VOL. 5. NO. 46. PORT ANGELES, CLALLAM COUNTY, WASHINGTON, MARCH 15, 1895. PRICE FIVE CENTS

THE O. R. & N. COMPANY

Asks the City for the Right to Construct a Wharf

AT THE FOOT OF LINCOLN STREET.

An Ordinance Has Been Introduced and Referred to the Franchise Committee, Granting the Privilege Sought to That Company—The Williams Proposition Still Before the Council—Dorsey Not Allowed a Salary.

At the council meeting last Wednesday evening Mayor Mallette and Councilman Harding, Munro, Crockett, Graybill, Lamoreux and Stewart were present.

The report of Frank Hall, electric light manager, was read and referred to the electric light committee.

The bond of Oscar McLaughlin street commissioner, was read and referred to city attorney for approval.

The resolution introduced by Councilman Munro, relative to the electric lighting manager preparing and submitting a monthly report was adopted.

The following resolution, introduced by Councilman Graybill, was adopted:

WHEREAS, The city of Port Angeles is about to acquire title to certain blocks of lands, situated in the townsite reserve, for cemetery purposes. Therefore, be it

Resolved, That the mayor appoint a committee of two said committee to be known as the committee on cemetery.

W. C. Williams filed an acceptance of the council's proposition for the settlement of the work done on the electric lighting water power plant, and a bond to insure faithful fulfillment of the same was also filed.

The following resolution, introduced by Councilman Lamoreux, was adopted:

Be it Resolved, By the city council of the city of Port Angeles that whereas the council was of the opinion that W. C. Williams and the Port Angeles Constructing Company should both sign release given city, and whereas they deemed it necessary that the committee should have longer time to investigate the receipts filed by said W. C. Williams and the Port Angeles Constructing Company, and also to investigate the bond given by said W. C. Williams and the Port Angeles Constructing Company, now therefore be it

Resolved, That the committee appointed to investigate said matter have one week in which to look further into the matter, and if, in their opinion, the receipts and bond are satisfactory, they report to this body for final settlement.

Ordinance No. 222, granting to the Oregon Railway and Navigation Company the right to construct a wharf at the foot of Lincoln street in the city of Port Angeles (known and designated as the old U. P. wharf), and to maintain the same for a period of twenty-five years from the date of the passage of the ordinance, was referred to the franchise committee.

The city attorney was granted another week within which to submit a report as to the legal construction of Ordinance No. 221, which provides for regulating the sale or disposal of spirituous, fermented, malt and other intoxicating liquors within the corporate limits of the city of Port Angeles. This ordinance, if passed and approved, will reduce the annual liquor license from $400 to $300, payable in advance.

The clerk was instructed to notify A. B. Dorsey, ex-officio city tax collector, that the council had determined not to allow him any compensation for his services in that capacity. Council adjourned.

LEGISLATIVE NOTES.

A Few Things of Importance the Legislature Has Accomplished.

The house devoted most of Wednesday afternoon to the consideration of the senate bill by the joint committee on revenue taxation. After making numerous technical amendments the bill was paised. The bill changes the present law in many instances, one of the most important of which is the provision of biennial assessments in odd years. It provides that the assessor's may extend the tax rolls; the counties may provide their own books and blanks; the assessor shall act as clerk of the board of equalization; taxes are made delinquent May 31, with a penalty of 2 per cent. and interest at 12 per cent. attached; if half is paid before May 31, the time for payment of the balance may be extended to November 30, following, when 2 per cent. penalty attaches and interest may be charged back to May 31.

The Barefoot Boy School Bill has passed both houses and awaits the governor's signature. The bill provides a tax of four mills on the dollar and places the average sum for each child of school age at $6. The bill will be of great benefit to the country districts that are not now able, with the support at command, to provide many month's school. The bill will provide a fund for these districts with which to maintain from six to nine months school in the year. Many fear that the governor will not sign the bill.

The deficiency judgment bill awaits the governor's signature. This is a wise and just measure, and will teach temperance to the money-loaner, as well as limit the debtor class to a reasonable amount of mortgage indebtedness, and result beneficially to society generally.

A Cheap Power.

And at the same time a reliable power are the points to be sought for in purchasing an engine. With steam power a constant watch on the engine is necessary to prevent accidents, and the expense for engineer is a serious item against economy. The gas or gasoline engine is by far the cheapest power, as it will run all day without attention or fear of accident, and the cost is about two cents per hour for fuel per horse-power. For intermittent power the economy of gas over steam is beyond comparison. While these points of superiority are without question, it is important in selecting an engine to get the best; the best in the long run is the cheapest. Do not fail to investigate the striking advantages of the Hercules Gas and Gasoline Engines. Send for catalogue. If you want second-hand engines of other makes at cheap rates we can supply you. We have a number taken in trade, and cannot take any more until they are realized on. PALMER & REY TYPE FOUNDRY, Front and Alder streets, Portland, Oregon.

ANOTHER EXAMINATION

Ordered By the U. S. Civil Service Commission

AT THE CUSTOM HOUSE IN TOWNSEND

April 2nd, 1895, For Eligibles to Positions in the Puget Sound Customs District—Logging Company Incorporated to Operate at Gettysburg—Shingle Mill at Edgewood—Geo. H. Scott, Formerly of This City, is Insane.

The civil service commission at Washington has ordered that an examination be held at the custom house in Port Townsend, on Tuesday, April 2d, 1895, commencing at 9 o'clock a. m., for eligibles to the positions of clerks, day inspectors and watchmen in the Puget Sound customs district. Only citizens of the United States can be examined. No applications will be accepted for this examination unless filed with the undersigned, in complete form, on proper blanks, before the hour of closing business on March 18, 1895. Applications received after that hour will be held awaiting a latter examination.

The commission takes this opportunity of stating that the examinations are open to all reputable citizens who may desire to enter the customs service, without regard to their political affiliations. All such citizens, whether Democrats or Republicans, or neither, are invited to apply. They shall be examined, graded and certified with entire impartiality, and wholly without regard to their political views, or to any consideration save their efficiency, as shown by the grades they obtain in the examination.

For application blanks apply in own handwriting to the secretary of the board of civil service examiners, Port Townsend, Wash.

NEW LOGGING COMPANY.

Incorporated to Operate in Clallam County.

The articles of incorporation of the Mapes, Thompson & Knott Company have been filed with the county auditor. The objects of the incorporation is to operate logging camps, etc. The principal place of business is Gettysburg. The capitalization is $6000. The duration of the company is fifty years.

The incorporators are practical, experienced and industrious men, who will doubtless succeed in the industrial enterprise in which they have engaged.

An active and increasing lumber market is stimulating the establishment of new logging camps over Western Washington, and no other locality possesses a finer or more extensive belt of merchantable fir and cedar timber than Clallam county.

NEW SHINGLE MILL.

The Site Situated at Edgewood—Capacity 50,000 Daily.

Messrs. Russell and Eacrett are erecting a shingle mill at Edgewood.

The new company will be styled and designated the Edgewood Shingle Company.

The plant arrived this week and has been removed to the mill, and will soon be adjusted. It will have a daily capacity of 50,000.

The mill is quite advantageously situated to shipping, and is contiguous to one of the finest belts of cedar in the state.

HOPELESSLY INSANE.

Geo. H. Scott, Formerly of this City, a Mental and Physical Wreck.

The Ballard News, in its recent issuance, publishes the following account of the sad affliction which has overtaken Mr. Geo. H. Scott, who formerly resided in Port Angeles. During his residence in this city Mr. Scott did reportorial work on the Leader, before its consolidation with the Democrat, and displayed considerable ability as a general writer. Mr. Scott was an ardent member of the Young Men's Christian Association, and took an active interest in the local association here. Those who have a kindly remembrance of the young man in this city, will sincerely regret his terrible misfortune:

"Many of our readers will learn with sincere regret that Geo. H. Scott, who was for a number of years a resident of Ballard, and for a time did reportorial work on the News, is now confined in an insane asylum, a mental as well as a physical wreck. Mr. Scott, as is generally known, is a victim to that terrible affliction, epilepsy or falling sickness. About a year ago, or a little over, he went to San Francisco, hoping that a change of climate would improve his health, and for a time it apparently did. He accepted a position on the San Francisco Graphic, but with mental work his health forsook him again and he returned to Ballard last July. Many of our readers will remember his splendid mid-winter fair letters to the News, during his stay in the Sunset city. About two months ago he decided on another change of climate and left for Helena, Montana. It appears, however, that this change was none for the better, as the daily papers shortly afterwards contained an account of him to the effect that he had been picked up on the street in a helpless condition by officers and after an examination sent to the hot springs for treatment. The latest news is that he is confined in an insane asylum a mental as well as a physical wreck."

Perpetual Injunction.

The temporary restraining order enjoining the county auditor from issuing warrants in payment of the services of I. F. Miller, in assisting in the the prosecution of certain suits to be brought by the county, and in payment of the services of C. A. Dyer for experting the ex-treasurer's books, was sustained and made permanent by Judge McClinton last Wednesday, on the grounds of the county having exceeded the legal limitation of indebtedness.

NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

East Clallam Record.]

The schooner General Banning sailed for San Francisco with 275,000 feet of lumber.

The General Banning is expected to return here for a cargo which will clean up the wharf.

Captain Christiansen started afoot for Neah Bay Wednesday morning. He expects to go on one of the Neah Bay sealing schooners for a cruise.

A picket fence ten feet high has been constructed on two sides of the sawmill during the week meaning that there is to be no admittance except on business.

A man named Crawford arrived last Saturday and spent several days around the bay looking up an opportunity to start a logging camp somewhere in the vicinity. He visited the Hoko and Sekiou rivers. What he intends to do could not be learned, but it is believed he was making an examination for other parties interested with him in starting a logging camp.

Two of Henry Poole's horses were killed on Tuesday by falling down an embankment along the Hoko road. One of these were in a train of three packing goods for T. Timmons, in charge of Oliver Sands. The other unfortunate was being taken out by Joseph Starnurd with a load of goods for B. Greer and J. W. Stout, who had started out to their ranches that morning. The accident to the horse with Starnurd occurred on the river bank opposite A. Osseth's place and the accident to the other horse happened further up the river.

That part of the Hoko river county road where Henry Poole's horse was killed a few days ago is a dangerous place and people who are acquainted with it say that it is a wonder some accident has not happened there long ago. The road was cut around a sliding and loose clay bank about 100 feet above the river, and the road gradually dwindles down to a little path about two feet in width. If is a constant danger to men and horses and now that two animals have been killed, probably the county commissioners will order something done to it.

Beaver Leader.]

Farmers are beginning to put out crops, and the activity, usually noticed in early spring when crops and gardens are being planted, is becoming apparent.

Work on the new townsite is progressing nicely. Messrs. Bergerson and Case have completed their contract of slashing it. They now have contracted to slash three acres adjoining Sapho for Judge Lamoreux.

H. P. and Jake Mapes passed through Beaver Wednesday on their way to Twin rivers with supplies for the logging camp. Messrs. Mapes, Thompson and Knott have leased the logging outfit at that place and will begin work at once. These gentlemen are capable business men and predict that the adventure will prove a success.

SPRING ANNOUNCEMENT—1895.

The U. S. Clothing and Drygoods House's Marked Departure in its Various Departments.

The remarkably successfully business career of the U. S. Clothing and Dry Goods House since its establishment in Port Angeles, under the able, liberal and progressive management of Mr. Harry Greenberg, has necessitated many important improvements and departures in the various departments of the large establishment.

The management take great pleasure in calling the attention of the ladies and gentlemen of Port Angeles and Clallam county to the magnificent display of the latest novelties in the various departments for the spring season of 1895.

In the dry goods department the new fabrics are tasteful, attractive and include the latest weaves and designs in silk, cotton and woolen textures. And the attention, particularly of the ladies, is called to the remarkably low prices. Prices which cannot be met this side of San Francisco. The reasons for this are, the house purchases directly from the importers and from the manufacturers; the reduced import duties under the new tariff law permits offering the choicest products of foreign looms fully 40 per cent cheaper than similar goods could heretofore have been purchased. Mr. Greenberg either personally selects his stock, or selections are made only by experienced buyers from first hands—FOR NET CASH, and shipped from the warehouse of the manufacturers direct to the counters in Port Angeles.

As the public is aware it was the intention of the management to close out the business here, but circumstances decreed otherwise. The liberal patronage has also largely influenced Mr. Greenberg to continue in business here, and having abiding faith in the city of Port Angeles and Clallam county, he has decided to conduct a first-class establishment with dry goods, clothing, gents' furnishings, shoes and hat and caps departments, fully represented with the latest designs and novelties the eastern and European markets afford.

Mr. Greenberg respectfully and cordially solicits an inspection of these various departments, feeling assured he can satisfy all, both in goods and price. Ladies are always welcome to examine goods and prices without being solicited or necessarily expected to make a purchase.

The management will cheerfully exchange any purchases when requested, and if customers cannot be suited in exchange goods, the money will be refunded.

Uniform courtesy will be extended in the treatment of all customers. The house desires your patronage and will endeavor to merit it, by fair and adequate returns for your money.

A country order department has been established for the accommodation of out of town customers, and the most careful attention will be given to all mail orders, which will be promptly filled and mailed.

Mr. Greenberg desires that citizens of Port Angeles and vicinity shall visit his establishment, examine his stock, compare the prices with local and outside competition and become satisfied that the U. S. Clothing and Drygoods House leads all competitors.

In the fall of 1893 a son of Mr. T. A. McFarland, a prominent merchant of Live Oak, Sutter Co., Cal., was taken with a very heavy cold. The pains in his chest were so severe that he had spasms and was threatened with pneumonia. His father gave him several large doses of Chamberlain's Cough remedy which broke up the cough and cured him. Mr. McFarland says that whenever his children have croup he invariably gives them Chamberlain's Cough remedy and it always cures them. He considers it the best cough remedy in the market. STRIKINGLY SIMILAR.

It is a noteworthy fact that the Republican press of the state of Washington has been extremely boistrous and vulgar in time gone by in its criticism of the late do-nothing congress. The extreme nature of the criticism, however, was provoked largely for the reason that the late congress was Democratic, and devotion and service to party would be measured not by just and impartial but by unreasonable and unfair criticism of the acts of the party in power by this rabid partisan press. Truth demands the admission on the part of the friends of the administration that much that should have been done, and for the accomplishment of which the party was pledged, remains unaccomplished to confront the party with overwhelming evidence of broken promises and shattered pledges.

But time produces a wonderful change. A strikingly similar condition confronts the rabid partisan press strictly within party lines. Behold the perfidy and dishonor of of its representatives in the recent state legislature. A succession of broken promises is strewn along its pathway.

The Republican party of this state controlled both branches of the legislature by a decisive working majorty and is therefore solely responsible for whatever will have been accomplished as it will be for the needful and beneficial measures which have failed to pass.

In its platform of '94 the Republican party of this state was unequivocally pledged in the event of its success to enact remedial railroad legislation in the interest of the oppressed farmers of Eastern Washington who are helpless victims of extortionate freight rates. True the house passed a bill providing the relief sought. But it met with crushing defeat in the senate. That monopolistic body justified its disgraceful action with the defense that the bill was so disfigured and mutilated with vicious amendments that the primary object could not have been accomplished with just and adequate protection to the interests of the corporations involved. Admitting that the full measure of usefulness of the bill might have been materially obscured if not totally destroyed by the amendments, the senate could have remodeled the bill to meet its cultured taste, without impairing its usefulness or compromising its dignity and thus extend to the overburdened farmers in a limited measure at least the relief sought, deserved and solemnly promised them by the grand old Republican party.

The farmers of Eastern Washington are thoroughly aroused and completly overcome with indignation over the outrageous betrayal they have suffered from the senate of the state of Washington.

Apropos to the subject the sentiment in Eastern Washington over the treachery of the senate on this measure is adequately expressed in the following paragraph from the Colfax Commoner:

"Talk about the United States Senate as a house of monopolists! By what designation can the people express their scorn and contempt for the Senate of Washington?"

THE legislature in passing the deficiency judgment bill deserves much credit as the measure justly and adequately protects the unfortunate debtor class from the avariciousness of the unscruplous creditor. The enactment of such a law will teach conservatism to the money loaner, result beneficially to the borrower and to society generally as the latter class will be restrained from plunging recklessly into debt and from hopeless entanglement in the delusive snares of the mortgage.

THE legislature has passed the Barefoot Boy School bill. The effect of the bill will be to benefit the country at the expense of the city districts. There is serious doubts of the governor signing the bill. Should, however, he sign the bill, the enactment of the law will be vastly beneficial to the country school districts, enabling them, as it will, to maintain from six to nine months school each year.

THE outlook for bimetallism is very bright, indeed. The civilized nations are unmistakably evidencing a far more friendly attitude towards silver than ever before. The day for the settlement of the silver question on a sound and acceptable basis is not as distant as is generally supposed. International bimetallism will ultimately prevail.

DURING the present year elections for state officers will be held in the following states: Rhode Island, April 3d; on November 5th, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Mississippi, New Jersey, New York, Ohio, Pennsylvania, Utah and Virginia.

THE development of the resources of this state demands patient and unremitting industry. To the intending emigrant possessing the requisite energy and pluck Washington offers unrivelled opportunities.

THE Spokane Chronicle speaks for the state's welfare when it says that, "The time has come when idlers, hoodlums and dead beats should go to work or get out of the country."

THE state legislature adjourned yesterday having performed in an exceedingly meagre measure what its members had pledged themselves to the people to accomplish.

PORT ANGELES is slowly but surely advancing along the lines of legitimate industry.

Death of Fred Pollow.

After a lingering illness of several month, at the home of his parents in this city, of that dread disease, consumption, all that was mortal of Fred Pollow succumbed to the inevitable—death.

Some months ago while employed in one of the mills near the city the young man contracted a cold on his lungs from which he never fully recovered, gradually sinking into a decline from which death finally rescued him from his sufferings. Deceased was 19 years of age. His sad and untimely death will be sincerely mourned by his parents, brothers and the friends of the family his who extend sympathy in their bereavement.

A Cultured Woman.

The following complimentary mention appears in the Helena Clock, of the 2d inst., and refers to a talented woman, who, during a brief residence in this city, won the admiration of those who had the pleasure of her acquaintance:

"Those fortunate enough to secure instruction in the Delsarte physical culture from Miss Rockman are to be congratulated, for in all probability it will be some time before we have with us another teacher so competent. A knowledge of physical culture is now considered one of the necessary branches of a complete education, and justly so, too. Why should we not be taught to stand, sit or move correctly, just as we are taught to speak correctly? In fact physical culture has one more important claim—to improve the health—which is something more than correct language can insure. Miss Rockman I learn, will soon leave for the East, where she will resume her studies with the view of future work on the stage. If conscientious study and a bright mind count for anything, Miss Rockman will soon make her way to the front."

Oh, woman, wherefore yearn to go
Where politics is raging;
Where thorns of disappointment grow,
With wounds beyond assuaging?
The powers which you now employ
Spread palms of victory o'er you,
Since man's a willing errand boy
And does your voting for you.

There is woful need of genuine reform in the direction of subduing the rich agricultural land of Clallam county into a state of cultivation.

The law class, under the instruction of Mr. W. L. Marquardt, meets in the Central school building twice each week, —Monday and Friday evenings.

Mr. Thos. Moore will leave for Chadron, Kansas, the first of next month where he has valuable property interests. He will be absent several months.

Mr. Jno. W. Troy has been appointed receiver of the Port Angeles Manufacturing and Development Company. This company owns the turpentine works.

Mr. M. O. Gilpin returned last Saturday from New York. During his absence Mr. Gilpin visited New York, Boston and other Eastern cities. The past winter in the East, he says, has been exceedingly severe.

It is understood that Mr. Norman R. Smith will soon have his shingle mill in operation on Ennis creek. The water wheel has arrived, arrangements for the shingle plant have been satisfactorily perfected, and within a few months at most, the wheels of another industrial enterprise will be turning.

Mr. F. Kirstein, who was formerly manager of the turpentine works in this city recently returned from Honolulu, arriving in this city last Wednesday. Mr. Kirstein says business is very quiet there. Work has not been resumed on the construction of the railway for which lumber was shipped from this port.

Petitions to Congress eminating from the Board of Trade, Chamber of Commerce and the City Council, praying that an appropriation be made to erect a public building on the blocks on the bluff reserved by the government for such purpose, have been circulated during the week and have been generally signed.

Mr. Geo. C. Hatch, one of the progressive and enthusiastic farmers of Clallam, has been re-modeling his stump puller. The machine, the motive power of which is propelled by a horse, will easily clear an acre a day of all stumps, not exceeding 2½ feet in diameter. Mr. Hatch proposes clearing 12 acres for this spring's crop.

Mr. M. E. A. Lasley will deliver a lecture at the First Congregational Church this (Friday) evening. The subject of the lecture is "Christian Co-operation, How I Found It In San Francisco." The lecture will be sandwiched with reminiscences of the varied experience of the Lasley family in the house on wheels in the journey from Port Angeles overland to San Francisco.

The U. S. Clothing and Dry Goods House is making substantial and pressing improvements, necessitated by a rapidly increasing business. The large and attractive show windows have been re-modeled, and slanting bases adjusted for the more elaborate and advantageous display of goods. Additional shelving and counters are being adjusted preparatory for the reception of the largest stock of dry goods ever brought to the city. Other improvements are contemplated.

Destroys Scab on Potatoes.

Dr. E. S. Stanley, president of the Horticultural Society of Clallam, who is an extensive reader on all subjects appertaining to the various branches of agriculture, recently discovered a recipe in an Eastern journal for destroying scab on potatoes, a disease with which potatoes are more or less effected, and one which very materially injures their market value. The following is the solution, which is very simple:

Dissolve 1 ounce of sulphate of zinc in a gallon of water. Soak the seed potatoes in the solution an hour and a half before planting.

Wherever the solution has been used it is claimed that the scab has been effectually removed, and no evidence of it appeared on the tubers when they were dug.

This solution is simple, will cost but a trifle, and certainly is worthy a trial by all producers who have encountered an indifferent market for the reason their potatoes were covered with this repulsive incrustation which render them practically unmarketable.

Dr. Stanley is very anxious that the solution be given a thorough test, and that the result of each experiment be reported to him, as in the event of its proving effectual, he desires to give the matter extended publicity through the medium of the press and the society, as such information would prove invaluable to the potato producer.

J. C. Hansen, the druggist, desires us to publish the following extract from a letter of Chas. M. Gatfeld, of Reedley, Fresno Co., Cal., as he handles the remedy referred to and wants his customers to know what a splendid medicine it is:

"It is with pleasure I tell you that by one day's use of Chamberlain's Cough remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy." A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as the cold has been contracted it will cure the cold at once and prevent it from extending to the lungs.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

Cure Sores Remain

"I have the power testimonials which I ... cures ... of the James Smith Woolen Machinery Co., Philadelphia, Pa., "none better, none more than my own case. Twenty years ago, at the age of 16 years, I had swellings come on my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good old mother urged me to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. **Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me.** I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."
