CONSTRUCTING THE OPEN WATER

Way Which Will Transform the Prairie Into a Veritable Garden Spot—Will Irrigate 3000 Acres of Land—Articles of Incorporation Filed.

The Sequim Prairie Ditch Company has filed its arlicles of incorporation in Olympia.

The incorporators are Chas. Scherer, J. W. Grant, Thos. Miller, William Wright, C. P. Donell, J. E. Potter, R. J. Chard, D. R. Chapman, M. M. Chapman, Emma Melville and Thomas Jones.

The capitalization of the incorporation is $5000 divided into shares of $5 each.

The period of duration is fifty years.

The articles of incorporation provides for three trustees. The first trustees elected are: R. J. Chard, Thos. Miller, and C. P. Donell. The principal place of business is Sequim.

The object and purposes of the incorporation is to build, construct, maintain, operate and control ditches, pipes, flumes, dams, gates, and all necessary appliances for the conveyance of water in, through, upon and over land for irrigating purposes, and to own, control, lease, buy, handle and sell real estate upon which to operate its business.

The public spirit, energy and courage evidenced by the citizens of Sequim in beginning operations on this public improvement cannot be too highly commended.

When the fact is remembered that the undertaking will involve the construction of an open irregating ditch two miles in length, from the point at which the Dungeness river is tapped to the point on the prairie from which it will be distributed in radiating ditches to the consumer, and will irregate 3000 acres of land, the vast importance of the enterprise will very clearly manifest itself, and the imperative demand for its consummation becomes apparent.

The district which will be supplied with water from the irrigating ditch comprises what is commonly known as Sequim prairie, a comparatively level, open tract of land, the soil of which is of a gravel substence, which, with sufficient moisture produces good crops, but quickly yields to the ill-effects of drought and all vegetation perishes and burns up. With sufficient water at command to turn on the land during the dry season, this land would undoubtedly yield enormously, and become a veritable garden spot.

The progress of this public improvement will be watched with the deepest concern, as its ultimate success, of which there is little doubt, will be vastly beneficial, not only to those directly interested, but to the citizens of Port Angeles, whose substantial and permanent prosperity depends almost solely upon the developement of the agricultural resources of the county.

"WERE THEY MULTIPLIED

A Thousand Times They Would Not Equal"

THE SHORES OF PUGET SOUND,

Are the Words of Henry Stanley, the Great Explorer and Traveler, in Speaking of His Impressions of the Pacific Northwest.

Henry Stanley, the famous English explorer, was recently interviewed by a representative of the New York Journal as to his impressions during his extended American travels. A close obse ver, an extended traveler and an accomplished gentleman, his observations, more particularly of Puget Sound, will be read with keen interest at home and accorded the greatest consideration abroad, as few public men are better known than he and none have a more enviable record for accuracy and reliability. Mr. Stanley says:

"And now to your trip within our borders?"

"Apart from the commercial value of Puget Sound, within your borders, the charms of that magnificent, sheltered sea deserve notice. The yachts along the Highlands in western Scotland are really worth going several thousands of miles to see, and yet, what are the scenes of the Western Highlands compared with the shores of Puget Sound? You have something that were the Highlands multiplied a thousand times they would not equal. It is just the very strait for yachts. You can imagine all those Americans from Portland down to San Diego, who have made their summer paradise in Southern California sighing for the fresh breezes, calm seas and invigorating atmosphere of the Sound, and expending a little of their surplus in building yachts and sailing or steaming up to Puget Sound, and from Tacoma to Alaska, on that long sheltered course, for two months at least, of most delicious outing. There's nothing to compare with it on this side of the continent, or in any part of Europe. You find something like it in the fjords of Norway, but I think Puget Sound is superior to that. I foresee a great shipbuilding industry there. The immense pine forests suggest it, and there were actually three ships loading lumber there for South Africa, for the supports for the mines. That shows that South African progress is not only beneficial to the miners there, but to the Pacific shores all around."

Grand "Prune Tree" Ball.

The Horticultural Society of Clallam County has announced a grand ball for December 6th, at the opera house. The purpose is to raise enough money to pay off the indebtedness incurred during the past year. The Society has done a great deal for the farmers and fruit-growers of the county and everyone should be willing to help it out of the hole it finds itself in at the end of the year. The price for tickets is 50 cents for gentlemen, no charge being made for ladies. Let everybody lend a helping hand in this good cause and have a good time while doing it.

Pay Your Taxes.

If the county taxes for the year 1892 are not paid on or before Nov. 30, next there will be added to the amount due in penalty and interest, 7 5-6 per cent.

If the 1893 taxes are not paid on or before Nov. 30, next, 5 5 6 per cent will be added to the amount due.

All who have made half payments on their 1892-3 taxes must pay the balance on or before Nov. 30. next, or penalty and interest will be charged from June 1, 1895.

If personal taxes are not paid on or before Dec. 1, next, the county treasurer will be compelled to proceed to collect the same by distraint of the property or be liable for the amount on his bond.

A PIANO FOR $40!!!

Chicago's most prominent music house, Lyon & Healy, have a number of slightly used and second hand pianos, taken in trade, used in concerts, and in fact not brand-new instruments, which they have determined to sacrifice rather than to try to make room for. These instruments comprise square pianos at $40, $65, $90, $100 and $125. Upright pianos at $125, $140, $150, $165, $190, $200, $225 $240 and upward. Grand pianos $200, $250, $300 and upward. Nearly all originally sold for from two to four times their present price. Almost all prominent makes, (in squares and uprights) are represented, including among numerous others, Chickerings, Knabe, Steinway, Weber, Decker, Steck, Fischer, etc. This is an opportunity that will not occur again, as Lyon & Healy never had so many pianos of this class before. Immediate attention is necessary. A good plan would be to order a piano, leaving the selection to Lyon & Healy. However, they will send a list and full particulars upon application. Any piano not proving satisfactory may be returned at their expense. Address at their new salesrooms, corner Wabash Avenue and Adams Street, Chicago. Distance is no obstacle in taking advantage of this remarkable chance to obtain a piano, for, in proportion to the saving to be made, the freight charges are insignificant. If you do not already know them be reputation, any banker will assure you of Lyon & Healy's entire responsibility and record of over a third of a century for honorable dealing. Write to-day so as to avoid disappointment.

THE SALARY ORDINANCE

Has Been Passed By the City Council.

IT GREATLY REDUCES SALARIES

Of Officials for the Incoming Year—The Telephone Ordinance Indefinitely Laid on the Table—The Marriage of a Popular Young Couple.

At the regular meeting of the city council last Wednesday evening, Mayor Mallette and councilmen Doty, Graybill, Munroe and Filion were present.

Councilman Munro was authorized to see to the repairing of the sewer leading from the city jail.

Ordinance, No. 236, fixing the salaries city officials will receive as compensation for their services during the incoming year was read to its final passage. It provides that the clerk shall receive an annual salary of $350, the city engineer $2.50 per day for actual time employed, street commissioner $1.50 per day, city treasurer $300, health officer $30 per annum, city attorney $25 per annum.

Ordinance, No. 234, granting franchise privileges to Jas. H. Young to construct and maintain a telephone system within the city of Port Angeles was indefinitely laid on the table.

Dr. W. W. McGeorge was appointed health officer during the unexpired portion of the present municipal year. The council adjourned.

Impressed with the Country.

F. K. Miller, manager and local editor of the semi-weekly Herald, Clarinda, Iowa, is in the city, having left his home about two weeks ago on a pleasure trip to the Pacific Northwest. This is Mr. Miller's first visit to the Northwest, although his excellent journal has published in the past many able descriptive articles of this grand state and of Port Angeles in particular. Of Port Angeles the gentleman was most favorably impressed before his visit here, as some of his fellow citizens, it will be remembered, visited the city last summer, and returning home they expressed themselves as thoroughly satisfied that Port Angeles had a bright future before it, and his visit here he frankly confesses, has more fully confirmed the good impression of the place which he had gathered from others. In fact the country surrounding Port Angeles is far richer in varied natural resources than he had anticipated, and its future cannot be other than bright and promising.

Mr. Miller will remain here until the early part of next week before returning home.

NEWS OF THE COUNTY.

Gleanings From the Press of Western Clallam.

East Clallam Record.

There is a noticeable increase in the number of travelers passing through town lately, which indicates more than usual activity in the west end of the county.

B. F. Shaw, the logger, returned from Seattle Wednesday accompanied by several men employed to work at the camp on the Sekiou.

Inspector Sheldon's survey party came in from the woods Tuesday and will leave in a few days for Port Crescent to inspect a surveyed township in that locality. The inspector has finished 31-13.

The rivers have been flooded considerly by the late rains, and two rafts of logs will be taken out of the Sekiou in a day or two. One raft is to come to East Clallam and the other will be towed upsound for Scott & Shaw.

The best of the salmon run is over for this season. The steel head salmon are expected next. The Indians are well supplied with salmon, whale meat and smelt, a few vegetables and plenty of potatoes.

The dry season has at last been broken The long delayed rain has at last reached us, and we are now enjoying one of our old time rains. However there is no reason to complain, for we have experienced an exceptionally pretty fall. We have had no rain to speak of since the 1st of last April, and but few have yet closed down for the winter.

The New York World.

The twice-a-week edition of the New York World has been converted into the Thrice-a-week. It furnishes three papers of six pages apiece, or eighteen pages every week at the old price of one dollar a year. This gives 156 papers a year for one dollar, and every paper has six pages eight columns wide or forty-eight columns in all. The Thrice-a-Week World is not only much larger than any weekly or semi-weekly newspaper, but it furnishes the news with much greater frequency and promptness. In fact it combines all the crisp, fresh qualities of a daily wite the attractive special features of a weekly. THE DEMOCRAT-LEADER and THE THRICE-A-WEEK WORLD will be mailed to any address for $2.00 a year.

Deafness Cannot be Cured

by ocal applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

UNITED STATES SENATOR WATSON C. SQUIRE purposes to demonstrate to the perfect satisfaction of his constituents, his positive usefulness during the months intervening until the day approacheth when his successor will be chosen, that, in the event a Republican legislature is elected, it will have no reason to discredit his claims and turn to those untried and unskilled as parliamentiarians. In the meantime an invisible hand appears to be positively shaping the Hon. John H. Mc Graw's political future for the gubernatorial candidacy. And it is by no means uncertain that Watson C.'s friends are quietly but effectively aiding the fulfillment of John H.'s undoubted political destiny. If you doubt Washington's senior U. S. Senator is an accomplished, artful politician, you labor under a serious misconception of the distinguished gentleman's ability in that direction.

THE Republican national leaders appear to be trifling with several cities which are active candidates as the place of meeting for the next Republican National Convention, as some of these crafty leaders have already engaged rooms at the leading hotels in a number of cities "for the national convention week." These leaders must be grossly ignorant of each other's plans, or they are playing false with the hopes of these rival candidates for the exalted honor, as the National Republican Committee, the duty of of which it is to designate the city in which the convention will will be held, has not yet met for the purpose. In playing upon the cupidity and the trustfulness of the general public the crafty Republican leader has lost none of the refinement of his cunning during the years of his enforced retirement.

THROUGH the public spirited effort of a number of prominent citizens a farmers' institute was held in this city last September. The vast amount of good accomplished through the labors of the institute is well-known to all. Quite an expense was incurred in holding the institute, a considerable amount of which has not been liquidated. It is for the purpose of discharging this obligation that a public ball will be given in the opera house, Friday evening, Dec. 6th. As the object in the accomplishment of which the indebtedness was incurred, was a most worthy one, citizens should attest their appreciation of these valuable public services by buying a ticket, even should it be inconvenient for them to attend.

A PERVERTED Republican journal says:

"That Indianapolis election appears to be traveling in a class by itself."

Distinctively so. The city had suffered to the point where forbearance ceases to be a virtue from Republican misrule and prodigality, and citizens, to save the municipality from ruin and disaster, were forced to overthrow the Republican party. This is why Indianapolis appealed to the Democracy to rescue it from the impending doom, and is, as the journal referred to, aptly says, "traveling in a class by itself."

THE city council passed a salary ordinance which greatly reduces the salary schedule for the incoming year. If the same measure of economy is inaugurated in the other departments of the municipal government, which has been enforced in the salary schedule, another decisive step will have been taken in the direction of practical retrenchment, and the day when Port Angeles will have liquidated her indebtedness will not then appear so far removed.

IF you are interested in nominating trustworthy and competent men to administer the affairs of the municipality next year, you will attend the mass convention in the opera house next Tuesday evening.

Farm and Garden.

Cultivation of young trees should not be continued at this time of the year; let the growth of trees and vines become hardy and woody, and more able to withstand the vicissitudes of winter.

The objection to seeding down an orchard to grass is that it takes from the soil the moisture needed by the trees, and when allowed to grow close to the trees seems to choke them. Clover does not have this effect, nor does it usually make a rank growth under the trees. It rather tends to retain moisture by its shade.

Farmers are disposed to defer until spring much of the work that could be done before that season arrives. On the opening of the warmer weather all the work must be hurried and a dozen jobs seem to be ready for the farmer to perform at the same time, which delays planting to a later period than should be the case.

The beet root is more easily injured by frost than any other. It should always be harvested before freezing weather. Nearly all varieties of beets grow well out of the ground, and it they are harvested before freezing weather their leaves will make a good deal of valuable fodder, that must, however, be used quickly, as when put in piles it is so full of sap that it quickly rots.

Drainage is beneficial to most land to draw off water from the lower soil and admit the air, which increases the fertility. Such soil in always in better condition, early or late, for plowing and for plant growth. A good, long tile running toward the barn can be tapped for a tank for stock water, often, and give a clear, cool running stream all summer, even when the fields are dry and dusty.

It should always be understood by those who purchase improved stock of any kind that it will need a continuation of the extra care and feeding which has brought it to its present condition. Blood tells, but it is only when given good feed and care that it will fulfill expectations. Even the half-bred stock will not shift for themselves, as the hardy native stock have learned to do. There should always be sufficient food to keep the animal thrifty. It need not be, and, with stock designed for breeding, should not be, designed for fattening. But a thrifty-growing animal will always be in condition for killing if an accident, such as breaking a leg, makes killing a necessity.

DUNGENESS ITEMS

The 2nd monthly re-union of the Epworth League of this place, was held Friday evening, November 15th, at the home of Mr. and Mrs. Roberson. The great crowd which attended gave evidence of the undiminished interest taken in these re-unions. Almost everybody of any note being present. The resources of the host and hostess were taxed to the utmost to make room for the merry crowd who had captured their home, but the universal verdict was that they had done nobly. Everything went with a swing and everybody enjoyed themselves — and — the refreshments! During the evening an excellent program was rendered consisting of songs, recitations, charades and shadow pictures, the latter being enthusiastically received. From the very graphic manner in which Bro. Dyke rendered the man sick with toothache, it was evident "he'd been there before," but it is doubtful if he ever lost such a tooth. The whole program was excellent, and rendered in a manner that evidenced considerable work of preparation. A hearty vote of thanks was tendered Mr. and Mrs. Roberson and daughter, Miss Mabel, for their kindly hospitality, and everybody went home on good terms with themselves and all the world, wishing only for the next re-union to come round.

The personage nears completion. Mr. John Stockand, of Port Townsend, finished the plastering Monday, and nothing remains but the finishing touches.

The pastor and people of Dungeness ought to be proud of the cottage, as it is without exception the most tasty building in the community.

Already arrangements are under way for a Christmas celebration, and it promises to be of exceptional interest, not only to the children but to the grown folks. Santa Claus is coming sure.

Mr. Fleming, of Sequim prairie, lost his wife last Friday, Nov. 15, by acute pneumonia. Requiescat in pace.

The ladies of the M. E. church are making strenuous efforts to hold their annual bazaar about Dec. 10. They have been busily engaged for some weeks past and their arrangements are nearly completed.

The annual Thanksgiving dinner given by the Ladies' Aid Society, of Dungeness will be held Tuesday, Nov. 26, instead of Thursday. This is done that family reunions may not be interferred with. An elaborate repast has been provided and all signs point to a real old-fashioned Thanksgiving dinner.

DICTIONARY OF U. S. HISTORY.

United States History, less of a mystery
Now to the masses than ever before,
We have a great want supplied, all facts we've simplified,
And to all knowledge we've opened the door.

So simple the chronicle, gaze through a monocle,
But one eye's needed to gather the fact,
Our volume a peer is, and all that we hear is
The sounds of applause for our genius and tact.

All facts alphabetical, 'tis less enigmatical,
We acknowledge it came with the cleverest thought.
The best book of reference, we say it with deference,
No other book like it has ever been bought

The man who compiled it, who wrote out, and styled it,
In Historic Research has reached the extreme:
A professor of colleges, you'll agree that his knowledge is
By the great masses considered supreme.

We want men to sell it: no one can repel it;
At homes, schools and colleges sales can be made.
Just write for instructions, our small introductions,
There's more money in it than ever you have made.

AGENTS can make more sales with less talk and less walking with this book than with anything else they ever sold. It appeals to everybody. It is handsome, entertaining and useful. It is good for every member of the family—useful alike to schoolboy and grandpa. Write for circulars and terms to

INFLUENZA,

Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is Ayer's Cherry Pectoral.

"Last Spring, I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete. It is truly a wonderful medicine."—W. H. WILLIAMS, Crook City, S. D.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Interferences, Make Special Examinations, Prosecute Rejected Cases, Register Trade-Marks and Copyrights, Render Opinions as to Scope and Validity of Patents, Prosecute and Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

Jno. Dyke, the son of Mr. and Mrs. Jno. Dyke of this city, who, it will be remembered, sailed on the ship Jno. A. Briggs some months ago for a voyage to Liverpool, safely arrived at the port of destination, where the vessel discharged her cargo of lumber, and loaded a cargo of salt for Baltimore, at which port she recently arrived after an unusually rough voyage of 26 days. The somewhat severe experience undergone by young Dyke, has, by no means, subdued his intense ardor for a seafaring life. In fact, if that could be possible, he is more infatuated with the sea than ever, and refers, in his letter to his parents, with much gratification to his advancement during his brief seafaring career, which suggests that the captain recognizes that the young man possesses ability and worth. The Briggs will probably sail for San Francisco with a miscellaneous cargo, thence north for a cargo of lumber, arriving here early next year.

BIG PROFITS ON SMALL INVESTMENTS

Returning prosperity will make many rich, but no where can they make so much within short time as by successful Speculation in Grain, Provisions and Stocks.

$10.00 FOR EACH DOLLAR INVESTED can by made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States, who by systematic trading through Chicago brokers, make huge amounts every year, ranging from a few thousand dollars for the man who invest a hundred or two hundred dollars up to $10,000 to $100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard our standing and success.

If we had all the dust that lies,
On all the family Bibles, we
Would press it into bricks and build
An island in the Silent Sea.

And we would people it with groans,
With sobs and sighs and vain regrets;
With tears that fall from orphaned eyes,
With everything that grief begets.

For all man's woes and crosses, we
Would search the world on every hand,
And bear them in a shadow ship
Unto the Isle of No Man's Land.

The God should give benignant down
Upon the sorrow-laden isle,
When every grief should change to joy,
And every tear become a smile.
