READY TO BEGIN WORK

Quarry People Have Money and Now Only Want Co-operation

Messrs. Wm. Barnett, vice president and superintendent, and R. E. Ferree, counsel of the Port Angeles Stone Co., and R. C. Button assistant to Mr. Barnett, arrived in the city Tuesday and announce that they are ready to begin work just as soon as the people of Port Angeles will sign an agreement pledging their support and good offices in securing for them the street franchise, waterway right and necessary tidelands. It is understood the committee having these matters in charge and the city council have signified a willingness to accede to the request of the gentlemen, and will pledge themselves to do everything in their power to secure for them what they ask.

Assurances have also been given the stone company that it can have the use of the Port Angeles Pacific railroad and as soon as the signatures above are given and the court order granting use of road is issued Mr. Barnett says his company is ready to bind themselves to go to work at once fixing up the road for transportation of stone and to open the quarry for shipments. Negotiations are now being made for electric power from city and for purchase of city's boiler and engines for emergencies. Mr. Barnett has a crew of half a dozen men at work commencing today clearing off the top of that part of the quarry to be first utilized. After the 15th inst., when the court order is expected granting permission to use the railroad, Mr. Barnett expects to put a large force of men at work. Provided, of course, that the citizens are ready to do their part. The preliminary work now being done, says Mr. Barnett, has to be done sometime, so we will not lose anything by it should we be prevented from going ahead with this enterprise through the failure of the city and citizens to do their part,

Since the last visit of Mr. Barnett the gentleman says the company has raised $17,000 by the sale of stock and none is now for sale. $10,000 of this is now available for the installation of machinery, which will be strictly up-to-date. The company has been re-organized since the advent of Thos. Heath, who has become heavily interested and has been elected president. Mr. Barnett is vice-president and superintendent, while A. J. Burroughs is secretary and treasurer and Mr. Ferree counsel.

For a nice lunch, at any time of the day, go to the Delicatessen, next to White's news stand.

Light Keeper J. E. Thomas was privileged to witness a very remarkable sight from the lighthouse Thursday. An huge elk came stalking up the spit to 150 feet of the buildings, stopped, then plunged by and off the point into the straits. At first he struck out for Dungeness point but soon steered off for the mouth of Ennis creek. The light people watched him throughout his long swim and saw him crawl out on the beach just above the gulch road and make for the woods. It is thought something got after the animal and drove him into the bay, and up the spit.

BIG TIMBER TRANSFER

Clallam Timber Co. Buys 8000 Acres from Conewango and Allegheny Cos.

Four big deeds were filed with the county auditor Tuesday by which the Clallam Timber Co., Limited succeeds to the ownership of over fifty quarter sections in townships 29, ranges 11, 12 and 13, situated in the Solduck valley, and formerly the property of the Allegheny and Conewango Lumber Companies, doing business under charter of West Virginia. The deal is made through C. W. Stone & Sons, of Warren, Pa., who were once interested in the western railroad scheme. The Clallam Timber Co. is a New Orleans institution.

APPLY FOR A RECEIVER

Seattle Hardware Co. Wants R. R. Co. Added to List.

Petition of the Seattle Hardware Co. for the appointment of C. J. Farmer as Receiver of the Port Angeles Pacific Railroad company was heard Wednesday before Judge Hatch and ordered continued until the 15th inst. Mr. Farmer is at present Receiver of the Elmira Logging Co. and the Smith-Mastick Construction Co. and it is thought that the purpose of seeking to place the railroad in with the other companies is that the Receiver may wind up the affairs of all at once by sale and give entire control to the purchaser.

It this connection it is given out that Messrs. Dean and Edgcourt have everything arranged in the east so that if they can get undisputed control of the road and its auxiliaries they are prepared to go ahead with its oparation and extension, and the building of an export mill here.

HARRIMAN IS COMING

To the Sound Sure and Probably to This City—Still Buying Tidelands

Under big scare headings "Harriman May Build to Port Angeles," the Seattle Star gives us the following:

"E. H. Harriman has civil engineers at work near Olympia, surveying lines southward lines southward from that city, and it is understood that he will begin work on his road from that place to Portland within a very short time. His men have been quietly at work surveying a route for a line from the Columbia river northward and rights-of-way in some sections have already been secured.

"In connection with this fact may be considered significant the fact that the Port Angeles Eastern railroad has floated bonds to the amount of $4,000,000 and that bankers from Boston and New York who are closely allied with Harriman, are supplying the money. This bond issue is said to be for the purpose of building the Port Angeles Eastern to Portland by way of Olympia. The news comes direct from Wall street and is official.

"Local railroaders who are familiar with the conditions say that Harriman would probably build westward from Port Angeles, then south along the Pacific coast. This would give entrance into a fine timber and agricultural country.

That Harriman is planning some big move is now admitted by all. His alliance with J. J. Hill is now broken and he can enter Hill's territory at will. The invasion of Mr. Hill's territory will not only be on Puget Sound, but all along the northwestern section traversed by the Hill roads. The Chicago, Milwaukee & St. Paul railroad, which has been an extensive purchaser of property on the sound, is without doubt closely allied with Harriman.

THE FOURTH IN AFRICA

THE Fourth of July found the American viaduct builders within seventy-five miles of Victoria Nyanza, the work about half-way to completion, and eleven finished viaducts behind them. The railway had been pushed ahead as a construction track without waiting for the remaining viaducts, and Port Florence was connected with the coast, a fact which was laughed at as a prediction when made by Henry M. Stanley years ago. By way of celebrating the Fourth the American Bridge company ran an excursion to Victoria Nyanza. The men realized the startling novelty of the pilgrimage and hailed it as a good yarn to carry home. Port Florence was not a metropolis, but a Fourth of July could not be commonplace which included dancing with native belles and hunting hippopotami on the edge of Victoria Nyanza.

The railroad terminus was a center of corrugated iron huts and tents, in which dwelt a few English and German traders and the railway staff. It could be scarcely called more than a terminal site. The railway brought up cotton and other merchandise in native demand and took to the coast ivory, skins and coffee from this distributing and collecting center of the lake trade. Port Florence was not sufficiently organized to support an American Fourth of July without serious strain. The terminus was violently agitated before sunset, but no more so than the party of bridgemen who took to boats in chase of the hippopotami. The great brutes swarmed close by the port, and the hunters found themselves surrounded by nearly a dozen of the "hippos." One of the party was so shaken in mind that he emptied his rifle skyward and then demanded to be set ashore with all possible speed.—A. B. Lueder in World's Work.

HE EMPTIED HIS RIFLE SKYWARD.

"DAY FIREWORKS."

And How They Are Set Off by the Japanese.

"Day fireworks," invented by a Japanese genius, Jinto Hirayama of Yokohama, are for exhibition in daylight and are interesting novelties. In the cities of Japan an exhibition of Hirayama fireworks draws crowds like a Mexican bullfight or an English football match.

The big shells are fired several hundred feet in the air from mortars and after explosion display, amid radiating streams of thin, pearly smoke, mammoth figures of dragons, human beings, birds, animals, fish, flowers, colored floating clouds, flags, lanterns, globes and streamers, together with mimic thunderstorms, blazing suns and silvery moons. These day fireworks are easily the chief sensation of the year in pyrotechnics.

From Japan there have come also some new bombshells, two, three and four break combinations not matched as yet elsewhere. These shells on exploding present splendid floral effects—laburnum, wistaria, lilacs, etc.—in splendid coloring, followed by peacock plumes, birds of paradise, harlequins, contortionists and all the infinite grotesquerie of Japanese invention.—Philadelphia North American.

A Fourth of July Tidbit.

A good tidbit for a Fourth of July lawn fete or luncheon is a claret jelly a la Lafayette. Take one pint of claret, one pint of water, half a pint of lemon juice, half an ounce of leaf gelatin, a pinch of cinnamon, two cloves, the thinly pared rind of half a lemon and two tablespoonfuls of red currant jelly. Put all the ingredients into a pan, bring them slowly to a boil and allow to simmer for five minutes. Then strain the contents into a mold and place in a cool place to set. Before turning the jelly out dip the mold into tepid water. This will loosen the jelly around each side.—New York Commercial Advertiser.

The Fourth In London.

In London patriotic Americans keep open house on Independence day, giving breakfasts or dinners to the members of the American embassy and going in a body to Westminster abbey to hang wreaths on the busts of American poets, Longfellow and Lowell being thus distinguished.

Oscar Nelson of Gettysburg was in town Tuesday, walking the entire 24 miles, as his business would not permit of his returning on the noon boat and he did not wish to lose two days. FEMALE WEAKNESS

642 1-2 Congress St.
PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Wilhelmina Sauer
Treasurer, Portland Economic League

Periodical headaches tell of female weakness. Wine of Cardui cures permanently nineteen out of every twenty cases of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Cardui now. Remember that headaches mean female weakness. Secure a $1.00 bottle of Wine of Cardui today.

THE DECLARATION.

How It Was Drawn, Debated and Finally Adopted.

On the immortal Fourth of the year 1776 the Declaration of Independence was adopted by the Continental congress. It was thirty-nine times before that body until it was finally adopted. Entire separation from England was not at first thought of by the colonies. New England wished it, but the southern states were against it. The seat of war having in 1776 been changed from the north to the south caused the south also to change her views. The North Carolina convention took the first step toward independence by a resolution to concur with those in the other colonies in declaring independence; this occurred on April 22, 1776. Virginia on May 17, 1776, prepared the title of the document by directing her representatives to propose in congress a "declaration of independence."

Thomas Jefferson, John Adams, Benjamin Franklin, Roger Sherman and Robert C. Livingston were the committee appointed to draft the Declaration. The draft was formulated almost entirely by Jefferson. Before July 1 Pennsylvania, Maryland and New Jersey had instructed their delegates to vote against the Declaration. These instructions were rescinded. South Carolina came over to the majority. Delaware's vote, at first divided, was cast in the affirmative.

The Declaration was therefore adopted by the unanimous vote of twelve states, New York alone not voting, on July 4, 1776. The New York convention afterward ratified the Declaration, and the engrossed copy was signed on Aug. 2. The Declaration sets forth the rights of man, and the colonies enumerate their grievances against the British government and declare "that these united colonies are and of right ought to be free and independent states."—New York Tribune.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

Patients often have no idea their disease is heart trouble, but ascribe it to Indigestion, Liver Complaint, etc.

Here are some of the symptoms: Shortness of breath after exercise. Smothering Spells. Pain in Chest, left Shoulder and arm. Discomfort in Lying on one side. Fainting Spells. Nervous Cough. Swelling of Feet and Ankles. Paleness of Face and Lips. Palpitation. Nightmare. Irregular Pulse.

"I have great faith in Dr. Miles' New Heart Cure, and speak of its merits whenever opportunity presents. I can now go up and down stairs with ease, where three weeks ago I could hardly walk one block." One year later.—"I am still in good health; the Heart Cure did so much for me, that I find it a far greater medicine than you claimed it to be."—S. D. YOUNG, D. "Go West,

Ranch it and rough it and you'll soon get rid of that weak chest and that hacking cough." That is what the doctor said to a young married man with a wife and child to care for and a modest salary to support them on. He *couldn't* go West. Love and duty tied him to his desk in the city.

People don't have to travel to cure coughs or strengthen weak lungs. Dr. Pierce's Golden Medical Discovery cures obstinate, deep-seated coughs, bronchitis, bleeding of the lungs, weakness, emaciation and other forms of disease which if neglected or unskillfully treated terminate fatally in consumption.

"I will write you what Dr. Pierce's Golden Medical Discovery has done for me," says George H. Belcher, Esq., of Dorton, Pike County, Ky. "Thirteen years ago I was wounded by a ball passing through my lung. I have had a bad cough almost ever since, with shortness of breath, and it was very easy to take cold; the slightest change of weather would cause the cough to be so bad I would have to sit up in bed all night. Could not eat or sleep at times; was all run down; could not work at all. A few months ago I began using Dr. Pierce's Golden Medical Discovery. Have not used more than two bottles, and now can eat, sleep, and work, and I feel like a new man. I cannot find words to sufficiently recommend Dr. Pierce's Golden Medical Discovery, or tell the good it has done me."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. The book has 1008 pages and over 700 illustrations. Address Dr. R. V. Pierce, Buffalo, N. Y.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

THE WEEK IN SOCIETY

On Wednesday evening, at their summer cottage on Ennis creek, Miss Montez and Mr. Jay Appleton royally entertained a number of their young friends with a dancing party. A light luncheon, of which brown bread and beans, baked in the camp oven, was the basis, and a monster camp or bonfire, were enjoyable features of the evening. The guests were Misses Jensen, Cook, Hanaman, Gould, Reid, MacLachlan, Ritchie, Welsh, and Trumbull and Messrs. Dilling, Ferguson, Lutz, Strong, Maeder, Trumbull, Souer, Reid and Babcock.

◆ ◆ ◆

On Monday evening, June 27th, Miss Helen Cook entertained a number of the young people with a contest and card party. The affair was extremely jolly, no end of amusement being derived from the modeling of animals and other subjects in chewing gum. The rooms were decorated with an abundance of roses and other cut flowers, and a luncheon, dainty in all its appointments, was served. Miss Cook's guests were: Misses Catherine Jensen, Lucy Bayton, Irene Reid, May Tyrrell, May Shields, Annie Ritchie, Agnes Hanaman, Neva Welsh, Vina Gould, Montez Appleton, Sadie Goldwater, Grace McIvor, and Mrs. Matthewson; Messrs. Matthewson, Boyle, Appleton, Maider, Strong, Matthews, Dorgan, Huskins, Babcock, Lutz, Souer, Shields, Ferguson.

The Woman's Parliamentary Club held its last meeting at the home of Mrs. C. E. Nailor. The parlors were beautifully decorated with flowers. At the close of the business session the hostess distributed booklets in which was found a contest, "Nuts to Crack." Mrs. Hopkins carried off the prize. The poetical ability of each lady was tested in the composing of an eight-lined verse on "Peanuts." The judges were baffied as to whom the prize belonged but finally awarded it to Mrs. J. E. Thomas. The guests were then invited to the dining room where a delightful luncheon was served. Pink roses were draped from the ceiling to the corners of the table. Sweet peas, the club flower, were a part of the table decorations. Hidden in the napkins were peanut hulls tied with pink and green ribbon, containing conundrums. Mrs. Wiggins, Miss Cook, Mrs. Nailor and Miss Nailor favored the company with music. Auld Lang Syne was sung at parting, all declaring the meeting to be one of the best held during the year.

The photograph gallery will be closed from July 7th to July 14.

AXEL FORSBERG DEAD.

Axel Forsbeeg, eldest son of Mr. and Mrs. P. O. Forsberg, died at his home at Dry Creek Tuesday evening at 7:10 after an illness of one week. Pneumonia was the cause of death. Two weeks ago Mr. Forsberg left for Oregon, where he secured a claim on the cattle range. Thursday of last week he returned home with a well developed case of pneumonia which grew worse until he carried a terrible load, and on Tuesday evening passed away after a severe struggle. The fruneral was held Thursday from the family home and was conducted by City Attorney Smith. At the grave Mayor Lewis gave an eulogy attesting to the worth and strength of character of the young man whom he has known so long and learned to love. The entire neighborhood and a large number of friends from the city attended.

Axel Forsberg was born at Gefle, Sweden, February 26, 1865. Came to America and resided with his parents in Chicago from 1868 to 1887, when he came to Port Angeles as one of the first of the colony settlers. Here he has since resided and counts his friends by his acquaintances.

In March 1892 he was united in marriage to Alwina Flunser, who now mourns his untimely death. Three children, aged 11, 8 and 5 years, are also left fatherless.

Madame Clark, palmist and life reader, is in the city and announces that she will give free lectures for any club that will engage hall for the purpose. She is stopping at the Cooper building, where she can be in erviewed at anytime.

ALTON BROOKS PARKER.

Messrs. W. F. Delabarre, T. F. Trumbull and Dr. Mead spent three days of the past week fishing, going some eight miles above the upper bridge. A 5 pound Dolly Varden was their high notch. They were within some twenty feet of twin fawn, which were playing in the sand, and also, at another time, of a buck and doe, which were almost as unconcerned as sheep would have been.
