If your baby had taken 1st prize as the very bestest under six months would you want some other Jones's kid to get the credit for being good? Nit, Nay, and No Sir! That's why we're passing you the word 'twas Fred's and not John Machenheimer's baby that won the aforesaid award at the Yeoman's.

W. A. Rogers, financial secretary of the local lodge of Oddfellows, attended the big meeting of that order in Seattle Monday night, when to celebrate the presence of the grand lodge officers on their yearly visit, the first degree was conferred on a class of candidates by Rainier Degree Staff of Tacoma; over 700 were present.

Last Sunday was Temperance Day and the services at the Congregational church in the evening were devoted to the work. J. E. Cochran and G. C. DeSwarte spoke entertainingly of the great work accomplished along all lines, for the church, society, and the state, and with hopefulness for the future. The meeting was a decided success.

T. R. Wilber, state sanitary inspector of the state board of health, was in our city Thursday. He advised the ladies clubs of the city to take up the work of starting a crusade against the terrible unsanitary conditions of our down town business districts and said the state officers would be glad to lend their assistance in seeing that the laws were enforced. Mr. Wilbur said the state board of health was under obligations to the ladies clubs of the state, who had been its chief support in the good work it is doing for the betterment of sanitary conditions.

Two strangers passing along Front street yesterday, noticing the fine celery displayed by our grocerymen, one remarked, "I never saw such fine celery before." "Yes," was the answer, "and they tell me it was grown here." As this paper has remarked before, Dermul's celery beats the world as to size and quality. He grows it in his graden here in Port Angeles.

The semi-annaul election of officers took place at the Oddfellows regular gathering Monday night, the 3rd, and celebrated with a IC 3rd. The following officers were elected: Noble Grand, P. F. Harley; Vice Grand, A. J. Cosser; Rec. Secretary, C. E. Gordon; Fin. Secretary, W. G. Rogers; Treasurer, E. A. Prickett; Trustee, J. E. Bigelow. Six new names were submitted for initiation.

A great treat is in store for those who attend the next meeting of the Congregational Brotherhood, to be held at the church Monday evening, Nov. 17. Rev. VanHorn of Plymouth Church, Seattle, has promised to be present and address the meeting. Mrs. Stephen Smith will read the Outlook report and Miss Wiggins will give a reading. The meeting is to be an open one to which ladies are invited. A banquet will precede the program.

The Women's Club of Sequim has been active the past few months trying to get a ladies' rest room, and at last their efforts have been crowned with success. The Lamoreaux Pharmacy donated the space and all the other public spirited citizens of Sequim loaned their assistance in some material way or gave money. The big Seattle firms were appealed to and gave most of the furnishings and now Sequim can indeed boast of a convenient, comfortable rest room with all due credit to the committee in charge, headed by Mrs. Ed Gierin as chairman.

"North Yakima's school system will be fashioned hereafter to meet Yakima requirements and without regard to university requirements or courses used in other institutions, according to theories advanced and generally approved at a meeting of the school board, says a dispatch from that city.

"Supt. A. A. Davis, who is working out a new course of study, declared that the curriculum should be designed to meet the needs of students who will go out into active work at the end of their school course instead of those who will enter an institution of higher education.

The Bible class of the M. E. church held its monthly class meeting in the Epworth hall last Friday evening. Committee No. 2, of which Mrs. P. E. Graves was chairman, had charge of the evening. The hall was beautifully decorated, the walls with flowers, ferns, and autumn leaves, the ceiling and archway with Japanese lanterns. The tables were adorned with glass, silver and golden candle sticks, in which were burning wax candles. Following the business session of the class, was a very entertaining program. Miss Edna Holt rendered a solo, Mrs. E. O. Brown a reading, the Messrs. Holt and Brown a duet, Miss Mary Brown a solo; all numbers were heartily encored. Last but not least came the refreshments which were sweet, rich and abundant. The attendance was large. All went home rejoicing that they were members of the M. E. Bible class.

Another business change has taken place in the Port Angeles Grocery Company, one of the oldest established firms in the city, which was recently purchased by Morse & McNutt from F. A. Stiles. Mr. Morse now retires from the firm, having sold his interest to Fred Wescott, Jr., who has been clerking in the store for some time. Mr. Wescott came here a few years ago with his parents from Seattle and attended High School until the present year. He is a young man of excellent habits and good business ability and, as both he and Cecil are hustlers, the firm ought to continue to do the same flourishing business it has in the past.

If you are on the market for an automobile, don't fail to see and investigate the "MAXWELL," the car with a reputation for durability and with a factory behind it. E. F. Stoner with Fisher & Hickok, agent, Port Angeles, Wash.

Mr. Chris Kuppler is putting up for rent another bungalow just back of the one he built across from the new school house.

LINCOLN HEIGHTS

The Inspector of the W. R. C. inspected the Corps at this place Friday night and Saturday morning. Mesdames Grace Filion and Opha Meredith, with a number of others accompanied her to Sequim. They report a most enjoyable time and a sumptuous dinner served by the W. R. C. ladies of that thriving city.

Another of our bachelors, name unknown, has committed matrimony. The boys treated the newly-weds to some noise Monday night, which probably disturbed others more than those for whom it was intended.

Complaints are being made of the mysterious disappearance of poultry. A word of warning is given. Even the women can shoot a gun and might accidentally hit the thief.

Mrs. George Cowan has been ailing for some time and is under the doctor's care.

Mrs. Edna Harding has been at Dr. Taylor's hospital assisting her friend Miss Suthard, to care for the inmates of the hospital.

Glen Fleming is nursing a sore hand, the result of having a finger dislocated.

E. B. Fleming and family were Sunday visitors at Geo. Critchfield's..

Frank Crossly and wife and J. B. Fleming and wife partook of a fine chicken dinner at Harley Clark's last Sunday.

R. A. Martin and family have come back to the Heights and are living with their daughter, Mrs. Meals.

Henry Jackson, who was kicked on the leg by a horse abou. a month ago, has had a very bad time and at present is able to sit up but a few minutes at a time.

Charles A. Filion made a business trip to Sequim Saturday.

THE WOMEN'S AUXILIARY

The regular monthly meeting of the Women's Auxiliary to the Commercial Club was held in the library room Tuesday afternoon. After the usual routine of business, approving of bills, etc., the librarian gave her monthly report which was very encouraging and shows an increasing interest in the library. She reported a gift to the library of twelve of the late books of fiction by Mrs. Donald McGillivray. A vote of thanks from the Auxiliary was extended to Mrs. McGillivray for her donation. The committee on arrangements for moving the library building reported that they hoped to have something definite to give out in another week, as all are anxious to get the building moved before grading begins. Mrs. Frank Fisher, chairman of the whist tournament committee, reported almost eighteen dollars cleared at the tournament given a few weeks ago in the opera house. Mrs E. B. Webster then announced that she had been authorized by Mr. Callarman, ticket agent for the Inland Navigation Co., to inform the ladies that his company would give as two head prizes for the next whist tournament, two round trip tickets to Seattle. This generous gift was accepted with a hearty vote of thanks to both Mr. Callarman and the Navigation Company for their kindness and generosity. It was then decided to give another whist tournament in the opera house, Friday evening, November 21st. The tickets will go to the lady and gentleman getting highest scores without regard to their being married or single, and two other handsome prizes will be given.

If Senator Cummins succeeds in the reorganization of the republican party it will be very easy to name the logical republican candidate for the next presidency.

Senator Clapp says the president got through the tariff bill by holding up 200,000 jobs. It must be evident Senator Clapp does not expect to hand out any of the pie.

Raymond has secured free postal delivery—which is in part paid for by the application of the two-cent rate to all drop letters, and one cent each on all local papers delivered by carrier.

Harry Thaw has been indicted again for conspiracy. The indicting of an insane man for using his mind in a rational manner raises a legal question tht will puzzle the most profound judges.

A new counterfeit $5 silver certificate has made its appearance. They are easy to detect, providing you can get another to make comparison. Aye, there's the rub.

The second half of 1912 taxes become delinquent the 1st of December and if not paid before that date draw interest from the 1st of June at 15 per cent per annum. The second half is the same as the first half and no statement is required, so send in your money before the taxes are delinquent.

Four houses in Bremerton and two in Charleston have been closed as nuisances under the red light law, the evidence having been obtained by the same detectives who were employed in Port Townsend. The owners of one building have been permitted to reopen for other purposes by paying a fine of $300 and giving a $5,000 bond.

The Spokane Democrat in commenting on this year's primary election in Spokane, spoke with enthusiasm of the large per cent of the vote cast by women. In some wards it reached as high as 40 and 50 per cent of the whole vote cast. But more than in numbers is to be observed the effect for cleanliness, good order and decency shown at the polling places, almost without exception due to the influence of women.

Herman Loeb, who has charge of the departemnt of supplies for the city of Philadelphia, makes a very unique proposition. He offers to give up his $10,000 salary, and in addition pay the annual expenses of his office, some $7,000, if the city will allow him to do the business of his department on a business basis and give him the profits. He estimates that his income will be over $100,000. This is an illustration of the loose methods in which the municipal affairs of the larger cities of the country are run.

C. W. Estes, deputy collector of internal revenue, states that he has a list of one hundred "prospects" in Clallam and Jefferson, who may have to pay income tax. Blanks will be sent them, and they will be required to make return by March 1st, under penalty of from $20 to $1,000. If anyone knowing himself to be liable to the tax, makes no return, he is likely to find himself checked up in some other manner and liable to a fine, even tho no blanks may have been sent him. Those whose income exceeds $3,000 if single, or $4,000 if married, must come across. This it is estimated, will include about thirty real estate men in Angeles alone.

The inmates of Walla Walla penitentiary are putting out a publication known as "Our Dope Book," its object being to bring about a better understanding between those outside and those inside the prison walls and they hope to secure a large subscription list from those interested in advanced methods in prison management. The Club women of the State have been appealed to and are enthusiastically lending their assistance to further this good work. The Dope Book is a very creditable publication and well worth the price $1.00 per year.

The Mexican election did not amount to the dignity of a farce and it is given out that President Wilson will not recognize the new government. There are supposed to be something like 3,600,000 voters in the country, 80,000 having franchises, and of these only about 10,000 votes were cast. A man holding a franchise has 100 men working for him. He goes to the polls with a list of their names and he votes for them all, no matter what their choice may be. No wonder peace is hard to get and maintain in that country.

It caused considerable amusement among the lawyers and attendants in the county court in Brooklyn the other day, when the roll of the jurors in a case before Judge Tallmadge was read and disclosed the fact that there were a Fisher, a Fish and a Fishline among the members of the jury. One of the lawyers said they had everything but "bait," but he was sternly rebuked by the district attorney who said he ought to "get the hook." Then the court proceeded to angle for the facts in the case.

Bellingham seems to be enjoying the same distinction that is Seattle's at this time, an influx of "stick-up" men. Holdups have grown so numerous that persons compelled to be out at late hours are asking the police for escorts. A clergyman set the pace in this regard when he asked for a bodyguard to take him to the Great Northern station in the morning. No arrests have been made.

There was an imposing sight at Hampton Roads, Va., when nine dreadnaughts of the United States navy sailed eastward to the European coasts. Of course they go on a mission of peace and good will, yet at the same time it is an intimation to the crowned heads that if trouble should come, this country is in good condition to maintain her dignity.

"Old age pensions in Great Britain were long opposed as financially impossible," observes Professor Taussig; "yet Great Britain, when her people's blood was up for the South African War, taxed herself without hesitation for sums much greater than any old-age pensions could require. If the impulse of sympathy were as strong as the ancient and brutal fighting instinct, we should hear little of financial obstacles in the way of schemes for far-reaching social improvements."

Suppose some one had suggested that the Balkan states go to the verge of insolvency for the purpose of educating their half-savage inhabitants. Probably he would have been committed to a lunatic asylum or shot on the spot. But insolvency for the sake of war was thankfully embraced. For some years Germany has been heavily burdened financially. No responsible German statesman would have dreamed of proposing, last spring, to raise one billion marks by extraordinary taxation of the most drastic sort of any humane purpose. But when the Kaiser made the proposal for war purposes there was little serious opposition. They will tell you at Washington that is is a clear impossibility t o spend twenty-five million dollars a year for five years in constructing good roads; but many estimable citizens grow purple with indignation because it spends only seven times that every year on army and navy.

THE "DEAD DUCK"

There is a certain quotation from he scriptures that is little known and much less noticed. It is this: "Where there is no vision, the people perish." That would be true even if it were not in the Good Book. It is equally true with the individual or a people as a whole. There must always be a hope, an aim, a looking upward, and a realization of better things ahead to waken inspiration and quicken endeavor, says the Ohio State Journal. So few people have this. They are constantly living from hand to mouth, never looking ahead from where they are standing.

They settle down to amusements, prisons, politics, sports and the passing shows, but never look upward, or try to unfold the future, and see nothing beyond the common run of life. They live for to-day only, nothing else. There is no inspiration for to-morrow. They buy, and sell, talk and laugh, eat and drink, and go to-bed to-day and tomorrow is the same. They have no dreams, no visions. They know nothing of a higher mark toward which to press forward. No heavenly vision as St. Paul expresses it. Now there must be something in a vision or the Bible would not say that the lack of it would bring destruction. This lack constitutes the dry rot we hear of—no incentive, no ambition, no hope. When an individual gets that way, sees no visions, has no dreams, he is the metaphorically "dead duck."

Wednesday, November 28th, is to be observed as Homeless Children's Day in the schools. Each pupil is requested to take his offering, a silver one if possible, and elect someone to see that it gets to the right place along with the rest. Nearly half a thousand orphans and homeless children were brought to the Washington Children's Home Society for care and homes last year. The Society endeavors to find homes and parents for everyone it can; it is for this that the children are asked to help.

"Plaster me up!" called Justin as he rushed into the house. "Me an' Red's been fighting'." "What was the disagreement about, Justin?" "Well, mama," he replied after considering the question for some moments, "it mostly was me a-thinkin I could lick Red, and him a-thinkin' he could lick me."

Gov. Glynn of New York promises an administration, "honest and peaceful." The governor must be an amateur, for honesty and peace never appeared together in the Empire state as long as Tammany was awake.

SONG OF THE FAIRIES.

We, the fairies, blithe and antic,
Of dimensions not gigantic,
Though the moonshine mostly keep us,
Oft in orchards frisk and peep us.

Stolen sweets are always sweeter,
Stolen kisses much completer;
Stolen looks are nice in chapels;
Stolen, stolen be your apples.

When to bed the world are bobbing,
Then's the time for orchard robbing,
Yet the fruit were scarce worth peeling
Were it not for stealing, stealing.

THE TUBERCULOSIS LAW

Several Counties Have Already Taken Advantage of Its Provisions.

At the time of the passage of the Tuberculosis law even some of its strongest supporters believed that considerable time might elapse before public officials generally would take advantage of its provisions, but such has not been the case. That the public and officials in certain counties at least are keenly alive to the value of tuberculosis hospitals and visiting nurse work is shown by their prompt and favorable action on these questions.

Ten days after Governor Lister signed the bill, Snohomish county through its anti-tuberculosis league authorized the employment of a visiting nurse. With the advice and assistance of the Washington Association for the Prevention and Relief of Tuberculosis a finely equipped visiting nurse from Chicago was employed. A few weeks later the Pierce County Commissioners appropriated $30,000 to erect and maintain a hospital for the care and treatment of tuberculosis patients. A forty acre site of exceptional merit for institutional purposes was secured and building will begin at once. In September, the commissioners of King county authorized the employment of a visiting nurse and at the same time Skagit county officials levied a half mill tax for the tuberculosis work in their county. The sum raised by this levy will provide for the visiting nurse hitherto employed by the local league, secure additional ground and do the necessary preliminary work for building.

Several counties have had the question of visiting nurses especially brought to the atention of their officials during the recent educational motion picture tour conducted by the Washington Association. Favorable action is hoped for in Thurston, Lewis, Clarke, Kittitas and Walla Walla counties soon. Any information regarding tuberculosis or literature may be secured by writing to the Association, 915 Cobb Building, Seattle.

THE NEWS FROM THE STATE CAPITOL

[From Our Regular Correspondent.]

DEPARTMENT CHECKING UP FOOD SUPPLIES

Olympia, Nov. 12.—The new state department of agriculture is performing a useful function in cooperating with the state board of control in checking up on the qualities of supplies furnished for the inmates of state institutions.

Dairy inspectors have recently made a tour of all state institutions, testing the butter being furnished. One firm, which had the contract for four state institutions, was living up to its contract in every way, furnishing high quality Washington creamery butter, as was contracted for, of good quality. Two other firms, however, one of which had contract for the Northern Hospital for the Insane, the Soldier's Home at Orting and the State Training School at Chehalis, were furnishing butter which the inspector described as undoubtedly a cold storage product, old and with a rancid flavor.

As the State specified good Washington creamery butter in its contracts, the board of control notified the superintendents of the institutions receiving low grade butter to buy their butter hereafter on the open market. The companies which failed to furnish the good butter will be forced to pay the difference between the price paid on the open market and the price for which their contract called, this being a provision of the contract, so that the state will not lose.

WASHINGTON'S MOST BOUNTIFUL YEAR

Governor Lister, fulfilling custom by following the lead of the president, has issued his first Thanksgiving proclamation.

After reviewing the advance in the country during the 292 years since the first Thanksgiving, the proclamation runs:

"Here in the state of Washington we are nearing the close of perhaps the most successful year of our statehood. We have enjoyed bountiful crops, we have brought a vastly increased acreage under production. We have been free from pestilence and free as well from disturbances of any character, either physical or mental. New blood, new enterprise, new energy, have come among us and assimilated with us to our very great benefit. Our institutions, and especially the institutions that make for a greater and nobler people and commonwealth, have been wonderfully augumented and expanded. During this year of grace, we have builded deeply and firmly the foundations for our future prosperity and well-being. We have gone forward along lines of true progress; on all sides are the evidences of peace and real happiness.

Now, therefore, I, Ernest Lister, governor of the state of Washington, in accordance with custom and by virtue of the authority vested in me by law, do hereby join the president of the United States in appointing Thursday, November 27, 1913, as a day of Thanksgiving and prayer, and I do earnestly recommend that on that day the people of the state of Washington desist from their usual vocations and in their homes and in the churches dedicate the day to charity and brotherly love and the returning of thanks to Almighty God for the manifold blessings that have been vouchsafed them, invoking divine guidance and continuation of these blessings through the days and years that are to come."

A SECOND HONOR CAMP TO BE ESTABLISHED

A second honor camp will be established immediately on the Pacific highway in Cowlitz county, Governor Lister having promised the convicts in Honor Camp No. 1, that if they made a success of their work, some of their comrades would be given a chance soon. The first honor camp has been in operation for two months now, with the prisoners working like beavers and no attempts whatever to escape. If the second honor camp is also successful two more camps may be started next spring. Another possibility is that the state rock quarries may be operated on an honor basis.

O. A. Weisgerber, who has charge of the construction of Samuel Hill's famous Maryhill road, will be in charge of the second honor camp. He has had much experience in practical road construction and also in the handling of convict labor in southern states.

Through a mistake of the last legislature it is impossible to convict a hunter for running deer with dogs, under a ruling of Superior Judge C. C. Claypool of Thurston and Mason counties. Although the legislature made hunting deer with dogs a gross misdemeanor and said the penalty should be "as hereinafter provided" it neglected to make any provision for punishment, thereby making the law ineffective.

The department of agriculture has started the prosecution of Seattle produce men who have taken infected and wormy apples, shipped to the city for vinegar manufacture and used them for sale on the open retail market in violation of the law.

The department of agriculture is expected to recommend to the next legislature enactment of a law providing for the pasteurization of all dairy milk from cows not tuberculin tested, as a protection against tuberculosis.

The supreme court was asked last week to decide whether the privilege tax assessed against express companies is unconstitutional. The Thurston county superior court recently held the tax invalid.

Plans have been completed for carrying the Washington workmen's compensation act to the supreme court of the United States.

MANY POOR APPLES ON THE MARKET

Growers and Dealers Notified by District Inspector Land that Law Will Be Enforced.

Port Angeles, Nov. 10th.

To the People of Port Angeles and Clallam County:

I wish to call your attention to the condition of horticultural products, many of which are in very poor condition. Many of the apples are not fit to be on the market and are not fit for any use but the cider mill. A great part of these products handled in Port Angeles would be rejected in any other city and will be hereafter in Angeles. Dealers and others will take warning that any fruit or vegetable found on the streets or in the stores will be condemned and destroyed. It is my duty to protect the people as well as to see that the state laws are obeyed. It is not my purpose to work any hardship on any dealer in this line of goods. I am also aware that the dealers are imposed on in many cases.

Grades of apples: No. 1, free from any imperfections. No. 2, one or two spots of scab not larger than a pea. All lower grades go for cider.

SPRAYING REMEDIES

For oyster shell scale, aphis, and other insect eggs: Fish oil soap 10 pounds (dissolved in ten gallons hot water); lye 2 pounds (dissolved in one gallon water); mix, add water to make 88 gallons, run agitator at full speed; add crude oil 10 gallons; when emulsified do not add anything else to the spray liquid or free oil will separate.

Lime Sulphur Solution: Commercial lime sulphur one part; water eight parts. Either of these sprays will do for insect pests.

For black spot canker spray in November and December with lime sulphur solution, one part solution to eight parts water.

Summer sprays for aphis and other insect pests: Tobacco blackleaf 40, 12 1-2 pounds; fish oil soap 35 pounds; water 1,000 gallons.

These are the sprays recommended by the State College; it is hoped that the people will make more use of them hereafter.

ANNIVERSARY DAY AT CONGREGATIONAL CHURCH

Review of the Work Accomplished During Five Year Pastorate of Rev. Stephen Smith.

Last Sunday was Anniversary Day at the First Congregational church. The address by the pastor was mostly in the nature of a review of the work of the church during the past five years. Five years ago, Sunday, Nov. 8, 1908, Rev. Stephen Smith assumed the pastorate prayerfully and hopefully and his words Sunday were full of encouragement and determination for the future.

The church was prettily decorated with flowers that bloom so beautifully in the yards of Port Angeles at this time of the year. A large jardinier of red, yellow, pink, and white roses graced the communion table in front of the pulpit. Large bouquets of white chrysanthemums, yellow nasturtiums, vines and red berries were placed on the platform and near the pulpit.

A strong choir of nine voices furnished inspiring music for the occasion. The organ and violin prelude by Mrs. Smith and Mr. Isbell was worthy of special mention, as was the solo by Mrs. Luppen.

When Rev. Smith first came to Port Angeles he found the church heavily in debt, a lack of interest in church affairs, the society weak and poorly organized. During his pastorate of five years the church prospered as never before. With a determination worthy of the man he set to work soliciting funds from his more favored friends in the East and has worked ardently and untiringly for the upbuilding of the church and society and for the payment of the debts of the church. How well he has succeeded is told in the following concise report of the work:

"The parsonage was built, but needed an expenditure of $180. This money I saw must come from outside sources, as the parish owed $600 on the parsonage. I took the matter up with friends and have raised in all for the parsonage $400. I am still working at the debt and hope to get it cleared up. For our new church manual, we are indebted to Mr. Coleman for the money. The individual communion service is a gift from two Congregational ministers. The clock a gift from Mrs. Kemp. The collection plates from a member of the Ladies' Aid, the pulpit bible from Mrs. Williams. The repairs on this room is the best piece of work we have done. Mrs. Smith wanted a carpet for the church. We selected twelve persons whom we know in the East and sent them letters, asking the Lord for results; ten out of twelve answers came back with checks amounting to $180. If you have any doubt about the Lord being back of this move, ask twelve of your friends in the East for $180 to pay on the parsonage debt. The Ladies' Aid has earned and dispensed $828.60. From the standpoint of material things we certainly have reason to thank God and take courage. Five years ago we had 35 members, 25 resident and 10 non-resident. Since then we have received 39 new members. We have lost 5 by death and 2 by demissions, leaving us 55 resident members and 14 non-resident. This does not represent the Christian force of the church, as we have over 20 church members identified with us in the work, who have not yet presented their letters.

This review will bring before you in a concrete way some of the things we have accomplished. But the things seen are a very small part of the work of the church. The great things are out of sight. The foundation stones we have been putting in, upon which God is building his spiritual temple in this city."

Three new members were added to the finance committee, Dr. Warner, Cecil McNutt and C. D. Harding.

It not only gives you a perfect figure, but is restful and comfortable. Doctors recommend Spirella Corsets. Miss MacClure, agent.

FRONT STREET IMPROVEMENT

Condemnation Proceedings Necessary to Secure Street Through to Base of Spit.

A most important meeting of the City Council was held Tuesday night, with all members present, excepting of course the Sixth ward. Among the features of the evening's deliberations were the adoption of the downtown improvements ordinance, the consideration of the Third street assessment roll, the extension of Third street and the promise of a suit unless arrangements are made before City attempts to cross the Sampson tracts A, B and C, and finally the somewhat sensational discussion of the Olympic Power Co.'s franchise, or rather the light contract attached to said franchise. This latter matter will be found more fully in another column.

WILL COST OVER $170,000

The CityEngineer presented the estimated cost of the improvements of Railroad Avenue, Front, First, Lincoln, Laurel, Oak, Third and alleys in Blocks 15 and 16, together with plats, and other data, which was upon motion approved. The estimated cost of the improvement is $170,000, not counting sewer or connections; the assessed valuation of entire district subject to assessment is $105,-125, cost per lot ranges from $225 to $4,000. The city clerk announced that there had been no objections filed to the proposed improvements. The report was then adopted by a vote of 5 to 1, Myers voting no for the reason that he wanted Lincoln street taken clear through to Boulevard. The ordinance ordering said improvement was then presented by Fisher and read twice, in full and by title, and as it cannot be passed at same night as introduced, was referred to ordinance committee and city attorney for one week.

THIRD ST. ROLL HEARD NOV. 17

Third street assessment roll for the improvement of Third street with trestle, was presented, together with objections thereto by H. McGerr, P. J. Wold, W. H. Race, and C. Malgren. Each stated that he was ready to pay any assessment for improvements which benefitted him, but alleged that they were unduly assessed in this case. Upon motion of Dustman, Monday, Nov. 17, at 10 a. m., was set for time of considering and equalizing said assessment roll and for considering objections thereto.

HOLD-UP ON THIRD EXTENDED

The engineer presented for approval of council plans and specifications for improvement of Third street extended, Third street north and K street, asking that a committee be named to go over same with him so that council be fully advised. This brought out the question as to whether city could proceed with work without first arranging right-of-way across tracts A, B and C of Sampson tract, and Mr. Ritchie who was present as the representative of certain owners emphatically told city that he would stop city from crossing these tracts unless proper arrangements are made or the owners secured. He further stated that he had given the Railroad right-of-way across these lands and would give city right-of-way provided it swerved to the south so as not to leave a narrow strip between the railroad and the proposed new street. Council decided the proper plan would be to have the council view the premises next Monday and see if the jog could be made, and to continue negotiations for right-of-way.

CONDEMNATION PROPER THING

In this connection a proposition was presented to council from the various owners offering (1) to sell the necessary land, 1.76 acres, for $1250 per acre, with further provision that no assessment was to be made against abutting property; (2) in event Third street is extended with a jog will sell necessary land to city for $1000 per acre. The owners also protested against the attempted vacation of Railroad avenue in front of their premises, resting secure, however, in the belief that whatever had been done along this line was illegal.

The City Attorney explained that he thought if allowed to go ahead with condemnation suits that $600 would be about all city would have to pay as the damages would be offset by benefits. He thought this the best plan in any event as it would give the better title.

THE STREET CONTRACTS

City clerk reported that the time for filing claims against the city on the Hahn & Grierson contract expired October 30. Some $3000 of claims had been filed with about $600 to pay the same. The matter was referred to city atorney, and, upon advice of attorney, clerk is to notify bonding house of filing of said claims.

The clerk also stated that the time on the Denio contract for Third street had also expired, and no claims had been presented. Upon motion of Elliott clerk was directed to pay balance due contractor of $1776.-39. No claims having been filed on the Johnson & Leonard contract on Francis street and time having expried, clerk was directed to pay balance due of $62.48.

Report of Police Judge J. M. Davis showed fines collected for month of $57.50. Report filed.

Clerk read notice to Olympic Power Co. citing appearance to show cause why franchise embodying contract for city electric juice should not be revoked and new one substituted.

NEW ROAD MACHINE

Mayor called attention of council to fact that last year city had an advantageous offer of road machine, but as season was late matter was laid over. He had been directed to ascertain if proposition was still open and read letter to effect that it would be open for a few weeks. Cost of machine $200, freight $70. Clerk was directed to purchase, same to be equipped with wooden wheels and an extra blade.

Street committee recommended that St. Supt. be directed to proceed under sidewalk ordinance to secure a five foot walk on south side of Fifth street between Lincoln and Peabody; that a crossing be put in on Laurel between 10th and 11th. Ordered.

NEW ORDINANCES ORDERED

The city attorney verbally reported to effect that an ordinance should be adopted by city that city's name and not state's be used in bonds; clauses should also be inserted in bonds protecting city against any damage for material provided contractors; city should also have an ordinance providing for the construction of sidewlks where none now exist to do away with the burdensome sidewalk assessment districts to some extent. He also asked if council desired that he defend in action brought against city for lumber furnished contractor, involving $2,-000, holding that courts have held that attorney must be specifically directed to act. He was directed to bring in necessary ordinances and defend city.

Petition for crossing in front of Oddfellows' hall was allowed.

Petition of A. B. Wolfe for permit to construct 6x10 wood and corrugated iron building near Dream theater was referred to Fire Wardens and City Marshal.

H. E. Thomas, stump puller demonstrator, was given privilege of blasting stumps west of Parish hall, provided he bonds himself to protect city from damage.

Claim of W. H. Taylor $135 for care of Mr. Johnson, referred to city attorney for opinion as to its legality.

Diagram and plats showing subdivisions of sub. blocks west of M street prepared by Mr. Owens, was presented to council. City attorney stated that he had not had a chance to look over same, and recommended that a committee be named to go over same with him. Upon motion Dustman and Fisher were named.

Council then canvassed the primary election returns, finding same practically as given in last week's issue. The total Socialist vote at the primaries was 35.

Dr. Lewis appeared before council and stated that he was in receipt of several communications touching the following up of his visit to Washington in the interests of the settlers on the government reserve and stated that he would continue to act for city or would turn over the correspondence to the city clerk. No action.

Asked a pointed question by Elliott as to the standing of the Spit lease, the Doctor stated that he did not wish to dip in where others were working, though they did not seem to have the same consideration for him. He stated, however, that it might be wise for city to secure such data as would keep it posted on just what was contemplated and just what benefits were to accrue to city. This brought out the statement that in consideration of the city getting lease of spit it would be required to macadamize a road clear out to the lighthouse. The city attorney stated that complications were beginning to arise.

Council then adjourned.

WILL STAND BY RECORD

We understand that an effort is being made to induce Mr. Elliott to run as a candidate for the office of councilman of the Fourth ward at the coming election by the sticker route, despite the fact that he was fairly beaten at the primary election on the 4th inst. It is pointed out by interested parties that there are 232 voters in the Fourth ward and that as only 166 of this number exercised their right at the polls on Tuesday of last week, the vote is not a full expression of the voters of that ward, and that a convention should be called and the people of the ward asked to again vote their preference for councilman that Mr. Elliott may decide whether or no he will allow his name to be used as above stated. There is nothing to this contention. The vote in the Fourth ward was as nearly representative as that of any ward in the city, with the possible exception of the Second, and there can be no valid excuse for going behind the returns. Mr. Elliott said to this writer that he was not a candidate, that he did not want the office again and that he only filed under protest. "I have lived this long without doing any dirt," he said, "and think I can stand it a while longer." This leaves but one course for Mr. Elliott to pursue. The subterfuge of a small vote does not enter into the fairness or honesty of the matter, and we have faith that our friend will stand by the record.

WILL LAY RAILS TO MILL FIRST

The work of laying rails on the little spur of road running to Earles' mill will begin in a couple of weeks, according to Chief Engineer C. C. Donovan, and about six weeks will be required to complete. It is necesary to get this piece ready first so the company will have a place to land their rails and other heavy material needed to begin the work inside the city.

Practical experience with the mothers' pension law was one of the leading topics at the meeting of county commissioners of the state at Wenatchee this week. Chehalis gets the next annual meeting. John C. Hansen, of this county, was re-elected secretary. Commissioner Lotzgesell was also in attendance.

WANT NEW LIGHT CONTRACT

City Council Demands that Sliding Scale and Other Features Be a Part of Contract.

The light contract embodied in the franchise of the Olympic Power Company from the City was under discussion at the council meeting Tuesday night, and changes affecting both the city and the power company practically agreed upon.

The City had sent for an electrical engineer, Mr. F. H. Godfrey of Tacoma, and called Manager Aldwell of the Power Company into conference to correct certain omissions in the grant. The council at the outset stated emphatically that they had no intention of embarassing the company in the least, but that certain loose features of the grant had been discovered and they thought this the proper time to correct them, alleging that should the Power Company be permitted to deliver electricity under the present contract the city would be forever barred from exercising any rights desired.

Mr. Aldwell made an extended and impassioned talk to council, reviewing the work done by the company, and the great benefits derived by the City not only from the interesting of Peabody, Houghtaling & Co. in the Power Company, but in the Earles mill and the Railroad, and they now have agents in Europe in the interest of the proposed pulp mills—all the first real money ever brought to this city.

If the proposed action is because of the 2c rate, said Mr. Aldwell, we stand on the rate, and if the City feels aggrieved, they have the Public Service Commission to appeal to. The Commission will give the Company all of the 2c rate, so there is nothing to be gained there. You know the result on the wharf deal. The dock people protested that the proposed cut from 50c to 15c was ridiculous and the Commission upheld the contention, because it found that the company could not afford to make the cut. If this matter goes before the Commission we will ask for a 2 1-2c rate, he said.

Mr. Godfrey, whose presence was unknown to most of the council, was then introduced, and the ordinance was read in full with comments by the electrical engineer. The only objection he found to Sec. 1 was the length of time, 25 years, too long for a light contract; Secs. 2 and 3 were passed; Sec. 4 should, he said, be better defined, and certain clauses eliminated, barring company from furnishing light or power for light, and giving city free hand in power, to compete if found desirable with power company. Sec. 5, he found, was the real objectionable part, in that the city is bound to take power from the company for 25 years at 2c without any sliding scale or release. He also found a clause in this section against the power company, in that the city could demand its entire load on 24 hours notice, whereas he thought 30 days notice more reasonable. There should be a time limit in case of accident, in which city might resort to other means to secure power. Provision should be made for the change of city's plant in event company should change voltage. A bond for performance should also be given, and many other things which cannot be taken up off-hand. Principal things, however, are the rates and the long-time contract.

Mr. Aldwell thought the company and the city could get together, and it was agreed that Mr. Godfrey would have ordinance rewritten with his views, and that the matter could be threshed out at next meet-

Considerable discussion followed in which all took part more or less, which would only take up considerable space to tell. After the signing of an agreement by the power company, the ordinance went to the ordinance committee and city attorney with power to draft a substitute.

FOR THE GOOD OF THE SCHOOLS

Problems of the Country School Discussed by Leading Educators of the County.

The meeting of teachers, directors and others interested in school work, held in the auditorium of the Port Angeles high school last Friday afternoon, proved very interesting. The meeting was opened with a speech by Supt. Geisness in which he set forth the purpose of calling the meeting as primarily to discuss the problems of the country school. It is generally felt that though the country schools possess many advantages of environment, character building occupation, and health of pupils, yet they lack many social advantages, such as literary clubs, lectures, concerts, etc., and the stimulation that comes from numbers in the same work.

Mr.Geisness had as one of the objects of calling the meeting the formation of community centers of social activity throughout the country with a view to making it possible for the rural districts to obtain those advantages which they lack. This is also directly in line with the plan of State Supt. Preston.

Following Mr. Geisness' address we were favored with a very pleasing song by a number of the primary pupils of the city schools.

Mr. R. J. White, Supt. of the City Schools, gave an interesting talk on co-operation of city and country schools. He suggested that one way in which the city schools might help the country schools is in the selection of suitable apparatus for school work and also in choice of books.

Mr. S. E. Stakemiler gave us an encouraging talk on financing school work and the more equal division of taxable property among the schools. He favors forming the county into one taxation school district and that the proceeds be applied to the general support of the schools of the county. There are districts within which there is much valuable property that have no school district tax because there is no school maintained within them. This matter might well be looked up for the equalization of taxes.

Gomer Jones, teacher in District 13, spoke on the responsibility of the commuity for the development of the young people within it, and the need of social activities calling for literary effort, citing as an example of the ability of rural communities to support such activities, the thriving society in District 13. He also advocated the formation of a county schcool fair. This will be taken up by the county board.

Prof. Bert Slater of Dist. 301 spoke very ably on consolidation and its advantages. He also gave some good suggestions for building up libraries in rural schools, and the playground apparatus, showing that good vigorous play makes it possible for pupils and teachers to do better work in the school room, and makes better attendance.

After a pleasing song by the High School Glee Club, for which the audience showed their appreciation by a hearty encore, the meeting was treated to a reading by Miss Julia J. Wiggins of Port Angeles, of a selection from Jack London's "Call of the Wild." We all feel grateful to Miss Wiggins for this splendid interpretation of a thrilling incident.

Several of the directors and others present gave interesting talks. Among them was Mr. A. N. Taylor of Sequim, who spoke enthusiastically of consolidation and its advantages.

Before the meeting was adjourned it took action on the question of social center work. The clerks of Districts of Sequim and Dungeness will serve with the Supt. as a committee to further the project.

Supt. Geisness is to be commended for the success of the meeting and for leading the discussion along so profitable lines. The next meeting will probably be held in Dungeness early in December.

THE ENTERTAINMENT COURSE

The regular Lyceum Entertainment course will be put on this year under the auspices of the high school, and the programs will be given in the new high school auditorium. Some excellent talent has been secured for this course and it is certain to prove a big success. Mr. J. B. Herbsman of the Redpath-Priest Bureau has been in town for several days, asisting in a canvass for subscriptions for season tickets, and the advance subscriptions practically insure the success of the course financially. The first number will be given November 24. Look for full announcement next week.

THE CHURCH AND THE SCHOOL

Best Trained Life Must Have Its Foundation in Christian Training

A large and appreciative audience was in attendance at the special meeting at the M. E. church Sunday evening and much interest was manifested in the discussion of the subject, "The Church and the School." The meeting was opened with the usual introductory services of the church and old time hymns interspersed the speech making. Prof. White spoke along the line that the school was the child of the church and that the best trained life must have its foundation in Christian teaching and in the belief of God. Prof. Failor discussed the subject of the Bible in the school literature, that no literature was as good as that found in the Bible. Mr. Stakemiller took the ground that the membership of the church and school should furnish clean attractions along the social line for the young people. Each of the speakers presented their thoughts in a pleasing way and their remarks were well received. These meetings cannot otherwise than result in a closer relationship between the church and schools in fact this was clearly apparent at the meeting Sunday evening. Rev. Phillips and his church are to be congratulated for taking the initiative along this line.

HIGH SCHOOL

About eighty of the High School students, with some of the teachers, took the trip to Townsend to see the football game last Saturday. They all started off in high spirits and on their arrival were met by some of the Townsend pupils. Most of the Angeles girls were taken to private homes and entertained.

In spite of the fact that the girls did their best to cheer the boys and help them to win, the score was 53 to 0 in favor of their opponents. Tho rather crestfallen at their decided defeat, like good soldiers the boys made the best of it and the girls lent good cheer and encouragement.

In the evening they all went to the high school building, where an hours' entertainment had been planned. After the opening music, some of the teachers were requested to speak for a few minutes. The remaining time was given over to Prof. Herbsman, who gave both teams some practical advice, besides praising the players of the game. After this he entertained his audience with several enjoyable selections. At eight o'clock the visitors were escorted to the boat by the Townsend students and all declared that they had had a most enjoyable time, even tho they were so badly beaten in the game.

Prof. Herbsman visited the High School Tuesday in the interest of a lecture course for this winter. In his talk to the students he took as his subject the short poem of Van Dyke's, "To Make a Record True."

"To think without confusion, clearly,
To love our fellow men sincerely,
To act from honest motive purely,
To trust in God and heaven securely.

His address was almost a sermon on brotherly love and helpfulness to each other. He also pointed out the necessity of a better school system that would teach boys and girls to "think without confusion clearly." All the students were much interested and expressed their appreciation by a hearty encore.

MOOSE ENTERTAINMENT

The Loyal Order of Moose will hold a social and whist party in I.O.O.F. Hall on the evening of November 19th for the members of the order and their wives. Ordinance No. 423.

An Ordinance granting to Guy Dann and A. U. Dann, their heirs, associates, successors and assigns the right, privilege, and authority to erect, establish, put in operation, operate, maintain, improve, alter, repair and use within the corporate limits of the City of Port Angeles, plants or works for making or providing gas together with all the necessary grounds, buildings, apparatus, machinery and appurtenances for the purpose of making, selling and supplying gas within or without the boundaries of said City of Port Angeles, and supplying the same through pipes or pipe lines from any place within or without the City of Port Angeles,the said gas to be either natural or made by artificial means, and to lay down, maintain, operate, repair, change, supply and keep in use, pipes or other conduits in the streets, alleys and public places in the said City of Port Angeles for the transmission, supply, distribution and sale of gas for heating and illuminating purposes, together with all necessary and proper attachments,connections and appurtenances for transmitting, supplying, distributing and selling gas for heating and illuminating purposes within or without the said City of Port Angeles.

The City Council of the City of Port Angeles do ordain as follows:

Section 1. That in the construction and for the purposes of this ordinance, (where not inconsistent with the context or subject matter) the following terms shall have the respective meanings hereafter assigned to them.

"The City" shall mean the City of Port Angeles, County of Clallam, State of Washington.

"The Mayor" shall mean, embrace and refer to the City Mayor of the City of Port Angeles, County of Clallam, State of Washington.

"The Grantees" shall mean, embrace and refer to Guy Dann, A. U. Dann, their heirs, associates, successors and assigns.

"The Council" shall mean, embrace and refer to the City Council of the City of Port Angeles, County of Clallam, State of Washington.

"The Clerk" shall mean, embrace and refer to the City Clerk of the City of Port Angeles, County of Clallam, State of Washington.

"The Treasurer" shall mean, embrace and refer to the City Treasurer of the City of Port Angeles, County of Clallam, State of Washington.

"Street or Streets" shall mean any public thoroughfare, alley, avenue or public way within the City of Port Angeles in the County of Clallam, State of Washington.

Section 2. That there be, and hereby is, granted to the Grantees the right, privilege and authority, for a period of fifty years from and after the passage, approval and publication of this Ordinance, to erect, establish, put in operation, operate, maintain, improve, alter, repair and use within the corporate limits of the City, subject to the approval of the City Council

(a) Plants or works for making or providing gas together with all the necessary grounds, buildings, apparatus, machinery and appurtenances for the purpose of making, selling, and supplying gas within or without the City as the boundaries thereof are or may hereafter be.

(b) To supply gas within the City through pipes or pipe lines from any place within or without the City, said gas to be either natural or made by artificial means.

(c) To lay down, maintain, operate, repair, change, supply and keep in use pipes or other conduits in the streets in the city for the transmission, supply, distribution and sale of gas for heating and illuminating purposes, together with all the necessary and proper attachments, connections and appurtenances for transmitting, supplying, distributing, and selling gas for heating and illuminating purposes within the City or outside thereof; all of which rights, privileges and authorities and rights of way are hereby granted subject to, protected by and with privilege in all the conditions, restrictions, specifications and requirements in this Ordinance herein or hereinafter expressed.

Section 3. In laying down such pipes or conduits, the Grantees herein shall not make excavations in any street for a distance exceeding two blocks at any one time, and on completing such work, shall leave such street in like good repair as the same was before making such excavation; and all pavements and sidewalks shall be taken up and all excavations in public streets shall be made in compliance with the ordinance of the City under the supervision and rules of the superintendent of streets, or other person or board having supervision of the public streets, and in such manner as to give the least inconvenience to the City and the inhabitants thereof, and where pavements or sidewalks have been disturbed, after the pipes are laid, such pavements or sidewalks shall be restored in the same manner as they were before making the excavation, and in accordance with the Ordinances and rules of the City, and all done at the expense of the Grantees. Back-filling of any excavation made shall, where necessary in order to make the same useful for street purposes, be properly puddled.

Section 4. That the Clerk shall, subject to the approval of the City Council and subject to general ordinance, grant permits to the Grantees for the purpose of laying or relaying said pipes underground, all of which work shall be done under the supervision of the public authority of the City, and the cost of such supervision shall be paid by the Grantees herein, and if not so paid, the same shall be deducted from the deposit required to be made by the Grantees to the Treasurer, as hereinafter provided; and prior to the opening of any street in the City, through its proper officers, may arrange for a revolving fund deposit to cover the cost of such supervision. Before granting any such permit, the Grantees shall file, with the Clerk, a petition in writing, accompanied by a diagram drawn to scale, delineating the place or places where it is desired to open the street for the purpose of laying a pipe or pipes, and when said petition and diagram have been filed and the same being in accordance with all the terms of this franchise, the Clerk shall thereupon issue the proper permit subject to all the provisions of this Ordinance.

Section 5. That the Grantees shall indemnify the City against, and assume all liability for damages which may arise, come or occur to the City on account of injury to persons or property because of doing any work contemplated herein or the neglect of any of the employees of the Grantees to comply with any ordinance relative to the use of the streets or to comply with any reasonable requirements that may be made or imposed by the Council.

Section 6. That whenever it shall be necessary in grading or regrading, planking or replanking, paving or repaving, improving or reimproving any highway, street, avenue or alley in the City, and in building any sidewalks or making any improvements or reimprovements thereon or therein, to remove any pipes or appliances, belonging to the Grantees, the Grantees shall, upon receiving forty-eight hours' notice from the Clerk, move such pipes or appliances at their own proper cost and expense, or place the same so that they shall not interfere with carrying on such public improvement; and if the Grantees shall fail neglect or refuse to remove or replace such pipes or appliances, then such pipes or appliances shall be removed by the proper officer of the City at the expense of the grantees. Whenever it may be necessary, in making any of the improvements mentioned in this section or in the construction of any sewer or water main or in the laying down of any other duly authorized conduit or duct owned by the City, to remove, relocate, or in any manner change any pipe or appliances belonging to the Grantees, they shall, within a reasonable time after receiving notice from the Clerk so to do, remove, relocate or change said pipe or appliances, and if the Grantees shall, upon receiving said notice, neglect or refuse to remove, relocate or change such pipe or appliances within such reasonable time, then the same shall and may be removed, relocated or changed by the City at the expense of the Grantees.

Section 7. The Grantees shall, at all times during the period that the rights herein granted shall remain in force, keep or deposit in the City Treasury the sum of Five Hundred Dollars to be designated as an Emergency Fund. Whenever in the opinion of the Council, an emergency exists for the immediate repair of any dangerous defect found to exist in, or in relation to any pipe or appliances required by this ordinance to be kept in repair by the Grantees, and the Grantees have failed, on notice properly given, to immediately protect or repair the same, then the Council shall cause said repairs to be made at once, and if the Grantees shall not promptly pay the bill for the actual cost of such repairs when the bill is made out and presented at the office of the Grantees in the city, then the Council may, upon order duly passed, draw the amount of such bill from the Emergency Fund, and thereupon and without delay, the Grantees shall deposit a sufficient amount to restore the Emergency Fund up to the sum of Five Hundred Dollars.

The provision as to an Emergency Fund is in addition to all the other provisions and requirements herein contained on the subject of repairs and maintenance, and is not intended to modify or change any other provisions or penalties of this Ordinance concerning the same.

Section 8. That before the Grantees shall commence the installation of the works or plants or system hereinbefore authorized, within the City, they shall file with the Clerk a bond in the sum of Ten Thousand Dollars, with proper surety or sureties to be approved by the Mayor and City Council, conditioned

(a) That each and every street or public place in the City that may be disturbed or torn up under the provisions of this Ordinance shall be replaced and put in as good order and condition as the same were in before being so disturbed or torn up by the Grantees, and

(b) That the Grantees shall and will faithfully keep and perfrm each and every of the terms and conditions embraced and set forth in this Ordinance.

Section 9. The Grantees shall have and are hereby given the right to charge and collect from all person or persons, corporation or corporations, or others to whom or for whom they shall furnish gas, a sum or sums not exceeding One Dollar and Twenty Five cents per thousand feet of gas so used by such consumer or consumers.

Section 10. The City shall have, and is hereby given the right, at any time after the expiration of twenty years from and after the date of the passage and approval of this ordinance, to acquire by purchase for cash in lawful money of the United States all the works, mains, pipes, property, appurtenances, fixtures, rights and privileges of the Grantees, at a fair cash value thereof, for all of said property and rights; and if the City and the Grantees are unable to agree as to the fair cash value thereof, then such value shall be ascertained and fixed by appraisement in the manner as follows:

An appraiser shall be selected and appointed by the Mayor with the approval of the Council, and one shall be appointed by the Grantees, and a third shall be selected by the two thus chosen, and the award made by a majority of such appraisers shall be final and binding upon the City and the Grantees; but all provided, however, that the City shall notify the Grantees, at least six months prior thereto, of its intention to purchase said works and its appointment of an appraiser for said property and rights. Either party to such arbitration arrangement may and is hereby given the privilege to submit any and all proofs deemed advisable in substantiation of any claim of value of the property and rights to be transferred or acquired.

Section 11. That the rights and privileges by this Ordinance and all thereof granted, subject to all the conditions, restrictions, specifications and requirements hereof, shall continue to be and remain in full force and effect for a period of fifty years from and after the date of the passage and approval of this Ordinance, unless the rights shall be terminated by purchase by the City as hereinbefore provided.

Section 12. That within six months from and after the passage and approval of this Ordinance, and the acceptance thereof by the Grantees, the Grantees shall commence the construction of the properties and works herein authorized to be constructed, and within two years thereafter complete the construction thereof until gas for general purposes shall be provided for all the business sections of the City, and to such residential sections as can be served at a reasonable profit to the Grantees.

Section 13. That the gas to be produced for sale, as hereinbefore provided, may be made from coal, oil, or other proper mineral substances which will produce gas for illuminating or heating, or, in lieu thereof, and at the election of Grantees, natural gas may be supplied, and when gas is supplied by either of such means or processes, the supply so furnished shall be deemed,and shall be a compliance with this Ordinance regarding the furnishing of gas.

Section 14. That the Grantees shall at all times, after the acceptance of this Ordinance, keep and maintain a representative, agent, officer or employee within the City, upon whom service of all legal process or of any required notice as herein provided may be made by the City, which said representative for service, shall be at the office of the Grantees during reasonable business hours.

Section 15. That the City reserves the right to at any time hereafter repeal, change, alter or modify this Ordinance, or any part thereof whenever in the judgment of the City Council, the franchise hereby granted is not carried on or carried out in accordance with the provisions of this Ordinance, or at all, and in so repealing, changing, altering or modifying this Ordinance for good and lawful reasons, and for failure to comply with the terms hereof, the City shall not be liable for damages in any sum to the Grantees, due regard at all times being had for the respective rights of the parties hereto in any action which may be taken.

Section 16. That the rights of way and all the rights, privileges and authorities granted by this Ordinance, and all benefit thereof, shall be assignable and may be assigned by the Grantees as they may at any time elect, either as an entirety or as respects any part thereof, provided, however, that no such assignment, either total or partial, shall be of any force or effect until a copy thereof, certified as such by such assignee, or his, its or their proper officers, shall have been filed in the office of the Clerk, and when so filed, the Clerk shall issue his certificate under seal of the City to the Grantees, stating in substance that the Grantees have filed a copy of such assignment so as to comply with the terms of this Ordinance in regard to an assignment or conveyance of interest.

Section 17. Within thirty days from and after the passage, approval and publication of this Ordinance, the Grantees shall file with the Clerk their written acceptance of all the terms and conditions of this Ordinance and the rights herein granted, and unless such acceptance shall be so filed, the grant herein made shall not take effect, and this Ordinance shall be wholly inoperative and void. When such written acceptance shall be filed with the Clerk, the Clerk shall issue his certificate under seal of the City to the Grantees, stating in substance that the Grantees have filed their written acceptance of said Ordinance in accordance with the terms and provisions thereof and in compliance therewith.

Section 18. That on and after the fifth year of the existance of this franchise from the date of its passage on the first day of January of each year said Grantees their successors and assigns shall pay into the City Treasury one per cent of its gross income for a period of ten years and thereafter two per cent of its gross earnings, and the Secretary or other chief officer of any association or corporation owning or conducting the business of this franchise shall make and file with the City Clerk, at the time of such payments a verified statement of its then annual gross earnings.

Said Grantees, their successors or assigns, shall at all times keep thorough books of account of such earnings or gross receipts, which books shall always be open to full inspection of any auditing officer of the City.

Section 19. This Ordinance shall take effect and be in force from and after its passage and approval and five days after its publication, according to law.

N. K. MEAD,
Mayor.

ORDER TO SHOW CAUSE

In the Superior Court of the State of Washington for Clallam County.

In the matter of the estate of James Stucky, deceased.

H. M. Fisher, the administrator of the estate of James Stucky, deceased, having filed a petition herein praying for an order of sale of the real estate of said decedent, for the purposes therein set forth, it is therefore ordered, by the said Court that all persons interested in the estate of said decedent appear before the said Superior Court, on Tuesday, the 2nd day of December, 1913, at 9 o'clock in the forenoon of said day, at the court room of said Superior Court, at the Court house in said County of Clallam, to show cause why an order should not be granted to the said H. M. Fisher to sell the said real estate of the said estate. And that a copy of this order be published at least four successive weeks in the Olympic-Leader, a newspaper printed and published in said Clallam county. JAMES STEWART,
Court Commissioner.

Dated this 28th day of October, 1913.

HOUSEKEEPERS Must be Watchful

For great efforts are being made in this vicinity to sell baking powders of inferior class, made from alum acids and lime phosphates, both undesirable to those who require high-grade cream of tartar baking powder to make clean and healthful food.

The official Government tests have shown Royal Baking Powder to be a pure, healthful, grape cream of tartar baking powder, of highest strength, and care should be taken to prevent the substitution of any other brand in its place.

Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world.

Mr. and Mrs. Art Purcell of Beaver moved to Mora last week to spend the winter hunting and trapping. Mr. Purcell is known to have great luck with civet cats. His friends see nothing but bright prospects ahead.

Albert Iverson left for his home at Port Crescent last Wednesday after spending a month with relatives.

Palmer Bros. bought a herd of milch cows from Mrs. Oberg which will be taken to Forks to be used on their dairy farm.

Munson & Turnberg, road contractors, who have completed their work on the road, left their horses and implements in charge of R. H. Kidd for the winter, as they expect to return next spring to help gravel on the Fairholme-Beaver road.

The Washington Oil Company has put on a new force of men to carry on the work of drilling down deeper for oil. Shares that sold for 10c are now 25c a share. The depth of the well is about 1500 feet. Looks good to stockowners.

EAST END

From the Press.

C. E. Pierce, civil engineer at Sequim, leaves this week to take charge of the survey work on the Firch & Gass railroad contract west of Port Angeles, with headquarters on the Elwha river. Mr. Pierce will be away about two months. The contractors have about four miles of railroad work.

Adolph Swanson has finished two miles of railroad grading at Blyn and broke up camp on Thursday and his crew went up sound. It is not expected that any more railroad work will be done east of Sequim this winter. Eleven miles of grading is the total amount completed east of town.

Jack Long is getting his saw mill in Happy Valley ready for business; he is getting a new engine, boiler and planing machine.

Charlie Attwood is getting ready to build on his town lot that he is getting cleared.

Dr. F. A. Lewis was here on business from the county seat last Wednesday.

The Ladies rest room in Sequim is a grand thing for ladies coming from the country or from other towns on a cold day.

Mrs. N. S. Stone's sister, who has been spending the summer here left last Saturday for her home in Portland, Ore.

The I. O. O. F. and Rebekah lodges moved last week into G. A. R. hall where visiting brothers and sisters can find them on their regular meeting nights.

There was a party at Walter Grants Nov. 9th in honor of the birthday of Walter Grant, John Potter and Jim Grant. There were 36 relatives and friends there and when it came dinner time the tables just groaned with all the good things to eat—just such dinners as the Potter family know how to get up, with plenty of fruit, candy, and nuts for both young and old. The day was very pleasantly spent when everyone had to get home to do their evening chores and wishing them many happy returns of the day.

Mr. and Mrs. Freland Runion are very proud of the nice big girl that came to them Nov. 5th. Mother and daughter are doing fine.

Mr. Withers has Henry Gundeson blasting out the stumps on the Robinson & Fear place which he has rented.

Mrs. Belfield is getting all of the stumps taken off of her place and getting it ready for the plow; she will soon have a nice place of it.

It is reported that Joe Keeler has the contract to gravel the road to Port Williams; it will be a grand thing for Sequim when finished.

A COUNTY SCHOOL FAIR

At a meeting of the County Board of Education last Saturday, it was decided to hold a county fair in the fall of 1914. Plans are not yet complete but the pupils will probably have a chance to compete in the raising of all kinds of garden and farm products. Now is the time to prepare the ground for the future crop and the boy or girl who begins this fall may well hope to be the successful competitor.
