BIG EAST END IMPROVEMENT

Plans Promise Great Development of District; Preliminary Expense to Be Advanced at Once.

The east end improvement was up before the city council again Tuesday night, in modified form, still of large proportions. The work has been held in abeyance pending the arrival of Mr. Dalton, reported agent of the Milwaukee interests. He arrived last Wednesday and has been busy ever since. looking into details of the improvement with the result that some of the heaviest of the proposed cuts have been eliminated, and the proposed work has been resolved into practical work in the district east of Albert to White Creek and north of Eighth street to the bluff.

The resolution was presented by Mr. Hooker of the ward to be improved. That gentleman asserts that the preliminary expense will be advanced at once, and the resolution was adopted with this understanding. Contemplation of the plans promise a great development of the district.

The district to be improved is outlined as follows:

For clearing, grubbing and surface grading the folowing streets, together with the placing of curbs, drains, crossings and such bulkheads and retaining walls as are found necessary: North and South streets:

Eunice street, Carolina to Fourth.
Race, Carolina to Eighth.
Washington, Georgiana to Seventh.
Chambers, Carolina to Eighth.
Jones, Water to Fifth.
Liberty, Carolina to Fifth.
Ennis, Carolina to Fifth.
East and west streets:
Columbia, U. S. Reserve block to Liberty.
First, Albert to Liberty.
Second, Albert to Liberty.
Third, Eunice to east limits, with bridge across White Creek.
Fourth, Albert to Liberty.
Fifth, Eunice to Liberty.
Sixth, Francis to Jones.
Seventh, Francis to Jones.

Concrete sidewalks on both sides of Francis street, 6 feet wide from Carolina street to Front, 12 feet wide Front to Fourth.

Concrete walk, Front street, Francis to Liberty, 5 feet.

Concrete walk, First street, Francis to Liberty, 5 feet.

Plank walk, Eunice street, 4th to Carolina.

Plank Walk, Third street, Eunice to east limits.

Plank walk, Chambers street, Front to Columbia.

With one member absent, Mr. Fisher, council waded thru a grist of business Tuesday night, with dispatch. The one disturbing factor of the evening was the proper way to get back certain plank taken from the street commissioner.

Mr. Bigelow reported that street committee had found the drain running under Front street at Albert to the bluff, and the committee was instructed to clean out same and to connect it with the water region east of Albert street.

The committee of the council, comprising practically all of the councilmen and the city engineer, reported on the completion of District 11 improvement, being the big down town district, and recommended the acceptance of the work, and the payment of the balance due, holding back $500 for emergency. The engineer also reported the 30 day limit up since completion and notified the clerk that there were no claims on file. The report was accepted. The engineer's report on this work totals $134,874.11, of which $97,007.-18 has heretofore been paid.

Caretaker Johnson at the Cemetery submitted his report for the month of January, showing seven burials and total fees of $41. The balance of the month was spent in checking records and slashing. Filed.

Mr. Bigelow reported that all garbage and rubbish collected and stored in convenient places will be removed by city free of charge March 31, and shortly thereafter. Marshal reported that upon being asked where

Continued on Page 7.

ARBOR DAY, APRIL 9

Whereas, It has long been the custom to designate a special day each year for the planting of trees and shrubbery by school children on school premises and other public grounds, the practice having resulted in not only adding to the beauty of such premises and the community at large, but in impressing on the youthful mind a principle of real conservation; and,

Whereas, experience and practice in conducting such planting exercises have developeed certain well-defined rules in the selection of varieties and in arranging the same, with a view to permanent beauty and practical benefit to all citizens; and,

Whereas, It is most desirable that the custom be perpetuated and extended to every community in the state of Washington, now,

Therefore, I, Ernest Lister, governor of the state of Washington, by virtue of the authority in me vested by law, do hereby designate Friday, April 9th, 1915, as Arbor Day; and,

I recommend and urge that on that day the citizens of the state of Washington generally join with its school children and their teachers in planting trees and shrubbery on school premises and on other property, private as well as public, and by so doing assist in a substantial manner in further beautifying the state of Washington.

In witness whereof I have hereunto set my hand and caused the seal of the state to be affixed at Olympia, this 17th day of March, A. D. 1915.

(Seal)

ERNEST LISTER,
Governor of Washington.

I. M. HOWELL, Secretary of State.

HARBOR PLAN ESSENTIAL

Noted Terminal Engineer Praises and Outlines Needs of This Seaport.

The following letter from Paul P. Whitham of Seattle, harbor and terminal engineer, was read at the meeting of the Board of Directors of the Commercial Club on Monday afternoon:

Seattle, March 16, 1915.

The courtesies extended to me by your Club and yourself personally while in your city March 12, were much appreciated. I enjoyed my visit very much.

While I was aware that you had a good harbor, well protected by Ediz Hook, it was not until I had spent the day looking over the ground that I fully appreciated the splendid possibilities of the place. You are now at the threshold of the Olympic Peninsula's development. Nature has endowed you with a harbor that if properly utilized should be the gateway for the traffic naturally following that development.

The suggestion that you form a port commission to take charge of the preparation of your port for the handling of the anticipated business has arisen from the prevailing opinion that it would be wise to construct in the near future a dock of sufficient size to accommodate ocean-going steamers. While a careful analysis of the situation may make it clear that the construction of such a dock will be a great advantage to your port, it, to my mind, is not the fundamental reason why you should organize a board with authority to assist, direct and plan the development of your harbor. The keen competition of the times has forced the abandonment of the "happy-go-lucky, hit-or-miss" methods that prevailed a generation or two ago, and now the leaders in business, industry and transportation are striving for broad efficiency in all that they undertake. The laws of efficiency are applicable to cities as well as to individuals and corporations, so that a city and port which has developed along the most efficient lines is most likely to win in competition for business. True efficiency can never be obtained in municipal development if the improvements made from time to time are constructed without reference to future improvements and the requirements of a city as a whole. Consequently I maintain even of greater importance than the erection of a dock would be the preparation of a comprehensive plan to be used as a guide in making all improvements, both private and public, that may be required later.

If in a few years from now you should find that you located a fish dock in an ideal site for a big saw-

(Continued on page 6.)

JUST FIVE MORE DAYS

A Little Work Now May Save a Lot of Undesirable Publicity Later On.

Just five more days until the city teams start out to gather up the collections of cans and other old garbage in your alleys. Are you prepared? Get everything into gunny sacks or barrels or boxes so it can be easily and quickly handled. After you have all your own trash gathered up go after your neighbors and tell them what a reflection on the neighborhood it is to have old cans and rubbish lying around and don't stop until you have the whole block enlisted in the clean-up campaign. There are lots of visitors expected to our city this summer so let each one of us take a personal pride in making it look as clean and attractive as possible.

If you have an ugly tumbledown old fence in your neighborhood try and get permission to tear it down, also the old shacks that so mar the landscape and are dirty and unsanitary.

Mr. French, the street superintendent, and the street committee from the city council are going to hold a clean-up of the city streets and rid them all of the piles of old boards and refuse that has collected since the grading and repairing of the streets and this will be a great improvement. There is so much to be done before our city can really be made presentable, that everyone is urged to do all he can to assist in the work. The children can be of great assistance in this "picking-up" campaign if you offer them some little inducement in the way of a picnic dinner, an automobile ride or something of the kind. Remember you can't be notified just what day the team will be in your part of the city, so you must have everything picked up and ready to be hauled away by next Wednesday. The teams will start out that day and keep at work until all the alleys are cleaned. Those who don't have their alleys and premises cleaned at this time will be compelled to do so later and pay for having the garbage taken away. So get busy, if you don't want your name and a picture of your residence published in the paper, showing up how careless and unsanitary are conditions around you.

At Monday's meeting the Directors of the Commercial Club discussed the advisability of initiating preparations early for the Clallam County Fair. It is probable that the fair will be held about the middle of September, in order to have the prize exhibits shipped to the Panama Exposition and exhibited there in October and November.

BERRY GROWERS MEET MONDAY

Berry Convention at Commercial Club Rooms March 29, Interests All Farmers.

All over Clallam county, from Port Williams to Port Crescent, much interest is manifested in the convention of Clallam county berry growers to be held in the rooms of the Port Angeles Comercial Club next Monday afternoon, March 29, at 1:30 o'clock. That this is an ideal region for the production of loganberries has been fully demonstrated and the time is ripe now for organizing the growers and prospective growers so that the industry may be developed most profitably and effectively. To accomplish this result the Commercial Club has offered its facilities to the growers of the entire county in the hope that an organization may thus be formed that will include all sections in a single powerful association, without in any way interfering with the local development of the industry in any part of the county. The growers of the Sequim district have already formed a local buyers' organization including at least a dozen growers, and it is expected that the Sequim organization will be well represented at next Monday's meeting.

It will require the co-operation of all the growers of the county, as well as those who are interested in prospectively engaging in the industry, to complete such an organization as the industry demands. The market for dried loganberries has already been prepared by the Oregon growers in the Dakotas, Minnesota, Illinois and Indiana, and there is every reason to anticipate a profit of $300 or more per acre for Clallam county berries.

Word was received this morning that two of the state inspectors, Henry Huff of Sumner, a practical berry grower, and J. H. Grislawn of Everett, a graduate of Washington State College and inspector for Snohomish county, will be here Monday to assist with the organization.

RECORD STEELHEAD CAUGHT BY GAME WARDEN

Game Warden Pike had the pleasure of landing, after a full hour's battle, the largest "steelhead," or Gardiner's trout, ever caught in this vicinity, at the Elwha on Saturday last. It weighed fully twenty pounds, being exceeded only by some of the big trout in Lake Crescent. Mr. Pike is cautioning everyone to observe the closed season on game fish, which does not end until May 1st. Besides, he adds, there is plenty of sport to be had with the steelheads now.

GOVAN WILL BUILD ROAD FOR STATE

Contractor Dave Govan was at Lake Crescent Tuesday going over the survey between East Beach and Piedmont, which he says will make a beautiful driveway and one which, being at some little elevation above the lake, can be constructed at a moderate cost. It is understood that the road will be built directly by the state, Mr. Govan, who secured such surprising results on the Hood Canal road last year, being employed as superintendent. Whether it can be built for the measly little ten thousand or less this county gets out of the two million appropriated for road work by the legislature is something of a question, but if not the county will have to make up the difference.

MASON MUSIC HOUSE OPEN NEXT WEEK

The Mason Music House in the new Morse building will be open for business next week with a complete stock of musical instruments, records, and sheet music. Mr. Erickson of Seattle will occupy the south side of the store with a soda fountain and ice cream tables.

INVESTIGATION ORDERED FOR FREE DELIVERY

First Assistant Postmaster General Daniel C. Roper, Washington, D. C., yesterday notified Secretary Teck of the Commercial Club that the Department has ordered an immediate investigation to determine the feasibility of establishing city delivery service in the City of Port Angeles.

This is in response to direct requests of the Commercial Club addressed to the first assistant postmaster general, who is in charge of city delivery systems, and to the Washington congressional delegation.

The first and most important requisite that will have to be supplied by the city is a standard street and house numbering system, which will be a comparatively simple task in Port Angeles, with its townsite of straight thru thoroughfares.

CLALLAM'S OIL PROSPECTS

West End Fields Most Promising Geologically of Any in the State.

The Brotherhood supper and lecture at the Congregational church Monday evening was not quite as well attended as usual, but those who were there speak very highly of both. Just at this time when so much interest is being taken in the oil wells at Forks, the subject of the lecture was particularly interesting.

Prof. Charles Weaver, assistant professor of geology from the University of Washington, gave a very interesting talk on "The Probabilities of the Occurrence of Petroleum in Washington," seemingly holding after investigation of the various operations throughout the state that the fields now being prospected in Clallam county and the Olympic Peninsula west coast were the most promising in the state.

Washington, he said is a producing state, hence the possibility of petroleum here can only be guaged by certain laws which are now known to govern, and which, while not infallible, are necessarily to be known before striking a well. These laws seem to hold good in all parts of the world. Therefore, before any cor-

Continued on Page 5.

NEXT LECTURE COURSE MONDAY, MARCH 29.

A Celebrated Trio Substituted in the Place of the Ionian Sisters for March 29th.

The next lecture course to be held in the High School Auditorium on Monday, March 29 consists of the following celebrated trio:

Joseph Konecny, the son of a Bohemian blacksmith, was born in Vienna, Austria, on March 5, 1883. He displayed early a talent for music, and when but a mere lad, developed a passionate love for the violin. After years of incessant study with some of the best masters, among them Prof. Sevcik, of the Vienna Imperial Conservatory, Mr. Konecny was finally able thru his indomitable energy and preseverance, to realize his ambition for a concert career, and we hereby take pleasure in announcing the concert of this brilliant Bohemian violinist for the coming lecture course.

Mr. Konecny's playing, besides bearing the stamp of years of patient study and practice, is characterized above all by that fiery temperament which is so predominating a trait of the Slavic race.

Martha Stelzer, soprano, with a beautiful voice of wide range and great sustaining power is Mr. Konecny's best second and the gifts with which this young artist is endowed cannot be missed.

Mary Tris, pianiste, is a brilliant young Chicago pianist and as the latest thing in her line of work cannot be spoken of too goodly.

BASEBALL LID LIFTED OFF

First Schedule Game of the Season Will Be Played with Victoria Second Sunday in April.

On Sunday, March 21, the Angeles team connected bats with the Snohomish team, of the U. S. R. C. Snohomish, on the local ball grounds for the first preliminary game of the season. The weather was the finest seen at this time of the year, the grounds being a little heavy from the amount of rain we have had. A large crowd attended the game and many new ball players who have come to try out with the fastest ball club on the Peninsula, were judged with much interest by the Gate City fans. Few sore arms or "charlie horses" could be noticed from the grandstand, so there is no doubt that this fine weather has enabled the players to train into form with no serious results.

The Snohomish team, being comprised of the boys from the Cutter, made a fair showing, but little practice indicated a slim chance with the speedy recruits of the Angeles team. On the other side our local boys handled positions assigned to them in major league style. A few grandstand plays were pulled off by both sides which brought the old spirit out of the fans and the lid fell off without a hitch.

The recruits who received a tryout with the team were Powless and O'Brien, shortstops; Moir, second base; Bayton, left field; Steele, first base; Corbett and Grubb, catchers; Best, right field; Dompier, third base; Clarke and Dahlgren, center field; Rowley, Reardon and Hooker, pitchers. There will doubtless be a few more men to receive a chance with the team next Sunday, when a practice game will probably be played with the mill boys. Manager Graves was in correspondence with a Seattle aggregation the past week, for a game on Sunday, but the outcome is still up in the air.

A sensation. Roscoe McKee, a 15 year old grammar school boy, is the pitching sensation of the season. This young artist pitched for the Central High School team last year and carried off the batting honors. A more natural curve was never made and the ease with which he handles his assortment is a miracle. Roscoe will be featured this summer on the local team. In the game last Sunday against the Snohomish nine this young man pitched four innings and let the home team down with two runs. Trainer Sam Olvis and Catcher Corbett are taking him under their wing and expect to develop him into a topnotcher in a season or two.

From the summary of the batting and fielding of the first game the local boys have already showed their cagle eye and any team that connects with them will play an uphill game for every nine innings enacted on the diamond. The Victoria team will even have to hustle when they run against such men as Powless, Steele, Moir and Corbett. These men are fast on the bases and throw accurately. The many others who are heretofore mentioned are all good men and there is no kick as yet on anyone playing in the wrong place.

Attendance 250.

The support of this ball club is a boost for Angeles.

All returns of schedule games will be printed in Seattle and Tacoma papers.

The score of the first game was Angeles 14, Snohomish 2.

BENEFIT DANCE FOR MR. SHIRLEY PRICKETT

Everyone should buy a ticket for the benefit dance to be given next Wednesday evening in the opera house for Mr. Shirley Prickett, who was so seriously injured in falling from the Morse building a few weeks ago. He is improving as rapidly as could be expected but it will be many months before he can work and he has a large family of children to support.

A clean city, this year of all years, should be a matter of public pride. Unkempt lawns, tumbledown fences, old shacks and all other evidences of shiftlessness have no place in a live community. No matter how beautiful our marine and mountain scenery, the visitor is certain to be impressed very largely by the immediate surroundings. Port Angeles needs the co-operation of all her citizens. An ordinary spring clean-up is not sufficient this year. There must be a general improvement along all lines.

Regret was expressed at the meeting of the Commercial Club directors on Monday because of the failure of the legislature to adopt the memorial to Congress supporting the Secretary of Agriculture in his proposed policy of having the Olympic National Forest co-operate in the expense of building wagon roads on the Olympic Peninsula. The Legislature of Oregon promptly adopted the memorial, but our own senate failed to pass the measure. Representative Babcock had it passed in the House on February 15, but Senator Smith forgot all about it and the memorial did not reach a vote in the Senate, although Mr. Babcock had it placed on the senate docket by a member of the Senate Rules Committee, who is a personal friend of Mr. Babcock. As the Forest Service plan was to be initiated here and as it means a permanent road fund of more than $2,500,000 to be spent in this county, this memorial was considered of great local importance as a support for the fight that will have to be carried into the next session of Congress.

Chairman Lindsay of the Port District Committee announces the immediate circulation of petitions for a port district, in the belief that the necessary ten per cent of signatures can be secured in time to have the matter taken up at the next meeting of the county commissioners. The committee proposes to include only the territory west of McDonald creek to bond for a sufficient amount to build a lumber dock and cold storage plant, which would entail very little additional expense. The absolute necessity of a big lumber dock is so apparent, if we hope to have mills established along the rivers of the county away from tidewater, that everyone to whom the petition is presented is expected to sign up without question.

The Commercial Club has sent a vote of thanks to Representative Albert Johnson, who represented this district in Congress the last two years. Mr. Johnson has given careful and prompt consideration to all matters in which Clallam county and Port Angeles were interested, and his work has been much appreciated by the local organization of business men. Clallam county has now been eliminated from Mr. Johnson's district and from now on we will be represented in Washington by Representative Lindley V. Hadley, of Bellingham, who was elected last fall from the newly created Second Congressional district.

The mayor of Centralia has issued a proclamation declaring a holiday on clean-up day; school children will also have a half holiday that they may assist in the work. Kelso goes Centralia two better, having three clean-up days, with school children to keep in the work one day. Wagons are to be furnished gratis.

Governor Lister has set aside Friday, April 9th, as Arbor Day, and urges that schools plant trees and shrubbery and that the people of the state generally take advantage of the day to beautify private and public property by planting trees and ornamental shrubbery.

A LONG STEP BACKWARD

Politicians Endeavored to Again Place Legislation in Hands of Political Cliques.

Olympia, March 24.—The "dry" forces of the state are aligning everywhere with the different movements for referendums on the new laws passed by the legislature over the vetoes of Governor Lister amending the initiative, referendum and recall laws, and also the law by which the state goes back to the party convention method of handling political campaigns.

Leading anti-saloon league workers and prohibitionists declare that if these laws are allowed to prevail they will fasten machine organization and one-man control again on the state of Washington. With this "reactionary system," as they term it, again in the saddle the saloon, they assert, will have the opportunity it wants to so discredit the present prohibition law by conniving at its violation that the measure will be repealed.

Back of these to them obnoxious measures "dry" supporters declare they see the sinister hand of the saloon still working for party control.

"The general trend of these new laws," said Harry King Rockhill, secretary of the prohibitionist party of the state, yesterday, "is to take legislation out of the hands of the people and place it in the hands of political cliques. The laws are a long step backward, wholly reactionary, and if they are not wiped off the statute books by referendums they will either open the way for admitting the saloon outright or else will result in placing men in office who will connive at the violation of the anti-saloon law.

"It is a sad commentary on the legislature that there were not sufficient progressive members there to support and make effective the veto by the governor of this infamous legislation. 'Dry' people who understand the gravity of what has happened are all signing the referendum petitions. We are holding a big banquet in Tacoma in a few days at which the issue of the defeat of these measures will be taken up."

Automobile men all over the state are felicitating each other on the new auto code just approved by Governor Lister. The new law takes the place of the now antiquated measure passed ten years ago which the rapid expansion of the automobile industry has made inoperative in many ways. The new law establishes a principle new in Washington in that the tax on automobiles used for hire shall be based upon horse power. Auto stages operating on regular routes, including the jitney bus, are required to pay a tax based upon the passenger carrying capacity of the vehicles. The code provides that the secretary of state shall colored license tags which may be changed each year, and to make this license fee emphatically operative, an autoist going abroad with a license tag of a previous year is subject to arrest and fine. Another radically pleasing feature of the new law is that "rules of the road," heretofore resting for their enforcement on common consent, are now written into law with penalties for violations.

Sportsmen the state over are well pleased with the new game code the approval of which by Governor Lister has placed on the statute books. Two sections,—that preventing the use of salmon eggs in Eastern Washington, and the one prohibiting sink boats,—were vetoed. Section 19, interfering with the work of game wardens, was also vetoed.

Joy riders and those who kite checks are hard hit by two bills which secured the approval of Governor Lister, the first making it a gross misdemeanor when one takes an automobile belonging to another, and the second making it a larceny to draw checks on a banking institution when it is known there are not sufficient funds or enough credit to cover the same.

The governor vetoed the measure passed by the legislature making five years estrangement an added ground for obtaining divorce.

The governor also vetoed the bill of Urquhart, of Grant county, providing for an accounting of the liabilities between that county and its parent, Douglas county. The governor declares that under the act creating Grant county no provision was made for such an accounting.

For half a century Olympia has been waiting for the erection of a state capitol. The goal is nearer now than ever before, and to the people of Olympia "it is a consummation devoutly to be wished," as the moment work on the structure commences all likelihoods of the capitol ever being removed from the city will be swept into oblivion. Nearly every session of the legislature has seen a movement afoot for the removal of the capitol until it became a biennial nightmare to the Olympia merchant and hotel man. The bill introduced by Senator Carlyon, of Thurston county, and passed by the legislature now clears the way for money to be raised for construction without sacrificing the valuable lands and timber of the state capitol grant made by the federal government. Tax payers will not be called upon to pay a dollar of the cost, as the bill authorizes a bond issue of $4,000,000 against the capitol lands and out of it appropriates at this time $1,500,000.

The public service commission has issued an order sustaining the proposed change in the Northern Pacific tariff which, after March 20, provides a $2 diversion or reconsignment charge.

The minimum wage commission will, within a few days, meet to fix minimum wages for women and girls employed as waitresses and also hotel chambermaids. Three months ago the commission met, but adjourned without action in order to make investigations.

Hunters and fishermen consider the ruling drastic of Attorney General Tanner, who, in an opinion to the prosecuting attorney of Walla Walla county, holds that a person found in this state with game fish in his possession, taken legally in another state, is nevertheless guilty of a misdemeanor and amendable to the law.

Vigorous action in referendum movements will be directed at the two bills requiring signers of initiative, referendum and recall petitions to go to registration offices, Miss Lucy R. Case, secretary of the joint grange, labor and farmers' union legislative committee, said here yesterday. When legality of the section making the law take effect on April 10, has been settled, she said, a referendum against the jitney bus bill probably will be launched.

NOTICE TO TEAM OWNERS

Notice is hereby given that ordinance prohibiting the feeding of teams between Lincoln and Valley and all that section lying north of the south line of First street and between Lincoln and Valley will be, beginning with the 1st of April, strictly enforced. The barn on Lincoln street, known as the Gallagher barn, can be used by people to put up teams at a nominal cost, by arrangement between J. L. Leonard and City Council.

THE COUNTY SCHOOLS

The 1915 Institute will open at 9:00 o'clock sharp Wednesday morning March 31. The first hour will be spent in sectional work. Teachers who did not attend the W. E. A. last fall and who have not taken any time during the school year for visitation may spend the first two days of the week in visiting schools and the two days will be counted in their institute credits. If the teachers who did not attend the W. R. A. prefer to teach Monday and Tuesday they may do so in which case they will be given only three days institute credits. The city schools of Port Angeles will be running Monday and Tuesday to accommodate visiting teachers.

Unless they are all dead heads but yourself the Institute will be a benefit to you; for two wide awake teachers could hardly remain in conference three days discussing problems of the school without deriving some benefit.

School clerks are asked to send to this office the certificate of election of Clerk and Chairman as soon as possible after the 29th of March. Clerks are asked also to have all the members of the school board sign the card in order that only one card may be needed on file in the auditor's office.

We hope that school officers all over the county and the people of Port Angeles may help to make this year's institute a success. The program will be worth while for all who are interested in the Public Schools. Remember particularly the Spelling match Wednesday evening, March 31. Bring your quarter or ten cents to help give the boys and girls a prize for their faithful work.

SERVICES AT THE CHURCHES

Presbyterian Church.

The subject for the morning service in the Presbyterian church for March the 26th wil be "Palm Sunday." In the evening, "The White Horse."

First Church of Christ, Scientist

Located on 8th street between Laurel and Oak. Sunday services: 11:00 a. m. and 7:30 p. m. Sunday School, 12:00 m. Wednesday evening Testimonial Meeting at 8:00 o'clock. Services will be conducted on Sunday at St. John's Lutheran Church, Ninth street, between Laurel and Oak as follows: Preparatory service 10:30 a. m., German service and Holy Communion 11:00 a. m., English service 7:30 p. m. Welcome.

Laundry Phone is 10.

ABOUT THE COUNTY

MT. PLEASANT

Mrs. William Conway, who has been at the Olympic Hospital for a week, was able to be brought home last Thursday.

Mrs. C. E. Taft and children arrived Thursday and visited with her mother until Friday evening.

Mr. and Mrs. Chas. Herman and baby and Lad Byers visited Sunday at the Byers home.

Miss Edna Dietz of Angeles visited with Martha Dietsch from Thursday until Monday.

Mrs. Copoto visited with relatives in Angeles from Friday until Monday.

Mr. and Mrs. Guy McLaughlin were Mt. Pleasant visitors Sunday, returning to Angeles Monday.

Mrs. Ed Eacret visited with Mrs. Watts Saturday, returning home on Sunday.

Mr. Byers visited with his family from Saturday until Tuesday.

Claude Wheeler of Angeles made a short visit at the Hall home, returning home Sunday.

There was a large crowd in attendance at the dance in the school house Saturday evening, and the usual good time was had.

Miss Martha Dietsch went to Angeles Monday, where she expects to remain for some time.

DE FUCA

The Ladies Sewing Club met last Friday afternoon at the home of Mrs. F. S. Thorpe. Six ladies were present and spent a very enjoyable afternoon.

Mr. Beck was here for several days last week on business.

Mr. Louis Hucke was out from Angeles last week doing some carpenter work for Mr. Heuhslein.

The crew at the logging camp now numbers eighteen men. Quite a busy place this is getting to be.

Mr. and Mrs. Dan Gasser and family drove out from Angeles Sunday morning and spent the day at the C. A. Laurens home.

Mr. and Mrs. Emery were Sunday visitors at the Richards home from Blue Mountain.

Mr. Edwin Champion was a caller in the neighborhood last Sunday.

Mr. and Mrs. Charles Lehman and family were out from Sequim Sunday to visit their friends in De Fuca. They were guests for dinner at the Heuhslein home.

Mrs. F. P. Laurens, who is under the doctors care in Port Angeles, is improving.

Miss Marie Broughton was also a Sunday visitor here from Blue Mountain.

EDEN VALLEY

The dance held at Eden District 46, on the night of the 20th was well attended. Messrs. Sam Lauridsen and McNamara and the Misses Brumfield and Covington from Elwha, Mr. and Mrs. Wm. Eacrett, Mr. Aldrich, Misses Lillian and Laura Eacrett and C. Peters from Edgewood, Mr. and Mrs. Ed Pellerin from District 13 and Miss Elsie Rose from Angeles were in attendance. District 46 turned out in a body and the hall was well filled. Messrs. Gould, Peters and Eacrett did themselves proud with the music. Jay wore out several strings, but managed to have enough extra to keep the violin in a warm condition. The first brown of coffee was a failure as the water would not brown, only on one side. The second brown they washed the water good and clean and it browned well on both sides. All did justice to coffee and lunch and started home satisfied with a good time. This is the first dance held here in time and we hope for more.

The new shingle mill will soon be ready to cut shingles.

Mr. and Mrs. Ed. Bennett and family and B. C. Epperson have moved to the Valley from Edmonds.

Everybody in the valley are busy getting ready for spring planting.

Better try a pint of those Sealshipt Oysters, only 50c. City Fish Market. Phone 49. We deliver.

Overland Model 81

Every Modern Advantage

High Tension Magneto

The Overland has high tension magneto ignition—the most dependable and most uniform system made. Many cars have only the cheaper and less efficient battery system. The battery system is furnished because it is cheaper. But the Overland uses the highest priced system of ignition—the high tension magneto—the same system found on high priced cars.

Don't buy a car that has battery ignition.

Underslung Rear Springs

The Overland has long underslung rear springs. Many cars are still made with those short overslung rear springs. Such springs make a car ride hard. They take all the fun out of touring. The underslung Overland springs are long; have wide openings and swivel seats. This makes them very flexible and smooth riding under all conditions.

Don't buy a car with overslung rear springs.

Simplest Driving Method

The Overland (81) has the control buttons located on the Instrument Board. They are within natural reach. Many cars still have them on the dash or at some other unhandy place. But on the Overland, without stooping or bending forward, you can readily press the buttons that start, stop and light the car. That is why the Overland is so popular with womenfolks. It is so easy to drive—so comfortable and so convenient.

Smooth Working Clutch

The Overland clutch is so designed that it always "releases" freely. It does not grab hold or jerk you from your seat. It works smoothly and evenly without a particle of stress or strain. On many cars the clutch grabs hold with such force that the driver bounces from his seat; the car is seriously strained and the occupants in the tonneau are glad when the ride is over. Don't buy a car with a stiff working clutch.

BUY AN OVERLAND AND GET ALL THE MODERN ADVANTAGES

Phone 298 for Demonstration

PORT ANGELES MOTOR INN

George H. Gale is preparing a most acceptable surprise for the berry growers meeting to be held in the Commercial Club rooms next Monday afternoon. It will be in the nature of a treat for all who attend the meeting.

For your garden tools, lawn mowers, garden hose, and lawn sprinklers come to the H. Gutenburg Hardware Co., where you get the right prices.

Make your Xmas Merry! Don't take chances—there's many a slip you know—Become a member of the Port Angeles Savings & Trust Bank's Landis Christmas Savings Club and you'll be sure to have money when you will need it most.

The best display of sheet music that Angeles has ever seen is now on display at the Peninsula Piano Co's store on Front and Oak.

W. D. Welsh leaves today for Ellensburg and Pasco, having received word of the serious illness of his brother Earl, who with another man out in an auto, lost control of the machine and went over a 40 foot embankment. While badly hurt young Welsh is expected to recover.

What Cures Eczema?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D. Prescription, can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Drop into our store today, just to talk over the merits of this wonderful Prescription.

Beetle & Simmonds, Druggists

BREAD

That you can always rely upon, Pure, Sweet, Clean, Nourishing, Wholesome and easy to digest. Let your children eat plenty of our bread and watch them grow. Our improvements go along steadily to make of this the finest bakery in the Northwest. The house of Quality.

THE PALACE BAKERY

A Splendid Showing of New Footwear for Easter

It is a real pleasure to show the new styles in Spring Shoes and Oxfords. Footwear is expensive at best these days, and one should not buy until positive the last cent's worth of value has been secured. We believe you will have that in a pair of shoes bought from us and will be pleased to show you why.

LAKE FERRY WILL MAKE TWO ROUND TRIPS DAILY

The ferry Marjory will make two round trips daily, commencing Sunday, leaving Piedmont at 8:30 a. m., East Beach at 9 and Fairholm at 11; on the second trip she leaves Piedmont at 2:30 p. m., East Beach at 3 and Fairholm at 5. This will be a great convenience to the people of Port Angeles, who can now spend Sunday at the Sol Duc Springs, as well as to those living in the West End.

CLALLAM'S OIL PROSPECTS

From page 1.

poration will finance a drill prospect they have their geologists give them the formation of the stratas or earth crusts before chosing a drilling site. Sandstone and shale stratas with anticlines or perpendicular stratas show the most favorable conditions and volcanic formation the poorest, hence Eastern Washington is entirely eliminated, and conditions about Seattle and in Kitsap county are not any too favorable owing to the volcanic and conglomerate formations found in those localities. The southwest Washington conditions did not seem to impress the speaker as very promising, while from his explanations of the pictures of earth formations, synclines and anticlines, shale, sandstone, conglomerate, and volcanic formations, the west coast of the Peninsula seemed to have very much the best of the argument according to all known laws touching the possible occurrence of oil in unknown fields. The evidence of all prospects in these fields, he said, strongly encourage and warrant a generous expenditure to ascertain the real conditions, which only drilling will absolutely determine.

Prof. Weaver was given a vote of thanks for his excellent talk. The stereoptican, under the direction of M. A. Regnier of the Manual Training department of the city school, was very clear and distinct.

HIGH SCHOOL NOTES

Mr. Failor has begun the work which needs to be done on the tennis court and asked that the high school boys turn out to help, but the boys do not seem to have enough gumption to take them any farther than the gate to the grounds. However, as the work must be done before anyone can play tennis this spring, we hope that at least a few of the boys will be able to spend an hour of their precious time in helping with their hoes. It is a shame not to have the courts used while the weather is so good.

Vivian Stoval, Beth Webster and Norman Nelson were appointed on a committee to arrange the schedule for the season. All those wishing to play must hand their names to this committee.

The Sophomore party Friday evening was a great success. Their original plays were very clever and amusing. In "The Turning Point," Ellen Finch made a charming heroine, while Wendell Clark did so well that his classmates are having considerable difficulty trying to persuade him not to leave school and go onto the stage. In the "Sophomore Patriotism," Lucy Marquardt as the leading girl, won much applause. Francis Brennand, the small boy in the play, was perhaps the most praised of all who took part. However, they all did remarkably well and are to be congratulated on their success. Refreshments were served in the upper hall, the table being decorated with green streamers in honor of St. Patrick's.

Owing to the lack of gas at the school, the domestic science and the chemistry classes have not been able to do their regular laboratory work this week.

"The Hoodoo" is the name of the play chosen by the Seniors to be presented in the near future. Instead of making it a class play, it has been decided to choose the characters from the whole high school. The proceeds will go toward paying for the "Tum Tum."

As Friday is the end of the third quarter, the conditional examinations will be given then.

Institute will begin Wednesday of next week so the pupils will have vacation from March 31 to April 7.

The Leader Department Store

LINCOLN HEIGHTS

A number of Mrs. Hattie Harding's friends gave her a birthday anniversary surprise Saturday evening. It was a most complete surprise because they waited until the schedule date was passed, but had as jolly a time as they could have had on the real date.

Ernest Harding is the happy owner of an auto which will be run as an auto-bus. The demand was greater than the two cars already on could accommodate. He gave some of his friends a nice outing in it on Tuesday and Wednesday.

Mr. and Mrs. Joe Harding left here Tuesday on the City of Angeles. They did not know where they would locate but expect to return to Angeles inside a year.

Mrs. Haddon and daughters, Pearl and Ruby, Mr. Monds and wife, Mr. Ross, Mrs. Burgman and Vernice, were callers at J. B. Fleming's on Sunday evening.

Mrs. Kerrihardt, Mrs. Nina Hall and daughter Eleanor, Joe Hall, and wife and babies, and Charley Hutchison and wife visited friends on the Heights Sunday.

Mrs. John McLeod is a very sick woman, but is reported as a little better today (Wednesday) and her many friends are hoping for her recovery.

Mr. Holman and wife left today for Bellingham, their former home.

Mr. Mizner, the Sequim veterinary, visited at his Uncle Martin Ester's this week.

Mr. Whitmore's wounded fingers are getting along nicely.

Carl Wade met with the greatest surprise of his life when he came home from work Monday evening, and learned he was the father of twin girls. They say he had to be shown. There is a new baby at Mr. Bacon's also.

Mrs. Ada Harworth has been staying at the home of her sister, Mrs. Lela Winston, for a few days.

The weather continues so nice that it is a punishment to stay indoors.

Mr. Harry Gray has moved in with Mr. Densmore, near the Filion mill.

HARBOR PLAN ESSENTIAL

From page 1.

mill, or some allied timber industry, you would regret it, but it might be too late to make a change. On the other hand, if on account of the failure to have studied and ascertained the advantages or disadvantages of the various sections of the harbor from the enterprises likely to be located therein, you should discover that you had assisted in the location of a big lumber industry in the very best site for an ocean dock, but not most satisfactory for the industry, both the community and the industry would be handicapped as a result.

In short, fundamentally, the most important work a port organization can do is to analyze the situation and prepare a general plan to use not only as a help in the location of present and future shipping facilities, but also as an assistance in the proper and advantageous location of various private industries that from time to time may be secured. On this account you might organize a port commission which would continue in existance for a number of years without spending more than a few dollars that would be able to perform services worth in the long run hundreds of thousands of dollars to the community. This is practically what the Port of Grays Harbor has done, which organization has been in existance for three years without constructing a single dock.

The requirements of Port Angeles may be such that a dock should be constructed in the near future. I caution, however, against being overenthusiastic—a very conservative course is preferable for the reason that a dock may be planned so that it can be readily extended if business warrants, while on the other hand, if it is overdone, a "black eye" may be given to a meritious undertaking.

Your city is to be congratulated in obtaining from the Federal Government the two-mile strip on Ediz Hook to use in making available "site inducements" for prospective industries. The availibility of hydro-electric power from the near-by Olympic Power Co. plant should greatly assist in locating certain timber product industries using lumber as a raw material.

Across the strait from your city is an object lesson illustrating the value of attracting tourist travel. Immediately back of Port Angeles is a wealth of scenic attraction much greater than anything possessed by Victoria. The importance of an attractive Gateway, however, can hardly be overestimated, so that in the planning of your port that feature should be kept ever in mind. It may be practicable, in the next five or ten years, for you to develop a group of improvements as a result of co-operation between municipal and private enterprises whereby you would have an attractive entrance to the city that would appeal to tourists as much as the inner harbor landing at Victoria. Such a group would include a passenger dock for Sound and Coast tourist steamers co-ordinated with a railway passenger station. These facilities should join with an attractive parked plaza scheme about which front tourist hotels of a type to attract the very best travel.

H. S. Coleman spent the early week in the city of Seattle on business.

POINTERS ON GROWING BEAUTIFUL DAHLIAS

By Mrs. W. H. Chambers.

Dahlias will do well with you if you follow these directions.

1. The ground should be spaded or plowed to a depth of about 10 inches. When the soil has been properly prepared and the hole dug 6 inches deep in which to plant the bulb, the fertilizer from the cow stable should be put in and well mixed with the soil.

2. If you have no light soil, spade in two parts coarse coal ashes to one of soil to the depth of 12 to 18 inches and mix with fertilizer. The decomposed cow manure is the best for dahlias.

3. Plant the hills about three feet apart. Give them plenty of room and plant them where they will have plenty of sun. When you plant the bulbs, lay them down flat and cover to a depth of 4 to 6 inches. Never stand the bulb on end when planting.

4. Never have more than one or two stalks in a hill. You will have better plants and larger flowers if you will allow only one sprout to grow.

5. You should use stakes to prevent plants from breaking down. Dahlias do best alone by themselves and out of the reach of roots of shrubs or trees.

6. Dahlias often grow as high as your head and sometimes higher and flowers of enormous sizes bloom if you keep the ground cultivated and free from weeds, a frequent stirring of the surface of the soil around the plants two or three times during the season is very beneficial.

7. If dahlia sprouts get too long at planting time, cut them off near the base and they will come again and make a better plant than if the long sprout is used. Stunted plants, thick and bushy on top, with no blossoms are the results of dry weather.

8. Some people have an idea that the larger the bulb the better plant it will make but that is not the case. A small bulb is just as good as, and in many ways better than a large one.

9. Dahlia clumps should be dug up every spring when all danger from frost is passed, and separate or divide the clumps by using a sharp knife. Where the sprouts or eyes are visible only one bulb is necessary to make a nice plant.

10. Do not forget to water the dahlias in dry weather. If too many buds appear, pinch them off.

11. The more flowers you cut the better dahlias will grow.

12. Some people who do not succeed in growing dahlias with their first season's experience are naturally very much disappointed. However, it is not due to the fault of the bulbs, but is due wholly to your method of cultivation, kind of soil and weather conditions.

CLASSIFICATION OF DAHLIAS

The cactus dahlias have large loosely formed flowers. The petals are long, narrow, rolled or twisted. They are the most artistic and beautiful of all the dahlias.

Decorative dahlias are known by their large flowers and flat petals being intermediate between the cactus and show types.

Show and fancy dahlias are usually of solid color but in certain varieties the tips of petals may be of another. They are usually round ball shaped and are very pretty and desirable for cut flowers.

Peaony flowered dahlias are of immense size and are generally of a flat and twisted formation.

Single dahlias have but a single row of petals; nice for bouquets.

Collarette dahlias are rather odd, having one row of petals like single dahlias and in addition have collarette of small petals around the yellow center of the flower.

Pompon dahlias. The ball shaped flowers of the Pompon dahlia are smaller than those of the show class and are borne in the greatest profusion on long stems; nice for bouquets.

20th Century single dahlias. These are of free branching habit, flowering early, profusely and continuously thru out the season. Flowers often 4 to 5 inches across on long stems and when cut keep in good condition for several days.

PROCEEDINGS OF THE COUNTY COMMISSIONERS

Wednesday, March 17, 1915, at 9:00 a. m.

The Board met pursuant to adjournment, all members being present.

The Board, during the day, made a thorough inspection of the new court house building, and finding the following contracts completed according to plans and specifications, accepted same:

General construction, Contractors, Sound Construction and Engineering Company.

Heating and Plumbing, Contractor E. A. Jacobs.

Electric Wiring, Contractor, Rainier Electric Company.

Clock System, Contractor, Jos. Mayer & Bros.

Jail, Contractor, Stewart Iron Works Company.

Lighting Fixtures, Contractor, H. E. Gleason Company.

The Board then adjourned until Monday, April 5, 1915, at 9:00 a. m.

Money for Christmas! You will be sure to have money just when you need it for the holidays if you become a member of the Port Angeles Trust & Savings Bank's Landis Christmas Savings Club.

COUNTY TREASURER'S WARRANT CALL

The following warrants will be paid upon presentation at the County Treasurer's office in Clallam County and City of Port Angeles, Wash.

District number 56, building fund, No. 50 to 53 inc.

District number 57, general fund, No. 80 and 81, and previous numbers.

District number 302, general fund, No. 680 to 683, and previous numbers.

District number 303, general fund, No. 1 to 8, and previous numbers.

No interest will be allowed after March 19th, 1915.

HERBERT H. WOOD,
Treasurer of Clallam County.

All brands of high-grade Cigars and Tobacco at the Brunswick Pool Hall. We are also agents for the Angeles Steam Laundry. Leave bundles here.

CALL FOR BIDS

Notice is hereby given that the Board of County Commissioners of Clallam County, will receive sealed bids at the office of the County Auditor in Port Angeles, up to 10 o'clock a. m., of Monday, April 5, 1915, for the construction and graveling of 4,800 feet of Clallam-Forks road, according to plans and specifications which may be examined at the office of the County Engineer in Port Angeles.

Plans and specifications may be borrowed by depositing cash or certified check in the sum of $5.00 with the County Engineer.

A deposit of cash or certified check equal to 5 per cent of the amount bid must accompany each bid.

The Commissioners reserve the right to reject any or all bids.

By order of the Board of County Commissioners of Clallam County, made March 2, 1914.

J. W. WARREN.
Auditor of Clallam County, Wash.

HEALTH NOTICE

Notice is hereby given that conditions unsanitary existing in the City of Port Angeles has made it necessary for prompt and thorough action with a view to abating the same throughout the City in accordance with action recently taken by the State, County and City Board of Health.

Now Therefore, all persons are hereby notified that on or before March 31, 1915, all garbage and unsanitary matter in and about premises owned or occupied by you must be gathered together in the alleys adjacent for the purpose of being loaded on a wagon for removal and the city will send a team to dispose of the same.

All such owners and occupants of premises in the city are also required to abate at once all sewage or other unsanitary conditions on such premises or adjacent thereto, in the alleys or streets and to abate all unsanitary conditions in your respective premises, under penalties for violations of the nuisance ordinances. You will also report all unsanitary conditions in your neighborhood beyond your control, to the City Board of Health.

DR. BIGELOW, Chairman,
3t11 City Board of Health.

U. S. DEPARTMENT OF AGRICULTURE—Office of the Secretary, Washington, D.C., March 1, 1915. Sealed proposals will be received by the Secretary of Agriculture until noon, April 27, 1915, for the erection of a two story frame cottage, telegraph office building for the Weather Bureau, U. S. Department of Agriculture, at Neah Bay, Washington, in accordance with plans and specifications which may be obtained from Chief, U. S. Weather Bureau, Washington, D. C., or the U. S. Weather Bureau offices at Seattle or Port Crescent, Wash. Bids must be sealed and endorsed on envelope "Proposals for Weather Bureau Building, Neah Bay, Washington," and addressed to the Chief, U. S. Weather Bureau, Washington, D. C The Department reserves the right to reject any or all bids, and to waive defects, should it be deemed in its interest to do so. Signed, D. F. HOUSTON, Secretary.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Seattle, Wash., March 10, 1915.

Notice is hereby given that Catherine Ames Stickles, of Neah Bay, Wash, (deserted wife of James H. Stickles,) who, on February 27, 1915, made Homestead Entry, No. 03649, for the SW¼ of Section 15, Township 32 N, Range 15 West, Willamette Meridian, has filed notice of intention to make Final five year proof, to establish claim to the land above described, before James Stewart, U. S. Commissioner, at Port Angeles, Wash., on the 22nd day of April, 1915.

Claimant names as witnesses:

Mrs. Jane Paull Ray, of Neah Bay, Wash; Mrs. Alice Ray Strobridge, of Neah Bay, Wash; Sam Ray, of Neah Bay, Wash; Bert Foglesong, of Rochester, Wash.

NOTICE FOR PUBLICATION

Department of the Interior

U. S. Land Office at Seattle, Washington, February 16, 1915.

Notice is hereby given that Bowhertta Ladder, Indian, of Neah Bay, Washington, who, on May 14, 1907, made Homestead Entry No. 19560, Serial No. 01257, for lot 1, section 17, lots 5 and 6, section 18, and lot 5 section 19, Township 33N, Range 14 West, Willamette Meridian, has filed notice of intention to make five year proof, to establish claim to the land above described, before the Register and Receiver, U. S. Land Office, at Seattle, Wash., on the 28th day of April, 1915.

Claimant names as witnesses: Simon Phillips, Jangie Claphanoo, Chad George, Schuyler Colfax, all of Neah Bay, Wash., and Minnie Youngblood, of Seattle, Wash.

JOHN C. DENNY, Register.

THE CITY COUNCIL

Contiued from Page 1.

to dump waste materials he had advised to dump in bay. This the city attorney advised was contrary to law.

Jas. Frank filed a claim against Anderson & Co., for $30 for sidewalk planking appropriated by contractor. Referred to attorney.

City electrician reported that it would cost $39 to extend light line to lot 13, block 383, where he is to build, that city electrician should have lights in his home so he would be advised quickly when anything was wrong. The light committee and himself had agreed however that no more extensions are possible until next fall, owing to the lack of funds and he was willing to abide that ruling. It was decided, however, that the electrician should be advised quickly and the extension was ordered.

George Bernier was granted privilege of blasting stumps.

Claim of R. W. Cummings against Anderson & Co., was reported as having been paid, and claim was ordered cancelled.

A petition signed by practically all the doctors of the city and some 30 business men was read recommending the passage of an ordinance regulating plumbing within the city. Mr. Bigelow stated the plumbers had put into his hands an ordinance drafted by them, but that he had not had time to look same over. He moved that the city attorney bring in an ordinance at next meeting regulating plumbing.

E. G. Frye and P. J. Woods, owners of building standing in front Willson's Hardware store, asked privilege of moving same two blocks to the west. The request was granted with thanks.

Mrs. Thos. Bayton was granted a permit to build at 5th and Oak, a one-story frame residence, 26x38, to cost $1,250.

Dell Church was granted a permit to build at Peabody and Boulevard, two room residence 12x22, to cost $250.

Here occurred the difficulty re lumber taken for the benefit of the Boy Scouts to be used in fixing up a shower bath under Parish Hall. Mr. Severyns, the city attorney explained, had taken the lumber with the consent of one of the councilmen. The councilman explained that he had no right to give away city property, and had misunderstood the request over the phone. Others denied it was taken in good faith, and therefore demanded its return by the parties taking it. A motion to this effect failed by tie vote, as did also a motion to leave the matter in the hands of the street committee with power to act. The street superintendent was finally ordered to get the plank.

M. Sweeney was granted privilege of blasting stumps, he assuming all risk.

Ordinance authorizing special Peddlers' Licenses to issue was read and adopted, as was ordinance ordering improvement of Front street from Vine to Lincoln with lateral sewer.

City engineer submitted plans and specifications for sewers in alleys between Second and Third and Third and Fourth streets, Oak to Lincoln. These were approved and city attorney instructed to bring in ordinance ordering the work. The council ordered the clerk to ascertain if property owners would sign up for immediate payment so the city could do the work and employ home labor instead of letting contract. Otherwise banks will be asked to take care of the small issue of bonds to the same end.

City engineer asked two weeks further time to report plans for the Lincoln street trunk sewer. Granted.

Mr. Wolverton reported having secured a favorable bid for the building of a room in the basement of the city hall for the electrician, providing comfortable quarters for $25. Accepted.

Council adjourned after adopting resolution for improvement of east end district.

THE SUPERIOR COURT

Word has just been received from Seattle that the case of G. M. Lauridsen, Receiver, vs. J. F. Janecke, former receiver of A. B. & M. Co., and Fidelity and Deposit Co., of Maryland, had been settled in favor of the present receiver. Some months ago upon default of the former receiver to turn over the $18,000 reported on hand to the new receiver, and the advices that he had but $330 on hand, the Court ordered suit on the bond for the recovery of the assets of the brewery. The bonding company put up a strong defense. It is thought the case will be appealed to hold off the day of final accounting until the appeals of the former receiver now in the Supreme court are finally settled.

Upon report of the condition of the estate of C. W. Thompson, court ordered estate closed as soon as possible, and the immediate distribution of $1000 each to seven heirs. Some worthless notes were ordered sold and others collected. All other personal property unsold was ordered sold.

In Kaughman vs. Gallagher, sheriff, on alleged non-delivery of boats sold by sheriff, and later seized by U. S. officials, defendant interposed a demurrer to the complaint as not constituting a cause of action. It was overruled and defendant given 10 days to further plead.

Mrs. Ida Jamison recovered judment against Mrs. Annie Reardon for $100 and foreclosure of mortgage and note.

Demurrer in W. B. Ross vs. J. E. Musgrave was overruled and defendant given 20 days to further plead. Musgrave gave a note to Ross for some $800, due last June. In December Ross foreclosed on personal property mortgaged and recovered by sale $89. Defendant's alleged by foreclosing on mortgaged property under summary proceeding without the aid of the court, gave plaintiff's what they got from that sale and cancelled the debt.

Two boys, Fred Spaulding and Cecil Jeffers were brought before the Court under the juvenile act. They confessed though not charged to stealing a suit from an old man named Dougherty at Sequim, with intention of pawning same. Hearing was set for April 5, meanwhile relatives will be notified.

Tax foreclosure contest case Hendee vs. E. Nichols, was set for trial, for April 8.

Robert Brown, et al, brought an action against Patrick Sheehan and wife, to eject them from their land near the east county line, and secured a writ of Restitution and judgment for costs. Sheehan it seems, was located upon the land by a land shark who claimed it was government land and open to settlement. The land has been patented for 40 years. The fact that Sheehan's filing was refused and that he still attempts to hold the land by force indicates that he was easy prey for the locator.

Notice is hereby given that all persons building on the Ediz Hook spit do so at their own risk and may be ordered off at any time by the City of Port Angeles. By order of the City Council, made on the 16th day of March, 1915. J. LYLE BEAM, City Clerk.

SUMMONS FOR PUBLICATION

In the Superior Court of the State of Washington, for Clallam County.

P. S. Govan, Plaintiff, versus Charles F. Knapman, and Kate Knapman, his wife, W. H. Knapman and H. G. Lawrence, Defendants.

The State of Washington, to the said H G. Lawrence, defendant above named:

You are hereby summoned to appear within sixty days after the date of the first publication of this summons, to-wit, within sixty days after the 19th day of March, 1915, and defend the above entitled action in the above entitled court, and answer the complaint of the plaintiff, and serve a copy of your answer upon the undersigned attorneys for the plaintiff at their office below stated; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint which has been filed with the clerk of said court.

The object of the above entitled action is to secure judgment of the above entitled court that two certain warranty deeds made by the defendant, W. H. Knapman; one to the defendant H. G. Lawrence, which is of record in Vol. 93 of Deeds at page 528, in the office of the Auditor of said Clallam county; and one to the defendant Charles F. Knapman, which is of record in Vol. 93 of Deeds at page 527, in the office of the Auditor of said Clallam county, said deeds purporting to convey the hereinafter described property, are fraudulent and void as to plaintiff herein; the premises and real property affected by and involved in said action is situated in said Clallam county, state of Washington, and is particularly described as follows, to-wit:

(Deed to Charles F. Knapman)

All of lot 4 and the west 20 feet of lot 3 in block 1 of First Plat of the Townsite of Sequim, according to the recorded plat thereof.

(Deed to H. G. Lawrence)

Lots 20 and 21, block 1, First Plat of the Townsite of Sequim, according to the recorded plat thereof.

Also, beginning at a point 286.58 feet west of the Southeast corner of the North half (N½) of the Northeast quarter (NE¼) of Section 19, Township 30, North of Range 3, West of the Willamette Meridian, thence in a northerly direction 456 feet, thence in a westerly direction 382.10 feet, thence in a southerly direction 456 feet to Quarter Section line, thence east along quarter section line 382.10 feet to point of beginning, and containing four (4) acres more or less.

McCLINTON & ROSE, Plaintiff's Attorneys.

SUMMONS BY PUBLICATION

In the Superior Court of the State of Washington, for Clallam County.

Emma Mathews, Plaintiff, vs. M. Francis Kane and Ida Kane, husband and wife; Andrew Peterson, a bachelor; and E. C. Miller and Jane Doe Miller, (whose true name is to plaintiff unknown), husband and wife, Defendants.

The State of Washington to the said M. Francis Kane and Ida Kane, husband and wife; Andrew Peterson, a bachelor; and E. C. Miller and Jane Doe Miller (whose true name is to plaintiff unknown), husband and wife, Defendants.

You are hereby summoned to appear within sixty days after the date of the first publication of this summons, to-wit: within sixty days after the 5th day of March, 1915, and defend the above entitled action in the above entitled court, and answer the complaint of the plaintiff and serve a copy of your answer upon the undersigned attorney for plaintiff at his office below stated, and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint which has been filed with the clerk of said court.

The object of this action is to foreclose a mortgage on lands situated in Clallam county, Washington, and to bar and foreclose the right of redemption of each and all of the defendants in and to said mortgaged premises.

Date of first publication, March 5th, 1915. JAMES STEWART, Attorney for Plaintiff.

Post office address: Port Angeles, Clallam county, Washington.

SUMMONS BY PUBLICATION

No. 3222.

In the Superior Court of the State of Washington, in and for the County of Clallam.

George F. Gund and Anna M. Gund, his wife, Plaintiffs, versus Harry C. Peet, Angeles Realty Company, a corporation, E. J. Bright and Jane Doe Bright, his wife, Defendants.

The State of Washington, to the said E. J. Bright and Jane Doe Bright, his wife, Defendants:

You are hereby summoned to appear within sixty (60) days after the date of the first publication of this summons, to-wit: within sixty (60) days after the 12th day of March, 1915, and defend the above entitled action in the above entitled court, and answer the complaint of the plaintiffs, and serve a copy of your answer upon the undersigned attorney for plaintiffs at his office below stated; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court.

The object of this action is to foreclose a mortgage made by the defendant Harry C. Peet, in favor of the plaintiffs, dated January 30, 1913 and recorded in Volume 19, of Mortgages at page 472, of the records in the Auditor's office of Clallam county, State of Washington, upon real estate situate in said Clallam county, Washington, described as follows, to-wit:

Lots 5, 6, block 111; lots 5, 6, 16, 17, 18, block 125; lots 13 to 17 incl, block 130; lot 19, block 136; lots 13 to 16 incl, block 137! lots 5, 6, 9, to 16 incl, block 138; lots 1 to 19 incl, block 139;lots 1 to 10 incl, block 145; lots 5,6,15,16,17, 18, block 146; lots13, 14, 15, 16, block 148; lots 3, 4, 7, 8, block 149; lots 13, 14, 15, 16, block 151; lots 5, 6, 7, 8, block 152; lots 13, 14, 15, 16, block 153; lots 13 to 17 incl, block 155; lots 15, 16, block 242; lots 3 to 8 incl, 11, and 15, 16, 17, 18, block 243; lots 3 to 8 incl, and 11 to 16 incl, block 244;lots 3, 4, 7, 8, and 11 to 20 incl, block 245; lots 7 to 12 incl, block 248; lots 1 to 8 incl, block 249; lots 1 to 20 incl, block 250; lots 11, 12, 19, 20, block 251; lots 11, to 20 incl, block 252; lots 3 to 9 incl, and 17 to 20 incl, block 253; lots 1 to 20 incl, block 254;lots 1 to 20 incl, block 255; lots 3 to 8 incl, and 11 to 16 incl, block 256; lots 2 to 10 incl, block 305; lots 1 to 10 incl, block 306; lots 6, 7, 8, block 307; lots 3 to 9 incl, block 308; lots 1 to 10 incl, block 309; lots 1 to 10 incl, block 310; lots 6, 7, 8, 9, block 311; lots 3 to 10 incl, block 312; lots 16, 17, 18, 19, 20, block 314; lots 4 to 10 incl, block 315; lots 13, 14, block 357; lots 1 to 10 incl, block 359; lots 3 to 10 incl, block 360; lots 1 to 9 incl, block 361; lot 13, block 414; lots 7, 8, 9, 10, block 428; lots 1 to 10 incl, block 429; lots 1, 2, 9, 10, block 430; lots 1, 2, 19, 20, block 431; in the Townsite of Port Angeles, Washington, in which said defendants E. J. Bright and Jane Doe Bright, his wife, have or claim to have some interest, and for the decree of the above entitled court directing the sale of the said premises as provided by law, and the application of the proceeds of sale to the indebtedness secured by said mortgage, and for which judgment is sought against the defendants, Harry C. Peet and Angeles Realty Company, a corporation, for the sum of $21,881.85, together with interest thereon from January 30, 1915, at the rate of 12 per cent per annum, for the further sum of $20, paid for abstracters charges, and for the further sum of $2,000.00 as attorney's fees, and for the costs and disbursements of this action; for a deficiency judgment against the defendants Harry C. Peet and Angeles Realty Company, a corporation; and to bar and foreclose all the defendants of any right, interest, claim or equity in said premises or any part thereof, except the equity of redemption allowed by law; and for such other and further relief as to the Court may seem just and equitable.

D. C. CONOVER, Attorney for Plaintiffs.

The Spring Style Book
by Hart Schaffner & Marx

If you men and young men want to be correctly informed regarding styles in spring clothes and other apparel, the Style Book will tell you. It describes Varsity Fifty Five, the most popular young men's model in America. It also tells you:

How to save money in clothes buying.
Names of the newest spring fabrics.
How to be correctly fitted.
What to wear and when.

If you will give your name to us, we will have a copy of the Style Book sent to you by Hart Schaffner & Marx.

You'll see in our windows the above picture, enlarged and in colors. If you would like to possess a copy of it, tell us and we'll get you one

The Toggery Everything that a man wears

STUDY OF CLALLAM MADE BY FOREST SERVICE

Olympic National Forest Supervisor R. L. Fromme has completed the compilation of the elaborate report on the "Needs of Clallam County for National Forest Aid in Road Building," and this report is being used as a model for the reports on the other Olympic Peninsula counties. Forest Ranger Chris. Morgenroth, who has done practically all the field work for this report, collecting and compiling all the data and making the working maps, five of which covering different phases of the subject illustrate the report, left for Sunday afternon for Olympia expecting to be absent a week or ten days helping to gather and compile the data for the other counties. The Clallam report is perhaps the most thorough study of the county ever made and covers 56 typewritten pages, a large part of it being statistical tables and analyses. In addition to this a complete report on the Olympic elk has been prepared, together with a large colored map showing the winter and summer ranges and calving grounds. A copy of the reports have been loaned to the Commercial Club.

"A GENTLEMAN FROM MISSISSIPPI" AT STAR

The story of "A Gentleman from Mississippi" revolves around the adventures in Washington of a newly elected senator from Mississippi, fat, jovial Bill Langdon, who is sent to the capitol by the "trust" interests as an easy mark, who will coincide with their ideas through friendship for the men who put him there. The old gentleman, a cavalier of the old school, has a high sense of honor and, seeing through their schemes he defeats them and comes off victorious in a fight that threatens to destroy him financially, politically, and, what was even more vital to him, to smirch the honor of his family. His daughters become infatuated with Washington social life and the elder becomes engaged to a congressman, Norton, who tries to put through a bill placing a naval base at a point in the Gulf of Mexico, where he has persuaded his fiancee and her brother to invest their money. Old Langdon discovers Norton's treachery and breaks the engagement.

"Bud" Haines, a bright young newspaper correspondent in Washington, has become acquainted with Langdon shortly after the latter's arrival at the capitol and becomes the private secretary of the new senator. Knowing the perils of Washington political life, he steers the old man safely past the reefs and captures the old man's younger daughter.

The old man falls a victim to the charms of a dashing widow, while the pert young stenographer who furnishes quite a bit of the comedy, surrenders to a persistent young reporter.

NEW WALL PAPER STORE

H. Fathers, a painter and paperer of twenty-five years experience, has opened a store on First street just east of Laurel and is prepared to do all kinds of work in his line. He carries the famous Masury paints and has the handsomest and most select line of wall papers ever bro't to Port Angeles. He also has a nice line of the cheaper papers. The store is just east of Kennett's Studio and you are cordially invited to call in and look over his line of papers.

Every woman needs money! Especially during the Christmas season. A sure way to have it is to become a member of the Port Angeles Trust & Savings Bank's Landis Savings Club.

Brunswick Pool Hall. Cigars. Tobacco, etc., also Laundry Agency.

The Willson Hardware Company wish to announce this week that they have taken the agency for the Case Automobile, put out by the celebrated J. I. Case Threshing Machine Co., of Racine, Wisconsin. The car is said to be one of the very best on the market, the body part of it is made entirely of aluminum. The car will be on exhibition in front of the store and they will be glad to give a demonstration of it to any one interested in buying a car.

The Elks will entertain with a dancing party in the Opera House, Monday, April 3.

This fine weather and the good roads are making business for the automobile man and Fred Farmer is exercising vigorously enough to considerably reduce his over abundance of flesh gained during the slack season. Fred has sure been kept on the jump the past two weeks.

Many mothers who sew will be glad to know they can now get the ever dependable Butterick patterns at the Leader Department store, which has taken the agency for them and the Delineator.

Roy McClinton was down from Seattle on local business the first of the week.

At the monthly meeting of the library board Tuesday afternoon, a vote of thanks was extended to Miss Taylor, and the gentlemen who sang at the St. Patrick's Ball, also to Messrs. Frank Fisher, Mr. Christianson and R. D. Willson for their assistance and to the young [illegible] assisted in serving the ice cream. It was also decided to give a whist tournament at the Opera House the evening of April 9th.

The Ladies Aid Society of the Congregational Church will have an apron sale and dinner at the church Thursday afternoon and evening of April 1st. Ice cream and cake will be served for 15 cents and dinner from 5 to 8 p. m., for 35 cents. Everybody invited.

Word was received this week from the postoffice department that the improved service asked for by the people of the West End cannot be granted at present.

The Library Association will hold a whist tournament in the Opera House the evening of April 9. Watch for list of prizes offered.

Fish, fish, fishing tackle, hooks, lines, spoons, poles, flies, everything in the fishing line. The largest, best and cheapest stock in the City at Baker and Co.

Mrs. Roy McClinton and children are expected Saturday to spend the week with her parents Mr. and Mrs. R. D. Willson.
