A match game of base ball was played at Dungeness last Saturday between the Townsend and Dungeness teams, resulting in a score of 8 to 15 in favor of the visitors. The Townsend pitcher unfortunately broke his arm, and another player collided with a by-stander, receiving a terrific blow on his chin. Throughout, the game was exceedingly exciting and intensely interesting,

A dance was given in the evening in honor of the visitors.

Mr. Thomas Battle, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhœa Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence. 25 and 50 cent bottles for sale by J. C. Hansen.

TEACHERS IN SESSION.

Excellent Program of Varied Educational Topics.

A NUMBER OF ABLE ADDRESSES.

The Electric Lights Will be Turned Off After Aug. 26th —"A Penny Wise and Pound Foolish" Proposition—The Laboring Man First, the Port Angeles Constructing Company Afterward.

Twenty-six teachers assembled at the Central school building last Monday forenoon at 9 a. m. in opening the fifth annual session of the Teachers Institute.

County Superintendent A. B. Dorsey was chosen president and A. N. Taylor secretary of the institute.

The president assumed the honor thrust upon him with becoming dignity, and in a few well chosen remarks stated that owing to the adverse financial condition of the county he considered it advisable not to engage a conductor. And the teachers having also expressed a willingness to assist in the work, he was of the opinion that the institute would not only prove a success, but result in a great benefit to the teacher, extend his learning in the limitless field of knowledge, from which he would gather new ideas, methods and plans which would better equip him to pursue his chosen profession.

The following are the teachers in attendance: Mr. and Mrs. A. M. Johnston, Messrs. H. C. Shelton, Ed. Hatch, J. Vint. Sequim; George Meagher, W. J. Payne, Clallam; W. D. John, Beaver; Simmons, Clallam Bay; Purvis, Sequim; A. N. Taylor, J. Edwards, Mrs. Bowman, Dry Creek; Miss Florence Mann, Dungeness; Miss Sara Troy, Miss Marjory Fowler, Sequim; Miss Lizzie Burrows, Blyn; Miss Flora Guaad, Miss Carrie Russ, Miss Combs, Dungeness; Miss Sinders, Sequim; Miss Grant, Miss Brown, Miss Ella Guptill and Mrs. Montjiho.

The principal subjects and the topics which aroused the greater interest Monday were: "The First Year's Work in Arithmetic," A. B. Dorsey; "Drawing," Miss Rose Pitts, and the general discussion on writing.

In the afternoon Prof. E. A. Bryan, of the State Agricultural College at Pullman, Wash, was introduced. The professor addressed the institute, proving himself an easy, graceful speaker. As the guiding spirit of an institution created and fostered by the state, the purpose and object of which was to enlarge their scope of knowledge in an industrial pursuit the advancement of which evidenced a higher and better civilization.

The subject of orthography was ably handled by Professor Johnston Tuesday forenoon. An evidence of a careful, well-rounded and thorough education is good spelling. The speaker thought teachers were becoming too careless upon this point. They should more thoroughly drill the scholar in his spelling book.

Professor Bryan gave an instructive talk on psychology and pedagogy. The word pedagog as applied to a teacher was incorrect. Originally the word was used in refering to a person only who had charge of boys not a teacher of the sons of men.

An instructive historical paper "The Voyage of the Ship Columbus," was read by A. N. Taylor.

"Civics," as presented by Professor Shelton, brought out many valuable facts relative to the formation of the national constitution.

Professor Bryan spoke of the evolution of courses of study prescribed in colleges. Formerly ancient classics were given precedence over the sciences. To-day the sciences dominate as the principle study. Of agricultural colleges the general public had a misconception. The three principal branches taught were English, political history and science and engineering. From the general government the agricultural colleges established in the several states received the greater amount of support—$20,000, the state appropriating only $2,000. Tuition is free, and board only $2.35 per week. The total expense for a school year will not exceed $110.

"Hygiene," by Mr. Edwards, was handled in an able and entertaining manner.

In the evening a lecture by Prof. Bryan was delivered in the Congregational church. The subject, "Character," was treated by the professor in a clear, able and comprehensive manner.

Throughout the session the daily exercises in "calisthenics," conducted by Mrs. A. M. Johnston proved very interesting and instructive, and established the fact no donbt, that systematic and temperate physical was quite as essential as mental culture.

Wednesday the subject of psychology was taken up by A. M. Johnston, asking the question, "What faculty of the mind is this recitation training; what faculty does it train?

The Rev. Jonas Bushell being present in the afternoon was chosen critic. The honor he refused, adding he only had words of praise for the commendable effort being made by the teachers of Clallam.

In the evening a lecture was delivered by Mr. Bushell in the Congregational church, the subject, "The Office of a Teacher," was able, thoughtful, and the advice therein given worthy emulation. A fervent plea was made to parents to cooperate with the teachers, to aid and to encourage them in their noble work.

VALUE OF GOOD ROADS.

Observation of a Citizen on a Recent Visit to Indiana.

To the Editor—With your permission I will make a statement through the medium of your valuable paper regarding roads in the State of Indiana as I found them during my recent visit there. Winter is coming on apace and to the residents of the western suburbs of the city of Port Angeles, the roads is a question which engrossess the mind almost as much as the tariff and the silver question. Moreover, the legislature will be in session again this winter, and it behooves us to get as many promises (such as they are worth) as possible from the candidates who run on the several tickets for legislature, in regard to roads and state appropriations for roads.

In Indiana a few years ago the commissioners of a certain township in Warren county decided to build a few miles of gravel road. They levied a tax on the adjoining property the width of two miles on each side of the proposed road, twenty-five cents per acre for the first mile and ten cents per acre for the next mile.

For this tax the commissioners got as much abuse as possible. The owners of the land were hostile. They rebelled and if they lived here, it would be said of them, that they 'kicked,' but the road commissioners just let them kick. They went on in the even tenor of their way, and graded up the road about twelve feet wide, throwing it up in the center sufficient for good drainage, then hauled gravel, dumping two loads side by side, from one end of the road to the other. The result of this experiment was that farmers all over the township petitioned for gravel roads, and there are many miles of excellent roads, when but a few years ago the roads were absolutely impassible in the spring and fall of the year. I was told by farmers that it was money in their pockets to pay the tax, for the reason that now they could do their hauling at any season they chose, and the wear and tear on man, beast and vehicle, was a thing no longer thought of. I had a ride over one of the roads that was not graveled, and with the horse plunging in the mud, and the buggy sinking in half way to the hub, it reminded me very much of the road between our town and the city.

There is an old adage, very often used by housewives, which would be quite applicable, if quoted to road supervisors and city councils, "A stitch in time, saves nine." There are chuck-holes and stones, and roots in the road which should be removed, it would cost very little and greatly improve the condition of the road. There is a cordurey on the road in the city not a great distance from the forks of the road near the Port Angeles mill, which is in a dangerous condition, the puncheons are loose, a horse is liable to his get legs broken, and then the city will be liable for a damage suit. A stitch in time might save nine in that case.

LAURA E. PETERS.

Council Notes.

At the council meeting last Wednesday evening only a few important matters were considered.

The street commissioner was ordered to repair the sidewalk between Peabody and Albert streets, on Eighth, as it is in a dangerous condition.

The council decided to close down the electric lights as the business is gradually falling off, and the income therefrom will not defray expenditures. It would seem that a plan to reduce expenditures to the point of income would have been far more sensible and business like. There is no reason why the plant cannot be operated with half the present outlay. Then again the plant can far better be preserved by keeping it in operation than to permit it to remain idle. A rigid policy of retrenchment should first have been adopted, then if the economical plan did not reduce expenditures to the point of income, the question of suspension would be timely and advisable.

The meeting of the special committee with W. C. Williams to discuss a plan of settlement reported to the effect that Mr. Williams agreed to release the city from the contract for $8,000, an amount which the committee deemed excessive and were not in favor of its acceptance. Here the matter will rest, at least until a more equitable basis of settlement is arrived at. The city engineer reported a balance of $1,926 due Mr. Williams. The council adjourned.

Hart-Yarnell Nuptials.

The marriage of Mr. Otto Hart of Port Crescent, and Miss Pearl Yarnell of this city, occurred at the home of the bride's parents, Mr. and Mrs. Smith Yarnell, of this city, last Monday at 10:30 a. m., the Rev. Jonas Bushell performing the ceremony.

Only the immediate relatives and friends of the contracting parties witnessed the ceremony.

The bride is a young woman with many excellent traits of character which endeared her to her friends and won the respect of those with whom she came in contact.

The groom is government telegraph operator at Port Crescent, and is a worthy, industrious young man, who has the esteem and respect of his associates and the confidence of his employers.

Mr. and Mr. Hart have the well-wishes of a large circle of friends and of THE DEMOCRAT-LEADER, for many years of continued happiness and prosperity.

They left on the noon boat for their future home at Port Crescent.

MINERVANS ENTERTAINED

The Teachers of Clallam County Last Monday Evening.

The teachers of Clallam County were the guests of the Minerva Literary Society last Monday evening.

A special program had been arranged for the entertainment of the guest, the production of which attested its merits and excellence.

Members responded to the roll call with miscellaneous quotations of welcome.

The president, Mr. R. A. Grimes, delivered the address of welcome in a feeling and an able manner.

The following varied program was then produced:

Paper—"Danta and Poe"..... Mrs. H. B. Wilson
Address.....Mr. H. E. Lutz
Recital.....Mrs. A. M. Johnston
Recital.....Mrs. A. L. Johnson
Recital.....A. M. Johnson
Recital.....Miss Mattie McGill

A tableau representing the varied types of beauty, which so mystified and confounded a Port Angeles young man, he pathetically explaims why he is single, that individual being none other than Mr. F. S. Mackintosh.

With the rendition of the last number of the program the president announced an intermission of thirty minutes for conversation and refreshments.

The ladies of the society served delicious ice cream and cake. The half hour's intermisfion was very pleasantly and profitably occupied.

After the president had called the society to order the report of the critic of the evening, the Rev. Jonas Bushell, was given. The report received the closest attention and proved spicy and interesting throughout.

Of Interest to Mothers.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhœa in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnston, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhœa very badly. I got some of Chamberlain's Colic, Cholera and Diarrhœa Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be excelled and cheerfully recommend it." 25 and 50 cent bottles for sale by J. C. Hansen.

W. C. T. U. ITEMS

BY MRS. C. D. MAXFIELD.

The regular meetings of this Union will be held on the first and third Fridays of each month at 2 p. m., and on the second and fourth Friday evenings at 8 o'clock. The gentlemen members are requested to attend the evening meetings. All are cordially invited to all meetings of the union.

The W. C. T. U. pledge: "I hereby solemnly promise, God helping me, to abstain from all distilled, fermented and malt liquors, including wine, beer and cider, and to employ all proper means to discourage the use of and traffic of the same."

For God, and home and native land.

The next meeting of this Union will be held Sept. 7th. Further notice next week.

Port Angeles W. C. T. U. will make an effort to secure the services of Mrs. C. D. Spencer of Centralia, Wash., for a few weeks. Mrs. Spencer is state superintendent of mothers' meetings, and herself and husband, Rev. C. D. Spencer, are active workers in the temperance cause.

Brick Pomeroy once said: "It takes a bold man to be a crank; and it takes a wonderfully bold man to be a temperance crank, because it is not pleasant for an active man to be shut off from all chance of preferment at the ballot box. When a man fits up a saloon with mahogany bar fixtures and beautiful pictures on the wall, the old and middle aged men will come in and talk politics with him; some of the so-called good men will come in and talk about the weather, and the young men will come in and talk about their prospects, and they will all pour money into his till and give him a first-class opportunity to pour his popular qualities into their comprehension and by-and-by they will raise him to the board of alderman or to the legislature or congress. Oh! yes, it is an easy thing for a man identified with the rum power to get along, but it is easier to swim with a mill stone about your neck than to make your way politically with a temperance record upon you."

Mr. Levere president of the Northwestern University Prohibition League said at a reception given Miss Francis E. Willard at Evanston, Ill., "that he was like the school boy who when asked to name the three greatest characters known to ancient or modern history wrote upon his slate: 'The Lord, Buffalo Bill and Francis E. Willard' but added that 'if he was asked for the three greatest characters in Evanston he would name Anna Gorden for one and Francis E. Willard for the other two.

Who can successfully oppose such a band of determined women as the Francis E. Willard followers who today number thousands all over the land? They will never stop praying and working to save their boys and girls from falling into the snare of the tempter. The will never stop using their God-given power to banish intemperance from the land. Unconditional surrender are the only terms that can be made with mothers, wives and sisters. No policy, no compromise will avail with the W. C. T. U. The curse and crime of the diabolical liquor traffic must be forever annihilated from the country before we retire from the conflict.

The worst foe to the human race is confessedly strong drink whether gin, rum, wine, brandy, beer or whisky; it impoverishes the nation, degrades society, ruins the home, brutalizes the individual and damns the soul. People are beginning to see that this enemy is too cruel to be persuaded, too base to yield to right, too strong to be controlled, the one, and only way to deal with it, is to destroy it.

Drinking and drunkenness among the rank and file of an army soon becomes one and the same, and drunkenness soon destroys subordination, discipline and efficiency. My sentiments on this cannot be too strongly stated. I had rather march at the head of 5000 temperance men than 15,000 topers.—Gen. Winfield Scott.

Boils, abscesses, tumors, and even cancers, are a result of a natural effort of the system to expel the poisons which the liver and kidneys have failed to remove. Ayer's Sarsaparilla stimulates all the organs to a proper performance of their functions.

To restore gray hair to its natural color as in youth, cause it to grow abundant and strong, there is no better preparation than Hall's Hair Renewer.

Summer Complaint.

Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhœa. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlaind's Colic Cholera and Diarrhœa Remedy, which I did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Hertzler Bethel, Berks Co., Pa. 25 and 50 cent bottles for sale by J. C. Hansen.

My sufferings were extreme, my leg, from the knee to the ankle, being a solid sore, which began to extend to other parts of the body. After trying various remedies, I began taking **Ayer's** Sarsaparilla, and, before I had finished the first bottle, I experienced great relief; the second bottle effected a complete cure."

On the 26th of May while in Desmoines, en route to Chicago, he was suddenly taken with an attack of diarrhœa. Having sold Chamberlain's Colio, Cholera and Diarrhœa Remedy for the past seventeen years, and knowing its reliability he procured a 25 cent bottle two doses of which completely cured him. FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

JOHN W. TROY.....Editor

Democratic County Central Committee.

Port Angeles, Wash., July 30, 1894.

To the members of the Democratic County Central Committee of Clallam county:

A meeting of the Democratic County Central Committee of Clallam county, is called for the purpose of transacting such business as may come before it, on Tuesday, August 21st, 1894, at 4 o'clock p. m.

R. A. GRIMES,
Secretary.

THE ACTION OF THE HOUSE.

It having become evident that the senate was about to defeat all tariff legislation for this session, the House of Representatives Monday receded from its rejection of the senate amendments, and passed the Senate tariff bill. Every Republican and twelve Democrats voted against the bill, while 174 Democrats and all the Populists voted for the bill.

The bill as passed was not accepted as the Democractic idea of tariff reform. It was accepted only because it was all that could be had. As that peerless statesman, the leader of the House of Representatives, William Lyne Wilson, than whom a patriot more true, more noble or more grand, never graced a legislative body, said: "The difficulty which the country must recognize is that on the tariff question we did not have a Democratic senate, and whatever has been gained has been wrested from a protective body."

This has been the difficulty. The House of Representatives has done its duty, and done it nobly. Never in the history of the country have we had a harder working or more conscientious legislative body than the present House of Representatives, nor have we ever had a house better organized, with braver or abler leaders. Especially indebted are we to Mr. Wilson and Mr. Speaker Crisp for their brilliant and masterly fight for the American freeman. The good faith of the house was shown by the immediate passage by that body, after passing the Senate bill, of bills placing all grades of sugar, coal, iron, and barbed wire on the free list. The house should now remain in session until their terms expire if it is necessary to compel the senate to take action on these free-trade bills.

Mr. Wilson truly said, just before the final passage of the Senate bill, "this is not a day for Democratie enthusiasm. It is plain Democratic duty." It was Democratic duty to accept what it could get, and then to place the responsibility for the failure to procure for the people the full measure of relief to which they were entitled where it justly belongs, with the senate.

THE NEW TARIFF BILL.

The tariff bill as passed by the senate and as concurred in by the house last Monday is not what true true tariff reformers wanted. It lacks considerable of what the people had a right to expect. However, it is a great improvement over the McKinley bill. It will reduce the burdens of tariff oppression at least 20 per cent.

Representative McMillin of Tennessee, one of the house conferees and a member of the ways and means committee made the following statement as to the effect of the enactment of the Senate bill:

"The effect of the caucus action will be the passage of the house bill with the senate amendments. While the house bill is a better measure, in my judgment, than this, the measure which would become a law by today's action is a wonderful improvement on the McKinley law. It gives free wool, free lumber, free hemp, flax and jute, and reduces largely the cost of the manifold goods into which all these materials enter. To illustrate, the average duty on woolen goods in the McKinley bill is 98½. This has been reduced more than half. There is also considerable reduction in all the schedules, and the average on all will be about 38 per cent., as against about 58 per cent. under the present law. The right of the president to levy taxes without the consent of congress is taken away and given back to congress, to which it belongs, and from which it was wrested by the McKinley law. Much has been said concerning the sugar duty. There is less benefit given to the manufacturer by this bill than by the McKinley law. It should not be forgotten also that the system recommended by the house, known as the income tax, is retained in the bill and becomes a part of our fiscal policy. By this it is proposed to tax what people have in excess of their needs, rather than to tax what they need and have not got."

THE DEMOCRAT-LEADER did not accuse its Beaver contemporary with attempting to defend the last Republican administration. We recognize that it cannot be defended. What we do say, however, is that it cannot get around the Republican responsibility for that administration. It may be well to repeat again that some of these same gentlemen who materially assisted in the management of that administration are making strenuous efforts to do it again, and seemingly with fair prospects of success so far as controlling the Republican party is concerned, to control the county's affairs.

MR. PENCE, of Colorado, the Populist congressman gave the reason which actuated many congressmen to accept the Gorman bill, when he said: "Any measure was a measure for the relief of the masses if it repealed the McKinley law."

IT would be a tame election, indeed, that would not afford an opportunity for "Bill" Chandler and Capt. Kolb, to "blubber," about fraud.

THE Beaver Leader is fluttering a good deal like a chicken with its head cut off. It must be hurt.

A Republican Opinion.

Everything indicates that there will be a general revival of business on the passage of the tariff bill, which happily does not appear to be distant. Nowhere among sensible financiers is any fear expressed of an unfavorable effect of tariff reduction upon our industries.—Ballard News [Rep.]

NORTHWEST MARINE HISTORY.

Historian Burnett Was in the City Wednesday, Gathering Data.

Mr. C. S. Burnett of Portland, Or., was in the city last Wednesday gathering data for the forthcoming "Marine History of the Northwest," which will be published some time during the latter part of 1895.

This historical volume will contain about 700 pages, richly illustrated, and all important events, incidents marine losses, dating back to the year 1792. An interesting and valuable feature of the volume will be the biographical sketches of prominent owners and commanders of some of the 2,500 vessels which have plied these northwestern waters, who have played such an important part in weaving the history of the northwest, and the thrilling experiences of whom will furnish some of the most interesting chapters.

The territory embraced will be Oregon Washington and Alaska. The publishers, Messrs. Lewis & Dryden, of Portland will expend fully $30,000 in its preparation and publication. As one of the historians Mr. Burnett states that the aim of the publishers is to exercise the utmost care in gathering reliable and accurate data. While in the city Mr. Burnett gathered much valuable information from the old settlers that will furnish material for the first chapters of the Puget Sound customs district, as this was the first port of entry. From here he goes to Dungeness, where he will continue his labors.

On Hood's canal points fir logs have advanced $1 per thusand and are selling at from $5.50 to $6.50. This is the result of the increased activity in the foreign lumber demand, and some conservative millmen say if less had been said about the increase in business there would not have been any anxiety among loggers to secure an advance. The increase in the price of logs brings the price about back to the prevailing prices of 1893.

Property Rights.

Communicated.]

The fundamental principles upon which our country is based are involved in this struggle between capital and labor.

The individual ownership and control of property is the real question at issue.

If this question is settled adversely to those who own property, or if it become settled that a man cannot control that which is his own, then individual effort may as well cease and plunder become legalized and nationalized. There is no half way ground in this matter.

If a railroad king or a millionaire o any description, or a poor rancher of Washington cannot use his property (within the law) as he sees fit, then must come a cessation, a complete paralysis of all individual effort, and in its stead a system of piracy, idleness and brigandage, such as the world has not seen for centuries.

Property rights are second only to personal rights. The right to possess and control what is gained by one's own opportunities and abilities be they much or little is second only to the right to live.

How many sane citizens of Port Angeles can fail to see (many of us have keenly felt) the need of organized capital in our midst is beyond my comprehension. The laborer is seeking the destruction of his best friend when he aims to demolish accumulated capital. What would be the condition of country today were it not for organized capital?

Who would have developed our vast resources?

Who would have undertaken our stupendous internal improvements, which stand to-day a monument to civilization?

It is by the accumulation of capital that the necessary products of our civilization have been cheapened and brought within the reach of the laborer. The luxuries of life are now within the reach of they who toil.

Any workingman who works steadily and uses his money judiciously can have as good clothes to keep him warm and as good food for the sustenance of his body as the rich. Never in the history of the world was there as little destinction between the capitalist and laborer as regards the "needs of man" as now. When laborers seek the destruction of organized capital, they seek the destruc- of the hand that feeds them.

But they will not succeed. Civilization will not march backward. The majority of American people can always be depended upon when a question of right and justice is at issue.

All honest, thinking, American citizens are ready to defend the rights of those who have the ability and opportunity to accumulate wealth and stand ready to see that it is his to possess and control. R.

"GONE BEFORE."

A Memorial Sermon by the Rev. Jonas Bushell.

A memorial service was held in the First Congregational Church last Sunday evening in commemoration of the three citizens of Port Angeles, who were drowned by the upsetting of their boat on the 16th of last month. In the absence of the pastor no such service had been previously held.

The sermon was preached by the pastor, Rev. Jonas Bushell, and the subject was "The Sympathy of Christ." The text, John 11th, 35th verse, "Jesus." The reverand gentleman introduced his subject by relating a number of instances showing the sympathy of Christ for suffering humanity, and that in despite of the ungrateful treatment he received. He told the story of the last journey from Galilee to Bethany, the cleansing of the ten lepers, only one of whom showed any gratitude, the healing of the woman who had been bowed by infirmity for 18 years, the lesson to the ruler of the synagogue and the others. Then the arrival at Bethany and the raising of Lazarus, of which he gave a very vivid and graphic description. Mr. Bushell then said: "The plaintive cry of the sisters of Lazarus is the cry of some of our hearts to-day. A great calamity has fallen upon our city, three of our young men have met with a sudden and terrible death, the circumstances were especially painful, and as we think of the heartless carelessness of those two men who heard their cries for help, and refused 'or neglected' to go to their assistance, our blood tingles in our veins, we feel the wrath of rightous indignation rise up within us, and have an inclination to inflict personal chastisement upon the cruel ones, but is it best to do this? There are innocent ones dependant upon them, shall they be made to suffer too? is it not best to leave their punishment with Him who said "Vengeance is mine, I will repay?" They will be punished, they cannot escape it. They have entirely lost the respect and sympathy of their fellow citizens, they will live with a brand like that of Cain resting upon them. May the Lord have mercy upon them, and incline their hearts to better things.

"And what shall I say of those who were taken from us? Were they Christians? are they safe in the better land? I say at once, 'I think they are.' Those men had Christian training, they knew God, and while they had not, perhaps, publicly professed His name, do we not feel confident that in that last hour of danger and death, they would look for succor and comfort to the only Being that could give comfort. There is only the sin of unbelief that cannot be forgiven, and in such an hour all unbelief is swept away and the human heart looks to God for sympathy and pardon. Dare we say that Josus, who had such sympathy for suffering ones, would be less forgiving than an earthly parent? Those men were not bad men. The young man, John Dippold, was a good brother and a good son, he leaves behind him father, mother, three brothers and three sisters to mourn his loss. August Nelson leaves two brothers and one sister in Norway, he was a good citizen and an honest, upright man, while John H. Johnson, 'our John,' was so sunny tempered, so genial and good-natured, that he was loved by all who knew him.

"A young wife and two little ones mourn for a kind husband and a gentle father, a loving sister weeps for a dear brother, a father, mother, and other relatives in California, feel a void in their hearts for one beloved by all. Yes we shall all miss these men.

"The cry of such men in such an hour, could only be the cry of you or I, the of anyone, under the same circumstances, 'God be merciful to me a sinner.' Can we doubt for a moment that such a cry to a kind and loving savior, a tender father, would not be granted? Oh, no! Thank God, we know it was. Take comfort, sorrowing hearts, the Lord is tender and merciful, no longer think of those gone before as lost. they are not lost, they have only 'gone before,' they are safe, safe with the Heavenly Father, no matter what may become of the casket, the pearl of price, the soul, 'themselves,' are safe with God, 'asleep in Jesus.'" Just as a tired child will go to mamma, creep into her arms and lay its head upon her bosom, and as the little head rests there all is hushed, tread softly, don't wake the baby, all is quiet, and a tender smile rests on the face of each, as they look at the sleeping darling. So let us look by the eyes of faith at our loved ones 'asleep in Jesus.'"

The sermon was most impressively rendered and will long be remembered in Port Angeles.

The man who runs a launch and finds himself drifting with the tide and wind because the "spark" fails to ignite the charge of gas in his engine; the man who prints a daily paper and fails to get it off on time because the "spark" again fails; the man who has fruit that is injured for lack of irrigation because "spark" fails in his engine that runs the pump not only such parties but others who have trouble from like causes should bear in mind that the Hercules gas and Gasoline engine is free from such difficulties. The ignition is simple and sure. Send for catalogue. If you want second-hand engines of other makes at cheap rates we can supply you. HAVE YOU TRIED DRUGS AND FAILED

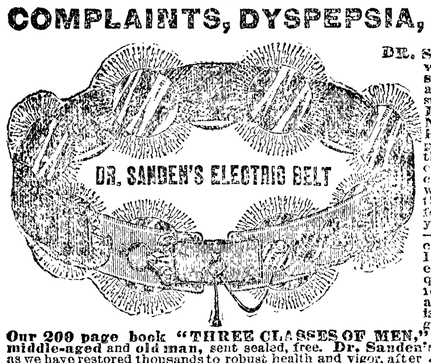
TO FIND A CURE FOR

RHEUMATISM, LUMBAGO, SCIATICA, KIDNEY, LIVER and BLADDER COMPLAINTS, DYSPEPSIA, LAME-BACK, &c.



DR. SANDEN'S ELECTRIC BELT with Electro Magnetic Suspensory will cure without medicine all of the above troubles. Those who suffer from Nervous Debility, Losses, Drains, Lost Manhood, Nervousness, Sleeplessness, Poor Memory, all Female Complaints, and general ill health, the effects of abuses, excesses, worry or exposure, will find relief and prompt cure in our marvelous invention, which requires but a trial to convince the most skeptical. In ignorance of effects you may have unduly drained your system of nerve force and vitality—which is electricity—and thus caused your weakness or lack of force. If you replace into your system the elements thus drained, which are required for vigorous strength, you will remove the cause and health, strength and vigor will follow at once. This is our plan and treatment, and we guarantee a cure or refund money.

Our 200 page book "THREE CLASSES OF MEN," should be read by every young, middle-aged and old man, sent sealed, free. Dr. Sanden's Electric Belt is no experiment as we have restored thousands to robust health and vigor, after all other treatments failed, as can be shown by hundreds of cases throughout this and other States, who would gladly testify, and from many of whom we have strong letters bearing testimony to their recovery after using our Belt.

WE HAVE CURED THESE—WE CAN CURE YOU!

GENERAL DEBILITY CURED.

San Francisco, Cal., August 14, 1892.

Dr. A. T. Sanden, Dear Sir:—Before I used your belt I was troubled with lost vigor, vital weakness, and almost a complete loss of power. I would get up with a very tired feeling, bones aching, etc.; since using your belt I have had a new lease of life. I now enjoy life better than I have for ten years past. I have the utmost confidence in your treatment. You can publish this statement, also have others write or call on me. Truly yours, H. A. BOWEN, 26 and 28 Turk St.

RHEUMATISM AND LAMENESS CURED.

Portland, Oregon, April 18 1892.

Dr. A. T. Sanden, Dear Sir:—I got one of your belts two weeks ago for rheumatism, from which I suffered for several years. For the past six months I had not been able to work. Your belt has placed me in almost perfect health in the two weeks I have used it. I can walk comfortably, and feel like a new man generally. M. E. HUGHES, Proprietor International Hotel.

NERVOUS DEBILITY—LOSS OF VIGOR.

Tacoma Wash., October 21, 1892.

Dr. A. T. Sanden, Dear Sir:—I have been using your Electric belt for general nervous debility, and to-day feel better than I have for five years. I have gained in vigor daily, and am strong in every part.

Yours gratefully, CHAS. LUETKA.

LAME BACK AND RHEUMATISM.

Portland Oregon, September 25, 1892.

Dr. A. T. Sanden, Dear Sir:—Years of exposure and hard work, combined with the strain coming from the jar of an engine, gave me a severe case of lame back, from which I suffered for seven years. I was so bad that I could not bend my back. Was all doubled up when I bought one of your belts. It helped me inside of two days, and I continued to wear it for four months, being perfectly cured. That was two years ago, and I am as well to-day as I ever was in my life. I know your belt will cure all the many people who have been cured by it. Many of them need it, and if they would try it they would find it the same as I did—the best remedy in the world. I am located here permanently, and will be glad to talk with anyone who wants to inquire about it.

ROBERT BURRIL, Engineer Hotel Portland.

LOST VITALITY AND STRENGTH.

Everett, Wash., June 18, 1892.

Dr. A. T. Sanden, Dear Sir:—Since wearing your belt I have been greatly benefited. I feel my old energy fast returning; and after a month's use of the belt I find myself twice as vigorous as before. My memory is now nearly perfect, and each day shows for the better. I feel much stronger than before using the belt. Yours truly, RUDOLF SCHULTZ.

Hop Outlook.

Owing to the low price of hops now prevailing, 8 cents per pound, the growers contend that they cannot afford to give the former amount paid pickers, that is, $1 a box, and a meeting of hop farmers was held in Puyallup last Monday, to determine upon a uniform rate the growers will pay," says the Tacoma News.

"It is believed that 75 cents a box will be agreed upon, yet one who has recently visited nearly every yard in the valley says that some growers have decided not to pay more than 65 cents. Many of the growers refuse to engage pickers yet, claiming that it will cost more to pick and cure them than they will bring in market.

"It is stated that some growers will not pick their yards at all. One farmer is quoted as saying that at least 20,000 bales of hops will go to waste in Western Washington this year."
