VOL. 5. NO. 42 PORT ANGELES, CLALLAM COUNTY, WASHINGTON, FEBRUARY 15, 1895. PRICE FIVE CENTS

THE COUNTY ENJOINED

From Issuing a Warrant in Payment of the Seattle

ATTORNEY WHO HAS BEEN ENGAGED

By the Board of County Commissioners, to Assist in the Prosecution of Certain Suits Which Will Soon Be Brought for the Recovery of Moneys Belonging to the County—Commissioners Proceedings.

An injunction has been begun against the county of Clallam. The papers in the case were filed with the county clerk last evening.

The nature of the complaint is to enjoin the county auditor from issuing a warrant in the sum of $1,500 in payment of the services of John F. Miller, the attorney, who has been engaged by the board of county commissioners of Clallam county, to assist in the prosecution of certain suits the county is soon to bring for the collection of certain county funds not accounted for from the bondsmen of Ex-Treasurer Clump, and in protecting the interest of the county in other matters.

The case is brought by S. G. Morse against John F. Miller, the county auditor and the board of county commissioners. The complaint alleges that the board exceeded its authority in engaging the attorney; that the county has exceeded the five per cent. limit, and it enjoins Miller from acting as assistant legal advisor, and it enjoins the auditor from issuing a warrant in payment of legal services rendered by said John F. Miller.

COMMITTEE APPOINTED

To Examine and Consider the Proposition

SUBMITTED BY W. C. WILLIAMS.

In the Settlement of the Contract for the Construction of the Electric Lighting Water Power Plant—A McLaughlin Elected Street Commissioner—Death of Mrs. J. S. Fenn in Victoria.

On the part of the finance committee Councilman Lamoreux reported that it had been decided advisable to not arrange for the employment of an attorney to assist in the defense of the city in pending suits, until compromise now pending terminates either one way or the other.

City Engineer Adams' application for quarters in the city hall was referred to the finance committee.

Councilman Shelton moved that the ex-city engineer be instructed to turn over to the engineer-elect all of the fixtures of the office. The motion prevailed.

W. L. Marquardt, attorney, in behalf of W. C. Williams, the contractor of the electric lighting water power plant, submitted the following proposition in settlement of all claims against the city by the said W. C. Williams, contractor: "If the city council allows us $6,000, including the $2,000 in electric lighting bonds, which have already been issued to the said W. C. Williams, we will cancel all claims against the city and give the city a receipt in full in payment of all claims against it by said W. C. Williams, contractor.

A motion prevailed that the ex-electric light manager turn over all books to his successor, Frank L. Hall.

The election of a street commissioner was brought up for consideration. There were three nominations, namely: Messrs. O. McLaughlin, John Donahue and C. McLaughlin. On the fifth ballot O. McLaughlin received a majority of the votes cast, and was declared duly elected.

Mr. Wm. Bell was accorded the privilege of addressing the council on the subject of rebate warrants issued for excessive street grade levy. As a holder of these warrants he desired to turn them in payment of taxes, if the city would not accept them therefor, he should like to be compensated in some way for them.

The following resolution was introduced by Councilman Graybill, which was adopted:

Resolved, That a committee of three be appointed, including the finance committee, Geo. C. Hatch, the city attorney, W. L. Marquardt, attorney for W. C. Williams, contractor, for the purpose of considering the proposition submitted by W. C. Williams, on the part of his attorney, W. L. Marquardt.

The council then adjourned.

The members of the city board of health then met, and proceeded with the election of Dr. W. T. Strother, as health officer of the board, after which the meeting was adjourned.

Death of Mrs. J. S. Fenn.

The sad intelligence of the untimely death of Mrs. J. S. Fenn, which occurred in the hospital at Victoria Wednesday morning, has been received in the city.

The death of the estimable woman was caused by a delicate and critical surgical operation which she had recently undergone.

The operation had been performed by the most skilled surgeons of that city, and the patient gave every assurance of fully recovering from the severe nervous strain to which her physical organization had been taxed. The strain, however proved too great for the patient and she finally succumbed in the uneven struggle, passing away early Wednesday morning.

Deceased was the wife of the ex-postmaster J. S. Fenn, of this city, and was an exceptional woman, who possessed many noble traits of bharacter. The family removed from this city to Victoria last summer. A loving wife, an affectionate, devoted mother, her untimely death creates a vacancy in the home which can never be filled.

She leaves a husband and five children to mourn her untimely end. Of these three are married, two daughters and one son, one of the married daughters being Mrs. Warren R. Dodge, of this city.

The many friends of the family in this city extend sympathy in the hour of bereavement.

Horticultural Notes.

There is important work to be done in the orchards at this season of the year, and perhaps the most important of all is spraying the trees.

Praying for good crops of fruit will not bring them. There is little profit in sending produce to market unless it is of first quality. Especially is this the case in the sale of fruit, poor fruit is not wanted, and it is almost impossible to produce a full crop of good fruit without spraying the tree to prevent scab, mildew and other fungus diseases, as well as to keep down the insect pests that have ruined so many orchards, whose owners have left this important work undone. Get your spray-pump to work if you have one, if not, you should lose no time in procuring one.

Trees should be sprayed two or three times before the blossoms appear. They should have a good spraying this month with the lime, sulphur and salt solution, while the trees are dormant. The Bordeanic mixture should be used before the buds swell, to prevent scab and other fungus diseases.

Besides the importance of early spraying there are other things that should not be overlooked, be thorough in the work, do not leave a tree or bush until the job is done well. A light spray or mist will give the best results, as well as a saving in the cost of solutions used. The Bordeanic mixture has proven the best remedy for all fungus diseases. Fungus diseases cause apples and other fruits to drop when small; spraying makes them hold on. Pear trees will not blight and lose their leaves in August if sprayed early in summer.

Kerosene Emulsion is the remedy for green aphis and lice that infest apple trees, etc., feeding on the tender succulent shoots and leaves during summer.

By corresponding with the Clallam County Horticultural Society, established at Port Angeles, Wash., the formulas for making these solutions can be obtained free. Fruit-growers should club together and purchase the materials at wholesale prices, which will make the cost of spraying very low. The chief materials used are lime, sulphur, bluestone or sulphate of copper. Spraying the orchard is a necessary position of the work connected with the raising of fruit and he who would make the business successful and profitable must first recognize the valuable importance of this work.

"SAPHO"

The New Townsite Recently Established in the Quillayute.

There has been a feeling among the ranchers of the Quillayute valley for some time past that a town should be established somewhere in the interior so as to afford better accommodations to the settlers; to collect the business of the valley as much as possible at some certain point; encourage capital to come in and work for the up-building of the entire valley. This will be the object of the promoters of the new town to be established two miles northeast of Beaver, and which will be christened "Sapho." Those interested in the undertaking are not laboring under the impression that Sapho will be a second Chicago, but expect to make it the trading point for the settlements of the upper Quillayute valley—make it to the interest of everyone to do their trading in here instead of sending out to up-sound points and paying enormous freight and package charges, and in the long run be out of pocket by "buying cheap." Several lots have already been spoken for; one two-story building, 20x60 feet with an "L" 20x30 feet is in course of erection, and when completed will be used for a hotel and general store, and three or four other business houses will be commenced soon. Arrangements are being perfected to put in a saw-mill on Beaver creek adjoining the town, and the ranchers in this neighborhood will be able to get sure-enough lumber right at home. A furniture factory is also talked of. The new townsite has a commanding location, tapping the rich and fertile Bear creek, upper Solduck valleys, and as soon as a trail can be built west into the great agricultural section of the Dickey, it will be able to draw most of that trade.—Beaver Leader.

LARGE ORDER FOR LUMBER.

Red Cedar Shingle and Lumber Co. Receives an Order for 200,000 Feet.

The Port Angeles Red Cedar Shingle and Lumber Co., has received an order for 200,000 feet of clear cedar lumber.

J. M. Martin, the receiver, returned from a brief business trip to Seattle, Tuesday, whither he had gone to perfect arrangements for a shingle plant and for necessary machinery in the lumber mill.

Mr. Martin informed a representative of THE DEMOCRAT-LEADER that he had purchased the machinery for the mill. The order for a shingle plant will also be placed as soon as the details connected therewith can be satisfactorily arranged.

The prospects before the company for a large and profitable season's business are most reassuring.

A Pleasant Surprise.

Mr. and Mrs. Ray Haynes were the recipients of an agreeable surprise last Saturday evening, the event of the former's birthday.

The party was comprised of 12 of the personal friends of the young couple, each of whom contributed heartily in the spirit of the event.

Games and music were special features of the evening's entertainment, and a fine repast refreshments were served.

CAMPAIGN PROMISES.

County Attorney Stewart solemnly promised the people during the campaign of '94, that if elected to the high and responsible position of county attorney, he would discharge the duties of the office without the assistance of a deputy.

Mr. Stewart was elected, and quite true, no deputy has yet crossed the threshold of the office.

During the second month of his official career, however, even a graver offense against economy is committed. Doubtless Mr. Stewart cannot be justly held responsible for the offense. Possibly the county commissioners are solely responsible for having employed a Seattle attorney for the princely consideration of $750 in GOLD COIN to perform the duties of that office. Nevertheless it is a serious reflection on the professional ability of the county attorney. If Mr. Stewart acquiesced in the action of the board, it is a frank admission on his part of utter inability. If he disapproved the action and the board ignored the wishes of its legal adviser, it is a positive reflection on the ability of the gentleman, which has no justification in fact.

Ambition is doubtless a commendable trait, but when it influences a man to aspire to an office he has not the qualifications to occupy, it commits a grave offense against the public service.

RETURNING PROSPERITY.

An unfailing barometer of the condition of trade throughout the country is the iron and steel trade. If there is general activity in that industry the country is measuredly prosperous; on the contrary if that trade is dull and inactive, there is responsive depression in every other channel of commerce and trade.

The following significant assertions by Mr. Joseph D. Weeks, secretary of the Steel and Iron Association, of Pennsylvania, its chief expert authority, are very reassuring:

"This is a hard time of the year to make any prophecies on the iron business, but when men begin to plan and prosecute extensive improvements in their plants, and take steps to largely increase their producing capacities, it is an almost unfailing sign that they see something very definite ahead. That is just what they are doing in and around Pittsburg.

"Never since I can remember have such extensive preparations been made to take full advantage of trade not yet in full sight. The engineering offices are crowded with construction work. One firm that I know of has $2,000,000 already on the books. We count usually about one year for the consummation of improvements and new construction in the iron mills, and from these facts it is pretty safe to infer that a great and almost unprecedented revival in business will result before another 12 months have rolled by."

No better evidence of returning prosperity than this could be wished. The indecision of congress has done much to impair confidence and retard business revival, but notwithstanding this the country is slowly and surely recovering and safely entering upon an extended era of industrial activity.

THE county commissioners have established a wrong precedent in securing from abroad legal and clerical services. Its action in this matter is entirely without justification. The local bar is comprised of a number of attorneys, who, in point of ability and professional excellence, stand equally as high, as the gentleman engaged from abroad. As regards clerical ability any one of a dozen young men of the city, are fully as competent and trustworthy as the gentleman engaged, and would undoubtedly return as proficient service. The board has made a serious, serious mistake. Its action is utterly devoid of patriotism of home.

The St. Louis Republic, the leading Democratic newspaper in the Mississippi Valley, has for years been a stout, unceasing advocate of bimetallism; but this fact does not make it blind as to the duty of Congress with reference to the financial situation. "The president can do no less," says the Republic—than sell bonds of one kind or another, if Congress fails in legislation to make the bond issue unnecessary. If Congress does nothing, he will sell those bonds existing laws give him authority to issue. And he will do right. He would utterly fail to meet the measure of his duty if he did less." On this point the newspapers of the country are practically in accord.

SEVERAL state legislatures are seriously considering the question of abolishing the theatre hat. This question even rises to the importance of a national issue. There yet remains an opportunity for the present congress to distinguish itself and earn enduring fame before it passes into everlasting obscurity. Will it lead the crusade against the theatre hat?

THE passing of Hon. Isaac Pusey Gray of Indiana, removes a conspicuous public figure. His death occurred in the City of Mexico, where he was serving as United States Minister to Mexico, to which position he was appointed by President Cleveland. Deceased was one of the ablest and most prominent Democrats of Indiana. He was elected as governor of that state in 1884.

ANY movement the tendency of which is to compromise the credit either of the county or of the city, is reprehensible in the extreme. What is needed is more genuine, unselfish patriotism.

The Bane of Partisanship.

The recent attacks upon the President because of his Hawaiian policy have been in keeping with others, not more justifiable or excusable, which have been persistently made from the day that he assumed office. His offence has not been that of lack of honest, public-spirited, faithful administration, but that of being a party different from that of his assailants. His personality, his character, his principles and conduct have been attacked, for the only purpose of obtaining supposed partisan advantages.

In his instructions to the commander of the Philadelphia, in dispatching the vessel to Honolulu, the President said: "In case of civil war in the islands extend no aid or support, moral or physical, to any parties engaged therein." The Republic of Hawaii is an independent foreign power, and it would be clearly not only in contravention of the established policy of this government, from the beginning of its existence to the present day, to interfere in the affairs of such a power, but it would be against the comity of nations. The avoidance of entangling foreign alliances, or interference in the quarrels of other other nations, is one of the foundation stones of American policy, and it is well formulated in the president's instructions to the commander of the Philadelphia.

There is but a single reason why the United States should send a ship of war to Honolulu, and for that reason alone the Philadelphia has been sent there; it is that the lives and property of American citizens shall be protected in the event of a revolution. The president of Hawaii has put upon record the expression of his satisfaction that there were no foreign ships in port on the occasion of the late outbreak as their absence demonstrated the ability of the Republic to itself suppress insurrection. There is no more justification or excuse for the United States to interfere in the domestic troubles of Hawaii than there is for its unsolicited interference in the tangled affairs of Mexico and Gautamala, and throughout the entire Hawaiian matter President Cleveland has acted only in accordance with the explicitly settled policy of the government from the day of its establishment.—Philadelphia Public Ledger.

SALE EXTRAORDINARY.

The Greenberg Bros.' Stock of Goods Will Be Sold at a Great Sacrifice.

The Greenberg Bros.' stock of dry goods, clothing, hats, shoes, etc., which was damaged by smoke and water last January, will be sold at a great sacrifice.

The great sale began last Thursday, and judging from the customers thronging the store, citizens are taking advantage of the unusual opportunity to purchase the necessary articles of apparel at ruinously low prices.

The stock is quite replete in the dry goods and in the clothing departments, and in each the customer will be astonished with the remarkable bargains which can be obtained.

The stock will be sold regardless of cast, as Messrs. Greenberg Bros.' purpose, as soon as these goods will have been disposed of, to purchase, direct from the east, for the Port Angeles trade, one of the largest and most replete stocks of dry goods and ready-made clothing, ever displayed in the city.

THE DRY CREEK MILLS.

The Port Angeles Mill and Lumber Company's Mills Running Satisfactorily.

Messrs. Loggie & Evans, the leases of the Port Angeles Mill and Lumber Company's mills at Dry Creek, have made many important and needful improvements in the mill and in the yards. The plant has been thoroughly overhauled, repaired, and, in part, supplanted with entirely new machinery. Two large dry kilns have also been built.

The shingle mill is now cutting an average of 120,000 shingles daily.

These gentlemen have the reputation of being rushers in lumber circles. In Snohomish, with a plant of the same make and design, they cut 175,000 feet in ten hours run.

While the shingle market is somewhat demoralized, and the prices too low for the profitable operation of the mills, the cause for the unsatisfactory condition rests largely with the producers. They should get together and arrange a schedule of prices which would permit a reasonable marginal profit, then steadfastly adhere to the arrangement. Not until then will the shingle industry admit of profit.

LEGISLATIVE NOTES.

A Few Things of Minor Importance the Legislature Has Accomplished.

The house judiciary committee is seriously considering a measures which provides that after a decree of foreclosure is entered against any kind of property the sale shall not take place for one year thereafter, instead of allowing one year for redemption after immediate sale, as under the present law. It is believed that immediate sales after forclosure work a hardship upon the unfortunate property owner who is unable to meet obligations made when everything was in a prosperous condition, and that to deprive him of all income from the property for one year is unjust. If at the end of one year, however, he cannot redeem his property, it is argued, the sale can justly take place, and no redemption clause could be reasonably expected. Such a measure, it is believed, would be advantageous to the mortgagor, inasmuch as the property would certainly bring a higher price with no redemption clause in the sale.

The joint revenue and taxation committee of the senate and house met Monday evening for the first time, and will hereafter hold frequent sessions, in an attempt to get some sort of order out of the mass of proposed legislation in both houses on taxation questions. One of the questions which will require a great deal of investigation is that relative to the acceptance by county treasurers of warrants in payment of taxes. The question is one that looks reasonable at first blush, but upon investigation it is seen that it enables big corporations to pay taxes in depreciated warrants, and is of no benefit to the small taxpayer, as he is seldom enabled to handle warrants, that it requires the issuance of more warrants, as the amount received for taxes is reduced, and increases the amount of inferest paid out, and its whole tendency is to impoverish instead of improve the condition of the county and its people. There is little danger of such a measure passing.

The question of a remission of penalties and reduction of interest on taxes will also come up before the joint committee during its earlier sessions. There is no doubt that the people will be given relief. The consensus of opinion among members of the senate committee seems to be that for the coming year the rate of interest on delinquent taxes will be reduced to about 12 per cent, and the penalty to about 1 1-2 per cent. On the taxes of 1892-3 either the penalty and interest will be rebated, if paid this year, or the penalty will be rebated and the interest reduced about one-half from 20 to 10 per cent.

An Old Soldier's Recommendation.

In the late war I was a soldier in the First Maryland Volunteers, Company G. During my term of service I contracted chronic Diarrhœa. Since then I have used a great amount of medicine, but when I found any that would give me relief it would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhœa Remedy was brought to my notice. I used it, and will say that it is the only remedy that gave me permanent relief and no bad results follow. I take pleasure in recommending this preparation to all of my old comrades, who, while giving their services to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours truly, A. E. Bending, Halsey, Oregon. For sale by J. C Hansen, Druggist.

Mr. and Mrs. Thos. Clark, of Dungeness, were in the city Monday. They left in the afternoon for a visit with Mrs. Clark at Eden.

Mrs. Smith Yarnell and family left on the Farallon last Wednesday morning for Reding, Cal., via San Francisco, where they will join Mr. Yarnell.

The Clallam County Title Insurance & Abstract Company is removing from their present quarters into the office apartments recently occupied by Chas. E. Gay.

On Wednesday, 27th inst., being Ash Wednesday or the first day of Lent, there will be a service in the Episcopal Church, at 10:30 a. m. Every one invited to attend.

Captain S. L. Greenleaf, of the ship Raphael, was in the city last Saturday and Sunday. The Raphael was inward bound from San Diego, after a voyage of twenty-eight days.

Galvanized wire poultry netting makes a better and cheaper chicken coop than you can build with lumber. If you want the best and cheapest, write or call on H. C. Strong, Hardware Merchant, Port Angeles.

About fifteen young men have organized a law class, and will soon begin a two year's law course under the instruction of W. L. Marquardt. It is also understood that Mr. Marquardt will also deliver a series of law lectures to the class.

Miss Nellie Esworthy left last Wednesday to accept a position in Seattle. For more than two years past Miss Esworthy has very acceptably filled the position of copyist in the auditor's office. The many friends of the young woman in the city will regret her departure.

The following were the successful candidates for teacher's certificates: Thos. Edwards, first grade; Aufura Brown, Isabella Shearer and Edward McCormick, second grade; Exa Morris, Annie Burrows and Mrs. S. A. La Follette, third grade. Three applicants failed.

A. G. Ansel, grand master of the grand lodge I. O. O. F. of the State of Washington, will be in the city on the 26th inst., at which time he will be the guest of the local lodges, and will doubtless deliver an address to the members. Mr. Ansel will be accompanied by Mr. A. R. Partridge, publisher of the Washington Oddfellow.

The principal feature of the entertainment at the Minerva Literary society next Monday evening will be a mock legislative assembly. The members of the society will resolve themselves into law makers, representing the various constituencies of the state, and a novel and interesting evening's entertainment is anticipated. Mr. Embree has been chosen speaker of the first session. It is proposed to continue the sessions indefinitely, convening the last meeting night in each month.

The Rev. E. B. Sutton, general agent of the Prohibition Alliance, also a member from the State of Washington of the National Committee of that party, will deliver a lecture on "Prohibition," in the First Congregational Church of this city, next Sunday evening. Mr. Sutton is an able, forceful and interesting speaker, and will doubtless give an excellent address.

The morning sermon at the First Congregational church next Sunday, will be "Imagination and Realty." Temperance lecture in the evening.

A party was given at the home of Miss Hattie Fend last evening in honor of her birthday. Games and cards were features of the evening's pastime. Delicate refreshments were served.

Sam Buggie, the "Honoluluian traveler," contemplates another journey to new climes. The girls say that they need not "sigh" for they know to well that "he will come back."

The Monitor Literary Society will meet Wednesday evening and discuss the question of "Army vs. Navy in Putting Down Secession." We are unable to learn who are champions.

Rev. E. C. Lee, of the Dungeness M. E. church, gave a very entertaining sermon at the F. M. B. A. hall, Sunday afternoon on "Mind Your Own Business." A large congregation was present to hear this able discourse.

A project is now on foot with the farmers of Sequim to organize a Grange and to dissolve the F. M. B. A. The plan is being met with general approval, and soon the long-talked-of Grange will be something real. The farmers need something to bind them to gether so they can realize enough out of their crops to pay their taxes. A large acreage is being put into crops this spring, and if nature favors them they will have large crops to harvest this coming fall.

NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

East Clallam Record.]

The saw mill started again on Thursday afternoon.

Surveyor L. D. Shelton came here on Monday to go out to the Colduck, where he has a little survey work to do in one of the townships in that locality.

A great ball is talked of for February 22d to be given by the Oddfellows lodge.

The Record is in favor of naming the proposed new county, "Quillayute," for the reason that this western portion of the county is generally known by that name now, and it was adopted once as the name for a new county here by the territorial legislature years ago. It is a characteristic Indian name of easy pronunciation, and there is no other such name attached to any county in the United States.

There was a meeting held at Sweet's store last Saturday evening to choose a delegate to go out to Beaver to the convention to be held there to-morrow. Two delegates were chosen, W. H. Rowen and Frank King. The Beaver convention is to discuss county division and make arrangements for appropriate legislation. It is understood that Representative Seevers will introduce a bill to divide the county if the matter is placed in his hands in time. The bill must be introduced not later than March 1st.

Beaver Leader.]

W. T. Crosby has purchased a span of large horses and intends to farm his ranch this summer on an extensive scale.

John Gordon is raising his large barn this week. It is 24 feet wide and 40 feet long, and is made of hewed logs. It will be a daisy.

Messrs. C. A. Wisen and M. D. Doolittle killed two fine elk last Monday in the upper Bear creek valley near the ranch of Oliver Lawrencen. The elk were shot in a very favorable place, being within a few rods of the road, and a short distance to the hunter's home.

Several names have been mentioned as suitable titles for the new county. Among the more popular are Olympic and Occident. They are both appropriate. Olympic is the name suggested by the Leader—at the request of Mr. R. L. Sebastian—sometime ago, and we have heard of no other as yet, what is prettier or more appropriate than that name.

The new town of Sapho was surveyed this week by Mr. I. E. Franklin, and the plat is ready for filing with the auditor. The original townsite will comprise but three blocks, but additional blocks may be laid out as the town grows and necessity requires. Everything has moved along as smoothly as could be expected, and those interested in the undertaking are well pleased with the outlook. The The contract for slashing the townsite has been let to Messrs. Peter Bergerson and Louise Case, and they will begin the work next Monday morning. As soon as the slashing is completed work will begin on the different buildings and before fall there will be quite a little village at Sapho, the pioneer town of the valley.

The rhetorical divisions, which recite on Friday mornings of each week, are growing quite interesting. A number of visitors are present during these exercises.

State Superintendent Bean visited the Normal last week.

A committee composed of three members of the Senate and four members of the House visited the Normal Thursday and Friday. Their work was to investigate and see what the school was doing. They expressed themselves as being quite well satisfied with the work done here. A reception was tendered the committee, at which a program, consisting of music and recitations, was rendered by the student.

W. J. Sutton, Principal Cheney State Normal school visited our school Friday.

Two weeks ago at a meeting of the Eclectic Literary Society, Prof. Mahan made a proposition to its members to present two copies of Roberts' Rules of Order, to the winner in a contest to be had between the ladies and gentlemen. The proposition was accepted, and the question selected; "Resolved, That Turkey should be maintained as an independent nation." Last night the contest came off and the gentlemen won.

There are about 150 students enrolled in the Normal, besides those in the training school. NORMALITE.

Chamberlain's Cough Remedy is famous for its cure of bad colds. It opens the secretions, relieves the lungs and aids nature in restoring the system to a healthy condition. If freely used as soon as the cold has been contracted, and before it has become settled in the system, it greatly lessens the severity of the attack, and has often cured in a single day what would have been a severe cold. "How old are you, my pretty maid?"
I asked when she was seven.
She answered quick while 'round her played
Sweet smiles as bright as heaven.
"How old are you?" I asked again,
When she was seventeen.
My question still was not in vain
To answer she was keen.
"How old are you?" once more I ask,
Alas! 'twas once too often.
It was a vain and useles task,
Her anger then to soften.

PATRIOTIC CHIN.

General Chin was feeling rocky.
When he heard his head must go,
As in battle—speaking mildly—
He had been a trifle slow.

Now, old Chin, though quite a coward,
Was conservative to boot;
He was glad to die for China—
So he bought a substitute.

And he paid a sum of money
To the man who lost his head.
General Chin gets vindication—
And his substitute is dead.

AYER'S SARSAPARILLA

... sores ... could ... and it was ... that the bones ... affected. At last, my good old mother urged me to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

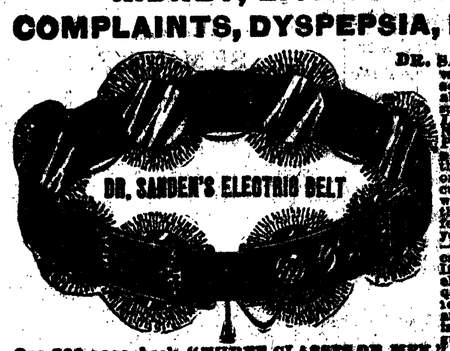
HAVE YOU TRIED DRUGS AND FAILED

TO FIND A CURE FOR

RHEUMATISM, LUMBAGO, SCIATICA, KIDNEY, LIVER and BLADDER COMPLAINTS, DYSPEPSIA, LAME-BACK, &c.



DR. SANDEN'S ELECTRIC BELT with Electro Magnetic Suspensory will cure without medicine all of the above troubles. Those who suffer from Nervous Debility, Losses, Drains, Lost Manhood, Nervousness, Sleeplessness, Poor Memory, all Female Complaints, and general ill health, the effects of abuses, excesses, worry or exposure, will find relief and prompt cure in our marvelous invention, which requires but a trial to convince the most skeptical. In ignorance of effects you may have unduly drained your system of nerve force and vitality—which is ope strictly—and thus caused your weakness or lack of force. If you replace into your system the elements thus drained, which are required for vigorous strength, you will remove the cause and health, strength and vigor will follow at once. This is our plan and treatment, and we guarantee a cure or refund money.

Our 200 page book "THREE CLASSES OF MEN," should be read by every young, middle-aged and old man, sent sealed, free. Dr. Sanden's Electric Belt is no experiment as we have restored thousands to robust health and vigor, after all other treatments failed, as can be shown by hundreds of cases throughout this and other States, who would gladly testify, and from many of whom we have strong letters bearing testimony to their recovery after using our Belt.

WE HAVE CURED THESE—WE CAN CURE YOU!

GENERAL DEBILITY CURED.

San Francisco, Cal., August 14, 189..

Dr. A. T. Sanden, Dear Sir:—Before I used your belt I was troubled with lost vigor, vital weakness, and almost a complete loss of power. I would get up with a very tired feeling, bones aching, etc. Since using your belt I have had a new lease of life. I now enjoy life better than I have for ten years past. I have the utmost confidence in your treatment. You can publish this statement, also have others write or call on me. Truly yours, H. A. BOWEN, 22 and 23 Tark St.

RHEUMATISM AND LAMENESS CURED.

Portland, Oregon, April 18, 189..

Dr. A. T. Sanden, Dear Sir:—I got one of your belts two weeks ago for rheumatism, from which I suffered for several years. For the past six months I had not been able to work. Your belt has placed me in almost perfect health in the two weeks I have used it. I can walk comfortably, and feel like a new man generally. M. E. HUGHES, Proprietor International Hotel.

NERVOUS DEBILITY—LOSS OF VIGOR.

Tacoma, Wash., October 8, 189..

Dr. A. T. Sanden, Dear Sir:—Since using your electric belt for general physical debility, and to-day feel better than I have for years. I have gained in vigor daily, and am strong in every part. Yours gratefully, CHAS. LUETTA.

LAME BACK AND RHEUMATISM.

Portland, Oregon, September 28, 189..

Dr. A. T. Sanden, Dear Sir:—Years of exposure and hard work, combined with the strain coming from the jar of an engine, gave me a severe case of lame back from which I suffered for seven years. I was so bad that I could not bend my back. Was all doubled up with it. I bought one of your belts. It helped me in the 10th of 30 days, and I continued to wear it for four months, being perfectly cured. That was two years ago, and I am as well to-day as I ever was in my life. I know your belt well, and I know lots of people who have been cured by it. Many others need it, and if they would try it they would find it the same as I did—the best remedy in the world. I am located here permanently, and will be glad to talk with any one who wants to inquire about. ROBERT BURRIL, Engineer Hotel Portland.

LOST VITALITY AND STRENGTH.

Everett, Wash., June 12, 189..

Dr. A. T. Sanden, Dear Sir:—Since wearing your belt I have been greatly benefited. I feel my old energy and returning and after a month's use of the belt I find myself twice as vigorous as before. My memory is now nearly perfect, and each day shows for the better. I feel much stronger than before using the belt. Yours truly, HENRY SCHULTZ.

THE DR. SANDEN ELECTRIC BELT

is a complete galvanic battery, made into a belt so as to be easily worn during work or street, and it gives positive, prolonged currents which are unlikely but throughout all weak parts, or we forfeit $5,000. It has an Improved Electric Suspensory, the greatest boon ever given weak men, and we warrant it to cure any of the above weaknesses, and to enlarge shrunken limbs, or parts, or Money Refunded. They are graded in strength to meet all classes of weakness in young, middle-aged or old men, and will cure the worst cases in two or three months. Address for full information.

SANDEN ELECTRIC CO.: 172 First St., PORTLAND, OREGON.
