VOL. 7. NO. 19. PORT ANGELES, CLALLAM COUNTY, WASHINGTON, FRIDAY, SEPTEMBER 11, 1896. PRICE FIVE CENTS

JAMES HAMILTON LEWIS

Advocates the People's Cause in Clallam County.

THE CAMPAIGN IS DULY OPENED.

Colonel Lewis Makes Two Speeches in Clallam—At Dungeness and at Port Angeles—His Arguments Capture All and Are Enthusiastically Received—Outlook Very Bright.

The campaign on behalf of the Ellensburg ticket was opened in Clallam county on Friday last. Hon. James Hamilton Lewis, nominee of the united silver forces for congress, arrived at Dungeness Friday, where he addressed the largest political meeting ever had in Eastern Clallam county, at one o'clock. He spoke for over one hour, and handled the issues of the campaign in a manner that could not fail to open the eyes of the people. The reception accorded him was enthusiastic.

The East End of Clallam county will give the national and state silver ticket a large majority.

Standing room was at a discount in the opera house long before the time set for the commencement of the Port Angeles meeting Friday evening.

James Hamilton Lewis was introduced at half past eight to probably the largest political meeting that ever assembled in Port Angeles. The reception that was given him was a warm one and one that speaks much for the outlook for the Ellensburg ticket in Port Angeles.

Colonel Lewis handled the issues of the campaign in a masterly manner. One by one he took up and [illegible] vanced by the gold bugs [illegible] He effectually disposed of the "50 cent dollar" argument and ridiculed the idea expressed that gold would be driven out of the country should we adopt free silver. Except at times there was no attempt at oratory, yet the speech was a master oration. The cause of silver was shown to be the people's cause, and for two and a half hours Colonel Lewis, in his splendid argumentative style, urged upon the people the necessity of their supporting their own best interest. Conviction could not fail to follow his arguments and as he proceeded it was clear that the impression made was indelible. He held the utmost attention of the audience and his witty illustrations were warmly cheered.

Colonel Lewis expressed his keen regret at the unavoidable absence of Robert Bridges, who was advertised to be with him, and paid the gallant Populist a high tribute. The response was such that it proved that Robert Bridges, "the John Bright of the state of Washington," is not unknown or unhonored by the people of Port Angeles.

The splendid argument and beautiful speech delivered by Colonel James Hamilton Lewis at Port Angeles on Friday night strengthened the cause of the people in this county very materially.

A Chance to Make Money.

I have berries, grapes and peaches, a year old, fresh as when picked. I use the California Cold Process, do not heat or seal the fruit, just put it up cold, keeps perfectly fresh and costs almost nothing; can put up a bushel in ten minutes. Last week I sold directions to over 120 families; anyone will pay a dollar for directions when they see the beautiful samples of fruit. As there are many people poor like myself, I consider it my duty to give my experience to such, and feel confident anyone can make one or two hundred dollars round home in a few days. I will mail sample of fruit and complete directions to any of your readers for eighteen two-cent stamps, which is only the actual cost of the samples, postage, etc., to me.

The Barrier to Immigration.

A correspondent has directed our attention to an article in the Port Angeles DEMOCRAT-LEADER of June 12, wherein the slowness of the immigration movement westward is dealt with. The principal feature of the article is a letter from President Coolican of the Clallam County Immigration Association, originally printed in the St. Paul Globe. In the letter Col. Coolican discusses what he regards as the chief obstacle to the settlement of this state by a desirable class of immigrants and places the whole responsibility upon the railways. Among other things Colonel Coolican said:

"I have a colony now formed in Pennsylvania of 500 families (over 2000 persons) who are ready to move to Port Angeles, Wash., but refuse to pay the exorbitant rates for passage and freight and will probably go south.

"It seems passing strange that one can travel from almost any port in Europe to New York on a palatial steamer with all necessary accommodation, food etc., a journey of, say, seven days, for $2 or about $3.50 per day, when from New York to St. Paul he has to pay $15 per day for the privilege of sitting in a car, all other accommodations extra—and from St. Paul to the Pacific coast, a journey of less than four days, he is c[illegible] to pay $40 for a second cl[illegible] for a tourist berth and say [illegible] total $48, exceeding $12 per [illegible]

He made the following [illegible]

"If the railroads would [illegible] semi-monthly immigrant t[illegible] one-half the present rate [illegible] freight and passengers, I ca[illegible] (from what I know of the n[illegible] ing to come West) that at [illegible] computation 100,000 famil[illegible] moved during the next six mo[illegible] means 1,000,000 people, which seems a large number, and surely Minnesota, North and South Dakota, Montana, Idaho, Oregon and Washington [illegible] the money and means at thei[illegible] can do the balance. Canno[illegible] be done to induce the rai[illegible] us?"

Col. Coolican speaks [illegible] an extensive experienc[illegible] his fingers on the pulse o[illegible] movement of population [illegible] years and what he has to say [illegible] of great consideration. His sugg[illegible] in regard to cheap occasional immigrant trains ought to be taken up by the State Immigration Association and the utmost efforts of all chambers of commerce and other representative bodies and of the press should be put forward to secure action by the railway companies along the lines suggested. The state needs immigration. It needs people to come here and till the soil. It needs the homeseekers who are to be found in all parts of the Union. So much is to be said in favor of the line of action suggested by Col. Coolican that we feel certain success would crown any effort to carry it into effect.—Seattle Times.

From all accounts Chamberlain's Cough Remedy is a Godsend to the afflicted. There is no advertisement about this; we feel just like saying it.—The Democrat, Carrollton, Ky. For sale by J. C. Hansen, Druggist.

The best cough cure made at Keller's only 25 cents a bottle.

Another Smart Woman.

My husband is poor but proud and he does not want me to work, as I have nothing to do get restless, and after reading in your paper Mrs. Russell's experience selling self-heating flatirons I concluded I would try it. I wrote to J. F. Casey & Co., St. Louis, Mo., and they treated me so nicely that I felt very much encouraged. As soon as I got my sample iron I started out, and sold 8 irons the first day clearing $12. I have not sold less than 8 any day since, and one day sold 17. I now have $226 clear money, and my husband does not know I been working at all, but I am afraid he will be mad when I tell him. Have I done right or should I quit work and leave him to struggle alone.

AN ANXIOUS WIFE.

You are doing just right, your husband should be proud of you, go ahead and show the world what an energetic woman can do. That self-heating iron must be a wonderful seller, as we hear of so many that are succeeding selling it. 2

OFFICERS' RECEPTION.

The Citizens of Port Angeles Fittingly Entertain.

UNDER AUSPICES OF OLYMPIC CLUB.

An Elaborate Affair That Was a Credit to Those Who Had the Affair in Charge—Many Distinguished Guests Present—The Council Elects Richard Fowler Councilman-at-Large.

The opera house, on Wednesday evening, was the scene of a most elaborate reception. It was tendered by the people of Port Angeles, under the auspices of the Olympic Club, to the officers of the warships and their wives.

The officers made a fine picture in their showy uniforms and the ladies added much to the beauty of the scene with their handsome dresses.

The band from the flagship Philadelphia furnished the music. A bountiful lunch was served during the evening.

The gallery of the opera house was very tastefully fitted up as a reception room, and the old council room, where the lunch was served was decorated with flags and flowers.

The commissioner was instructed to complete sidewalk in front of Haynes' lot across Front street, and also repair the walk to First street.

The council then adjourned to meet next Wednesday night.

Make the Most of Yourself.

It is the duty of every man to make the most of himself. Whatever his capacities may be, he is sure to find some place where he can be useful to himself and to others. But he cannot reach his highest usefulness without pure blood. The blood circulates to every organ and tissue and when it is pure, rich and healthy it carries health to the entire system, but if it is impure it scatters disease wherever it flows. Hood's Sarsaparila is the one true blood purifier. It cures salt rheum, scrofula, catarrh, dyspepsia and rheumatism because these diseases have their origin in the blood.

ARTISTIC SUCCESS.

The Remenyi Concert Scores a Great Hit and is Heartily Applauded.

The great Remenyi has come and gone, but the echoes of his grand music will make our souls tremulous with emotion for many a day to come. Yea, we can never forget it.

The grand old man played as one inspired. He quickly discerned that he had an appreciative audience and he threw his whole soul into the music and his hearers reciprocated with every evidence of delight and ready valuation of the work of the master. It is easy to understand why his music is so infectious. The artistic soul of the man speaks in every tone of the violin, it beams forth in his features and every movement of his body; it prevades the air about him and nestles down into the hearts of those about him until all sense of earthly surroundings are lost in the wonderful strains of heavenly music.

The concert called out an audience that filled the opera house.

Miss Gertrude Baker and Miss Pauline Stein both acquitted themselves very creditably, although the latter was suffering from a severe cold and could not do herself full justice.

On Tuesday last the blue jackets were put through battalion drill. About 400 men participated, mostly from the Philadelphia. The drill was witnessed by a large number of spectators. Lieut. Ingersoll was at the head of the column. It was a fine exhibition and reflected credit on officers and men.

The O. K. Grocery still leads in low prices. Everything new and clean.

A Chance to Make Money.

I read how one of your subscribers made money selling Dishwashers; I ordered one, and my lady friends were charmed, as they hate dish washing. My brother and I commenced selling them, and have made $1,700 after paying all expenses. We don't canvass any. Our sales are all made at home. People come or send for them. The Mound City Dish Washer is the best dishwasher on the market. Our business is increasing, and we are going to keep right on, until we make ten thousand dollars. We sell from 5 to 15 machines every day, some days more. The Dishwasher is lovely, every housekeeper wants one. There is no excuse to be poor when so much money can be made selling Dishwashers. For full particulars, address The Mound City Dish Washer Co., St. Louis, Mo. They will start you on the road to success. 2

SCHOOL ELECTION.

To Determine Whether This School District Shall go Further Into Debt.

The board of directors have called a special election in this district for September 14th, for the purpose of submitting to the voters the question of authorizing the district to incur indebtedness to the amount of five per cent. of taxable property. Polls will be open from 1 until 8 p. m. Under the law schools will have to open in the district for six months in order to draw state money. The district is now over its limit and no schools can be legally held unless authorized by voters and the directors have concluded to close them unless the voters authorize the indebtedness. If the result is in favor of the district becoming indebted it is believed that warrants will be worth nearly their face. Now they are worthless.

The L. S. L. E. Concert.

The concert given by the Ladies' Society of Literary Explorers on the 3rd inst., proved what might properly be called a grand success. The opera house was well filled and the audience enthusiastic in its reception of those who participated in the program.

Mrs. G. A. C. Rochester easily sustained her reputation as the leading soprano in the state. Her voice possessed the dual qualities of being both powerful and sweet. Her reception by her auditors could not but be gratifying to her.

Mrs. John L. Buckner was received scarcely less enthusiastically than was her sister. Like Mrs. Rochester, Mrs. Buckner possesses a well trained, strong and sweet voice. The duetts of these sisters proved a treat.

Mrs. Hesler's songs were a feature of the evening's entertainment. Her voice was an unusually sweet one and her selections were [illegible]ted to it.

The violin se[illegible] Miss Esther Kahle were excellent and her execution splendid. For an encore, Miss Kahle both surprised and delighted the audience with her phenominal whistling.

Altogether, the concert was one of which its promoters had every reason to be proud.

In a recent letter to the manufacturers W. F. Benjamin, editor of the Spectator, Rushford, N. Y., says: "It may be a pleasure to you to know the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold here, stating if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of colds and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the the side chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almyst a quarter of a century. The people have learned that they are articles of great worth and merit, and unequaled by any other. They are for sale by J. C. Hansen, Druggist.

LET US BE PATRIOTS.

Under present conditions in this country a national political victory depends much upon National organization. National organization, in turn, depends upon local unity. So long as local affairs are conducted on political lines and officers selected from local tickets put in the field by National political parties that long will this be the case and whether or not this is the proper condition, it is useless to discuss at this time, for all will admit that it must obtain for the present campaign at least.

How does this apply to the people of Clallam county? Nearly if n[illegible] qui[illegible] of the people of Cla[illegible] county are advocates of the cause of free silver coinage. They believe that the present gold standard with its appreciating unit of value is detrimental io the interests of the producing masses. They understand that our present financial policy puts them at the mercy of the money changer—if that term be permitted—but of mercy they have found none. Believing thus, and realizing that the opportunity that rarely offers itself is now at hand with its remedy, the duty of every citizen is made plain. The election of William J. Bryan as the chief executive of this nation on the platform of principles upon which he stands is a desideratum for which everything else should be put aside. To make this certain, every citizen should do his part. It is not an excuse for shirking this duty to say that Clallam county is only a small portion of one of the small states. Elections have been won and lost before now by a few votes. It is not enough to say that Bryan will carry this state anyhow no matter what is done in this county. The people of this county owe it to themselves and to their country to act the part of patriots. No petty jealousies, no spite, no personal ambition should be allowed to keep them from performing their full, patriotic duty as citizens of this nation and of this commonwealth.

Since the election of the president depends so much on local organizations, it is without question the duty of all to sink small things and do all they can for the promotion of the greater issue.

Therefore, let us, Democrats, Populists, free silver Republicans, all who desire the election of Bryan and the Ellensburg ticket unite our forces by the nomination and support of a common county ticket. Let us put up a front before which the forces of gold and error shall be helpless. Let us do our part in the struggle for liberty. Let us be patriots.

THE ARKANSAS ELECTION.

The Democrats have carried Arkansas by a majority ranging from 60,000 to 70,000. The vote was the largest ever cast in the state and the Democratic majority greater by 30,000 than any ever given by that state. This is a fair showing of what the South and West will do on election day. It is far more potent in the lesson conveyed than was the unusually large Republican majority in Vermont for several reasons. The free silver forces look to the West and South and not to New England to furnish the electoral votes that will make William J. Bryan president. Vermont is a gold monopoly ridden state into which the campaign of education has not been carried.

Then, above all, the Democratic ticket in Vermont was not representative of Democracy. The platform upon which it was run declared for gold and the nominees were gold men. They were not the kind of men nor representative of the principles which Democracy is upholding. Their defeat was not a Democratic defeat.

On the other hand, in Arkansas, the issue was clearly drawn. The Democrats were for silver and the Republicans for gold. Powell Clayton, of the Republican national campaign committee, lives in Arkansas and he conducted a vigorous campaign for the Republican platform and candidates. He had made many statements which had led the Republicans to hope for a reduced Democratic majority.

Thus far the early elections point unerroringly to a victory for Bryan and the people in November.

AN ADMISSION.

Sometimes a beam of lights finds its way to an Eastern goldbug paper. The following admission of the Brooklyn Eagle will atone for much of its goldbug editorial stuff, as the force of the admission is as much greater than that of its gold arguments as the force of truth is greater than that of error.

The Eagle says:

"If all the energies of the East are expended in denunciation not a single advocate of the free coinage of silver will be converted. The conditions of the Western farmers are unsatisfactory to them. Many of them believe that they will find relief in free coinage. But the men who bought farms and gave mortgages on them have seen the purchasing power of a dollar increase from year to year, while the size of their mortgage has remained the same. Without doubt there are thousands of farms in the West and the South that are mortgaged for more than they would bring today. While a dollar will now go twice or three times as far in buying a mowing machine, it will go not more than half as far in paying the principal or interest of the mortgage as it would twenty-five years ago."

IF the Democrats have lost their identity in this state as the P.-I. alleges, will that paper explain how they can regain it by supporting the Republican ticket?

THE New York World predicts that New York state will go for Bryan.

DEMOCRATS must not forget that William Jennings Bryan is the Democratic nominee for president, that John R. Rogers has received the endorsement of the regular Democratic convention in this state and is, therefore, their nominee for governor. What is true with Mr. Roger's candidacy applies with equal force to the balance of the ticket nominated at Ellensburg. If Democrats desire to stand by the old organization, they will manifest it by supporting the fusion national and state tickets.

A CHANGE has come over the Republicans in one short month. Last month they were so afraid that the Populists would sacrifice their principles by fusing with the Democrats that their lamentation knew no bounds. They are now greatly worried because the Democrats have lost their identity.

THE majority for Bryan and the Ellensburg ticket in Clallam county will be two to one anyhow if present appearances count for anything. Good work for the next 60 days will make it larger.

HE ANSWERED NOT.

The advocates of gold maintain that what we need to bring about prosperity is not more money but better credit. To these we dedicate the following from the Spokane Chronicle:

"It was left for one of Spokane county's professional farme[illegible] ragged old wretch who wore whiskers and ha[illegible] his tattered coat—to to a learned and in[illegible] standard argument—[illegible] 'Say, mister, do you [illegible] that this country ca[illegible] out of debt?' "

County Convention.

Democratic primaries will b[illegible] throughout the county on Saturd[illegible] in the wards of the city [illegible] ning. The convention will meet on Tuesday in this city. The Populists and Free Silver Republicans will meet here on Tuesday also. The principal [illegible] tion will be whether or not fusio[illegible] be affected. The impression [illegible] obtain that fusion will prevail

CALL FOR PRIMA.

The Republican Free Coinage [illegible] the State of Washington.

A county convention of the Free [illegible] age Republicans of Clallam county w[illegible] be held in the city of Port Angeles, on Tuesday, September 15th, 1896, at the hour of 10 o'clock a. m., for the purpose of taking such action as, in the judgment of the delegates then and there assembled, shall seem best in the matter of nominating a county ticket.

The county central committee has alloted a representation of two, (2) delegates at large to each precinct, and it is hereby recommended that primary meetings be held in all of the precincts of the county on or about Saturday, September 12th, at such hours and places as may be determined upon by the precinct committeeman and those interested in the cause.

It is further recommended that such delegates as are elected and unable to attend the convention send their proxies to the committee in order that their precinct may not go unrepresented.

A. A. SMITH,
Chairman County Central Committee.
Attest: J. E. BEAM, Secretary.

Money! Make it Yourself.

I have never seen anything in the papers about the People's Wind Mill; we call it the "People's" because the inventor never patented it, but let everybody use it free. Any farmer can make a mill himself, and all the material complete will not cost over $10. It is a splendid mill, will pump the deepest wells, and will last longer than any mill I ever had. Any person can get diagrams and complete directions free, as I did, by sending 18 two-cent stamps to pay postage, etc., to E. D. Wilson & Co., Allegheny, Pa., Wilson & Co., sell pumps, and when you get your wind mill going would be glad to sell you a pump if you need it. It is certainly useless to pay $50 or $60 for a wind mill, when you can make one just as good for $10. I think there could be big money made putting these mills up through the country as everybody would like them.

Monterey at Esquimalt.

Shortly before noon today (Thursday) the U. S. warship Monterey announced her arrival at the entrance to Esquimalt harbor by a salute of 21 guns to the British flag. The guns of H. M. S. Imperieuse boomed out a reply, and the American fired a salute of thirteen guns for the British Admiral. This was also replied to. The Monterey has, with a number of other American vessels, been spending some time at Port Angeles, and as is usual in such cases, came over to spend a few days at the headquarters of H. M. navy. She will remain at Esquimalt until Saturday.—Victoria Times.

The New Hook Spoon Free to All.

I read in the Christian Standard that Miss A. M. Fritz, Station A., St. Louis, Mo., would give an elegant plated hook spoon to anyone sending her ten 2-cent stamps. I sent for one and found it so useful that I showed it to my friends, and made $13.00 in two hours, taking orders for the spoon. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in the place by a hook on the back. The spoon is something that housekeepers have needed ever since spoons were first invented. Anyone can get a sample spoon by sending ten 2-cent stamps to Miss Fritz. This is a splendid way to make money around home.

18-31 Very truly, JEANNETTE S.

A Reception.

Mrs. C. E. Mallette, Mrs. S. P. Carusi and Mrs. H. E. Lutz joined in entertaining the wives of the officers of the warships at luncheon Wednesday afternoon, at the home of Mrs. Mallette.

There were present Mrs. Beardslee, Mrs. Roper, Mrs. Winterhalter, Mrs. Coontz, Mrs. Hesler, Mrs. Fullenwider, Mrs. Miller, Mrs. Carusi, Mrs. Lutz, Mrs. J. D. White, of Chicago, Miss Bryant, of Washington City, and Miss Lutz.

Cross Reception.

The white ships of the Pacific Squadron have not been allowed to have a monopoly of target practice. They may make plenty of noise, but for efficiency there are other people who dispute their supremacy. Mrs. Cross, on Saturda afternoon called together a merry crow who believe they are just as goo shooters as Admiral Beardslee's gunners. They had target practice in the regular style.

The guns used were not "Big Betseys" by any means, but the scores were as good as any "Betsey" could make. Mrs. Beardslee grew very enthusiastic over her success at practice and earnestly af firms that she is going to giv admiral some valuable pointers.

She cheerfully concedes thi some little about catching t Crescent, but that he must her when it is a questio bull's eye.

Everyone present took practice. It called out funny incidents and laughab tions. Considering that they were raw recruits there were some excelle scores made. A rubber vacuum pist was used.

A pleasant feature of the afternoo was the presence of Remenyi, who is countryman of Mr. and Mrs. Cross well acquainted with many of country friends of the Crosses a source of great pleasure recall old familiar scenes Mrs. Cross had offered made by her deft finger very odd and quaint and prized by the winners as s the occasion.

After the shooting came tea wit and home-made chocolate cream Those present were:

Lieut. and Mrs. Wadhams, Lieut. and Mrs. Peacock, Lieut. and Mrs Coontz, Dr. and Mrs. Hesler, Mrs. Beardslee, Mrs. Roper, Mrs. Perkins, Mrs. Blake, Mrs. Fullenwider, Mrs. Mallette, Mrs. Herrick, Mrs. Jenson, Mrs. Cross, Misses Fuller, Beazley, Carrigan, Powers. Mr. Edouard Remenyi, Lieut. Phelps, Mr. Cotton, Jr., Capt. Bradley, Mr. Simmer.

LET THEM DENY THIS!

[From the London Tablet of July 11, 1896, 19 Henrietta street, London, W. C.]

It is urged in many quarters and on both sides of the Atlantic that to open the American mints to the free coinage of silver, at the ratio of 16 in weight of silver to 1 in weight of gold and to enact that every dollar, whether of gold or silver, should have the same debt-paying power, except where the debtor has specifically contracted otherwise, would be an act of bad faith toward all creditors. The accusation is well put by an American writer in the current number of the Fortnightly, who, however, believes that the day of the silver agitation is done. He credits a western banker with the following illustration of what he regards as the equities of the situation: "One of our leading grain shippers called at the bank to talk free silver and negotiate a new loan. 'If I bought from you, for delivery in May, 10,000 bushels of No. 2 hard wheat, and before May came around your corn exchange passed a rule allowing members to deliver 'rejected' wheat on that contract, would you do so?' 'Certainly not,' he replied. 'Why?' You bought a certain kind of wheat—wheat fit for certain purpose.' 'True,' he quickly answered, 'but in the markets of the world, beyond control of our rules, you would have something you could not put in the place of your No. 2 wheat—the wheat you bought and paid for.' 'Now,' I continued, 'yesterday you paid off $20,000; that money came originally from England. It was converted into current funds without loss; the transaction is a fair one all around, an honest trade between two honest men. Today you ask a new loan of $10,000 for tnree years. Suppose I give it to you. When that loan comes due and I remit to England what I have received from you, I send home the equivalent of $6,500 as a return of what is now $10,000. Do you call that an honest transaction between two honest men? What is the difference between rejected wheat and rejected money, from the world's point of view, no matter how many new rules your section of the world's business may have enacted in the meantime?' For a few momentes the grain skipper remained lost in thought; then he frankly exclaimed 'It would be a darned steal of a cool $3,500. That's the business description I'd give of such a deal. You've put some new wheels in my head on this silver question, Mr. President. You can make that new loan payable in gold, if you like.'"

If such a conversation ever took place it shows only that in the United States farmers are a slow-witted race and incapable of stating the full strength of their position.

Let us suppose that the grain shipper in question had spoken something in this fashion: "Twenty years ago I entered into a contract with you to supply fifty tons of grain of a given quality. Year after year my harvests have been weighed in your scales, and every year I have found myself obliged to supply an additional number of sacks to make up the total which you reckon to be fifty tons. The grain is the same in quality as it was when the contract began twenty years ago, but now I have to supply nearly twice as many sacks of it before your scales show the required fifty tons, and I want to know the reason why?"

The banker could give only one reply: "The truth is, sir, that during all this time my weights have been steadily appreciating and now, according to my scales, it requires just twice as many sacks of wheat to make a ton as were needed when the original contract was signed."

Would not the farmer have some right on his side if he replied: "Then the fact that your weights have been getting heavier every year, in other words have been, as you say, appreciating, has put me at a grevious disadvantage and as it was no part of the original bargain that your scales must necessarily be used, I now demand that my grain should be reckoned with weights that have not appreciated."

That, put in a homely way, is the case for the free silver party in America. . . . To treat the American movement in favor of the free coinage of silver as simply immoral, is absolutely misleading and unjust. . . . All we have tried to do is to remind our readers that the monopoly of honesty and of charges of injustice is not entirely on our side. . . . It must be borne in mind that the Indian mints were closed to the unlimited coinage of silver only in 1893, and those who remember the words of Mr. Balfour last March will understand how probable it is that free coinage of silver in the United States would be followed by the reopening of the Indian mints.

Farewell to Mrs. Worthley.

The ladies of the L. S. L. E. last Saturday afternoon tendered a farewell party to Mrs. J. L. Worthley, who left during the present week to join her husband at Helena, Ark.

The party was given at the home of Mrs. J. W. Troy and was a most enjoyable affair. It was purely social, with delicious refreshments to enhance the pleasures of the afternoon.

Mrs. Worthley has been one of the most devoted, intelligent and successful members of the Ladies' Literary Society and its members regret exceedingly that they are to lose her. She is a lady of culture and will grace any society with which her lot may be cast.
