ADEQUATE FLOAT TO BE CONSTRUCTED FOR THE FISHERMAN

COUNTY HARBOR FUND AVAILABLE FOR NEEDED WORK

Adequate provision for the fisher men and their boats when they come here to outfit was discussed at the meeting of the Commercial Club last night and the harbor committee of the club will wait upon the county commissioners during the week to discuss the expenditure of the money in the county harbor fund, now amounting to $9,000, for a float to be placed at the City Wharf. The county fund is derived from the state harbor leases and has accumulated for the past three years or so. It was stated at the meeting last night that the commissioners had signified their willingness to construct a float for fishermen, which is within the purposes of the fund, and the matter will be discussed with a view to giving the fishermen the best possible accomodation.

Attention to this need was called during the last week by a controversy between officers of the Snohomish and two fishermen who had tied up their boats to the float, thus getting in the way of the small boats of the Snohomish. Several members of the club participated in the discussion and the concensus of opinion was that the best plan would be to construct a landing place which would be available at all times to fishing boats coming in for supplies, which was declared to be a growing business here. On a motion by Donald McInnes the secretary was instructed to write the Fishermen's Co-operative Union that the club would make arrangements for the boats. The advice of a practical water-front man, before any construction work is commenced, was recommended by August Swanson.

Another matter of general interest discussed last night was the proper regulation of stoves and stove-pipes and various things that go to cause fires in the city. Finally a committee was appointed to interview the city council tonight and endeavor to get action looking to the adoption of an effective ordinance and the appointment of a fire marshal with power to enforce the same. As this matter already has been under consideration by the fire committee of the council and the mayor it is likely that some action may be had, with the encouragement of the business men. Not only may fires be prevented by proper regulations, it was pointed out, but also it may be possible to get a better insurance rate through such action.

The club adopted a resolution supporting that of the state grange that in the event of the supreme court holding the farm loan act unconstitutional congress be asked to immediately legislate in such a manner as to overcome the technical difficulties and maintain the operation of the farm loan provisions.

President Babcock reported to the club that the result of an investigation made by him in the matter of community-built hotels. He told of a fine hotel erected in this manner at Chehalis, which was bringing much business to that city from tourists and the traveling salesmen and also of a project set afloat by the Elks lodge at Aberdeen for the construction of a modern 200-room hotel in that city. Mr. Babcack said that the big contracting firm of Hurley, Mason & Co. had offered to help finance construction by guaranteeing payment of 5 per cent interest on $250,000 of common stock and 7 per cent upon bonds and also to provide a tenant with all the necessary furnishings. Mr. Babcock said that if such a proposition could be obtained for Port Angeles the raising of the money would not be difficult.

The following were elected members. A. H. Woodruff, G. A. Partridge, Fred Eng, L. I. Wheeler and Oscar Nelson. A vote of thanks for his good work in getting new members was given B. Goodbrand.

The Fourth of July committee reported good progress with more than $1,000 pledged for prizes and other celebration expenditures. The committee expects to have one or more excursion trips provided by the Sol Duc between Seattle and Victoria. The urday, July 3. The stores will be open stores wil lbe open Saturday, July 3, but on Monday, July 5 they will be closed.

Five Hundred Attend Dance In Frank Holland's Barn

When Frank Holland built his enormous hay mow at Sequim six years ago he gave a fine housewarming party which was remembered for a long time. The barn has been in constant use ever since, but it happened that all the hay was out of it just recently and Mr. Holland seized that opportunity to have another jollification for his friends and neighbors.

About five hundred persons attended the dance last night. They were invited from Port Angeles, and practically everywhere within reasonable distance of the entertainment, some coming from as far as Seattle.

Automobiles, automobiles, automobiles, everywhere automobiles. Parked hither and thither in as close proximity to the building as possible, they showed a wonderful variety of car and drivers.

The dancing began at nine o'clock and continued to one a. m. The big floor was crowded, almost too crowded at times for comfortable dancing.

Vautier's band from Carlsborg was in attendance and the music left nothing to be desired.

A prize valse was inaugurated, the trophies, silver pencil for the gentleman, and a box of candy for the lady, going to Mrs. McNeil and Julius Kirschberg of Port Angeles. "I am sure it was just a joke," said Mr. Kirschberg today. "There were many other better dancers present."

But Fate meant these two to get it and they got it amidst much laughter and cries of "Speech! Speech!" from the onlookers. But Mr. Kirschberg, who is known as a fluent and amusing talker, was floored. Words failed him.

With more laughter and with great hilarity the proceedings went on.

Delicious punch, although, with no "stick" in it, was served and the evening drew to a close with many a vote of thanks to the host for the splendid entertainment he provided.

PERSHING'S PLANS NOT POLITICAL

(By Associated Press)

WASHINGTON, D. C., June 8. — General Pershing today declared that his letter to the secretary of war asking permission to retire from the service was without political significance. He said he would probably enter private business, the nature of which had not yet been determined.

In his letter General Pershing said he would like to be more actively employed than would be probable in the service, and proposed to retire after the army reorganization plan is put into effect.

MAKES RABID ATTACK UPON PRESIDENT

(By Associated Press)

CHICAGO, June 8.—The country must drive President Wilson and his "dynasty" from power and defeat the League of Nations as he desires it, declared Senator Henry Cabot Lodge, temporary chairman of the Republican National Convention, in his keynote address here today.

Defending the Senate's opposition to the treaty of peace as a high and patriotic duty, the senator flung down this gauntlet:

"We make the issue; we ask approbation for what we have done. The people will now tell us what they think of Mr. Wilson's league and the sacrifice of America."

While emphasizing the point that around the league must be waged the 1920 presidential campaign, and devoting much of his speech to arraignment of the Wilson adminisration, the senator found time to lay before the delegates the stand of the Republican party on other salient problems facing the nation.

Chief among these was Mexico. Declaring it was time for the United States to take a firm step in things Mexican and end the "disgraceful record" of the last seven years, Senator Lodge urged that this country let the Mexicans choose as their president some strong and upright man who is friendly to the United States and determined to establish order and then lend him a real and cordial support.

"Mexico lies at our doors," he declared. "It is a primary duty for us to deal with it under the Monroe doctrine but nothing has been done and yet we are asked to take a mandate for Armenia."

Salient points made by Mr. Lodge were:

"Mr. Wilson and his dynasty, his heirs and assigns, or anybody that is his, anybody who with bent knee has served his purpose must be driven from all control, from all influence upon the government of the United States.

"They must be driven from office and power, not because they are Democrats, but because Mr. Wilson stands for a theory of administration and government which is not American.

"The return of the Democrats to power with Mr. Wilson or one of his disciples still the leader or master of a great party, which before his advent possessed both traditions and principles, would be a long step in the di-

SEEKS TO ANNUL HER DEAD MOTHER'S MARRIAGE.

(By Associated Press)

SEATTLE, June 8.—Suit for annulment of a marriage, although the wife is dead, was started in superior court Monday.

The suit involves the estate of the late Mona L. Smith, who three weeks before her death, which occurred November 1, 1919, married Bert Smith, a Vashon Island rancher. Her property is said to be worth about $7,900, consisting of money and securities.

The contest was started by Mrs. Smith's daughter, Laura E. Griswold, wife of D. C. Griswold, county fire warden at Kirkland. On behalf of the daughter, Walter S. Fulton, attorney, filed two petitions simultaneously — one a civil suit to annul the marriage of the deceased mother; and the other a probate action seeking to break a will which left Smith the estate.

G. O. P. DELEGATES LISTEN TO TIRADE AGAINST PRESIDENT

(By Associated Press)

THE COLISEUM, CHICAGO, June 8.—The Republican National Convention was anhour late in meeting, but disposing of the preliminaries quickly during the first half hour, soon settled down to hear the keynote speech by Senator Lodge, temporary chairm an.

Senator Lodge spoke from his manuscript, and as he read it was assured that the first hour of the proceedings and possibly a little mare, would be devoted to it.

Temporary organization was perfected by acclamation.

The general understanding was that an agreement would be made to accept the temporary organization as permanent, thus continuing the gavel in the hands of Senator Lodge.

Lodge's address was punctuated by cheering and applause and laughter, when he referred to the Republican party of 1860 and declared that the party was coming forward for a like service to the country. Roars of laughter and cheers and continued applause marked Mr. Lodge's declaration that "everyone connected with the dynasty of Woodrow Wilson must be driven from power." Lodge continued, "they must be driven out not because they are Democrats but because Wilson's theory of government is not American."

"The defeat of the present administration," said Senatorl Lodge, "transcends every other question." The ground thus cleared it becomes our duty to reinstate several fundamental principles which have been both shocked and invaded."

William J. Bryan, from his seat in the press stand, listened intently to Senator Lodge's hot denunciations. "Mr. Wilson and his associates," ne declared, "had attempted to drag us from the path of Washington, Lincoln and Roosevelt." Mr. Bryan passed his hand over his head once or twice, but maintained his poker face throughout.

Laughter and applause marked Mr. Lodge's reference to Mr. Wilson as "a democratic free trader with socialistic proclivities."

Senator Lodge dropped one of his real "hits" referring to Mr. Wilson's participation in the peace conference. "He went himself," said Senator Lodge "because he trusted no one else." The delegates laughed heartily and followed up with applause as they did also when Lodge lambasted the Mexican policy, the government operation of railroads and the proposal to accept a mandate over Armenia.

There was another outburst of applause when Lodge referring to the defeat of the peace treaty said Republican senators considered the difficult task of defeating the peace treaty a duty and did not shrink from fulfilling it.

The temporary organizations of the convention virtually was made permanent late today when the committee selected Senator Lodge as permanent chairman. The convention will be asked to approve the selection tomorrow morning but no contest is in sight.

Chairman Lodge's address occupied 1 hour and 18 minutes, after which the convention adjourned until 11 o'clock tomorrow morning. The delegates liked the keynote speech. Renewed cheers and laughter greeted the conclusion and there was also flag-waving. The chair recognized National Chairman Hays who presented a list of temporary officers which was accepted by a chorus of "eyes" from the delegates.

ACCOMODATION FOR THE FISHERMEN.

A rather trivial incident on the waterfront the other day served to illustrate the need for a float or landing stage for the use of fishermen making this port for supplies and outfit. The float at the city dock lately has been used chiefly by the Snohomish which has not been tying up at the dock as formerly and the officers objected to some fishermen who tied up their boats to the float and moved them away. Some little discussion followed a repetition of which it would be advisable to obviate.

The county commission, it appears, has about $9,000 in the harbor fund—an accumulation of lease money for harbor lands returned by the state to the county. The Commercial Club last night appointed a committee to confer with the commissioners with a view to having some of this money used for the construction of a larger float for the fishermen where they will not be subject to any interference.

The Herald hopes that the committee and the commissioners will not act hurriedly in this matter. Permanent provision should be made for the mosquito fleet in order that the city may benefit by the large and desirable volume of business which can be derived from this source if adequate provision is made for the anchorage of the boats at all times.

In point of fact, The Herald would prefer that initial steps be taken right away to create a port district and harbor commission—no matter on how small a scale—to the end that all moneys available now or to be raised later may be used in furtherance of a comprehensive scheme of port development. It would be a pity to fritter away available funds upon any temporary project. Competent advice should be obtained even in the matter of a float and a beginning made in a permanent project for the handling of the mosquito fleet here.

This is a matter of much greater importance than perhaps many business men realize. It deserves careful consideration by the brightest of our citizens.

FOR A CITY FIRE MARSHAL.

For some time past city councilmen have been discussing the reorganization of the fire department on a modern and efficient basis particularly in connection with municipal jurisdiction over buildings and their contents. This plan came under consideration as a result of a state insurance surveyor who was sent here in response to a call by business men for a lower rate. His report was that properly speaking, the rate ought to be raised, and he gave as the reason the condition of a number of buildings in the heart of the city which because of accumulations of highly inflammable rubbish, were veritable firetraps. The councilmen discovered that in realty the city has no authority or officer to enforce the simplest of precautions against fire.

For the safe-guarding of property as well as of human life, a modern ordinance and an official authorized to enforce it is required to meet this situation. Let the city act before some disastrous accident set all the gossips saying: "Why was not something done?"

Can we not, for once, be wise enough the event?

PERSHING WANTS SOMETHING TO DO.

More power to General Pershing He has written the secretary of war that he wishes to retire from the army because there is not much prospect of important service, and he would like to be free to "engage in something more active."

The general's modesty is as usual apparent. "Throughout my military career," he writes, "I have been very much occupied and the assignments that have fallen to my lot during recent years have been more or less important." They certainly have been!

Now, having reached the top, and no further to go, General Pershing is looking around for something more active.

Not wishing Pershing any bad luck and appreciating his splendid character, we must say that we think he is fortunate that the presidential nomination is not apparently going in his direction. That might be an "active job" but it must be very disillusioning to a man of high principles and generous qualities.

Daily Editorial Digest.

THE HIGH COST OF POLITICAL LIVING.

"It costs two or three times as much as it did a few years ago to be a private citizen, so why should it not cost much more to be a public official?"

This question, cynically put perhaps by the Memphis Commercial Appeal (Dem.) receives nevertheless some serious consideration as the American press discusses the Senate's investigation of funds spent in the pre-convention campaigns. The primaries are the cause, many writers feel, in making campaigning an expensive luxury, rather than indulgence in political vices on the part of the candidates for nomination.

Some newspapers feel, however, that necessary or not a big fund will be a boomerang, while others consider that the source of the contributions rather than their size will affect the cause of the recipient.

"No man is a candidate for himself alone," says the Pittsburgh Leader (Prog. Rep.! "he is the representative of some political, economic or civic interest," and therefore if this investigation reveals the character of the backer "we may have a rather direct line of the desirability of the candidate," and adds the Sioux City Journal (Rep.), the ordinary run of expenses are legitimate "if the money to pay for them comes from unpolluted sources."

But the present situation, to the Omaha World Herald (Ind.) "is far from inspiring." Even if the large sums are spent legitimately on publicity and organization, as is generally conceded, this paper cannot but recall how McKinley, honest himself, was financed by "Mark Hanna & Co." and how much power this force had during his regime. This fact the St. Louis Star (Ind.) believes will "discredit all of the major contestants." The Arkansas Democrat (Dem.) and the Janesville Gazette (Rep.) agree to this view, and the New York World (Dem.) declares that "public opinion forced the publication" of the campaign funds and public opinion will demand an accounting "before the nomination is made." The Brooklyn Eagle (Ind. Dem.), on the other hand, feels that the suspicion thus aroused does a great injustice to some of the candidates, for "the laws of many states compel primaries . . . . . and these primaries entail campaigns that cannot be run on wind." The Minneapolis Journal (Ind. Rep.) also feels that "it may prove that the choice of the conventions will be unfairly affected by the evidence."

Not the candidate nor his backers but the primary laws are to blame, say a number of writers. The Springfield Union (Rep.) believes that the inquiry "may not be without its good effects" if it "provides further demonstration of the futility of the primaries," and the Kansas City Journal (Rep.) stirred up over the situation and demanding a remedy, insists that "that remedy rests very largely with the repeal of the infamous primary system." A revision of this law, the Indianapolis Star (Ind. Rep.) feels, may result from the investigation.

A number of papers look upon the primary as the legitimate cause of the expenditure, whether in itself an unsound system or not, for "how are men to become known in a national way except through these devices which entail expense?" asks the Boston Herald (Ind. Rep.) and to limit the expenditure by law, as has already been suggested in Congress, the New York Tribune (Rep.) declares that the "primary system will not function."

The Chicago Tribune (Ind. Rep.) considers the whole investigation a political affair, to which the Chicago Post (Ind.) agrees, reminding its readers that the public does not "even make allowances for the cost of political living." The Manchester Union (Ind. Rep.) goes even further. It says:

"The whole campaign fund investigation was a deliberate attempt to throw dust in the eyes of the public and create the impression of a scandal, the final result of which is only an increase of animosity within the party and the providing of ammunition for the unscrupulous and desperate opposition when the real campaign before election comes."

Two opposite views comes from the Atlantic and Pacific seaboards; the Spokane Spokesman-Review (Ind. Rep.) believes in a law to limit expenditures in presidential contests, just as a present law limits expenditures in congressional campaigns; while the New York Globe (Ind.) believes that "it is clearer than ever that there is no occasion of a legal curtailment of expenditure, for full publicity makes a large fund a political boomerang."

The latter statement is echoed loudly in the New York Evening World (Dem.) which points its own moral:

"If there is any sense of political morality left in the American people the revelations of the financial outlay to influence primary elections of Republican delegates in favor of various candidates ought to defeat that party in advance."

CALL FOR BIDS.

Notice is hereby given that sealed bids will be received by the City Council of the City of Port Angeles, Washington, until June 15, 1920, at 7:30 (and not later) at the Clerk's Office in the City Hall of said City for the construction of a lateral sewer beginning with Lot 18 in Block 226, thence westerly through Blocks 227, 228, 229 and 230 through the alley between Seventh and Eighth Streets from Eunice Street or the break of Peabody Gulch on the east to Lincoln Street on the west, connecting with the Lincoln Street Trunk Sewer.

Second. That all persons who desire to object thereto or to any part of said improvement are hereby notified to appear and present such objections at a meeting of the City Council in the Council Chamber in the City Hall, in the City of Port Angeles, Washington, on the 22nd day of June, 1920, at 8:00 o'clock P. M. of said day, which time and place are hereby fixed for hearing all matters relating to said proposed improvements, and all objections thereto, and for determining the method of payment of the same, viz: whether by the method of payment by installments and bonds or by immediate payment.

Third. That the City Engineer shall submit to the City Council at or prior to the date fixed for said hearing all data and information required by law to be submitted, including all necessary diagrams, maps, plans, specifications, estimates of the cost and expense of said improvement, a statement of the proportionate amount thereof, which should be borne by the property within the proposed assessment district, and a statement of the aggregate assessed valuation of the real estate, exclusive of the improvements within said district, according to the valuations last placed upon it for the purpose of general taxation, together with a diagram or print, showing thereon the lots, tracts or parcels of land andother property which will be specially benefitted thereby and the estimated amount of the cost and expense of such improvement to be borne by each lot, tract or parcel of land or other property.

Fourth. That the cost and expense of said improvement shall be borne by and assessed against the property liable therefor within said district, according to law; the City of Port Angeles shall not be liable in any manner for any portion of said cost or expense of said improvement.

Passed by the City Council and signed by the Mayor on the 1st day of June, A. D., 1920.

J. L. PEGRAM.
Mayor.

ACTOR SUFFERED FOR TWENTY YEARS

"I had taken but a few doses of Tanlac when I realized I had found the medicine I needed," said O. R. Martin, 5015 East Ninth Street, Kansas City, Mo., an actor with "Annie Butler Revue."

"Before I started taking Tanlac I had suffered from stomach trouble and nervous indigestion for the past twenty years, which gradually grew worse until for the last four or five years I had been in a terribly bad condition. I had no appetite, and when I did manage to eat a little something it began to sour almost at once and gas would form on my stomach until I was in perfect misery. My head ached just about all the time and I often had such bad dizzy spells I could hardly keep from falling. My nerves became so badly upset it was impossible for me to get a good night's sleep and I always got up in the morning feeling wretched. I lost so much weight and finally became so weak and rundown I had to lay off from work a great deal of the time.

"My brother-in-law here in Kansas City had taken Tanlac with such good results he advised me to try it, which I did and I began to improve almost at once. I now have a splendid appetite and eat just anything I want without being troubled with gas or dizzy spells since I started taking Tanlac and my nerves are in such good condition I can sleep all night long without ever waking up. I have gained several pounds in weight, have regained by strength, and, in fact, feel better in every way than I have in years. I am still taking Tanlac, for I want to make sure that my troubles will not return, and as I have spent hundred of dollars for other medicines without getting any benefit from them and never had anything do me any good until I started taking Tanlac, I can't say too much for it. I am glad of the opportunity to tell others about what it has done for me so they may profit by my experience."

Tanlac is sold in Port Angeles by Owl Drug Co.; in Dungeness by Wm A. Monson; in Sequim by F. D. Babcock; in Blyn by W. B. Main; in Morse by W. F. Taylor, and in Forks by Geo W. Groffman.

Profits Helped Build Our Business

Do you think it's right to save money?

Swift & Company's business has been built up partly by selling capital stock for cash and partly by thrifty saving, putting some of our earnings each year back into the business to increase facilities for production.

That is what most all of us seek to do—save part of our earnings for future usefulness.

It is the way American industries have been built up. It means the least drain on the financial resources of the country.

For the past twenty-four years Swift & Company has made an average profit from all sources of 11.3 per cent on investment (capital and surplus), and 2.3 cents on each dollar of sales—a fraction of a cent per pound. Out of this we have paid dividends and saved something to help us keep pace with a growing country.

Swift & Company, U. S. A.

Winston-Salem, N. C.

MAKES ATTACK UPON PRESIDENT.

(Continued from page 1)

rection of the autocracy for which Mr. Wilson yearns and a heavy blow to the continuance of the free representative government as we have always conceived and venerated it.

"Mr. Wilson and the autocracy he represents, and all which those who believe in his doctrines and share his spirit represent must be put aside and conclusively excluded from any future control.

The defeat of the present administration and all it means, transcends in importance every other question and all immediate and dominant issues are bound up with it. Without that defeat every chance of the right settlement of the mighty questions before us, so sorely needed now and not later, will depart.

"Many vital economic and especially protective tariff legislation to guard our industries, are impossible with a Demacratic free trader of Socialistic proclivities in the White House. To accomplish such measures as these, we must have, as we intend to have, a Republican president, in sympathy with a Republican house and senate.

"The rise of prices, the high cost of living which reach daily into every home is the most pressing, as it is the most difficult and most essential problem which confronts us. Some of the sources of this trouble can be reached by legislation, although not all, but everything that can be effected by law should be done at once.

"Profiteering, charging of extortionate and unjustified prices, which is stupid as well as unlawful are subject now to ample punitive laws. Those laws should be enforced, others if necessary added, and the offenders both great and small should be pursued and punished.

"The most essential remedy for the high costs is to keep up and increase production and particularly should every effort be made to advance the productivity of the farms.

"The phrase 'government ownership' means not only that the government shall own the railroads, but also, it is to be feared, that those who run the railroads shall own the government. General government ownership under our political system would inevitably bring about the mastery of the government by those who operate the machinery of transportation or any other industries which come into government possission. The rights of the general public, for whom all industries exist, would disappear under this scheme and nothing would be left to the people except the duty of paying taxes to support the roads.

"Over 600 Americans have been murdered in Mexico. Carranza insulted the American government in every possible way and still nothing was done. We fell so low that when an American was seized by one of the many bands of brigands and held for ransom, all that the government of the United States would do was to offer to be the channel for conveying the ransom of their citizens to the highway men who had seized them.

"We have watched and waited long enough. We need a firm hand at the helm. The time has come to put an end to this mean situation, which is a shame to the United States and a disgrace to civilization. If we are to take part in pacifying and helping the world, let us begin here at home in Mexico.

"Let the Mexicans choose as their president same strong and upright man who is friendly to the United States and determined to establish order and then let the United States give him a real and cordial support, and so strengthen and uphold him that he will be able to exterminate the bandits and put an end to the unceasing civil war.

"When the armistice with Germany was signed the course to be pursued was clear. . . . that course was to make the peace with Germany at once and then take up for reasonable consideration the question of establishing such future relations with our associates in the war as would make for the future peace of the world.

"This, Mr. Wilson prevented. He had apparently only one aim, to be the maker of a league of which he should be the head. He was determined that there should be a league of nations then and there, and in order to nullify the powers of the senate given by the constitution of the United States, he decided to make the league an integral part of the treaty of peace with Germany. Thus he prevented to the senate and intended to present, a dilemna from which there was no escape. In order to have peace with Germany, he meant to compel the senate to accept with it the League of Nations.

"The Republicans of the senate, perceiving the dangers of the League, determined to resist Mr. Wilson's demand. The American people will never accept that alliance with foreign nations proposed by the president.

"The league must be discussed in every district and in every state and we desire to have the verdict so clearly given that no man who seeks to represent the people in the senate, in the house or in any place or in any degree, can have the slightest doubt as to his duty."

AN IMPORTANT LETTER

BISHOP, CALIF. — "About five years ago I suffered severely. I consulted a local doctor and he said I would have to undergo an opperation. When I said "No," he advised a course of treatments. I happened to think of Dr. Pierce's Medical Adviser, and in it I found my case thoroughly described. I sat right down and wrote to Dr. Pierce. I then tried Dr. Pierce's Favorite Prescription—took one bottle— also one bottle of 'Golden Medical Discovery,' and used the 'Lotion Tablets' and I have not been troubled since. I have had two fine healthy boys since then, and work hard. At that time I was not able to do my own work. I have used the 'Pleasant Pellets' for the liver and bowels for about 20 years, wouldn't be without them."—MRS. S. G. ALBRIGHT, R. F. D. No. 1.

Write to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., if you want free confidential medical advice, or send 50 cents for the "Medical Adviser.

PACIFIC COAST NEWS

SEATTLE.

The Seattle Chamber of Commerce has received advices that Japanese sugar can be delivered in Seattle at seventeen cents a pound. Fifty-five thousand tons will be imported during the next few months, 50,000 tons going to New York and 5,000 tons to Pacific Coast ports.

Rationing of gasoline was begun in Seattle and in many cities of the state during the past week. Five gallons to a car is the limit in Seattle and preference will be given to "necessity" cars, many pleasure cars being refused any supplies. Motor trucks, doctors' cars and ambulances are given preference. Dealers say there is little prospect for relief until August, and car owners are advised to restrict the use of gas as much as possible.

Four hundred pounds of butter were seized by internal revenue officers upon allegations that it contained more than sixteen per cent of water. The ofifcers are taking steps to detain other large quantities of butter now in possession of Washington and Oregon manufacturers. It is said most of the butter seized was shipped from Oregon. Butter containing more than 16 per cent of water is classed as adulterated.

A special tax of ten cents a pound is levied on adulterated butter in addition to a cash penalty for manufacture. The butter held at Seattle will be kept until the water content is below sixteen per cent. Some of the samples tested showed seventeen and eighteen per cent water to every hundred pounds.

Three years ago a sage-studded, arid tract of land stretched dismally beyond the forbidding walls of the Washington State penitentiary. Today this forty acre expanse is a green, flower decked field, sheltering thousands of game birds. This is the state of Washington's game farm and the men are convicts. It is the only game farm in the United States operated by convict labor, supervised by two practical game breeders. The farm, the land and its bird population are state prison property, but the output of the institution—thousands of game birds every season—are the property of of the people of the state, or more particularly those who can bag the birds during the prescribed hunting season in the hills and uplands of Washington state.

Governor Hart has proclaimed June 14 as "Flag Day" and urges a display of the Stars and Stripes on that day.

Seattle's "most beautiful short highway" is completed. With the dedication June 5 of the last four miles of road bed extending from Bellevue to Newport, the magnificent shoreline drive along Washington's great lake was ready for traffic. Fifty-two miles of lake front panaroma are offered the tourist who wishes a short but beautiful ride out of the city. All but ten miles is paved and an effort is being made to secure the appropriation for the paving of this stretch.

For the year ending March, 1920, 29,103 ex-service men were found employment in this state.

HE WANTS TO HELP OTHERS.

"I had an awful cold," writes Russell Deckwa, 831 Chestnut St., Topeka, Kans., "and read an ad for Foley's Honey and Tar Compound. I got it and it helped me wonderfully. I believe I would have been seriously ill if I had not got it when I did. I hope this reaches others and helps them as it did me." It pays to go out of your way to get the genuine Foley's Honey and Tar, for not one of the imitations is half so satisfactory in giving immediate relief from distressing, racking coughs, colds, croup and whooping cough. IT IS ALL GONE NOW.

Samuel L. Kramer, Box 95, Sellersville, Pa., writes: "I had kidney trouble for two years and had a terrible backache. That is all gone now after using Foley Kidney Pills and I fell well again." When the kidneys are overworked, weak, or diseased, the waste matter remains in the system and causes pains in side or back, rheumatism, lumbago, stiff joints, sore muscles, backacke. Foley Kidney Pills get results quickly and are tonic in their healing and soothing effect. Good for bladder trouble, too.—W. J. Mathewson.

"Where All Good Livers Live"

GREAT MID-SUMMER THRIFT SALE

Beginning Wednesday morning at 9:00 a. m., we will inaugurate, what we believe to be the greatest money-saving event in the shoe line that Port Angeles has ever witnessed. We intend to start at that time a Great Mid-Summer Thrift Sale of Shoes. We have not marked up our goods in order to camouflage a so-called reduction. The old price mark is still on every box. We are actually making a minimum of 10 per cent discount on all goods, in fact the reduction in some cases is nearer 50%.

Don't Wait! Come Early While Selection is Good!

We advise all to get to the store early in the sale, for the selection will be better, and consequently the opportunity for thrifty buying is better.
