THOSE MONSTER TROUT

Rear Admiral Beardslee After Forty Years'

EXPERIENCE TROUT FISHING IS

Treated to An Agreeable Surprise While Fishing on Lake Crescent—He Catches Monster Blueback Trout That Prove a Revelation.

THE results of the fishing expeditions of an enthusiastic, eager, devoted fisherman, extending over a period of forty years, prosecuted on the most famous fresh water fishing grounds not only of this country but abroad as well, Rear Admiral Lester A. Beardslee declares, unqualifiedly, that his experience on Lake Crescent last Monday and Tuesday was by far the most gratifying and satisfactory of almost a life-time's pursuit of this genuinely fascinating sport to him.

The guest of M. J. Carrigan, of this city, Admiral Beardslee left in company with that gentleman for Fairholme, on the shores of Lake Crescent, last Sunday for the purpose of enjoying several days' trout fishing there. The exceeding good fortune which attended Admiral Beardslee in his trip to Lake Sutherland only a few days previous, in catching such a magnificent string of speckled beauties, afforded, doubtless, abundant reason for the hope that the succeeding trip would result quite as satisfactorily. And in these reasonable expectations, future events by no means developed any disappointment for the gentleman.

Years ago the admiral, not a budding but a full-blown fisherman and an expert authority on the several varieties of trout and on trout fishing, scored the achievement, hitherto unattained by any other fisherman, of catching, in Eastern waters, a trout weighing 4½ pounds, his extraordinary good fortune being a prolific subject of comment in sportsmen's journals.

In latter years his passionate pursuit of this sport, held even a greater achievement in store for him. Transferred to the Pacific coast, the fame of Lake Tahoe, (California), was not unknown to him. And upon its placid, unruffled waters we find our enthusiastic, devoted fisherman, ingeniously tempting the proverbally verdant trout to an abrupt eternity so artfully suggesting the "spider and the fly" episode which so delights the infantile ear when repeated from the pages of the fables. The temptation too great, the fish takes the fatal hook. The life and death struggle ensues. One frantic plunge succeeds another in rapid succession. Great heavens! Have I caught a whale, is the exclamation which must have escaped from the excited fisherman, as he struggles with all of the art and ingenuity possible to command in the endeavor to land his magnificent catch. Finally the fish lies motionless in the bottom of the boat; "Do my eyes deceive me?" No, it is flesh and bone, and 6½ pounds of toothsome, delicious trout; what a magnificent, perfect specimen, one of the largest if not the largest ever caught from the lake. And had not the Admiral reason to feel proud over his achievement. For months the accomplishment was prolific of favorable comment in sporting circles.

When Admiral Beardslee sailed northward from San Francisco, in his flagship Philadelphia, for target practice in Port Angeles harbor, doubtless, he little dreamed that the crowning achievement of his particularly success career as a fisherman, would be accomplished in the waters of Angeles' beautiful fresh water lakes—Sutherland and Crescent.

Fishing was prosecuted in the waters of Lake Crescent, off Eagle Point, all of Monday; late in the afternoon of that day, Mr. Carrigan, who, in anticipation of a bite from a monster trout, had securely fastened the line around his leg; all at once, when peace and calm reigned supreme in the boat, the Admiral and Ben Lewis saw, almost with the rapidity of lightning, the leg to which Carrigan had fastened his fish-line, shoot outward, as in response to some tremendous movement thitherward; this was quickly followed by excited exclamations from Mr. Carrigan, who, by this time, was an almost indistinguishable mass in the bottom of the boat, entreating Ben Lewis to come at once to his rescue as he had certainly caught a whale. Lewis quickly responded to the summons, and, being an expert fisherman, soon, with the combined efforts of the Admiral and Carrigan, succeeded in landing what proved to be and what the Admiral pronounced to be a distinct species of blueback trout, weighing 10¾ pounds, measuring 32¼ inches long and 7½ inches through.

This was, indeed, a revelation to the Admiral. In years gone by he had fished on the waters of Lake Oquassoc, in the state of Maine, famed the world over for its superb blueback trout, yet no fisherman had ever succeeded in catching one of the species weighing over 2½ pounds, and here before him lay an abnormal specimen of this species weighing 10¾ pounds. The Admiral then determined to remain another day, if agreeable to Mr. Carrigan, and himself catch and land, if possible, unaided, one of these enormous trout.

His expectations were by no means doomed to disappointment, as Tuesday afternoon at four o'clock, an uncommonly vigorous jerk at the line suggested that a trout of unusual size had taken the hook. Then followed a desperate struggle; the trout would be drawn in and plunge down into the depths of the water hundreds of feet, in the frantic struggle for life and liberty. Finally a landing was made, and the supreme strength of Lewis was required to overcome the monster. And what a magnificent specimen it was, weighing 11½ pounds, the measurements of which were 28½ inches long and 8 inches through. As the exultant fisherman beheld, with conflicting emotions, first of doubt, then of self-satisfaction and pride, words can ne'er express, his achievement, the crowning accomplishment of forty years' pursuit of this, to him, delightful sport, must, indeed, have afforded inexpressible pleasure.

This exceeding stroke of good fortune was followed with the Admiral catching three other monster bluebacks, the respective weight and size of which were as follows, 11 pounds, length 28 inches, depth 8¾ inches; 11 pounds, length 28½ inches, depth 8 inches; 6 pounds, length 22¾ inches, depth 7 inches; another monster blueback was caught by Mr. Carrigan, which weighed 10¼ pounds, and was 31½ inches long and 7 inches through.

Besides these six monster trout, weighing in the aggregate 60½ pounds, a large quantity of smaller sized trout were caught.

The jubilant fishermen returned from the lake Wednesday noon. A photographic view of the larger trout, hanging from a pole, suspended from the shoulders of the Admiral and Mr. Carrigan, was taken.

As one of the valued contributors of the Forest and Stream, of New York City, the foremost sportsman's journal of the country, Admiral Beardslee will contribute to the columns of that journal an exhaustive article on the superior advantages afforded by Port Angeles' lake resorts for trout fishing; the article will be illustrated with the views taken. The Admiral has also mailed Judge Hunt, of San Francisco, the distinguished editor of the sportsman's column in the Chronicle, an extended article on the results of his successful fishing expedition to the lakes.

These articles appearing in the respective journals and eminating from the pen of an expert fisherman, an accepted authority on the subject of trout fishing, will certainly carry their weight, and will unquestionably prove of invaluable service in advertising the rare advantages possessed by Port Angeles' lake resorts as trout fishing grounds.

Of these delicious fresh water food fish there are six distinct species, namely, the blueback, silver, speckled or mountain, brook, inbred and rainbow trout, which abound in the waters of Lakes Crescent and Sutherland.

NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

East Clallam Record.]

The sealing schooner Stella Erland got back from the north last week with 672 skins.

The run of salmon into the sound this season is the heaviest ever known.

Kennedy & Bartlett have commenced the business of hand logging on the Hoko.

Jack Rainey has launched a well constructed and neat looking row boat which he has had built here.

Harry Buchman has developed a new variety of potatoes in his garden on the river, a number of which will weigh two pounds each.

The local fishermen have made good hauls of fish during the last week and have shipped 1965 salmon to the Port Angeles cannery since last Friday.

The home of M. T. Jones, the mail carrier from Clallam to Albright, was totally destroyed by fire with all its contents one day last week. The house is on Jones' ranch near Pickey lake. The accident was caused by neighbors who stopped there, going away and leaving a fire in the house after cooking a meal.

Several Neah Bay Indian families were in town this week on their way home from Seattle. The Indians had just been paid off for their season's work on the sealing schooners, and having lots of money to spend had gone shopping in Seattle with a view of loading up their canoes with "icktas" as heavy as the canoes could bear. They had dresses and calicos, guns, baby carriages, sewing machines, accordions, furniture, etc. They were, however, a very respectable looking lot of Indians, who appeared to be in favor of securing the comforts and luxuries of life.

Beaver Leader.]

The government Indian school opened last Monday. Mr. A. W. Smith is principal and Miss Edith M. Johnston, assistant.

The fishermen work early and late. Indian Jimmy says the Indians are not such big fools as to work day and night.

Mr. Richard Mormon has secured two lots in Sappho adjoining the two that J. C. Douglas purchased last week. Mr. Mormon will begin clearing them up soon.

The Indians returned home from the hop fields at Kent, yesterday. All are feeling happy. One brings a bride from Seattle. They had a social hop in the evening. The have a fiddle and dance Boston style. They put on airs equal to the pale face.

The box of fair exhibits sent to Port Angeles by the fair committee and which was delayed at Sappho, was opened and the exhibits displayed at Lamoreux's store. It is a fine collection, and had it reached Angeles it would have been an eye-opener. We noticed several varieties of apples, grown by Mr. Wesley Smith, which were exceptionally fine.

A movement was inaugurated Wednesday which is intended to result in the construction of a telephone line from LaPush to somewhere on the Straits, either East Clallam or Port Angeles. A stock company has been organized with a capitalization of $2,000, divided into shares of $10 each. The first board of trustees are, Judge M. V. B. Lamoreux, Frank T. Balch and C. E. Maxfield.

There is a movement on foot to have the number of mails on route No. 71101, from LaPush to East Clallam, increased from two trips a week to three trips a week. It is a popular movement. We are now entitled to three mails a week and we should have them. The mail boat from Seattle makes three trips to East Clallam, and to increase our mail service here would cause but a small additional expense, and it would be a great convenience to the people of this valley. It is no longer a small settlement which is to be supplied. The population of the Quillayhte valley has more than doubled during the past five or six years, and the increase in population necessitates an increase in our mail service. Petitions will be circulated. Every settler should try to sign them, as an increased mail service is one step more toward the development of the country.

Petit Jurors.

THE 27TH MILE-STONE

Rounded in the Existence of the

ANCIENT ORDER UNITED WORKMEN

The Event Properly Observed by the Local Lodge—The Council Appoints a Successor to Councilmam-at-Large Harding, Resigned.

COMMEMORATIVE of the 27th anniversary of the organization and the establishment of that society, Port Angeles Lodge No. 59, A. O. U. W., held appropriate literary and social exercises in Odd Fellows hall last Friday evening. The anniversary day occurred on Sunday, the 27th inst., and the reason for celebrating the event in advance, doubtless, was the inability to command the hall on either Saturday or Monday evenings.

The 27th anniversary marks a most healthful and prosperous condition in the society; with an increased membership; with a widened sphere of usefulness, greater opportunity has been given to demonstrate the vast beneficial results which have been accomplished directly through the instrumentality of the Ancient Order of United Workmen. Not only a positive stimulant for the betterment of the social conditions of its members is provided in bringing them together in social intercourse, but infinitely of far greater consequence is the fundamental purpose of the creation of the society, which guarantees the families or those dependent on each member $2,000 at his death. It was solely for the purpose of providing this competency in the event of death for families whose support was dependent upon the labor of workingmen, the results from which were barely sufficient to supply the necessaries of life, to say nothing about laying aside for the demands of the future. It is almost unnecessary to point to the eminent degree with which the fulfillment of the object sought has been accomplished.

And while upon the point it must, indeed, be gratifying to the members to contemplate the remarkable advancement of the local lodge since its organization only a few years ago. With a membership numbering fifiy-nine, with most flattering prospects for a material increase during the succeeding year, the society can most sanguinely look forward to the promises of the future. The following program was rendered:

Recitation.....May Shields
Recitation.....Mr. Gerhke
Solo.....Mrs. Thos. Silverwood
Recitation.....Pearl Stoops
Recitation.....Addie Thomas
Recitation.....Melborn Jordan
Duet.....Miss Nellie Hoare and .....Mrs. Thos. Silverwood

Dancing provided one of the pleasurable features of the evening's entertainment. Refreshments were served by the ladies at 11:30, after which dancing was resumed and continued until about 2:30 a. m.

Visit From U. S. Senator Squire.

Yesterday afternoon United States Senator Watson C. Squire, accompanied by Mrs. Squire, arrived on the steamer Evangel. Senator Squire desired to meet his constituents and personally ascertain their wants before returning to Washington, so as he might act more effectively and intelligently in securing the needed legislation. Upon their arrival here the Senator and Mrs. Squire were met by State Senator R. C. Wilson and a number of prominent Republicans and citizens and escorted to the hotel Albany, where many citizens paid their respects to the distinguished visitors.

During the afternoon the Senator and Mrs. Squire visited the flagship Philadelphia.

In the evening an informal meeting was held in Masonic hall, the use of which had been generously tendered by Pacific Post No 48, G. A. R.

Among the more important appropriations asked from the general government for public improvements in Clallam county, were, harbor improvements at the mouth of the Quillayute river; telegraph line extended from Tatoosh to Flattery Rocks; the donation to the city of government block 32; the donation to the county of portion of a ten-acre (government) tract; donation in government townsite of tract of land for public park; fog-horn at Ediz Hook.

Senator Squire readily recognized the justice of the demands and the great need of the public improvements asked for, and agreed to do all in his power to secure as much for the people of Clallam.

Good Templars Entertain.

The I. O. G. T. of this city gave another of their delightful socials and entertainments in Oddfellow's hall last Wednesday evening.

Besides the excellent program which was produced as given below, the members hugely enjoyed a series of games, music and a delicious and temptingly served luncheon. The following is the program:

1. Recitation.....Emma McLaughlin
2. Song.....Alice Henson
3. Recitation.....Mabel Crosby
4. Dialogue..Sisters Crosby, Fields .....and Graham
5. Song.....Wm. Ware
6. Recitation.....Gracie Grant
7. Recitation.....Theresa Graham
8. Song.....Rev. F. O. Lamoreux
9. Recitation.....Alice Henson
10. Recitation.....Anna Fields
11. Song.....Ethel Ferguson

The L. S. L. E.'s.

The members of the L. S. L. E.'s greatly enjoy their weekly meetings, being both instructive and entertaining. This society has been organized for nearly two years, and in that time they have studied several of Shakespeare's plays, parliamentary rules, constitution of the State of Washington, poems of Longfellow, Tennyson, Elliot, Whittier and others, and at present are reading "Marmion" having recently finished "Lady of the Lake" and "Lay of the Last Minstrel."

Deafness Cannot be Cured

by ocal applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

FAITHFUL PUBLIC SERVICE.

The term of the present municipal government is rapidly drawing to a close. The chapters of the outgoing administration no longer are a sealed book but lay with their lids wide-open that their leaves may reveal to the general public what the achievements of the outgoing council have been.

When the present admisistration assumed the affairs of the city grave responsibilities confronted it. With a depleted treasury; with insufficient revenue to defray the legitimate expenditures of the municipal government; with an enormous bonded indebtedness; with a floating indebtedness largely in excess of the statutory limit, incurred through the reckless extravagance, profligate expenditures and impotent management of former administrations. It would be difficult, indeed, to conceive how any number of men combined solely with the express object, aim and purpose in view of deliberately and systematically looting the public treasury and fastening an enormous bonded and floating indebtedness upon the municipality, could have succeeded in a more eminent degree than did these former officials who so shockingly misadministered the municipal affairs of the city of Port Angeles. Even when the city was almost hopelessly bankrupt, its treasury empty, and no immediate hope of relief in sight, these profligate public servants assent to the indiscriminate issuance of hundreds of dollars of city warrants at each succeeding meeting of the city council until an enormous floating indebtedness is fastened on the municipality.

This was the grave situation confronting taxpayers and citizens at the close of the last city administaation—and one which appealed most strongly to their patriotism, their honor, their manhood, to rise to the demands of the hour, and unite as men who love their homes, sacredly respect good government, and reverence and honor honesty and decency and integrity in the discharge of public service, in a determined effort to rescue the city from its perilous position, with ruin and disaster threatening from all sides. It is almost needless to to add the people demonstrated themselves to be masters of the situation.

The result was that a citizens' mass convention was held and a ticket nominated, positively and unequivocally pledged to sweeping retrenchment and reform. The ticket was elected. And now that its administration is drawing to a close, the people can very accurately and justly form an estimate as to how faithfully the pledges made have been fulfilled.

The pledges made to give the city a rigidly economical administration have faithfully been redeemed. Expenditures have been greatly curtailed in all directions. The princely salary schedule of the former administration was materially reduced, and a long step in the direction of practical economy, taken. Yet the present administration is not satisfied with the measure of reform accomplished, a fact demonstrated by the introduction of a salary ordinance providing the compensation city officials will receive the ensuing year. The reduction is so material that in many instances it provides no compensation, whatever, for many of the more important offices, implying, practically, temporarily at least, the abandonment of the offices effected, unless the duties respectively of each are performed by volunteer services.

While undoubtedly the deplorable condition of the city finances imperatively demand this sweeping curtailment in expenditures, and while the administration deserves the highest praise for this evidence of genuine retrenchment, its wisdom is seriously to be questioned in not providing compensation for a city clerk. Of all offices requiring the services of an efficient incumbent constantly and uninterruptedly, none is more essentially important in the municipal government, than that of the city clerk. To properly perform the duties of that office requires the services of an efficient accountant, as none other is qualfied to keep the intricate system of accounts and prepare with any degree of accuracy the voluminous reports required. The purpose, doubtless, is to elect some business man who would be willing to perform the duties of the office for the prestige it would give him in his business. No matter how well-qualfied, no active, successful business man is going to neglect his private interests when they conflict with his public service of charity, and the ultimate result would be that the public service would so materially suffer that sooner or later the accounts of the office would be in such a deplorable condition, that only the services of an expert accountant could unravel the mystery—and you know what that costs. No; that would be false economy, and the council will have cause for regret if it practices it.

Aside from this the action of the council cannot be too highly commended, and deserves the unstinted approbation of every citizen interested in good government.

As will be remembered THE DEMOCRAT-LEADER made a vigorous campaign for the present municipal administration; that it has consistently and fully redeemed its pledges, and is positively committed to futher retrenchment in the various departments of the municipality, the paramount duty of the patriotic citizen must, indeed, be plain.

The common object sought by all is to extricate the city from its deplorable financial plight; with the invaluable public service of the present administration in view, it would be unwise, impolitic and ungrateful to turn from tried, trusted and faithful public servants, to those of whom we know naught of.

Mayor Mallette has outlined a policy of rigid, practical reform; the wholesome inauguration of that alone will rescue the city from its condition of financial embarrassment. Therefore, with the valuable past public service of the gentleman in question an acknowledged fact, it is the manifest duty of citizens and taxpayers to appeal to Mr. Mallette to again direct the affairs of the municipality.

FARM, ORCHARD, GARDEN.

When the ground is cold but not too hard to work, is an excellent time to plow if cutworms are numerous in the soil. Exposure to dampness and severe cold will destroy them.

A farmer of Albany, Ore., is exhibiting a bunch of forty-two stalks of wheat, with 924 meshes and about 3500 grains which grew from a single kernel. Another farmer in Cedar Rapids, Neb., has a cucumber 5 feet long.

Any refuse in the barn yard that is not added to the manure heap is a breeding place for fleas and pests. A thorough raking and cleaning of the place, where refuse material, such as straw, leaves, chaff, etc., will lessen the number of insects next season.

When a pine forest is cleared oaks at once spring up in their place, and vice versar and when a gap occurs in a hedge it is useless to attempt to refill it with a plant of the same species, but some other kind must be used. In the theory of rotation of crops the farmers only follows nature.

We have never given root crops sufficient attention to this country. With increasing acreage and greater skill it may yet be profitable to raise potatoes for feeding purposes. Beets, turnips and potatoes are relished by stock, are healthy and easily raised, and enter into a good balanced ratio for winter feeding for all stock. Carrots are especially good for horses.

The cost of producing eggs on farms where the hens have a free range, and can fully supply their own wants with plenty of grass, insects and seeds, that would otherwise be wasted without the aid of poultry, is almost nothing in summer, but in winter, when the whole of the food must be provided, the cost of a dozen eggs ranges from 6c to 12c, according to the prolificacy of the hens in proportion to the food consumed. Although eggs bring high prices in winter, the profits are greater in summer, because eggs are then produced at no cost whatever on some farms.

Mrs. S. A. Kell, of Pomona, Cal., had the bad luck to sprain her ankle. "I tried several liniments," she says, "but was not cured until I used Chamberlain's Pain Balm. That remedy cured me and I take pleasure in recommending it and testifying to its efficacy." This medicine is also of great value for rheumatism, lame back, pains in the chest, pleurisy and all deep-seated and muscular pains. For sale by J. C. Hansen, Druggist.

DICTIONARY OF U. S. HISTORY.

United States History, less of a mystery
Now to the masses than ever before,
We have a great want supplied, all facts we've simplified,
And to all knowledge we've opened the door.

So simple the chronicle, gaze through a monocle,
But one eye's needed to gather the fact.
Our volume a peer is, and all that we hear is
The sounds of applause for our genius and tact.

All facts alphabetical, 'tis less enigmatical,
We acknowledge it came with the cleverest thought.
The best book of reference, we say it with deference,
No other book like it has ever been bought.

The man who compiled it, who wrote out, and styled it,
In Historic Research has reached the extreme:
A professor of colleges, you'll agree that his knowledge is
By the great masses considered supreme.

We want men to sell it; no one can repel it;
At homes, schools and colleges sales can be made.
Just write for instructions, our small introductions,
There's more money in it than ever you have made.

AGENTS can make more sales with less talk and less walking with this book than with anything else they ever sold. It appeals to everybody. It is handsome, entertaining and useful. It is good for every member of the family—useful alike to schoolboy and grandpa. Write for circulars and terms to

They left on the Garland for Townsend where they played the following Monday evening. From thence they go to Whatcom to fill a night's engagement, thence eastward over the Canadian Pacific railway.

The cruiser Philadelphia was to have sailed yesterday afternoon for Esquimault, but owing to the dense fog prevailing her sailing orders were countermanded late in the afternoon. Should the weather prove favorable she will sail today. She will remain a few days at Esquimault, from whence she will proceed to Townsend, remaining there three days, then she sails for Tacoma, remaining there a few days, thence to Seattle and New Whatcom, sailing from the latter place to San Francisco. She sailed this afternoon.

As the Philadelphia sailed out of the harbor this afternoon, she gracefully swung round and as her bow faced the shore, the marine band struck up that old familiar air, "Old Lang Syne," which wrs followed by "The Girl I Left Behind Me," and as she was sailing out of the harbor, the sweet notes of "Nancy Lee," were gently waft out on the ocean breeze.

Captain Charles S. Cotton, commander of the Philadelphia, Lieut. P. J. Werlich, Lieut. Bannon, Mr. Chas. Cotton, jr., Mr. and Mas. Geo. E. Michell, Mrs. M. Council Notes.

At the regular meeting of the city council last Wednesday evening considerable important business was transacted.

The matter of filling the vacancy caused by the resignation of Major R. R. Harding, councilman-at-large, was taken under consideration. It resulted in the appointment of W. H. Doty, as councilman-at-large.

Chas. Tillman was appointed caretaker of the city cemetery.

Ordinance, No. 232, which provides for continuing and extending all streets in the city of Port Angeles to the outer harbor lines was read to its final passage.

Ordinance, No. 233, defining the crime of assault and battery and providing punishment therefore was passed.

Ordinance, No. 234, granting to J. H. Young, his assigns or successors, the right to maintain, construct and operate telephone lines throughout the city of Port Angeles was introduced and referred to the ordinance committee.

A salary ordinance was introduced which provides for sweeping reductions in the salaries of city officials. It fixes the salary of the treasurer at $300 per annum, the city marshal at $50 per month, city clerk $1 per annum, city health officer $1 per annum, city attorney $1 per annum and the chief of the fire department $1 per annum.

Officers of the Philadelphia Entertain.

On Friday evening Admiral and Mrs. Beardsly entertained the following guests at dinner: Mayor and Mrs. Mallette, Mr. and Mrs. H. E. Lutz, Mrs. W. J. Quinlan, of Victoria, and Captain Cotton, Lieut-Com. Ingersol, Capt. Cochran, Chief Surgeon Winslow and Lieut. Fox, of the Philadelphia. The dinner a most elaborate affair, was served on a round table, handsomely decorated for the occasion. The magnificent silver service of the Philadelphia was also brought into requisition for the event. The party sat down at 6:30 and rose at 10, after enjoying an elegant repast, served as only officers of the navy know how to have it served.

On Saturday morning Captain Cotton entertained the same guests at a fashionable breakfast from 1 to 3:30, where a most enjoyable time was had, and an elegant breadfast with all the delicacies of the season served.

On Wednesday afternoon, by invitation of Admiral Beardslee, Senator and Mrs. Watson C. Squire, Mayor and Mrs. Mallette, and Mrs. Wilson, wife of State Senator Wilson, paid a visit to the Flagship Philadelphia. They were met by Admiral Beardslee and Captain Cotton who showed them over the magnificent cruiser, and explained the workings of the various machines of war. Senator Squire expressed himself as very much pleased with his visit, and promised to again visit the ship when she arrived at Seattle, in order to more thoroughly inspect this splendid specimen of marine architecture.

Wedding Anniversary.

The New York World.

The twice-a-week edition of the New York World has been converted into the Thrice-a-week. It furnishes three papers of six pages apiece, or eighteen pages every week at the old price of one dollar a year. This gives 156 papers a year for one dollar, and every paper has six pages eight columns wide or forty-eight columns in all. The Thrice-a-Week World is not only much larger than any weekly or semi-weekly newspaper, but it furnishes the news with much greater frequency and promptness. In fact it combines all the crisp, fresh qualities of a daily wite the attractive special features of a weekly. THE DEMOCRAT-LEADER and THE THRICE-A-WEEK WORLD will be mailed to any address for $1.75 a year.

BIG PROFITS ON SMALL INVESTMENTS

Returning prosperity will make many rich, but no where can they make so much within short time as by successful speculation in Grain, Provisions and Stocks.

$10.00 FOR EACH DOLLAR INVESTED can by made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well known fact that there are thousands of men in all parts of the United States, who by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to $50,000 to $100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in Chicago for our trading and success.

She's a beauty worth inspecting,
She's so fair,
But the fashion she's affecting
Makes men stare.
On the costume we're divided;
I have views that are decided
But my views I find derided
And despair.

All the cause of this division,
I may say,
Is what calls our men's dirision—
Bloomers gay.
Their division makes the trouble,
For it makes division double
And explodes the love God's bubble.
