PORT ANGELES AND COUNTY

Filion Lumber and Shingle Co. the Pioneer Industry of Clallam County.

Just fourteen years ago there was landed on the wharf at Angeles a small saw mill outfit, the property of I. and Al. Filion, which had been shipped all the way from Michigan, and which, owing to its very limited capacity and the great size of timber on the townsite, immediately became a subject of ridicule to those who failed to appreciate the nerve and energy that must be behind such a venture.

Today, the Filion mill has a rated capacity of 35,000 of lumber, and cuts 125,000 shingles per day. Seventy-five mea are furnished steady employment at from $2 to $5, the monthly pay roll amounting to $3,500. The plant is worth $35,000 and the company has timber holdings upon which no man would dare set a value.

Three years ago almost their entire timber — over a thousand acres — was swept by fire and damaged to an extent of many thousands of dollars. Miles of expensive tram road and trestles were also lost. Two years ago the mill and yards were entirely destroyed, the loss being placed at $20,000. Today their mills are the best equipped and are given the best rating by insurance inspectors of any of their size in the state.

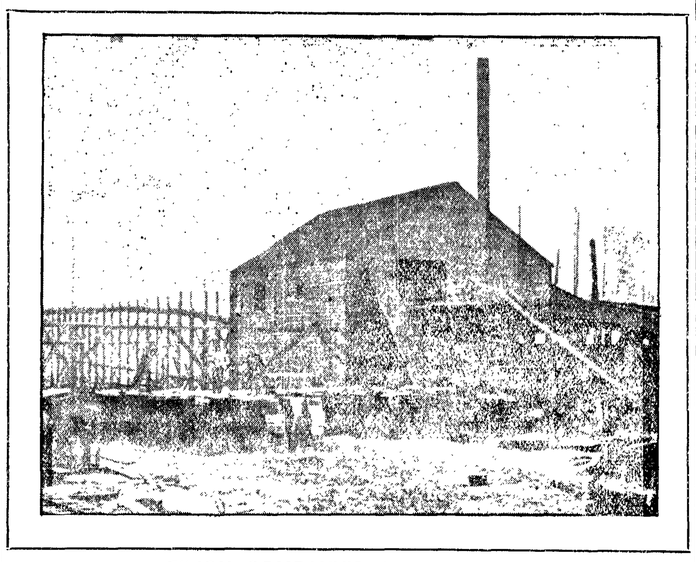
A record of which any business firm might well be proud!

The present mills have been gradually built up, the saw mill being started in December, 1903, and the shingle mill in May, 1904. The large engine room of brick and metal roof has been completed this fall, as also a large tank; sheds for the storage of finishing lumber will be commenced in a short time. The office, saw and shingle mills, yards, and also McKee & McNey's box factory, all of which were connected before, have been widely separated, thus minimizing the danger of fire. The buildings are constructed of massive timbers, so mortised as to give great strength—in fact the buildings themselves are a revelation to all who visit them.

Twin engines and boiler of 150 h. p. furnish power for the saw mill; the planer has its separate engine, as also the electric light plant and the shingle mill. Steam is furnished the box factory, which uses some 200,000 feet of lumber for salmon and apple boxes per year.

In the logging operations a locomotive and two donkey engines are used, fifteen men are employed, three miles of steel rails have been laid on a new tram way. This equipment has been employed all summer in one forty acre tract and yet it has only been partially cut. Often there is more sound timber lying on the ground, covered with vines and ferns than remains standing, so that the amount that can be taken off any particular area is truly enormous. In their years of cutting only 160 acres out of 1,000 have been thoroly cleared off.

The old shingle mill had a capacity, with two saws, of 75,000 per day; the present mill with one double block saw, from which shingles fall as steadily as oil from a can, cuts 125,000 per day, and has cut 160,000. The dry kiln has a capacity of 1,500,000. These shingles are worth $1.50 delivered in Seattle; the expense of wharfage, boat charges, and commission deducts 17½c from that price. Yet owing to their economical logging operations they are able to stand this charge and yet make as much as up sound mills who have to pay $7 to $10 per 1,000 for cedar logs.



FILION COMPANY'S SHINGLE MILL

Photo by Roy LaFlower.

At the present rate of cutting, on a basis of 313 days per year, the yearly product of shingles would amount to 39,000,000, worth gross $58,000. With rail connections, a profit of $6,825, saved on transportation, would make a neat pick-up — and the railroad company would have the hauliug of 223 cars annually of shingles from this mill alone.

No lumber is shipped, but the Filion company sells the bulk of lumber used in the city and county.

In closing this brief article on the development of the Filion mills, it would be fitting to add a few words regarding the proprietors themselves, for had they been of lesser caliber they would not have achieved such an unqualified success. Arriving in Angeles at a time when many of the settlers needed lumber, in order that they might build homes and prove up, they furnished a ready means of converting labor into lumber, thus proving of great assistance in the upbuilding of the town. Since that time their mills have been the town's chief mainstay; not only in the matter of payroll, but also by affording employment to hundreds of worthy men at times when it was greatly needed. Always liberal in extending credit, they have made possible many pretty homes which could not otherwise have been built; and they have lost very little in the long run. This spirit of liberality and good-fellowship has made every man their friend: they stand the crucial test of having the respect and esteem of every man who is now, or who ever has been, in their employ.

Buy "Reliance" brand currants and raisins of Seevers; they are excellent.

Nature needs only a Little Early Riser now and then to keep the bowels clean, the liver active, and the system free from bile, headaches, constipation, etc. The famous little pills "Early Risers" are pleasent in effect and perfect in action. TIMBER GONE: ORCHARDS FOLLOW

The Coming Industry on Logged-off Lands Will Be Fruit Raising.

Twelve apples to the layer—each apple having a circumferance of from fifteen to seventeen inches — and three layers to the box, is the way David Duncan of Lost Mountain packed his Gloria Mundi apples this year; he bro't in ten boxes of these and thirty of Gravensteins, the latter the finest fruit grown. As a tree of good bearing age will yield about eight boxes of apples and the price paid here in Angeles being 90c a box, it will be seen that apple growing is to become a profitable side line on our logged-off lands. H. S. Coleman, south of town, has found his orchard to be the most profitable thing on the ranch and will set out forty acres to apple trees this year. E. W. Merrill & Co., who are handling the fruit, say they would buy thousands of boxes at this price were so many to be had.

Eat more rice and you will have more of that pluck and endurance which made the Japanese winners in the late war with Russia. Seevers keeps the best.

FRIDAY, NOVEMBER 24,1905.

THANKSGIVING.

Thursday, November 30, has been designated by the president of the United States and by the governor of this state, as a day of Thanksgiving and praise to our Heavenly Father for national as well as individual blessings with which the year has been crowned. Surely as a people we have many things to be thankful for, and nothing can be more appropriate than the suspension of business, the cessation from weary toil, and the assembling of ourselves together in the various places appropriate for religious services, giving expression to the gratitude we feel in our hearts in earnest worship and with songs of praise. The soul that thus waits before God on this great national holiday, with humble reverence, in simple trust, and with a love and faith that acknowledges His mercies to us in the past and our dependence upon Him still, will feel the drawings of this love, and be brought into closer fellowship and communion with Him who is the Author of our being and our truest friend.

AS OTHERS SEE US.

On Friday and Saturday last, under the leadership of the women of the Civic Club, Port Angeles held a "sidewalk day." Scores of men in each of the six wards of the city turned out and for two days worked gratuiously repairing old sidewalks and putting down new ones wherever needed.

Port Angeles has been the pioneer in this form of work, largely through the initiative of the ladies of the city. "Stump day" was instituted some years ago, and has been observed regularly. On this day the men turn out and remove all unsightly stumps, and generally place the streets in good condition to use as highways, the women furnishing lunches for the workers. Sidewalk day has resulted in a splendid improvement in the city, to the convenience of everybody and to the best interests of the entire city.

Such improvements, and others of a similar nature, are of great value to the city and advertise it as a desirable place of abode. The civic spirit is manifested in Port Angeles, and it is taking a profitable direction. The example of Port Angeles can be followed to large advantage by other places in Western Washington.—Seattle P.I.

From Victoria.

In conjunction with the announcement that the Port Angeles and Olympic Railway Company is incorporated comes information that the government of this province is to be asked to aid in the building of a line which will run from Victoria to the north end of Vancouver island, with a ferry connecting Victoria and Port Angeles. Some months ago the British Columbia government was asked to aid in this enterprise but did not give the desired assistance, which was asked to be in the form of a land grant.

Identified with the scheme are A. A. Arther, of New York, and a Mr. Schmidt, of Omaha. They visited the province a few months ago and went thoroughly into the situation. At the same time they acquired the charter of the Midway & Vernon railway in the interior of the province and are now pushing it to completion.

To Buy More Steamers.

Walter Oakes, president of the Alaska Steamship Co., left for New York last Thursday to inspect two 1,000 ton steel steamships on which an option has been secured. Mr. Peabody, when east recently, looked them over and says they are among the finest passenger boats running out of New York; they are larger than the Indianapolis and will berth 118 passengers each; they have been in commission but a few months, and are first class in every respect, suitable for the Alaska travel. It is expected, if purchased, they will arrive with the Indianapolis in February.

Constipation.

Health is absolutely impossible, if constipation be preseat. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having used Herbine, I find it a fine medicine for constipation." 50c a bottle. **Mathewson's Pharmacy.**

Sounds Like Belvin.

L. M. Rice, constructing engineer of the Olympic & Port Angeles railroad, has returned from the survey of the proposed route and an inspection of the right of way.

"If the work progresses with the speed which we expect, we shall have work for 10,000 laborers next summer along the line of our road. Even up to the present time we have found a great dearth of labor, owing to the vast amount of railroad construction work in the Northwest. Our capital is subscribed and upon the decision as to the route we shall begin active construction.

"The road will tap the richest timber region of the state and will assist notably in opening undeveloped properties along Hoods canal.

"The road will be 210 miles in length between Olympia and Port Angeles, and at the latter point will connect with the Port Angeles & Peninsula road, a 'feeder' road eighty miles long."—P. I.

FOR THANKSGIVING

MRS. BROPHY'S DELICIOUS ROAST TURKEY.

Rinse the turkey out with several waters, in next to last water mix a teaspoonful of baking soda, wipe inside and out; rub the inside with some salt, then stuff the breast and sew up. Steam the turkey for three-quarters of an hour, then rub over with soft butter, sprinkle with salt and pepper, dredge with flour; place in dripping pan, pour in boiling water, baste often; when pierced with a fork and liquid runs out perfectly clear turkey is done. Bake 20 minutes to the pound.

MRS. DELABARRE'S MINCE MEAT.

3 bowls chopped meat, 6 bowls chopped apples, 1 bowl chopped suet, 1 bowl molasses, 1 bowl vinegar, 3½ bowls sugar, 2 bowls boiled cider, 2 bowls raisins, 1 pound citron, 2 tablespoons cinnamon, 1 tablespoon ginger, salt, cloves, and pepper, 3 nutmegs, 3 lemons. Add water in which meat was boiled; after mince meat is scalded add juice and rind of lemons.

CRANBERRY SAUCE.

To 1 quart cranberries add pint sugar, pour over 1 cup cold water, set on range and cover close; cook ten minutes from the time they begin to boil, if cooked longer the skins will be tough.

STUFFED DATES.

Steam fresh dates for fifteen minutes; when cool dip in sherry wine and stuff with English walnut meats; roll in granulated sugar.

MRS. CHAS. HIRSCH'S ROAST FILLET OF VEAL.

Select a nice fillet, have the bone taken out, fill up the space with dressing, the same as for fowls, putting a good layer under the fat; shape by drawing the fat 'round and tie it up with tape. Cook it rather moderately at first, baste with butter frequently; roast from three to four hours, according to size. Cranberry jelly goes nice with it.

MRS. CHAS. HASWELL'S LEMON PIE.

Dissolve one small tablespoon gelatine in one-fourth cup cold water, crumb a slice of bread one inch thick into a granite basin, cover with cupful boiling water; add one cup sugar, the juice and half the rind of a lemon, a piece of butter and the yolk of an egg; stir in the dissolved gelatine and cook altogether for two minutes after it begins to bubble. Let it cool somewhat, line a pie pan with a good paste and bake. Turn in the cooled mixture, whip the white of the egg, spread it over and return to a quick oven to brown.

MRS. S. J. LUTZ'S THANKSGIVING FRUIT CAKE.

2 cups sugar, 1 cup butter, 1½ cups sour cream, 5 cups flour, 3 eggs, 1 tablespoon soda, 1 pound raisins, 1 pound currants, ½ pound citron, 1 tablespoon each of cinnamon, cloves and allspice, 1 cup coffee, 1 nutmeg.

MRS. BROPHY'S BANANA SALAD.

Take peeled bananas, dip in white of egg, lay on lettuce leaf, cover with ground peanuts, then mayonnaise dressing.

Cured Consumption.

Mrs. B. W. Evans, Clearwater, Kans., writes: "My husband lay sick for three months. The doctors said that he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago. Since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and $1.00.

There will be a grand ball in Seguin on Christmas night. The best of music will be engaged for the occasion.

Chas. Cays and Ed Ford are contemplating putting up a shingle mill in Happy Valley.

The ladies auxiliary of the Episcopal Church will give a social and dance in the hall at Seguin Thanksgiving eve.

No Poison in Chamberlain's Cough Remedy.

From Napier New Zeland Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in the market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup, and whooping cough. This remedy is for sale by W. J. Mathewson.

Prof. Knox in Port Angeles.

A large and enthusiastic audience greeted Prof. Knox at the opera house on last Monday evening. Rev. Graham, who introduced the speaker in a most felicitous and happy manner, put the audience in good humor, and if there were any present who were laboring under the impression that the Professor was not a favorite before a Port Angeles audience they soon had occasion to change their minds. As an elocutionist and impersonator Prof. Knox has but few superiors, and each number presented was received with the most rapturous demonstrations of approval. His rendition of some of the home scenes in the North immediately following the news of a great battle during the War of Rebellion was especially happy and many eyes were moisted at the recital of the pathetic scenes. The music by the orchestra was also fine, a fact the audience was not slow in recognizing.

Every ounce of food you eat that fails to digest does a pound of harm. It turns the entire meal into poison. This not only deprives the blood of the necessary tissue-building material, but it poisons it. Kodol Dyspepsia Cure is a perfect digestant. Fatal Accident at Clallam.

Claud Silvey, a young man of 23, was fatally injured at Robinson's logging camp, West Clallam, Wednesday. A log rolling down the hillside struck a green stick and threw it with great force, striking Mr. Silvey, who was standing well out of the way of the log, across the forehead, crushing the skull; he was unconscious, and died at 7:30 that evening. Dr. Hartt had been summoned and went down by tug. This is the first child, out of a family of ten, that Mr. and Mrs Ross Silvey have lost.

The funeral was held under the auspices of the M. W. A., interment taking place at Ocean View Cemetery, Messrs. McKee and LaFlower conducting the ceremonies.

and you will learn what is the "power behind the dough." In the high-class powders it is cream of tartar, extracted from clean, delicious grapes, and that is healthful. In the low-grade powders it is "phosphate alum," or "sodium aluminum sulphate," which is also alum, a mineral acid, and that makes the food unhealthful.

Of what use are twenty-five ounces for twenty-five cents, if eight of these ounces are alum?

Food baked with alum baking powders is found to contain a portion of the alum unchanged!

The continued use of alum made food impairs digestion, causing dyspepsia. When buying baking powder, examine the label and take only a brand whose label shows it to be free from alum.

Important Announcement

Having acquired a good healthful honorable age—born June 8, 1843—I desire to change my vocation to a lighter one; therefore would sell 160 acres timber land ten miles from Port Angeles. A good county road runs along the south 80 to Lake Sutherland, 4 miles to outlet and about 6 to Lake Crescent. Neighbors on every side. The people are fast advancing above their primitive shanties, discarding their log shacks and shake barns for better barns and up-to-date modern houses.

Here is a golden opportunity for a good, live, wide-awake mill man who can properly take care of machinery and run it. I have a good dam with 9 feet head, saw mill, shingle mill, small planer and matcher, good turning lathe. Lumber saw 62 inch spolden tooth. An emery gummer — automatically gums big saw on its arbor. Same gummer gums shingle saw. A turbine water wheel drives all the heavy machinery; a small overshot wheel drives the upper gummer, lower gummer, two grindstones, turning lathe and two conveyors. Have a fitting room in lower part; emery gummer for fitting, 9 planer bitts, gumming saws, etc.; a grindstone for planer; bitts; blast forge and blacksmith outfit.

Have a wire cable with heavy blocks. Blocks and lines, cant-hook, 2 peavies, logging chains, 2 set chained dogs. Boring machine and set augers, set ship augers, set hand augers, 3 hand saws, 2 rip saws, brace and bitts, level, framing chisels, malliets and numerous other useful articles.

Small two roomed house, good shingled roof, double boarded all around, double floor, shingled all around outside. A firstclass bachelor outfit, cookstove, heating stove, writing desk and secretary combined, stone churn and several other small and large jars.

I will say to the right man, here is a golden opportunity to secure a self-supporting home for a good live enterprising man who can take proper care of machinery and run it. The mill is so constructed one man can run every one of the departments alone, or more men as desired. A man who wants such a property will not regret time to come and see it.

There is a secret value in this property; I will not disclose only to the lucky buyer. Will take part cash, time for balance on security.

I will not state price as I shall be constantly improving and adding machinery. I will not answer a doubtful communication. A man who wants this home evidently should come and look it over. My address,

E. B. GRIFFIN,
Elwha Post Office, Clallam county, Washington.

My mill is rated Indian Valley Mill.

The Exact Thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," say R. S. Webster & Co., Udora, Ontario, Canada. Sold by W. J. Mathewson.

HEERMANS ON WATER SYSTEM

Will Bend Every Energy to Induce Location of Manufacturing Industries.

HOQUIAM, WASH., Nov. 20, 1905.
Editor Olympic-Leader, Port Angeles,

Dear Sir:—I have read the editorial in your paper of November 10th and note your objections to my proposed franchise.

The conditions which I have named to Port Angeles are essentially about the same as were granted to me by the city of Hoquiam in 1898 and are moderate and reasonable conditions for the construction of a thoroughly first-class water system.

The city of Port Angeles now has a water system which is wholly inadequate and practically useless to a thriving and growing city. It is not fair, therefore, to compare my proposition with the small works and small outlay involved in the old works. There is much difference in the investment required for a thoroughly adequate water pipe system for fire protection as compared with the small pipe lines that would be required for domestic service only. The investment difference between the cost of a fire system and a domestic system is to be paid for by the city in hydrant rentals. It is customary for a city to pay for fire hydrants at the rate of eight hydrants per mile of pipe laid to secure an adequate fire system. That is our present contract with the city of Hoquiam, and other cities on the Coast have made similar contracts. In the proposed franchise at Port Angeles, the city only has to pay for 25 hydrants to secure ten miles of fire service water mains. This is a very liberal concession to the city. Additional hydrants could be placed at any time when the city required the same for fire protection, as specified in the franchise.

The domestic rates proposed are not excessive as may be determined by a comparison with other towns of even larger population. Port Angeles requires a costly plant to supply its population with water for the reason that the houses are widely spread over a large townsite. If the buildings were compact or closely grouped together, the water system could be constructed for one-half the investment now required. Furthermore, the distance from the city to secure a good supply of water is great considering the present population.

At the beginning of the operation of the works revenues would be small and offer no inducements to capital. The outlook for profit lying wholly in the future growth of the city, I would bend every energy to induce the location of manufacturing industries, thus to help the revenues of the water company. After long experience in the construction and operation of water works systems, I do not believe the works such as I propose can be secured for the city of Port Angeles on any better terms than have been named in the proposed franchise.

To secure capital a purely business proposition must be offered; and it seems to me that the limit is reached in the terms of the proposed franchise. If the people of your city are not willing to pay the usual cost and charges paid by other cities for a first-class water system, how can they expect to secure what the business necessities and growth of the city demand?

I wish to state to you that I have no connection whatever with the railway propositions now proposed which terminate in Port Angeles. The building of a water system will not depend upon the success of the railway schemes.

Yours very truly,
HARRY C. HEERMANS.

A Cough syrup which drives a cold out of the system by acting as a cathartic on the bowels is offered in Kennedy's Laxative Honey and Tar. Clears the throat strengthens the lungs and bronchial tubes.
