CLALLAM COUNTY'S FAIR

A Simple and Cheap Preserving Liquid.

COMMISSIONERS' PROCEEDINGS.

The Prosecuting Attorney Allowed Legal Assistance —M. D. Gleason Claim Again Rejected—M. J. Clump Moved to King County.

Numerous inquiries have recently been made for recipes to preserve fruits for exhibit purposes. The best and absolute preservative is alcohol, though for general use it is too expensive. Good results are obtained where equal parts of alcohol and water are used. Other formulas are as follows:

1. Salicylic acid, 2 drams; alcohol, 4 ounces; purified glycerine, 5 ounces; distilled (or rain) water, 5 quarts. Dissolve the two drams of salicylic acid with the 4 ounces of alcohol; dissolve the glycerine (better with the water boiling hot), with the water, adding it to the other ingredients, and place the fruit therein and seal tight.

2, For preserving red fruits use 5½ drams of boracic acid to each half gallon of water and put fruit therein in hermetically sealed jars.

3. For preserving yellow fruits use sulphuretted water. Druggists will prepare it.

4. Salicylic acid, ½ dram; dissolve it in 2 ounces alcohol, add one quart of pure soft water or distilled water.

5. Make salt brine strong enough to carry an egg, add to this one dram of alum, 1½ quarts of the brine. Strain and use.

6. Sulphurous acid or zioc chloride may be used, but sulphurous acid bleaches the color of the fruit.

7. Corrosive sublimate, a violent poison, may be used in proportion of one-half ounce to each gallon of water.

Commissioners Proceedings.

WEDNESDAY, AUGUST 7.

The board met pursuant to unanimous consent. All present.

The board authorized the treasurer to collect the taxes on the personal property of the laundry property of C. A. Foss about to be removed from the county.

The board directed Sheriff Dyke to remove M. J. Clump to the King county jail for safe keeping, pursuant to request from the sheriff.

MONDAY, AUGUST 12.

The board met pursuant to adjournment from the July meeting. All present.

M. D. Doolittle was appointed constable for Solduck precinct.

Peter Govan was appointed constable for Sequim precinct.

The board directed the auditor to purchase Abbott's Real Property Statutes for the prosecuting attorney, and directed that county fund warrant for $25 be issued therefor.

The board heard the application of Louis Williams to have the matter o the rejection of M. D. Gleason's December report of work done in road district 7, reconsidered. Witnesses on both sides were sworn and examined, and the matter taken under advisement.

Adjourned till afternoon.

The board ordered the correction of the assessment rolls of 1893, where Keats Montrose had paid taxes on the wrong property, and also those of 1894, where A. P. Jewett had paid on wrong property.

Petition of M. S. McFadden et al., for bridge across "Big Gulch," on upper Elwha road, offering to donate $12 in labor and $5 in provisions was considered and taken under advisement.

Dr. W. W. McGeorge, coroner, was allowed $6 from county fund expenses in case of John Brown, deceased.

The treasurer was directed to correct rolls of 1891, S. W. Buckner having paid taxes on wrong lot.

C. E. Russell was allowed a rebate for taxes paid on $200 personal property not owned by him.

The board allowed petitioners $125 from bridge fund for a bridge across the "Big Gulch" on the Upper Elwha road.

G. A. R. post was a lowed $35 from county funds for burial of Edwin Phelps.

The board again rejected claim of those working on the road in District No. 7.

The board allowed salary of commissioners as members of Board of Equalization to date.

The board allowed $30 from incidental fund for expense of James Stewart to Seattle.

The board allowed Ben S. Knowlton $40 from the incidental fund for expertting Clump's books.

The board ordered that James Stewart may employ legal assistance to aid him in prosecuting the case of the State vs. Mussena J. Clump.

Knapman called Graybill to the chair and moved, "That the board hereafter refuse to contract any more indebtedness from the general funds, or pay anything from said funds not already contracted for." Roll call, Knapman, aye; Graybill and Whittier, no. Motion was declared lost.

The board apjourned to meet August 21st.

A SILVERY LINING

On the Horizon of Port Angeles' Future.

A LARGE CATCH OF SALMON

During the First Three Days of the Week 7,000 Salmon Are Taken at Various Points—Hatfield & Carlysle's Shingle Mill to Start Monday.

During the first three days of the present week the cannery forces caught and packed 7000 salmon, a large number of which were caught at Dungeness.

Manager Hume confidently looks forward to an active seasons operations during the succeeding four week.

As the present season is the initiative one at this port for the National Packing Company, it will, as a matter of course, enter, to some extent, into the sphere of experiments.

Sanquine from the beginning that this was an admirable point for the establishment of a salmon cannery, Mr. Hume has had no reason, as yet, for the abandonment of his belief, but on the contrary, each succeeding day gathers additional evidence of the accuracy of his belief. That salmon abound in these waters, in countless numbers, there is no doubt in the mind of this gentleman, but the problem to solve, and what experience alone will solve, is how to catch them, and to discover the accustomed points at which these schools of fish gather on their inward runs.

Mr. Humes now feels confident that he will satisfactorily solve all of these problems, and that he will have complete mastery over the situation ere the season is closed, besides a respectable season's catch to, in a measure, justify the experiment and consequent outlay.

Of all varieties of salmon caught in these waters, Mr. Hume pronounces the Humpback superior in flavor and quality. One of his employes, who has been in his service continuously for twelve years, and who is, by the way, a valued authority and a rare judge of the quality of the food salmon, unhesitatingly pronounces the Humpback superior in delicacy of flavor and quality to the Columbia River salmon. He recently had some of these fish smoked and they simply are delicious. It is his purpose to bring these excellent fish to the attention of the wholesaler, who is somewhat prejudiced against white salmon. This prejudice, Mr. Hume most emphatically pronounces ill-founded, as no finer salmon are caught.

The cannery has about seventy employes, 15 of which are women.

As soon as the salmon season is over the cannery will undoubtedly pack and ship cod and halibut.

New Store Building.

G. M. Lauridsen has begun the erection of his new store building. Gilmur's pile-driver is at work driving the piles for the foundation of the new structure. It will be erected immediately adjoining his present store building. Its dimensions will be 24x50 feet, two stories high.

The carpenter work is being done by A. Freeman, of this city.

HATFIELD & CARLYSLE MILL

To Start Monday on Full Time—Will Employ About Fifty Men.

The Hatfield-Carlysle shingle mill at Lambert began running last Thursday, and the machinery worked admirably, attesting to the excellence of the mechanical skill of Mr. Carlysle, under whose management the shingle plant has been adjusted in position.

The new shingle plant is a double block machine with a cutting capacity of 150,000 per day.

The new company begins under most favorable auspices, the mill is surrounded by one of the finest cedar belts in the state, all of which is accessible, and sufficient to keep the mill running steadily with its present capacity for a score of years.

The gentlemen are under contract to cut at least 100,000 shingles per day, an average per day they can easily maintain as the plant has a much greater capacity, and they have every advantage of timber easily accessible and of superior merchantable quality.

The shingle industry is rapidly becoming an important one in Clallam, there now being four in operation in Port Angeles.

A large, commercial saw-mill, with a daily capacity of at least 100,000, is the industrial movement citizens should unite in prosecuting to a successful termination.

SENIORS VS. STARS.

A Miserable Attempt at Ball Playing on Tumwater Flats.

Another interesting but strikingly one sided base ball contest occurred in this this city last Sunday afternoon between the Seniors and the Stars, the latter, as their name would suggest, being cast in the constellation which occupies the supreme position in the base ball realm.

The Stars entered the contest with that vigor, buoyancy, enthusiasm and preparation that foreshadowed victory—if not the decisive, overwhelming victory won by them.

The Seniors were not in it at any time during the progress of the game—they were out-generaled, and out-played, individually and collectively.

The score given in the following table —20 to 5, in favor of the Stars—will be a standing suggestion to the Seniors, of the inglorious defeat they suffered in the contest with the former:

Lecture By Prof. Turner.

The lecture on "Scientific Child-Study," delivered by Prof. Turner, of Sprague, was the literary treat of the season. The speaker evidenced much carefulness and zeal in the preparation of the subject, and proved himself to be well-versed in all phases pertaining thereto.

The church was crowded to its full capacity, and the earnestness and intent with which each listened to the words uttered, showed that the lecture was very much appreciated.

Jurors Drawn.

Following is the list of jurors drawn for the September term of the Superior court, to be held on the 10th:

W. H. Sands, Gus Granberg, W. D. Dawson, J. J. Duncan, John Hitch, Geo. A. Dornton, Fred Hulquist, Wm. Lewis, E. L. Bennett, Herman Sindars, Jr., John Erickson, C. G. Laird, D. T. Smith, J. NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

East Clallam Record.]

Michael Earles has bought A. S. Kelly's logging camps on the Columbia and Puget Sound railroad and is now operating the same.

A. H. Thompson, of the Twin Rivers logging company, and popularly known as "Sandy," was here on Wednesday on his way to Seattle where he will be married to Miss Behner, of Forks.

H. F. Abnefeldt, of Menomiee, Mich., arrived here on Wednesday to see the country. He is here in the interest of some Michigan lumbermen who want a location for a sawmill somewhere on the sound.

Fred W. Knott, Miss Lulu Mapes and her mother left here on Monday night for Seattle. where Mr. Knott and Miss Mapes will be married. Knott has sold out his interest in the Twin Rivers' camp to J. Dillon.

Under a new law enacted by Congress last year, any pre-emption or homestead claimant who commutes may get a year's time to pay for his land after final proof if he so desires, and makes a proper application for the privilege.

Beaver Leader.]

Farmers are beginning to look skyward in search of evidence of rain, now that the hay is in.

The canning company is coming on the schooner Teaser to commence business at LaPush. They are bringing an outfit with them.

The increasing trade necessitates the enlarging of the dining room at the La-Push hotel.

There is quite a heavy fire west of Beaver as we go to press. It is probably in some slashing and will not be allowed to get away.

The settlers should bear in mind when they stumble over anything extraordinary that there is to be a fair in Angeles in October.

The outlook for hopgrowers this season is discouraging. At present hops are quoted at 3 cents, which will not come near paying for picking and shipping. The prospects for a rise in prices are not favorable.

The new Sappho hall will be opened to the public in an appropriate manner on August 22nd, by the proprietors giving a grand ball. The hall is nearly completed and is the best one in the valley. It is twenty feet in width and forty feet long. A first-class floor, which dancers will appreciate, has been laid, and the room will be well ventilated. Quite a crowd is expected from East Clallam and Port Angeles.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much fasth in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for the list of testimonials.

THE prospects are highly favorable that Port Angeles will have a regatta the latter part of the present month. Nature has, indeed, provided Port Angeles with an ideal race course.

DAVID B. HILL is reported to have declared himself for a Western man for president. However that may be, the fact remains that the party entirely forgetful of the West and its interests, is doomed to inglorious defeat.

WHERE loose business methods prevail, reverses and ruin will surely follow. Because a public or private business concern characterized by grossly reckless and vicious business methods fails, it is by no means evidence that the country is not prosperous.

THE arrangements for the county exhibition in October are maturing very satisfactorily. The management has received only words of encouragement from over all the county. Citizens of the county are fully conscious of the many benefits which will result from a creditable exhibit of our natural products.

THE recent death of Judge Jackson of the United States Supreme Court, removes one of the most upright, conscientious and able members from the bench. Of the late judge it can truthfully be said that in all of his decisions he invariably favored the common people. In the recent vote on the constitutionality of the income tax law, Judge Jackson voted for the law.

AS A POSSIBLE candidate for the presidency Levi P. Morton, of New York state, has one recommendation, which of its self is sufficient to characterize the gentlemen an ultra Republican—the state taxes under his administration as present governor of New York state have been the highest in the history of the state. This alone, doubtless, recommends him as the ideal Republican candidate for the presidency.

JOHN J. INGALLS, Kansas' brilliant and racy ex-United States Senator, is somewhat of a philosopher. In a lecture recently delivered by him, he said that "corruption in government could be remedied by the people." There was a time when the distinguished gentleman stoutly maintained that the Republican party alone could correct these evils in popular government. Things political have materially changed, however, since then.

THE county assessor is being severely cciticised over the incompleteness of the tax rolls and for the appearance of many glaring errors and inaccuracies in the work In several instances real property has not been assessed at all. Many complaints have also been made to the board of county equalizers, in session at present, for gross inequalities in the assessment of real property — unimproved property frequently being assessed as high, if not higher than improved property. As it is one of the fundamental principles of the party of which the county assessor is a representative, that the owner of unimproved property should be severely taxed for all property in that condition, there is some excuse for the grossly inequal assessment. But for the grave inaccuracies appearing in the assessment rolls this season is in no measure justifiable.

FARM, ORCHARD, GARDEN.

Linseed meal is excellent food for the colt.

See that the stock have access to salt when running at pasture.

Red Clover does best sown early in the spring or with winter rye or wheat.

Train the colt to come at call and emphasize the lesson by carrying a little salt or sugar to the pasture.

Permanent sod, without fertilizing, is an injury to the orchard. This has been proved in the experience of nearly every successful orchardist.

One remedy for the onion maggot is to spray the beds with a solution composed of paraffine oil and water, one glass of oil to six gallons of water, applied with an ordinary spray pump.

Oats, when cut in the milky stage (before the grain is ripe) make an excellent ration for horses. The nutritious matter is arrested in the stalks, and both straw and grain are relished.

It takes twice as much food and labor to produce the same amount of meat, butter or milk from scrubs as from pure breeds, and that is why poor farmers with scrub cattle fail to make the farm pay.

A cow will shrink in her milk because of lack of a supply of drinking water sooner than from any other cause, and it may be safely stated that insufficient water, when the cows are in the pasture. is a very frequent occurrence on the farm.

Alfalfa should be cut on the first appearance of bloom, as its nutrition ratio is much higher then than later on. The best cut feed for horses is made by mixing cut clover hay moistened with oats and corn ground together.

Arrange your poultry house so that all cleaning can be done with a broom. To do this keep the floor well covered with dry dirt and when the house is to be cleaned simply sweep off the floor and scatter fresh dirt, using an extra quantity under the roosts. In this manner the work can be done in few minutes, and the droppings can be placed in barrels as the dirt will assist in preserving them.

"We had an epidemic of dysentery in this vicinity last summer." says Samuel S. Pollock, of Bricelaud, Cal., "I was taken with it and suffered severely until some one called my attention to Chamberlain's Colic, Cholera and Diarrhœa Remedy. I procured a bottle and felt better after the first dose. Before one-half of the bottle had been used I was well. I recommended it to my friends and their experience was the same. We all unite in saying it is the best. For sale by J. C. Hansen, Druggist.

A PIONEER DEAD.

Mr. E. A. Esworthy Passes Away at Seattle—A Short Sketch of His Career.

Mr. E. A. Esworthy, the Quillayute pioneer, died at the residence of his daughter, Mrs. J. D. Spencer, of Seattle, on the 9th inst., of cancer of the throat.

Mr. Esworthy was born in Exeter, England, 62 years ago, and came to California in 1861. He lived near San Jose for a number of years following farming as a pursuit. About 12 years ago he came to Clallam county and located on a farm on Quillayute prairie, where he has since lived. At the time Mr. Esworthy located at Quillayute there were but a few settlers in Clallam county south of the Olympic mountains. He lived, however, to be in the central part of a large population, and to see that rich section of the county develop to an extent far beyond the expectations of many of the old timers.

Mr. Esworthy was a man especially marked for his rugged honesty of purpose. His word was always as good as his bond, and he expected such treatment from others as he accorded. Mr. Esworthy always took a more or less prominent part in public affairs, and in such matters his record was as in private life. He would never condole or tolerate anything other than "square dealing."

The generous, open hospitality of the pioneer came naturally to Mr. Esworthy. The latch string to his home was always on the outside, and the best his farm afforded was always at the disposal of the wayfarer as well as to his numerous friends.

Mr. Esworthy was a Democrat in politics, and with him serving that party was equivalent to serving his adopted country, though corruption, even in his own party, never found a more bitter opponent.

Mr. Esworthy leaves two daughters, Mrs. J. D. Spencer and Miss Nellie Esworthy, of Seattle, and one son, Mr. Wm. H. Esworthy, of Port Blakely, and friends without number to mourn his death.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

The mercury is like the stock
Which maks the lamblet frown,
When its expected to up,
It's always going down.

On currency the whole year through,
They waste their minds and spoil digestion;
But "Is it hot enough for you?"
Is now the leading public question.

When misfortune sweeps the land,
And adverse breezes hum,
Dig your heels into the sand,
Brace yourself, and let 'em come.

Why do those two not smile at all?
Why lack they so in joy?
One wants to tell about base ball,
The other of his boy.

The "bicycle face" is all right,
If further comment is permissible;
It's ruddy, and healthy, and bright,
And sometimes pretty and kissable.
—Kansas City Journal.

Why does the cycle maiden ride
As fast as e'er she can?
Doubtless her keen eyes hath descried
Not far ahead—a man.

And felt misused by fate
Because she couldn't make the ball,

David S. Troy, of Townsend, has been favorably mentioned in connection with the treasurership of that city.

The G. A. R. folks are exceeding fortunate in having the fare to Port Townsend and return reduced to $1.

E. A. Fitzhenry will finish his government surveying contracts in Jefferson county in about two weeks.

Mr. Rolling, of Vancouver, B. C., was in town several days during the week looking for timber investments.

A few hours work clearing off the stones on the east hill of Ennis creek might prevent a serious accident.

D. M. Bokee, insurance adjuster, was in town Monday. Mr. Bokee will adjust the Chambers loss for all companies.

Allen Weir, of Olympia, was in town Monday, en route for the Olympic mountains on a hunting expedition.

Bishop Barker, of Tacoma, will deliver a sermon in St. Andrew's Episcopal Church, of this city, Sunday, Aug. 25.

Over fifty persons have signified their intention of attending the reunion of old soldiers and sailors at Port Townsend.

Dr. Stanley is looking after fair matters in the absence of Messrs. Carrigan and Crooks, and will be pleased to answer all questions.

Mr. and Mrs. J. B. Cosser, Mrs. J. W. Weir and family, Mrs. B. T. Smith and child, and Miss Hilda Forsberg left for the lakes Tuesday.

Thad. S. Smith, past ass't adj't gen'l, was in the city Tuesday, on business relative to the reunion to be held at Townsend next month.

A full attendance is requested at the meeting of the Lyceum League next Tuesday evening as business of importance is to be transacted.

Major Harding has received blank applications for tomb stones. These stones are furnished by the government free of charge to all old soldiers.

There will be a general business meeting held after prayer meeting next Thursday evening at the Congregational church. All members are requested to be present.

Carpenters are making and adjusting into position the counters and shelving for the new Kirschberg shoe store, which will be opened to the general public next week.

Judging from the many expressions of sympathy and good-will received from citizens over all the county by the county fair management, there is every reason to predict success for the movement.

Post Commander Thos. M. Fisher, representing Farragut Post, No. 15, G. A. R., was in town during the week. Mr. Fisher is here personally extending invitations to a reunion of old soldiers and sailors.

The new sidewalk constructed on First street between Peabody and the M. E. church fills a long felt want. Now for the other link between the two churches and First street will have a continuous regulation sidewalk from Lincoln to Race street.

The Boston Traveeript portrays the charming operetta "Laila," which will be produced in the opera house next Friday evening, as follows: "Laila has fine musical effects, and gave entire satisfaction to a large and appreciative audience."

A large delegation from this city will attend the grand opening ball at Sapho on the 22d.

A. H. Thompson, of Twin rivers, and Miss Behner, of Fork prairie, were married last week in Seattle.

Frank King and Ed. Westbrook left last night on the Garland for the Monte Christo mines, to do some prospecting.

A very enjoyable social hop was given at the opera house Monday evening in honor of the safe return of the Burnt mountain campers.

A large crowd of Clallam's society people returned from Burnt mountain Saturday, where they have been camping the past week in quest of the juicy blackberry. They had a narrow escape from serious injury at the hands of a large and quite ferocious cougar, who took it upon himself to attack the camp in the interest of himself and starving wife and babies. The boys, however, took a decidedly different aspect of the affair and filled Mr. Cougar's carcass so full of lead that in case he ever recovers sufficiently to get back to his lair, his family will have great trouble in recognizing him.

World's Christian Co-Operative Sobiety.

The report of Rev. Jonas Bushell on the above society given in the Congregational church last Monday evening was a very exhaustive one, while the report was not as favorable as many of the members wished it, they were thankful to know the truth.

The fact that the society did not own the 20,000 acres of land was made plain; also that the president, Mr. Wilderman, is not the right man for that position, was also plainly demonstrated, and if the society is to succeed at all there must be a radical change of officers and methods. A vote of thanks was tendered to Mr. Bushell for his excellent report.

BIG PROFITS ON SMALL INVESTMENTS.

Returning prosperity will make many rich, but no where can they make so much within short time as by successful speculation in Grain, Provisions and Stocks.

$10.00 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well known fact that there are thousands of men in all parts of the United States, who by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to $50,000 to $100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard our standing and success.

A SONG OF PROGRESS.

How fast this old world moves along, with science as its guide!
(John, fire up the carriage, I'm going for a ride.)
In darkest space it leaves a rare illuminated path.
(Order six yards of lightning for a quick electric bath.)
How various its inventions! They dazzle sense and sight!
(John, cable there to London for a dinner Wednesday night.)
How swift the march of science, though pessimists may laugh.
(Here's Mollie's picture painted by the new telautograph.)
It's forward, march! forever—the great, progressive plan.
(I see they've put new life in that electrocuted man.)
It's forward, march! forever—in spite of bolts and bars.
(I'm going to strike that air ship for a trip around the stars.)
