan to guarantee the success of his project and that very shortly a definite statement of the plans will be given out.

According to the recent deal Mr Miller secured entire control of the road and has since been endeavoring to put it in shape financially. It is recited that since the annihilation of the merger idea, and the probability of the ascendency of Harriman in Northern Pacific affairs, the blight of Hill on this section for the immediate future is somewhat removed and if the railroad war continues we will be in the swim.

The Elmira Logging Co., which owns the timber along the railroad, will have representatives in the city, it is said, on the 10th. inst., looking to the recommencement of logging and the repair of the road. It is also rumored that the receiver will close up his affairs in a few weeks, though this cannot be verified at this time.

JUST IN TIME.

A motorman in Chicago ran his car onto the approach of an open bridge but stopped it with the fender actually overhanging the gulf below. He wouldn't want to repeat the experiment because the chances are that he'd never again have the same good fortune.

Once in a while some one who has traveled to the very edge of the danger line of stomach disease stops just in time to save his health. But the majority of people go across the line, and slight symptoms of indigestion grow to disease of the stomach, involving the other organs of digestion and nutrition.

Indigestion and other forms of stomach "trouble" are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It strengthens the whole body by enabling the perfect digestion and assimilation of food.

$3,000 FORFEIT will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"I have been suffering for about eight years," writes Mrs. H. Pierce, of Millsprings, Ky. "Have had several doctors to treat me—some for female weakness and others for stomach trouble, but received no relief. When I wrote you for advice I was hardly able to work, and you advised me what to do. I took nine bottles, five of 'Golden Medical Discovery,' four of 'Favorite Prescription,' also two vials of the 'Pellets.' Dr. Pierce's medicines will do all that you claim for them. Believe I would have been in my grave if I had not taken them."

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

MASONIC

The Royal Arch Masons of Canada have no reason to complain of the results achieved during the past year. It has been one of the most prosperous years that the royal craft in Canada has experienced, and the prospects for the coming year indicate continued prosperity. The Masonic Sun says that at the recent grand chapter convocation the various reports presented showed a feeling of contentment to exist among the companions from the Ottawa river to the Pacific coast.

KNIGHTS OF PYTHIAS.

Condition of the Order In Ontario. Helmet Glints.

The grand keeper of records and seal of Ontario recently said in regard to the condition of the Pythian order there: "The order in general here is prosperous. We have made a gain of 170 during the past year. Two lodges are about to be instituted. one in Ontario and another one in Ottawa. We are doing good work in Toronto, and the order is on the forward move in this city. The growth is steady and not spasmodic. We are taking in the most desirable class of members—young, energetic—and a great many are men of ability and in good positions in life."

The volunteer contribution for the benefit of the proposed Pythian orphans' home in Indiana last year was $616.74.

The grand lodge of Texas is preparing to erect a Pythian widows and orphans' home. It has accumulated $20,000 for that purpose and adds thereto $5,000 annually.

The order was forty years old on Feb. 19. The first Pythian lodge was instituted in Washington on Feb. 19, 1864.

In Indiana during the semiannual term just closed the Pythians more than doubled the net gain in membership as compared with the closing term of the previous year, and the suspensions for nonpayment of dues were lessened by one-half.

A Good Smoke.

His wife had presented him with a box of cigars for his birthday. A very ornate picture in colors was pasted on the underside of the box's lid. The cigars were bound by two baby blue ribbons tied in pretty bows at the ends.

However, she had not purchased the cigars at an auction sale, but at a regular dealer's, at the standard price.

"Is it good?" she asked him nervously when he started to smoke the first one.

"Best smoke I ever had in my face," he replied truthfully, luxuriously blowing a smoke ring.

New Type And Machinery.

THE DEMOCRAT LEADER is now better than ever prepared to do fine job printing; in fact it is the only office in the city that has a large press for large work and small presses for small jobs.

We recently purchased the handsome Courier press—the best in the city—and have received direct from the manufacturers in the East some handsome new type of mammoth size together with borders, rules, etc., and a handsome new furniture rack. We now have everything to do first-class work, and if we cannot now do satisfactory job work of any description it cannot be done in town, or this side of Seattle. ORDINANCE NO. 319.

An ordinance granting to H. A. Lingenbrink, his heirs or assigns, a franchise to lay water pipes and mains in the city of Port Angeles, and to construct, operate and maintain a water works system within said city, and to furnish electric current to said city, to be generated by said water works system.

THE CITY COUNCIL OF THE CITY OF PORT ANGELES DO ORDAIN AS FOLLOWS:—

SECTION 1. There is hereby granted to H. A. Lingenbrink, his heirs and assigns, the right to construct and maintain reservoirs, and all other structures necessary, and the right to lay and maintain in the streets, alleys, parks, and public grounds in the city of Port Angeles, pipes for the purpose of conducting water therein to and from said reservoirs, and other structures and buildings, and wherever required by said grantee, his heirs or assigns. These rights are granted for a period of fifty (50) years upon the conditions hereinafter named.

SEC. 2. That the said H. A. Lingenbrink, his heirs or assigns, in the exercise of the rights and privileges herein granted, shall use reasonable care, and shall not, in making excavations, leave any dangerous place exposed, and shall leave such streets and alleys in like good repair as the same were before said excavations were made.

That the said H. A. Lingenbrink, his heirs and assigns, by the acceptance of this franchise does hereby agree for himself, his heirs and assigns, to protect and save harmless the city of Port Angeles from all claims, actions or damages of every kind and nature which may accrue to or be suffered by any person or persons by reason of any defective construction, maintenance, operation or repair of the said water works system, or by reason of any act of the said H. A. Lingenbrink, his heirs or assigns.

SEC. 3. The said grantee, his heirs or assigns, shall furnish good and pure water from Little River, in the county of Clallam, or from some other source equally good and pure. Provided: That the point of diversion and source of supply of the said water works system shall not be nearer than three miles from the nearest point of the present corporate limits of the city of Port Angeles, and shall be above any source of contamination.

SEC. 4. The city of Port Angeles shall be entitled to twelve (12) fire hydrants, which hydrants shall be placed along the main pipes at such places as the council shall, from time to time direct; said hydrants to be put in at the expense of the city, and the city to have the free use of water in said hydrants during the life of this franchise, for fire purposes only; the pressure in said hydrants must be sufficient to raise a column of water eighty (80) feet high with (3) hydrants open at one and the same time for a period of one hour, through standa d fire nozzles. Any additional fire hydrants may be put in at such times and places as the council may determine, at the expense of the city, by giving reasonable notice to the said H. A. Lingenbrink, his heirs and assigns, but all of said hydrants to be kept in repair and a state of efficiency by the grantee, his heirs and assigns; and the city agrees to pay for such additional hydrants for fire purposes only, the sum of Three Dollars ($3.00) per month for each hydrant furnished with water for fire purposes; said hydrants as used for fire purposes by said city shall be under its exclusive control, for other purposes they shall be under the control of the said grantee, his heirs or assigns. Provided: That the city council may at any time inspect any of said hydrants for the purpose af ascertaining the water pressure and the condition of said hydrants.

SEC. 5. That the said grantee shall deliver at the city limits water in sufficient quantity to keep all the sub-pipes continuously full and at such pressure as to deliver water on C street, Pine street, Oak street, Peabody and Race streets in said city. And upon petition of twenty (20) bona fide residents of said city in any district or street, where water is not supplied, the grantee, his heirs or assigns shall extend their water mains or pipes into said district or streets within a reasonable time, and deliver water to said residents within said district or streets.

SEC. 6. The said H. A. Lingenbrink, his heirs or assigns, shall have the right to charge and collect compensation from all persons supplied by him with water, but the measure of compensation shall in no case exceed, for residences and private families, the sum of one dollar per month.

SEC. 7. Any consumer can have water furnished at a rate not to exceed thirty-five cents per thousand gallons, on paying the said H. A. Lingenbrink, his heirs or assigns, the price of a meter with which to measure the same, and a reasonable compensation for setting the same. And the said H. A. Lingenbrink, his heirs and assigns, shall in all cases, have the right to ascertain by meter, at his or their own expense, the quantity of water consumed by any consumer, and to collect therefor at the regular rates per thousand gallons.

SEC. 8. That the said H. A. Lingenbrink, his heirs and assigns, agree to furnish the said city of Port Angeles electric current or power generated by said water works to run its electric light plant, said electric current or power to be delivered at the city limits at the price of three and one-half cents per kilowatt hour, and the said city agrees to take from said H. A. Lingenbrink, his heirs or assigns, all the electric current or power necessary to run its electric light plant in said city as soon as the said H. A. Lingenbrink, his heirs or assigns, shall be ready to furnish said electric current or power, the rates for said current or power to continue for a period of five (5) years from the time the said H. A. Lingenbrink, his heirs or assigns, shall commence to furnish the same, and which shall be at a period not later than one year from the date of the acceptance of this franchise. Provided: however, that if the said city can produce or purchase the said electric current or power at a less rate than three and one-half cents per kilowatt hour, then in that event the said H. A. Lingenbrink, his heirs or assigns, agree to furnish the said city the said current or power at the same rate that it can be produced or purchased, or shall release the city from all obligations to purchase said current or power. It is understood that after the period of five (5) years the city is in no way bound to take electric current or power from said H. A. Lingenbrink, his heirs or assigns, except at its option. The said grantee, his heirs or assigns, are hereby authorized to sell to any individual or corporation such surplus current or power as he or they may have after supplying the said city as aforesaid; Provided, however, that said current or power shall not be sold for lighting purposes to any individual or corporation, while the city is operating its own lighting plant.

Section 9. The city of Port Angeles shall have the right at its option at the expiration of ten (10) years after the granting of this franchise, and thereafter after the expiration of each subsequent ten (10) years, to purchase from the said H. A. Lingenbrink, his heirs and assigns, the entire water plant, and everything connected therewith, installed by virtue of this franchise, for its reasonable value at that time, Provided, however, that not less than ninety (90) days prior to the expiration of the said ten years from the granting of this franchise, the city shall give notice in writing to the said H. A. Lingenbrink, his heirs or assigns, that it intends to take advantage of, and exercise the option herein contained at that time; if after the giving of the said notice by said city to the said H. A. Lingenbrink, his heirs or assigns, they cannot agree as to the reasonable value of said water plant, then they shall each select a person, who shall be a citizen of the city of Port Angeles, and the said two persons shall have power to determine and decide what is the reasonable value of said plant, which decision shall be binding upon both of the parties; if, however, said parties so selected cannot arrive at an agreement, they shall select a third person who shall also be a citizen of Port Angeles, and a decision of any two of said three persons as to what is the reasonable value of the said plant at said time shall be binding upon the parties.

Section 10. Within ninety days after the passage and approval of this Ordinance, the said H. A. Lingenbrink, his heirs or assigns, shall commence work upon the construction of the said water works system, and will thereafter diligently prosecute the same until completed, expending not less than four thousand dollars ($4,000.00) per month during the period of construction, which shall be certified under oath by the engineer in charge every sixty days, and a certificate filed with the city clerk. Said water works system to be completed within the purview of this Ordinance within one year after the commencement of the work of construction, it being expressly understood that the said H. A. Lingenbrink, his heirs or assigns, shall deliver water to the inhabitants along C street, Pine street, Oak street, Peabody street and Race street within one year from and after the passage and approval of this franchise.

Section 11. It is further provided that in the event of the grade or regrade of any of the streets or alleys of said city being changed, during the life of this franchise, which would necessitate the taking up and relaying of the mains or pipes which have been put in place under and by virtue of the rights herein granted, then the said grantee, his heirs or assigns, shall take up and relay the said mains or pipes at his or their expense, and without expense to the city of Port Angeles; Provided, however, that the city shall give the grantee, his heirs or assigns, reasonable notice in writing of its intention to change the grade of said streets, and will be diligent in putting the said streets in condition so that said mains and pipes can be relaid without unnecessary delay after they are taken up.

Section 12. The continuous violation of any of the terms of this Ordinance by the said H. A. Lingenbrink, his heirs or assigns, for thirty (30) days after notice in writing given by the city, requiring performance of this Ordinance in any particular, shall work a forfeiture of all the grants, claims and benefits hereunder, and it shall be lawful for the city council to declare by Ordinance the forfeiture of the same and to cause the said mains and pipes or any of the property of the said grantee, his heirs or assigns, to be removed from the streets, alleys, and public places of said city.

Section 13. In order to claim any rights or benefits whatsoever, the said H. A. Lingenbrink shall, within thirty (30) days after the passage hereof, file with the city clerk his acceptance in writing of this Ordinance and all the terms and provisions thereof; and after said acceptance shall have been filed as aforesaid, this Ordinance shall be published and shall take effect and be in force at the expiration of five days from and after its publication.

OPERA HOUSE BLOCK

The Democrat-Leader,

Published ever Friday at Port Angeles, Washington, by THE DEMOCRAT-LEADER CO.

A. J. COSSER, Editor and Proprietor.

Official Paper

Of Port Angeles, Clallam county.

Entered as second-class matter, in the Post office at Port Angeles, Washington.

WITH this issue THE DEMOCRAT-LEADER begins the sixteeth year of its existence and the eighth year under the present management.

THE Democrats elected their candidate for mayor in Tacoma at Tuesday's election; and seven of the sixteen councilmen are Democrats.

WARM POLITICS.

One of the prettiest scraps for the continued existence of the ring which has controlled Clallam politics and fed from the public crib so long, is now on and there is no telling what the out-come will be. The ring managers are scared and are justified in their scare, as never before was there more concerted action for the overthrow of the County Bunch who have evaded the law by redistributing the offices each year for the benefit of themselves.

This year there has been a fine flopping about. The Wilsonites are undoubtedly in control and the great Foster majority of two years ago is in danger through the purchase of the Foster organ, and many former Foster "friends" have gotten into the band wagon. Dyke and Aldwell, who were at dagger's points last year, now love each other with an exceeding great love, for Palmer has been slated for the commissionership, leving the Wilson side of the field for representative to Dyke. There are those who now say that if Dyke or Palmer get the nomination it means their defeat.

Aldwell is sacrificing everything in state politics for Cushman, even swallowing John L. Wilson to that end; but despite all the changes and flops there seems to be an equal chance of the other side winning out.

At the primaries which will be held two weeks from today will be witnessed one of the most terrific fights for control ever waged in the county, and whether the wounds of the losing side will heal before election is a very mooted question.

Now that Harriman is in court for the return of N. P. stock put into merger which may place the Northern Pacific railroad in his control, it is not too much to expect something for Port Angeles. This is Hill territory, and if Harriman scraps sufficiently to get permanently at outs, there is no telling what might be done—after the election.

City council, Wednesday, present all members except mayor and Gutenberg. Brumfield called to chair.

The street committee recommended appropriations for street repairs as follows: Race street, $125; Second, between Valley and Tumwater, $75; Tumwater hill, foot to C street, $125; C from Seventh to Tenth, $50; Peabody, $150; Oak, $40; Laurel, $100; Lincoln, $40; Chase, $40. The committee further recommended that no work be done on the "Wise" road, but instead that C street be continued from Sixteenth to Boulevard, two and a half, blocks provided commissioners will extend county road East three blocks. Report was approved.

A letter to the mayor from Wittler-Corbin Machinery Co. was read to the effect that boiler and engine for new light plant had arrived at Seattle and would come here on steamer Rapid Transit on Thursday,

Question of dog tax was brought up and marshal was directed to corral all dogs not licensed.

Mr. Mosher wanted the sidewalk question settled; walks are getting in very bad shape. Mr. Hallahan stated that last year the question was referred but no action had been taken and suggested that city attorney give council his opinion of the city Ordinance which provides that property owners must keep walds in repair.

Mr. Grubb thought this a good idea for the reason that if property owners will not and cannot be compelled to put walks in good repair that they be torn up, as the city is running great risk of damage suits.

Street committee is to report badly damaged walks and attorney will look up law, and if no other action can be taken property owners will be served with notice to repair or walk will be taken up.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless this inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Oatarrh Cure. Send for circulars; free.

Accidentally Shot

Mr. Albert Pixley, Aged Pioneer of Clallam Dies of a Horrible Wound.

Albert Pixley, while hunting just South of East Clallam last Friday with two companions, was accidentally shot in the left groin and died in seven hours from loss of blood.

Toward night Pixley was standing on a log holding his shot gun by the muzzle resting the stock on the log. One of his companions spoke to him about going home and he made a move to comply when his gun slipped off the log, struck the hammer and discharged its contents into Mr. Pexley's body, inflicting a terrible wound. The charge struck the aged man in the left lower groin and went half way up his body. He was put aboard the steamer at East Clallam in charge of a young man, taken to Neah Bay where the Indian doctor, C. M. Maxwell, was taken aboard and did all that could be done. Pixley, however, died just this side of East Clallam, on the way to this city and was buried Monday by Coroner Willson.

Mr. Pixley was a well-known old-timer of Western Clallam, hale despite his sixty years of age. His only known relative is a sister in Wisconsin who has been notified.

Died of Brain Fever

An infant child of Mr. and Mrs. J. J. McKechnie, of 8th and Lincoln streets, which fell from a high chair about a week before died of brain fever on Tuesday despite all efforts to save the child. The funeral was held Thursday at 1:30 and was largely attended by friends and neighbors.

The stricken parents have raised ten children, and this the eleventh, is the first to pass away, and the blow to them is severe.

Fell Down Hatch

E. S. Derickson returned Saturday from Bremerton where he has been on duty as watchman on the receiving ship Philadelphia for the past nine months. On Wednesday of last week Mr. Derickson fell down a hatch-way of the ship, struck on a guard-rail on deck below and broke one rib on his right side and fractured two others. He remained on duty for an hour after the accident. The doctor at the navy yard set the fractures and after two days rest Mr. Derickson returned home, and is doing nicely under local treatment.

In Peaceful Rest

Mrs. G. E. Brooks died at the home of her daughter, Mrs. B. B. Bates, in Farmer City, at 4 o'clock Monday morning. She had been quite sick for about three months, and had been in poor health for about three years. She had reached the age of 58 years 11 months and 21 days.

In the death of Mrs. Brooks Clinton has lost one of her most intellectual women, she having been a great reader and a deep thinker, and was endowed that sweet Christian character that was admired by all. She was one of the good women of Clinton and has ever lived a life that no one could criticise and many are the old friends and neighbors who are saddened at the news of her passing into the new life.—Clinton (Ill.) Public.

Mrs. Brooks was the mother of Mrs. L. W. Taylor, formerly of this city, who was at her bedside at the laft.

NO POLITICS IN THE SCHOOLS.

There is one matter that deserves more that the attention usually given it, and that is the selection of a state superintendent. The usual methods of selecting nominees at a convention is that of trading and combination. The merits of the individual candidates are scarcely considered. In the interests of the schools of the state and the children of this great commonwealth, it surely would seem best that the state superintendency should not be treated as trading capital. The interest of every child in the state demands a man who is primarily an educator, who is energetic progressive and enthusiastic. The demand of the age is the elimination of politics from the schools. At its last meeting the Washington State Teachers' Association unanimously passed a resolution requesting the state conventions to select nominees for state superintendent with sole regard to his qualifications.

LOYAL TO IDEALS.

Hearst Revives Faith and Hope in True Democracy.

Vigorous and Fearless Editor of Seven Great Democratic Newspapers Sustains Principles of Conservatism and Justice in American Government and Combats Corporate Greed.

By the Hon. JOHN TEMPLE GRAVES of Georgia.

The movement in favor of W. R. Hearst for president is founded on the essentials of Democratic tradition and Democratic principles.

The Democratic party in its inception, mission and history has been a party of the people. Its work and its record have been one of supreme consideration for the rights and interests of great bodies of citizens as opposed to the privileges of class or to the favoritism expressed by legislative enactment for the few.

The reason why Mr. Hearst has developed a strength so remarkable and so sustained in the ranks of this great party is because of the fact that he, above all the men now active in journalism or in politics, has been consistently and vigorously true to these traditions and to these ideals.

Vigorous, Eloquent, Successful.

Without a break within the last decade and with all the combined forces of his great newspapers, scattered in different sections of the republic, he has been the vigorous, eloquent and in most instances the successful champion of the rights of the many against the few. He has fought corruption, he has opposed extravagance, he has combated the greed of syndicates and the selfish propositions of corporations.

It is the force of this record, which has had no change or variation, that has endeared the editor of the seven Democratic newspapers to the hearts and fixed him in the confidence of the people of this country.

More than this, the strength of the Hearst movement is in the magnetic and rallying force of definiteness against uncertainty. He came to the front in a period of uncertainty, demoralization and general Democratic depression. While other leaders, however loyal and however interested, were dangling their plumes and holding their tongues in uncertainty and discouragement, the young and vital editor of seven Democratic newspapers struck boldly out in behalf of the traditional principles of his party. Without a note of hesitation or uncertainty he rallied the fainting spirits of a discouraged Democracy and inspired the rank and file of his party with new faith and new hope in the ultimate triumph of principles which had found a champion bold, clear, definite and eloquent.

It is the old, old story—whenever a mass is demoralized the one clear and definite spirit in it finds the opportunity in seizing the reins of authority in the sublime mastery of his own purpose and of his own clearness and rallies the multitude about the one man who sees things clearly and dares to do them.

No Factional Candidate.

Mr. Hearst has a definite strength in almost every state in the Union and stronger than that of any individual candidate suggested by any faction of the Democratic party, and in most of the states of the Union stronger than the forces of all other candidates combined.

It is no reflection on the merits, capacity or the service of these old and honored names in Democratic annals that this young and vital figure of journalism and politics should have gone so fast and so far to the front. They are doubtless as true and as loyal and as capable as he, but he has had the courage and the clearance of initiative. The clarion notes he has been sounding for the last six years logically and inevitably have rallied the Democratic host around him.

Unless I am greatly mistaken, and unless all the political signs of the times are at fault, the early primaries of the spring will register a confidence in William Randolph Hearst as a national leader which will be an inspiring augury of the Democratic success in the November election.

With the ranks of labor for him almost as a unit, with the conservative American people looking to him with confidence and hope, with the sound business interests of the country compelled by his own record and his own immense vested interests to respect him, and with the magnificent administration of his journalistic equipment to sustain and diffuse his ideas, William Randolph Hearst is at this moment easily the most formidable candidate for the leadership of the Democratic party in the next national election.

Health

Means the ability to do a good day's work without undue fatigue and to find life worth living. You cannot have indigestion or constipation without its upsetting the liver and polluting the blood. Such a condition may be best and quickest obtained by Herbine, the best liver regulator that the world has evee known. Mrs. Dr W. To Prosecute Trusts.

If house bill 11,888, introduced at the beginning of the Fifty-eighth session, becomes a law United States attorneys will be empowered, without instruction from the attorney general, to institute proceedings against trusts that unlawfully restrain trade and commerce. Circuit courts are given jurisdiction to prevent and restrain violations of the antitrust act and it will be the duty of district attorneys to bring proceedings against offenders. The Hon. W. R. Hearst, representative from New York, is the author of the bill.

COUNTY NEWS.

Clallam Record.

Joe Albright of Port Crescent has taken charge of the boom at Robinson's logging camp.

On Tuesday night, about midnight, another earthquake shock was felt here. There was no wind at the time, and people in town the next morning were unanimous in saying that it was a pretty good shake-up.

Gettysburg.

George Perry had a shoulder dislocated in a dispute with Otto Forsell at Hall & Bishop's camp, Tuesday and was taken up to the Port Angeles hospital on steamer Rosalie same evening

People are glad to see the Rosalie on the Strait again.

A big dance and supper was held at Crescent last Saturday night and a delegation of Gettysburg sports attended.

Robert Scott went to the Port Angeles hospital on Tuesday to have a lame foot attended to.

Hall & Bishop has a boom of logs about ready for towing up sound, the first boom of the season from this camp.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

No Matter What Doctors Say—We Know That Heart Trouble in Many Cases Can Be Cured.

There are seven main features of heart disease, viz.: (1) Weakness or Debility; (2) Rheumatism or Neuralgia; (3) Valvular Disorder; (4) Dilation; (5) Enlargement; (6) Fatty Degeneration; (7) Dropsy.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

Patients often have no idea their disease is heart trouble, but ascribe it to Indigestion, Liver Complaint, etc.

Here are some of the symptoms: Shortness of breath after exercise. Smothering Spells. Pain in Chest, left Shoulder and arm. Discomfort in Lying on one side. Fainting Spells. Nervous Cough. Swelling of Feet and Ankles. Paleness of Face and Lips. Palpitation. Nightmare. Irregular Pulse.

"I have great faith in Dr. Miles' New Heart Cure, and speak of its merits whenever opportunity presents. I can now go up and down stairs with ease, where three weeks ago I could hardly walk one block." One year later.—"I am still in good health; the Heart Cure did so much for me, that I find it a far greater medicine than you claimed it to be."—S. D. YOUNG, D. A WRONG DIAGNOSIS

[Original.]

Anthony Forbes found himself at twenty-three tired of life. Possessing an income of $10,000 a year, quite enough to gratify all his wishes, there was nothing for him to accomplish. When therefore a medical specialist told him that a certain lump he had discovered on his person too near a vital part to be removed was of a malignant nature and would kill him within a period of from a few months to a few years, the only horror attending the announcement was the suffering involved. However, since there was as yet no pain, the young man determined to turn everything he had into cash and get all the enjoyment there was in it. This would serve a double purpose of giving him pleasure and diverting his mind.

Forbes believed that the greatest enjoyment is to be derived from association with the opposite sex. He had no mind to confine himself to any one woman—he chose three. The first was Agnes Tweed, one of those girls who in Paris go by the name of grisette; the second was Mildred St. Clair, a society belle; the third, Margaret Walton, the daughter of a clergyman whose income was but $1,200 a year.

Forbes spent an average of $20,000 a month for eight months; then, finding that his tumor was growing less, he consulted his physician, who told him that he had been mistaken in its malignant character. It was a harmless growth and was being absorbed. The young man found himself with life before him and a fortune reduced from $200,000 to $40,000, out of which an income could be derived for bare support. He resolved to announce the fact to his feminine associates, beginning with the clergyman's daughter.

"Margaret," he said, "eight months ago I was told by my physician that I must die within a short period. I turned my fortune into cash and have been spending it freely ever since, enjoying a great deal of it in your company. Now the doctor tells me that he was mistaken in the character of my disease and I have nothing to fear. Some $40,000 of my fortune is left, just enough for a bare living. Will you share it with me as my wife?"

Margaret thought for some time before replying.

"I could not think of passing my life," she said, "with a man who has no ambition, no principles, no sympathy for a world in which so much is needed. Had you on your doctor's first announcement given your fortune to the poor, reserving only enough to carry you through the short period you expected to live, and now without a cent made me this proposition, resolved to make a career for yourself, I might have said 'Yes.' As it is, my answer is 'No.'"

With bowed head Forbes left her, perhaps more depressed than when his doctor had told him he must soon die. He wandered about aimlessly for a few days; then, throwing off temporarily the disagreeable feeling consequent upon his rejection, he sought Mildred St. Clair and told her of his doctor's two announcements.

"Mildred," he added, "had I sought you when I was well and possessed a fortune I would have asked you to share it with me. As it is I cannot think of proposing that you should share my beggarly income."

"I confess," replied the girl, "that had you asked me before the squandering of your fortune I would have accepted you, though greater fortunes have been offered me. As it is, I must agree with you that your income would not support me except in comparative poverty, for which I have no taste."

Forbes left her with a sigh. The one had declined him because he had no principle, the other because he had spent his fortune. He did not know which reason pricked him most, but in his heart he could not but respect the reasons given by Margaret. "And now," he said, "as a last resort I will go to Agnes. Surely she will have no scruples, and the remaining $40,000 will be a great temptation to her."

"Tony," she said, after he had announced that the doctor had erred, that his life was before him and that he still had money in bank, "you are a good fellow. You have treated me 'white.' You have spent a lot of money on me, and now you propose to get rid of the rest of your fortune in the same way. I'm going to surprise you by refusing to take any more of it. For you there is still a future; for me there is none." Tears started to her eyes. "My advice to you is, 'Settle down to lead a steady life, and let the rest of us take care of ourselves.' It will be some time before I'm old and decrepit; meanwhile I'll get along."

Forbes went away protesting that she was the only friend left him and that she should continue so. When, the next day, he went to see her again he found that she had moved without leaving any address.

* * * * * * *

Five years passed. One day Anthony Forbes called upon his physician and said to him:

"Doctor, I desire to thank you for the able manner in which you handled my case when it was supposed I had a malignant tumor. The growth, whatever it was, has disappeared. It was not that from which I suffered, but general worthlessness. Soon after you pronounced me sound I went to work and have succeeded in building up a good business. I have recently married Miss Margaret Walton, who was your principal assistant in handling my disease. Good morning, doctor."

Forbes handed the physician an envelope containing a substantial check for additional fee.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHELLE, GA., Jan. 30, 1902.
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 20 per cent. better.

My Evolution Theory.

I do believe with all my heart
That dogs as little puppies start.
That tiny kittens cats will make
If they the proper method take.

That eggs change into cock or hen
And baby boys turn into men,
And apes now swinging on the trees
Had parent apes for centuries.

But, oh, confusion worse confounded!
This theory wise men have sounded:
That dog and cat and cock and hen
And little apes and great big men

Were all one time mixed up together
And knew not which was which nor whether
The dog would be a crowing hen
Or man an ape or apes be men.

Clallam Record.

On last Saturday search was again made for the Eartle brothers, who disappeared on or about the 19th of last month. Through some misunderstanding the party separated. Three of our young men—Jas. Clark, Chas. Haggadorn and Lehman Park—took to the woods and by running through on lines and trails where, in their judgment, the missing brothers would most likely be found, and at nearly dark they came upon a spot where some one had pulled off moss from the trees and had made a resting place in a good sheltered spot. This was some distance from the trail. It seems now to be the general opinion that one of them got hurt and the other got lost in trying to find his way out. Search will again be made, taking up the clue at the place where one of them had made a bed of moss, and it is possible they may be found yet.

New Water System

It is given out this week that the new water company has ordered $38,000 of new wood pipe which will be put in by the manufacturers.

It is also rumored that an injunction is imminent by parties holding water rights on Little river, but no action has as yet been taken in the courts.

The Commercial club met Tuesday upon call of president and secretary for purpose of electing officers for coming year. The following were unanimously elected:

G. M. Lauridsen, president; T. J. Appleton, vice-president; D. W. Morse, treasurer; Horace White, secretary; C. J. Farmep, Peter Grubb and Thos. Moore, trustees.

Treasurer's and secretary's report were referred to trustees.

Collector Aldwell reported that Commissioner Kershaw was very desirous of getting a fish exhibit from Lake Sutherland and Crescent and if fish were furnished he would send a man to preserve them for exhibit. Inspector Fisher had agreed to obtain fish if team to convey party to lakes was furnished. $10 was allowed by club for this purpose.

President suggested that club take steps to secure Tumwater water water-way for such purpose as might be most useful and he was directed to confer with Com. S. A. Calvert in behalf of club.

E. E. Day, of coal bonus commission, reported that no particular effort had been made to sell coal stock; all spoken to arguing that if company had what was reported, they would ask no aid of city.

Mayor Lewis reported progress in drafting memorial to secretary of war through Major Millis, of Seattle, for vacation of military reservation West of the city, and substituting Crescent Hill as given in these columns exclusively one month ago. As state papers had advised the advisability of the government doing something to offset the great defensive preparations being made at Esquimalt he thought there was some hope of favorable action. Mr. Aldwell on the other hand said Mr. Cushman was doubtful of being able to do anything toward vacation of reserve.

Editor Arthur Smith advocated strenuous action for the return of the weather bureau at Port Crescent to this city, stating that the time was now ripe as the cable to the cape had been given up and the telegraph lines were inclined to return the line to the government. He stated that there is a vast difference between Crescent and Angeles weather, that we lose a great point in our favor by not having a station here where conditions are so favorable. Upon his motion the chair named Messrs. Smith, Aldwell and Morse to inquire into the matter.

It was ordered that hereafter regular meetings of the club be held on the first and third Tuesday of each month.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable; I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me completely and permanently. Since then I have used the liniment on two separate occasions for ring worm and it cured completely. 25c. 50c. and $1.00. Sold by C. E. Nailor & Co.
