LOCAL CAMPAIGN FOR WAR SAVING PUT UNDER WAY

County Chairman J. P. Christensen Auspiciously Launches Work in County at Luncheon Held Today

Some two score of the prominent men and women of the city and county met at the Elks Club at 12:30 noon today and sat down to a luncheon as guests of Mr. J. P. Christensen, cashier of the Citizens National Bank, who has accepted the county chairmanship of the War Savings campaign for Clallam county. The object of the luncheon was to set going the machinery for making the national war savings loan a success for this county section of the state of Washington.

After the guests had done justice to a chicken dinner with hot biscuits and other items for which a committee of the ladies of the Red Cross, as assistants to Mr. Christensen, were responsible, Mr. Christensen took the floor and in an earnest and extended talk endeavored to impress upon his hearers the importance of the task before us in meeting the expectations of the national government in this particular matter. Mr. Christensen told how he had responded to the call of the state director of the campaign, Mr. Daniel Kelliher, of Seattle, and how at a luncheon occupying the whole of an afternoon, with prominent men and women from over the state, he had been imbued with enthusiasm for the work, saying that after having heard the necessities now confronting the nation set out by prominent speakers, as it was at that time, he had come home determined to dedicate the last bit of his energy to the task.

Mr. Christensen followed the earlier part of his talk with a later clear and full explanation of the proposed campaign for gathering the small savings of the people through the thrift stamps and war-savings certificates. This system, as worked out by the government, contemplates the gathering of the savings of the people in the minor denominations of from 25 cents upward by the purchase from the post offices and banks of 25 cent stamps which are to be pasted onto cards provided until the saver amasses five dollars, when a stamp of that denomination is furnished, which in turn is pasted on a certificate designed to hold one hundred dollars worth of Uncle Sam's securities. By this system the saver may put away his small earning bit by bit, and have the option of having his money back in case of need upon a ten days notice to bank or post office. The savings pay three per cent interest when withdrawn before maturity of the certificate, and four per cent compounded quarterly if the certificate runs to maturity.

Following Mr. Christensen's talk steps were taken for completing organization for the work throughout the county, particulars of which will later given in these columns.

In laying out his work for the county, Chairman Christensen has appointed committees for the different districts of the county and named various district chairmen, who are expected to formulate district campaigns for the furthering of the work.

Mr. Christensen's list of guests for the luncheon was made out with the idea of securing representation of all branches of the public work and representatives from all professional, commercial and industrial divisions of the community.

Following Mr. Christensen's talk, Mrs. D. E. MacGillivray spoke for a few minutes in the interests of the Red Star work. Following Mrs. MacGillivray, and upon the suggestion of T. F. Trumbull, chairman of the county council of defense, the luncheon resolved itself into a meeting for organized purposes.

Those Present.

The ladies who graced the occasion were Mrs. D. E. MacGillivray, Mrs. W. J. Ware, Mrs. R. D. Willson, Mrs. E. E. Hopkins and Mrs Jessie Webster

From county points were present James Dick, F. E. Knight and A. N. Taylor, of Dungeness; J. L. Keeler and E. F. Gierin, Sequim; C. D. Sult, of Forks, and A. W. Smith, of Mora.

From the city were the following: Mayor E. J. Walton, City School Superintendent R. J. White, Superior Judge J. M. Ralston, T. F. Trumbull, Benj. N. Phillips, Postmaster Stocking, City Councilman J. W. Hooker, County Supt.. R. J. Gilmore, A. L. Phillips, E. E. Boies, S. J. Lutz, J. L. Aldwell, C. C. Donovan, W. J. Ware, C. P. Brown, Rev. Devine, Rev. Grimes, Rev. Waaler, Arthur V. Watts and A. A. Smith.

EAT MORE CHEESE

By United Press.

PORTLAND, Dec. 18.—"Eat more Northwest cheese. It contains twice the nutritive value of meat," is to be the slogan of the newest food campaign. Food Administrator W. A. Ayer is today preparing a series of articles on the food value of this dairy product, and lecturers will give talks and demonstrations.

SPRUCE MUST BE PRODUCED NOW AND NO EXCUSES

Only 3,000,000 feet Forthcoming When 10,000,000 Feet are Demanded, and Must Be Furnished

PORTLAND, Dec. 18.—Col. Brice P. Disque, of the United States army signal corps, who is director of the spruce production bureau in the Northwest, told the Chamber of Commerce in a public address yesterday that spruce production has so far attained only 40 per cent of the government's urgent necessities for airplane construction.

"We need and must have 11,000,000 feet of spruce a month," declared Col. Disque. "We are only getting 3,000,000 feet a month. The Germans are still able to throw into the fight more airplanes than Great Britain, France and the United States combined.

"Red tape" he held to be partly responsible, but asserted that it is being cut out wherever it hampers work. Another factor, he said, is the inability of the mills to handle spruce as airplane construction demands. For this reason the government plans to build a mill of its own immediately. The use of soldier labor to help out the logs in the camps was explained.

"The men are necessary to help the civilians," he said. "They and the loggers who will work with them will do more good in the spruce belt than they can on the front. The soldiers will work for the same wages as the civilians receive and will pay board at the same rate. If the camps cannot use them, then we will take over the camps."

FIFTY MILLION ASKED OF CONGRESS FOR FARMERS

By United Press.

WASHINGTON, D. C. Dec. 18.—Congressman Baer, of North Dakota, has introduced a bill asking congress to appropriate fifty million dollars for the government purchase of live stock feed, to be resold to farmers at cost. He declared the drought had caused serious conditions for western live stock.

MANAGERS OF RED CROSS DRIVE FIX ON PLANS

They Gathered Last Evening to Perfect the Campaign for the Christmas Drive For Members

Last evening the respective committee chairmen and district captains met with Division Manager C. C. Donovan, at the office of Maurice Fisher to go over final plans for beginning the great Christmas membership drive for 10,000,000 new names for the Red Cross Army.

Plans were adopted, patterned after the method of Mr. A. C. Gabriel, captain of the fourth district, whereby a count of the houses in each district will be made and each worker furnished with a small plat of the territory he or she is to cover, thus avoiding duplicate calls.

It was shown at the meeting that the people of the city are already much interested in the movement and a large enrollment is anticipated.

Enrollment Booth in Post Office.

Beginning Thursday morning a booth will be open in the lobby of the local post office, in charge of a young lady both morning and afternoon until the drive ends, for the accomodation of those who may be overlooked by the canvassers or who do not live in organized territory. Manager Donovan would like to have lady volunteers for attending this booth on the different days. Telephone him at the Commercial Club room.

LIST OF RED CROSS MEMBERSHIP SPEAKERS

This evening at the Lincoln theatre Dr. W. W. Earles will address the audience on the importance of joining the Red Cross during the Christmas 10,000,000 membership drive, and Attorney G. V. Smith will speak at the Star theatre on the same subject.

Tomorrow night at the Lincoln, Mr. Frank Fisher, will speak, and Rev. Maxey will address the audience at the same threatre on Thursday evening. These speakers will be an important adjunct to the work of the campaign.

NEW AUTOMOBILE PLATES

OLYMPIA, Dec. 18.—About 40,000 of the 150,000 automobile license number plates ordered by Secretary of State I. M. Howell for next year have reached Olympia. The new plates will be yellow with black figures—patterned after Califonia figures—patterned after California in them, so that if it is decided to use small metal plates, with the year marked in which they expire, these new plates can be used. The advantage of using the little metal plates is that it will save investing so much money in large plates and will also cut down the postage. The purchase of plates and mailing of them are the two big items of expense in handling the auto department. Already this year the department has collected more $500,000 in fees. The number in licenses is now close to 100,000 and that mark will easily be passed before the fiscal year expires March 1.

FOR CONVENIENCE OF SOLDIERS

By United Press.

PORTLAND, Dec. 18.—Establishment of an army and navy club, to provide recreative and amusement for all officers and enlisted men in Portland or passing through, will be opened in temporary quarters this week. Within a few weeks, permanent quarters, appointed especially for the convenience of the men, will soon be opened, and a fund of $22,000 will be raised to maintain this apparent necessity.

EXCESS FREIGHT BLOCKS SEATTLE DOCKS AND CARS

Thousands of Carloads of Goods Await Shipment to Orient, and Congestion is the Result

Seattle, Dec. 18.—Asserting that transpacific steamship lines are discriminating in regard to export freight by selecting the tonage that bears the highest rate and leaving accumulated merchandise that has been in port for ninety days or more, the local commission of the division of national defense, American Railway Association, at its meeting Monday sanctioned its traffic and operating committee power to formulate a plan that will bring pressure on the ocean lines to facilitate the clean up of some 4,700 carloads of export freight now held on Puget sound.

Authentic statements were made that there are 3,300 loads of export freight in cars and 1,200 cars in warehouses awaiting transportation across the Pacific and that it is still accumulating, despite the embargo placed against it by Fairfax Harrison, head of the railroads' war board two weeks ago. This embargo provides that no freight can be received for transpacific shipment on Puget sound unless steamship space has been secured before its arrival as a means of cleaning up the abnormal accumulations here. All the carriers reported that they were obeying the rule to the letter, but complaint was made that freight that reached this port after the embargo was placed had been taken aboard the ocean liners, in many instances because it bore a higher freight rate than merchandise that had arrived several weeks earlies.

RIGHT, GOVERNOR

TACOMA, Dec. 18.—In an address at the Mason Methodist church, yesterday, Gov. Lister asserted that if 10 per cent of the I. W. W., including the leaders, were interned, there would be no more trouble on that score. He said further:

"When it interferes with war needs, no man ought to raise the question of hours, wages or profits. I believe fundamentally in the eight hour principle, but when men are holding up supplies and lives of their nation by discussing eight, ten, twelve or fourteen hour days, it is traitorous. Employers, instead of talking among themselves, should talk more with their own men, and so arrive at a mutual understanding. This is a problem to be discussed from the human standpoint between those concerned, and not a problem for legislation. If we had more red blood on both sides of the question all would have been settled long ago."

MURDEROUS ASSAULT ON BIG MILL WORKMAN BY ANOTHER WORKER

Yesterday afternoon Mike Zaroff, a Russian workman at the Big Mill resented a "calling down" given him by another workman, Earl Kidd, for the manner in which he was handling his end of a job of loading lumber. Grabbing the first thing handy, which happened to be a picaroon, Zaroff struck Kidd several murderous blows before he could be overcome and the result is that Kidd is in the hospital in a very bad condition, though it is said he will recover. Zaroff was at once arrested and confined in the county jail.

County Prosecutor Plummer filed an information in superior court this forenoon, charging Zaroff with assault in the second degree, the penalty if he is convicted carrying a sentence as high as ten years.

COMMERCIAL CLUB ENDORSES IMPROVEMENT OF THIRD STREET

The bad weather last evening kept many people from attending the meeting of the Commercial Club which was thrown open to the public for the discussion of the proposed improvement of Third street West by filling in the long trestle.

A very representative meeting was had of those interested in anything that tends to benefit the city and a thorough discussion of the proposed ordinance was had. City Engineer Semon was present and explained the action planned and the pressing need of taking care of this matter in a way that will relieve the general fund of the city from a positive burden, and one that will grow year by year.

Resolutions were passed by the club favoring the improvement as planned, which it appears will not fall heavily upon property owners, in fact will in a short time lift a burden from their shoulders.

NEW YEARS DAY SINGFEST

CANADA DECIDES CONSCRIPTION IS WAR NECESSITY

The Opposition, Under Sir Laurier, Given a Stunning Defeat; Vote Showing Strong War Support

OTTAWA, Dec. 18.—The Union government has been returned and conscription confirmed by the Canadian domestic vote.

Early returns received from all over Canada indicate that the government of Sir Robert Borden has elected to administer Canadian affairs for another five years and that Sir Wilfrid Laurier is as definitely defeated as the reciprocity election of 1911.

Returns indicate that the French portion of Canada has gone heavily for Sir Wilfrid Laurier and English constituencies have returned men who will support the union government measures and maintain Premier Borden in office.

The vote has been very heavy everywhere and the majorities are very large. The soldier vote, which will not be ascertained for some days, will increase the already heavy majorities of government members and will probably increase the number of government supporters elected.

Official returns announced shortly before midnight showed that with thirty-five districts to be heard from the Unionists had won 112 seats and the opposition eighty-four, with four seats deferred.

SLIDES HOLD UP MILWAUKEE TRAIN FOR THE EAST

The morning train for Port Townsend on the Milwaukee was forced to return to the station this morning and did not get away for its regular run until about noon. The trouble was caused by a number of small slides, precipitated by the heavy and incessant rains of the past few days, along the track betweem the city and Morse creek.

Clearing crews were out early, and Traffic Manager Bingham announced shortly before noon that the passenger train was about due to depart. He reported that the evening train east and the 1 o'clock train from the east were expected to be on time.

Some trouble was also anticipated from the same cause west of the city, but the wires being down the superintendent's office had no particulars of conditions on that part of the road at noon.

The unusually heavy and continuous rains for the past few days have brought all the streams in the county to flood stage, and more or less trouble may be expected until after the high water recedes.

GENERAL GOETHALS OFFERED QUARTER-MASTER GENERAL

By United Press.

WASHINGTON, D. C. Dec. 18.—Gen. Goethals has been offered the position of Quartermaster Generalship, succeeding Gen. Sharpe, when the latter goes into the new war council. Gen. Barrett was appointed chief of coast artillery, succeeding Gen. Waver, who also goes to war council.

WILL GERMANY BREAK THE ITALIAN LINE?

Will the German and Austrian masses break through the Piave river defense line and overrun Italy in spite of the terrible fighting that the Italians have put up and the strong reinforcements that France and Britain have sent? asks an exchange.

Berlin is sure of victory, but Berlin is always that way.

Rome is not over confident, but is steadfast. Paris is optimistic and Britain is desperately certain.

It is probably true that the German attacks have thrown back the Italians in some parts of the contested area. Great massed attacks can break through the strongest of defenses. But the cost to the attackers always is terrible.

It is very evident that Germany is not satisfied with the situation in Italy.

The Italian armies recovered too soon. The anarchists did not get in their work as had been planned. After the first rush, the Italian courage became stronger until the Tagliamento proved a strong barrier and the Piave a real line.

Germany's plans to take Paris failed just as did her scheme to conquer Italy. The Allies were late in arriving, so late that it required all of Italy's strength to hold out. But the French and British are now on the battle front.

One of the great reasons for the new drive in Italy is political. Berlin was hilarious over the first victories, but the thick-skulled civilians in Berlin were not satisfied at that. They wanted a whole victory and they have not had it. Therefore, the kaiser must drive again. And, if he fails—if the Entente brings force enough to bear to crush the invading hosts—not all the Bolsheviki in the world can save the Hohenzollern throne.

SECRETARY OF LABOR MAKES TELLING APPEAL

Secretary of Labor Wilson, of the President's cabinet, who is on the coast helping mediate chronic labor troubles, made a telling appeal in an address at Seattle urging both capital and labor to lay aside their differences and help win the war. In one part of his address Secretary Wilson said:

"In our country we have a higher standard of living for the wage earner than in any country on earth. This is because the American worker produces more per day, per week and per year than does the worker of any other country. Employers and employes have a mutual interest in this greater production, but the place of conflict comes in the division. Both sides must get around the council table if we are to establish the right.

"I have three boys and eight nephews under the colors. Injury may comet to them, but if I know they have been supplied on field and in trench with the things necessary for their welfare and protection, when I grieve for them my grief will be mingled with a realization of the fact that my government did all it could; but if as a result of the industrial quarrels between employer and employe an injury comes to them because they are not supplied with the things necessary to their welfare and protection, with my grief will come a feeling of shame that my countrymen have forgotten the spirit of '76 and of independence. While you are making your material sacrifices, make sacrifice of your pride and prejudice so that this government may go forward to success."

REBELLION IN NEW CABINET OF THE BOLSHEVIKI

PETROGRAD, Dec. 15.—The Bolsheviki attitude toward the Contituent Assembly has caused the minister of education to resign from the cabinet, declaring that he could not support Lenine in measures repressing a congress chosen by the Russian people. It is believed that many of the Maximalist leaders will support him.

Lenine and Trotsky insist that the assembly is illegal if it opposes their aims, and are threatening to dispose of it.

SEATTLE, Dec. 14.—The lumber industry peace plans were upset today when the lumbermen refused to accept the terms of the mediators' commission, which goes to St. Paul tonight. The commission stated that the conclusions reached at the conference would be reported personally to the President with recommendations for action. It is believed the eight-hour day is the cause of the disagreement.

WASHINGTON, D. C., Dec. 14.—Testifying before the senate investigators today, Claus Spreckles blamed the food administration for the sugar shortage. He said that Hoover had hampered the refineries by an agreement preventing them from getting raw sugar. Spreckles said this year's crop was larger than last, and that American refineries had been made to agree not to import sugar.

WASHINGTON, Dec. 14.—The White House today states that the President welcomes the war probes, and thinks that true democracy inspires the moves. So far as the President is concerned, it says, he is glad to give the people an insight into war affairs.

PARIS, Dec. 14.—Lieutenant Benjamin Walcott, an American member of the aviation corps, fell on Tuesday, after downing his first enemy plane. As Walcott was returning to his lines, three German planes attacked him from the rear and he fell fatally wounded.

AMERICA MUST SPEED WAR WORK DECLARES BAKER

WASHINGTON, Dec. 15.—America must speed up in her war work, concentrate on the essentials, consecrate herself fully to the task of victory now made more difficult by the increased German strength through the Rusian debacale, is the solemn warning sounded today by Secretary of War Baker and others in authority in the capital.

The government officials suggest the elimination of all red tape; declare that labor must come forward; shipbuilding work must be hurried and other tasks completed that America may more than fill the gap left by the laydown of our Russian ally.

Seattle, Dec. 14.—"A satisfactory solution of the lumber situation in the Northwest will probably be reached Friday," said Felix Frankfurter, counsel and secretary of the President's mediation commission, after an executive session with a committee from the West Coast Lumbermen's Association at the New Washington Thursday afternoon. Though neither the commission nor the lumbermen could make any official statement of the proceedings, men in touch with the situation intimate that an understanding has practically been reached whereby the camps and mills of the Northwest will agree to the eight-hour day program from patriotic motives with the assurance that the government will stand by the operators to insure them against loss from the shortened work day.

WASHINGTON, D. C., Dec. 14.—Supplementing the senate military affairs committee's probe of the war department, the house naval committee today voted for a sweeping investigation of the navy department, and will immediately begin hearings.

Every phase of the naval situation will be gone into, including the examination of Secretary Daniels and all the active admirals. Chairman Oliver, of the special committee will be empowered to conduct a direct probe into what has been done with last year's billion and a half appropriation. All naval activities will be probed, and the senate may co-operate.

Congressmen say the probe is due to the nation's determination for a more open management of the army and navy, and not to any suspicion as to misconduct of affairs.

LONDON, Dec. 14.—Well informed observers here believe that Germany's forthcoming great drive on the western front is preliminary to a new peace move. It is the hope of the Germans that they may be able to dent the Allied line, thereafter claiming invincibility for their armies and so steel the German people for the sacrifice that is certain when the Americans enter the battle front. It is also the hope to hearten the Austrian people and accelerate the "peace without victory" sentiment in the Entente nations. It is believed that Germany especially wants to bring the war to an end before the American nation gets fully into action.

AMSTERDAM, Dec. 14.—A German official statement received here declares that both England and Germany have started separate peace feelers.

Chancellor of the Exchequer Law recently mentioned a neutral nation as sounding in England for Germany.

The German statement says that the German government received the inquiry regarding peace terms in such a form as to indicate that it was sanctioned by England, and so made a verbal reply through the neutral nation.

RED CROSS LITERALLY SNATCHES FRENCH TOTS FROM CANNON'S MOUTH

NOTE.—The following the first of a series of three articles written by W. S. Forrest, manager of the Paris office of the United Press, tells of the wonderful work of the Red Cross at Toul, France, where hundreds of French children, rescued after living three years under German shell fire, are being cared for. The series are the first to be published in the United States.—The Editor.

By WILBUR S. FORREST,
(Mgr. Paris Office, United Press.)

TOUL, France, Nov. 20.—(By mail.)—Salvaging the shattered nerves and little bodies of French children rescued literally from the mouths of enemy cannon was part of the mammoth Red Cross work in France, witnessed by the United Press here today.

If mothers could see how their hard American dollars are being spent among the war battered children of France they would doubly subscribe at the very next opportunity. This is the first account written and sent to America of how these American dollars are pulling French babies out of a living hell and filling their impressionistic little minds with something to think about than constant fear, pinching hunger and a life among vermin and filth.

More than 500 of these French babies are today safely out of reach of the German shells which for three years have been ploughing and pulverizing villages and towns where they lived. Their ages run from two to ten years. The greatest number are yet toddlers who have known nothing during their lives but living in the cellars and caves where there was some degree of safety from the shells the enemy maliciously threw into their vicinity.

When the Germans began to throw gas shells into these villages, the French authorities realized that the children of tender age must be moved to safety. So those too young to adjust gas masks to their faces were sent to the rear near Toul where buildings were prepared for their reception.

Here the American Red Cross offered its aid. A cablegram was sent French children. His acceptance predren's diseases in the Northwest. Dr. Sedgwick agreed to give up his work and come to France to care for from Paris to Minneapolis where it found Dr. Julius Parker Sedgwick, the best known specialist on chilceded only a few hours a long distance telephone conversation with Dr. J. I. Durand at Seattle, also a leading children's specialist. He agreed in a few hours to give up his extensive practice and leave for France. Also from Minneapolis came Dr. N. O. Pearce, associated with Dr. Sedgwick. As the trio traveled toward France they were joined at Chicago by Dr. Alice Brown, of Winnetka. Accompaning them came experienced nurses among whom were Miss Bessie Spanner, east 60th street, Cleveland.

Headed by Dr. Segwick, these American doctors and nurses are fathering and mothering the French babies here today and will continue to do so throughout the war.

No type of child disease bred in in these dark, unsanitary, vermin-ridden shell-torn; bathless caves a few miles away from the present camp under the German shells and gas has yet been too much for the American doctors and nurses. Every child so far brought to the camp is alive today and happy, thanks to mothers in America. For it is only dollars subscribed by American mothers themselves that are being spent on the baby war victims. Dollars from corporation men and other masculine sources are being spent for other things.

The only worry of the French mothers still back in the caves, undergoing the German shells and the gas, is that a German aeroplane might come along and bomb the baby hospital. Otherwise they are content to take their lot unil the end of the war. Their babies are safe.

So far the big Red Crosses painted on the roof of the baby home have given it immunity from the enemy birdmen, many of whom pass over it daily. Its the only good word to be said for the Germans in this part of the Vosges.

WILLIAM BISHOP MADE PRESIDENT OF STATE DAIRYMEN

SEQUIM, Dec. 15.—The twenty-fifth annual convention of the Washington State Dairymen's Association closed last evening with the elction of William Bishop, of Jefferson county, as president.

A number of interesting papers were read during the two days' session, among them being one on "Conservation as Applied to Dairying" by William T. MacDonald, live stock commissioner of British Columbia. This talk proved the big feature of the convention. Other speakers were P. G. Kinzer on "The Condensary;" J. W. Lindsay, "The Creamery;" A. D. Fish, state dairy inspector; Dr. F. E. Smith, chief veterinary, of Seattle; E. F. Benson, state commissioner of agriculture; W. H. Tierney and G. G. Carman.

For Oriental Labor

A number of resolutions were read and passed, but a lively contest developed upon the introduction of a resolution advocating the admission of Oriental labor. This measure was finally passed.

The delegates were entertained with a debate between Representatives Bishop, of Jefferson, and Hanson, of King, in regard to the standard condensed milk bill passed at the last legislature, but no action was taken in respect to this measure.

Stand by Government in War

At the opening session the following resolution was passed with cheers:

"To the President of the United States:

"We, the dairymen of the State of Washington, at our twenty-fifth annual association meeting assembled, hereby pledge to you our unswerving loyalty in this hour of the nation's peril, and, furthermore, pledge to you that we stand ready to make any and all sacrifices that may be necessary to bring this war, in which we are now engaged, to a successful conclusion."

Creameries and Condensaries

Mayor Schumacher welcomed the delegates to the Olympic peninsula, to which Donald McInnis responded. President Fred Mess. of Orillia, read his annual address, which showed a healthy condition to exist in the dairy industry of the state, especially in districts selling to condensaries. P. G. Kinzer, of Seattle, in his address on the condensary business and its effect on the dairy industry, said that in every district where a condensary is located prosperity prevails and predicted that present conditions would continue five or six years after the war.

J. W. Lindsay, manager of the Glendale Creamery Company, while admitting the present unsatisfactory conditions of the creamery business, owing to war conditions, stanchly upheld the creameries, assuring the convention they were the best friend of the dairyman year in and year out.

Burlap Requirement

The Seattle ordinance requiring burlap covering for hogs and veal brought much criticism, as it is claimed the regulations do not consistently carry out sanitary requirements in the subsequent handling of meat in markets.

Every important dairy district in the state was represented by delegates.

Thursday evening the Sequim Commercial Club entertained the visitors with a banquet and reception, which was one of the largest gatherings ever held in this community.

SKIPPER INDICTED FOR WRECKING HIS SHIP

Captain Charles Granzow, who is well known on the Port Angeles waterfront, was indicted Tuesday at Honolulu by the federal grand jury on four counts, charged with wrecking and burning the four-masted schooner Churchill, October 25, on French Frigate shoal in the South Pacific. Captain Granzow was master of the Churchill, owned by the Charles Nelson Company, of San Francisco. The vessel was loaded with copra consigned to the British consul at Seattle.

Affidavits filed at Honolulu by members of the Churchill's crew charged that Captain Granzow after disregarding warnings of the presence of shoals deliberately destroyed the vessel by fire after she had grounded Chief Officer Anderson was jointly accused in the affidavits of being an accessory to the destruction of the schooner.

GEORGE VANDEVEER, CHIEF COUNSEL I.W.W., ARRESTED IN CHICAGO

By United Press.

CHICAGO, Dec. 15.—George Vandeveer, of Seattle, chief counsel for the I. W. W., was arrested today in the federal building here as the 106 leading Industrial Workers of the World were being arraigned for trial. A big revolver was found in Vandeveer's pocket. He was technically charged with carrying concealed weapons and temporarily released.

All the I. W. W. on entering the court room were searched. All pleaded not guilty. Vandeveer told the judge that an appeal would be made through the organization for the sixty Industrialists who still sought to surrender. Troops patrolled the court room and the streets adjacent to the building.

CLAUS SPRECKLES FURTHER ACCUSES THE FOOD ADMINISTRATION

By United Press

WASHINGTON, D. C., Dec. 15.—Claus Spreckles, in the investigation here today, charged that there was fend the nation if need be. A ma an attempt on the part of the sugar trust to saddle high prices on America for years through the Hoover committee. He said the committee was a mere adjunct of the sugar trust and was seeking to bind the refineries to allow it to contract future Cuban crops at its own price.

Hoover's request to be permitted to cross examine the witness was denied. Spreckles said the agreement of the refineries to the proposition would keep sugar prices high or higher for years after the war.

Apropos of the Liberty Loan, it costs money to win a war, but it costs a darn sight more to lose it.—Chicago Herald.

CHRISTMAS DRIVE FOR RED CROSS MEMBERSHIP ON

County Manager Donovan and Assistants Perfect Plans for Securing Clallam County's Quota of New Names

The work of assisting in the great national Christmas drive to add 10,000,000 names to the membership of the Red Cross, has been actively begun by Campaign Manager C. C. Donovan, in charge of the work in Clallam county, who has opened headquarters in the Commercial Club rooms and appointed the following chairmen of committees: L. G. Sutton, campaign; Thos. H. Guptill, publicity; Andrew Severyns, speaker; Herman Swanson, treasurer.

The work in the east end of the county will be in charge of M. F. Seal, of Dungeness, and other appointments will shortly be made for the West End.

To facilitate the work locally, the city has been divided into six districts, and a captain appointed for each to supervise the securing of new names. The district captains are: H. M. Fisher, D. W. Morse, J. W. Hooker, A. C. Gabriel, Chas. Filion, and E. E. Nichols.

The several committees have been chosen with a view to rapid and effective work, as Mr. Donovan is fully alive to the many calls, both upon the time and purse of our patriotic citizens in this busy and trying time. It is his desire, therefore, to so arrange the work that in this, as they have in all patriotic movements in which they have been called to participate, in a measure commeasurate with the devotion of our loyal citizens. To faciliate this movement a desk has been placed in the Commercial Club headquarters, in charge of Miss Gertrude O'Neil where membership may be handed in any afternoon, before the actual canvass begins by the district captains next week.

Even though you are a member of the Red Cross now, remember that this drive is for the 1918 membership roll, and hand in your name early.

If you do this your name will be handed to your district captain and you will not be bothered by further solicitation.

It is unnecessary to dilate upon the work of this worthy organization If you become a member of it, you are enrolled in an army of mercy that is doing a national work, second only to that being done by that great patriotic army that is even now bearing the brunt of battle in the trenches. If you are ineligible to that army, you can at least feel that, as a member of the Red Cross, you are enrolled in its greatest auxiliary.

AMERICAN ENGINEERS KILLED ON FRENCH FRONT

WITH THE AMERICAN ARMY IN FRANCE, Dec. 14.—Last night's dispatches say a number of American railway engineers have been killed by German aerial bombs in a town somewhere behind the British front, details are not yet known.

It is now permitted to announce that a German bomb fell in a street in a town through which American troops were passing. Pieces of the bomb shattered the windows of a house in which there were officers, showering them with glass, but hurting none.

Two American soldiers have died in a hospital from gunshot wounds.

OFFICIAL AGENCY SAYS KORNILOFF IS BEATEN

PETROGRAD, Dec. 14.—General Skalon, Russian chief of staff, was sensationally succeeded prior to the assembling of the Russian-German conference at Brest Litovsk. The details are withheld. The official agency has announced that the Korniloff forces have been beaten by the Bolsheviki and that Gen. Korniloff has fled.

SENATE PASSES SHIELDS' WATER POWER MEASURE

WASHINGTON, Dec. 14.—The senate today passed the Shields bill authorizing the war department to permit the damming of navigation streams for water power purposes under fifty year lease.

PLEASING HOME-MADE TALE OF OUR HOME MOUNTAIN

(By A. A. SMITH.)

"The Friendly Mountain," a booklet just from the press in this city, is a local contribution to the literature of the Pacific Northwest as deserving of the attention of all who follow book lore as it is sure to be pleasing to all worshipers of Nature's great outdoors. It is from the pen and printshop of E. B. Webster, one of the editors and publishers of the Port Angeles Evening News, and is a descriptive tale of our own home mountain pile, Mount Angeles.

Working nights, Sundays and other odd hours that could be snatched from the busy daily grind of the publishing business; doing his own typesetting, printing and bookbinding, the author has produced a more than creditable bit of creative work, on the side, during the very busiest period of the year in the shop.

More than counterbalancing his lack of time in which to do literary work in a manner satisfactory to one's self, however, was the unusually intimate knowledge of his subject possessed by the author in this particular instance. No man living has a more thorough acquaintance with the gigantic scrap pile of the Creator's masonary, known to geography as Mount Angeles, than has E. B. Webster. He has to his credit more than one hundred ascents of its heights, and the days he has spent in rambling over its rugged sides are unnumbered. It has been his one dissipation in life, and coupled therewith a natural bent toward the study of geology, botany and ornithology has brought him not only the knowledge necessary but the inspiration to tell others in a simple and straightforward tale the story of what is held in the inner fastnesses of the big mountain that to ninety-nine per cent of us has for years been but a majestic and jagged bit of southern skyline.

The little story, in addition to imparting a well coordinated chapter of interesting information, brings to the reader a glimpse of the unequalled inspiration, sensed by all those who have made it an object to avail themselves of the opportunity, that is crowded upon ones sensibilities by the vastnesses of space and the voices of solitude that begin their reign where the last ragged cornices of the roof of the world leaves off.

A limited edition of Mr. Webster's little home-made story is on the holiday market at 50 cents per copy, at the local book stores, or the office of the Evening News.

WITH PORT ANGELES BOYS IN SUNNY FRANCE

In France,
November 19, 1917.

Friend Ed:

Your letter received and needless to say glad to hear from you.

Wilbur Goodwin, Billy Ryan and myself took a —— mile trip yesterday to see Carl Labhart, from Angeles, Abe Bradshaw from Eden Valley and Dee Kuople from Dungeness, all in the 10th Reg. Foresters; expected to see Hugh Govan but his company was on detached service.

Am sending you a couple of copies of our regimental paper and on account of the American papers giving the drafted boy more credit than the volunteers, would like to have you put in the News, that poetry of November 19th issue, Only a Volunteer.

Would also suggest that people wanting to do any service for the boys in the service, not to send them things while they are at American Lake, as it will be hard for them to carry them over here, besides they can buy everything necessary right on the grounds, where it will be much more appreciated to receive articles from home after they reach France, and much less bother.

I got eight packages from my friends the last mail. Enjoying the best of health and as happy as one can be as we are getting lots of hard work to occupy our time. I will say "So long."

As ever,
SGT. C. C. MAC NUTT.

PLACED UNDER ARREST FOR CARRYING CONCEALED WEAPONS

Mrs. Agnes Watts, wife of the editor of the Port Angeles Daily Herald, was arrested today by Sheriff Cooper on the charge of carrying concealed weapons. The information was filed by the prosecuting attorney's office.

PATRONIZE HOME INDUSTRIES IF YOU WOULD BUILD UP COMMUNITY

One way to build up a town is to get behind every enterprise that is worthy and thereby help it grow and its growth and success will encourage other enterprises to start.

Especially is this true where the locally manufactured article is a daily and household necessity. Providing the article made in the home town is of standard quality and equal to that made elsewhere, then local pride and patriotism to home interests should compel us all to demand the home manufactured article to the exclusion of the outside goods, even if the outsider tempts us by offering a slight cut in the price—because that cut is made with but one purpose—to kill the local competitor.

All of which reminds us that on December 1st the Angeles Co-operative Creamery took over the local Glendale plant and began supplying the local market with a high quality of butter. Manager John Rychner informs the Evening News that the merchants of the city have shown a splendid spirit of co-operation in handling the local product and are anxious to boost the enterprise. While the demand is good for the local butter it can be largely increased if the people of the city will call for it and take no other—as long as the quality is as good as the best.

The Angeles Co-operative Creamery is an association of almost 90 dairymen of this immediate vicinity. Their every interest is here and they deserve the unanimous support of the citizens of Port Angeles.

The capacity of the plant is 1000 pounds of butter daily, which of course, is more than the local market can absorb just now, but an outside market will take the surplus.

The cream is now delivered directly by the farmers who live close to the city; others ship by boat and railroad. In the spring it is planned to utilize a motor truck service which will bring in cream from as far west as Piedmont.

THE QUESTIONNAIRE AND THE NEW DRAFT

The local exemption board has had in course of preparation the early part of the month the data necessary for the mailing of the questionnaire. The questionnaire as prepared under the new regulations is a letter-sized document of 16 pages and covers every necessary question to give a clear statement of the life of the registrant and the possible position he will hold in the next draft, expected some time in the early part of the new year.

The questionnaire will be mailed, commencing December 15; 20 per cent of the entire registration each day, to all who registered June 5th, excepting only those who have been accepted by the military authorities, through the process of the draft, and including those who have enlisted voluntarily. They must be filled out in all details covering the life of the registrant only, and returned to the local board within seven days from the date thereon excluding Sundays and holidays. This is imperative and failure without good cause shown will likely lose the registrant valuable rights under the selective service law.

Many, of course, will be able to fill out the questionnaire without assistance. For those not sure of their ability to do this there has been provided for he assistance of registrants an advisory board located in various parts of the county. Registrants living in the east end of the county may go to Geo.W. O'Brien at Sequim; near Port Angeles to the court house. near Forks to Chas. D. Sult, and near Clallam Bay to Wm. T. Raymond or W. O. Browning. All these have power to administer the necessary oaths. It will be necessary for those who claim deferred classification on dependency grounds to take with the three corroborating witnesses including the dependent.

All exemptions and discharges heretofore granted, whether on grounds of dependency, physical disability, occupational or otherwise automatically expire on December 15, 1917, at noon, irrespective of the date of such.

Relatives of any enlisting voluntarily since the registration should report their names to the local board where it is not possible for the enlisted man to receive and send in his questionnaire in the time limit. This will advise the board so that he will not be reported as a delinquent.

All who do not provide the board with their latest address are in danger of delays or failure to receive their copy of the questionnaire, and failure to receive will not excuse failure to return. It has been repeatedly told that it is up to the registrant to keep his local board advised of his whereabouts; it is absolutely impossible for boards to keep in touch with registrants unless they provide changes of addresses.

Joe Brown, who has just returned from Alaska, is here visiting his sister, Mrs. Tom. Fitzzgerald and his aunt, Mrs. T. F. Trumbull.

* * *

Mrs. J. Lloyd Aldwell went to Seattle Sunday to meet her mother, Mrs. King, who is returning from Idaho, and may come to Angeles to spend the holidays with her daughter.

* * *

Mrs. E. J. Burroughs was called to Tacoma this morning by the serious illness of her only sister. She and her little son Edward went this morning and Mr. Burroughs will join them tomorrow.

* * *

All the Sunday schools in the city have decided to take the money usually expended for Christmas gifts to give to the relief of the starving Armenians. A special collection for this purpose will also be taken up at the Christmas entertainments to be given next Sunday evening.

* * *

Harold Caven, who was accepted for enlistment in the aviation corps, is back in the Citizens National Bank to remain until after the holiday rush is over, having been granted an extenson of time until after January 2nd. Mr. Caven will then report at Seattle and expects to be sent to San Diego to join the training corps there.

* * *

Mr. Leonard Olsen went out to the county home yesterday with the young people of the Christian Endeavor Society and sang several numbers for the old people, who enjoyed it very much. They look forward with keen anticipation to these visits each Sunday from the young folks. A Christmas party will be given for them on Thursday evening by the Christian Endeavors who are certainly to be commended for their thoughful kindness to the aged and helpless.

Many friends of Mrs. J. C. Delabarre and daughter, Mrs. Sherman Kiser, called during the hours of their informal at-home between 5 and 8 o'clock last evening to meet Captain Kiser ,who will be here only until Wednesday, when he and his wife leave for San Francisco. Tea and wafers were served in the dining room from the attractively decorated table centered with a large bouquet of red carnations.

Mrs. D. W. Craig presided at the tea table assisted by Mrs. Myers, Flavia Reed and Katherine Bell.

The committee in charge of the Red Cross benefit dance Saturday report the proceeds to be an even $50. This is far more than was expected on account of the drenching rain that fell all evening and the committee wish to express their appreciation to all those who came out, and to the musicians who so generously donated their services. A large delegation came in from Dry Creek postponing their dance in the new hall out there until this Saturday.

The boys who signed up the Y. M. C. A. pledges to earn ten dollars for the war fund before June will certainly have to do some hustling to keep up with the girls who signed, for some of the girls have earned more than their amount already. They took orders Saturday for 200 pounds of Crescent baking powder for the Wolten Grocery; some of the girls earning several dollars by their day's work. Four of the girls took out copies of the booklet issued by Ed. B. Webster, "The Friendly Mountain," and did a splendid business with those. Dorothy Brown and Hazel Fairservice together sold 30 of the books making $3.00 for their Y. M. C. A. fund, earning about the same amount with their baking powder orders. When you need assistance just call on this enterprising, enthusiatic club of high school girls; they are no slackers as you will find.

CLALLAM COUNTY POMONA GRANGE ELECTS OFFICERS

On December 8th Clallam County Pomona Grange met at the new hall at Dry Creek. Twenty-six subordinate members joined the grange.

Officers elected for 1918 were: Orin Babcock, master; Willis Chambers, overseer; Ella O'Brien, lecturer; Frank Dillon, steward; Melford Eacrett, assistant steward; Mary Kilmer, chaplain; Mr. Peters, treasurer; Mrs. Long, secretary; Henry Bradshaw, gate-keeper; Mrs. Smith, Pomona; Edna Kelly, Ceres; Grace Dillon, Flora; Esther Chambers, lady assistant steward.

At 12 o'clock the grange closed and all enjoyed an unusually fine dinner prepared by the members of Dry Creek Grange. At one o'clock the meeting was again called to order by Master Babcock, and from that until 6 in the evening grange was in session. State Lecturer Snow, who was spending the week in the county was present and gave a very interesting talk. Mr. Alleman, also gave some interesting information along agricultural lines. After a very busy afternon the meeting closed and again a good meal was served in the dining room. At 8 o'clock Brother Snow called to order and publicly installed the officer after which came a very interesting program with Lecturer O'Brien in charge; the rest of the evening was spent in visiting, dancing and a general good time. There were nearly 250 present.

The next Pomona will be held at Mt. Pleasant February 9th, 1918.

ANNUAL CHRISTMAS PARTY OF WIDE AWAKE CLUB

Each and every member of the Wide Awake Club is expected to be at the opera house with membership cards and buttons at 4 o'clock Thursday afternoon for the annual Christmas party. There will be a fine program, games and a visit from Santa Claus, who is bringing candy for all. Each one is expected to bring a lunch for supper and anyone who can furnish decorations for the Christmas tree wil please put their name on them and bring down to the opera house after school Wednesday. They will all be returned to the owners after the party. Following is the program to be carried out.

March in body to meet Mr. Player at hotel.

Song, "Star Spangled Banner."

Meeting by new ritual.

Welcome by Mr. Player.

Piano solo, "Rustle of Spring" by Laura Van Winkle.

Piano solo, "The Mill," by Lucille McDonnell.

Violin solo, "Narcissus," by Oliver Guy; accompanist, Juanita Lindsay.

Ukulele solo by trio of girls, Doris Mathewson, Laura Van Winkle, and Juanita Lindsay.

Piano duett, "Luskspiel Overture," by Laura Van Winkle and Juanita Lindsay.

Lunch.

ATTENTION, FARMERS.

County Agent M. R. Alleman asks The News to say to the farmers of Clallam county that he would like to have all communicate with him not later than Saturday if possible if they have potatoes, rutabagas, parsnips, carrots, cabbage or other vegetables of good quality they wish to dispose of. He is trying to find a market for these products and if they can be had in carload lots it will be possible to get a good price.

Many farmers are feeding such root crops to stock, but Mr. Alleman thinks it possible to get much better returns for the growers than they will be able to receive in this manner.

Also any farmers having horses they think suitable for army use should communicate with Mr. Alleman. Such animals must be between 5 and 8 years old, sound, of good disposition, 15 to 16 hands high and weigh from 1100 to 1600 pounds.

PROHIBITION BILL PASSED BY TWO TO ONE VOTE

WASHINGTON, Dec. 17.—The house of representatives late this afternoon passed the national prohibition amendment by a vote of 282 to 128.

WASHINGTON, D. C., Dec. 17.—The drys are confident as the time for the house prohibition vote approaches. Cooper, of Ohio, said that Grompers' statement that the unions opposed prohibition was a bold-face lie.

WASHINGTON, D. C., Dec. 17.—Congress intends to clean-up domestic legislation before the Christmas holidays, after which it proposes to devote itself exclusively to war problems.

Chief in interest now is the nation-wide prohibition question to be voted on by the house this afternoon at 5 o'clock. Prohibition advocates are confident of approval by the necessary 2-3 majority of the resolution for submission to the states of a national prohibition amendment to the constitution. The resolution was adopted August 1, last, by the senate. Action by the states—three-fourths of which must approve before the amendment become effective is required in seven years by the house resolution and six years under the senate resolution.

If the house acts today the difing the registered men properly preence.

GOVERNOR LISTER URGES THAT ALL JOIN RED CROSS

OLYMPIA, Dec. 17.—Executive indorsement is given the Red Cross campaign for new members in order to meet war demands, by Governor Lister in the following call upon the state for the heartiest response it is able to give:

Another call is being made upon the people of the United States for assistance in war activities. The American Red Cross is just beginning a membership drive and desires to add 15,000,000 members to its rolls during the coming week.

To the Northwest division of the Red Cross, in which the state of Washington is included, has been assigned the duty of obtaining 450,000 of these new members.

I urge all our people to render every assistance possible to those in charge of this great work, not only by personally subscribing to membership but also by inducing others to take the same action.

The state of Washington has already fixed a high standard by its generous response to the calls for assistance made since the war began. May I urgee that our response to the call now being made be a generous one, that as a state we shall maintain the standard already set.

WASHINGTON, D. C., Dec. 17.—On the eve of the great Christmas membership campaign of the American Red Cross beginning today, Henry P. Davidson, chairman of the society's war council, issused this call:

"To the 5,000,000 members working loyally with us today—stand by the colors!

"To the ten to fifteen million members who will join us before Christmas eve—fall in."

"Today the American Red Cross is one of the modern miracles," he said. "It has mobilized America for action in the world emergency. It works with President Wilson's approval in the task of preparing our people for mutual service to those among us who may suffer because of changes which the war has brought. In Belgium, France, Italy, Russia, Rumania, Armenia and Serbia the American flag of the Red Cross is the symbol of its kindly hand.

"I believe we shall obtain a membership of 20,000,000, in which all social lines are flung to the winds and an organization representative of the entire people will be created."

SPECIAL NOTICE

Mr. F. P. Forsie, director Civilian Relief, Northwestern Division American Red Cross, wishes to meet the executive committee of Clallam Chapter and those interested in the Home Service work, on Thursday of this week, from 10 a. m. to noon, at the Red Cross rooms.

AMERICANS MAY BE PRISONERS IN HANDS OF HUNS

WASHINGTON, D. C., Dec. 17.—Seventeen enlisted men of the United States army engineer corps were reported missing in action by Gen. Pershing in a dispatch yesterday to the war department.

They were missing on November '0, the day of the German turning movement at Cambrai, and are believed to have fallen into the hands of the Germans while fighting valiantly with the engineer contingent which distingushed itself helping the British to check the attack.

The missing are all from the Eastern states and include Sergeant Paul M. Swenson, Coporal Frank Upton, Privates Solomon Goldwetter, George H. J. Seaman, Dalton Ranlet, Charles A. Goehehan, Frank Brooks, Ulrich N. Naney, Michael Dina, Peter J. Tingo, New York City Harold T. Andrew, Portland, Me.; Alphonso J. McGrath, Chestnut Hill, Mass.; Myron Van de Mark, New Paltz, N. Y.; John Lalty, Golden Bridge, N. Y.; Luke A. Lovely, South Amboy, N. J.; Harry J. Mason, Jersey City, N. J., and Herbert F. Ueltz, Newark, N. J.

MRS. AXTELL ASKS WOMEN TO FILL MEN'S POSITIONS

WASHINGTON, D. C., Dec. 17.—"Women should do their war work for which they are best fitted. It is useless for women to be knitting stockings if they make better clerks or nurses. War work directors should avoid putting square pegs in round holes. Elimination of waste in human force is vital to efficiency and the ultimate winning of the war, and it is my opinion that women will have to be registered and classified in accordance with their ability, if they are to render their full worth in war work.'

This statement was made by Mrs. Frances C. Axtell, member of the United States Employes' Compensation Commission, the only woman ever named by any president for such a federal commission was recently created in the interest of economy and efficiency to both the government and to those who serve it. It is the outcome of the congressional enactment of last year which provides "compensation for employes of the United States suffering injuries while in the peroformance of their duties, and for other purposes."

Mrs. Axtell is also a member of the executive committee of the Committee on Women in Industry of the Advisory Commission of the Council of National Defense. In a report to the Women in Industry Committee by Mrs. Axtell she suggested that women might do much of the work now performed by men at the arsenals.

She suggests that they might make and inspect the government uniforms and thus release men engaged in manufacturing them. She believes that they might also make the rope and twine used, and be relied upon for most of the small arms which are made at the arsenals. Mrs. Axtell sees no limit to woman's ability in any of the suggested spheres, and her opinion is given after keen, careful study of the situation from many angles.

"The hazards among the women who are replacing the men in war work will be greater than ever before," said Mrs. Axtell, "and it is most important that women be prepared to do their part. The great problem today is the co-operation of business and government."

CONGRESS ITSELF TO BLAME FOR DELAY IN SPEEDING UP

By United Press.

WASHINGTON, Dec 17.—General Crosier frankly admitted that there was too much red tape in the management of the war. The government again put the bulk of the blame on congress, stating that congress had the war department's estimates the day before war was declared, and did not furnish the money until the middle of June.

George Hartwell, who enlisted in the navy and is now with the Marblehead at San Diego, is enjoying a couple of weeks leave of absence and arrived in Angeles yesterday to visit friends.

GERMANY SHORTLY TO TRANSMIT PEACE TERMS TO ALLIES

By United Press.

AMSTERDAM, Dec. 17.— A Berlin dispatch says that Germany will shortly transmit peace terms to the Allies through the neutrals, under a pledge of secrecy. It is declared that the terms would assert Germany's political disinterestedness regarding Belgium, but would not mention Alsace-Lorraine. It is unknown whether the terms will cover the matter of disarmamant, and French and Belgian indemnities.

LIBERALITY OF ANGELES CITIZENS IS APPRECIATED

Mayor Walton received the following telegram today from the Canadian Club of Seattle:

"Magnificent contribution to Halifax relief fund gratefully acknowledged."

Six hundred dollars was telegraphed from Port Angeles Saturday by Mayor Walton, and there is about $20 yet on hand, and more to be turned in by committees. The total contribution by Angeles people will very likely reach $650, which is indeed a handsome response to the call from the stricken city of Halifax.

DESPERATE FIGHTING ALONG ITALY'S NORTHERN BORDER DEFENSE LINES

By United Press.

ROME, Dec. 17.—The Italians suddenly resumed the offensive, using armed skiffs and launches, and destroying a small enemy bridge. They swept the positions in the Piave delta sector occupied by the Austrians.

The Teutons attacked Caldelaberretta, on Monte Melino, but were repelled.

NO CHRISTMAS GREETINGS WANTED FROM GERMANS

By United Press.

WASHINGTON, D. C., Dec. 17—The war department officials state that no holiday amenities at Christmas time will be permitted between the Sammies and the Germans. If the Germans show greetings, bullets will be the answer.

Memories of our first casualties are too fresh in American minds to even countenance a lull. With broad hints of peace advanced, it is considered certain that the Germans will try to be friendly. Americans are there for business.

REGISTERED MEN TELLING ABOUT THEMSELVES TODAY

By United Press.

SEATTLE, Dec. 17.—Telling all about themselves is the main thing registered men of the Northwest are thinking of today. Copies of the questionnaire issued by the war department to determine every man's military status are in their hands, and the work of filling in all of the answers is being rushed to avoid any danger of the penalty a delay in return carries.

Doctors and lawyers in every city and town are letting their own interests slide this week and are giving all the attention possible to helping the reistered men properly prepare their questionnaires.

THE GERMANS CONTINUE MERCILESS DESTRUCTION

By United Press.

LONDON, Dec. 17.—Sir Eric Geddes, speaking in the house of commons, announced that one British destroyer and six merchantmen, with four armed trawlers, had been sunk by four German destroyers, last Wednesday. These formed part of a convoy enroute from Norway. One of the merchantmen was neutral, the others British. One British destroyer escaped.

VILLA RAID IN BIG NEW PHOTOPLAY

Many producers and directors of photoplays would be satisfied to give up an entire hour and a half of the run of a film to the raid of Villa at Columbus, but it requires the genuis of William Fox and the keen dramatic instinct of R. A. Walsh, his director, to devote only a sixth of that time to the most vivid, actual and hair-raising representation of a border raid on a town by Mexican bandits that the camera man can ever hope to picture again. It is in the great and masterful photoplay, "The Honor System," which will be seen here tonight.

Putting Retailing on a War-Time Basis

The merchant members of the Sub-Committee on Commercial Economy, selected from the important districts of the State, met in Seattle on November 28, adopted the plan of action presented by the chairman and passed six resolutions without qualification, all effective January 1, 1918.

The purpose of this committee is to introduce economies in such retail methods as are wasteful and which prevent the putting of retailing onto a war basis. The resolutions adopted are:

1—That all stores make only one delivery a day to a customer.

2—That all stores extend credit for not to exceed Thirty days.

3—That all stores emphasize economical goods and staples in their window and interior displays and in their advertising.

4—That all stores adopt a nine-hour day with the closing hour not later than 6 o'clock, Saturdays included.

5—That all stores keep a minimum number of information-giving ledger accounts.

6—That all stores unite locally to pay for and publish these resolutions in advertising form.

This store will conform to the above resolutions.

Open Every Evening Until Christmas.

Mr. and Mrs. D. B. Merrill returned today from a fifteen months absence at their old home in Ellsworth Falls, Maine, looking well and hearty and glad to be at home again in Port Angeles. They are looking for a furnished house to live in until spring when their own home will be vacated. Mr. Merrill's niece, Miss Orr, accompanied them for an extended visit here. They were held up on the way for several days by snow storms and wrecks.

The Campfire girls were happily entertained at the Parish hall last evening by the Boy Scouts. The boys gave their drill, setting up exercises and the tug of war to prove their proficiency to the girls. Ice cream and cake was served and the Campfire girls and their leader, Miss Watson, felt they had spent a very pleasant and profitable evening.

Scout Master Verne Samuelson returned from Seattle in time to enjoy the closing festivities.

PUBLIC SPEAKERS FOR RED CROSS CHRISTMAS MEMBERSHIP DRIVE

Mr. Andrew Severyns, chairman of the Speakers Committee of the local Christmas Red Cross Membership drive has arranged for a corps of live speakers to make short public addresses in support of the movement each evening during the progress of the campaign.

Attorney G. H. King will speak this evening at the Star theatre, while Dr. D. E. MacGillivray will address the audience at the Lincoln.

On Sunday evening Mr. Severyns himself will speak at the Star and Attorney W .B. Ritchie will talk at the Lincoln. During next week, immediately before the great drive for members, Mr. Severyns plans to have a great public rally at which some prominent speaker from out of town will present to the people the salient points in the work now going on under the direction of the Red Cross. Such a move would give great impetus to the local campaign and, as the speaker would be one well versed in the work, he would be assured of a large audience.

Speakers and dates for next week will be announced in these columns later.

RED CROSS DISTRICT CHAIRMEN FOR WEST END OF COUNTY

Mr. George O'Brien has been appointed branch campaign treasurer to assist Mr. C. F. Seal in the West End.

NEWS FROM THE WEST END

A pretty wedding was solemized at the home of Mr. and Mrs. Alfred Danielson on December 7, when their eldest daughter, Viola Grace, was united in marriage to George Clarence Sands. The bride looked very sweet in her dress of lace over white messaline. Only the relatives and immediate friends were present and after the ceremony the tables were set for twenty-four and a very sumptous supper was served.

Both the bride and groom are highly esteemed by all of their acquaintances which was clearly evidenced when a crowd walked over the Hoko trail to chivaree them. Later in the evening dancing was enjoyed until the wee small hours of the morning.

Their friends extend their best wishes to the happy couple.

LOCAL BOY SCOUT LEADER HAS ENLISTED IN U. S. NAVAL RESERVES

Verne Samuelson has enlisted as a radio operator in the United States Naval Reserves. He will probably not be called to go into training until about the first of the year. Whether he will report at the station at the University of Washington or elsewhere he has not been advised.

While of course Mr. Samuelson's friends—and that means everybody who knows him—are glad to see him volunteering in his country's service, all will regret that duty calls him from our midst. He has been a most active worker in all community matters and a whole hearted supporter of everything that makes this city worth while and a good place to live in.

While all will miss him, the Boy Scouts in particular will feel the loss his absence must entail. He has been their guiding hand ever since the organization of the society here and to the boys his going will be a distinct loss. But like good soldiers, they will go right ahead with their work and do the things their leader would have them do could he be permitted to have remained with them. They will follow his career in the service of the nation and from that will undoubtedly gain much inspiration in their work, performing their duties with added zeal in anticipation of his approval.

SEATTLE SPORTSMEN FEEDING WHEAT TO DUCKS IN DUNGENESS PRESERVES

United States Food Administration,
Spokane, Nov. 30, 1917.

Mr. Thomas F. Trumbull, Chairman
County Council of Defense,
Port Angeles, Washington.

Dear Mr. Trumbull:

I have received complaint from Dungeness of the feeding of grain to wild birds on private shooting preserves. Will you kindly investigate this matter and advise me of the name of any person or clubs that are engaged in this practice? This is clearly a wasteful practice under the provisions of the food law and I would be glad if you would give notice in your locality, through the newspapers or otherwise, that such practices must cease or those stocks of feed will be confiscated, and those guilty of the practice will be prosecuted.

Thanking you for an early report on this matter, I am,

Very truly,
CHARLES HEBBERD,
Federal Food Administrator.

The Mountain Steep

Written for "The Friendly Mountain"

By Thos. H. Guptill.

Sing not to me of the shelt'ring lea—
Of the wild bees droning low
In the dulcet shade of some quiet glade,
Or the streamlet's purling flow.
Prate to me not of the calm begot
By the night orb's mystic beams,
Nor the lethal peace of toil's surcease
In the somnolent valley of dreams.

Tell me no more of the cotter's door
And the evening lamp light streaming—
The steaming bowl and the merry jowl
In the fitful firelight gleaming.
Tune not an ode to their calm abode
Who dwell by the level way,
For I would keep to the mountain steep
Forever and a day.

To the beetling dome—the eaglet's home—
Where the stars like jewels shine,
Where the surest hold on the wind-swept wold
Is the grasp of the storm-tossed pine
Where the Alpine bloom, in its snowy room
The pitiless hoar-frost stings
And the wat'ry pearls in sparkling swirls
Are flecking the ousel's wings.

For the lash that stings to higher things
Is the lash of the mountain rain
And the keenest wind and the cleanest wind
Is the wind of the broad moraine.
The purest snows that nature knows
Gleam white from the mountain's crest
And the purest font that ever flows
Is the bountiful glacier's breast.

From things that twine and the red, red wine
Let me rise to a better self.
Nor hold me long to the grasping throng
In their merciless greed for pelf.
Then lead me, Lord, by the sylvan cord
From the garish lights away,
And let me keep to the mountain steep
Forever and a day.

Copies of "The Friendly Mountain" may be had at Mathewson's or Fry's Drug Stores, at 50c each.

PROCEEDINGS OF THE BOARD OF COUNTY COMMISSIONERS

Monday, December 3, 1917 at 9:00. The Board met pursuant to adjournment, all members being present.

Minutes of the previous meeting were read and approved.

The Board approved a plat of a subdivision of Section 12, Township 29 North, Range 3 West, as prepared by the County Engineer.

The Board approved the bond of A. R. Leaks as Justice of the Peace for Ozette Precinct.

The Board signed an extension of the agreement with the Seattle, Port Angeles & Western Railway Company regarding the use of the said Company's right-of-way at Blyn.

The Board acknowledged service of copies of orders of the Public Service Commission regarding certain railroad crossings.

At 2 o'clock P. M. the Board took up the matter of the bids for graveling a section of the Olympic Highway running through the town of Sequim, finding some as follows:

James W. Coyne bid 99 cents per yard,

Amore Myers bid $1.19 per yard, and

A. L. Johnson & Co. bid $1.24 per yard.

The Board awarded the contract to James W. Coyne, executing said contract.

The Board then took a recess until Tuesday, December 4, 1917 at 9:00 A. M.

Tuesday, December 4, 1917 at 9:00 A. M. The Board met pursuant to adjournment, all members being present.

The Board adopted the following resolution:

WHEREAS, the Board of County Commissioners desire to increase the length of the road to be constructed on Permanent Highway No. 7, commonly known as the Pysht-Joyce Road, heretofore established under resolution of May 7th, 1917, and

WHEREAS, there has been no bid accepted, contract let or work commenced under the former resolution and specifications;

NOW THEREFORE BE IT RESOLVED by the Board of County Commissioners of Clallam County, Washington, that the said resolution adopted May 7th, 1917, with reference to the said road be amended and enlarged to read as follows:

That a public road or highway as hereinafter described be built and improved under the provisions of Chapter 35, Session Laws of 1911, as amended by Chap. 154 of Session Laws of 1913;

That the public road or highway hereby referred to is described as follows:

Beginning at the point of location of the present Government Telegraph Station at Pysht, in Clallam County in the Southwest quarter of the Northwest quarter (SW¼W¼) of Section Ten (10), Township Thirty-one (31) North of Range Eleven (11) West, W. M., thence in a Southeasterly direction for a distance of 338 stations to a point in Government Lot Ten (10) in Section Nineteen (19), Township Thirty-one (31), North of Range Ten (10) West, W. M., the total length of the said road being approximately 6.4 miles.

The Board then approved plans specifications, etc., for the above contemplated road.

The Board then took a recess until Wednesday, December 5, 1917, at 9:00 A. M.

Wednesday, December 5, 1917, at 9:00 A. M. The Board met pursuant to adjournment, all members being present.

During the forenoon the Board went to inspect roads.

There having been an error in the description of the boundaries of Happy Valley Voting Precinct, the Board corrected same to read as follows:

Commencing at the center of Sec 28-30-3, running thence West to the Northwest corner of the Southwest quarter of Sec. 30-30-3; thence South to the Southeast corner of Sec. 25-30-4; thence West to the Dungeness River; thence following said Dungeness River to the North boundary of the Olympic Forest Reserve; thence East on said line to the quarter corner between Sections 16 and 21-29-3; thence Northerly to the point of beginning.

The Board ordered the Engineer to locate a road from Carlsborg to the Spath farm.

The Board ordered that all road supervisors and foremen meet with this Board on Tuesday, January 8, 1918, and to file at that time lists of all County property in their charge, with the location of same.

The Board them took a recess until Thursday, December 6, 1917, at 9:00 A. M.

IN THE SUPERIOR COURT OF THE State of Washington for Clallam County.

Mrs. John D. Hagadorn, a widow, and Charles H. Hagadorn, a bachelor, Plaintiffs, vs. Steven C. Manausa and Maggie Manausa, husband and wife; Sherman P. Parker, and Mable Parker, husband and wife, et al., Defendants.

Cause No. 3644. Notice of Sheriff's sale of real estate. Under special execution.

Under and by virtue of a special execution issued out of and under the seal of the Superor Court of the State of Washington, in and for said County, on the 8th day of December, 1917, upon a judgment rendered in said Court on the 4th day of December, 1917, in favor of Mrs. John D. Hagadorn, a widow, and Charles H. Hagadorn, a bachelor, and against Steven C. Manausa and Maggie Manausa, husband and wife, and Sherman P. Parker and Mable Parker, husband and wife, for the sum of nine hundred and fifty-four and 48-100 dollars ($954.48), together with attorney's fees, interest, costs and increased costs, and to me directed and delivered, commanding me to sell the following described property to satisfy said judgment, to-wit:

Lot Nine (9) of Section Twelve (12), Township Twenty-eight (28), North of Range Fifteen (15), West of Willamette Meridian, containing seventeen acres and twenty-hundredths of an acre, according to Government Survey, and all of Lot Seven (7), in Section Twelve (12), Township Twenty-eight (28), North of Range Fifteen (15), West of Willamette Meridian, containing forty-three and one-half acres, more or less, situate in Clallam County, State of Washington.

Notice is hereby given that on Saturday, the 12th day of January, 1918, at 10 o'clock in the forenoon of said day, I will sell the above described property, or so much thereof as may be necessary to satisfy said judgment, together with attorney's fees, interest, costs and increased costs, in all amounting to the sum of nine hundred and ninety-two and 03-100 dollars ($992.03).

Said sale will take place at the front door of the Court House at Port Angeles, in said County and State, and will be at public auction, for cash in hand to the highest and best bidder.

Dated at Port Angeles, Wash., this 10th day of December, 1917.

HARRY C. BISHOP,
Sheriff of said County.

JAMES STEWART,
Attorney for Plaintiffs.

THE OLYMPIC-LEADER

Makes Clubbing Arrangement With

TheWashingtonFarmer

Offers Unusual Opportunity to Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Washington farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE WASHINGTON FARMER whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to THE WASHINGTON FARMER, will be entitled to receive THE WASHINGTON FARMER in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Washington agriculture, do not miss this unusual opportunity, but send your order in now.

THE WASHINGTON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Washington. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.

THE FEDERAL TRADE COMMISSION TELLS OF BUSINESS CONDITIONS

WASHINGTON, D. C., Dec. 17.—Price fixing must be extended to many other products than fuel and food, the Federal Trade Commission declared in its annual report submitted to congress today. Far greaterpowers over business are necessary if the government is to act for the protection of its citizens from profiteering and unfair trade practices, the commission asserted. It recommended also:

An investigation of "trade associations" suspected of promoting price-boosting campaigns among members; a further attempt to unscramble the petroleum industry; passage by congress of the Webb export bill.

"The commisson is particularly of the opinion" the report read, "that price-fixing by authority of law should be exercised with respect to the iron and steel industry, for which a bill has been introduced in the senate. Equally important is the regulation of the distribution of raw materials and intermediate products in the industry affected and of the distribution of the final products to the consumer."

The commission declared the purpose of these laws would be defeated if existing contracts, largely based on inflated war prices, were allowed to continue.

Trade associations are declared to

The petroleum industry at present ficially to control prices and the channels of distribution." Making public all the records and files of these associations is recommended as a remedy.

A chief difficulty of the coal industry, the report said, is the ownership by railroads of coal mines to which favoritism is shown in supplying cars. This, it is declared, accounts for much "car shortage" elsewhere, and keeps coal production 50 per cent under its capacity production.

Railroads which own anthracite mines are accused of another offense tortionate freight rates" on the coal—obtaining from the I. C. C. "ex-they ship. Increased costs have passed on to the consumer.

On recommendations from the commission, the justice department is running down evidence on flag manufacturers who raised prices at the beginning of the war.

Among "unfair practices" the commission has discovered the past year are included intimidation, refusal to accept advertisng, price cutting, disparagement of goods, disparagement of business, false advertising, misbranding, simulation of slogans, use of coupons, use of leaders, cutting off competitors' supplies and credits, bribery and enticements of employes, use of bogus independents, enhancing prices of raw materials, malicous and vexatious law suits, inducing breach of contract, use of same or similar trade name, conspiracy to injure competitors, espionage, exclusive dealing contracts and defamation of name and goods.

POILU MAKES SPECIALTY OF CAPTURING MACHINE GUNS

By WILBUR S. FORREST.
(United Press Staff Correspondent.)

WITH THE FRENCH ARMIES IN THE FIELD, Nov. 23.—(By mail)—For making a specialty of capturing German blockhouses and machine guns single handed, George Van Kemmel, French machine-gunner, was today officially announced as recipient of the Military Medal as well as the title of Chevalier of the Legion of Honor.

Van Kemmel is a second Michael O'Leary.

Though he is a machine-gunner, the French poilu has chiefly earned his honors by taking them from the enemy.

When the French troops took the first and second German lines on the Vauclere plateau, Van Kemmel's part of the attacking wave was held up by an enemy machine gun as it approached the third trench. The French mitrailleur, armed with a rifle and several grenades wormed his way from shell hole to hole to within fifteen yards of the enemy gun. His first grenade killed a German gunner and his second blew the machine gun from its position. Several Germans rushed forward from shell holes to replace it but Van Kemmel's well-aimed grenades killed a few and forced the others to refuge in a blockhouse. The persistent poilu followed and bayonetted the first who tried to emerge. The blockhouse was taken and the assaulting wave swept on.

Exactly four months later to a day, Van Kemmel was again in the first line and went over the top with the first attacking waves. A little later he found himself alone far ahead of his comrades and seeing a blockhouse he promptly captured it. Two Germans then opened fire on him with a machine gun from a neighboring shell hole. With only his rifle and fighting the gun single handed the poilu killed one German gunner immediately. The second dropped a few moments later. When his comrades arrived Van Kemmel was calmly manning the enemy weapon and blockhouse.

Thus with a record of many Germans accounted for, two blockhouses and two machine guns captured all single handed , Van Kemmel today wears on his breast two of the most highly valued medals of the French Military Service.

APPROVED AUTO LENSES MUST BE ON ALL CARS IN STATE BY JANUARY 1

Special to the News.

OLYMPIA, Dec. 17.—A re-test given last week by the Autolight Testing Committee of all lenses previously tested. resulted in adding three more lenses to the list of those which comply with the state regulations. These are the "Osgood," "No-Glare" and "Suess Rib" lenses.

Other lenses previously approved are "Crew-Levick Fractors," "Noviol Conafore," "McBeth," "McKee," "Legalite," "I. L. C.," "Primolite," "Kill Glare," "Thuls Headlight Deflector," Science and Magic Medium Low" and "Right Lense Very Low."

The re-test was made because the members of the committee wished to be absolutely fair and to avoid any possibility of error in focusing the lenses or otherwise failing to give every lens submitted a proper test. Speaking of this re-test, Secretary of State I. M. Howell said: "There is no desire on my part or that of the committee to impose a hardship on any ene but the protection of the public is a vital necessity. Automobile travel at night especially upon the main traveled highways, has become so great that the glaring light from unprotected lamps is a constant menace to life and property. The regulation of these lights is a humane measure and if the rules this department has adopted are cheerfully complied with by drivers, a great decrease in the number of accidents will follow."

Captain Howell also stated that thousands of motor cars are now being equipped with the approved lenses and that already a marked improvement in driving conditions at night can be observed. All cars must be provided before January 1st with lenses recommended above or the lights must be so arranged as to comply with the state law which requires that the light must not rise 42 inches at 75 feet from the car, deputies having been instructed to enforce the headlight section after this date.

FREEDOM PROVING A NEW AND WONDERFUL THING THROUGHOUT RUSSIA

By United Press

PORTLAND, Dec. 17.—Freedom is a new and wonderful thing to the Russians—and it's having a strange effect upon them.

The Russians have an all consuming interest in public affairs, declares John S. Schleuning in a letter written his brother, Alexander Schleuning, here. John Schleuning is editor of the People's Paper in Saratoff, on the Volga.

Newspapers have sprung up everywhere throughout Russia, the letter declares. The Russians, formerly a sleepy race, now are interested in everything, the editor writes. The average peasant will drive 100 miles across a frozen plain to hear the situation discussed.

The reaction against the old regime is extreme. Everything that hints of the days of the monarchy meets public disapproval.

Schleuning declared a strong undercurrent against the Kerensky government existed the middle of last summer and Kerensky then was doomed to be overthrown.

Wheat flour costs from $10 to $15 for 40 pounds in Russia and meat prices range from 70 to 80 cents.

THREE CHEERS.

And then some more cheers, for yesterday the house passed the prohibition amendment by the necessary two-thirds majority, with votes to spare. The house bill allows the states seven years to act upon it, and the senate bill only six years, so the conference committee will settle this minor difference, and then the bill will go to the state legislatures for ratification, it requiring three-fourths of them to enable it to become an amendment to the counstitution. Six years is enough—yes two years is a-plenty that length of time being required because most of the legislatures meet bienially. That the amendment will be adopted, there seems little doubt, as the teeming millions of such states as New York and Ohio, where liquor is enthroned, have only one vote each, the same as Rhode Island or Arizona. The reigns of Old Barley-corn and the Kaiser will soon be night mares of the past.
