Knickerbocker Trust Co. New York, Get Behind P. A. P. Project -File Claim For $2,000,000

Mr. Norman R. Smith returned from up sound on Wednesday's boat and with a satisfied smile and a proud and haughty gait proceeded to the court house where he had placed on record a mortgage in favor of the Knickerbocker Loan & Trust Company, of New York, against the Port Angeles Pacific Railroad company for $2,000,000. Immediately upon the recording of the instrument, upon requeft of the Loan Comany, a wire to that effect was sent to New York.

Some weeks ago, it will be remembered, it was given out that about all the creditors of the road had agreed that in the event the new organization could secure the financing of the road to complete it to trans-continental connection, they would accept 50 per cent of their obligations in cash and 50 per cent in first mortgage bonds. It now seems that all, except the principal creditor, agreed to this, and this gentleman, Mr. Dean, of Elmira, who hold $30,000, is expected to acquiesce. In fact, he is almost compelled to agree, as the burden of debt would be placed on him should he fail to do so.

Friday morning word was received by Receiver Farmer that Mr. Dean and party were on the way to Port Angeles, and upon his arrival here it is expected that he will agree to the wishes of the new organization and that the affairs of the receiver will be wound up and the new company allowed to go to work.

It is thought that when Mr. Dean, who has also been figuring on swinging the interests his way for the resumption of logging, reaches Seattle, he will find that he has delayed too long, and will agree to resume logging and accept settlement for his interests on the same basis as the other creditors.

In the filing of the mortgage in favor of the Loan Company it is recognized that the company has assumed to protect the parties who will advance the money for the building of the road, and the large sum named is to make unnecessary the filling of new mortgages from time to time as additional money is needed. It is also understood that $200,000 will be advanced to begin work and that upon the completion of each five miles and the placing of same in operation, $100,000 additional will be advanced from time to time until the road is completed.

Mr. Smith is, of course, jubilant over the result of his labors and the people of Port Angeles will rejoice with him.

A missionary tea will be served in the parlors of the Congregational church, Wednesday, May 4th.. from 4 to 6 p. m. The public are cordially invited.

The Sacraments of Baptism and the Lord's Supper will be administered at the Methodist church next Sunday morning. A Lovefeast will take the place of a sermon. Usual service in the evening.

DEMOCRATIC PRIMARIES

A List of the City Delegates Who will Attend the Convention Today

The Democratic primaries were not as well attended Saturday last as were those of the opposition, but a good set of delegates were named as far as is heard from, just the same.

Because of the fact that this convention is simply to name delegates to the state gathering at Olympia, next Thursday, few outside of the city delegates are expected to attend. As far as heard from the following will be present:

Bellview—Stephen Land, John Donahue, Frank Chambers, Sr.

Edgewood — Charles Peters, W. H. Guthrie.

PORT ANGELES—

First Ward—J. P. Christiensen, Chas. Bork, S. W. Hartt, T. Henderson, Jno. Trumbull.

Second Ward—E. B. Mastick, Lewis Levy, Henry Nelson, H. M. Fisher.

Third Ward—J. Hallahan, H. Malchau, A. J. Cosser, F. Miller.

Fifth Ward—A. A. Richardson, Wm. Carey, Jno. Malchau, Tom Trumbull, Claud Underhill.

Sixth Ward—Byron Bowman, Myron Petterson, A. E. Byres, Al. Filion, A. E. Cox.

In the Fifth the delegates were instructed to vote for the endorsement of W. R. Hearst for president.

The convention will convene at the council chamber at 10 o'clock.

If troubled with weak digestion, belching or sour stomach, use Chamberlain's Stomach and Liver Tablets and you will get quick relief. For sale by W. J. Mathewson.

Warm and Close Fight

Clallam Reps. Have Exciting Primaries in Every Precinct -- Two Frctions from Forks-Elwha

Saturday's Republican primaries gave every evidence of a great revolt against the perpetual gang at the court house, and although defeated the Independents put up a fight that was worthy the best steel of the court house bunch; even forcing them to resort to questionable methods to win the day.

The victory for the ring can truly be said to be complete, for though there is a fighting chance for both Church and Lauridsen in the convention, it is doubtful if these gentlemen will go over the contest again in the hall and the nominations for representative and commissioner of Second District will probably go to Dyke and Palmer without a contest. This fact with that, that as yet Smith for auditor, Burnside for treasurer, and Hopkins for sheriff, have no avowed opposition will probably allow these nominations to be unanimous; the first two probably tacitly. There will be contests for all the others except the judgship, which has already been settled in favor of Judge Hatch with the exception of the formalities.

The scrap at the primaries, which gave complete control into the hands of the ring, was terrific and

THE personnel of the Republican delegates elected and rejected does not speak very favorably for the ideals of the party in some districts.

WITH the aid of a clique which has little or no interest in the county or its welfare, Clallam county, on Saturday last, was placed in the column of Seattle's supporters—which spells Clallam's defeat.

One of the best investments that a town can have is a park, close enough in so that it can be reached without any effort, with swings for children and seats for older ones, where all can go and enjoy themselves at any time, where health and pleasure go together, without money and without price.—Monroe Monitor.

DO YOU LIKE THE TRUTH?

Whether you like the truth or not, you must sooner or later realize that law and justice are fast becoming a farce, locally and nationally. Scoundrels disgrace low and high courts and mock the people. The sleeping-bug of insiduous creed is also sapping the highest tribunals and secreting itself beneath the robe of government. Money is considered the supreme god—all of which spells anarchy, breeds socialism and unless corrected will certainly bring national ruin.—Trade Register. Rep.

Unfavorable Project

The Provincial Government Does Not Approve of the Island R. R. Scheme

The provincial government is not prepared to take up the Vancouver Island railway project proposed by John Cain, of Port Angeles. Premier McBride is said to have considered that he gave a definite answer to that effect about ten days ago. The government's attitude on the question is that at the present time it would be impossible to undertake the proposition. While the members of the government express themselves as very anxious to see something done in the matter of constructing a railway on Vancouver Island, yet they are not prepared to accept the liabilities incurred in this project. The finances of the province are not such, in their opinion, as to warrant them in assuming the further liabilities involved, which would amount to $100,000 annually.

A committee from the Victoria Board of Trade waited upon the government this morning in connection with the project. The committee sought to ascertain the government's position on the matter and also to get further information respecting the proposal. The committee was informed of the government's attitude, which was not favorable to the undertaking.—Victoria Times.

On the cor. of Lincoln and Front sts we repair the Duplex Watch for about one-half the usual price for others. All work warranted. JAMES STEADMAN.

THE WEEK IN SOCIETY

Mr. and Mrs. Charles E. Reid entertained the railway postal clerks and their wives last Tuesday evening at their home on I street. The house was prettily decorated in green and yellow. Cards were played and various games, and after supper music and recitations by Miss Della McGregor, were enjoyed.—Tacoma News.

◆ ◆ ◆

Last Sunday when Mrs. W. B. Gould returned home from church she found that her friends and relatives had taken possession of the house and had spread a bounteous dinner in honor of her birthday. The tables were elaborately decorated with spring flowers. Covers were laid for sixteen.

◆ ◆ ◆

Tuesday afternoon Mrs. A. L. Johnson entertained a number of ladies in honor of Mrs. Benton Embree, of Seattle. The afternoon proved most pleasant. Features were two contests; one a geographical, the other a drawing and guessing contest. In the latter each lady was to illustrate some popular song, and the others were to name the song from the drawing made. Mrs. Shelpman won the prize in a draw with Mrs. Embree.

◆ ◆ ◆

Tuesday evening the Diamond whist club met with Mrs. and Mrs. A. J. Cosser. Guests of the evening were: Mrs. Benton Embree, of Seattle; Miss Lulu Crooks. All members except Mr. Fitz Henry were present.

◆ ◆ ◆

Mr. and Mrs. H. N. Shelpman on Wednesday night entertained a number of friends as a surprise to Mrs. Benton Embree who is down from Seattle, visiting them. Cards and music, including many excellent numbers by the Juvenile Orchestra, were features of the entertainment, after which ice cream and cake were served. There were present, besides those mentioned: Mr. and Mrs. W. B. Smith, Mr. and Mrs Horace White, Mr. and Mrs. A. J. Cosser, Mrs. E. A. Fitz Henry, Mrs. Geo. Wiggins, Miss Crooks.

Rural Delivery Notes

The gross receipts at free delivery of fices during the fiscal year were $93,466,623.13, an increase of 12.14 per cent over the preceding year. The cost of the free delivery service was $19,327,986, an increase of 12.93 per cent as compared with the preceding year.

The resignations of 2,879 carriers were accepted during the past year, about 19 per cent of the whole number, many of them stating that they find it unprofitable to continue in the service. Seventy carriers were removed for cause, of which number seven were arrested for violation of the postal laws. The deaths of eighty-six carriers were reported.

There were 4,462 postoffices discontinued during the past year, being 403 more than during the preceding year. The principal cause for the large increase in the number of postoffices discontinued has been the extension of the rural free delivery service, which resulted in the discontinuance of 2,163 postoffices during the year, the salaries of postmasters of said offices aggregating $121,332.

INDIGESTION

CONSTIPATION

Patience With the Living.

Sweet friend, when thou and I are gone
Beyond earth's weary labor,
When small shall be our need of grace
From comrade or from neighbor;
Passed all the strife, the toil, the care
And done with all the sighing,
What tender ruth shall we have gained,
Alas, by simply dying?

Then lips too chary of their praise
Will tell our merits over,
And eyes too swift our faults to see
Shall no defect discover.
Then hands that would not lift a stone
Where stones were thick to cumber
Our steep hill path will scatter flowers
Above our pillowed slumber.
Sweet friend, perchance both thou and I
Ere love is past forgiving
Should take the earnest lesson home—
Be patient with the living.
Today's repressed rebuke may save
Our blinding tears tomorrow.
Then patience, e'en when keenest edge
May whet a nameless sorrow!

'Tis easy to be gentle when
Death's silence shames our clamor
And easy to discern the best
Through memory's mystic glamour,
But wise it were for thee and me,
Ere love is past forgiving,
To take the tender lesson home—
Be patient with the living.
—Margaret E. Sangster in Christian Intelligencer.

WOMAN'S PEN PORTRAIT.

Helen M. Gougar, Noted American Writer, Describes William Randolph Hearst.

In these days, when much is being written about leaders in national life, a woman's estimate of prominent individuals is always apropos. Helen M. Gougar, who has met nearly all of America's noted men and who has written numerous interesting stories and interviews, published the following in the Lafayette (Ind.) Call:

"Who is William Randolph Hearst?

"I will answer as I know the man.

"Mr. Hearst is forty-one years old.

"He was born in San Francisco.

"He is the only child of the late United States Senator George Hearst and Phebe A. Hearst.

"His ancestors were of North Carolina and Virginia stock, his mother being a descendant of the Randolphs of Virginia. His mother is noted for her great charities, having endowed the University of California.

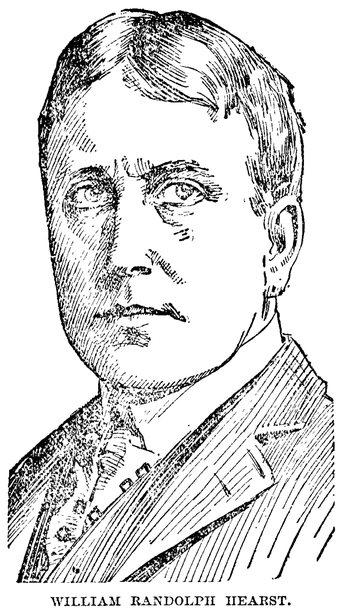
"He is a most devoted son and cooperates heartily with his mother in business and benevolent enterprises.

"He was educated in the public schools of San Francisco and in Harvard college.

"He is a man of fine physique, robust health, indomitable energy and great executive ability. He is a 'business man' in every sense of the word.

"He is exceedingly temperate in habits, never gambles or races horses, but is a devotee of the automobile. He once owned a yacht, but during the Spanish-American war it was fitted up as a cruiser at his expense, and he presented it to the government, then enlisted himself as a private in the war and risked his life on the firing line before Santiago.

"In April, 1903, he married Miss Millicent Willson of New York. There is a charming romance connected with this marriage. Miss Willson was a poor girl. Mr. Hearst met her and fell desperately in love with the vivacious miss. His affection was reciprocated. He requested her parents to put her in



WILLIAM RANDOLPH HEARST.

college and he would furnish the money for her highest possible education.

After her graduation he took her and her mother on a tour of the world that she might have the culture of travel. She is a very beautiful woman, with a charming personality. She is much beloved by the mother of Mr. Hearst.

"Mr. Hearst is a strict moralist and holds women in high esteem.

"His charities are unbounded. Every winter he furnishes free coal, food and raiment to thousands of the suffering poor of the tenement districts of New York, which city is his present residence. He sent out three relief trains—one from New York, another from Chicago and another from San Francisco—and hurried supplies to the Galveston sufferers. He gave large sums for the relief of the Jews in Russia; also to the victims of the St. Pierre volcano district.

"As a newspaper man he has had a remarkable career. He understands the business in every detail, from setting type to editorial writing and business management. His first venture was the San Francisco Examiner, which he took when it was almost defunct. He put life and enterprise into it until it has the largest circulation of any newspaper on the western coast. He owns the Los Angeles Examiner, Chicago Examiner, a morning paper, and the Hearst Chicago American, an evening paper, the latter having the largest circulation of any Chicago daily. In New York he owns and runs the New York American, the Evening Journal and Das Morgen Journal.

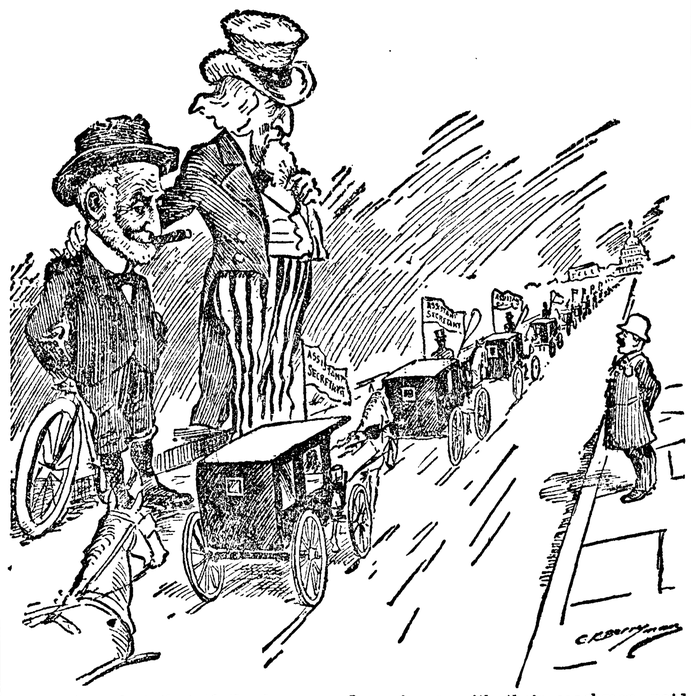
"He is a devoted advocate of the principle of 'equal rights for all; special privileges for none.' He is an aggressive foe of the new form of human slavery known as 'trusts.'

"He prevented the waterworks of New York from going into the hands of a few monopolists known as the Ramapo robbers. He smashed the ice trust of New York at an expense of $250,000 to himself, and the babies of the tenement districts call him 'blessed.' He killed the food trust and is now locked in deadly embrace with the coal trust, at the head of which is Mr. Baer, who claims that the Almighty and he are in partnership to rob the firesides of America in the interest of this most grasping combination.

"Doubtless if he is nominated for president on the Democratic ticket he would cause these combinations to tremble in their boots.

"With such a man for candidate on a wise and conservative platform the Democratic party will doubtless make a lively campaign that will put metal in Republican ranks."

AT GOVERNMENT EXPENSE.



"It is a fact that if the horses and carriages, with their coachmen, paid for out of the money appropriated by congress, were lined up on Pennsylvania avenue they would extend from the Peace monument to the White House," says Representative C. B. Landis.—Washington Post.

PORT ANGELES was hit hard this week with railroad news and if one fourth of the doings promised for this year materialize things will be lively this summer. There is now promised the city work on the P.A. E. and P.A.P. railroads, the possibility of the Cain railroad scheme, renewal of logging operations, the reconstruction of the water work system, the opening of the quarry, the renewal of the city lighting plant, the erection of large poor farm buildings, the completion of the hotel Clallam, the possible erection of two more shingle mill, and numerous other smaller industries, besides what each of these will bring in their operations.

THE McCall congressional committee appointed to investigate the great postoffice scandals, has reported. The charge made by the Fourth Assistant Postmaster-General, Mr. Bristow, was that many congressmen were corrupt; that a hundred cases could be cited in which millions of dollars had been used for additional clerk hire as an official perquisite "for the benefit of personal and political friends." McCall's committee announces that this is false; that congressmen are all honest and that only two or three have been guilty of indiscretion; and it sets forth a crystal jar of the perfumes of Araby which can be used to sweeten their sweetness. The senate has voted down the Gorman resolutions for a postoffice investigation by congress, Mr. Lodge saying, "In our own way, in our own time, when we think proper, we will provide an investigation." Mr. Lodge, however, is widely noted for having crooked chronological notions and as not properly distinguishing between time and eternity. It is barely possible but not probable that the Republicans in Congress will be compelled to provide for some investigation of the scandals by the unremitting demands and satirical prodding of the Democrats. Corruption is popular.

THE Seattle Logging Company, of Port. Crescent, will send a solid delegation to perpetuate the "gang's" rule. This should be sufficient to make the duty of all independent Republicans clear.

"IF they don't put the gang in for life this time," said a well-known Republican, "I will refuse to vote any more. I am tired of having to go to the polls every two years to vote for the same old crowd."

THE school superintendency should be out of politics, but as this seems out of the question at this time, it should be demanded that the officer have his headquarters in this city and devote his time to the work. The salary of $62.50 per month justifies this, and where the superintendent devotes the entire week to other duties and only gives a few hours of one day to this important work, the schools of the county are being ROBBED! A condition of the nomination for school superintendent should be as above.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless this inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

THE CAIN SCHEME

As Outlined to Our Neighbors—Endorsed By Board of Trade Gathering.

A special from Victoria, B. C., under date of Saturday, says:

John Cain, who founded the national bank at Port Angeles, today unfolded the details of a scheme which he is urging the provincial government to accept. He has interested New York capital in the project and it is believed that those back of it are some of the present controlers of railway lines in the West.

The project means putting in a passenger and freight ferry between Port Angeles and Victoria, the continuation of the line of railway to the North end of Vancouver island, about 250 miles, in addition to the E. & N. now running to Nanaimo, and a fast line of steamers from the northern terminus to Alaskan ports.

This involves about $9,000,000 expenditure. Given a land grant of 5,000 acres per mile and $10,000 in 3 per cent inscribed stock of the province, the company is prepared to put engineers in the field in ten days' time, begin construction in ninety days and complete the railroad in two years. This would involve employing about 7,000 or 8,000 men.

These things granted, the company will build from Port Angeles to connect with Seattle and probably Portland, giving a route including but a short steamboat carriage to Alaska for the Great Northern, the Northern Pacific and the Union Pacific.

The Bank of Montreal is in possession of private documents for perusal by the government which proves the company a bona fide one and able to carry out its engagements. Mr. Cain says they look to through trade to constitute the bulk of their traffic, but expect to develop by spur lines the mineral resources of Vancouver island.

The Victoria Daily Times of Tuesday, says:

The citizens of Victoria, at a largely attended meeting held in the board of trade buildings last night, heartily endorsed the Island railway scheme. C. F. Todd, president of the board of trade, presided, and F. Elworthy was elected secretary of the meeting. The assembly room of the board of trade was crowded. The remarks of John Cain, the promoter of the scheme, were loudly applauded at various stages as he in a clear manner unfolded the main features of the project. D. H. McDowell, who also is prominently identified with the scheme, explained more fully the financial aspect of the enterprise. * * * Mr. McDowell explained that he had been associated with Mr. Cain and those connected with this scheme in solving the financial end of it. This was a business proposition. There was no wire-pulling in it, The basis of the arrangement was this, that strong financial people had been interested. The Bank of Montreal in New York had communicated with the Bank of Montreal here, stating that those interested were ready to syndicate the proposition, and put it through as soon as the government assured them of the acceptance of the proposal. These letters were confidential, but Mr. Galletly had given a letter which had been shown to President Todd, revealing as far as possible the bona fide character of the proposition.

The chairman stated that Mr. Galletly's letter was to the effect that he had received a communication from their New York office stating that certain parties had been introduced to his bank there who were of good financial standing, but as his (Mr. Galletly's) advice was of a confidential nature, he would not offer any comments or opinions. * *

P. C. MacGregor said that a trunk line was needed through this Island to develop it. The amount of money expended would be of the greatest importance to the Island. All the great lines would utilize it he thought. Victoria should then get in and secure as much of the trade as possible.

He moved, seconded by W. J. Hanna, as follows:

Resolved, That this meeting of citizens of Victoria heartily endorse the undertaking of the Cowichan, Alberni & Fort Rupert railway, and urges upon the provincial government the necessity of giving the aid asked for by the company, viz., $10,000 of 3 per cent bonds and 5,000 acres per mile.

The motion carried.

C. H. Lugrin, in moving a vote of thanks to Mr. Cain and Mr. McDowell, who had interested capital in this, said this was a proposition which all citizens should endorse. He would have liked some further information as to those back of it, and as to how the timber was to be dealt with, whether it was to be sold with the land or not. But if the province got this Island opened at a cost of $2,500,000 and 5,000 acres of land a mile, it was being done cheaply. He referred to the vast resources of the country to be opened, which were greater in riches than the Kootenays.

The vote of thanks was carried unanimously. In tendering Mr. Cain a vote of thanks the chairman stated that no doubt all would willingly give their assistance to see the early completion of a line of railway to the North end of the Island.

"When I commenced taking your medicines, eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sunderland, of Chaneyville, Calvert Co., Md. "At times I could not even walk across the room without pains in my chest. *The doctor who attended me said I had lung trouble, and that I would never be well again.* At last I concluded to try Dr. Pierce's medicines. I bought a bottle of 'Golden Medical Discovery,' took it, and soon commenced to feel a little better, then you directed me to take both the 'Golden Medical Discovery' and the 'Favorite Prescription,' which I did. Altogether I have taken eighteen bottles of 'Golden Medical Discovery,' twelve of the 'Favorite Prescription,' and five vials of 'Pellets.' There's fools who go and drown themselves
When girls say no; they s'pose
They couldn't learn to love again;
They're small loss, goodness knows!
There's fools who think what they believe
Is all that's true; there's some
Who think when their digestion's bad
The old world's end has come;
We'll have to bear with such as these,
I guess, but please excuse
Me from the fool who tells how he
Would rise if he could only be
In some one else's shoes.

Industrial Economics.

Trustworthy statistics declare that the productive capacity of every individual American who works has been multiplied 125 times in the past century by the perfection of labor saving machinery.

Government experts who compile industrial data assert that wealth is increased in America at the rate of $10 a day for every person who works.

Many trust managers now eliminate consideration of workmen as individuals. The mechanic is considered an automaton—a part of the high speed machine—and the longer it runs the more profit is made.

The manager of the Homestead (Pa.) Rolling mills, the armor plate factory of the steel trust, said in congress recently, "We have only three laborers in our mills—fire, water and electricity."

"I find no difficulty in running my newspapers and starting new ones on the eight hour day," said Representative William Randolph Hearst in congress. "My establishments run twenty-four hours a day, but the individual employees work only eight hours."

A congressional resolution to investigate the beef trust brought out these facts: Stock raisers get too little for cattle, consumers pay too much for meat, ranchers are robbed by the combination which keeps down the price of beef on the hoof, retail butchers cannot sell at a profit, dressed beef is higher than three years ago and the producer gets less, the cost of handling meats from ranch to block is reduced. Who gets the benefit?

Votes Show Popularity.

Election returns are true measures of a man's personal or political popularity. In districts where all elements of society are resident the canvass shows the esteem in which candidates are held. The Eleventh congressional district of New York is a typical, representative cosmopolitan community. Within its boundaries is part of the west side, whose residents work hard; part of Fifth avenue, where wealth and ease abound, and part of the Broadway business section.

This is the district that elected William Randolph Hearst as its representative in congress by the largest majority ever given to a representative in Greater New York. The figures are interesting. Representative Hearst received 26,953 votes, 16,112 more than his Republican opponent. The same percentage given to Bird S. Coler, the candidate for governor on the same ticket, would have elected a Democratic governor of the Empire state. Mr. Hearst's majority was 6,000 greater than Mayor McClellan's one year later, and the same precincts gave Mr. Hearst 3,000 more votes than Judge Alton B. Parker received, and the latter had the advantage in that the Republicans did not nominate any one against him.

Selling and Buying.

The department of commerce and labor recently published the statement that the average cost of living in America has increased 16 2-3 per cent. This statement is based undoubtedly on wholesale market quotations.

Since Nov. 1, 1903, there has been an average reduction of wages throughout the manufacturing centers of the east of 10 to 20 per cent. Flour and other foodstuffs have increased in price since the same date.

The price of newspapers in the great cities has been reduced two-thirds in fifteen years. The cost of producing them has increased. "Notwithstanding these conditions," says William Randolph Hearst, "my papers pay handsome profits, and wages are higher and the hours of toil reduced."

Americans Want Them.

Among the earnest and powerful supporters of the Panama canal and the greater navy for America none did more than Representative William Randolph Hearst to bring about the accomplishment of these two distinctly American projects.

Alaska's Product.

In thirty-six years Alaska has produced in gold, furs and fish $150,000,000. The revenues and taxes collected by the government since the purchase of the territory from Russia amount to $8,000,000.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

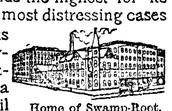
The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.



Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp Root, and the address, Binghamton, N. Y., on every bottle.

New Type And Machinery.

THE DEMOCRAT LEADER is now better than ever prepared to do fine job printing; in fact it is the only office in the city that has a large press for large work and small presses for small jobs.

We recently purchased the handsome Courier press—the best in the city—and have received direct from the manufacturers in the East some handsome new type of mammoth size together with borders, rules, etc., and a handsome new furniture rack. We now have everything to do first-class work, and if we cannot now do satisfactory job work of any description it cannot be done in town, or this side of Seattle. Our prices are right, too, as you will find them.

Railroad Outlook Good

Continued from page 1.

Mr. Belvin was seen Wednesday by a representative of THE DEMOCRAT-LEADER and completely took his breath away with the enthusiastic, prompt and confidential manner in which he answered the queries of the scribe. He is a very pleasant gentleman and impresses one that what he says can be relied upon. "I can only say," said he, "that I have been placed at the head of this railroad which you all want so much for the purpose of superintending its construction,and I will return here in forty-five days fully prepared to take up the work of construction along the lines of present survey, and to push the work to completion to transcontinental connection. I have with me Engineer Bogue's report on the feasibility of this railroad as to route and resources and find it very satisfactory, as it has proved to my associates. I leave here in the morning for New York and Boston and you can depend upon it that I will be back in about forty-five days to begin work."

Mr. Belvin also spoke of our great resources and possibilities and of early days on the sound. He had been to Port Angeles twenty years ago when there were but two or three buildings here and was then as now much impressed with our beautiful harbor, townsite and location.

The gentleman has been interested in this project for a month or two past and now seems to have matter well in hand. From all that can be learned the real object of his visit here seems to have been to have certain papers signed by local parties. A meeting of the directors of the road was held here Tuesday afternoon and some contract was entered into with the gentleman and his associates, but the nature of the document is not revealed.

Mr. Belvin left for the east via San Francisco Thursday morning accompanied to Seattle by Mr. Frye.

AFTERNOON SESSION.

Prof. Forrest pointed out the neglected phases of arithmetic; emphasizing particularly the neglect of addition and mental arithmetic. "It is not so much what we teach in arithmetic, but how we teach," said Prof. Forrest. A general discussion of the subject followed.

Prof. Kincaid opened his series of lectures with the subject of "The Life History of Insects," taking up the various kinds of metamorphosis. Much useful material was presented for the use of teachers in Nature Study work.

In the evening the teacher's gathered at the Masonic Hall for the purpose of social diversion. During the evening a musical program was contributed by Dr. and Mrs. Lewis, Miss Helen Hopkins, Miss McKee, Miss Frances Chambers and Miss Jolliette Glen. Contests and games completed the evenings entertainment.

TUESDAY.

Singing. Invocation by Rev. Cheal.

Prof. Forrest discussed Construction Work in Arithmetic, giving many helpful suggestions on this important phase of the subject.

The Rev. Cheal then gave an interesting and inspiring talk on the subject of the teachers' work, its possibilities and privileges.

During recess a picture of the institute was taken.

The next period was occupied by Prof. Kincaid with a highly interesting talk on "Ants and Their Ways." At the close of session the speaker answered several questions on his line of work.

AFTERNOON SESSION.

After roll call Prof. Kincaid continued his subject of Nature Study with a discussion of several topics; the use of the aquarium and a description of various animals that may be developed was given. The subject of galls was also discussed.

Instrumental music by Florence Elliott, Jolliette Glen and Frances Chambers and a recitation by Master Marquardt were given.

After recess, Prof. Forrest began his talk by answering the questions that had accumulated. The theory of units and its usefulness was shown. Prof. Forrest closed his period with a short discussion of Percentage.

Prof. Kincaid closed the session by answering a number of interesting question along the line of his work.

EVENING SESSION.

Prof. Forrest lectured on "Our Educational Progress During the Last Twenty Years." Prof. Forrest, a pioneer of this state, made his subject doubly interesting by accounts of his experiences in our school.

Instrumental music was furnished by Miss Hazel Hopkins, Miss Jolliotte Glen and Miss Helen Hopkins.

WEDNESDAY.

Invocations by the Rev. Fulmer.

Prof. Forrest began his period by giving the history of the figure. The utility and culture side of arithmetic were emphasized as reasons why we teach the subject.

After recess, Miss Boyker contributed a piano solo.

Prof. Kincaid took up the topics of the Star fish and the Earth-worm, in his usual fascinating manner. Several questions were answered.

Prof. Yoder, having arrived on the morning boat, was introduced and briefly outlined his work for the remainder of the week.

AFTERNOON SESSION.

Prof. Forrest devoted the first period to the subject of "The Washington Indian." Several traditions, gleaned by Prof. Forrest from the Indians of the state, related.

Prof. Kincaid resumed his talk on Nature Study, giving description of the bee and wasp.

The Rev. Baldridge addressed the teachers briefly.

A letter from Deputy State Supt. Cully, regretting his inability to be with us, was read by Supt. Risley.

Prof. Yoder concluded the work of the afternoon with his first topic, "The Study of a Backward Child." Prof. Yoder brought out value of hand work and music in the training of such a child. "The teachers' success with the dull child is the real test of her ability," said the speaker.

In the evening Prof. Kincaid gave an illustrated lecture on "Some Marvels of Animal Life." It was well attended. Instrumental music was furnished by the Juvenile Orchestra and a young ladies orchestra.

Thursday opened by singing. Invocation by Rev. Hill.

Mr. Wickersham said a few words for the E. G. Kellogg Pub. Co.

Roll call.

Prof. Yoder discussed the Course of Study. He advocates the cutting down of the modern curriculum and the length of time required to complete the course. An interested discussion followed.

A piano solo by Floy Mahaffy and recitations by Lucile Foster interspersed the morning's work.

Prof. Forrest solved several typical problems.

The next period Prof. Yoder devoted to a talk on his favorite subject "Adolescence." He discussed Joy and Sorrow in its effects on character.

Afternoon.—Prof. Forrest took up the subject of teachers' certificates, how granted, etc.

Prof. Yoder presented statistics on the subject of children's ideals, bringing out many interesting suggestions along that line.

After a short recess, Prof. Forrest related several more Indian traditions.

In the evening Prof. Yoder lectured to a large audience, his subject being "The Songs of the People." Accompanied by Miss Boyker and assisted occasionally by the audience, Prof. Yoder sang many old favorites.

Friday.—Notes.—Prof. Yoder subjects for today will be "The Study of a Particular Child," in the forenoon and select readings from "Song" in the afternoon. Prof. Forrest will talk on on the subjects of "Cliff Dwellers" and Arithmetic

A social session for the teachers' will be held in the opera house in the evening.

Commercial Club.

The Commercial club met in regular session Tuesday afternoon with President Lauridsen in the chair.

Minutes of meetings held April 5th and 11th read and approved.

Reports of Treasurer Morse and Secretary White were presented by Trustees Farmer and Grubb; approved. Treasurer Morse's report shows receipts for the year $334.71; expenditures, $329.84; balance on hand, $4.87.

Mr. D. W. Morse, as treasurer of the voting contest fund, made a report of the condition of said fund. It shows receipts of $363.80; donations, $320.25; balance on hand, $43.55.

The secretary read a letter from Land Commissioner Calvert in which he stated, in answer to the secretary's letter to him, that the Tumwater waterway was under control of the war department, and that in order to secure it as a donation to the city, that department would have to issue an order vacating it and then it would have to be deeded to the city by the state legislature, and promised to do anything in his power to assist us in the matter.

The secretary was instructed to thank Mr. Calvert for his promptness and expressions of good will.

The secretary read a letter from Mr. Ferree, of the stone quarry company, stating he had called on Major Millis, on his arrival at Seattle and that Major Millis had told him that the Tumwater waterway had never passed into control of the war department and all that would have to be done to secure the waterway to the city would be to get a bill through the state legislature, and he apprehended there would be no trouble in doing that.

The secretary reported that he had written Mr. D. W. Craig at Boston, who is trustee of the syndicate owning the lots desired by the quarry company, to secure lowest price on the lots in question, and that nothing could be done to secure the lots for the company until Mr. Craig's reply was received.

The secretary read a letter from Supt. Frank E. Burns, of the Puget Sound Navigation Co., relative to stage service to the lakes the coming summer. Mr. Burns wrote that the double steamer service would be started about May 15th, the same as last summer.

Mr. Day was instructed to see Mr. Peter Chambers as to the stage service and report to the secretary.

The secretary read a letter from the Puget Sound Exhibition Co., of Everett, in which they requested the city to send them stereopticon views of this section to be used in advertising throughout the East. No action was taken. Club adjourned.

Inflammatory Rheumatism Cured.

William Shaffer a blakeman of Dennison, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot. and in one week's time was able to go to work as happy as a clam."
