PLAN TO MAKE COUNTY FAIR AN IMPORTANT INSTITUTION

COMMUNISTIC LEANING OF LABOR LEADERS BARRIER TO COMBINE

(By Associated Press)

CHICAGO, July 15.—The committee on procedure appointed by the Committe of 48 this morning reported late today recommending that the body continue to function as a national political party with a complete set of national and state officers. While provision was made in the recommendation to call a national convention, no mention was made of a specific time at which it would be called.

The recommendation states that not having obtained its object, "the party should continue to function to this end."

About 200 of the committee of 48 delegates assembled at another hall during the recess. Allen McCurdy made an address full of feeling and before they adjourned it was clearly indicated that many of them were far separated from the labor group.

"We tried to get up a party for just average Americans," McCurdy said. "We have been thrown together with a group, who are working for Marxian Socialism. There isn't any emnity in me when I say this; I have been trying to say it for two days."

"There has been an irreconcilable difference between some of us in the committee of 48 and the leaders of the labor group. It is all expressed in one word in the majority report; where it stands for 'increasing' control of industry by the workers. That means that they want to sink the foundation of the new party deep into communism."

Defections from the ranks of the new party began last evening when it was shown that the minority report of the platform committee would be ove whelmingly defeated. James Ferguson, former governor of Texas, was the first to openly pull out of the meeting. He was followed by delegates from several states, one of whom was identified with the labor party.

A near stampede developed when an attempt was made to forestall introduction of the majority platform report by the submission to the convention of a report that was reputed to be acceptable to Senator R. M. LaFollette. The senator's friends declared the contention was "boss ridden and clique controlled," and that the senator's own platform ideas had been buried in secret committee meetings.

The storm broke with all the fury of a riot and LaFollette delegates were quick to seize the psychological moment to spring their presidential boom. A big photograph of the senator, flag draped and a huge red banner inscribed with his name were swung before the convention and the demonstration was on. It lasted about three quarters of an hour. Then a move was made to read the senator's platform, but it was blocked by the decision of the chairman that the majority report of the committee on resolutions was before the convention and must be dealt with first. The LaFollette platform was never brought up again.

The next five-day period will prove highly important in The Herald's grand competition. The greatest vote offer of the contest is now in force and gives the candidates the best possible chance to get a big start for the prize list. Those who are wise will not waste a moment of the coming week, but will make hay while the sun shines.

The coming five days will prove highly important. The greatest vote offer of the entire campaign is NOW IN FORCE and offers the opportune time for candidates, both present and prospective, to get a lead in the race. Those who are wise will be busy at once and gather in a harvest of extra votes during this present vote schedule.

Those who have been thinking of entering the big gift distribution campaign and those whose names now appear in the list, but as yet have not started an active campaign will find no better time to do so than right now. With the present big vote schedule in effect giving a new candidate a chance to pile up votes on the double quick, no one should delay entering the big campaign with determination and earnestness to win this very week.

The Herald's big contest offers people of this community an opportunity to choose from the greatest and most costly list of gifts ever offered in this part of the state. The beautiful

AIRPLANES OFF ON LONG TRIP TO THE NORTH

(By Associated Press)

MINEOLA, New York, July 15. — Four army airplanes comprising the Alaskan flying expedition, left Mitchel Field at 12:33 o'clock this afternoon on a 9,000 mile roundtrip flight to Nome, Alaska in one of the longest and most difficult air trips ever attempted in the western hemisphere.

EXCURSIONISTS TO TACOMA ARE GETTING BUSY.

The first report of those who are going on the excursion to Tacoma, on July 22, to visit the Experiment Station at Puyallup, was made this morning by Clark Chambers who is filled with that kind of "pep" that does things in a hurry. Clark reported ten names which is a good start on the list of fifty that is required to obtain the special reduction in rates. If others report such success as this, the trip is assured.

There are a lot of things at the experiment station to see and much that everyone would like to know. Annual pilgrimages there will make farming more profitable and farm homes more enjoyable.

ARMENIAN ARMY ROUTS TURK FORCE.

(By Associated Press)

LONDON, July 15.—The Armenian army, encouraged by Greek successes in Asia Minor, has successfully attacked Tartars and Turkish nationalists of Mustapha Kemal Pasha's forces and occupied the region of Zagobas, says an Athens dispatch of Tuesday to the Exchange Telegraph, quoting reports from Tiflis. The Turks abandoned prisoners and war materials and fled towards the Aras river in the Erzerum district.

Karaghatch reports confirm that the Turks and Bulgars are co-operating, the dispatch adds.

FIRST CYCLE RIDE FATAL TO WOMAN

(By Associated Press)

TACOMA, July 15.—For two years Adolph Gertig had promised a motorcycle ride to Mrs. Becklund, the wife of a friend.

Last night after a dinner party Mrs. Becklund asked for the ride. She got into the side car of Gertig's cycle.

This morning Mr. Becklund identified the body of a woman in the morgue as his wife. Gertig is in the county hospital at the point of death.

The motorcycle ran into the rear end of an automobile and the woman's head was crushed. Gertig has a compound fracture of the skull and internal injpries.

HAY CROPS SUFFER BY THE HEAVY RAINS.

The heavy rains have done damage to hay crops in various parts of the county, according to word received by The Herald from both the west and east ends. In the center part of the county also some grain fields are reported to have suffered by the late rain and the cutting of the crops will be difficult.

In the Dungeness section and in the west end a number of ranchers had cut their hay before the first of the late rains and the hay lay on the ground since that time getting two dousings.

Miss Edith Bohl, of Sequim, has also entered the contest and expects to make a wonderful campaign and sportsmanlike fight for the first prize.

MIND IS BLANK; WANDERER MAY BE FROM ANGELES

(Special to Daily Herald.)

YAKIMA, July 15.—A stranger has arrived in Yakima whose mind is blank. He can remember neither his name nor whence he came. He was found wandering along a road 16 miles east of Yakima and is being cared for by a rancher named A. B. Stokes.

The stranger weighs 180 or 190 pounds. He is a little gray and has a sandy moustache. He is 5 feet, 10 inches in height with blue eyes. He probably has been in good circumstances.

The only thing which might help to prove his identity is a letterhead bearing the name of A. B. McCart, of Port Angeles.

Mr. Stokes will be glad to get any information that may lead to the identification of his guest.

MUSICAL COMEDY CO. MAKES A HIT.

Kelly's Musical Comedy Company, now holding forth at the Opera House, pleased two large crowds last night. The feature being "Casey the Fiddler." Kelly in the role of Casey, was a hit. His Irish brogue, and clever wit kept the large crowds in a continuous uproar.

Last night saw Grace Kneeland in a different character. She was transformed and her handling of the haughty society dame in contrast with the night before when she impersonated a farmer's wife spoke worlds for her versatility. In fact the whole company was forced to assume almost opposite characters from what they had the evening before.

The farce itself is an exceptionally good vehicle for the display of talent, for it called for a lot of clever acting Teddy Magnus, the petite little soubrette was, as usual a big hit and received encore after encore, every time she appeared on the stage. Jack Lawless as the husband of a jealous woman carried out the idea to perfection, demonstrating clearly that he was just as jealous as was his wife. Jerry Gibson, as a Whitechapel chapple was a hit.

Ellis Hemsley again charmed the audience with his tenor. He sang several songs and sang them well. The entire chorus worked better last night than ever before.

Friday night will be amateur night and all amateurs are invited to appear. In addition there will be one of those old time laugh producing pie-eating contests.

Tonight is ladies' night and all ladies will be admitted free.

NEW DENTAL PARLORS TO OPEN MONDAY.

It was stated this morning that the Modern Dental Parlors, which will be located in the new Harrington-Giles Bulding will be open and ready for practice Monday morning. Dr. Tom H. White, for a number of years located in Bremerton, and Dr. R. Y. Hunt, formerly of Seattle, are the dentists who will operate the new dental parlors.

Dr. Hunt will manage the parlors. He is a dental surgeon and will have charge of the operations, while Dr. White will take care of the prosthetics.

There are to be two operating rooms and a complete dental laboratory in connection with the parlors. Drs. White and Hunt are sparing no expense to make of their parlors as up-to-date as any in the state. They are both men of wide and successful experience in their profession.

SHAMROCK WINS AS RIVAL HAS A BREAKDOWN

(By Associated Press)

SANDY HOOK, July 15.— Shamrock IV, British challenger for the America cup today won the first race of the 1920 regatta, sailing across the finish line at 4:25-30 unofficial time after the Resolute had been withdrawn because of a mishap to her rigging.

SANDY HOOK, New Jersey, July 15.—Victory apparently lay with the British in the first race of 1920 for the America Cup.

Parting of halyards on the American defender Resolute resulted in her being withdrawn from today's contest after beating Sir Thomas Lipton's yacht to the turning mark in a 30-mile race.

Giving the American sloop a wide berth, the Irish sailor's pride swept on towards the finish, while the defender was taken in tow by her steam tender.

The Shamrock crossed the finish line at 4:25-30, having shown no intention of withdrawing on account of the Resolute's accident.

At the time of the mishap the Resolute was leading Shamrock by approximately half a mile. The race up to this time had been somewhat of a drifting match and the poor showing made by the Irish craft was disappointing to many of her supporters, who had supposed the challenger to be a ghost in light winds.

The time of starting was: Resolute, 12:00-40; Shamrock, 12:01-38. The Irish yacht crossed the starting line ahead of time and had to recross. From the start Resolute drew away from the Shamrock and when the vessel had traveled ten miles she was 4 minutes, 35 seconds ahead of Sir Thomas Lipton's yacht.

Resolute's mishap came in a dramatic manner as the two great sloops, driving through an electrical storm and torrential rain, were bearing down upon their turning mark.

Frot he start until the time until her halyards parted the American boat had easily the upper hand. The defender increased her lead steadily on the 15-mile beat to windward which comprises the first leg of the race. Her crew handled the head sails with greater skill and speed and was leading by half a mile when without warning her throat halyards snapped. The Resolute thereupon withdrew and was taken in tow by her tender. Resolute's broken gear can easily be repaired and the two yachts will said the second race over the triangular course next Saturday accordinf to a wireless message from the official press boat late today.

Announcement by the race committee that Shamrock IV, Sir Thomas Lipton's mystery sloop, must give Resolute, American defender, a handicap of seven minutes and one second because of the challenger's greater spread of canvas, was coupled with another announcement that the committee had granted a request by the Irish yachtsman's forces for remeasurement of certain of the Shamrock's sails.

As it was impossible to put her canvas under tape and the yachts will be racing off Sandy Hook tomorrow, the work may not be done before Friday.

COMMITTEE APPOINTED TO ORGANIZE COUNTY FAIR ASSOCIATION

Whether the Clallam County fair schall be adaquately financed and economically managed by an organized citizenship of Clalla mCounty, was the question discussed from many angles at a meeting of representative men and women of Sequim, Dungeness and Port Angeles, held yesterday, with P. S. Govan presiding and A. W. Holland acting as secretary.

The county commissioners have been appropriating money for a county fair and have leased suitable grounds to be improved for the purpose. The opinion at the meeting favored an organization of citizens of the county with sufficient funds to supplement the appropriation of the Commissioners to construct adequate buildings on the grounds and otherwise make permanent improvements that would house a creditable county fair and render it possible to secure value received for all money expended.

Frank Lotzgesell of Dungeness, commented upon the excellent natural facilities of the grounds selected by the Commissioners for the fair and the comparatively small expense involved in putting them in suitable condition.

Secretary Taylor of the Port Angeles Commercial Club, said that while the County commissioners had obtained the grounds and promised to set aside $2500 each year, the amount specified by law, there would still be no adequate provision for financing a county fair and little value could be realized from the money expended for several years to come. He said he would be willing to go out over the county with any of the members of the committee who wanted him to help in perfecting the proper organization.

Mrs. Thad Wagoner, of Sequim, said that she felt that the state law which provides for county fairs insures all members of the Fair Association that their money would be well and wisely invested and people would be more willing to put their money in the association under that assurance.

A motion was made by Mrs. Govan of Sequim, and seconded by Mr. Willis Chambers that a committee be appointed consistaing of one member in each community to solicit membership pledges for a Clallam County Fair Association.

The committee appointed is Frank Lotzgesell, Dungeness; Ed Hooker, of Carlsborg; P. S. Govan, Sequim; W. C. Mitchell, Blyn; Willis Chambers, Fairview; W. H. Taylor, of the Commercial Club, Port Angeles; Mrs. Chas. Forsburg, Dry Creek; Dan Kelley, Eden Valley; Mrs. Tom Lauridsen, Upper Elwha, Geo. Palmer, Forks.

THURSDAY, JULY 15, 1920

Editorial

A VERY SIMPLE PROPOSITION.

Without entering into any controversy—for there is no room for any argument in the matter—The Herald would like to correct any misinformation current regarding the award of the city printing contract for the ensuing year. The Herald's bid was the lowest of the two, and the award would have been voted automaticaly by all members of the council, had it not been for a little pre-arranged conspiracy to award it to another paper at the expense of the taxpayers. The alternative plan, if this could not be done, was to make a fuss and have the bids called for a second time after The Herald's bid had been disclosed. There were six councilmen present and two of them chose not to vote, hoping through a misunderstanding of the law, to thus bring about a second call for bids. Two voted to award the contract to the lowest bidder and one against. The contract was then properly awarded. The opinion of the city attorney on the subject, dated December 16, 1919, and repeated at this time is as follows:

"Hon. J. L. Pegram,

"Mayor City of Port Angeles:

"Dear Sir:

"Answering your inquiry of the 9th inst. beg to advise that it is my opinion that where a quorum is present a majority vote of such quorum carries any question, even to the extent of spending money, excepting, however, any ordinance or resolution which requires four votes and the granting of a franchise which requires five votes."

"Respectfully submitted,

"GEORGE H. KING,
'City Attorney."

The contract for city printing is not an ordinance requiring four votes or a franchise requiring five, but part of the ordinary routine business of the city, as provided by the state law, which says that the contract must go to the lowest bidder.

THE BREAK AT CHICAGO.

The result of the efforts made to construct a third party out of the various groups and cults at present conventioning in the Windy City was what might have been expected. The Committee of Forty-Eight last night left the combined convention and the more or less radical leaders of the new Labor Party remained in control. The split followed the failure of the Committee of Forty-Eight and other cults to obtain a "reasonable" platform which the Labor Party would accept. In point of fact the labor men's distrust of the "slickers" of the Committee of Forty-Eight, same "slickers" probably included Amos Pinchot, one of America's greatest landowners, James E. Ferguson, one time governor of Texas; J. A. H. Hopkins and other men known nationally, was the fatal flaw which insured failure from the outset of the movement.

The net result of the inability of the various factions to get together on a common platform is that the Third party movement this year is a failure. The field is clear to the two old parties, between which no real political issue has yet developed.

Daily Editorial Digest.

GOMPERS' LOST FIGHT AGAINST GOVERNMENT OWNERSHIP.

When the American Federation of Labon convention passed its resolution in favor of "government ownership and democratic control" of the railroads, despite the opposition of Samuel Gompers, a great many American editorial writers felt that the radical element had gained command. Some newspapers, however, consider that the resolution represented neither the unions nor the people, that its "un-American philosophy" would split the Federation and injure the cause of union labor.

The New York Call (Soc.) sees little value in the step taken by the convention unless "democratic management" means that "a large measure of administrative control" is to pass into the hands of the workers, but doubts that this was in the minds of most of the voters, and considers that there is no need of regarding the acceptance of the resolution "as any change of policy." In contradiction of this view the New York World (Dem.) asserts that "this action is of deep significance as showing the strength of the new element that seeks to direct the aims and purposes of organized labor," and lead it up "the broad path of Socialism," fair only in its beginnings, with "the steep and narrow places of the middle distance all concealed by the rich foliage of the foreground."

The convention's departure "contrary to the advice" of Gompers means a cleavage in the organization, the Manchester Union (Ind. Rep.) believes in which the general public is preeminently interested, for it is "based upon class selfishness and not upon the whole welfare of the people." In the opinion of the New York Times (Ind. Dem.) it will react against the unions, for it is "abhorrent to American institutions . . . . The spirit that has so often misled the American workingman is tempting him once more."

The Buffalo Commercial (Ind.) blames Mr. Gompers for the whole affair:

"He was right in opposing government ownership. But he made his mistake in not fighting the elements that worked for these things long before they could get into a position to dominate the situation. He played with fire and got his fingers burnt."

Indeed, it was "the machine he built," says the Los Angeles Times (Ind.) which got beyond his control; "he knows that it has parted company with public opinion, that it is passing into a maelstrom of dissention and violence that must lead to ultimate disintegration, but he is powerless to check its course."

But not all the writers "view with alarm" the labor convention's action. Says the Boston Herald (Ind. Rep.):

"It will be a long time before the Federation or any group of its members will be able to persuade Congress or the American people to adopt so radical and confiscatory a policy as this; and it is open to grave doubt whether the delegates who supported this issue as against Mr. Gompers accurately represented the wishes of their memberships."

That the expression of the assembled unions was not representative the Richmond (Ind.) Item (Ind.) also believes, for "Mr. Gompers has a wide influence in labor circles and in spite of his defeat the fact that the Socialists, with their big slush fund, have been able to take Gompers' power from him does not mean that all organized labor will turn down his warnings and his sound advice." And the Richmond (Va.) News Leader (Ind. Dem.) adds, "tens of thousands of trade unionists have no more sympathy with government ownership than the great body of American citizens."

On the other hand the Wichita Eagle (Ind.) ocnsiders that the passing of the resolution shows that "Gompers is some years behind his people," and foreshadows a "transformation" in the labor movement; while the Lincoln (Neb.) State ournal (Ind. Rep.) says:

"The American Federation of Labor has been probably the most conservative labor organization in the world, it has been capitalistic, not socialistic. Its aims have been merely to secure a more favorable division of profits. What we now see is a drifting away from that old mooring. The old machine is breaking up. We may expect rapid changes in the labor movement from this time on, with Mr. Gompers continuing on the wane as a symbol of the passing of nineteenth century labor movement forms and ideas."

KEEP UP TO THE MARK.

Good health is impossible when the kidney are weak, overworked or diseased. When they fail to filter out of the blood the poisons and impurities that cause sore, swollen muscles and joints, backache or rheumatic pains, prompt steps should be taken to give the kidneys and bladder the help these symptoms nidicate they need. James Carmen, Mayfield, Ky., writes: "I are in good shape and can say I found Foley Kidney Pills certainly fine. I can't say enough for them."—W. J. Mathewson, Agent.

Reports to the Chamber of Commerce from Ellensburg and Yakima state that there is an over supply of farm labor in those sections. Those cities are anxious to stop the supply of itinerant laborers going there. There will be no demand for extra help in the Yakima district until the middle of September when the hop and apple harvets will need men. The release of men from the lumber mills and the desire of students to get work in vacation is the cause of the over supply.

IN YE OLDEN TIME

Hoop skirts were worn by those who first asked the druggist for, and insisted on having, the genuine Golden Medical Discovery put up by Dr. Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

Dr. Pierce's Favorite Prescription for weak women has never been equalled for the distressing complaints incident to womanhood. What others say:

Coming to Seattle?

NEXT FIVE DAYS MAY DECIDE WHO WINS THE BIG PRIZE

(Continued from page one)

1920 Ford Sedan car of the latest model; hundreds of dollars in cash commissions stand awaiting you. While the Herald has been receiving hundreds of clipped coupons from the paper for the various candidates, and a great many subscribers have paid up their old accounts, and renewed their subscriptions, giving their votes to their favorites, only a few candidates have really commenced their campaign in earnest. And this is the time to do that very thing—this is the time to get your subscriptions in while they count for so many votes. Those who have the foresight to see the tremendous value in votes of subscriptions as compared with the coupons and get their campaigns started while the present big vote schedule is in effect, will be well paid for their efforts.

This is the week to enter and pile up votes on the big vote schedule. Start out now in earnest and you will be surprised at what you can accomplish with the assistance of the biggest vote offer of the entire race.

Just as in a horse race, the runners have started out closely bunched as they leave the barrier, but from now on it can be expected that those making the greatest efforts are bound to pull out in front of the slower ones.

Some of the candidates in the lsts are beginning to concentrate their efforts in "electioneering" on the securing of subscriptions and renewals.

The Herald campaign is a short one —it's "all out and over" next month. All prizes, cash and automobiles, will be distributed in August—and this is July 15.

Those persons who have been contemplating entering the mammoth prize distribution should not delay sending in their nomination blanks, and getting busy at once. Time is flying, and the entire campaign will be over before it is realized.

Here's a prediction that is going to come true when this election is over—just as certain as fate. When the final count is made and the prizes distributed, there's going to be a lot of persons figure up just easily some of these vauauble awards are won and see that they could have done just as well or better. The sensible thing to do from a good business standpoint is to enter the election NOW and share in the distribution. It will be hard to make money easier or faster than in the Herald distribution.
