JEFFERSON-CLALLAM

County Officials Will Play Base Ball

IN THIS CITY NEXT MONDAY.

The International Yacht Races Occur in This City Last Saturday and Sunday—The Daisy Bell of Victoria Wins the Race and the Prize, The Board of Trade Cup.

The date for the inter-county base ball game between the county officials of Jefferson and Clallam, has finally been definitely fixed for Monday, Sept. 2nd—Labor Day—when the much discussed game will undoubtedly be played on the the base ball grounds in this city.

The following challenge, recently received by Mr. Troy from Manager Brooks, of the Jefferson County Court House Invincibles, has been accepted by Manager Troy, of the Court House Irrepressibles of Port Angeles, a notification of which, together with the names of the Clallam county players, has been forwarded to Manager Brooks:

PORT TOWNSEND, WASH., Aug. 26, '95.

Jno. W. Troy, Esq., Auditor, Port Angeles, Wash.

DEAR SIR:—After much delay and many perplexing experiences as far as transportation is concerned, I am at last in position to make this formal challenge:

"The county officials of Jefferson county hereby challenge the county officials of Clallam county to play a game of base ball at Port Angeles, on Monday, September 2nd, 1894, as soon as possible after the arrival of the steamer Geo. E. Starr, at that place. Said boat to leave Port Townsend at 8 o'clock, a. m., sharp, on the day in question."

I hereby name the players of our nine and their positions on the field:

J. A. Sheehan, short stop, deputy assessor; J. B. Hogg, first base, treasurer; A. F. Learned, pitcher, treasurer's clerk; C. M. Weymouth, third base, deputy treasurer; A. J. Mayo, second base, deputy sheriff; D. C. Conover,, left field, county clerk; S. H. Davis, substitute, commissioner; M. F. Hamilton, center field, sheriff; Geo. E. Starrett, catcher, commissioner; A. L. McClinton, center field, deputy auditor; W. F. Rupert, substitute, county attorney, A. N. Godfrey, substitute, surveyor.

I respectfully request that you send me, by return mail, your list of players, their official position in your county and their position on the field.

I will add, incidentally, that Mr. Geo. Ulmer displayed great business sagacity when he agreed to give us the use of the steamer Geo. E. Starr for the occasion.

Our families and friends will accompany us, in plain English you may expect a big crowd from Port Townsend.

Yours very respectfully,

LINCOLN BROOKS,

Manager, Court House Invincibles, Port Townsend, whose colors are red, white and blue.

An interesting and exciting contest is anticipated, as the Jefferson county nine includes a number of players who can safely boast more than a local reputation, in fact, have acquired distinction and not a little renown in professional circles.

Against these experienced, expert players, Clallam's undaunted, but unfortunately, somewhat inexperienced players will bravely struggle for the achievement of a victory they only can hope to win through earnest, persistent practice.

The players comprising the local team and the position assigned them will probably be as follows, although changes may be made:

H. M. Fisher, deputy assessor, short stop; A. B. Dorsey, treasurer, left field; John W. Troy, auditor, center field; Jno. C, Coolidge, deputy assessor, 1st base; Walter J. Dyke, pitcher; Chas. Beam, constable, 2nd base; R. A. Grimes, deputy auditor, right field; Jno. A. Wilson, deputy treasurer, 3d base; Robt. C. Wilson, state senator, catcher; John D. Hickok, deputy auditor; F. S. Mackintosh, deputy county clerk; E. A. FitzHenry, county surveyor; Hiram Love, deputy surveyor; substitutes.

The Yacht Races

Notwithstanding conflicting reports, some of which, somewhat viciously tinctured, were industriously circulated abroad, to the effect that the international regatta had been postponed until next Saturday, for the reason that the prevailing fog and smoke on the straits were so dense that it would be impossible for the races to take place—all of which was utterly untrue—the races occurred last Saturday, as announced, although the circulation of these misleading reports undoubtedly resulted in preventing the Seattle fleet from participating in the races. For this and other adverse reasons only four yachts entered the races, namely, the Daisy Bell, Frow Frow and Volage, of Victoria, and the Paloma, of this city.

The Daisy Bell was commanded by Capt. Anderson, the Frow Frow by Como. Kirk, the Volage by vice-Como. Werren, and the Paloma by Norman R. Smith.

The day was indeed an ideal one, a stiff sailing breeze prevailing. The race was twice round an 8 knot course.

The Paloma began the race under most favorable circumstances, keeping the long lead until she reached the first buoy, when a serious accident occurred to her in which she broke her rudder, which disqualified her from the race.

During the progress of the race the home buoy drifted fully one-half mile from its position, the Frow Frow and Volage sailing round the buoy, while the Daisy Bell sailed the course.

A dispute arose as to whether a yacht should sail the course or follow a drifting buoy and sail round it. The differences were finally satisfactorily adjusted by sailing the course again the following day.

A favorable wind again prevailing Sunday the race was begun under most auspicious circumstances, the Paloma again clearly demonstrating excellent sailing qualities, in sailing the course only 15 seconds behind the winner.

In the second race the Frow Frow was becalmed 20 minutes at the first buoy, which, unfortunately for her, gave the other vessels a decided advantage. The Daisy Bell, however, fairly won the race, notwithstanding the Frow Frow's mishap, as she beat the former 24 minutes, winning the race and the handsome prize—the Board of Trade cup.

The visiting yachtmen expressed themselves in the most flattering terms of Angeles' superb sailing course. In their estimation none other excells it in these waters.

The time of the several yachts in the race of Sunday was as follows: Daisy Bell, start, 3:01, finish, 4:46; Frow Frow, 3:15, 5:10.20; Volage, 3:05, 4:41; Paloma, 3:30, 4:46.15.

Shooting Affray Near Blyn.

What came near proving quite a serious shooting affray took place near Blyn last week between Constable Jno. Moose and Anton Sofie.

It seems that Samuel Fernie had aroused the anger of Sofie by protesting against the commissioners allowing him damages for the road passing through his land, and as Mr. Fernie had built a fence across a certain part of the road, Sofie proceeded to tear down the same A friend of Mr. Fernie, Mr. Hailer, being present, objected, and attempted to prevent him accomplishing his purpose, whereupon Sofie struck him in the face.

Mr. Haller had a warrant sworn out for the arrest of Sofie and placed it in the hands of Constable Jno. Moose for execution, who proceeded to serve same. Sofie refused to be taken, and when the constable pressed his claims, Sofie fired three shots at him with a rifle, without effect. Moose returned the fire with his revolver, shooting a hole through the hat of Sofie, but otherwise doing no harm.

The constable eventually captured his man, who is now held awaiting trial on the charge of assault and battery.

The people of Blyn and vicinity complain much of the misconduct of Sofie and his friends and relatives, and have to contend with a great deal to keep out of trouble with them.

Charged With An Assault.

D. G. Munro, of this city, has had Wm. Fetterlee, of Dungeness, arrested on the charge of an assault made on his person at the mouth of the Dungeness river, a week ago last Wednesday. It appears that Munro and Fetterlee had some trouble over fishing nets which terminated in a personal encounter, and Munro claims that Fetterlee was the aggressor.

The preliminary trial has been set for trial in Justice Brewster's court next Saturday.

Rite of Confirmation.

Bishop Barker of Tacoma, delivered two excellent sermons in St. Andrew's Episcopal Church, of this city, last Sunday.

Following the evening sermon the rite of confirmation was administered to the following: Dr. E. H. Stanley, Mrs. Montijo, Mr. Trahair, Fred Pollow, Phil Schular, Louis Gherke.

Among the numerous persons who have been cured of rheumatism by Chamberlain's Pain Balm, mention should be made of Mrs. Emily Thorne, of Toledo, Wash., who says: "I have never been able to procure any medicene that would relieve me of rheumatism like Chamberlain's Pain Balm. I have also used it for lame back with great success. It is the best liniment I have ever used, and I take pleasure in recommending it to my friends." For sale by J. C. Hansen, Druggist.

NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

East Clallam Record.]

Work on the big dam on the Sekiou river is progressing favorably.

It is reported that Miss Brown of Sequim, now teaching school at Boston, on the Quillayute river, has been engaged to teach the East Clallam school, to begin next month.

W. R. Jones, of Big river, is at work making brick on his ranch. Mr. Jones believes that a brick building is the proper thing for a rancher to have, as the usual shake or log house is too well ventilated for winter comfort.

The tug Tyee was in port Wednesday, and has been engaged for several days in trying to secure the boiler and engine of the wrecked Mogul at Cape Flattery. The Mogul was the British tug wrecked at the cape several months ago. The wood work has gone to pieces and the Tyee is endeavoring to get the machinery before it goes to ruin completely.

There is now on the Sound a large party of Wisconsin mill owners and lumbermen viewing the state and looking for investments in their line of business. Two of the party are now in this vicinity, A. W. Brown, of Rhinelander, Wisconsin, and T. Lennon, also a lumberman. They arrived here on Monday evening and went out on a cruise up the Hoko river. Mr. Brown is said to be looking for a desirable location for a saw mill business.

Beaver Leader.]

It is reported that some Puget Sound loggers will begin logging at the mouth of the Quillayute soon, towing their logs to both Gray's harbor and the Sound.

The storekeeper up on the Queets river came down to buy a cow of Mr. Van Horn last week. He rode a horse which shied and threw him, injuring him so severely that he could not walk. Mr. VanHorn took him home in his sleigh.

The Indians at LaPush set fire to the driftwood on the sand spit at the mouth of the river. It burned furiously for three days. They became afraid that it would burn up their dead so they got buckets and put the fire out.

Freighters and others coming in report the Clallam road in bad condition at several points between here and Beaver lake, and at one point beyond the lake, and we are asked to call the road supervisor's attention to the same.

W. T. Crosby has several almond trees that are just beginning to bear. The trees are in a thriving condition and give promise of bearing heavily in a year or two. They are now carrying a few nuts. If nut-bearing trees will do as well here as Mr. Crosby's experience seems to indicate, they will prove a very profitable venture for our farmers to engage in.

A resolution was passed to appoint at least one man from each district in the Quillayute valley to work up the interest of the fair in their respective districts. The chair appointed Frank T. Balch for Boston; R. W. Fletcher, Quillayute; L. M. Ford, Forks; Wm. Hill, LaPush; Frank Albright, Albright; Jake Fasel, Shuwah; Ed. Higgins, Tyee; Will A. Sparks, Beaver; Joseph Flanigan, Bogachiel; Sam Pederson, Swan; August Palmquist, Ozette.

The Second Annual Meeting of the Harvest Home Fair and Concert takes place on September 28th. At a meeting of the Fair association held at Boston last Saturday the different committees were appointed and other necessary arrangements perfected. The place of holding the fair was not decided upon; at least, the report does not state the fact, but we presume it will be Forks or LaPush. The idea of holding the fair just prior to the one at Angeles, is a good one as it will permit exhibits to be transferred to Port Angeles and thus have the choicest products of the valley on exhibition at the county fair. The managing committee should see that this, the second fair ever held in the county, is a success. It can never be a success, however, without the co-operation of the people of the valley. This they should, and undoubtedly will, receive.

CLALLAM COUNTY FAIR.

Superintendents and Judges of the Various

DIVISIONS HAVE BEEN APPOINTED.

Postmaster Albright, of Port Crescent, Arrested on the Charge of Misappropriating Postal Funds—His Bail Fixed at $1,000—Death of Miss Jefferies at Her Home in Victoria.

The executive committee having in charge the management of the County Fair, is making excellent progress in perfecting the details of Clallam's first exposition, which promises to be a most gratifying success in everyway.

The reports that the committee are receiving from the farmers of both the east and west ends of the county settles the fact that both sections will be strongly represented with excellent exhibits of a varied character, and the people of the Port Angeles district can be relied upon to do their share toward making the fair a worthy one.

At Monday evening's meeting of the committee the following superintendents and judges of the various divisions were appointed:

Division A, Horses—Superintendent, Thomas Evans, Dungeness; judges, Joseph Henderson, Walter Dyke, Frank Balch.

Division B, Cattle—Superintendent, Wm. Ward, Dungeness; judges, C. W. Thompson, Thomas Watson, Daniel Pullen.

Division C, Sheep and Hogs—Superintendent, Merrill Whitter, Forks; judges, W. C. Williams, James Meagher, Silas Goodwin.

Division D Poultry—Superintendent, George Sherman, Port Angeles; judges, D. R. Burness, Ben Lewis, Edward Christopherson.

Division E, Dairying—Superintendent A. U. Davis, Dungeness; judges, L. M. Ford, Mrs. Laura E. Peters, Mrs. W. C. Williams.

Division F, Farm Products—Superintendent, George H. Lotzgasell, Dungeness; judges, C. F. Seal, James Hagadorne, Alexander Clark.

Division G, Fruits—Superintendent, Captain Laurenson, Sequim; judges, D. R. Callan, G. H. Randall, Jesse Maxfield.

Division H, Natural History—Superintendent, Judge Lamoreux, Beaver; judges, Prof. O. A. Tiffany, A. B. Dorsey, Miss Edith Johnson.

Division I, Minerals—Superintendent, Judge, J. G. McClinton, Port Angeles, judges, E. H. Foster, J. A. Withrow, B. F. Dean.

Division I, Agricultural Implements and Manufacturers—Superintendent, A. L. Fairiervice, East Clallam; judges, Will Church, D. W. Morse, M. D. Gleason.

Division K, Forestry and Lumber—Superintendent, Stephen Hall, Gettysburg; Judges, C. W. Ellsworth, Frank Donahoe, Henry Buckner.

Division L, Floral—Superintendent, J. M. Grant, Port Angeles; judges, T. H. Carter, A. H. Smythe. A. Lingham.

Division M, Household—Superintendent, J. W. Hume, Port Angeles; judges, Captain W. S. Morrisey, Charles Adie, Captain Snow.

Division O, Fine Arts—Superintendent Mrs. H. B. Willson, Port Angeles; judges, Mrs. Wm. Bell, Mrs. George E. Michell, Mrs. Judge J. G. McClinton.

Division P, Women's Department—Superintendent, Mrs. R. R. Harding, judges, Mrs. O. A. Tiffany, Mrs. Elmer E. Fisher' Mrs. H. E. Lutz.

Division Q, Boy's and Girl's Department—Superintendent, Bogachiel; judges John M. Martin, C. A. Bork, Mrs. G. V. Smith.

Division R, Dog Department—Superperintendent, Dr. Croft, Dungeness; judges, Wm. Haltman, Frank Fisher, Peter Bucholz.

Division S, Indian Department—Superintendent, A. W. Smith, La Push; judges, J. C. Keenan, Indian agent at Neah bay, Will Clark, W. C. Williams.

As will be noted, the committee has exercised commendable care in the selection of both superintendents and judges, and has seen to it that all sections of the county are represented in both capacities. This is as it should be, and will result in a wide-awake interest being taken in the exposition by the people of every portion of the county.

It is the earnest desire of the committee that the superintendents of the various departments begin at once organizing the work of their departments, to the end that there may be a full and creditable display in each of them.

A great deal of the success of the Fair will depend upon the comprehensiveness and thoroughness of the work of the respective superintendents, and as a thoroughly good and competent man has been placed at the head of each division, it is safe to predict that they will discharge the public-spirited duty devolving upon them to the credit of the county and to themselves.

Postmaster Albright Arrested

Deputy U. S. Marshal Quilter, accompanied by U. S. Postoffice Inspector J. C. F. Gordan, proceeded to Port Crescent last Wednesday and arrested Joel H. Albright, only recently relieved by Acting Postmaster J. C. Haswell, on the charge of misappropriating postal funds.

Albright was taken before U. S. Commissioner Harry E. Lutz and waived examination, and was bound over in the sum of $1,000 to appear before the U. S. District Court at Seattle, in December, to answer to the charge.

It was discovered several weeks ago that Albright was short in his accounts at which time Inspector Gordon appealed to Albright's bondsmen to make good the shortage. At the time Albright turned over all of possessions to his bondsmen, who supplied the deficiency making good the shortage to the government.

Nothing more was thought of the matter until the governmental officials appeared on the scene, authorized to arrest Albright on the charge of misappropriating postal funds.

Albright had always borne a good reputation in the community and enjoyed the respect and esteem of all who knew him, consequently, the revelation of his wrongdoing was a complete surprise to his friends.

Owing to the fact that he has made restitution to the government, and has already suffered tortures for his misstep, it is not unlikely that leniency will be shown him.

He has raised a satisfactory bond.

Death of Miss Jefferies.

The sad intelligence was received in this city last Monday from Victoria of the death of Miss Susa Jefferies, formerly of this city, at the home of her sister, Mrs. Ed. Metcalfe, of that city.

For over a year past this young woman has been a patient, uncomplaining sufferer with that dread disease, consumption, the terrible ravages of which has gradually undermined her organization, until the tissues of life wasted away, death claimed another victory. Months ago her attending physicians gave up all hope of her ultimate recovery, and acquainted their patient of the fact. She accepted her fate with that degree of Christian fortitutude and quiet resignation that attests a brave, noble nature.

During the residence of the young woman in this city she made many warm personal frends, who are shocked to learn of her sad, untimely end, and extend heartfelt sympathy to her relatives in the hour of severe bereavement.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much fasth in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for the list of testimonials.

THE REFINEMENT OF CRUELTY.

The public spirit evidenced by Mr. Ulmer in unselfishly encouraging an excursion from Seattle to Port Angeles was, indeed, most commendable. But the subsequent action of Mr. Ulmer when he encountered opposition—largely imaginary—from certain sources was, to say the least, forgetful of his people and disloyal to his town.

Mr. Ulmer persistently urged the postponement of the regatta until next Saturday, that he might provide amusement for the pastime of his guests during their visit in the city. Disappointed in this, he attempts to appease chagrin and at the same time viciously thrust his town and unfeelingly punish his guests in sending them to Port Crescent.

While this may have provided the balm to heal his crushed and wounded spirits, the enormity of the crime committed in banishing the unoffending visitors to the wilds of Port Crescent has no parallel in the annals of history.

Mr. Ulmer has grievously sinned.

THE COUNTY FAIR.

The unanimity of sentiment throughout the county favorable to the county fair is, indeed, encouraging, wholesome and healthful. It evidences a lofty, patriotic spirit. Even more. It eloquently proclaims the fact that the people of the county heartily and unqualifiedly endorse the broad, comprehensive, unselfish policy pursued by the management which recognizes no section, no locality, but comprehends the entire county.

THE DEMOCRAT-LEADER again reiterates that the fair is not a Port Angeles, but a county exhibition. The management from the beginning has earnestly solicited the co operation of the county, which it fully realized was absolute to the complete success of the fair. And the words of encouragement received from over all the county clearly attest the fact that the citizens of Clallam fully appreciate the importance of a creditable county exhibition.

This was the sentiment sought, that it has been so cheerfully responded to, any doubt that might have been entertained as to the ultimate success of the fair has entirely disappeared.

CLEVER FINANCIAL SCHEME.

The joint silver debate recently held in Chicago between Roswell G. Horr of New York, and William H. Harvey of Illinois, has been published in book form and is now on sale at 50 cents a copy.

The war of words on the part of these somewhat distinguished gentlemen over the overshadowing national issue was, indeed a clever financial stroke on their part.

Shrewd enough to choose a subject in which intense public interest is centered, only fragmentary parts of the debate are furnished the associated press, and the daily journals of the country consequently only published a meagre, incomprehensive report of the debate.

Subsequently a complete report of the debate is published in book form, and the deluded victim, eager to obtain additional light on an intricate question, buys the book, only to become worse confounded. But the parties to this stupendous farce fully accomplish the selfish object underlying all others—the one of pecuniary gain—in a measure infinitely greater than anticipated by them.

Through this exceedingly clever stroke they will become several hundred thousand dollars richer, the people will pay for the whistle, and will they be any wiser?

A FARMERS' INSTITUTE will be held in Port Angeles next Thursday. The aims, objects and purposes of the organization are of such vital import to the agriculturalist that its labors cannot be too highly commended. Experimenting with these subjects along scientific lines cannot fail of benefical results. That those who have conducted these experiments have consented to attend the institute, and deliver a number of addresses on the more important questions of this vast subject, should be deemed as a rare opportunity, which should be embraced by everyone interested in things agricultural.

THE management of the county fair has many features under consideration for the amusement and pastime of the visitors who attend the fair in October. If conscientious industry will accomplish anything, it is safe to predict a most gratifying success for the fair.

DURING the next week Port Angeles will entertain quite a large number of visitors. The reception accorded them should be characterized by generous, open-handed hospatality.

FARM, ORCHARD, GARDEN.

The basket willow may be easily grown along the banks of streams and on low lands. It can be produced from cuttings. There is a ready sale for it at paying prices.

August is a severe month on the work horses, and they should have a good rest at noon. It is better to begin work early, take a long dinner hour, and work later in the evening.

An Eastern farmer puts clover hay in his mow, alternating it with a layer of oat straw. The latter thus has the flavor of the hay imparted to it, and while it contains no more nutriment than formerly, it smells and tastes better, and animals fed upon it eat it all up clean.

A Southern apiarist says: "For cleanliness the bee is unsurpassed; if anything gets into their hive that is not perfectly clean they will carry it out if they can, if they cannot get it out they will procure bee glue and hermetically seal it up and let it remain in the hive.

Cholera is the name which covers most of the sudden diseases which attack chickens, but the cause is usually the neglect of proper sanitary precautions. Give pure water, good wholesome food, clean quarters and do not overcrowd, and disease will trouble the flocks very little.

Clearing new land is the most tedious and laborious work that can be done. No farmer should undertake to clear land without first procuring all the necessary implements for that purpose, such as stump-puller, grubbing hoes, etc., so as to economize the labor from the start. Dynamite should not be used unless in the hands of an experienced person.

To keep trees erect is a task, says a writer, that can only be done by close attention in wet, windy weather. However, this must be looked after or your trees will all lean to the northeast, and when the wind has them whipped loose in the ground the roots will become soured and diseased. This is often the cause of death. Never allow your trees to get too deep in the ground, either from setting or cultivation.

Turnips are sometimes grown on stubble land, as a catch crop for sheep, by broadcasting the seed. After the turnips are ready the sheep are turned in the land, and consume not only the turnips, but the young weeds. While it is not the most profitable way to produce turnips, yet it is claimed for the method that the only expense is to plow and harrow the land and the cost of the seed, no other cultivation being given.

One of the cheapest and most plentiful of all substances that can be procured is dry dirt, and a good supply of it should be stored away for winter use. It is the best of all absorbents in the stalls, keeps the stable clean, and is a deodorizer. Added to the manure heap after being used as an absorbent, it is easily handled when spread on the soil, and is valuable in the poultry houses during the winter. It drives lice away and removes the odor of the floor of the stables.

Botany is always an interesting study and in country schools especially, it ought always to be made prominent. One of the most practical features in country schools should be the study of different kinds of weeds, including, if possible, some that are not known in the neighborhood. The approach of these weeds may be made known as soon as they appear, and efficient means be taken to destroy them.

A Pioneer's Recommendation.

Mr. J. W. Venable, of Downey, a pioneer of Los Angeles county, Cal., says: "Whenever I am troubled with a pain in the stomach or with diarrhoea I use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it for years, know it to be reliable remedy, and recommend it to every one." For sale by J. C. Hansen, Druggist.

"We had an epidemic of dysentery in this vicinity last summer," says Samuel S. Pollock, of Briceland, Cal., "I was taken with it and suffered severely until some one called my attention to Chamberlain's Colic, Cholera and Diarrhoea Remedy. I procured a bottle and felt better after the first dose. Before one-half of the bottle had been used I was well. I recommended it to my friends and their experience was the same. We all unite in saying it is the best. For sale by J. C. Hansen, Druggist.

Farmer's Institute.

Dr. E. H. Stanley, president of the Clallam County Horticultural Society, has been industriously laboring for some time past for a "Farmers' Institute," to be held in Port Angeles sometime during the fall months. Finally the praiseworthy effort of the gentleman has been crowned with success, and the undertaking has progressed to the point where the doctor is at liberty to definitely announce the date on which the Institute will take place.

The institute will be held in the opera house of this city, beginning Saturday, Sept. 7, and adjourning in the evening of that day, during which time two interesting and instructive session will be held.

Prof. Spillman, Piper and Fulmer, of the State Agricultural College at Pullman, will be in attendance, each of whom will deliver able addresses on the various topics assigned them.

Some of the subjects which will undoubtedly be discussed are: "Dairying," "Experience with Ensilage," "Experiment Station Methods," "Soils of Western Washington," "Injurious Insects," "Fruit Packing and Marketing," and other subjects of equal importance.

The meeting will, no doubt, prove instructive and vastly profitable and should be attended by all who are interested in subjects agricultural.

BIG PROFITS ON SMALL INVESTMENTS

Returning prosperity will make many rich, but no where can they make so much within short time as by successful Speculation in Grain, Provisions and Stocks.

$10.00 FOR EACH DOLLAR INVESTED can by made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States, who by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invest a hundred or two hundred dollars up to $50,000 to $100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard our standing and success.

'FORE SHE WENT.

Things ain't like they used to be
'Fore she went away,
Jest don't look the same to me—
Don't—by night or day!

Weather's colder, skies ain't half
Like they wuz when she
Made the silver sunbeams laugh
From the blue to me.

Seems like, 'fore she went away,
Nuthin' over wrong;
It wuz summer all the day—
Summer sweet with song.

Summer in them eyes o' hers,
Bright as mountain lakes
When the wind above 'em stirs
An' the mornin' breaks.

Summer in her lips 'at thrilled
Like the song o' birds,
Rich an' rosy lips 'at spilled
Music with their words.

Summer all erbout her! She
Seemed the whole day long
Just a livin' melody—
Sunshine set to song!

Will she come again? Some time
I shall wake an' hear
Silver bells o' music chime
Soft-like on the air;

An' the wind'll waft the snows—
Winter will depart,
An' the spring'll pin a rose
Here on my poor heart.
