VOL. 6. NO. 21. PORT ANGELES, CLALLAM COUNTY, WASHINGTON, SEPTEMBER 20, 1895. PRICE FIVE CENTS

SPECIAL PREMIUM LIST.

Judge McClinton, Superintendent Mineral Department,

OFFERS VALUABLE SUGGESTIONS.

The Interest that is Being Taken in the Fair is Manifested by the Generous Donations of the Various Business Men all over the State and County—The Baby Show one of the Principal Features.

To the Chairman and Secretary Executive Committee, Clallam County Fair.

GENTLEMEN: I am in receipt of your notification of my selection as chairman of committee on mineral exhibits at the fair and beg leave to say that I will cheerfully co-operate with yourselves and all the committees to the fullest extent of my abilities to make the fair a success so far as the limited time at my disposal will allow.

I regret very much however that I now find it necessary to hold court early and late, including evening sessions, and that for some time to come the amount of time I will be able to devote to the fair will be very limited.

I do not know who are my fellow members of the committee on mineral exhibits, but would beg to offer the members a few suggestions, and say to them that every earnest effort they may find time to make to render this exhibit successful will meet my hearty approval and co-operation.

I would suggest that if possible large samples of coal be obtained from discoveries recently made by Charley Jones of Upper Solduck.

That some large cakes of native magnesia be obtained from the large deposit of that material on the farm of Marlin Alexander, Dungeness.

Samples of building and other stone, especially samples of smooth, flat sandstone, beautiful specimens of which I have seen near the lakes.

Potter's and alluminum clays from First street cut.

Copper ore from Hurricane Hill, and gold, silver, iron and any other ores obtainable from the Olympics. Frank Jones can probably furnish many good samples.

Samples of any and all other minerals obtainable in the county.

Respectfully yours,
JAS. G. MCCLINTON.

Special Premiums.

Competition open to any scholar (within age limits) of the public schools of Clallam county. All maps entered for the prize must be accompanied by a certificate of the teacher of exhibitor to the effect that the map was drawn by the scholar entering it.

GUILTY.

M. J. Clump is Found Guilty of Embezelment.

After forty-eight hours deliberation the jury in the Clump case brought in a verdict of guilty with the recommendation of leniency.

It was frequently rumored around town that there would be some very sensational exposures but they faild to materialize.

On the motion of Clump's attorney Judge McClinton grants him a new trial. It appears that various books and receipts which were ruled out of evidence were allowed to go into the jury room for their inspection, besides this, persons whom the law forbids, were also allowed in the room while the jury was in session, The new trial is set for the 22nd of October.

Pleasant Hour Library.

A meeting of the Pleasant Hour Library board was called Monday evening and a new supply of books was sent for. The library will soon be open to the persons holding shares and we hope that it may be instructive as well as pleasant. It is well to inform the public of the following rules adopted by the library board:

First. A ten cent share entitles the holder to read books for one year.

Second. Books may be drawn from the library at Central school upon Mondays and Fridays between the hours of 9 a. m. and 4:30 p. m.

Third. Two weeks is the length of a loan and share-holders not returning books at the expiration of that time will be fined at the rate of five cents per week or fraction of a week.

Fourth. Damage to books must be paid for according to just estimate of value or under penalty of forfeiture of share.

NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

East Clallam Record.]

According to the published program the county fair at Port Angeles next month will be a gala affair of prize potatoes, pigs and pumpkins. Are you ready for the fray?

Very little interest was taken in the road district election here last Saturday. Only ten votes were cast for J. A. Withrow for supervisor and one for F. Donahoe. A road property tax of 4⅞ mills was voted.

It is expected that the East Clallam sawmill will start up next month to run all winter. There is considerable lumber in the river which high water will bring down and arrangements are now being made for an additional supply of sawlogs.

Some of the farmers in this vicinity are getting enthusiastic over the county fair. Farmers J. T. Lewis, Fred Kellogg, Tony King and a few other agriculturalists will hold a meeting some evening next week and discuss the advisability of loading a scow with some of their surplus products and sending it up to the exposition.

The cannery company at Port Angeles sent down a boat and fishing net last Monday and four men are engaged here in salmon fishing, C. S. Krogh, Gus. Lotzin, Henry Orset and N. C. Nelson. The first haul was made in the bay near the mouth of the river on Wednesday. A lot of flounder, several cod and one large salmon were caught.

A lot of logs were left on the beach by Maples & Hultgren last year, below the Sekiou. A small crew of men consisting of Sam Wilkeson, J. Rainey, D. Lavin and others are now at work trying to secure some of the logs and boom them in the Sekiou river.

The Methodist conference has not assigned any preacher to East Clallam, but someone will be appointed later on. Seventy dollars was appropriated for a minister's support. So far as known nothing was done in regard to the church building.

Beaver Leader.]

Harry Lamoreux, a popular young law student, Port Angeles, came into the valley Tuesday, after an absence of three years, and is shaking hands with his many friends and acquaintances. Harry will stay with us for a month, making his home for the most part with his folks at Sappho.

The Indians at La Push landed a whale on the beach north of James Island Saturday evening, the 7th inst. It was fastened on shore with a large rope 60 feet long. Sunday morning about 60 men, women and children were at work cutting it up and carrying it in baskets to the camp which was about eighty rods distant.

Mrs. W. R. Hoole came in Saturday to make a short visit with her parents prior to her leaving for California where she and Mr. Hoole go soon for the benefit of the latter's health. Mr. Hoole has been in very poor health for many months and was not able to visit his friends here with Mrs. Hoole. He has many steadfast friends throughout the county who will wish, with the Leader, for his speedy restoration to health.

Commissioner Macumber, of Jefferson county, was in Beaver Wednesday, and went on through to the west end of his county to inspect the work done on the new county road which has just been completed. Mr. Macumber is very much struck with the valley. He says that we should be permitted to form a new county, as proposed last winter and claims that there would be no opposition from the east end of Jefferson county.

Clallam county seems to have the best of everything. In a conversation which we had recently with Mr. Peter Bucholz, an East Clallam stock buyer, he informed us that Clallam county cattle are considered much the best in the Seattle market and command a better price than beeves from other sections, and are in demand on account of the excellence of the flesh. Quillayute mutton is also a record breaker. Everyone who has eaten of it is struck with its delicate flavor and its absolute freedom from any taste of wool. With such advantages this section ought to become a profitable stock-raising one, other conditions being favorable. There is at present one serious drawback the high freight rates that shippers are compelled to pay.

$100 Reward $100.

THE YACHT RACE QUARREL.

The facts in connection with the matters of dispute between Lord Dunraven and the American Cup Committee of the New York Yacht Club in the contest between the Defender and Valkyrie, can give but small comfort to our British cousins. On the other side of the Atlantic they were disposed to maintain that England's representative had been unfairly treated in the great yacht races. This was partly due to the reputation the English Earl had as a "true sportsman," but more due to the injured tone of his voluminous letters.

The facts do not justify the haughty and somewhat insolent behavior of the titled Britisher, but rather stamp him as a much over petted and badly spoiled child.

The conditions under which the races were sailed were made known to the Royal Yacht Squadron and assented to by Dunraven long before the contest took place. Dunraven had sailed a series of yacht races over the New York Yacht Club course before as had many another English yachtsman before him. He well knew the condition there, and all sportsmen will admit that he waived all rights to protest by not making his request to sail the races elsewhere before the arrangements had been completed. But instead of doing this, he consented to everything until it was demonstrated beyond all reasonable doubt that his boat was inferior to its competitor, before requesting a change of venue, which of course, the committee could not grant.

But this is all. Subsequent events go to show that Lord Dunraven did not really want what he asked for, but that he was simply putting himself in shape to withdraw from the contest that he might return to England to pose as a much injured man and circumstances could not have arranged themselves better to suit his evident design than they did. The decision of the committee in giving the second race to the Defender on a foul, gave him a great deal of the sympathy that is always accorded the man who, though defeated, shows the pluck that has been more or less justly accredited to Lord Dunraven. Then followed his apparent voluntary surrender of the third race. Thus had Dunraven completed which seems to have been a very smooth scheme.

But Dunraven met men who were true sportsmen when he entered the contest against the owners of the Defender, and the America's cup committee have done well to spoil the reputation sought to be gained by Dunraven's childishness. They have proven by the correspondence between the managing owner of the Defender, Mr. C. Oliver Iselin, and the spoiled earl that the offer was not only made to resail the 2nd and 3rd races, but that Mr. Iselin offered to sail the whole race over and on any course on this side of the Atlantic that the Earl of Dunraven would suggest. Then, Lord Dunraven refusing this generous offer on the ground that he could not do so unless the committee ordered it so, Mr. Iselin offered to sail a series of races on his own accord, that it might be determined to the satisfaction of all which of the yachts Defender and Valkyrie was the better boat, and thus the boasted sportsmanlike traits of Lord Dunraven have been shown in their true light, and the result cannot afford much comfort to Englishmen.

WHATEVER of opposition may have developed adverse to the county fair, is rapidly disappearing. In opposing the fair in the outset quite a number of prominent citizens sincerely believed that the movement was premature and ill-advised; that the conditions adverse to the success of the fair appeared insurmountable, consequently it was simply the height of folly to deliberately encounter such grave obstacles and almost certain defeat. This was the sentiment freely expressed in the beginning by many who were honest and sincere. Subsequent events, however, have clearly and satisfactorily demonstated to all who were honestly skeptical and not selfishly opposed to the fair, that their apprehensions were ill-founded, and from an attitude of indifference they have assumed an active interest in the fair, and are now numbered among its most earnest workers. They have fully realized as their commendable cooperation will attest, that any doubt of the success of the fair no longer exists.

THE Tribune-Times and THE DEMOCRAT-LEADER are earnestly laboring for the success of the fair. There is, however, a local issuance which presumes the dignity of a public journal, that is devoting time and space to the reprehensible and unpatriotic effort to defeat the fair. The action of that sheet has been severely condemned by the business public which discerns in its unworthy action motives purely selfish and utterly unpatriotic.

THE county fair is receiving the unstinted encouragement of all citizens of the county unselfishly devoted to the material development of its resources. For this reason its sucess is assured.

MR. SEEVERS is opposed to the fair. That's to be expected. Any man honored with a public position who betrays his party is rarely found to be loyal to his town.

GOING WITHOUT BREAKFAST.

Connecticut People Who Eat Only Two Meals a Day.

The very latest is the skip-your-breakfast-and-be-healthy-idea. It has been tried by more than 100 persons in this vicinity, says the New London Day, and as a result of their experience you could not get them to eat breakfast if you were to set before them a feast such as Lucullus was wont to enjoy or imagined he enjoyed.

Chas. C. Haskell, president of the Henry Bill Publishing Co., of Norwich, Conn., introduced this novel idea to the people of this vicinity. He got it from Dr. E. H. Dewey, of Meadville, Pa., who has been practicing it for the last twenty years and who finally wrote a book concerning his theory. This book fell into the hands of Mr. Haskell for publication and being convinced that its reasoning was sound, he has been going without his breakfast for some time, and others have followed his example until there are more than 100 persons in Norwich alone who save on their hotel bills when they travel.

And they declared with sincerity that they never before have felt so well as since they have tried this new plan. Several of them who were suffering from troublesome or dangerous diseases quickly recovered after they began going without their breakfasts.

There is really something more to it than going without breakfast. The whole creed in brief is to eat but two meals per day, omitting breakfast; eat only when hungry, even if one may have to wait for hunger for a day, a week or longer, drinking during all that time all the cold water desired; drink nothing while eating, and drink only cold water at any time; eat whatever the hunger calls for, which will be the food that will make the richest blood.

The point against breakfast is that, after a person has been sleeping, his system does not really need food, as a rule, and the stomach has also been resting, so that it is not in a condition to receive food to advantage. But now the followers of this idea make the food disappear at dinner time.

Mr. Haskell cites the case of J. H. Alexander, a dentist of Mystic, Conn., who was wounded in the civil war and ever since has been in poor health, each year finding him a little weaker. Physicians differed in their diagnosis of the case. He had a bad cough and asthma, besides other troubles. Some physicians decided that he had asthmatic consumption.

Four years ago being very feeble, and having a worse attack of asthma than ever before, he gave up to die. His suffering was terrible, and all his friends supposed he could live but a few days. For four years he had not been able to dress himself without assistance. June 6 last he weighed 27 pounds, was a mere skeleton, and was very feeble Haskell explained the new idea to him, and for eight days he ate nothing, taking only cold water. During that time his cough diminished one-half, his strenghth increased daily, and his tongue was clean for the first time in many years. On the eighth day he was hungry, and ate a hearty dinner. Within two weeks he was able to dress himself without assistance, and within three weeks was able to drive his horse and had gained twelve pounds, and is now able to attend to light business. He is gaining every day.

Notice.

During fair week there will be a grea many strangers who will want lodgings, etc. It is the desire of the executive committee to arrange for all if possible With that end in view a list of all parties having rooms is wanted, with prices, with or without meals. Address Reception Committee.

E. H. STANLEY,
Chairman.

DUNGENESS ITEMS

Mrs. T. S. Semple returned on Saturday from a trip to Port Townsend and Seattle.

The threshing machines have been kept busy for several weeks past and from reports, the crops, while not as large as usual, are of a superior quality. The dry season has produced a hard milling wheat.

Mr. E. A. Gilbert, the genial postmaster, operator and line repairer, has had a serious time the past month keeping the telegraph line up. The forest fires have raged continually along the wires and it has been very exasperating to find after repairing a break and returning home to have to retrace his steps miles away and repair breaks. The recent light rains will have a tendency to put the fires out.

Elias Cays, proprietor of the hotel Groveland, will shortly move to his ranch on the Dungeness river. Before leaving the hotel he will dispose of the furniture at public auction.

Mrs. C. F. Seal and children returned home on Monday from a visit with friends in Seattle, Port Townsend and the Bishop Ranch at Chimacum.

Dr. and Mrs. Croft have returned from a trip to Victoria.

The semi-annual meeting of the Groveland Improvement Company has been called for October 8th.

The Dungeness Trading Co., have received a large line of dry goods and notions of newest and latest designs from their Eastern buyers.

Rev. R. C. Lee was greeted with splendid audiences in Dungeness on Sunday morning and evening last, also at Sequim Hall in the afternoon, on the occasion of his return by the M. E. Conference and the warmth with which he was greeted should leave no doubt in his mind that citizens loving home and country, good government and morality, and Christian lives are going to stand shoulder to shoulder with him during the coming year. When the good people of Dungeness start out to reform abuses they are going to come pretty near accomplishing it, and Mr. Lee is the captain to train under and is worthy the hearty support of everyone. We bespeak for him great success this year.

Mr. Alex. Henderson, one of our wealthy ranchers and a capitalist besides is reported to have under consideration the purchase of the hotel Groveland, this would be a good buy for Mr. Henderson, inasmuch as he owns adjoining property. Not long since it was reported that Mr. Henderson had under contemplation the erection of a large building for mercantile purposes in which he proposed to engage. Dungeness is always proud of her public spirited citizens.

Mr. Maurice Fisher, of Port Angeles, was a welcome visitor in Dungeness for a few hours on Tuesday.

Mrs. Frank Fisher has been visiting her parents, Mr. and Mrs. J. B. Dick, returning home on Thursday accompanied by her sister, Miss Jessie Dick, who for some time will make her home in Port Angeles and take up studies in the high school.

Mrs. Brown, from the light house, was a passenger on the Evangel Wednesday morning for Seattle.

Mr. James Brown, of Sequim Prairie, in attempting to handle a frightened horse last week was kicked and had his leg broken. Dr. Thompson was called in and set the broken and fractured limb. The young man's mother had left for Victoria the same day via Port Angeles, but was called back by the accident.

Mrs. Chas. O'Brien is visiting her home in Dungeness. Mr. and Mrs. J. B. Dick are never so happy as when their children come home on their periodical visits.

Sam Irwin and his brother Dick arrived in Dungeness on Tuesday afternoon on horseback direct from Quillayute and Fork's Prarie, having come over the trail from Beaver by way of Lake Crescent. Sam will look after his ranch interests here, take in the fair at Angeles and afterwards return to Quillayute.

All Laboring in Unison.

The managers of the Clallam County Fair appear to be making a strong and persistent effort to open the fair on October 1st in a complete and orderly condition and to keep it to the close on the 4th. The precinct committees in all parts of the County are said to be laboring in unison in their desire to make the exposition thoroughly representative of the County and thoroughly successful. The fair program, entrance regulations and premium list, will be printed and ready for free distribution about the 15th. Entering exhibitors should send in their names in time to secure a copy. The West End can be counted on to do its part towards promoting the fair's success and it does not aim to be outdone in the matter of exhibits. West Enders should enter their exhibits first at Boston that they may be arranged and classified for the more general exhibit at the Port.—Beaver Leader.

OUR HARBOR.

An Old Sea Captain Remembers it After Many Years.

Probably the largest ship that ever sailed into any harbor in the world without the aid of a tug entered the harbor of Port Angeles Wednesday last.

When it was learned by the various tug companies on the sound that the British ship Vortigern left Shanghai for Puget Sound a sharp lookout was kept for her as it meant a tow worth $500, but they were utterly nonpulsed when she arrived at the mouth of the straits, as Capt. Davis informed them that he had sailed into the harbor of Port Angeles twenty-nine years ago, and unless the topography of county had changed wonderfully he could do it again without the slightest risk to his vessel. The vessel arrived in the harbor two hours ahead of the tug, thus saving $500 and two hours time.

A PIONEER GONE.

Mrs. Hannah Ferguson Passes Away After Long Suffering.

After nearly three years of patient suffering Mrs. Hannah Ferguson breathed her last at 8:30 o'clock Thurday morning. About three years ago Mrs. Ferguson was striken with paralysis, from which she never fully recovered. The esteem which was held for the deceased was most beautifully attested in the elaborate funeral services which were held in the Congregational church Friday at 2 o'clock. The floral decorations were the grandest ever witnessed in Port Angeles. The Rev. Bushell officiated, assisted by the Rev. F. O. Lamoreux, of the Baptist church.

A company of fishermen are busy making salmon catches at the mouth of the Clallam river. They are working in connection with the National Canning Co., of Port Angeles.

School has commenced with an attendance of 36. Mr. Whiting is teaching.

Miss Brown, of La Push, was a passenger to Seattle on Monday's Garland.

The schooner Eacrett was selling a cargo of fruit cheap here Tuesday which many of our citizens took advantage of.

Mrs. E. E. Davis, of San Miguel, Cal. says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by J. C. Hansen, Druggist.

Deafness Cannot be Cured

by ocal applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BIG PROFITS ◁OND▷ SMALL INVESTMENTS

Returning prosperity will make many rich, but no where can they make so much within short time as by successful Speculation in Grain, Provisions and Stocks.

$10.00 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States, who by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invest a hundred or two hundred dollars up to $50,000 to $100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard our standing and success.

FARM, ORCHARD, GARDEN.

Eggs are almost a complete food, containing a large proportion of nitrogen and mineral matter as well as the heat producing elements. They bring higher prices in proportion to cost than any other commodity that is sold from the farm.

On July 28, 1890, Mrs. Charles Prickett dropped a bowl of butter in a well at Attalla, Ala. On Thursday the well was cleaned out, and the bowl found. In it the butter still remained intact, and as pure and fresh as when put in the well. —Atlanta Constitution.

Weeds should not be hoed during wet weather. The moisture in their leaves will prevent them from drying up, while the roots against the moist and loosened earth will get a root hold and send out new fibers. A weed once or twice transplanted is almost as difficult to kill as a perennial.

The work of the plant consists in converting refuse animal and vegetable matter into forms of health and things of beauty—into that which delights the palate and pleases the eye. It is a kind of a machine, capable of doing much or little work, depending upon food, moisture, care, training and environments.

Eggs are shipped to New York from Belgium. They are packed in flat boxes, filled in with cut straw. The boxes hold from sixty to eighty dozen each. The loss by breakage is about the same as those shipped from the west in barrels. Freight averages from 1⅓ c to 2c per dozen, while their prices range with those for Western stock.

DICTIONARY OF U. S. HISTORY.

United States History, less of a mystery
Now to the masses than ever before,
We have a great want supplied, all facts we've simplified,
And to all knowledge we've opened the door.

So simple the chronicle, gaze through a monocle,
But one eye's needed to gather the fact,
Our volume a peer is, and all that we hear is
The sounds of applause for our genius and tact.

All facts alphabetical, 'tis less enigmatical,
We acknowledge it came with the cleverest thought.
The best book of reference, we say it with deference,
No other book like it has ever been bought

The man who compiled it, who wrote out, and styled it,
In Historic Research has reached the extreme
A professor of colleges, you'll agree that his knowledge is
By the great masses considered supreme.

We want men to sell it; no one can repel it;
At homes, schools and colleges sales can be made.
Just write for instructions, our small introductions,
There's more money in it than ever you have made.

AGENTS can make more sales with less talk and less walking with this book than with anything else they ever sold. It appeals to everybody. It is handsome, entertaining and useful. It is good for every member of the family—useful alike to schoolboy and grandpa. Write for circulars and terms to
