VOL. 6. NO. 8. PORT ANGELES, CLALLAM COUNTY, WASHINGTON, JUNE 21, 1895. PRICE FIVE CENTS

FAVOR A CELEBRATION.

At a Large Mass Meeting Held in the

OPERA HOUSE LAST FRIDAY EVENING

Citizens Unanimously Declares For a Public Demonstration on the Fourth—An Executive Committee Appointed—The Executive Committee Meets and Appoint Sub-Committees—Col Coolican and Party Return From the Quillayute.

Port Angeles will celebrate. The question of a celebration in this city on the national holiday was submitted to a public meeting which was held in the opera house last Friday evening, and the sentiment in favor of celebrating was almost unanimous.

The meeting was called to order at 8 o'clock sharp, and Louis Williams was appointed temporary chairman and Wm. Ritchie, temporary secretary. These gentlemen were afterward elected permanent officers of the meeting.

A number of gentlemen briefly spoke as to the object of the meeting, among whom were Messrs. Geo. T. Ulmer, Wm. Ritchie, Frank P. Fisher, Capt. Bradley F. S. Mackintosh and others.

An executive committee was appointed which subsequently met and appointed the various sub-committees. The following comprises the personel of the executive and of the several sub-committees:

Executive Committee—C. E. Mallette, T. T. Aldwell, N. R. Smith, G. T. Ulmer, Morris Fisher, Louis Williams, Wm. Ritchie and A. A. Richardson.

Finance Committee—C. E. Mallette, R. Shields, Wm. Ritchie, Morris Fisher and Geo. T. Ulmer.

Decoration—L. Williams, L. Cole and Ladies' Relief Corp.

Aquatic Sports—Warrener E. Smith, R. Facrett, jr., Enos Raymond and John Henson.

Music—Morris Fisher, Geo. W. Meagher and Geo. T. Ulmer.

Horse Racing—W. J. Dyke, Frank P. Fisher, A. L. Johnson, John Brown, Cliff Thompson.

Land Sports—N. R. Smith, R. A. Grimes and T. T. Aldwell.

Printing and Invitation—C. D. Ulmer, Louis R. Flowers and E. E. Seevers.

Reception committee comprises all the business men and some of the most prominent citizens in town.

It was ordered that C. E. Mallettee, N. R. Smith and A. A. Richardson wait upon Capt. T. H. Bradley and ascertain if he will act as marshal of the day.

The finance committee reports moderate success in the canvass of the city for contributions to the Fourth of July fund. The business men generally responded quite liberally. The total amount received by the finance committee thus far is $175.00. This amount will undoubtedly be greatly increased during the week by additional contributions.

The several committees on sports games and amusements have in preparation a varied program which they expect to have completed so as it can be published in full next week.

HOMES FOR A THOUSAND.

The Coolican Party Brings a Favorable Report From Western Clallam.

Col. James S. Coolican, L. M. Crooks and M. J. Carrigan returned last Tuesday on the Garland from a tour of inspection of Western Clallam.

The object of the trip was to ascertain definitely and positively the actual amount of unoccupied government land available for settlement. The reports as to the amount of unoccupied government land in that vast territory of country were so conflicting, inadequate and unsatisfactory that nothing short of a personal investigation, it seemed, would insure the information sought.

"You see," said Col. Coolican, to a representative of THE DEMOCRAT-LEADER, "my time has been almost wholly occupied during the past few month, in lecturing throughout southern Iowa, the subject of these lectures being 'Western Washington, Its Possibilities and Opportunities.' Of course, Port Angeles, its peerless situation, its excellent location and its rich tributory country, were leading points of the lecture. My object, as you understand, was to organized a colony of one thousand families to locate on the public lands o Western Clallam.

"From the information I had received of that magnificent empire I felt justified in representing to the intending colonists that there were at least sufficient available vacant lands in Clallam for claims of 160 acres each, for one thousand claimants. When I had progressed to a point in the organization of the colony where the first train of several hundred families were about to depart for their new home, I received the discouraging information from Port Angeles that all desirable government land in Clallam had either been settled upon or withdrawn from settlement by the state for school purposes.

"Upon receiving this information I immediately abandoned the project and told the colonists that I would return to Port Angeles at once and thoroughly investigate as to the truth of the report received. I told them that I desired that they send two representatives with me so as they might be assured of an unprejudiced report from some one whom they knew would not misrepresent either wilfully or magnify the condition as it really exists for personal reasons. It was finally decided to send Mr. Crooks and Mr. Peterson.

"Last week Mr. Crooks, Mr. Carrigan and myself left on the Garland for the tour of inspection of Western Clallam. From East Clallam we took horses and our trip embraced the following points of that magnificent country, Beaver, Forks, Quillayute, Collins and LaPush. Speaking for myself, and my associates acquiesce in the opinion, the trip was a revelation to me. Frequently you hear of the almost limitless possibilities of Western Clallam, its timber, its agricultural prospects, its mineral resources and its fisheries, we are told, will yield with their development and utilization a never-failing mine of wealth. And we listen attentively to the enthusiast, then conclude he draws too freely from an elastic imagination. But 'the half has never been told.' Western Clallam is an empire within itself; a country with the varied resources to support in wealth and comfort at least 50,000 people; its creeks and rivers abound in fish; its mountains contain, no doubt, secrets of mines of mineral wealth, its timber has no equal in size and merchantable quality; its valleys, table-lands and hill-sides produce enormously of hay, vegetables, cereals, fruit and hops; it coast line is washed by the placid waters of the Pacific, here in the waters of this grand old ocean sport many varieties of food fish; here the delicious salmon school in countless thousands, the toothsome cod and halibut banks contain fish sufficient to supply the markets of the world, and the herring, flounders and smelt swell in to numbers where figures will not apply.

"Our treatment was most cordial and with other visitors, we will attest to the genuine hospitality that people accorded us. So cheerfully and willingly was the information sought imparted by those whom we met, that the task of collecting the data was made comparatively light.

"From the information obtained we feel satisfied that one thousand families can be located on desirable claims in Western Clallam. And the report, which will be made of our trip and of our observations, will be somewhat voluminous, and will affirm that after a careful, personal examination as to the amount of unoccupied government lands in Western Clallam, we feel justified in making the statement that one thousand families can secure homes in Clallam county.

"I leave next Saturday for Clarinda, Iowa, the headquarters of the colony, and upon my arrival there I will lay the report before the colony committee, which I feel certain will be acceptable and decisive.

"As soon as I can satisfactorily adjust matters there, I will continue my journey to New York city, where I will resume my labor in the interest of the railway enterprise, and keep the fact steadfastly in mind that Port Angeles will ultimately have transcontinental railway connections. Some of the railway authorities told me that Port Angeles and Clallam county must have greater population before they could hope for railway connections. Well, we will secure the population and the railway will surely follow."

SINDARS-COMBS NUPTIALS.

A Prominent Young Couple of Sequim Married Last Friday.

The marriage of Herman Sindars, jr., and Miss Birdie Combs, both of Sequim, was solemnized at the home of the bride's parents last Friday evening at 6 o'clock. the Rev. Mr. Ford, of Seattle, officiating.

The wedding was a quiet one, only the relatives and a few particular friends of the contracting parties witnessing the ceremony,

After the ceremony had been performed, the bridal party partook of a sumptous, tempting and delicious repast.

The bride is highly spoken of by these who have the privilege of her acquaintance, as a young woman of excellent worth.

The groom is one of Sequim's successful young farmers, who has won the enviable reputation of being an earnest, industrious and enterprising young man.

At about 9:30 the newly married couple departed for their future home, the well wishes of all accompanying them on the important journey in life on which they had just embarked, with the sincere wish that the future might only have happiness and prosperity in store for them.

Dairy Improvement.

Mr. Jno. Blater, the gentleman who recently purchased the Jno. Everett ranch near Port Crescent, returned from San Francisco last Monday, having purchased, while in that city, a large cream separator.

This gentleman will engage quite extensively in the dairy business. He will also make a specialty of bee culture, having purchased a number of hives of fine bees.

Card of Thanks.

We, in behalf of Pacific Corps, No. 21, W. R. C., beg space in your paper to express in some small measure the deep gratitude we feel toward each and every one who assisted in our "Grand Benefit Entertainment," of June 7th, also to the public who so generously patronized us, as by so doing they enabled us to send our delegate to the convention at Spokane. Please accept our thanks in the spirit it is tendered.

THE POOR WIDOW'S COW

Is Free to Roam the Streets of the

FAIR CITY OF PORT ANGELES,

But the Poor Bell-Cow Must Stay at Home Nights—Is Your Dog Tax Paid?—The National Packing Company Will Make Extensive Improvements at the Cannery Grounds at the Head of the Bay—Will Construct Two Buildings.

At the council meeting last Wednesday evening Mayor Mallette and Councilmen Harding, Stewart, Lamoreux, Graybill and Shelton were present.

Councilman Stewart called the attention of the council to the necessity and importance of establishing electric lights on Laurel and Front streets. On motion the council ordered that such lights be established as suggested in the foregoing.

Marshal Dustman notified the council that he had notified all property holders to remove debris and refuse water from their premises and they had signified their intention to comply with the request.

The report of Electric Light Manager Hall shows the receipts of the plant for the month of May to be $112.45, while the expenditures for the same month were $104.70; balance $7.75.

James Fitzgerald was granted a liquor license.

A motion prevailed that Engineer Adams and his men be issued certificates for the surveying of the city cemetery, which certificates are to be held by them in lieu of warrants on the cemetery fund until contractor Hallahan and his employes will have received warrants on that fund. in full payment of all moneys due them according to the conditions of the contract; then, upon presentation to the city clerk, of the certificates held by Engineer Adams and his employes, the clerk is authorized to issue to them warrants in lieu thereof.

In a communication Mrs. Laura E. Peters informed the council that the public highway between the forks of the Dry Creek and Elwha roads and the Dry Creek bridge, is in an impassable condition. As that portion of the road is within the city limits, the writer vigorously impresses the city council with the vital importance of repairing one of its principal thoroughfares.

Ordinance No. 229, providing for the construction and repair of sidewalks within the limits of the city of Port Angeles, and fixing a penalty, was read and referred to the ordinance committee.

Ordinance No. 228, to regulate the running at large of domestic animals, in the city of Port Angeles, and providing a penalty, was read and referred to ordinance committee. The provisions of this ordinance makes it unlawful for domestic animals to run at large in the city of Port Angeles, excepting only milch cows, which are given the freedom of the city at all times. The bell-cow must be at home in the evening after nine o'clock, and before seven in the morning, otherwise she is subject to arrest and seizure and sale.

Ordinance No. 227, providing for the taxing of dogs and bitches in the city of Port Angeles, was read and referred to the ordinance committee. This ordinance fixes the tax of all dogs at $1, and of all bitches at $3. All dogs on which the tax has not been paid will be subject to seizure by the marshal who will be authorized to kill the same. The council adjourned.

AT THE CANNERY.

A Packing-House and Warehouse Will Be Built—Other Improvements.

J. W. Hume, manager of the National Packing Co., has advertised for proposals to construct two two-story frame buildings on the cannery site at the head of the bay, which will be used for canning purposes.

One of these structure will be used for packing, the dimensions of which will be 28x48 feet.

The other structure will be used as a warehouse, and will be 30x50 feet in dimensions.

This company will also construct a dock, the dimensions of which will be 50x60 feet.

A new sidewalk will be built 200 feet in length and 10 feet in width.

A contract was let last Monday to Frank Perrot, the Townsend boat builder, for four fishing boats.

A contract has also been awarded for 100 cords of wood and 600 bushels of charcoal.

Mr. Hume states that his company purposes to be in a position to take care of the salmon as soon as the season's run begins. The gentleman also stated that as soon as the season developed there undoubtedly would be remunerative employment open to a large number of boys and girls in the event of which it was his intention to give preference to the young people of this city.

In the purchase of the cannery plant and site and in the improvements which will be made in the construction of new buildings, wharves, sidewalks, etc., this company will expend a large sum of money, and should the experiment prove satisfactory, the establishment of an important industry, and the expenditure of thousands of dollars annually in the community will be assured, and all this accomplished quietly, without public demonstration, and strangely as it may seem, without an (on the part of the promoters) appeal for bonus. Mr. Hume assured the writer that the financial resources of his company were sufficient to prosecute the undertaking without outside assistance, but that if the citizens wished to evidence appreciation of their efforts, they could do so in an eminent degree by either constructing a sidewalk between the city and the cannery or using their influence to prevail upon the city council to do as much.

This is, indeed, a very modest request, and the least the board of trade and the chamber of commerce could do to demonstrate their approval of legitimate industrial development would be to take the initiative in complying therewith.

Lumber Trade With Honolulu.

G. M. Lauridsen, merchant of Port Angeles, while in town this week, spoke enthusiastically to the Seattle Trade Register, of the possibilities of extending trade with Honolulu, a subject that has been repeatedly pressed by this journal. Mr. Lauridsen spoke of the Port Angeles contract to supply cedar ties to Mr. Feok for the Honolulu railway, which contract was lost, leaving a large quantity of ties on hand. The main point is that Washington cedar is the only lumber that will last in Hawaii, as other woods are destroyed by a small insect, the ravages of which on land are much like those of the teredo in water. This being the case the sale of cedar lumber should be pressed in that quarter with very profitable results.

A Remarkable Cure for Rheumatism.

Westminster, Cal., March 21, 1894.—Some time ago, on awakening one morning, I found that I had rheumatism in my knee so badly that, as I remarked to my wife, it would be impossible for me to attend to business that day. Remembering that I had some of Chamberlain's Pain Balm in my store, I sent for a bottle, and rubbed the afflicted parts thoroughly with it, according to directions, and within an hour I was completely relieved. One application had done the business. It is the best liniment on the market, and I sell it under a positive guarantee. R. T. HARRIS. For sale by J. C. Hansen, Druggist.

A TOUR of inspection through Western Clallam develops the fact, to the satisfaction of the gentlemen of the party, that there is unoccupied government land available for 1000 homesteaders. Now the most important and the pressing question is the one of securing desirable occupants for these lands—not speculators—but actual, bona fide settlers, men who are thrifty, industrious, determined, men who will become contented, desirable citizens. Col. Coolican says the colony of Iowans which is now in process of organization, comprises well-to-do families, who have by their thrift and industry accumulated a comfortable competency. Of this desirable class the colonel is satisfied that sufficient numbers are desirous of removing to Clallam to settle upon all of its unoccupied government land. To these people then Clallam extends a welcome—broad, hearty, generous and sincere.

A CARLOAD of Puget Sound strawberries were recently shipped from Seattle to St. Paul, as an experiment. The berries arrived there in prime condition, and within a few hours from the time they were placed on sale in the markets, the entire carload was sold, and the supply was not nearly sufficient for the demand. The results of the experiment were so satisfactory, that the promoters will ship at least two more carloads of berries to St. Paul during the season. Thus a new and profitable market is established for one of Puget Sound's principal products.

ANOTHER ten per cent. advance in the wages of the employes in the blast furnaces in Mahoning and Shenango Valleys, has been announced. Two 10 per cent. advances within a period of two months. Here is certainly presented an unanswerable argument that the languishing industries of Ohio are being ruined by free trade. What an opportunity for the legic and eloquence of a McKinley.

"WAGES advanced 10 per cent.," is a common but nonetheless welcome announcement of late. The industrial awakening long deferred by the impolitic and unAmerican methods of Republican and kindred partisans, has overcome all obstacles, and confidence again securely restored, the country has now entered upon a long period of prosperity.

THE indications point very strongly to the Democrats carrying New York this fall. The Republican state and city administrations are seriously compromised with broken promises, official corruption and boss domination. The Republicans were profuse in promises of reform, but when entrusted with the public affairs, they proved to be shockingly forgetful.

AN ex-governor of New York, speaking of his personal observations in a recent tour of the West, says amongst other things that "that progressive section of the country will produce a bountiful crop of presidential candidates this year." The distinguished gentleman must have come in close contact with the numerous leaders the Populist party unfortunately is inflicted with.

PIG IRON has been advanced from 50 cents to $1.50 per ton. As iron is one of the unfailing barometers of the condition of trade in this country, the marked advance in the price of that staple, truthfully and eloquently proclaims returning national prosperity.

THE crafty Republicans of Ohio cutely escape a public expression on the silver question by entirely leaving it to the tender mercies of the National Republican Convention. The same old tricks of artifice and deception.

SECRETARY LAMONT and party now enroute West are likely to include the Pacific Northwest in their tour. Should the distinguished party honor this people with a visit they will be accorded a hearty welcome.

LONDON capitalists are looking to the Pacific Northwest as a desirable field for investments.

ANNUAL ELECTION HELD.

Session of District Lodge Convenes at Port Townsend and Elect Officers.

The annual session of District Lodge No. 1, I. O. G. T., convened at Port Townsend last Tuesday afternoon and evening, at which the regular annual election of officers took place.

All lodges in the district, with the exception of Clallam lodge, were well represented by delegates, who were cordially welcomed to the Key city.

After transacting the business which came before the meeting for considera- the following officers were nominated, elected and duly installed, to conduct the business of the district for the ensuing year:

D. T., D. G. Munro, Port Angeles; D. V. T., Miss Fannie Draper, Port Angeles; D. Coun., Mrs. H. E. Phillips, Port Townsend; D. Sec., A. J. Cosser, Port Angeles; D. Treas., Miss Belle Stockand, Port Townsend; D. Chap., Miss Alice Carroll, Port Townsend; D. Deputy, A. P. Jewett, Port Angeles; D. P. T., F. P. Zent, Port Townsend.

The following appointive offices were filled by District Templar Munro:

D. M., L. G. Seitzsinger, Quilcene; D. D. M., Lucy Rustad, Port Townsend; D. Asst. Sec., Miss Minnie Moore, Port Townsend; D. Guard, Ed. Demmins, Port Townsend; D. Sentinel, H. W. Buzzard, Port Townsend.

Mr. A. P. Jewett, of Port Angeles, was elected delegate, and Mr. F. P. Zent, as alternate, to the Grand Lodge session, which convenes at Chautauqua next month.

The Angeles' delegation having secured the executive committee, Port Angeles will be the headquarters of the district for the coming year at least, Townsend having had control since the district lodge was first organized.

The new administration will be kept busy for some time, and hope to add to the number of lodges in the district by persistent efforts to establish new lodge in various parts of Clallam and Jefferson counties, and to revive those that show a lack of interest.

The next quarterly meeting will be held at Quilcene during the month of September, of this year. It is expected that the next annual session will be held in this city.

THE HEALTH OFFICER

Calls Attention to Certain Sanitary Rules Which Must Not be Violated.

Authentic report having reached this office of a case of genuine scarlet fever in the city I cannot too strongly impress upon the heads of families to keep their children at home.

I again call attention to sections 13, 14, 15, 16, 18, 19, 20 and 33 of city ordinance 173.

Section 13 provides that no person, in whose house there is a contagious or infectious disease shall leave the premises, without permit of attending physician or health officer.

SECTION 14.—No person who has visited a person sick with a contagious or infectious disease, except the physician or health office shall appear on the street in a public place or otherwise, where they would communicate the disease or cause its spread until they procure a certificate from the health officer that they are not likely to communicate the disease.

Sec. 15.—No person who has been exposed to a contagious or infectious disease shall come into the city, until 60 days have elapsed from date of exposure.

Sec. 16.—Marshal shall be vigilant and report to the health officer any case of suspected disease. Physicians must report at once, on being called to see a case of contagious or infectious disease, giving name of disease and place of residence to local board of health.

Sec. 19.—Hotelkeepers must give notice to board of health of any case of contagious or infectious diseases in their hotels.

Sec. 20.—Children shall not attend school who have had or been exposed to a contagious or infectious disease, without permission from board of health and, teachers shall report to the health officer any such case and it shall be their duty to be vigilant.

Sec. 3s.—Any person refusing or neglecting to obey any of tho sanitary rules or regulations, or violates any of the rules, or who resists an officer or any special regulation of the board of health, shall upon conviction be punished by fine or imprisonment or both.

Complaints have reached me about the non observance of some of the above sections. I, therefore, give notice that an observance of the above sanitary regulations will be enforced.

W. D. STROTHER, City Health Officer.

NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

Beaver Leader.]

Mrs. R. V. Porter is in the valley visiting with numerous friends. She will leave to-day for Arkansas, where her husband now is, having decided to locate in that state. The many friends of Mr. and Mrs. Porter will regret to have them leave.

R. Wahlgren and A. Sparks were elected clerk and director respectively in district 8.

E. A. Lamoreux began school in the Oberg district last week with nine pupils in attendance.

Remember to attend the celebration at Forks on the Fourth. You will surely have a good time.

With the crops in the Eastern states little short of a failure, the bright prospects that Western Washington holds out are still brighter by comparison.

Mr. Jones' little boy who shot himself so severely, and, it was feared, fatally, is now out of danger, and will be about again in a few days.

At the school election Monday, Chas. Terwillegar was elected director to succeed W, T. Crosby, and L. P. Winkler to sceeed Mrs. E. J. Gordon. F. M. Ackerly was re-elected clerk.

In case Port Angeles does not celebrate the Fourth of July this year, it is more than likely that many of her citizens will visit neighboring places and probably quite a few will take in the exercises at Forks prairie. Such a trip would more than repay them for all outlays which it would necessitate. They could take several days for the journey, stopping at Lake Crescent, Beaver and other picturesque points enroute; and a jog up to the Solduck hot springs would be but a few miles out of their way. The roads are fine and the scenery beautiful, and a party of city folks, who are not wont to breathing the fresh country air, would greatly enjoy the outing.

FRIDAY, JUNE 14, 1895.

The lady from Chicago
Let fall a pearly tear,
"I wonder what man's wife I'll be,"
She softly sighed "next year."
Judge.

To elevate the stage or not?
That's the question: so be it,
Please elevate it ten feet high
So all the men can see it.
Truth.

There are times when man would be alone,
Far from the maddening crowd,
Where he is privacy can own
And think his thoughts out loud
One of these times, without a doubt
Is when he first bestrides
A bike, a neighbors all come out
To see how well he rides.
Kansas City Journal.

His love, he said, was like the sea;
The maiden answered quick,
She thought that he was right in that
Because it made her sick.
Life.

Westward, westward steals the shadows,
Following the falling sun,
And the all-engulfing grayness
Mutely warns that day is done.

Deeper, deeper grows the darkness
Till it blots the lingering light,
O'er the world a queen unquestioned
Reigns the melancholy night.
Susie M. Best.

The news was recently brought by steamer from Alaska, that Cornelius Spoo, formerly of this place, was drowned in the Taku river last May. He was prospecting about seventy miles from the mouth of the river when the accident occurred, and was drowned while attempting to cross the swift flowing stream.

Bees in connection with farming is one of its most paying branches. It is no direct cost, as they will pay for themselves in one season, so money invested is returned by 100 per cent the first year and you have stock for another year, and have a most excellent article for the table. There is always a ready market for honey.

The palatial steamer Islander has been secured to make excursion trips between Victoria and this city on the Fourth. She will make three round trips, leaving Victoria at 8 a. m, 1:30 p. m. and 6. It is understood that the Islander will not return on the final trip until 12 p. m. so as to give the visitors an opportunity to attend the dance at the opera house in the evening.

The already famous Van Lehn case which has occupied the attention of the superior court since last Monday went to the jury this forenoon. Inclusive of the last this case has received four jury trials. Twice Judge McClintion granted new trials for the reason of palpable irregularities. In the third trial the jury failed to agree. It remains to be seen what becomes of the last trial.

The yachts Dora, Capt. Finnison. and the Irene, Capt. Godson, arrived from Victoria, last Saturday evening on a pleasure cruise and anchored in the harbor. PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

WHEN LILAC BLOOMS BEGAN TO BLOW.

I hold a mem'ry sweet and dear
Where childhood kept its festal year;
For all the world was glad, you know,
When Lilac blooms began to blow!

I left unheaded slate and book
And waded in the babbling brook;
For all the world was glad, you know,
When Lilac blooms began to blow!

Sweet harbingers of rose-hued Junes
Your purple plumes shook tunes and tunes,
For all the world was glad, you know.
When Lilac blooms began to blow!

Out there the orchard budded fair,
Song floated down the stairway stair;
Brooks babbled sweet; eve's were aglow
When Lilac blooms began to blow!

Song floated down—my heart was full
Of life so grand and beautiful;
Life's banners roll'd to suns of gold
When Lilac blooms began to blow!

I threw a pebble in the stream
The eddies rose a shining dream;
For all the world was glad, you know,
When Lilac blooms began to blow!

And O Palace wondrous, fair,
Dwelt in the magic of the air;
For all the world was glad, you know,
When Lilac blooms began to blow!
