The P.-I.'s Townsend Correspondent's Expose

OF MILLER'S COUNTERFEITING

Device is a Huge Fake—Miller Did Not Escape to Chili and Never Had Any Intention of Doing So He Reads the P.-I.'s Sensation About His Counterfeiting Operations and Immediately Returns to This City and Proceeds to His Solduck Ranch Where He Will Remain and Be "At Home," to His Friends For Several Months.

The P.-I.'s ever sensational and infrequently reliable Port Townsend correspondent has again unearthed a highly-flavored sensation. The principal figure of the sensation is John H. Miller, familiarly known as "Jack" Miller, until recently boatman for the customs service at Port Townsend.

The fifteenth of last month Miller tendered his resignation to Collector Saunders, which was accepted, for the reason, as Mr. Miller states, of long continued ill-health. After resigning Mr. Miller left for Victoria, where he remained until he read the sensational article in the P.-I., in which he appeared as the central figure, whereupon he immediately came to this city, and leaves to-day for the Solduck valley, where he has a claim and will remain thereon for several months.

The statements in the P.-I.'s article, Mr. Miller says, are utterly untrue, and the charges, more particulary those referring to his having operated a counterfeiting apparatus, were made by a woman, who, while under the influence of liquor, having been crossed and chagrined, sought revenge in the attempt to fasten the suspicion of counterfeiting on him.

To a representative of THE DEMOCRAT-LEADER Mr. Miller gave the following explicit explanation of the foundation of the charges made against him.

Some weeks ago Miller was busily engaged fashioning the model of a yacht in his rooms on Jefferson street in Port Townsend. The implements used in fashioning his model were three ladles, which he utilized to remove melted lead from a basin. While at work a woman acquaintance entered his apartments, and becoming interested in what was going on, asked what he was doing. Miller being out of patience at the time retorted sharply, implying it was of no concern to her. She continued questioning him, however, and finally in a fit of desperation, and to get rid of her, he told her he was counterfeiting money. She finally left and later on conveyed the intelligence to a female friend, also an acquaintance of Miller's.

About a week later Miller had some differences with the latter and they finally quarreled. The woman being under the influence of liquor at the time grasped one of the ladles and attempted to strike Miller with it. He ordered her to leave his rooms. She refused. He then went after the chief of police. Upon returning with the officer, they were met at the door by the enraged woman, who confronted them by holding the three ladles out at arm's length, and informing the officer at the same time that Miller used them to make counterfeit money with. The officer took the woman to her home, and afterwards, Miller states, the officer informed him that the woman had told him while he was escorting her home, that she had seen the counterfeit silver pieces which Miller had moulded. These statements Miller positively denies and says that an examination of the outfit used by him would satisfy anyone that it had never been used for counterfeiting.

Mr. Miller feels very indignant over the unjust and unwarranted criminal charges made against him in the P.-I., and the only reason he can give for the unjustifiable assault is the inordinate desire of the already infamous Townsend P.-I. correspondent to cast reflections on the administration of Collector Saunders.

Miller had been in the service since August, 1893, and the only reason he gives for resigning is ill-health. Twice during his incumbency he had been compelled to ask for a leave of absence, and did not again feel justified to make a similar request. A few days after voluntarily retiring from the service he left for Victoria, where he was when he read the sensational article in the P.-I. He took the first boat for this city, arriving here last Tuesday night.

The P.-I.'s Townsend correspondent says that Miller had only been a citizen of the county two years when he received the appointment of boatman. This, Miller says, is untrue, as he has been a citizen of Townsend for over seven years. He was for several years in the revenue service, having been a sailor on the Wolcott, under the Glover regime.

Miller was born in Montevideo, South America, twenty-five years ago, and his parents were born in the United States When Miller left South America he fled from that country to escape military service, having enlisted in the army.

He leaves to-day for his ranch at Solduck, and will be "at home" for the next two months to friends and to the vividly imaginative P.-I. Townsend correspondent, the latter of whom he is eagerly desirous to extend the hospitalities of his valley home. To Mr. Jones he will make the visit exceedingly entertaining.

And as to the counterfeit sensation, Mr. Miller wished THE DEMOCRAT-LEADER to state that it was the hugest "fake" the P.-I. had ever published.

A Cheap Power.

And at the same time a reliable power are the points to be sought for in purchasing an engine. With steam power a constant watch on the engine is necessary to prevent accidents, and the expense for engineer is a serious item against economy. The gas or gasoline engine is by far the cheapest power, as it will run all day without attention or fear of accident, and the cost is about two cents per hour for fuel per horse-power. For intermittent power the economy of gas over steam is beyond comparison. While these points of superiorty are without question, it is important in selecting an engine to get the best; the best in the long run is the cheapest. Do not fail to investigate the striking advantages of the Hercules Gas and Gasoline Engines. Send for catalogue. I you want second-hand engines of other makes at cheap rates we can supply you. We have a number taken in trade, and cannot take any more until they are realized on. PALMER & REY TYPE FOUNDRY, Front and Alder streets, Portland, Oregon.

Frank Shepardson, an engineer on the Southern Pacific Ry., who resides at Los Angeles, Cal., was troubled with rheumatism for a long time. He was treated by several physicians, also visited the Hot Springs, but received no permanent relief until he used Chamberlain's Pain Balm. He says it is the best medicine in the world for rheumatism. For sale by J. C. Hansen, Druggist.

THE MAYOR VETOES

The Resolution Passed By the Council

WHICH PROVIDES FOR THE PAYMENT

Of the Running Expenses of the City in Cash—The Mayor Gives as the Principal Reason for So Doing That the Action of the Council Would Be Illegal in the Premises—Mr. Hawks Demands Payment For Furnishing Plans and Estimates For the City's Electric Lighting Water Power Pipe Line—Mr. VanLehn Returns From Alaska.

Mayor Mallette and Councilmen Harding, Stewart, Graybill, Munro and Shelton were present at the regular meeting of the city council last Wednesday evening.

The street commissioner was authorized to repair the sidewalk on Lincoln street.

A communication was received from Messrs. Delamater & Miller, attorneys, Tacoma, in reference to the alleged claim of A. McL. Hawks, for services as a consulting engineer in furnishing plans for the construction of the electric lighting water power system. Mr. Hawks wants his claim paid. The matter was referred to the city attorney.

Electric Light Manager F. L. Hall submitted his report for the month of April. The receipts were $126.30; expenditures, $115.10; gain, $11.20.

Health officer Strother reported a case of German measles in the city.

Ordinance 226, prescribing certain rules for a better sanitary condition in the city, was passed.

Mayor Mallette vetoed the resolution passed by the council for reducing the running expenses of the city to a cash basis, for the following reasons:

PORT ANGELES, WASH., May 8, 1895.

To the Common Council of the City of Port Angeles:

GENTLEMEN:—I beg to submit my disapproval of your resolution passed at the last regular meeting of the council authorizing the city treasurer to pay all warrants for salaries and incidental expenses, dated March 1, 1895, irrespective of the order of their issue, for the following reasons:

1st. Such action would be clearly illegal inasmuch as the law distinctly says that all warrants issued by the city or county in payment of any indebtedness must be paid in the order of their issue.

2nd. The city council has no authority to authorize or instruct any of the city officials to do an illegal act, and in my opinion the city treasurer could and probably would be held liable on his bond should he pay warrants as directed by the terms of this resolution. It is also held by some attorneys that the mayor and clerk could be held liable for signing warrants bearing such instructions on their faces.

3d. This same action has been attempted by two different municipalities in this state during the last few months and in both cases they have been enjoined from so doing by the courts.

This being the case it seems to me to would be the height of folly for us to attempt to do anything so clearly illegal, and which would surely be enjoined by some of our warrant-holders, thereby causing a large expense to the city in costs and legal expenses.

Were we in a position to do so legally I should be heartily in favor of paying all of the actual running expenses of the city in cash, considering the amount of the salaries paid the different city officials, they should certainly not be required to discount their warrants; however, the argument cannot be used that salaries have been reduced since their election, as warrants are worth fully as much at present as they were at the time of their election.

For the reasons above enumerated I feel compelled to exercise the prerogative vested in me as mayor, and hereby veto the resolution referred to.

Yours Very Respectfully,
C. E. MALLETTE,
Mayor.

The mayor had requested the marshal not to collect the dog tax and Councilman Graybill desired to know his reasons therefor. The mayor replied that it would cost $4 or $5 to collect the tax, and as the owners of dogs were unable to pay the same, the city would be compelled, if it enforced the law, to kill and bury the dogs.

It was moved that the dog ordinance be referred to the ordinance committee, to report at the next regular meeting on amendment. Carried. Adjourned.

NEW LOGGING CAMP

Will Be Established Near Port Crescent —Outfit Shipped From Hood's Canal.

Messrs. Jno. Chadwick and Gordon Wood, prominent loggers, who have operated logging camps on Hood's Canal for the past five years, will establish a large camp near Port Crescent.

These gentlemen, accompanied by Mr. W. B. Gould, of this city, were at Port Crescent last week, cruising the magnificent timber belt stretching from that port to the mountains.

While at Port Crescent they successfully negotiated and closed a contract for the timber of three-quarter sections of land situated near that place. They then returned to this city and took the steamer to Victoria, whether they went to secure a stumpage contract from citizens of that city who own valuable timber lands near Port Crescent. Their mission was unqualifiedly successful, as a contract was secured for the timber sought.

The timber acquired by these gentlemen comprises one of the finest belts in Western Clallam, and the extent of which is sufficient quantity to provide several season's work for the camp.

The outfit, comprising a steam engine, eight head of horses, etc., was shipped to Port Crescent on special steamer early in the week, and active operations will at once begin.

The camp will employ from 20 to 25 men.

Kerosene Emulsion.

For insects, the kerosene emulsion is mostly used. Shave one pound of hard soap in half a gallon of boiling water, and when the soap is dissolved remove the boiling water from the fire and add half a gallon of kerosene, churning briskly with the force pump of the sprayer for fifteen minutes until the mixture has the appearance of thick cream. Kerosene will not mix with water, but will form an emulsion with soap. Now add slowly, stirring well from ten to fifteen gallons of water, according to the strength desired. It will keep any length of time and destroys insects on trees and plants, as well as fleas, lice, etc., and does not injure plants like unadulterated kerosene, being also much cheaper. A gill of spirits of turpentine will improve the emulsion if added at the time of adding the kerosene. An efficient sprayer should throw a fine, mist-like spray, and the spray should spread over a large surface, so as to enable one to do the work quickly and thoroughly.

RETURNS FROM ALASKA.

A Port Angeles Business Man Visits the Metropolis of Alaska.

Mr. B. F. VanLehn returned last Tuesday on the steamship Topeka from a flying trip to Juneau, Alaska. Mr. Van Lehn says notwithstanding the fact that business is considered to be quiet by the business men of Juneau, the fact is not apparent to the visitor as every available business stand in town is not only occupied but evidently the occupants enjoy a large and profitable trade.

Every branch of business is well represented. The city supports some thirty saloons, and restaurants without number. The sensation of the hour was the cowardly and murderous assault on the person of Mr. Frank Howard, editor of the Recorder, by John Timmins, a notorious desperado. Howard was slowly improving when the Topeka sailed, and there were strong hopes entertained of his recovery.

The testimony was being taken in an important mineral claim contest, while Mr. VanLehn was in Juneau. Goldberg is the principal contestant and the claim involves the land on which is situated the city of Juneau. The feeling at Juneau is very bitter against Goldberg, and should he win his case, he might better seek a more congenial climate.

Juneau, Mr. VanLehn is convinced, will be a prosperous mining town for years to come, as the famous Tredwill mines are prodigiously rich, there being sufficient gold-bearing quartz in sight to keep the two 180-stamp mills in operation for the next fifty years.

The population of Juneau is quite well represented with former citizens of Port Angeles. Walter Burch has lucrative employment on one of the local steamers, while Fred Burch is in the employment of the mining company.

Jeff Gear is satisfied with the outlook and will doubtless soon engage in business for himself.

The cost of living in that city is comparatively cheap. A man can procure good, substantial restaurant fare for $1 per day, while the rate at the best hotel of the city is only $2 per day. Provisions are also remarkably low.

It is difficult to secure desirable and eligibly situated business quarters, consequently rents are very high.

As Juneau is situated on government land, the occupant is a squatter in the same sense as he was on the Port Angeles government townsite reserve. The sentiment for the organization of a territorial government is very strong, and every influence possible will be brought to bear on Congress next December to create the government sought.

It is not unlikely that Mr. VanLehn may return to Juneau for the purpose of engaging in business.

DESIRABLE IMMIGRATION.

Several months ago when the representative of a colony of Hollanders was on the Sound "spying out the land," THE DEMOCRAT-LEADER urged the chamber of commerce and the board of trade to communicate with this representative and call his attention to the superior advantages Clallam offered that class of settlers; and, in the article referred to this journal particularly emphasized the fact that these Hollanders would be a desirable class of settlers in a county possessing the physical conditions that Clallam does—i. e., its topography broken, undulating and its hills and valleys and mountain-tops heavily covered with timber.

To hew out a home in a country as thickly timbered as Western Washington is no indifferent task; but one which requires patient, unremitting industry. Unless a people is inured to the hardships, to the privations and to the serious, disheartening obstacles encountered in clearing a farm in a heavily timbered country, they very likely would become discouraged and falter by the wayside long ere the task would have been accomplished.

To induce a class of settlers unaccustomed to a timbered country, to the hardships, to the privations which must be endured; with a misconception of the years of ceaseless labor which must be applied before satisfactory results will have been produced, is not only ill-advised but grossly unjust.

The Hollander is sturdy, industrious, patient, determined and courageous. Inured to toil and self-denial and from youth taught the most rigid economy. Accustomed to a timbered country, the slow and to many unsatisfactory process of clearing a farm to him is the opportunity sought to systematically and persistently apply the immense reserve of physical strength for which he is noted, in subduing the acres of timber and bringing the soil to a high state of cultivation. And he ultimately triumphs and is richly rewarded for the years of ceaseless toil and industry.

For these reasons THE DEMOCRAT-LEADER urged the local commercial institutions to put forth an earnest endeavor to induce at least several hundred of these Hollanders to locate on public lands in Clallam. It is almost unnecessary to add the advice was unheeded, and since, the colony of Hollanders have been located on Whidby island and in Whatcom county and Clallam—well, she again voluntarily lapsed into innocuous desuetude.

This county has thousands of acres of rich agricultural land—for the greater part heavily timbered—which, when subdued to cultivation, yields enormously of vegetables, fruits, hay and cereals. These lands await the patient, industrious settler. To that class of desirable home seekers the opportunity to build a home in a country with a mild, equitable climate, a wealth of varied natural resources and unsurpassed scenery, can be found in Clallam.

A VANISHING OCCUPATION.

The total depravity of the modern political agitator is very clearly exemplified in the frenzied effort of that dishonest and unscrupulous individual to mislead the unthinking masses by glaringly inaccurate and absolutely untruthful statements as to the present industrial and commercial condition of the country. And this, too, solely for the purpose of temporary political advantage or possible party preferment. These dishonest, designing, calamity howlers have no regard, whatever, for truth, decency or patriotism.

Notwithstanding the fact that every unfailing barometer of trade and commerce, without exception, unmistakably points to returning industrial and commercial prosperity, these detestible parasites continue to prophesy all manner of industrial disturbance and impending national disaster.

Every clearance house and commercial and financial agencies report increasing trade; every financier of national repute and recognized responsibitity, substantiate these statements. The increasing prices of produce confirms as much. Voluntarily increasing the wages of 100,000 operatives of the industrial fabric of the nation silently but eloquently attest the truth of this.

Alone, dishonored, distrusted, forsaken, stand out in bold relief this band of conjurors, breeders of disquiet, turmoil, unrest and confusion, vainly endeavoring to create conflict and strife amongst an industrious, law-abiding, contented and peaceful people.

A questionable occupation gone, what more pitiable object than the discredited political agitator.

NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

East Clallam Record.]

Another logging camp has been started at Twin Rivers, on the Harding claim.

C. G. Whiting has been engaged to teach the school at Gettysburg to commense in June.

There is talk of two more logging camps starting up between Gettysburg and Port Crescent.

A logging crew is at work getting out logs along the river, east of town. The sawmill will start next week.

Chas. Haswell will remove to Port Townsend next week, and take charge of the Lutz shoe store. Tony King will take Mr. Haswell's place in the store here.

Clallam county seems to be a favorite field for new logging camps this year. A logging firm has started at Port Crescent making about six new camps along the straits, so far.

An old Quillayute Indian is reported to have been drowned by the capsizing of a canoe near Pysht several days ago. He left here in the canoe along as far as can be learned.

The Hoko and Sekiou logging camps got to work cutting timber this week. The Record erred, last week, in giving the size of the engine used at the Scott camp, which is a 24-horse-power engine. The Crawford camp also has a large engine.

Hall & Bishop are now hauling logs over their new railroad at Gettysburg, the first load being put into the bay last Tuesday. They have moved the camp up the track one and one-half miles. They have twenty-five men employed and expect to increase the number.

The contract for carrying the mail to Dickey Lake has been awarded, but the contractor's name and the amount of his bid has not been learned.

The era of industrial prosperity has set in for Clallam county, it is to be hoped. A good deal of attention is now being paid to the development of the vast timber resources. New logging camps and new mills are the things we want and they are coming now.

Surveyor-General Watson recently stated that there would be no further delay in the examination and approval of public land surveys, for the general land office has put a large additional force of examiners in service, who would keep close up with the work. Mr. Watson says the arrears of work in this office have all been cleared off, some of it being about five years old.

George S. Courter of North Yakima was here this week in the interest of the eastern mail contractors, who have the route from Clallam to Ozette. Mr. Courter states that he sub-let the contract to Lawrence Cohenour for $600 a year. The contractors took the route for $416, a sum entirely too small for the route, and the contractors may deem themselves fortunate in subletting their contract on terms as favorable as $600. Mail went out this week on the new route for the first time.

Beaver Leader.]

A trial before Squire Maxfield, of Shuwah came off recently. A man by the name of Johnson had the Gunderson boys arrested for stealing some of his household goods. He failed to prove the charge.

Dr. A. W. Thornton, of West Ferndale, Whatcom county, Wash., is desirous of having the growing of flax fibre given a fair trial in this end of the county and wishes to communicate direct with parties who will give it a trial. He will send the seed and information free.

The past two weeks of nice weather have been taken advantage of by those making improvements at Sappho, and work has been pushed through rapidly. The frame of Lamoreux's building is up and ready for roof and siding. Dimmel raised his building this week and expects to complete it inside of three weeks.

A quiet but earnest movement is on foot to secure a sawmill for the town of Sappho. It is intended to procure only a small mill at present, but the advantage of such a one can hardly be overestimated. Sappho is in the midst of a belt of good spruce, which, without a mill, will be destroyed; and now that we have a wagon road, there will be quite a demand for lumber from people inside, who have hitherto been compelled to resort to the slow and laborious method of splitting out lumber by hand. Other industries for Sappho are hinted at, and some of them will be mentioned later on.

INFLUENZA,

Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is **Ayer's Cherry Pectoral.**

"Last Spring, I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete. It is truly a wonderful medicine."—W. H. WILLIAMS, Crook City, S. D.

SHERIFF'S SALE.

Henry J. Behrens, Plaintiff.
vs.
Puget Sound Co-operative Colony, et al., Defendants.

State of Washington, County of Clallam, ss.

Under and by virtue of an order of sale issued out of the Superior Court of the State of Washington, in and for the county of Clallam dated the 15th day of April, 1895, in a certain action wherein Henry J. Behrens, plaintiff in said action, recovered judgment against the Puget Sound Co-Operative Colony, et al, defendants therein, for the sum of One Thousand, Three Hundred, Twenty-nine and 69-100 ($1329.69) dollars, and Twenty-four ($24.00) dollars, cost of suit, and accruing costs, on the 15th day of April, 1895, I have levied upon the following described property, as property of said defendants, to-wit:

All of block thirty-three (33) and lots eight (8) and nine (9) in block thirty-five (35), of Norman R. Smith's subdivision of the townsite of Port Angeles, in Clallam county, State of Washington.

Notice is hereby given that on Saturday, the 25th day of May, 1895, at the hour of 10 o'clock in the forenoon of said day, at the north front door of the Court house, in the City of Port Angeles, said county, I will sell all the above described property, or so much thereof as may be necessary, at public auction, to the highest bidder for cash, to satisfy said judgment, costs and accruing costs.

Dated this 26th day of April, 1895.

W. J. DYKE,
Sheriff of Clallam County, State of Washington.
By W. E. Burnside, Deputy.
Date of first publication, April 26, 1895.

NOTICE

Notice is hereby given that proposals to do the public printing of Clallam county, Washington, will be received at the office of the County Auditor of said county, at Port Angeles, until 12 o'clock M., Monday, May 13, 1895.

Proposals must be from newspapers having a bona-fide, general circulation within said county, and having been established for at least six months.

Notice is further given that this printing will not include the publication of notice of sale of property for taxes of 1892, which under the provisions of section 4, of an act providing for remitting penalty and interest on delinquent taxes and extending the date of the sale of property therefor. The said printing is reserved to the paper now having the contract for said printing.

Witness my hand and seal of office this 8th day of April, A. D., 1895.

JOHN W. TROY,
Auditor of Clallam County, Washington.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

A YOUTHFUL VETERAN.

A pair of worn-out veterans
Each night I put to rest;
Two dauntless, bold adventurers,
Worn out by tireless quest.

They scurried through the dewy grass
To find a "fo'wer dat growed."
Then pattered in the deepest dust
That lined the country road.

They went to "hunt the baby calf,"
And caught a splash of mire,
Sailed in the brook and then were dried
Before the kitchen fire.

And many a scratch from many a thorn
These playfellows had won,
Before their time of rest drew near
At setting of the sun.

Yet fair they are to mother's sight,
This bruised and battered pair,
And "Guide these wanderers aright"
Is mother's whispered prayer.

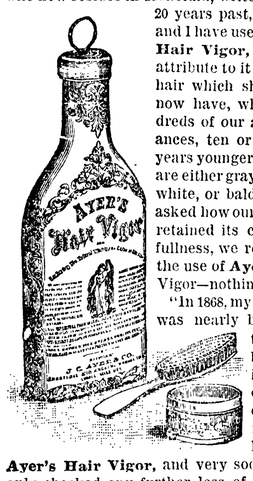
A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used **Ayer's Hair Vigor**, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of **Ayer's** Hair Vigor—nothing else.'"



"In 1868, my affianced was nearly bald, and the hair kept falling out every day. I induced her to use **Ayer's Hair Vigor**, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarrun, Bastrop, Tex.

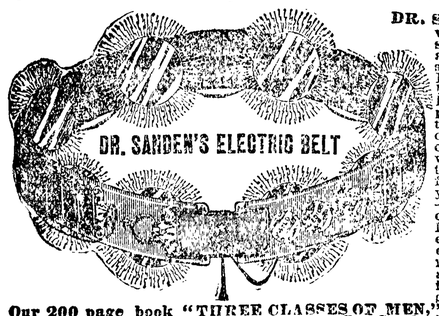
HAVE YOU TRIED DRUGS AND FAILED
TO FIND A CURE FOR
RHEUMATISM, LUMBAGO, SCIATICA, KIDNEY, LIVER and BLADDER COMPLAINTS, DYSPEPSIA, LAME-BACK, &c.



DR. SANDEN'S ELECTRIC BELT with Electro Magnetic Suspensory will cure without medicine all of the above troubles. Those who suffer from **Nervous Debility, Losses, Drains, Lost Manhood, Nervousness, Sleeplessness, Poor Memory, all Female Complaints,** and **general ill health,** the effects of abuses, excesses, worry or exposure, will find relief and prompt cure in our marvelous invention, which requires but a trial to convince the most skeptical. In ignorance of effects you may have unduly drained your system of nerve force and vitality—which is electricity—and thus caused your weakness or lack of force. If you replace into your system the elements thus drained, which are required for vigorous strength, you will remove the cause and health, strength and vigor will follow at once. This is our plan and treatment, and we guarantee a cure or refund money.

Our 200 page book "THREE CLASSES OF MEN," should be read by every **young, middle-aged and old man,** sent sealed, free. **Dr. Sanden's** Electric Belt is no experiment as we have restored thousands to robust health and vigor, after all other treatments failed, as can be shown by hundreds of cases throughout this and other States, who would gladly testify, and from many of whom we have strong letters bearing testimony to their recovery after using our Belts.

WE HAVE CURED THESE—WE CAN CURE YOU!

CENERAL DEBILITY CURED.
San Francisco, Cal., August 14, 1892.
Dr. A. T. Sanden, Dear Sir:—Before I used your belt **I was troubled with lost vigor, vital weakness, and almost a complete loss of power. I would get up with a very tired feeling, bones aching, etc.; since using your belt I have had a new lease of life. I now enjoy life better than I have for ten years past. I have the utmost confidence in your treatment. You can publish this statement, also have others write or call on me. Truly yours, H. A. BOWEN,** 26 and 28 Tuck St.

RHEUMATISM AND LAMENESS CURED.
Portland, Oregon, April 18 1892.
Dr. A. T. Sanden, Dear Sir:—I got one of your belts **two weeks ago for rheumatism, from which I suffered for several years. For the past six months I had not been able to work. Your belt has placed me in almost perfect health in the two weeks I have used it. I can walk comfortably, and feel like a new man generally.**
M. E. HUGHES, Proprietor International Hotel.

NERVOUS DEBILITY—LOSS OF VIGOR.
Tacoma, Wash., October 24, 1892.
Dr. A. T. Sanden, Dear Sir:—I have been using your **Electric belt for general nervous debility, and to-day feel better than I have for five years. I have gained in vigor daily, and am strong in every part.**
Yours gratefully, CHAS. LUETKA.

LAME BACK AND RHEUMATISM.
Portland, Oregon, September 26, 1892.
Dr. A. T. Sanden, Dear Sir:—Years of exposure and **hard work, combined with the strain coming from the jar of an engine, gave me a severe case of lame back, from which I suffered for seven years. I was so bad that I could not bend my back. Was all doubled up with it. I bought one of your belts. It helped me inside of two days, and I continued to wear it for four months, being perfectly cured. That was two years ago, and I am as well to-day as I ever was in my life. I know your belt well, and I know lots of people who have been cured by it. Many others need it, and if they would try it they would find it the same as I did—the best remedy in the world. I am located here permanently, and will be glad to talk with anyone who wants to inquire about it.**
ROBERT BURRELL, Engineer Hotel Portland.

LOST VITALITY AND STRENGTH.
Everett, Wash., June 18, 1892.
Dr. A. T. Sanden, Dear Sir:—Since wearing your **belt I have been greatly benefited. I feel my old energy fast returning; and after a month's use of the belt I find myself twice as vigorous as before. My memory is now nearly perfect, and each day shows for the better. I feel much stronger than before using the belt. Yours truly, HENRY SCHULTZ,**

THE DR. SANDEN ELECTRIC BELT

is a complete galvanic battery, made into a belt so as to be easily worn during work or rest, and it gives soothing, prolonged currents which are instantly felt throughout all weak parts, or we forfeit $5,000. It has an Improved Electric Suspensory, the greatest boon ever given weak men, and **we warrant it to cure any of the above weaknesses, and to enlarge shrunken limbs, or parts, or Money Refunded. They are graded in strength to meet all stages of weakness in young, middle-aged or old men, and will cure the worst cases in two or three months.** Address for full information.
