RUSHING PLANS FOR THE REPUBLICAN NATIONAL CONVENTION

COST OF PAVEMENT IS INCREASED BY POOR BOND MARKET

The award of the contract for the paving of First Street with concrete from Lincoln to Cherry street was the most important business transacted by the city council last night. The amount of the contract was $78,500.-68 and the work goes to P. J. Woods & Co. The engineer's estimate was $65,-838, but the fact that the best bid for the district bonds is 85 cents on the dollar increases this estimate by 15 per cent. There was some discussion as to the advisability of deferring the award of the contract in the hope that the bond market might improve in the interim, but this was defeated on a division by four votes to two Councilmen Hallahan and Henson constituting the minority. When the vote on the actual award of the contract came, Hallahan merely passed it and Henson voted aye.

The discussion of Hallahan's motion to defer action was not extended. It was pointed out by Councilman Burns that the principal property owners affected, and he mentioned a number he had interviewed during the day, including G. M. Lauridsen, S. J. Lutz, E. S. Stakemiller, Mr. Morse and others, would prefer that the work go ahead without delay. Both Burns and Horstman expressed the opinion that delay would bring no better market for the bonds and that delay heretofore caused in getting this work under way had resulted in the loss of 15 cents in the dollar on the value of the bonds. It was also pointed out by these councilmen that unless the paving were undertaken very expensive temporary repairs would have to be made this year at the expense of the property owners and this was an important consideration with the people who have to pay.

Only two bids were received and opened The second bid also was from a local firm, that of Hassough & Co., the amount being nearly $10,000 in excess of the Woods' bid. The bids provide for the handling of the lumber torn up so that it may be used by the city for replanking where such work is required, especially at the Third St. bridge.

The matter of the irregular appointment as city electrician of George Hixon, engineered by a majority of the council during the absence of the mayor came under brief discussion.

Mayor Pegram early in the session announced that his absence from the city during part of his term had not given him an opportunity to arrange some of the committees to the best advantage and developments had decided that in the interest of the public it would be well to remove Councilman Burns from the light committee and substitute Councilman Hallahan, while Burns should take Hallahan's position on the ordinance committee. This, he felt sure, would facilitate the transaction of city business.

Later Hixon's bond came up for action. The city attorney announced that he had hertofore given the council his opinion that the whole proceeding involving Hixon's appointment was illegal and therefore he did not care to pass upon the bond.

Councilman Hallahan said that the city attorney had his reasons for not acting but the council could take action. He moved that the bond be approved.

On a division the approval was voted, four to two: ayes, Henson, Hallahan, Van Brunt and Hooker; noes, Burns and Horstman.

Councilman Burns asked that a record be made of his statement regarding his vote. "This proceeding," he said, "was illegal and the council was so advised by the city attorney. Because I am satisfied of the illegality and because the appointment of Hixon was made for the purpose of making trouble, I voted against approval of the bond.

Councilman Horstman made a similar record. "The proceeding was illegal from its inception," he said. "The council has no power to act in this matter."

The matter was then dropped.

The council received an application for a $25 a month increase in the salary of Mrs. Arnason, assistant to the city treasurer which was referred for report.

An ordinance creating a local improvement district for the laying of a lateral sewer to serve Ninth and Tenth streets to connect with the Lincoln street trunk sewer was put through the preliminary stages. The ordinance providing for the paving of Lincoln street was finally passed and adopted by unanimous vote. Resolutions of intention to construct a roadway on the bluff to connect with Tumwater road and for the construction of a sewer to serve Second and Third streets, east of Lincoln were adopted.

SAYS PALMER IS LEAGUED WITH BOOZE

(By Associated Press)

WASHINGTON, D. C., June 2. — Charges that the campaign for the nomination of Attorney General Palmer as Democratic candidate for the presidency had been conducted in Pennsylvania with an open appeal to the distillery and brewery interests in the state were made today before the senate investigating committee by Eugene C. Bonniwell of Philadelphia who supported W. G. McAdoo.

Mr. Bonniwell said that saloons and bonded warehouses in some parts of the state were now running "wide open" and that this was proceeding under the eyes of the department of justice and prohibition enforcement officers of the Federal government "appointed with Mr. Palmer's approval."

The wtiness charged that the Palmer campaign in Pennsylvania had been a "ghastly and debasing degradation of law." Mr. Palmer asked the committee for permission to reply to Bonniwell's charges.

POPE GRANTS PERMISSION TO VISIT ROME

(By Associated Press)

ROME, June 2.—An encyclical document was published yesterday announcing an arrangement whereby Catholic sovereigns will be permitted by the Pope to come to Rome to visit the King of Italy. This paper is considered one of the most important that has appeared since the fall of the temporal power.

Indeed, it is only surpassed in importance by that issued by Pope Pius X, giving Catholics permission to vote in political elections and serve as deputies in parliament.

The present document is of international importance, while the other was merely of national character.

The former document forbidding them to visit Rome had momentous consequences. Emperor Francis Joseph of Austria, despite the alliance with Italy, never returned the visit of King Humbert and Queen Margherito paid him at Vienna in 1881. A war menace between the two countries resulted.

King Carlos of Portugal, brother-in-law of King Humbert, once started on a visit to the latter at Rome but was stopped at Paris by the threat that if he continued his journey the clericals of Portugal were ready to join with the republicans in his overthrow. King Humbert thereupon broke off diplomatic relations with Portugal.

Word that President Leboudt of France had decided to visit the Italian sovereign at Rome in April, 1904, led to the breaking of diplomatic relations between the Vatican and France. Other attempts made by the Kings of Belgium, Spain and Sarony to obtain permission to come to Rome were frustrated.

Count Romannes, Spanish premier, during the peace conference at Paris, begun negotiations with Premier Orlando of Italy and the papal undersecretary of state for the arranging of a visit of King Alfonso to Rome contemporaneously with the King of Belgium, who through Cardinal Mercier, had expressed a desire to visit the Italian sovereign in his capital.

These efforts resulted in the encyclical issued yesterday.

COMMITTEES REPORT UPON PLATFORM

(By Associated Press)

NEW YORK, June 2.—Greater cooperation of local and national authorities in the enactment of legislation affecting education, public health and public roads and highways is urged in a report made public today by a sub-committee of the republican national committee, of which Everett Colby ,New Jersey, is chairman. It is stated that the report will be submitted to the platform committee of the republican national convention at Chicago.

The chief cause of inadequate public school facilities in many states and localities, the report states, is the financial limitations of small school districts having but little taxable value, causing under payment of teachers struggling to maintain the high standards of education. Other conditions which could be remedied by increased federal and state aid to the local communities are the inadequacy of the schools, particularly in the lower grades, and the shortage of trained teachers.

Creation of an executive department with a secretary of education as a member of the president's cabinet is recommended, together with the appropriation by congress of $100,000,000 to be apportioned among the states to combat illiteracy, aid Americanization of foreign born and increase teachers' salaries.

Financial assistance to states to build roads under state authority conditioned on the state appropriating an equal amount, and a system of national automobile highways are advocated.

The program outlines means to accomplish a better coordinated public health service through the cooperation of civil agencies with the medical department of the army and navy. A lack of physical training in the youth revealed by the selective draft, would be remedied by an extensive program of physical culture in the public schools, with emphasis on the training of girls to fit them physically for motherhood, says the sub-committee.

The lack of wisdom of enacting further legislation intended to curb peace time sedition is pointed out in the report of another sub-committee of which Albert J. Beveridge of Indiana is chairman.

The present criminal code is adequate to punish all treasonable acts in time of peace, it is held. The opinion is predicated on the policy of the common law and general policy in criminal legislation which makes acts themselves directly injurious to the state the test of criminality. It points out the unwisdom of any attempt to make criminal mere opinions or association with others or membership in organizations not themselves criminal and which do not involve the commission or solicitation to commit criminal acts.

HIGH SUGAR IS BLAMED ON PALMER

(By Associated Press)

WASHINGTON, D. C., June 2. — The sugar investigating committee, in a majority report presented to the house today, declared that Attorney General Palmer had used his power as chief prosecuting officer of the government "for the purpose of fixing maxamum selling prices of sugar in Louisiana and in so doing acted wholly without authority of law and in violation of his own construction of his official duty.

The report prepared by Representative Husted, Republican of New York, as chairman, charged that the legislative method adopted by the attorney general was "wholly ineffective as a means of price control" and that it gave apparent governmental sanction to extremely high sugar prices which excited the cupidity of Cuban producers and caused an advance in the Cuban market.

GIRLS UNDER 18 CAN ENROLL FOR CLUB WORK

Many girls not yet over eighteen years old who for various reasons were not able to enroll in a canning club before, will be glad to learn that the State Club Leader has opened enrollments in that project for two weeks from that date.

Members under high school age must can at least twenty-five pints of fruits or vegetables, while those over, much reach the fifty pint limit. Each member prepares ten pints for exhibit—and following the lead of the Dungeness Club it is hoped that all members will use the economy pint jar for their purpose. The balance of the requirement may be put up in any sort of container—and in all cases the goods canned remain the property of the club member.

There is no membership fee to pay on joining a club but heaps of work, fun and good times are in store for all members. On July 23d, a large delegation of members from all projects plan to motor to Puyallup for the State Club Field Day and by that time the demonstration and judging teams which are to represent Clallam County will have been chosen. Membership cards may be secured from any Local Leader or from the County Club Leader, Port Angeles.

MRS. SMITH MUST LINGER LONGER

(By Associated Press)

TACOMA, June 2.—Mrs. Julius B. Smith, convicted of criminal assault on Presecuting Attorney W. G. Askron, of Pierce County, today was sentenced to from ten to 30 years in the penitentiary by Judge M. L. Clifford. A plea for a new trial was refused. Mrs. Smith shot the prosecutor April 3. He had convicted her of her of performing criminal operations and she was under a five-year sentence then.

NOMINATING TALKS AT CHICAGO WILL BEGIN THURSDAY

(By Associated Press)

CHICAGO, June 2. — Nominating speeches in the Republican National Convention next week probably will begin Thursday with balloting Friday, L. W. Henley, secretary of arrangements committee announced today.

There were more than 160,000 applications for 13,189 seats Mr. Henley said, and 1,100 applications for 576 press seats. The selection of a permanent chairman seems to have made no progress in the last three or four days. There is now less talk among national committeemen of the selection of former Senator Beveridge of Indiana and more talk of an agreement on Senator McCormick of Illinois.

A delegation from Philippine Islands arrived in Chicago to urge the adoption of a full independent platform declaration by the Republican party.

WEDNESDAY, JUNE 2, 1920

Editorial

It is satisfactory to note that the judges of the supreme court of the United States are human. They have declared unconstitutional the provision of the war revenue act taxing their salaries.

Republicans want a jaunt to the Pacific Coast, so a rider has been added to the naval appropriation bill providing for a congressional inspection of naval bases on this side. All this work has been done by competent and expert boards. The cost of the jaunt will exceed that little appropriation, cut off, for commencement of work on the submarine base at Ediz Hook.

Shortage of farm labor, according to National Grange Master Lowell, who attended the sttae convention of the Grangers at Aberdeen, may result not only in silencing boastful talk about America "feeding Europe," but in considerable difficulty in American farmers feeding Americans at home. What is really needed is a more comprehensive and liberal policy both by the federal and state governments in the matter of financing men able and willing to go into the agricultural life but without capital. Sooner or later state aid to land settlement will have to be introduced on a large scale in Washington. The sooner the better.

The supreme court has decided that amendments to the constitution cannot be submitted to a referendum vote of the people in states having that means of estimating public opinion. The decision, of course, gives reasons, but not real reasons. The real reason is that the supreme court of the United States, guardian of the constitution, which is presumed to give to the people the power of government, is always afraid of giving the people a chance to decide directly on any issue. Representative government permits of a thousand opportunities to defeat the popular will, without the people knowing it.

Attorney General Palmer has the radicals "on the brain." He ought to take a vacation. If he would pursue to the bitter end the mystery of sugar profiteering and leave the "reds" alone for a while the public would be much obliged. The constitution is safe. The government will not be "overthrown by force"—now or at any time—unless, of course, the housewives of the nation, properly infuriated with the robbery perpetrated in connection with the sugar bowl, arise in their just wrath and wipe the floor with a lot of loud-mouthed politicians who are endeavoring to obscure real issues, including sugar, with a lot of high-sounding rot. To arms against the sugar pirates, Mr. Palmer, and let the rorty little "red" take his summer nap!

The city council wisely declined last night to be led by Messrs. Hallahan and Henson into a policy of deferring action on the downtown improvement projects until such time as the bond market may improve. The improvement is not likely to take place so long as cheap bonds are in sight. The improvements are essential and delay would be more likely to increase cost than reduce it. Already the delays in getting these projects under way, largely engineered by the clique fighting the administration, has cost the property owners the difference between bonds at 85 and bonds at par—which was the price a month ago.

Those merchants of this city who presume to tell The Herald what the Herald's rates on advertising ought to be will not reciprocate by allowing The Herald to fix prices on merchandise. The fact that The Herald's advertising is the cheapest thing that can be purchased in Angeles today. The Herald believes in a fair profit and does not propose to sell anything it produces at less than cost to please those who do not know the first thing about cost of production in the newspaper business or for any other reason. When newspaper publishers in port Angeles can afford to ride around in fine automobiles which almost every other business man in the city possesses it will be time for the latter to criticise advertising rates in the local newspaper.

THE EMPTY SUGAR BOWL.

While not all the editorial writers are willing to suggest a remedy for the empty sugar bowl, many views are expressed as to its cause. Of those who believe that increased production may save the day not a few suggest that America give more attention to the beet. Some feel that federal intervention is the only course.

Among these are the St. Joseph News Press (Ind.) which declares that the only way out of the difficulty is for "the United States to fix the price and regulate the distribution," and the Reno Gazette (Rep.) which calls upon the authorities at Washington to "exercise their powers under the Lever act." The Buffalo News (Rep.) looks to the President:

"He can head off the price this side of 40 cents if he will revive the sugar equalization board which handled the situation during the war and saw that we had plenty of sugar, and at a reasonable price."

This, the News believes, must be followed by an embargo, which the Bangor (Me.) Commercial (Ind.) agrees would help. The Louisville Courier Journal (Dem.), which does not think it a question of supply and demand, and the Indianapolis Star (Ind. Rep.) which thinks it is, agree that the government has been unable to cope with the situation, the latter lamenting that "Europeans were permitted to buy up the Cuban output while our government agencies were discussing what should be done." For this sin of omission the Philadelphia Public Ledger (Ind.) holds President Wilson to strict accountability, while the Janesville Gazette (Rep.) considers Congress jointly responsible, thus neglecting the opportunity which "will cost the people of the United States close to a billion dollars," a loss, however, which can be partially made up for "by increasing the acreage of our sugar beets."

The shortage of the sugar beet in Europe is enumerated as one of the causes of the trouble by the Chicago Daily News (Ind.) which also mentions the lost Cuban crop and cessation of government regulation, but sees little hope for an armistice from the profiteers' attacks. The beet and prohibition come in for their share of blame from the Sioux Falls (S. D.) Argus Leader (Rep.) and the Denver Rocky Mountain News (Ind.) urges our own sugar beet states to come to the rescue.

The Pittsburgh Sun (Dem.) has a good word for the "flying squadrons of the Department of Justice" in their crusade against profiteers, blames Congress and touches the political side of the question with the assurance that "a sugar shortage campaign at this time of year will not sweeten Republican coffee." The Omaha Bee (Rep.), on the other hand, credits this "blow to the people" which "stops the preserving of fruits" directly to the Wilson administration, whose outstanding feature, it declares, has been "prodigious profiteering."

But the setback to the housewife in "canning time" might be arranged for if the "abnormal consumption were reduced," some writers believe. "Nearly everybody ate less sugar during the war and got along all right," says the Lansing State Journal (Ind.) "everybody, except possibly children, can do it now."

That we face the question as calmly as the Journal suggests is not the opinion of the Christian Science Monitor (Ind.) "The people of the United States are now in a state of sugar bondage," it declares, "while enjoying a candy freedom. Revolutions have started out of situations not essentially different." The rehandling of sugar, for the purpose of profit only, is one of the causes of high prices, the Monitor points out, and the willingness of the refiners to cooperate with the government bodes little good, for:

"Such arrangements may have answered for a war-time emergency. But the very experience of the government with its big business operators during the war shows that when business cooperates with government the result is too apt to be government by business."

Quoting the National City Bank's statement of imports, the Cleveland Plain Dealer (Ind. Dem.) shows that our imports during the last year were the greatest ever recorded and points to the statement of one brokerage firm that advertises "attractive sugar stock," explaining that the "producer holds the whip hand and proposes to make the most of the opportunity." The Plain Dealer believes that re-establishment of the sugar board is necessary.

The Mobile Register (Dem.) scouts the idea of a "shortage," quoting the Washington Star's (Ind.) comment that "it is a shortage as effects the consumer," and accuses the Department of Justice of permitting a situation which has filled the storage houses "instead of giving the consuming public the benefit of proper prices."

There is little divergence of opinion on the part of the press as to the tragic aspect of the empty sugar bowl; it is "a sore spot in the cost-of-living situation," sa the Lexington Leader (Rep.) puts it,—from whatever angle it is approached—and most of the writers, whatever plans they may suggest, seem to agree in spirit with the Leader's candid conclusion that "there is no relief in sight."

PACIFIC COAST NEWS

IRRIGATING BREWSTER FLATS.

At a meeting held in the Wenatchee Commercial Club rooms last week between members of the state reclamation board and trustees of the Methow-Okanogan district it was decided to proceed at once with the work of financing the construction of the first unit of the project to hover about 12,000 acres of Brewster flats. The conduct of the undertaking has been turned over by the trustees and a manager will be appointed to take charge of the work, under the direction of the state board. The board has adopted a plan for the construction of the tunnel one-half the size required for the entire project, but unlined. This with the necessary canals to convey water to the 12,000 acres on Brewster flat will cost $302 an acre according to preliminary estimates.

EASTERN WASHINGTON CROPS.

Eastern Washington farmers are reported optimistic over grain crops and prospective high prices for all indications point to a bumper grain crop this year, particularly in the Walla Walla section. By reason of apportune rains winter wheat is progressing very rapidly and there is no fear of drought in the dry farming regions. The report of the Oregon & Washington railway company says general crop conditions are favorable. Fruit trees except peaches look well. Yakima Valley farmers have commenced cutting alfalfa, and contracts have been made for a large part of the first hay crop in that district at $25 per ton and some growers are asking more than that. The last car of the 1919 apple crop has been shipped from Wenatchee, making a total for the season of 12 158 cars from that and the Chelan district. This was a gain of 3,792 cars over the previous year. Estimates of the coming crop are placed at 12,500 cars of apples.

ROADS IN CHELAN.

Road work now in progress in Chelan county are the 9-foot pavement 317 miles east from Manson, costing $67,000; the Rocky Way grading contract at the eastern end of this pavement, costing $26,000; the Cashmere bridge costing $59,000; the east Cashmere pavement, costing $60,000; North Monitor grade, costing $45,000; Sunnyslope grade just completed, cost $10,000; and the extension of the North Monitor grade estimated to cost $20,000.

EXTEND YAKIMA PROJECT.

Work on the $2,500,000 improvement planned for the Kennewick unit of the Yakima project, which contemplates the development of approximately 35,000 acres of land in the lower valley at a construction price of approximately $150 an acre, is assured by means of the contract just signed between the state reclamation service and the directors of the Kennewick irrigation district.

RESERVATION LAND SALES.

Last week sales aggregating $400,000 were made of lands in the Yakima Indian reservation at Fort Simcoe. Fifty-seven tracts of Indian land were sold, the highest price paid for any tract being $31,000 for 80 acres, bought by George A. Gang of Toppenish. The land is planted to potatoes and sugar beets. Another eighty acre tract sold for $28,080 and $2-,000. In a majority of the bids the lands sold for over twice the appraised value. This was the highest sale ever made of reservation land.

G. O. P. COMMITTEE SETTLES CONTESTS.

(By Associated Press)

CHICAGO, June 1.—Hearings on the claims of contesting delegations to next week's convention continued today to occupy the attention of the Republican convention.

In the District of Columbia contest the committee voted to seat the two regularly reported delegates, who are uninstructed but are said to favor General Wood.

The Forest Service is endeavoring to secure a fire truck equipped with about fifteen hundred feet of hose and a water tank to be used exclusively in fighting forest fires.

MOTHER OF FIRST AMERICAN SOLDIER KILLED IN FRANCE

Mrs. Alice Greshman Dodd, First War Mother of the Nation Gives Entire Credit for Recovery of Her Health To the Well Known Medicine, Tanlac.

MRS. ALICE GRESHAM DODD of Gavin Park, Evansville, Ind.

The following remarkable endorsement of Tanlac was given recently by Mrs. Alice Gresham Dodd, at the Greshman Memorial Home, Gavin Park, Evansville, Ind., which home was presented her by the patriotic people of Indiana, as evidence of their appreciation of the services rendered to his country by her son, Corporal James B. Gresham, the first American soldier killed in France. Expressions of sympathy were received by Mrs. Dodd from all parts of the United States, and the newspapers of the country carried the story of the first 'war mother.'

The shock of her son's death resulted in the serious breakdown of Mrs. Dodd's health, but everyone will learn with interest and pleasure that she is now in splendid health again. When seen at her home recently she made the following statement, giving the entire credit for her recovery to the well-known medicine, Tanlac.

"After my dear boy's death, I had a general breakdown in health," said Mrs. Dodd. "At first it was just indigestion. My food used to upset me and I had to diet myself very carefully, which wasn't much hardship as I lost all desire to eat. Then I had an attack of rheumatism, with severe pains in my shoulders, back and arms. Sometimes I used to suffer a great deal, and my joints would get all swollen up and stiff. I was able to do very little about the house, and at times couldn't even cook a meal. I got very nervous and restless, and at night would lay awake for hours, and lost many a night's sleep as a consequence.

"A friend of mine had received a great deal of help from Tanlac, and it was she who advised me to try it. I am so glad I did for it proved the best medicine I have ever taken. It soon gave me a good appetite and seemed to settle my stomach so that I was no longer troubled with indigestion. I don't know what it is to have rheumatic pains now, the swelling and stiffness has all gone out of my joints and I am able to do the work of the house with the greatest ease. My nerves are now steady and strong, I sleep fine at night, and I feel better in health than ever before in my life. I shall always be grateful for what Tanlac has done for me, and shall recommend it every chance I get."

Tanlac is sold in Port Angeles by Owl Drug Co.; in Dungeness by Wm. A. Monson; in Sequim by F. D. Babcock; in Blyn by W. B. Main; in Mora by W. F. Taylor, and in Forks by Geo. W. Groffman.

Philadelphia	14	25	.359

Chicago.—Cincinnati climbed back into second place yesterday and sent Chicago back to third by beating the Cubs, 6 to 5 in the third game of the series. The Reds secured the winning run, without a hit in the ninth on a base on balls to Rousch, Duncan's sacrifice, a wild pitch and a sacrifice fly by Kopf.

St. Louis.—St. Louis defeated Pittsburgh yesterday 5 to 4 in a 15-inning game. In the final inning, McHenry doubled to left and eventually scored on successive errors by Ponder and Schmidt.

Philadelphia.—Four double plays enabled Boston to defeat Philadelphia, 8 to 4 yesterday despite three local home runs. Mann's home run in the niinth with two on bases clinched the victory.

Brooklyn.—Brooklyn cleaned up the series of three gamei with New York and increased its string of voctories to six straight by winning yesterday 10 to 9. Myers' tripled in the sixth with two on bases and drove in the winning run in the ninth with a two-bagger.

Yakima.—Seattle won her third game of this season yesterday afternoon when she defeated Yakima by a score of 12 to 6. The Seattle batsmen hit Hill hard while the Yakima team furnished them part of the scores on errors.

Tacoma.—Tacoma won another game from Vancouver yesterday 10 to 5. Mallory and Fehr, the Beaver pitchers, were ineffective.

LYNDEN GIRL HAS VANISHED IN VANCOUVER.

VANCOUVER. B. C., June 2. — Mystery marked the disappearance of Miss Marguerite McCorley of Lynden. Washington, who, leaving her mother at the bandstand in Stanley Park, on Sunday afternoon, did not return. So far the police have been able to find only one person who saw the missing woman, this being the caretaker Harris, of the park board staff, who saw her walking along the pipe line trail toward the "first narrows."

According to the report made by Mrs. McCorley, mother of the missing woman, her daughter suffered from a slight mental affliction, and they had made a motor trip from Lynden on Sunday. While their car was parked near the bandstand, Miss McCorley wandered away.

SEATTLE MARKETS.

SEATTLE, June 1.—Seizure by federal authorities of fifty tons of butter alleged to run over the legal moisture had the effect to temporarily stiffen the market as there was not at the time any surplus and storage has commenced. Storage will be light as large surplus is discouraged by the banks. Creamery men are storing only their surplus. Western Avenue dealers predict a stronger egg market as the lay is falling off.

There was a notable week-end stiffening of strawberry prices, going up on Saturday from $7 to $8 per crate. Kennewick berries sold freely at $7.-50 a crate. Dealers assert they could have sold a carload at $7 per crate. Puget Sound Fruit Association berries were expected to arrive in quantity with consequent decline in prices.

Saturday's closing was weaker on cattle, stronger on hogs, with an increase in prices on Tuesday. This was the feature of the live stock markets. Receipts were 92 cattle and 550 hogs.

Cattle—Best steers, $12.50 at 13; medium to choice, $10 at 12; common to good, $7.50 at 10; best cows and heifers, $10.25 at 10.75; common to good, $7 at 10; bulls, $7.50 at 8.50; calves $7.50 at 16.

Sheep—No receipts. Quotations: Prime spring lambs, $15.25 at 16: sheared yearlings, $12 at 12.50; wethers, $10.50 at 11.50; ewes, $9.50 at 16.50.

Hogs—Receipts 550. Quotations: Prime $14.75 at 15.25; medium to choice, $13.55 at 14.55; rough heavies, $12.75 at 13.25; pigs, $12 at 13.

Old and new potatoes are stronger. Quotations on new spuds are nine cents per pound and jobbers predict old spuds will go to ten cents.

Following are prices to producers:

Oats, No. 2, feed, white, bid $70.00; asked $75.00.

Barley, No. 2, feed, Bid $65.00; asked $74.00.
