THE DEMOCRAT-LEADER.

VOL. 5. NO. 11. PORT ANGELES, CLALLAM COUNTY, WASHINGTON, AUGUST 3, 1891. 8 PAGES.---PRICE FIVE CENTS

Evidence of Returning Prosperity.

"The lumber business on the sound is improving, as shown by the revival of the foreign cargo trade," says the East Clallam Record. "The big mill at Port Blakely has a number of vessels loading for foreign ports and has been running night and day of late; the Hadlock mill has started up after a long period of idleness; the second mill of the Puget Sound Mill company at Port Gamble was put in operation a few months ago and up in British Columbia several of the big mill are running overtime. There are more Australian, South American and English charters on Puget Sound now than for months past, and other are reported on the way. It is a good sign when the demand in Australia and South America show signs of improving, because in years gone by these two countries kept the mills of Puget Sound running night and day. It certainly indicates that the financial panic is no more in evidence across the sea, and this being so, an immense amount of lumber will be used to rebuild, repair and upbuild these countries. The revival of the foreign trade of the Sound is the most hopeful sign of returning prosperity to this country that we have seen in this year of disaster."

The Weather.

A Dairyman's Opinion.

There is nothing I have ever used for muscular rheumatism that gives me as much relief as Chamberlain's Pain Balm does. I have been using it for about two years—four bottles in all—as occasion required, and always keep a bottle of it in my home. I believe I know a good thing when I get hold of it, and Pain Balm is the best liniment I have ever met with. W. B. Denny, dairyman, New Lexington, Ohio. 50 cent bottles for sale by J. C. LAND OF THE OLYMPICS.

Clallam a Veritable Little Empire.

WITH EVERY NATURAL RESOURCE

Essential to Support a Large Population of Producers—Its Magnificent Commercial Highway—Wealth of Varied Resources—Two Miles of Open Ditch to Be Constructed on the Shumar Ranch.

Clallam of itself is, indeed, a veritable little empire, possessing every essential resource of commercial greatness.

THE DEMOCRAT-LEADER, through the courtesy of Messrs. E. A. FitzHenry and F. E. Semon, is permitted to publish some valuable statistical matter of the grand little empire, over which the snow capped Olympics keep eternal vigilance and the gentle swells from Pacific's inland sea rise and fall murmuring a plaintive requiem over a dead past, that leaves a blank in history's pages.

Greater in area than Rhode Island with 1085 square miles, and 345,506 population; greater than Delaware with 1,960 square miles, and 168,493 population; nearly two-thirds the size of Connecticut with 4,845 square miles, and 746,255 population, Clallam with its 2,500 square miles and 8,000 people, unfolds to the thoughtful food for sober reflection as to its future possibilities.

The distance from the eastern to the western boundary is 85 miles, from the northern to the southern boundary on the west coast, 36 miles, and the eastern boundary, from north to south, 16 miles.

To many the fact would seem almost incredible that Clallam has 150 miles of coast line, the waters of the Pacific and of the straits of Juan de Fuca washing its shores.

The county is sub-divided into 53 townships, 22 of which are unsurveyed.

Clallam is traversed by a chain of mountains, a number of the peaks of which are crowned with eternal snow. Rising in the northwest the Olympics cross the county in a southeasterly direction, and sloping to the straits, they trend toward the Pacific. The vast expanse of country to the west of the Olympics, known as the Quillayute, is rich in agriculture and timber, while that sloping to the straits is interspersed here and there with rich valleys, densely covered with underbrush, stately fir and cedar, alder and maple, the ridges and foot-hills being crowned with forests of superior merchantable fir, spruce and cedar.

In varied natural scenery Clallam is not surpassed by that of any other country. Her snow-capped mountains, beautiful lakes, grand waterway, rugged landscape, unfolds a scenic panorama of wonderous grandeur and beauty.

Every postoffice, road and school district, waterway and public thoroughfare is designated on the map, which stamps it with inestimable public value.

With numerous lakes, mountain recesses, where wild game roams at will, innumerable streams abounding with mountain trout, Clallam is, indeed, the ideal sportsman's and pleasure-seeker's paradise.

The two principal lakes are Crescent and Ozette. In area Ozette exceeds Crescent, the latter, however, is greater in length, being 8½ miles, while the longest point on Ozette barely reaches 8 miles. Sutherland, Dickey and numerous other smaller lakes, are already famed as delightful fishing and boating resorts.

Truly favored is Clallam.

A SYSTEM OF DRAINS.

Transforming a Rich But Unproductive Tract Into a Most Fertile Ranch.

A system of drains covering an area of two miles of surveyed lines are in process of construction the completion of which will redeem a rich but what is now practically an unproductive tract of land, and render it one of the most productive ranches in Clallam.

This important work is being prosecuted on the Shumar place, situated 6 miles east of Port Angeles, the guiding spirit being Mr. R. C. Wilson, of this city.

The engineers who drew the plans and prosecuted the field work are Messrs. FitzHenry and Semon, of this city.

The land embraces two prairies, designated the north and south, and separated by a ridge, through which the county road runs.

The refuse water will be coursed through open ditches, with the exception of a minature tunnal, 350 feet in length, already constructed on north prairie.

Of the two miles 2,900 feet of ditch are now completed. This work is confined to north prairie, the object being to first reclaim it.

The Shumar place comprises 160 acres, 120 acres of which will be ready for cultivation with the completion of these ditches.

The soil, a deep loam, like all reclaimed land, when subdued to a perfect state of cultivation, produces enormous crops. Accessible to good markets it would make a model dairy ranch, and, no doubt, under the present systematic management. will be transformed into a valuable and profitable farm.

WASHINGTON SHINGLES.

Favorable Outlook for a More Profitable Eastern Market.

Eastern dealers are commencing to order Washington shingles for the fall trade and the business is looking up materially. Advices state that during the suspension of shipments, caused by floods and strikes, quotations went up in a lively manner, and the relief occasioned by the arrival of some 800 carloads in transit will be appreciated.—West Coast Trade.

For the past two years the Eastern shingle market has been quite active, the margin of profit, however, was so close that manufacturers were unable to make much money. The cost of transportation was above the prohibitive point, until the Great Northern railway made a special lumber and shingle rate, enabling manufacturers to reach the Eastern market and sell at a profit.

The shingle is one of Western Washington's most important industries. The cedar from which the shingle is manufactured in Western Washington assumes enormous proportions, nearly equaling in size that monarch of the forest, the stately fir, And the extent of the cedar forests is quite as vast as that of the fir.

Conservative timber experts estimate a sufficient quantity of cedar in Western Washington to supply the markets of the world for a quarter century.

Already hundreds of thousands of dollars are invested in the shingle industry on Puget Sound. In Whatcom county, alone, fifty mills are in operation

Puget Sound is so far removed that the cost of transportation will always be one of the most serious obstacles encountered in bringing its products in competion with those of eastern trade centres. Notwithstanding this, an extensive and an expansive market has been established in the East for Washington shingles. But manufacturers must have lower transportation to permit a sufficient marginal profit to adequately compensate labor. While the tendency is positively in the direction of a sound, business basis, the condition of the shingle market in Washington has ever been one of semi-paralysis, assuring neither capital nor labor adequate returns for interests involved.

The prospects are very flattering, indeed, for better prices for Washington shingle. This, with lower transportion, will enable the manufacturer to pay labor living wages and make a fair profit himself.

COUNTY NEWS.

Interesting Paragraphs Gathered From the County Press.

East Clallam Record.]

The schooner Challenger sailed for San Francisco on Tuesday with 400,000 feet of spruce.

The wedding boom has evidently started in this locality, as one or two more are assured in the near future.

J. F. Liebeck's building on Frontier street was totally destroyed by fire Thursday night. The fire broke out about ten o'clock, supposed to have been caused by fire left in the cooking stove.

The schooner Sequoia will take a lumber cargo to San Francisco. She has been lying at Port Hadlock lately, awaiting orders and arrived here on Thursday in tow of a tug.

Robert Singleton and Mrs. Kate Kreuse were married on Tuesday, at the home of Mr. and Mrs. P. Bucholz on the ranch. The ceremony was performed by J. H. Marlette, J. P., a few personal friends being present.

Alexander McAnich died at Forks on Sunday morning of consumption. Deceased was a single man 26 years of age, and has been ill for some time. On Saturday Dr. Roberts was sent for and started out to Forks in the evening reaching there Sunday morning about the time McAnich died.

Frank Balch, the Boston merchant, was here Monday evening to meet the steamer Willapa which brought him a neat and handsome buggy. He drove out with it on his return home Tuesday morning and can lay claim to the honor of having taken the first buggy over the road from East Clallam to Quillayute.

[Beaver Leader.]

There are plenty of salmon in the Quillayute river now, and the Indians are making fine catches.

There were quite a number of whale in the bay at La Push the other day. Two big whaling canoes with Indians were after them but did not get any. July and August is the whaling season here. One season the Indians caught whales, the largest one measured sixty feet in length.

The rain the past week has done a great deal of good to all kinds of crops, barring hay. Several of the ranchers have hay down and some of it is pretty apt to be somewhat spoiled.

Mr. Hans Hanson, of Quillayute, called on the Leader Thursday evening while on his way home from a visit to friends in the upper Solduck and Bear Creek valleys. Mr. Hanson reports everything flourishing in his neighborhood, and that crops will be far ahead of last season. He has just recently erected a new house and barn on his ranch, as his former residence was destroyed by fire about a month ago. Mr. Hansen is one of Quillayute's prosperous ranchers.

The first and only carriage ever brought into the Quillayute country, passed through Beaver Tuesday morning with Mr. Frank T. Balch, of Boston, in its seat. Mr. Balch was making good time as it was only ten o'clock when he reached here, having left Clallam in the morning. It was a case of stop and talk with everyone and everyone had a thousand one question, more or less, to ask. Mr. Balch has resided in the Quillayute for twenty-four years, and was one of the first settlers to locate in this wild woods.

A FRIGHTFUL DISASTER.

The City Electric Lighting Pipe Line

WRECKED ON A ROCK-BOUND COAST

Through Gross Business Incapacity—The Court Grants a Temporary Restraining Order and Will Be Petitioned for a Permanent Injunction, Which Restrains the City From Constructing Its Pipe Line on Fraser Creek.

The motion for a temporary restraining order, petitioned for by the Port Angeles Water company, enjoining W. C. Williams, Manager, and the city of Port Angeles from prosecuting work on the electric lighting pipe line on Fraser creek was argued before the superior court, J. G. McGinton, Judge, last Tuesday afternoon. After the arguments had been made by the attorneys for the plaintiff and defense, the court sustained the motion and granted the temporary restraining order.

It is understood that the attorneys for the plaintiff will apply to the court within a few days for a permanent injunction, which, judging from the recent decision rendered by the court in this case, will undoubtedly be granted.

The attorneys appearing for the plaintiff were Messrs. R. C. Wilson and W. L. Marquardt, and for the defendant Messrs. W. R. Gay, of Seattle, and F. O. Lamoreux, of this city.

IT WAS DUNGENESS DAY.

The Home Team Distanced in the Match Game at Dungeness.

Few of the ardent admirers of the national game anticipated the ignominious defeat awaiting the home team in the contest at Dungeness last Sunday. As a partial explanation a number of changes were made at the last moment, and the home team entered the contest almost unfamiliar with each other's playing. The logical result was that Dungeness scored 14 runs the first inning. This so disheartened, disgusted and demoralized the home team, that they played aimlessly and indifferently throughout the remainder of the game.

It is the same old, oft-repeated story of the undisciplined and unprepared waging battle against superior forces, trained and equipped for the struggle. There can be but one result. And victory perches not on the banners of the former.

There is no reason why Angeles should not have a strong base ball club. But it is positively certain that it can never boast that exalted honor, unless, in the language of the street arab, the boys "get in and drill."

The visitors speak in the warmest terms of the generous and hospitable treatment received while at Dungeness. Last Saturday evening a dance was given which was attended by quite a number of young people from this city.

The excursion on the steamer Evangel while not as large as anticipated, was taken advantage of by quite a number.

The Turpentine Works Again.

Mr. F. Kirstein, formerly manager of the Turpentine works, situated just within the eastern limits of the city, arrived from San Francisco on the Puebla last Tuesday evening. The purpose of Mr. Kirstein's visit at the present time is to submit a proposition in the interest of San Francisco citizens who will furnish the money to resume the construction of the works.

While in San Francisco Mr. Kirstein had an analysis made of some crude pitch which contained 28 58-100 per cent. of pure turpentine. This is sufficient to justify the profitable operation of the works.

The sentiment is practically unanimous among the stockholders to resume the construction of the works and if the proposition Mr. Kirstein desires to submit is at all reasonable, it is not unlikely it will be accepted.

THE INTER-STATE FAIR.

Some of the Attractions That Will Be Seen When the Gates Open Aug. 15.

What with floods and strikes cutting off communication with all parts of the country, the Inter-State Fair management at Tacoma has been having many difficulties to contend with of late, but now these difficulties are past and the project is moving on better and with brighter hopes of success than ever before. For weeks the exhibitors and concessioniers in San Francisco and elsewhere were working at cross purposes with the management, the most important letters having been in the mail blockades. The recent arrival here of foreign commissioner Joseph N. Stiles has straightened out the tangle, and work is going ahead at an increased rate to make up for lost time.

There are a host of new attractions that have been secured. Commissioner Stiles, in his selection of foreign exhibits, has taken only the best. The Bohemian glass works, the Italian statuary, the East Indian exhibit, with its countless carving, tapestries and oddities of the Oriental climes, are all coming. F. I. Thompson, manager of the scenic railway, the most successful concession at the Midwinter fair is here and has ordered the immediate construction of his unique track.

Then there is the Battle of Gettysburg cyclorama, whose managers have secured the concession and are here to superintend the erection of the circular building in which the great battle is to be pictured so graphically.

The Cairo village people are already on the ground, having come from San Francisco with their dancing girls, their donkeys, their camels and their exhibits of Oriental goods.

The Roltaire illusion shows are on their way from San Francisco with twenty-three tons of freight and equipage, Five great illusions will be seen in this concession, all for one price of admission.

Director General Bucey has secured from the agricultural department of the United States the costly exhibit of fruit models the department has gathered.

The last few days have been busy ones with the Fair management, and they will grow busier from now on. There is much to be done but there are many hands to do it. Without a doubt all buildings will be up, even to the stand of the humblest concessionier, when with fitting ceremony, the gates are opened August 15th.

Lumber for Valparaiso.

Negotiations for a cargo of lumber for Valparaiso are pending between Receiver Malony, of the Port Angeles Mill and Lumber Company, and Capt. Wilson of the ship Pacifico, lying at anchor in the harbor. The cargo will comprise 630,000 feet of dimensional lumber, and must be delivered aboard the vessel within 30 days from the date of loading.

If the negotiations are consummated the vessel will be moored at the docks at the head of the spit, and the Colony mill will fill a portion of the order, conveying the lumber on lighters to the vessel. The matter will be definitely settled one way or the other by the latter part of the week.

Better Even Than Charity.

One dollar given to help the unemployed to honorable work is worth ten given in charity. An hour of kindly sympathetic fellowship with the lowly in their humble home brings to them more real comfort and happiness than a gift of money sent by mail.—West Coast Trade.

WOOD PULP SILK.

Chardomet's Discovery Perfected and a Mill Started In France.

An experiment is being made at Besancon, in France, with a substitute for silk, which will be watched with interest. The invention, that of Count de Chardomet, is to convert wood pulp into soft silken thread, durable, luminous and elastic. The "silk" threads produced from the wood pulp were first shown at the last Paris exhibition, when they enjoyed a good deal of attention among those interested in the silk industry. But the process was at that time far from complete, and many improvements had to be made before the invention could be regarded as a commercial success.

That point, in the opinion of Count de Chardomet, has now been reached, and a mill has been built for the manufacture of goods from the new material. There are still some details in the process which must be improved before capitalists are likely to embark in the venture. One of the great difficulties, it appears, that has to be overcome is the snapping of the threads while they are being spun, owing to the unequal pressure which is exercised in forcing the wood pulp through an exceedingly small aperture, so as to convert it into thread. This is a defect, however, which the inventor is confident he will soon overcome. After the wood has been reduced to the consistency of pulp it is dried in an oven and then plunged into a mixture of sulphuric and nitric acids, washed in several baths of water and dried by alcohol. The product is afterward dissolved in ether and pure alcohol, and the result is collodion similar to that used in photography.

This collodion, which is a sticky, viscous substance, is inclosed in a solid receptacle furnished with a filter at the lower end. An air pump sends compressed air into the receptacle, and by this pressure the collodion is forced through horizontally in the form of fine threads. As the thread is forced out it passes through a vessel filled with ether and alcohol, which solidifies the collodion and makes it elastic and as brilliant as silk. If the invention turns out as successfully as its inventor anticipates, it will be the beginning of a very important industry.—Edinburgh Scotsman.

The local wheat market is inactive and values are almost devoid of stability. Offerings are liberal but buyers hold off and only take very small lots, even though settlers offer to make concessions in price. But little is being taken on export account and dealers do not anticipate any improvement until there is some change at foreign centers that will stimulate trade. Reports from Europe are favorable for a fair average yield in grain growing sections.

The movement in merchandise lines yesterday was first-class. The corn market is very strong and several advances are noticed. Freight is arriving as before the strike and back orders are being rapidly filled. There were few changes in the produce market.

Dairy produce is selling well.

The Most Successful Gas Engine

In the market is run without an electric spark battery. Theory is all very well, but the every day experience of constant practical use is the est of its merit. The man who runs a launch and finds himself drifting with the tide and wind because the "spark" fails to ignite the charge of gas in his engine; the man who prints a daily paper and fails to get it off on time because the "spark" again fails; the man who has fruit that is injured for lack of irrigation because "spark" fails in his engine that runs the pump not only such parties but others who have trouble from like causes should bear in mind that the Hercules gas and Gasoline engine is free from such difficulties. The ignition is simple and sure. Send for catalogue. If you want second-hand engines of other makes at cheap rates we can supply you. We have a number taken in trade and cannot take any more until these are realized on. PALMER & REY TYPE FOUNDRY, Front and Alder streets, Portland, Oregon.

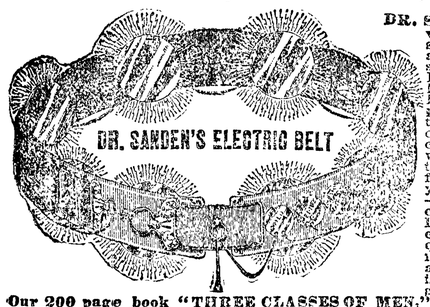
HAVE YOU TRIED DRUGS AND FAILED

TO FIND A CURE FOR

RHEUMATISM, LUMBAGO, SCIATICA, KIDNEY, LIVER and BLADDER COMPLAINTS, DYSPEPSIA, LAME-BACK, &c.



DR. SANDEN'S ELECTRIC BELT with Electro Magnetic Suspensory will cure without medicine all of the above troubles. Those who suffer from Nervous Debility, Losses, Drains, Lost Manhood, Nervousness, Sleeplessness, Poor Memory, all Female Complaints, and general ill health, the effects of abuse, excesses, worry or exposure, will find relief and prompt cure in our marvelous invention, which requires but a trial to convince the most skeptical. In ignorance of effects you may have unduly drained your system of nerve force and vitality—which is electricity—and thus caused your weakness or lack of force. If you replace into your system the elements thus drained, which are required for vigorous strength, you will remove the cause and health, strength and vigor will follow at once. This is our plan and treatment, and we guarantee a cure or refund money.

Our 200 page book "THREE CLASSES OF MEN," should be read by every young, middle-aged and old man, sent sealed, free. Dr. Sanden's Electric Belt is no experiment as we have restored thousands to robust health and vigor, after all other treatments failed, as can be shown by hundreds of cases throughout this and other States, who would gladly testify, and from many of whom we have strong letters bearing testimony to their recovery after using our Belt.

WE HAVE CURED THESE—WE CAN CURE YOU!

CENERAL DEBILITY CURED.

San Francisco, Cal., August 14, 1892.
Dr. A. T. Sanden, Dear Sir:—Before I used your belt I was troubled with lost vigor, vital weakness, and almost a complete loss of power. I would get up with a very tired feeling, bones aching, etc.; since using your belt I have had a new lease of life. I now enjoy life better than I have for ten years past. I have the utmost confidence in your treatment. You can publish this statement, also have others write or call on me. Truly yours, H. A. BOWEN, 25 and 28 Turk St.

RHEUMATISM AND LAMENESS CURED.

Fort Land, Oregon, April 18 1892.
Dr. A. T. Sanden, Dear Sir:—I got one of your belts two weeks ago for rheumatism, from which I suffered for several years. For the past six months I had not been able to work. Your belt has placed me in almost perfect health in the two weeks I have used it. I can walk comfortably, and feel like a new man generally.
M. E. HUGHES, Proprietor International Hotel.

NERVOUS DEBILITY—LOSS OF VIGOR.

Tacoma, Wash., October 21, 1892.
Dr. A. T Sanden, Dear Sir:—I have been using your Electric belt for general nervous debility, and to-day feel better than I have for five years. I have gained in vigor daily, and am strong in every part.
Yours gratefully, CHAS. LUETKA.

LAME BACK AND RHEUMATISM.

Portland Oregon, September 26, 1892.
Dr. A. T. Sanden, Dear Sir:—Years of exposure and hard work, combined with the strain coming from the jar of an engine, gave me a severe case of lame back, from which I suffered for seven years. I was so bad that I could not bend my back. Was all doubled up with it. I bought one of your belts. It helped me in the of two days, and I continued to wear it for four months, being perfectly cured. That was two years ago, and I am as well to-day as I ever was in my life. I know your belt well, and I know lots of people who have been cured by it. Many others need it, and if they would try it they would find it the same as I did—the best remedy in the world. I am located here permanently, and will be glad to talk with any one who wants to inquire about it.
ROBERT BURNES, The Closer Hotel Portland.

LOST VITALITY AND STRENGTH.

Everett, Wash, June 13, 1892.
Dr. A. T. Sanden, Dear Sir:—Since wearing your belt I have been greatly benefited. I feel my old energy is returning, and after a month's use of the belt I find myself twice as vigorous as before. My memory is now nearly perfect, and each day shows for the better. I feel much stronger than before using the belt. Yours truly, HENRY SCHULTZ.

THE DR. SANDEN ELECTRIC BELT

is a complete galvanic battery, made into a belt so as to be easily worn during work or street, and it gives soothing, prolonged currents which are instantly felt throughout all weak parts, or we forfeit $5,000. It has an Improved Electric Suspensory, the greatest boon ever given weak men, and we warrant it to cure any of the above weaknesses, and to enlarge shrunken limbs or parts, or Money Refunded. They are graded in strength to meet all stages of weakness in young, middle-aged and old men, and will cure the worst cases in two or three months. Address for full information.

JOHN W. TROY.....Editor

AS MEN AND AS REPUBLICANS.

The Beaver Leader suggests that B. John Baker, ex-auditor of Clallam county, appropriated the Clallam county bond for $1000, as a man and not as a Republican. We have no quarral with this. It could also have added that the county surveyor as a man made estimates of work done by the Burlingame Contract Company for several thousand dollars more than the company had built roads for, and the county auditor and his deputy as men, after more or less bluffing, issued warrants for the amount. The board of county commissioners as men accepted this road without its complying with the specifications; and, as men, this same board of county commissioners allowed the deputy county auditor, as a man, $384 for 128 days services as clerk of the board of county commissioners, while the same deputy county auditor was being paid $100 per month for such services.

Yet, the fact remains that these men are all Republicans and were elected to office as such, and some of them seek to again dictate the affairs of Clallam county, as Republicans.

IT is not necessary for THE DEMOCRAT-LEADER to reply to the attacks of the Beaver Leader on the auditor's office. The people of Clallam county, including the editor of that organ know there is no truth in its statements.

THREE, NOT FORTY-THREE.

Senator Gorman is reported as saying that "the Senate amendments were added to the bill for the purpose of making it acceptable to the forty-three Democrats whose votes are necessary to pass it."

Senator Gorman's ingrained habit of compromising has led him to compromise the truth.

The amendments made to the Wilson bill in the Senate were reluctantly made, against the protest of the majority of the committee having it in charge, for the purpose of making it acceptable to three Senators, not forty-three.

Senators Gorman, Brice and Smith were the men who insisted on McKinleyizing the bill as the condition of their voting for it.

In dealing with figures it is well to be exact.—New York World.

You have heard the story about "How we apples swim?" The Beaver Leader claims credit for the 10 per cent. reduction in the salaries of the deputy county officers.

NOT EXACTLY TRUE.

The Post-Intelligencer mistates the facts when it says that Gorman proved by Senators Harris, Vest and Jones, that President Cleveland had approved the Senate compromise bill. The facts are, Senate Vest had not seen the President; Senator Harris said while he knew the president was not satisfied with the bill, it was his understanding that the president favored it as an alternative rather than the McKinley bill and Senator Jones admitted that the president always advocated free iron and coal.

It would be well if the Post-Intelligencer's political editor would read the news columns of his paper more carefully.

THE indecent, unmanly and untruthful attacks of the Beaver Leader on County Clerk Richardson, are both monotonous and ridiculous.

QUEER LOGIC.

The Post-Intelligencer is a queer paper most any way you take it. But probably its queerest phase is its logic. It says that if the House agrees to the Senate sugar schedule, the Democratic congress will be defeated this fall and the Republicans will have a tremendous majority in the next congress. Yet all of its readers know, and it will admit, that the Republican McKinley bill gives the trust twice as much as the Senate bill does. The Post-Intelligencer must think that Republicans are made by queer logic.

ACCORDING to the figures of experts, the Senate tariff bill is equal to about a 20 per cent. reduction of the tariff. In many cases it is more, but less in but few. Therefore it is safe to say that it is 20 per cent. better than the McKinley bill, and a Democratic senate is at least this much better than a Republican senate.

IF the House bill can be forced on the senate it is probable that there will not be a general tariff bill introduced for a decade. The tariff reformers will probably content themselves for that time with making an article free at a time, each by a separate bill.

SENATOR HILL has made a good many able addresses in the U. S. Senate, but as for his record so far, his fame will rest on his defense of President Cleveland. Is it the address or the subject that counts?

THE HOUSE BILL WILL WIN.

There is Every Prospect That Congress Will Soon Pass a Genuine Tariff Bill.

WASHINGTON, August 2.—Active negotiations are proceeding both in the tariff conference and in influential quarters outside to bring about a complete agreement on the tariff bill, and a prediction is made that the end is near at hand. It is denied with emphesis on house side that the senate sugar schedule and the senate rate on iron would prevail and the house would be compensated by a reciprocity clause on coal. It is stated the sugar schedule will not be thus fixed by the senate, nor the free sugar of the house bill, but the middle ground. Friends of the administration say there is a good prospect of the president's insisting on free raw materials and will receive substantial recognition and deny as impossible all reports of any agreement to be on the basis accepting the senate rate on coal and iron. The Democratic conferees were together again two hours today and at a close meeting of the house members expressed the same confidence of a speedy settlement they had after yesterday's meeting. Chairman Holman of the Democratic caucus committee, said the tariff situation had changed so materially for the better that a caucus will not be held for the present. The senate conferees can say very little; one said there were more indications of reaching an understanding than there has hitherto been.

THE POPULISTS HOLD PRIMARIES

And Elect Delegates to the County Convention Which Meets Aug. 7th.

Last Tuesday the Populists held primaries throughout the county and elected delegates to attend the county convention which convenes in this city next Tuesday, August 7th.

The delegates elected from the several wards of this city were as follows:

First Ward—J. W. Stewart, J. C. Coolidge, C. A. Wood and Wm. Clark.

Second—E. Sommers, T. Wagner, F. Foss.

Third—Wm. Hamilton, C. McLaughand —— Swanson.

Fourth—Messrs. Carter, McClutcheon and Cramer.

Fifth—Messrs. Nichols, Gerke and Johnson.

Sixth—Messrs. Ristine and Davis.

Bellview—John Cook, E. Christopherson and E. M. Bohall.

Council Notes.

The mayor and all of the councilmen excepting McGill and Beam were present last Wednesday evening.

In a communication from Tom Moore he calls the attention of the council to the fact that Lincoln street wharf upon which he has a building leased from the city, is in an impassable condition and dangerous to life and property, and should either be repaired or condemned, otherwise he will hold the city responsible for any damage that may result to either himself or to his property, through the neglect of the city to repair this wharf.

A petition was read and filed, from a number of citizens of Tumwater Heights, praying that the Levy-Hocker franchise be not granted.

The city clerk was authorized to draw a warrant in favor of the city attorney for $2, to liquidate certain court fees incurred in a case in which the city is a party. The council adjourned.

Wenomah School.

The Wenomah School opened July 9th with an enrollment of thirteen names.

Those neither absent nor tardy and perfect in deportment for the month ending August 3rd, are Lydia Johnson, Ethel, Leon and Percy Miller. Also perfect in deportment were Jennie and Mabel Johnson, Myrtle Madison, Blanche Miller and Warren Madison.

Those receiving the five highest averages were Ethel Miller and Jennie Johnson, of the fifth reader grade; Blanche and Leon Miller, of the third reader grade, and Clifford Wilson, of the first reader grade.

Number of visitors during the month, sixteen.

TEACHERS ELECTED

For the Ensuing School Year—Prof. Tiffany Retained.

The school board met last Wednesday evening, all members being present. The most important business coming before the board was that of engaging teachers for the ensuing school year which begins next September.

Fully fifty applications had been made for the dozen positions in the city schools, and the selection of a corps of teachers from that array of talent was by no means an indifferent task.

The resignation of Mr. T. Wagner having been filed was accepted.

The board then proceeded to the election of teachers, with the following result:

Prof. Tiffany at an annual salary of $1,000.

A. N. Taylor, $80 per month; A. M. Johnston, $55 per month; Miss Love, $60 per month; Mrs. Ballou, $50 per month; Mr. Shelton, Mrs. A. M. Johnston, T. Edwards, Miss Pitts, Ed. Hatch and Miss Guptill, at $55 per month.

It is quite probable that several more teachers will be required as soon as the city schools will have been properly organized.

THE RESOURCEFUL GENIUS

Of the Renowned Colonel Mulsberry Sellers.

From its inception Port Angeles has been beseiged with every conceivable proposition demanding a bonus in lieu of its establishment and operation here. But the most unique of all has just been made by Mr. Hodgkins of Tacoma, who is the inventor of an ice cutter, made with wires and heated with electricity.

Mr. Hodgkins claims his is the only known invention that will successfully cut square blocks of a uniform size from a solid body of ice.

It is supposed that there are huge glaciers near Mt. Olympus, and it is the purpose of this resourceful inventor to have citizens furnish the money to build a flume from the city into the glacier region, through which the blocks of ice will slide a la toboggan fashion, into a ship's hold at the wharves.

The inventor wants the shute built by citizens, and fifty per cent. of the stock of the Mt. Olympus Glacial Co., as a substantial recognition of his invention.

He doubtless will succeed.

Agreeably Surprised.

Mr. and Mrs. J. P. Christensen were agreeably surprised last Sunday evening by quite a number of their friends who who had successfully planned what proved to be a very enjoyable evening's pastime. The guests were cordially received by Mr. and Mrs. Christensen. Card playing and music contributed to the entertainment of the evening. Delicious refreshments were served at 11:30.

Those present were Mr. and Mrs. Alf Davis, Mr. and Mrs. A. J. Andresen, Mr. and Mrs. P. Grubb, Mr. and Mrs. G. M. Lauridson, Mrs. J. S. Bay, Mrs. Gertie Arnason, Messrs. Gust Noren, M. O. Berg, Henry Anderson, Louis Leeland, N. P. Setten, Chas. Bork, Thomas Olson and Tresten Ball.

Birthday Party.

The residence of W. R. Maxfield on Lincoln Heights presented a lively appearance last Friday evening about eight o'clock, as friends and neighbors began to drop in until about forty guests were present. Mr. Maxfield wondered what it all meant, when he suddenly remembered that this was his birthday.

To take up carpets and remove furniture was but the work of a few minutes, and good music was provided, and dancing and card playing were features of the evening's pastime. A sumptuous repast was served after which dancing and games were resumed. The party broke up about three a. m. The presents were quite numerous.

W. C. T. U. ITEMS

BY MRS. C. B. MAXFIELD.

The regular meetings of this Union will be held on the first and third Fridays of each month at 2 p. m., and on the second and fourth Friday evenings at 8 o'clock. The gentlemen members are requested to attend the evening meetings. All are cordially invited to all meetings of the union.

The W. C. T. U. pledge: "I hereby solemnly promise, God helping me, to abstain from all distilled, fermented and malt liquors, including wine, beer and cider, and to employ all proper means to discourage the use of and traffic of the same."

For God, and home and native land.

The next meeting of this union will be held at the home of Mrs. L. T. Haynes, August 10th, at 8 o'clock, p. m.

In Hearny, N. J., while the little nine-year-old daughter of Edward Bull clung to his hand and pleaded for her mother's life, he murdered his wife and then inflicted a mortal wound upon himself, Thursday, May 24th.

The 28th of last May Melvern Bessey of Bowdanham, Me., came home intoxicated and ugly and deliberately sharpened his jack knife, and drew its keen blade across his wife's throat and struck her again and again with the strength and fury of a demon, thus killing her instantly.

On the 22nd of last May Mark Deulin of North Attleboro, Mass., got crazy drunk, went home and dragged his wife out of bed threatening to kill her. Mrs. Deulin managed to tear herself away from her husband and ran out of the house. He followed and grabbed her by the hair and dragged her back the poor woman screaming murder all the while. After getting her in the house he caught her by the throat and kicked her till she was unconscious, then stamped upon her.

The 20th of last May Andrew Sitzenberger of Lamaster, Pa., got on a drunk with several others at his own house. After the other men went away he picked a quarrel with his wife and after beating her he threw her out into the yard, and she attempted to get to a neighbor's house, but he prevented it, again assaulting her in a brutal manner. A physician pronounced her injuries fatal.

The 20th of last May James Wilson and his wife of Cambridge, Mass., had both been drinking heavily. Wilson was taken with a fit of delirum tremens, grabbing a razor he caught his wife at the head of the stairs, pulling her head back he nearly severed it from the body at one strike. He then took a position before the looking glass and slashed his throat three times. Thus ended both their lives leaving three small children orphans.

Frank Heatherington of San Francisco, is sixty-six years old and his wife seventy-two. He had been drinking heavily the other day and went home and attacking his wife knocked her down, smashed her face, blackened her eyes, cut open her lips and bit one of her fingers to the bone. She said he was a kind husband so long as he kept away from saloons.

These six crimes all happened in a few weeks and all are recorded in one newspaper and the saloon is the cause of all these crimes and many more and yet these dens of infamy are tolerated in our midst endangering the community.

The following is from the Pacific Wine and Spirit Review: "The liquor trade may as well come to the conclusion sooner or later that a great danger is found in Women Suffrage. On general principles nine out of ten of the American women are opposed to the saloon as an institution. The liquor trade need expect no quarters from unreasoning women. They must be beaten by votes."

Sufferers from chills and fever, who eaue used quinine as a remedy, will appreciate Ayer's Ague Cure. This preparation, it taken according to directions is warranted a sure cure. Residents in malarial districts should not be without it.

Boils, abscesses, tumors, and even cancers, are a result of a natural effort of the system to expel the poisons which the liver and kidneys have failed to remove. Ayer's Sarsaparilla stimulates all the organs to a proper performance of their functions.

To restore gray hair to its natural color as in youth, cause it to grow abundant and strong, there is no better preparation than Hall's Hair Renewer.

Summer Complaint.

Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhœa. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlaind's Colic Cholera and Diarrhœa Remedy, which I did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Hertzler Bethel, Berks Co., Pa. 25 and 50 cent bottles for sale by J. C. Hansen.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 26th of May while in Desmoines, en route to Chicago, he was suddenly taken with an attack of diarrhœa. Having sold Chamberlain's Colio, Cholera and Diarrhœa Remedy for the past seventeen years, and knowing its reliability he procured a 25 cent bottle two doses of which completely cured him. The Russell Art Publishing Co., of 928 Arch street, Philadelphia, desire the names and address of a few people in every town who are interested in works of art, and to secure them they offer to send free, "Cupid Guides the Boat," a superbly executed water color picture, size, 10x13 inches, suitable for framing, and sixteen other pictures about same size, in colors, to any one sending them at once the names and address of ten persons (admirers of fine pictures) together with six two-cent stamps to cover expense of mailing, etc. The regular price of these pictures is $1.00, but they all can be secured free by any person forwarding the names and stamps promptly.

NOTE—The editor of this paper has already received copies of above pictures and considers them really "Gems of Art."

"For Years,"

Says CARRIE E. STOCKWELL, of Chesterfield, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

This well-known journal, a union of four leading women's papers, has won its fame because it deals with what really interests the women of America. Fashions from the standpoint of good taste and economy Fiction of a pure and helpful kind. Music and Art suitable for non-professional tastes. Household hints written by practical women. Suggestions and aids for self-supporting women. It is a paper for women, by women, and its writers are among the most noted authors Every line is original, every engraving a gem.

It is a paper of to-day without espousing the great questions of religion, politics and temperence, it gives all the news regarding them. It is universally quoted by the press because its views and articles are bright and unique. Sent free to all subscribers to The Democrat-Leader paying one year in advance.

The Actual Settler Recognized.

A decision of general interest to holders of land whose character is in doubt, was lately received by Register O'Toole from Secretary of the Interior Hoke Smith. It is held that where a man files on land, claiming it to be agricultural land, and his entry is brought in conflict with a subsequent timber application, he has prior right to the land, even though it is non-agricultural, provided he establishes actual, bona fide residence. If it is proven that the pre-emp'or did not establish actual residence he will lose the land.

Saved Her Life.

Mrs. C. J. WOOLDRIDGE, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral.

"One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it strangling. It had nearly ceased to breathe. Realizing that the child's alarming condition had become passed by-suite of the medicines given, I, as a last resort, thought that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child a dose to repeat at short intervals, and put a poultice on its throat. From the moment the first dose was given, the child's breathing grew easier, and, in a short time, she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life."
