THE DEMOCRAT-LEADER.

VOL. 5. NO. 19. PORT ANGELES, CLALLAM COUNTY, WASHINGTON, SEPTEMBER 28, 1894. 8 PAGES.---PRICE FIVE CENTS

Colony for United States of Columbia.

A colony is being organized in this city for the purpose of emigrating to the gold fields of the United States of Columbia. All interested in the movement are urgently requested to meet at the real estate office of S. L. Myers, Front street extension, Saturday evening, Sept. 29th, at 8 o'clock, sharp.

The inducements from that far-off country to desirable immigration are very flattering, indeed. The government agrees to donate 360 acres to actual settlers and will also give a bounty for all land brought into cultivation. The enthusiast eagerly looking forward to a residence in that far away country, presumably under such favorable conditions, should not forget that distance lends enchantment. The surrounding customs, habits and conditions of the people inhabiting that country and the climatic conditions so vastly different from those an American is familiar with so radical a change will doubtless result in disappointment. Nine out of ten Americans who have gone to the gold fields of South America and Africa in the hope of sudden wealth have returned home, disappointed and penniless. Be guided by the old adage: "Think twice before you leap."

The United States of Columbia is situated in the northwestern portion of South America and embraces the territory through which the famous Panama canal is constructed. The climate of portions of that country is unbearably hot, while in the mountain region it is mild and equitable. Gold mining is the principal pursuit and the production of coffee is also an important industry.

A Generour Offer.

Stewart and Jones have left the Republican party for the Populist camp. We will give Gorman and Brice to the Pops to make things even. These four children of toil will reform all the evils of the day—that is, all in which they have no investments.—Commoner.

Creditor's Sale.

The entire stock of general merchandise of C. C. Bartlett & Co., of Port Townsend, is now being sold for cash at COST or LESS to satisfy the claims of creditors.

This stock includes a large assortment of Wines, Liquors, Case Goods, Bitters, Cordials and Bar Stock of every description.

This is a RARE OPPORTUNITY for retail liquor dealers.

THE LUMBER INDUSTRY.

Commendable Movement to Construct

A STEAM LOGGING RAILWAY

And Establish a Commercial Mill at Port Angeles With a Daily Capacity of 200,000 feet of Lumber—Promoted By a Public Spirited Citizen Admirably Qualified to Successfully Launch An Enterprise of Such Magnitude.

Mr. C. W. Thompson has for some time past had under serious consideration the construction of a steam logging railway into the magnificent timber belt south of this city.

With the purpose in view he will make a thorough cruise of the timber belt to ascertain its approximate extent, the obstacles to be encountered in the construction, and probable cost of the railway, and gather such other information as will aid him in his laudable undertaking.

The building of the railway is not, however, the only object in view. There is not a reasonable doubt but that logs can be handled in this manner at the minimum of cost. In fact, steam is generally accepted by practical loggers as the most economical motive power when logs have to be hauled for any considerable distance.

The ultimate object is the establishment of a large commercial saw mill, with a daily capacity of 200,000 feet, to manufacture this timber for foreign and coastwise shipment.

There is certainly nothing impracticable nor visionary about the proposition. It is a movement in the right direction; it is a plain, straightforward, legitimate business enterprise, that will undoubtedly succeed if directed with sagacity and energy. It is simply the utilization of one of the grandest resources with which God has endowed any commonwealth. Isn't it strange that an idle, grasping, speculative element of society should persist in discounting the immeasurable value of the timber resources of Western Washington? So warped and biased and prejudiced has this worthless element become that it will not countenance anything that has not the genuine stamp of speculation upon it. They have no interest in legitimate industry. Have no interest in nor the faintest conception of the magnitude of the lumber industry in Western Washington.

During the month of August thirty-three cargoes of lumber were shipped from Puget Sound mills to foreign and coastwise ports. In the aggregate these cargoes consisted of 19,478,585 feet of lumber. This does not include the large shipment of shingles from the mills of Western Washington.

And the fact must be remembered that the lumber markets were exceedingly dull last August. However, decided improvement in the lumber business is noticeable everywhere, and the prospects for old-time activity in that direction are very reassuring, indeed.

The opportunity for an industrial awakening in Clallam in the manufacture of lumber has certainly arrived and it is a genuine source of encouragement to know that a prominent citizen possesses the business discernment to grasp the situation. Angeles can hopefully look forward to better things if its sons continue to labor in the vineyard of legitimate industry.

A Model Craft.

Mr. H. S. Carver, the boat builder, is putting the finishing touches to a handsome little yacht, which is a model of symmetry and graceful lines.

Her length is 30 feet, width, 10 feet, and depth of hold, four feet, and she will probably register five tons. The size of the Paloma, her model is vastly different, and she doubtless will prove a far worthiere sea boat. One of the points in view of the draughtsman and builder was to make the little craft staunch and substantial, and in this he has succeeded in an eminent degree.

The yacht will be finished within thirty days, rigged and ready for service. The owner has not positively decided what he will do with her, but as a pleasure yacht she would be a prize to anyone able to maintain such a luxury, as she is admirably appointed for such purpose.

OF INTEREST TO NURSERYMEN.

The Utmost Caution Required to Keep Fruit Trees Free From Insects.

The state board of horticlture has sent a small circular to all local boards the import of which is to caution nurserymen to exercise the utmost diligence and care with imported stock, to prevent the spread of destructive insects with which it frequently is infested.

The state board gives two formulas either of which has been recommended by the Nurserymen's Association as very effective in destroying insect pests or their larva.

Whenever trees or plants are being sold or distributed it should be proven that they have been fumigated or dipped, and inspected by a person so authorized.

Whenever trees are received for planting it would be an additional preventive measure to again use the dipping, recommended in formula herewith or to make an application of the lime, sulphur and salt before next February.

Whenever large quantities of trees are received, or trees suspected to be infested, or where any party refuses to disinfect trees as required, commissioner of the board of horticulture, J. F. Cass, of your district should be notified at once.

Following are the formulas as recommended by the state board:

Formula No. 1.—All nursery stock shall be disinfected by dipping into solution of one pound of lye, American Lye company brand, and one pound whale oil or strong soap, one pound of tobacco and one-fourth pound of sulphur to every seven gallons of water made by boiling all the ingredients together for about one hour or until thoroughly dissolved, and applied at about 103 degrees Fahr., in a vat or trough made for the purpose.

Formula No. 2.—Nursery stock may also be disinfected by covering with an air-tight tent or box, and for each and every 100 cubic feet of space therein one ounce of fused cyanide of potassium, 58 per cent., one fluid ounce of sulphuric acid and two fluid ounces of water shall be used. The cyanide of potassium shall be placed in an earthenware vessel the water poured over the said cyanide of potassium, afterwards adding sulphuric acid, and the tent or box to be immediately closed tightly and allowed to remain closed for not less than forty minutes. Treatment for disinfection shall continue until all insect pests or their larva are destroyed.

FIRST FAIR IN THE QUILLAYUTE

Held at Boston on Saturday, Sept. 29th—Fine Exhibition of Farm Products.

The people of Quillayute are enterprising and progressive despite the fact that their district is remote from traffic and transportation facilities. The now have a movement on foot to show the world what is produced and what can be raised in their locality, and the Record takes pleasure in calling the attention of its readers to the first agricultural fair held in the west end of Clallam.

This is the Boston Harvest Home Fair which will be held at the Boston school house, on Saturday, September 29th. Prizes will be given on the following products:

The best three apples, pears, plums, tomatoes.

The best one dozen heads of wheat, barley and oats.

The best three dozen ears of corn, pumpkin and squash.

The best three cucumbers, head of cabbage and califlower.

The best three carrots, potatoes, onions, rutabaga and summer turnip.

The best stock of tobacco, cluster of hops and bouquet of flowers.

All competing products must have been raised in the Quillayute valley. Articles taking first prize will be marked with a red ribbon, and articles receiving second prize will be marked with a blue ribbon. The party taking the greatest number number of first prizes will receive a cake, while the party receiving the greatest number of second prizes will receive a pie.

People from all over the Quillayute valley are invited to join in this competition. The successful competitor for each article will be requested to tell in what kind of soil and the treatment given to said article. All articles for competition should be at the Boston school house on or before 12 o'clock on the day of exhibition. Parties desiring to send exhibits can send them to Boston in care of A. W. Smith.—Record.

COUNTY NEWS.

Interesting Paragraphs Gathered From the County Press.

East Clallam Record.]

P. J. Peterson is at work in school district No. 23, building a school house.

If the rains of the past two days continue the logs up the river can be floated down. The mill company expect to start the mill as soon as the logs come down.

The postoffice of Swan has been established in Clallam county, Gina Peterson postmaster. It is six and a quarter miles north of Ozette, and will be supplied from Ozette postoffice.

The trial of W. R. Jones, charged with an assault with a rifle upon Tompkins, a neighbor, took place last Saturday afternoon before J. H. Marlette, J. P. and a jury. Jones was found not guilty.

The Good Templar's lodge tendered Mr. W. J. Payne a farewell reception at the lodge room last Tuesday evening. Mr. Payne leaves next week to attend the Normal school at Ellensburg for six months or more.

The tug Magic was here yesterday to tow the Mapes & Hultgren boom of logs up-Sound. The tug captain feared to tow the logs on account of the width of the raft. A bigger tug will be sent for or the logs may be sold to the local mill company.

Beaver Leader.]

The contract for carrying the mail between this post-office and Quinault has been let to C. M. Gilkey, and we are now getting our mail regularly once a week.

Work will soon begin on a new pony trail from Queets river to Quinault lake—a much needed improvement, as the old trail is almost impassible during the winter months.

Seven miles of the Queets-Hoh river trail is about completed, which takes it to within about a mile of the crossing of the Clearwater. The remaining distance about seven miles, will not be built until next spring.

As soon as we have means of shipping them, hops will be a profitable crop in the Queets valley. We have hundreds of acres of the finest of hop land, and many of our ranchers are already preparing to engage in the business.

In John W. Troy for county auditor the Democrats have made a wise selection. Mr. Troy has made a good officer and is now thoroughly conversant with the routine work of the office. The west end gave him a heavy vote two years ago and will undoubtedly do so again this fall.

Mr. McPherson is pushing the survey of the two townships—ranges 12 and 13, township 24—as fast as possible with a large crew of men. The former township takes in a little less than half the settlers in the two valleys—the Queets and Clearwater—and every effort is being made to have township 24, range 11, surveyed at an early date.

The mail is at last changed to its old schedule to the great relief of our settlers. It now goes out to Clallam on Mondays and Fridays, returning Tuesdays and Saturdays, passing Beaver, going either way, at about 12 m. The Collins route is changed, too. Mail arrives from Collins on Tuesdays and Saturdays at about 12 o'clock, m., and returns the same days at 1 p. m. This enables the Bear creekers and upper Solduckers to get their mail the same day it arrives at Beaver.

Cutting Affray.

An altercation occurred between Jno. McCloud, clerk, and Long, Chinese cook of the New Albany, yesterday morning, which resulted in the former attempting to physically suppress the latter, when the Chinaman drew a knife across McCloud's left leg, inflicting an ugly gash just below the knee. Dr. Lull was summoned and dressed the wound. The Chinaman was arrested, but the complaint was withdrawn and he was released.

From a Republican Point of View.

The dark cloud of financial depression seems rolling away and we see the dawn of brighter days. Increased activity is seen in trade circles and business is improving. There is no great rush but people are increasing their purchases. The indications of the general business revival all along the line is similar to the first low wash of the ocean waves to be followed by grand, rushing tidal waves of universal prosperity.—Cottage Grove Echo-Leader.

THE YAKIMA CONVENTION

The Democrats of the State Meet and

NOMINATE A STRONG TICKET.

A Boston Company Organized to Prospect for Coal in Clallam County—Secures Mineral Grants to Nearly 5,000 Acres of Land Near Sequim—It Has Financial Resources and Will Begin Active Operations in the Near Future.

The Democratic State Convention met at North Yakima last Wednesday for the purpose of nominating two congressmen and two supreme judges.

The meeting was characteristicly harmonious and united, and the purpose sought to nominate a clean, able, invincible ticket that would command the united and enthusiastic support of the Democracy of the state. In this the convention succeeded admirably. The men chosen to lead Democracy to victory next November are of unreproachable character, closely identified with the state and with its best interests, men of affairs, of unquestioned ability, and peculiarly qualified both by education and training for the positions to which they have been nominated.

THE TICKET.

For Congressmen—B. F. Heuston, of Tacoma,

For Supreme Judges—Jno. L. Sharpstein, of Walla Walla, and T. M. Allen, of Olympia.

The following is a synopsis of the platform: That the Democratic party reaffirms its unswerving allegiance and devotion to the principles declared and adopted by the Democratic party in national convention assembled in Chicago in 1892.

Most heartily endorsed and approved the administration of Grover Cleveland and declared abiding faith in his judgment and patriotism. Unqualifiedly endorses the earnest and heroic efforts of the last Democratic Congress to relieve the people from the demoralizing and corrupt influences of trusts and combines, the natural outgrowth of 30 years of Republican legislation.

Denounces the disloyal Democratic senators who betrayed their party and prevented it from fully redeeming all pledges of reform.

Demands free and unlimited coinage of both gold and silver in the ratio of 16 to 1, and the passage of laws that will make silver receivable for all debts, public and private, and equal in purchasing power with gold.

Favors the establishment of a state board of arbitration, by which there may be secured a peaceful settlement of all disputes between employes and employers.

Favors the passage of a law which provides upon the entry of a judgment of foreclosure of mortgage on real estate execution or order of sale shall not be issued until two years subsequent to the entry of such judgment, the sale then to be made with no period of redemption. Declared against the deficiency judgment after real property had been sold to satisfy the mortgaged indebtedness.

Denounces the Reilly funding bill. And demanded every effort be used by representatives in congress to secure the foreclosure of government mortgage on Union and Central Pacific railways, and that one transcontinental railway shall be owned and operated by the government.

Demands a speedy settlement of the unearned indemnity lien lands of the Northern Pacific railway.

Favors real estate assessment once in two years for purposes of taxation.

Denounces Republican extravagance in the administration of state affairs; and especially the reckless waste of public time and money in the senseless senatorial contest enacted by the late Republican legislature.

Favors governmental control of and aid in construction of the Nicaragua canal.

Favors creation of national irrigation commission and liberal expenditure of public moneys for irrigation purposes.

Favors election of United States senators by direct vote of the people.

Denounces Governor McGraw for not ordering an investigation of the state penitentiary grain bag scandal.

Denounces secret organizations the purpose of which is political proscription on account of religious belief, as un-American and contrary to the fundamental spirit of the constitution.

Demands the amendment of the state constitution, reducing the number of Supreme court judges to three, thereby saving annually $8,000.

Favors the passage of a law requiring the state to furnish all text books.

Demands the repeal of the odious delinquent tax law, a law providing for longer period of redemption, and lower rate of interest and modified penalty.

The Boston-Sequim Coal Company.

The Boston and Sequim Coal company of Boston, Mass., and Port Townsend, Wash., filed, Saturday, in the office of the county auditor of Clallam, thirty-one mineral grants from the people of Sequim to the mineral rights to over 4,300 acres of lands in the neighborhood of Sequim. These rights it will be remembered were secured by Messrs. W. B. Dennis, the manager, and W. A. Halteman, the secretary of this company, last spring. Since that time Mr. Dennis had been east and made arrangements to commence operations during the next month. Mr. Dennis writes that extensive operations may be looked for in the immediate future, as they have already arranged for a diamond drill.

The mineral grants provide that the company is to pay $7 per acre for the right to take coal, and it has two years to develop the coal find.

If this company does what it proposes to do, it will be of an incalculable benefit to Sequim and Clallam county generally.

REPUBLICAN RECORD ON SILVER.

A Free Silver Resolution Defeated By It at the Last Session of the Legislature.

The Republican party of this state went on record at the last session of the legislature as positively and almost unanimously opposed to the adoption of a free silver resolution, addressed to the president and to congress, only seven voting for while forty-one Republicans voted against and defeated the passage of the resolution.

Thirty members voted for the passage of the resolution, which was comprised of fifteen Democrats, eight Populists and seven Republicans. Only one Democrat, Turpin, of Jefferson, voted against the resolution. Hoole, of Clallam, voted with the seven stray Republicans for the resolution.

Following is the resolution:

WHEREAS, We believe the depression of the business of our country to be due largely to the lack of a sufficient circulation of money; and

WHEREAS, We believe the stringency of money can be partially relieved by the free coinage of silver; therefore, be it

Resolved by the House, the Senate concurring, That the Legislature of the State of Washington, by Memorial, respectfully urges on the honorable Senate ond the House of Representatives, the prompt passage of an act providing for the free coinage of silver; and,

Resolved, That attested official copies be forwarded to the president of the United States, president of the senate, speaker of the house, and one copy to each of our senators and representatives in congress.

The Democratic Record.

The result of important democratic work in congress is summed up by Mr. Crisp as follows:

"We have repealed the McKinley law.

"We have greatly reduced taxation.

"We have made living cheaper.

"We have made all money taxable.

"We have taxed surplus incomes.

"We have restored freedom of elections.

"We have reduced public expenditures.

"We have declared undying hostility to all trusts and monopolies organized for the suppression of the people.

"On these foundations 'we build our house'; on these issues we go before the public. For them we have 'fought the good fight'; to them we have kept the faith, and of them we have no fear"

SENATOR HILL, GOVERNOR.

In one of the greatest, grandest scenes on earth, Senator David Bennett Hill was three times nominated for governor of New York last Wednesday, by acclamation and unanimously. He received such an endorsement as no man had ever received in a New York political convention before. The Cleveland forces, the independents and the Tammanyites, vied with each other in doing the great senator honor.

One does not have to go far to find the cause. Mr. Hill has had the party machinery of New York for him as first choice for anything and everything for nine years. So strong are his entrenchments that three times he carried the state for governor, and once for senator—four times in all.

Then his anti-trust record, his emphatic and hearty endorsement of the Cleveland administration both on the floor of the Senate and on the forum in his own state, has won for him the good will of the administration's friend. He had just dictated a strong endorsement of Mr. Cleveland in the New York platform, which was adopted with wild cheers, and all this had reinstated the great brainy senator in the good graces of everybody, so the mention of his name for governor was to the assembled Democratic delegates what a match would be to a powder magazine.

The nomination of Senator Hill insures New York to the Democracy, and makes a Democratic president in 1896 certain.

REPUBLICAN SILVER PLANK.

The action of the Republican party in this state on the silver question is rediculous in the extreme. The Republican party is a single gold standard party. This is its record and the position of its leaders. Senator Jones, of Nevada, who recently deserted the party on account of its hostility to silver sums up the party's position as to silver about right in the following statement:

There are some silver Republicans who still hope and perhaps believe that the Republican party will take up the silver cause in good faith and advocate the unrestricted coinage of that metal at the relation of 16 to 1. I am sorry to differ with those who entertain that opinion. In my judgment, there is not the slightest foundation for it. Actions speak louder than words. Among the entire Republican congressional representation in both houses of congress, from states east of the Mississippi, on the passage of the repeal bill in October last, there were but six votes in the house and one in the senate cast in favor of silver.

The Post-Intelligencer and other papers throughout the state are positive in the assertion that the party is against free coinage, that its platform is a lie and cannot bind the party to the interests of the white metal.

The free coinage plank in the Spokane platform is a farce; it was adopted solely as a vote catching feature.

The Republican party of Washington stands a confessed hypocrite.

A COUNTY FAIR.

The announcement published elsewhere in these columns that the people of the Quillayute will hold a county fair on the 29th inst is of more than passing significance. A county unfortunately isolated, at present, from the centre of trade and commerce, it is not surpassed in wealth of resources, and the excellent plan adopted to advertise its incomparable natural advantages, will, no doubt, bear rich fruit. The marvelous fertility of its soil, the superiority of its timber, have oft been told, only to be questioned by the amazed and incredulous.

An exhibition of its products will abundantly satisfy the incredulous, and will fully confirm what seemed to be an improbable report of the exceeding fertility of its soil and at the same time be an invaluable advertisement for that favored region.

The collection of cereals, of vegetables, of fruits and of hops will, no doubt, be a revelation to those not acquainted with the agricultural resources of Western Clallam.

It would be a capital idea to ship the collection to the Interstate fair at Tacoma, and have it labeled, "Products of the Quillayute."

WHOLESOME FRUIT CULTURE.

THE DEMOCRAT-LEADER publishes elsewhere the instructions issued by the state horticultural society to fruit growers, which should be heeded.

The culture of fruit demands unremitting toil and thoughtful and intelligent care of the growing trees.

A slothful, uninformed man never, never will succeed even in a moderate degree in this important branch of agriculture.

An orchard not far removed from the city was discovered to be slowly perishing, the victim of the insidious and deadly insect pest, and the owner appeared utterly indifferent not only to the inevitable destruction of his but to the impending doom shadowing his neighbor's orchard.

Such utter negligence and bland indifference to the inroads of an insect that soon would paralyze, if not entirely destroy, the fruit industry of the county and of the state, rises supremely to adegree of criminality the law should severely punish.

Examine your fruit trees and see to it they are wholesome and free from insect pests.

WHAT is the matter with Governor McGraw, anyway? Has his valuable time been so wholly occupied in laying political wires and with his budding senatorial aspirations that he has entirely forgotten to issue the election proclamation. Section 352 of the general statutes, reads as follows:

"It shall be the duty of the governor at least sixty days before any general election to issue his proclamation designating the offices to be filled by the state at large at such an election and to transmit a copy thereof to the county auditor of each county."

THERE is no reason in the world why the Democratic legislative ticket should not be sent to Olympia by the voters of Clallam county. They are nominated on a platform that all can endorse and stand for laws that should be adopted. They are both capable and thoroughly identified with the interests of the lower sound.

THE untimely resurrection of Gloystin, is a cruel, crushing blow to that morsel of political capital the Republican press has been wont to relish since the mysterious disappearance of that sensational adventurer. The ill-suspicioned Populists now have their day.

EVERY Democrat in the county and every citizen who desires to see officers chosen, who are competent to fill the offices, should go into the county campaign to get every vote possible for the Democratic county ticket.

CITIZENS, compare the Democratic county ticket with those of the other parties, and then make your selections on a basis of comcompetency and ability, as well as honesty and integrity.

Insatiate Thirst for Public Office.

The Populists of North Carolina have fused with the Republicans and thereby proved how much more they prefer success and office than principle.—Commoner.

THE DEMOCRATIC PLATFORM.

The Democratic Party of Clallam county, Washington, in convention assembled, do hereby make and promulgate this, their platform and principles:

We, the representatives of the Democratic party of Clallam county reaffirm our allegiance to the grand principles of Jeffersonian democracy believing that good government can be brought about only by a strict adherance thereto.

We heartily endorse the efforts of President Cleveland and the house of Representatives, together with those members of the United States Senate who remained true to the last Chicago platform, in their earnest efforts at the destruction of the McKinley robber tariff; which earnest and noble efforts were so corruptly and shamefully impeded, and where possible, thwarted by the large Republican minority allied with a few political motebanks, who have stolen the livery of Democracy in which to serve their Republican masters.

TARIFF.

We are in favor of a tariff for revenue only, sufficient to furnish necessary funds for the efficient conduct of our government economically administered. For the abolition of all tariff taxes upon the common necessaries of life and raw material, and we heartily endorse the income provision of the Wilson bill.

FINANCE.

We favor the free coinage of both gold and silver, the latter at a ratio of sixteen to one, and demand that all money be a full legal tender for all purposes, to the end that there shall no longer be one kind of money for the capitalist and another for the poor.

We favor the enactment of laws requiring county treasurers to receive all county warrants for taxes due said counties or any municipality therein of which municipality such treasurer is ex-officio tax collector irrespective of the date of their issue, such laws to run for a term of years safely sufficient to extend beyond the present hard times.

We demand the repeal of the iniquitous statutes enacted by the last legislature, which permits attorneys to issue summons without the seal or sanction of a judicial tribunal, to serve the same, and collect and retain the fees therefor, thereby depriving the county treasury of of the cost of said issuance and service, though the cost of to litigants is not lessened thereby, and the taxpayers of the several counties of the state are compelled to keep and pay officers whose duties are to issue and serve such paper.

We favor the enactment of laws confining the salaries of all county officers who collect fees from the public for their services within a reasonable amount and in no case to exceed the actually collected by them, thereby relieving the overburdened people from the payment of salaries to such officers or their deputies out of the county treasurer.

We urge the enactment of laws prohibiting the recovery of deficiency judgments by money lenders upon the foreclosure of real estate mortgages.

We favor the election of United States Senators by a direct vote of the people and pledge the nominees of this convention to do all in their power to help bring about such legislation as will carry this resolution into effect.

We demand the passage of a maximum expense bill law governing the expenditures a candidate for any office may make in conducting his canvas and rigid enough to disqualify any one violating it, thus placing a poor man on an equality with the rich man when canvassing for an office.

We deplore the existence in our state and county of powerful political rings who seek to control the affairs of government for the benefit and aggrandizement of their members by the distribution of their offices, and of money where they will "do the most good," the the machinations of which are responsible for the disgraceful proceedings which have characterized the Republican primaries and conventions in Clallam county and other positions of this state.

We most earnestly condemn the present iniquitous delinquent tax law and pledge ourselves to the enactment of a law whereby no delinquent tax shall bear a greater interest than eight per cent. per annum, nor a heavier penalty than two per cent. and make the period of redemption of land sold for taxes not less than ten years.

We condemn the Republican party for its useless waste of time and the people's money during the session of the last legislature in attempting to elect a United States senator.

We condemn the action of the present governor in his attempt at packing the state capitol commission in the interest of jobs and jobbers.

We condemn such class legislation as will provide a cash warrant for an official, and a depreciated warrant for the common laborer.

"My little boy was very bad off for two months with diarrhœa. We used various medicines, also called in two doctors, but nothing did him any good until we used Chamberlain's Colic, Cholera and Diarrhœa Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhœa or colic medicine. J. E. Hare, Trenton, Tex." 25 and 50 cent bottles for for sal, by J. C. Only the Scars Remain.

"Among the many testimonials which I see in regard to certain medicines performing cures, cleansing the blood, etc.," writes HENRY HUDSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., "none impress me more than **my own case.** Twenty years ago, at the age of 18 years, I had swellings come on my legs, which broke and became **running sores.** Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old **mother urged me** to try **Ayer's** Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. **Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me.** I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed **Ayer's** Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."

by
Dr. Price's Baking Powder

The manufacturers of Dr. Price's Cream Baking Powder are gratified to announce a confirmation of the unprecedented honors gained by them at the World's Columbian Exposition. At the recent California Midwinter International Exhibition they received the **Highest Award and Gold Medal** for baking powder bestowed at that splendid and highly successful fair.

The award in each case was due to

Proved Superiority in Quality

demonstrated on thorough analysis by expert chemists. The official examination showed Dr. Price's to be strongest in leavening power, pure in all ingredients and perfectly wholesome. In every particular it surpassed its competitors. The awards were made unanimously by reliable juries.

These awards establish, permanently, on highest authority,

Dr. Price's as the

"Foremost Baking Powder in all the World."

JOTTINGS FROM DUNGENESS.

Mr. Phil Rollins was called to Port Townsend by telegram on Sunday last to the bedside of his wife who is in a critical condition. She is under the care of Dr. Willison. Mr. Rollins returned Monday and reports some little improvement.

Mr. E. D. Elliott, the architect and builder, begun, Monday, the preliminary work on Mr. Robt. Wood's mansion on Groveland Avenue. Considerable of the material was purchased in Port Angeles. When completed Mr. Woods will have one of the most palatial and comfortable homes in Clallam county, and Dungeness people are looking forward to an old-fashioned house warming.

Mr. Frank Farwell will again lease the Sam Irwin ranch. His fine, bright crop of oats were purchased by the Dungeness Trading Co, and sold in Victoria.

Mr. Snow can catch trout when everybody else fails. On Monday he sent a handsome string of speckled beauties to Seattle friends.

The most enthusiastic sportsman is Mr. Warren Greene, of Seattle, who is equally successful with salmon eggs or a fly. He has been chaperoning his father-in-law along the banks of the Dungeness this week and pointing out the retreats of the trout to the old gentleman. Fishing in the river is at its best and hundreds of trout are taken daily.

Mrs. Caroline Seal, of Philadelphia, is visiting her son. The old lady has been spending the summer in Port Townsend and Portland, and before leaving for the East will visit a few weeks in Dungeness

Mr. James B. Dick left on the Evangel Monday morning for North Yakima, to attend the Democratic State Convention.

Mr. Robert Robertson, cashier of the Dungeness Trading Company returned Wednesday from a business trip to Seattle.

The steamer Wildwood, Capt. Charlie Davis was lying at the long wharf on Monday afternoon. Dungeness people are always glad to see the genial captain.

The schooner Alice M., from Port Angeles, brought from the Puget Sound Flouring mills at Tacoma, a cargo of twenty tons of flour for the Dungeness Trading Co.

We notice Mr. Frank Fisher, of Port Angeles, is a frequent visitor to Dungeness, particularly on society gathering evenings. Wonder what he is DICKering for?

The Dungeness Trading Co. have the sole agency for the Oliver Chilled and steel plows for Clallam county. The business this company is doing in all lines, and merchandise sold, can scarcely be credited. Under the new management, Messrs. C. F. Seal and H. J. Lipsett, business is conducted on business principles, and everything is moving along with a vim which must be gratifying to the managers. The steamer Farrollon from San Francisco this week, will bring an assorted cargo of about 20 tons, and the regular line of steamers bring merchandise on each trip and carry away produce of all kinds.

Farmers can find a cash market for their produce through Messrs. Seal & Lipsett, and they are also prepared to loan money in the Dungeness country on approved security.

Mr. O. V. Brown, of light house fame, has made his second monthly trip after his lost cow. The cow is an educated one, and when Brown approaches she quickly hides away in the long grass and permits him to continue the search. Brown enjoys these outings.

The price of eggs and butter have advanced and there is apparently a great scarcity.

Mr. John P. Anderson has just harvested the largest and finest crop of peas ever raised in one season by any one person in the Dungeness country. Altogether the crop will sack up twenty-five tons. The entire lot was sold for spot cash to Messrs. Seal & Lipsett.

Mr. and Mrs. Seal's new residence on Groveland avenue is rapidly approaching completion, and will be ready for occupancy in a week or ten days. It is one of the most easy and comfortably arranged homes, and has a number of home-like features heretofore unknown in Dungeness. Mrs. Seal will return shortly from her protracted visit among friends in Victoria.

Seriously Injured.

Last Saturday afternoon Drs. F. S. Lewis and W. T. Strother, of this city, were summoned to the Clark ranch west of the Elwha to render medical assistance to Mr. Alex Clark who had received severe injuries while operating a stamp machine.

It is supposed that the injured man had been struck with the sweep of the machine just back of the left ear, inflicting severe injuries, probably a fracture at the base of the brain, the exact nature and extent of the injuries received, however, being as yet largely problamatical. The doctors state that enough is known to conclude that a severe concussion has been produced, the severity and nature of which time alone will demonstrate.

The patient remained in a state of unconciousness for at least forty-eight hours, when he partially regained consousness, and has been quite rational during the past few days. His physicians are quite hopeful of his ultimate recovery, and state unless some unforeseen change for the worst occurs the chances of recovery are more than even.

The theory advanced as the manner in which he received the terrific blow, by those who examined the machine after the accident had occurred, is that the drum or cylinder which revolves the machinery of this somewhat complicated and ingenuous contrivance for stump pulling, had been wound up to the utmost and was thrown out of gear. At this point, it appears, the injured man was attempting to loosen the drum by striking it with a fence rail. The jar suddenly threw the machinery in gear, simultaneously forcing the sweep into motion, which struck the unfortunate man a terrific, but what is generally believed, a slanting blow on the head which prostrated him. When struck he must have been standing in a bending position.

It is sincerely to be hoped that Mr. Clark will soon recover from the injuries thus unfortunately sustained.

DUNGENESS vs. ANGELES.

Match Game of Base Ball for Championship of Clallam.

A match game of base ball will be played in this city next Sunday afternoon, Sept. 30th, between the Dungeness and local clubs, for the championship of Clallam county.

It is understood that the local club has been practicing quiet diligently, and propose to win the game and the championship. They will certainly have to play more skillfully than they did in the former contests with the Dungeness club as they then failed to demonstrate themselves the equal of their competitors.

Mr. J. C. Haswell of Port Crescent, is in the city.

The public schools of the city will open next Monday.

The county commissioners will meet next Monday.

Mr. Chas. I. Haswell, manager of S. J. Lutz & Co.'s store at East Clallam, is in the city.

Miss Maude Wrigley, of Seattle, is a guest of her sister, Mrs. Geo. W. Meagher, of this city.

Mr. A. R. Chitwood has removed his candy and fruit store from Dungeness, and, it is understood, will re-open in this city with a stock of goods in that line, the middle of next month.

About twenty-five children from this city took advantage of the Post-Intelligencer's generous offer of a free round trip ticket to the Interstate fair, at Tacoma, including an admission to the fair on Post-Intelligencer Day. They left on the Monticello today.

Dr. H. C. Willison of Townsend, was in the city yesterday, and proceeded to the Clark ranch, having been summoned as consulting physician in the case of Mr. Alex. Clark, who was recently injured. Dr. Willison expressed strong hopes for the recovery of Mr. Clark.

W. C. T. U. ITEMS

BY MRS. C. B. MAXFIELD.

For God, and home and native land.

The next meeting of the union will be October 5, at the home of Mrs. Nottage.

Dr. Henson never spoke truer words than when he said: "The real dynamiter is not the one who throws the bomb, but the man who keeps the saloon. We hang the bomb-thrower, but the man who keeps the saloon we make him an alderman.

The W. C. T. U. pledge: "I hereby solemnly promise, God helping me, to abstain from all distilled, fermented and malt liquors, including wine, beer and cider, and to employ all proper means to discourage the use of and traffic of the same."

The regular meetings of this Union will be held on the first Friday in each month at 2 p. m., until further notice. The gentlemen members are requested to attend the evening meetings. All are cordially invited to all meetings of the union.

The late Dr. Parker said: "If alcohol were unknown half the sin and three-fourths of the poverty and unhappiness of the world would disappear. Alcoholic drink tends to break up all social order; prostrates all barriers of the law; sets fire to all human passions, and whelms all institutions of blessedness, domestic, civil and religious in one blasting fiery field of rum—Geo. B. Cheener, DD.

The Rev. Thomas Evans writes in the Statesman that 124 temperance associations have been formed in this country in connection with the movement associated with his own name. He says that ninety per cent of the missionaries of India are pledged teetotalers, and twenty thousand British soldiers in India are also abstainers from strong drink. The temperance sentiment is spreading rapidly in England, where there are now about seven million total abstainers.

Cardinal Manning has said, "If we could make the English workman a total abstainer, we would settle the most serious of the social problems that confronts us." This is supported by such figures as those furnished by Father Murphy, that the 2,000,000 unemployed men this year in America, spent $100,000,000 last year for liquor. The figures are startling to one who has not looked into the matter, yet they are only a small sum in comparison with the total amount of waste, for there should be added the loss of time, loss of character and loss of health, and other losses making more than enough to support the unemployed and their families. Much more startling are the figures when we consider fully the wretchedness they imply.—Housekeeper.

Emma Harriman in Southern California White Ribbon says: "I once heard a minister tell how he was converted to woman's suffrage. He went to the polls and found a filthy polling place filled with half drunken, foul mouthed men. The air was thick with tobacco smoke and heavy with curses. One fight after another made the day hideous. The next year he went again. The women had been there before him. The place was clean, flowers stood about in vases here and there. In one corner were tables covered with white cloths and women, good women gave out coffee and cake to the voters. 'I staid all day,' said he, 'and not a man smoked, swore or fought. The place was clean in the morning and clean at night,' and I said, 'If women can do this in one day, what could they do in a year, in a life time? This is what we need. The women to help in political matters, and, God helping me, I'll vote for it from this day on.'" And he did.

Speaks through the Boothbay (Me.) *Register*, of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are in need of a laxative to try Ayer's Pills. They will do good."

Proposed Constitutional Amendment.

Notice is hereby given pursuant to the provisions of an Act of the Legislature of the State of Washington, entitled "An Act to provide for voting on a constitutional amendment at the general election to be held in November, 1894, relative to the investment of the permanent school fund," approved February 6, 1893, that the following amendment to Section 5, of Article XVI, of the Constitution of the State of Washington will be submitted to the qualified electors of said state for their approval at the next general election:

Section 5.—None of the permanent school fund of this state shall ever be loaned to private persons or corporations, but it may be invested in national, state, county, municipal or school district bonds." That there shall be printed on all the ballots supplied for said election the words, "For proposed amendment to Section 5, Article XVI, of Constitution, relative to investment of permanent school fund. Against proposed amendment to Section 5, Article XVI of Constitution, relative to investment of permanent school fund." At said election each elector shall vote for or against said amendment by crossing out part of the ballot in such a manner that the remaining part shall express his vote on the question submitted.

IN WITNESS whereof I have hereunto set my hand and affixed the seal of the State, this 24th day of July, 1894.

Review of Seattle Market for the Past Week.

SEATTLE, September 26, 1894.

Exchanges at Seattle, Tacoma and Portland clearing houses to-day were:

	Clearances.	Balances.
Seattle	$ 69,861 56	$23,249 11
Tacoma	97,127 09	22,779 00
Portland	300,603 00	168,604 00

The markets, as a general thing, show a decline during the week past. Wheat is about the only exception, having risen, while all other lines have fallen or remained stationary, with signs that first change made would be downward. Fruit is very weak in almost all lines, the quality averaging poor, though good prices can be obtained for first-class fruit, which is scarce. There is a quantity of poor plums on the market, which go off slowly. California grapes are fairly well cleaned up, but a quantity came up on the San Francisco steamer too late for yesterday's markets. Peaches bring almost any price from 25c per box to 75c per box, according to quality, though it takes a first-class peach to bring the top price. There are still a few watermelons on the market, but they are stale and there is no demand for them.

Among the vegetables corn and tomatoes are fairly strong, with prospects of a slight rise, but all other lines are weak. Potatoes are especially weak, the stock on hand being surprisingly poor and prices correspondingly low. If there were any good potatoes on the market they would probably realize $15 per ton, though the highest price that has been paid for any for some time past has been $12 per ton, and from that down to almost any price. Two tons were sold yesterday in one lot for $4.50 per ton, but the average price is from $8 to $10 per ton. Many farmers are holding their crops for higher prices, but it is doubtful, unless the quality is better than those now on the market, whether better prices will be obtainable.

Hay, grain and feed have not varied to any great extent, and no changes of any importance are looked for. Hay is coming in in sufficient quantities to supply the demand, but heavier consignments are expected in about a fortnight.

Oats are just beginning to appear on the market; but all growers who can afford to are holding them for higher prices.

The poultry market was thoroughly cleaned up yesterday, the Alaska steamer taking all in sight.

Eggs and butter are very firm, with an advance probably in a few days.
