THE STARS VICTORS

It was somewhat of a disappointment that the ameteur base ball club of Townsend did not arrive yesterday, as an interesting and doubtless what would have proved exciting contest would have followed, as the Stars, of this city, were in splendid playing trim, and were eager for the match game.

The non-arrival, however, of the players from Townsend, demanded that a local team be organized to cross bats with the Stars. These were: Hawkins, Ferguson, Dyke, Wright, Crockett, Keller, Meagher and Fisher. The players comprising the Stars were Murphy, Church, McLaughlin, Shields, Graham, Hooker, Vail, Church and Dennis.

In the first two innings the Business Men evidenced good playing qualities, but from thence onward to the close of the seventh inning they went completely to pieces and the Stars experienced practically a walk-over.

The score stood at the end of the unfinished game 7 to 32 in favor of the Stars.

The next match game will be played Friday, betwen the juniors of Victoria, designated the Maple Leaves, and the Stars of this city, and the contest promises to be an annimated one, as the visitors have won an enviable record for putting up good ball.

Kind Words From Gen. Noble.

The following letter from Gen. Noble, of St. Lewis, was recently received by Major R. R. Harding, of this city, now in St. Paul, which is so truly expressive and characteristic of the kindly, generous and unselfish nature which has won for the distinguished gentleman the esteem of his fellow countrymen.

It will be remembered that Gen. Noble was the guest of Port Angeles, while Secretary of the Interior, during the administration of President Harrison, and at the time of his visit here delivered a characteristic address to the squatters on the reservation, when he spoke words of encouragement to the settlers, and warmly approved of their movement.

The following is the letter:

St. Louis, Sept. 20th, 1895.

Comrade R. R. Harding, Port Angeles, Washington,

My Dear Sir:—Your recent favor and circular have been received, and it is a pleasure to learn of the progress of your interesting and and promising city. Remembering our picnic a few years ago among the recently felled trees, and the opening of an avenue through the dense forest, it is astonishing to read of your schools, churches and large population. President Lincoln was your first friend, and where he led, anyone else maybe not only safe, but proud to follow. There is no doubt but your location possesses very great advantages, and that for perseverance and industry many opportunities for advancement must present themselves at Port Angeles.

When I can I will visit your city again. In the meantime please present my respects and good wishes to the G. A. R. post, and the "Noble" Sons of Veterans camp, and believe me,

Sincerely Yours,
John W. Noble.

The Philadelphia.

The U. S. Cruiser Philadelphia, Capt. Cotton, was sighted inside the cape this morning at 7:30, and will in all probability arrive at this port late this afternoon.

The Philadelphia is one of the largest cruisers of the new American navy, and is a marvelous product of engineering skill and ability. Every visitor to the fair should visit the Philadelphia and inspect a modern war vessel.

The display of exquisitely fashioned and delicately perfumed plants by J. M. Grant evokes many pretty compliments.

The fact is painfully apparent that the opera house is inadequate to properly and creditably display the magnificent miscellaneous collection of exhibits thrown inharmoniously and inartistically together. Three times the space should have been allotted the agricultural products to have given them an attractive display.

The Lake Crescent exhibit is one of the most realistic in exposition hall—the only glaring omission being the clear, cool lake, even in miniature form. All else, however, seemed to be there; magnificent specimens of speckled trout; delicately fashioned fern, beautiful overhanging cedar and fir boughs, all of which reminds one familiar with the rugged grandeur and beauty of the scenery surrounding this ideal resort.

Notice.

During fair week there will be a great many strangers who will want lodgings, etc. It is the desire of the executive committee to arrange for all if possible With that end in view a list of all parties having rooms is wanted, with prices, with or without meals. Address Reception Committee.

E. H. Stanley,
Chairman.

FAIR NOTES

The exodus to the fair has begun.

All hail Clallam's first county fair.

Exposition hall presents an animated scene.

Clallam is indeed a land of varied resources.

S. J. Lutz & Co., have an attractive exhibit.

Here's to Clallam, the land of milk and honey.

The band concert at the opera house this evening.

J. I. Kirschberg & Co., have an excellent exhibit.

The era of genuine material advancement is begun.

The fair opens under most auspicious circumstances.

The Esquimau exhibit is a great attraction at the fair.

Who will win the elegant wedding presents this evening.

The preserved (native) fruits make a very tempting display.

Of all virtues none is more sublime than patriotism of home.

What a vast source of wealth Clallam possesses in its agriculture.

Thomas' photographic display is excellent and is greatly admired.

It is not only an agricultural fair, but an industrial exposition as well.

Did you admire the luscious fruit on exhibition in the exposition hall?

Behold the fair—the living example of agricultural and industrial wealth.

The U. S. Clothing and Dry Goods House has an exceptionally fine display.

Quite a number of art exhibits were received yesterday morning from Townsend.

Three mountain elk arrived on the Garland yesterday morning for exhibition at the fair.

The exhibit of shingles from Shields & Maxfield's mill cannot be excelled for quality and finish.

The art department reflects excellent artistic talent. The display is, indeed, a most creditable one.

The total entries at the fair aggregated 700 yesterday morning which will undoubtedly be swelled to 1000.

All will hail the presence in the harbor of a representative of the new American navy—the cruiser Philadelphia.

mer are among the principal attractions of the fair. These collections contain every family of minerals; and coins 200 years old.

One farmer brought 21 exhibits to the fair, any one of which is creditable to the county and to the producer.

The fine live stock in the stockyards suggests the fact that Clallam county is destined to be a great stock raising region.

The exhibit of brackets, ornamental frames and fancy wood work by John Martin evidences the young man to be a mechanical genius.

McClinton Bro's. photographic exhibit, including marine and landscape views and photographs, is a great attraction at the fair.

Who says Clallam county cannot raise pumpkins? Those large, fine specimens on exhibit at the fair very positively attest the mistake of this.

The military drill by the children of the public schools will be an interesting feature of the exercises at the opera house this evening.

Things agricultural, horticultural and industrial are vastly stimulating, judging from the unusual activity and bustle in the city during the week.

The diplomas which will be issued to the successful competitors at the fair, are very neat and attractive. They certainly will prove invaluable to preserve as a momento of Clallam's first fair.

There has been such an elaborate exhibit on the part of the local business men and manufacturers, that there is imminent danger of there being unadequate space for the agricultural products.

"The pioneer industry of Port Angeles," attested its loyalty to Clallam county, in the creditable exhibit arranged in exposition hall under the supervision of its public spirited proprietor, John M. Martin.

All appeared confusion in the exposition building yesterday. This embryonic condition has been followed by order, the artistic arrangement of the splendid collection of exhibits which will herald Clallam's fame abroad as a marvelously rich commonwealth.

The imposing pyramid er ected in exposition hall for the National Packing Company's exhibit, is the object of never ceasing attraction to throngs of observers. The enterprise evidenced by Manager Hume of this signally succesiful industry, is a subject of most favorable criticism.

AT THE FAIR.

Clallam's first annual fair is an achievement to which the management and citizens of the county can point with pardonable pride.

Begun under conditions most unpropitious and discouraging, with opposition at home and indifference in the country, the nature and gravity of which was such as to seriously compromise if not threaten the ultimate success of the enterprise.

In prosecuting a commendable public enterprise of great moment and consequence, it requires no superhuman effort to conquer unfriendly opposition if openly made, but it requires the greatest skill, tact and patience to overcome indifference. These adverse conditions, so intensely manifest in the beginning, have almost entirely disappeared; much of the opposition and indifference to the fair was due to a misconception of the movement. When it had been demonstrated to the satisfaction of those who questioned the legitimacy of the enterprise, that it was wholesomely a county exposition, they became most active, earnest workers.

The signal success of the fair is, indeed, an accomplishment of vast material consequence. It demonstrates in unmistakable measure the commercial value of Clallam county from an agricultural point of view; it proclaims conclusively it is infinitely rich in these varied resources; it portrays its vast possibilities in language all can understand and no one will doubt.

CITIZENS extend the freedom of the city to every farmer of Clallam county in attendance at the fair. Their presence in the city most forceably impresses the fact on the mind of every visitor that without their aid, encouragement and assistance the success of the fair would have been utterly impossible. But they did their part nobly and Clallam's first fair is a decided, a gratifying success, and a great sphere of usefulness, of possibility is thereby open to an enterprising, a progressive, public spirited people.

THE rivalry and competition stimulated at the fair has produced vastly beneficial results—it has clearly demonstrated the possession of latent talent, skill and genius, on the part of the competitors in the various departments, in a surprising degree—it has most satisfactorily evidenced that this people possess every essential qualification requisite to build a vast empire.

THE past has been one of the dryest seasons in the memory of the oldest inhabitant. In view of the fact the magnificent products on exhibit at the fair proclaim Clallam a most favored region for agriculture.

THE magnificient exhibition of native products in the exhibition hall portrays most eloquently, and truthfully the grand—in fact—almost limitless possibilities of Clallam county in a material way.

THE freedom of the city should be extended to Capt. Cotton, to the officers and to the crew of the U. S. Cruiser Philadelphia.

THE presence in the harbor of the cruiser Philadelphia will cause all true Americans to exclaim, "Great is America!"

IT is a county fair in reality as well as in name.

IT is indeed peerless Clallam.

Deafness Cannot be Cured

by ocal applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube reslored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DICTIONARY OF U. S. HISTORY.

United States History, less of a mystery
Now to the masses than ever before,
We have a great want supplied, all facts we've simplified.
And to all knowledge we've opened the door.

So simple the chronicle, gaze through a monocle,
But one eye's needed to gather the fact,
Our volume a peer is, and all that we hear is
The sounds of applause for our genius and tact.

All facts alphabetical, 'tis less enigmatical,
We acknowledge it came with the cleverest thought.
The best book of reference, we say it with deference,
No other book like it has ever been bought

The man who compiled it, who wrote out, and styled it,
In Historic Research has reached the extreme:
A professor of colleges, you'll agree that his knowledge is
By the great masses considered supreme.

We want men to sell it: no one can repel it;
At homes, schools and colleges sales can be made.
Just write for instructions, our small introductions,
There's more money in it than ever you have made.

AGENTS can make more sales with less talk and less walking with this book than with anything else they ever sold. It appeals to everybody. It is handsome, entertaining and useful. It is good for every member of the family —useful alike to schoolboy and grandpa. Write for circulars and terms to

The Kellogg brothers arrived from East Clallam, yesterday. They brought the three mountain elk, for exhibition at the Fair.

In the failure of the Townsend base ball team to appear for a match game of base ball to-day, a game was arranged yesterday between the Stars and Business Men, resulting in a score of 32 to 7, in favor of the former.

As an inducement during the present week to all subscribers paying arrearages the DEMOCRAT-LEADER will be issued during the ensuing year to them for $1.

Mr. G. M. Lauridsen, the wide-awake, enterprising grocer, has been experimenting with the strength and durability of the overage pile for structual purposes, and as a result has demonstrated that a pile of average dimensions will safely withstand the enormous weight of 1000 sacks of flour. Visit this mammoth establishment and witness this spectacle.

If you will pay arrearages during the present week to the DEMOCRAT-LEADER, it will be mailed to you during the ensuing year for $1.

Weston Cowney, special correspondent of the Seattle Post-Intelligencer, was in the city, yesterday, doing the fair.

Clallam county seems to have the best of everything. In a conversation which we had recently with Mr. Peter Bucholz, an East Clallam stock buyer, he informed us that Clallam county cattle are considered much the best in the Seattle market and command a better price than beeves from other sections, and are in demand on account of the excellence of the flesh. Quillayute mutton is also a record breaker. Everyone who has eaten of it is struck with its delicate flavor and its absolute freedom from any taste of wool. With such advantages this section ought to become a profitable stock-raising one, other conditions being favorable. There is at present one serious drawback the high freight rates that shippers are compelled to pay.

Don't forget to call at Lauridsen's Grocery Store, the cheapest and largest store in Clallam county, where you can buy most anything you need.

Are you a subscriber of the DEMOCRAT-LEADER, the official county paper? If not, now is the time to subscribe for the best county paper. Only $1 per year if paid during the present week.

Mrs. E. E. Davis, of San Migual, Cal. says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by J. C. Hansen, Druggist.

Mrs. S. A. Kell, of Pomona, Cal., had the bad luck to sprain her ankle. "I tried several liniments," she says, "but was not cured until I used Chamberlain's Pain Balm. That remedy cured me and I take pleasure in recommending it and testifying to its efficacy." This medicine is also of great value for rheumatism, lame back, pains in the chest, pleurisy and all deep-seated and muscular pains. For sale by J. C. Hansen, Druggist.

$75 to $150 a month to anyone who will represent us. Work almost easy enough for a child to do. Mr. J. W. Dixon, Boise City, Idaho, made $244.50 in one week. Mary Bush, Lyons, Colo., cleared $72.10 in three days. Rev. Wm. Curtis, Aberdeen, S. Dak., made $14 the first day. No capital or experience necessary. Terms and pamphlets free.
