HORTICULTURAL FAIR

Society Announces First Fruit, Flower and Vegetable Exhibition This Fall.

At the regular quarterly meeting of the Clallam County Horticultural Society, held last Saturday, a new constitution and by-laws were adopted, officers elected for the ensuing year, and other business of importance to the society transacted.

There was a goodly attendance of members and all were enthusiastic, especially with regard to a fruit and flower exhibition to be held by the society in this city during the coming fall. It is the intention to gather extensive exhibits of fruits, grains, grasses, vegetables and flowers which will be a source of surprise even to the old residents and an inspiration to all for the more profitable cultivation of the soil and a more general improvement of the home surroundings. Liberal premiums will be arranged for various classes of exhibits and for special exhibits. Many of these displays can be kept for months as an advertising exhibit of the resources of Clallam's soil that will interest all visitors to our city. Photographs thus to be obtained will be valuable for advertising purposes.

The officers elected are: President, G. V. Smith; 1st vice-president, J. M. Grant; 2nd vice, S. Land; 3rd vice, H. S. Coleman; secretary, E. B. Webster; treasurer, H. C. Miller.

Committees appointed: Fairs and exhibits, E. Dermul, G. H. Randall, J. M. Grant. Transportation and markets, S. Land, H. C. Miller, E. B. Webster. Legislation, J. M. Grant, Ole Engvolsen, J. G. Madland.

Following is the

CONSTITUTION:

SEC. 1. This society shall be known as the Clallam County Horticultural Society.

SEC. 2. The object of this Society shall be the advancement of horticultural and floricultural interests of Clallam county, Washington.

Sec. 3. The officers of this Society shall be a president, three vice-presidents, a secretary and a treasurer.

Sec. 4. The said officers shall be elected at each annual meeting and shall serve until their successors are elected and qualified.

Sec. 5. The annual meeting of this Society shall be held in the city of Port Angeles on the last Saturday of March of each year.

Sec. 6. The president, and in his absence the senior vice-president in attendance, shall preside at all meetings. In the absence of the president and all the vice-presidents the secretary shall call the assembly to order and it shall proceed to elect a president pro tempore.

Sec. 7. The secretary shall keep a record of all proceedings of each meeting and carry on the correspondence of the Society.

Sec. 8. The treasurer shall receive all money due the Society and shall pay out the same on orders signed by the president, after being audited by the Society.

Sec. 9. Any person of Clallam county who may be directly or indirectly engaged in horticultural or floricultural pursuits may become a member of this Society by paying the membership fee.

Sec. 10. All elections shall be by ballot. Members who have paid dues for the current year alone voting on all propositions.

Sec. 11. This Constitution and by By-Laws may be changed or amended at any regular meeting by a majority vote of all voting members present. Notice of proposed change shall be filed with the secretary 15 days prior to date of meeting and all members of the Society shall be notified in writing of any change

Continued on Page 8.

All Asked to Assist

The Civic Club Mother's committee has called a meeting at the home of Mrs. John Trumbull on Wednesday next to sew for the Schomer family who were burnt out yesterday. The ladies are requested to come early, by 10 o'clock if possible, and also to solicit as much clothing as possible to bring with them to be put in shape to be used.

Mrs. Jno. Trumbull,
Chairman of Committee.

HARD FINANCIAL PROBLEM FOR CITY

Council Orders Estimate Made of Proposed Laurel Street Improvement.

The committee on streets and city attorney reported regarding the proposed grading of Laurel street that while there was no legal objection, the city would find its share of the expense a heavy burden at this time, as it would include the grading of all intersections, a bridge across Second street, and possibly the assessment against the three blocks of government property. "In proceeding towards ordering said grade, the council is first required to declare its intention by resolution or ordinance, giving at least ten days notice of such intention and therein among other things to state the estimated cost of such improvement and if within said time of notice the owners of two-thirds of the property abutting on said street or proposed improvement shall protest against the same and file their protest with the city clerk, it would then require six votes of the council to order such improvement." City engineer and street committee ordered to make estimate.

Committee on re-appraisement of acerage blocks recommended that following wording be inserted as an amendment to bill now pending before congress, "to be sold to actual settlers at re-appraised prices, one tract to each settler, under the commuted homestead laws." Clerk was instructed to send copy of resolution to each of our senators and representatives.

Council completed contract with Dunn, Coale & Dunn for water survey.

Bovee Potatoes

Extra early "Bovee" potatoes for sale, the best potato we have tried. Early, fine flavor and very productive. Don't forget new potatoes will be in big demand this summer; the first ones bring the price.

A fine assortment of Fruit Trees, Plants and Ornamentals. We have some choice specimen trees, large size, 4 and 5 years old, just coming into bearing. Call and see us or address

OLE ENGVOLSEN, Nurseryman
Prop. Homestead Nurseries, 9tl and Peabody Sts.,
Port Angeles, Wash.

Amateur photographers get the very best results when they get their developing and finishing done at Fulmer's Studio, where there is no guess or machine work—just a good supply of "know how."

Try our "Reliance" Brand Canned Peas. They are fine.
E. E. Seevers.

CLEANING-UP DAY TO BE HELD

Civic Club Plans Work for Improvement of the City's Streets.

The Civic Club met at the usual place on Tuesday afternoon and held an interesting meeting. The work for the coming summer was taken up and various interests and plans were discussed. The mother's committee made a very good report of the work done during the past winter; showing that while considerable work had been done, very little of it was for persons in the city, most of it being for families in the country districts. From the fact that the winter before the committee had clothed over 30 children in the city in order to enable them to attend school, this report was very gratifying, showing as it did an improved condition of the city.

The Park committee reported that an examination of the park had been made, and that everything was found in first-class order—no destruction of property or defacements being found.

A vote of thanks was tendered Mr. G. V. Smith for making a type written copy of the constitution and by-laws of the Civic Club, and the secretary was instructed to forward the copy to the treasurer of the State Federation, together with other necessary data and fees for membership in that body.

The club decided to call a cleaning up day in the near future in order to put our city in condition for the summer, and for the success of this day's work the club decided to call upon the loyal boys and girls of the city to help them. A dinner will be served in the park for all the boys and girls who do help.

The matter of city playgrounds was taken up, and the club decided that with the consent of the city council, a portion of the Park should be made into a play ground—that an out-of-door gymnasium be constructed, such as turning-poles, swings, merry-go-rounds, etc., for the benefit of our boys and girls.

The club also determined to devote as much interest as possible to Mother's-work, to further the study of child-culture, sanitary and home developments. Secure, if possible, some able speakers from abroad on those lines.

The matter of a rose festival in June, and a harvest festival in the fall was also taken up, but no definite plans formulated.

In order to raise funds to enable the club to enter upon the the summer's work, it was decided to give a patriotic entertaiment before the 30th of May.

The club adjourned to meet on April 17th, in the railroad office.

Royal Baking Powder Absolutely Pure

Made from Pure Grape Cream of Tartar

In baking powder Royal is the standard, the powder of highest reputation; found by the United States Government tests of greatest strength and purity.

It renders the food more healthful and palatable and is most economical in practical use.

Housekeepers are sometimes importuned to buy alum powders because they are "cheap." Yet some of the cheapest made powders are sold to consumers at the highest price.

Housekeepers should stop and think. Is it not better to buy the Royal and take no chances—the powder whose goodness and honesty are never questioned?

Is it economy to spoil your digestion by an alum-phosphate or other adultered powder to save a few pennies?

Minor Happenings of the Week

The president has appointed Benjamin Barnes, at present assistant secretary to the president, as postmaster at Washington.

Sigur Ibsen and M. Horst have been appointed by the Norwegian government as members of The Hague court of arbitration.

A Moscow paper publishes a sensational dispatch to the effect that a clash appears to be likely between Chinese and Russian troops in Manchruia.

President Roosevelt has appointed Rudolph Forster to be first assistant secretary to the president in place of B. B. Barnes, appointed postmaster at Washington city. Mr. Forster was second assistant secretary.

Prince von Buelow has been appointed a member of the Prussian house of lords by Emperor William. This is the latest indication of the kaiser's favor and sets at rest the rumor) that Von Buelow might retire.

In the case of the United States vs. Wickersham the supreme court has decided that a person employed in the civil service may recover damages on account of suspension by a subordinate official, affirming the decision of the court of claims.

The date for holding the national encampment of the United States war veterans at Washington, D. C., has been fixed. It will begin October 8 and last through the week. The president will address the veterans and review the parade.

The Railroad Gazette announces that the plans of the Milwaukee railroad for the extension to the coast include the rebuilding of 400 miles of the line between St. Paul and the Missouri river and the double tracking of the Chicago-St. Paul line.

It is rumored at St. Petersburg that Emperor Nicholas' Easter gift to his people will be a proclamation granting general amnesty to all political prisoners. In the midst of the present repression, however, it is difficult to under stand how it is possible to open the doors of the overcrowded prisons.

The California supreme court has decided that Edna Wallace Hopper is not entitled to the estate of Millionaire Dunsmuir.

President Roosevelt has noimnated William G. Bristol to be United States district attorney of Oregon and Admiral Endicott to be chief of the bureau of yards and docks.

A Westminster, B. C., dispatch says a deal has been closed there whereby a New York firm has purchased a site of ten acres of land near Eburne, where it will erect large glass works.

A petition has been signed by over a hundred residents of Pogue and the surrounding country asking Secretary of the Interior Hitchcock to establish a government townsite on the reservation at the mouth of Omak creek.

The federal court at Chicago has set the second Monday in September as the date for hearing the cases of the packers' corporations The government's motion for a new trial of individuals was overruled, also the packers' motion for a new trial of the corporations.

Secretary Bonaparte has decided to accept the resignation of Midshipman Minor Merriwether from the naval academy. He will instruct the superintendent of the academy to dismiss the sentence of one year's confinement to the academy hanging over Meriwether.

One hundred keys of ornate design, ancient and medieval, have been purchased by the Metropolitan Museum of Art at New York. With this addition the exhibit of keys in the museum is one of the best in the world. The latest acquisition was gathered from old French castles and excavations of ancient cities.

To Grind Wheat at Wenatchee.

Wenatchee, April 2.—Wheat growers in the Big Bend and Seattle capitalists will erect a 400-barrel flouring mill in Wenatchee this year. Plans are being prepared. Warehouses will be built along the line of the Great Northern as far east as Krupp, and wheat stations will be built at towns along the Columbia river.

Illinois Senatorial Contest.

Springfield Ills., April 2.—Senator Shelby M. Cullom's petition for nomination as United States senator, filed in the office of the secretary of state during the week contained 121,676 signatures. The petition of Richard Yates for United States senator, filed at the same time, contains 24,000 signatures.

Alaska Coal Locations.

Washington, March 31.—Representative Lacey has introduced in the house a bill to authorize the assignees of coal land locations to make entry under the coal land laws applicable to Alaska to the extent of 1,200 acres each.

WASHINGTON NEWS

Bridgeport Methodists dedicated their new church Sunday.

Colville Methodists will build a new church this summer. The estimated cost is $5,000.

A mass meeting has been held at Lakeside to protest against creating the Chelan national park.

Ballard shingle weavers went on strike Monday. It is thought the trouble will be of short duration.

Strong indications of oil and gas have been discovered at Dixie, according to a Walla Walla dispatch.

Seattle bank clearings for March amounted to $43,368,827.70—more than double those of March last year.

The King County Good Roads Association is planning a great boulevard through the city of Seattle to the north county boundary.

On Saturday it is estimated that, in response to a proclamation by the mayor, 20,000 Spokane people devoted the day to cleaning up the city.

Representative Jones, of Washington, has introduced a bill to compel all vessels to carry oil and machinery for distributing it during storms.

Seattle's Alaska-Yukon fair was given a rousing endorsement at Dawson Saturday night. The occasion was a lecture delivered by the American consul at Dawson on "The Levent," where he was in the diplomatic service of the United States for eight years. The proceeds go to the directors for advertising purposes.

A New York dispatch says it has been officially announced there that J. D. Farrell, who formerly had charge of the Hill interests at Seattle, has been appointed to represent the interests of the Union Pacific organization in the development of the lines of the Washington Northern railroad, which will construct a line to Puget sound ports.

Gambling games at Renton have been ordered to close.

The president has nominated K. P. Allen postmaster at Pullman.

The bill to establish a preserve for Elk in the Olympic forest reserve has been favorably reported to the house.

A cannery and box factory are to be opened at Monroe as soon as buildings can be erected and the machinery insattled.

The eighteenth annual convention of the Western Washington Sunday School Workers will be held at Tacoma May 8, 9 and 10.

The Walla Walla Commercial Club will ask the state railway commission to order railways entering that town to make Walla Walla a distributing rate.

Construction of a stretch of macadamized country road, to be built under the supervision of A. E. Loder, assistant engineer in the office of public roads, department of agriculture, will commence within the next few days at Pullman.

Apples Bring Fancy Price.

Wenatchee, April 2.—E. M. Foy manager of the Wenatchee Valley Fruit Association, has sold 1,000 boxes of apples to a Seattle commission firm for $2,500. This price is the highest paid for Wenatchee apples this year. The apples comprise the best of the winter varieties.

Agreed on Consular Bill.

Washington, March 31.—The conferees of the senate and house have agreed on the bill to reorganize the consular service.

Butter—Washintgon creamery, 28@30c; ranch, 18c; Eastern creamery, 26@30c.

Eggs—Washington ranch 17½c.

STRIKE IS LIMITED

MANY MINE OPERATORS ARE SIGNING SCALE.

Iowa and Illinois Fields Will Scarcely Lose a Day—Men in Anthracite Fields Are Out Pending Negotiations Between Pres. Mitchell and Operators.

Indianapolis, April 2.—No general strike order was issued by the national executive board of the United Mine Workers as the result of an all-day meeting of that body here Saturday. The meeting was held for the purpose of completing arrangements to carry out the policy committed to the board during the national convention which closed Friday afternoon. This was made effective by authorizing the district and subordinate officers to signify their willingness to sign contracts wherever the operators signify their willingness to pay the 1903 scale, which provides for an increase of 5.55 per cent in wages.

It was reported unofficially at the national headquarters of the miners yesterday that operators representing the total tonnage of Iowa have signified their willingness to sign the 1903 scale on Tuesday.

The signing of contracts by the operators in Western Kentucky is accepted by the miners' officials as an indication of what may be expected else where.

Bennett Brown, representing several large mines in Illinois, made personal application to John Mitchell to be allowed to sign the new contract. He was told that the papers would be in readiness for him upon his arrival at Springfield and that the district officers there have power to act in the matter and instruct the men to go back to work.

WORK IS SUSPENDED IN ANTHRACITE FIELDS

Philadelphia, April 2.—Reports received today from the anthracite fields state that the order of the miners' scale committee directing that mining be suspended until an agreement could be reached with the operators is being obeyed almost to the man.

In all three districts preparations were made by the operators for a resumption of work this morning. Whistles were blown at the regular hour and everything was in readiness for the men to go to work, but there was no response by the miners and the day took on a holiday aspect. Foremen, engineers and pumpmen, who are not affected by the suspension order, reported as usual, but it was apparent that the scores of epmty coal cars which had been hurried to the collieries would not be needed unless an agreement was reached between President Mitchell and the coal presidents in their conference in New York tomorrow.

That a great many miners believe there will be a bitter struggle between the workmen and their employes was evidenced by the departure Sunday and today of scores of miners from the Schuylkill region. A majority of these men are foreigners, who will go to their homes in Europe and there await the outcome of the pending strike.

At many of the collieries in the Luzern-Wyoming district, the mules were taken from the mines, thus indicating that no effort would be made immediately to resume mining.

Pittsburg, April 2—Dispatches from the soft coal fields indicate almost a general announcement from the operators of Western Pennsylvania to pay the miners the advance of 55.5 per cent called for in the restoration of the scale of 1903.

With notices posted at the majority of the mines announcing the granting of the scale, the strike in the soft coal field has lost the threatening aspect that has surrounded it since last January.

GREAT LAKE OF OIL.

Discovery in Alberta Said to be Most Wonderful.

New Westminster, B. C., April 4.—J. S. Williams, an oil expert from Summerlands, Cal, passed through this city from Alberta en route home.

In speaking of the recent oil lake discovery in Alberta, Mr. Williams says that he never saw or heard of anything so wonderful, and would not have believed it had he not seen it. He states that a lake eight miles by four miles runs along the eastern slope of the Rocky mountains which is oil that can be refined 75 cents a barrel cheaper than any other kind he has ever seen. If this company keeps clear of the oil monopolists on the American side of the line, Canada will have a cheaper and better oil, as the government gives a bounty of 1½ cents on every gallon of oil produced in Canada.

No Two-Cent Fare in Iowa.

Des Moines, Ia., March 31.—The Sankey bill, providing for a two-cent railroad fare in Iowa, has been killed in the house. Statistics were presented to prove that the three-cent fare only paid expenses on Iowa roads.

Milwaukee Bills Passed.

Washington, March 31.—The house has passed bills authorizing the Chicago, Milwaukee & St. Paul railroad to construct bridges across the Snake and Columbia rivers in Washington.

SQUARE DEAL IN ALASKA.

Hitchcock Proposes Six Months' Notice of Mineral Entries.

Washington, April 3. — The secretary of the interior has sent to congress a draft of a bill which he recommends to be passed providing that, whenever mineral entries are made in Alaska, six months' notice shall be given instead of sixty days. as at present. Under existing laws it has become a common practice, particularly in remote mining districts, for entrymen to hold off until the mails are virtually closed by bad weather and then forward their notices to Juneau. In this manner persons wishing to institute a contest are precluded, because of the slow transmission of mails, and a contest is made almost impossible. The new law is recommended in the interest of honesty and a square deal.

BRITISH LIBERALS ARE DIVIDED ON LABOR BILL

London, April 2.—The trade disputes bill, which is a direct outcome of the Taffdale decision, which held trades union funds are liable for the illegal acts of individual members of the union, has been introduced in the house of commons by the attorney general.

In explaining the features of the measure he said the recent court decisions had curtailed the usefulness of trades unions. Their rights had been cut down to the point of extinction, and funds contributed to provide against sickness and lack of employment had been held liable to meet all claims based on the repudiated acts of unauthorized officials.

The present bill provides that no act of a trades union shall be held to be unlawful when committed by an individual. It sets forth in express terms the right of peaceful picketing, which the attorney general declared was an essential part of the right to strike, and defines the law of agency as applied to trades union funds for any act unless it is perfectly clear that the act was authorized by the governing body of the union.

In regard to the demands for the complete immunity of trades union funds from attack, the attorney general declares that he did not think it right to create a special privilege for the proletariat. If the bill did not fulfill the expectations of the trades unions the government had at least done its best to solve the thorny problem.

It is considered to be a tactical mistake on the part of the government to come into conflict not only with the labor party, but a large majority of its Liberal supporters. It is avowedly due to differences of opinion among the ministers themselves, a strong minority being against a complete concession to labor views, and the compromise adopted apparently pleases nobody.

In their opposition to the bill the labor members are supported by the Irish and ministerial members, and unless the government measure is extended so as to give union funds complete immunity the labor members will test the opinion of the house with a bill which they have prepared.

The Irish will ask to have the bill extended to include Irish farmers and others who are open to unfair treatment.

TALK OF GOVERNMENT SEIZURE AND OPERATION

Chicago, April 2.—The Tribune's Washington correspondent says:

"It is a serious thing to say, and yet I believe I am justified in saying it, that if the strike of the bituminous and anthracite miners is permitted to continue to the point where the piled up stocks of both kinds of coal are practically exhausted so as to produce a paralysis of industrial operations, the government of the United States, either through the president or through congress, or both, will take action in the interest of the people, constitution or no constitution.

"That is the feeling here among men who ordinarily are conservative. They do not believe that either congress or the president has the right to dictate the terms on which men shall operate their mines, or on which men shall work in the mines. They do believe, however, and the opinion was generally expressed by Republicans and Democrats and by high officials almost within the walls of the White House itself, that if any such crisis arises the United States government will take possession of the mines, operate them for the benefit of the people, and turn over the money to its proper owners, leaving the miners and operators to agree among themselves if they can.

Murray to Urge Measure.

Washington, April 4.—Assistant Secretary Murray, of the department of commerce and labor, one of the members of the Valencia commission, will go before the house committee on interstate commerce to urge the passage of the senate bill providing for a life-saving station in North Pacific coast waters and for a life-saving station at Neah bay. The measure was passed readily enough by the senate, but there may be some difficulty in the house on the ground of economy in expenditures.

May Teach Polish.

Warsaw, April 4.—Under orders from St. Petersburg the inspector of schools will permit the use of Polish as the language of instruction in all the schools and universities of Poland.

AGREED ON MOROCCO

CONFERENCE AT ALGERICAS ANNOUNCES AN ACCORD.

General Satisfaction With the Outcome Is Expressed, Although Neither France Nor Germany Secured What they Most Desired.

Algericas, April 2.—After a plenary session lasting till 6 o'clock Saturday evening, the conference on Moroccan reforms registered a complete accord and appointed a committee to embody this accord in a formal protocol. The consummation of the work in the conference was announced in the following official communication:

"The conference has terminated its labors and accord is established on all points. It has adopted a definitive text of the remaining articles concerning the state bank and customs. The final article, regulating the distribution of police at ports, was adopted from the Russian draft. By it France will police four ports, Mogador, Saffi, Magazan and Rabat, and Spain two, Tetuan and Larache. France and Spain together will police Tangier and Casa Blanca, subject to an inspector of ponlice. The Dutch delegate announced that his government declined to appoint an officer. The conference has appointed a special comimttee to revise the texts of the agreement. This committee will meet Monday to consider the final formalities of the protocol."

White Says It Is Satisfactory.

Mr. White, the American delegate, is of the opinion that the result is satisfactory, not only because the immediate future of Morocco is secured, but because the manner of the settlement is satisfactory both to France and Germany and removes the causes of friction and restores international relations to normal. The principles for which Germany insisted, the integrity of Morocco and equal commercial and economic rights there, Mr. White thought were recognized, while the special position claimed by France was also acknowledged.

With reference to the effect of the conference on Morocco, the delegates were divided in their opinion. They admitted, however, that the operation of real reforms would be impossible without the good will and sanction of the Sultan and his advisers, and for that reason the last act of the conference will be to authorize that the reform program as adopted shall be submitted to the sultan by Chevalier Melmusi, the Italian minister to Morocco, who is dean of the diplomatic corps at Tangier, with the intiamtion that it is the unanimous wish of the powers that it be put into operation immediately.

That France has come out in the lead is regarded everywhere as evident. In addition to the adoption of what was practically her idea in regard to the policing of Morocco, her claim to have three shares of the stock of the state bank has been recognized. Germany opposed this project as long as she could, but eventually was forced to yield. The police question and the bank question have been the two big points in dispute.

DEMOCRATS AGAIN ELECT TACOMA MAYOR

Tacoma, April 4—George P. Wright the Democratic nominee for mayor was yesterday re-elected by a majority conceded by the Republican managers to be 300 votes. Democratic leaders claim his election by 400 votes.

The Republicans elected the balance of their city ticket and a good majority of the council.

The contest was a three-cornered one, Republicans, Democrats and the Municipal Ownership party having candidates.

UNIVERSITY OF IDAHO DAMAGED BY FLAMES

Spokane, March 31.—The administration building, the main structure of the University of Idaho, at Moscow, Idaho, burned to the ground yesterday. Fire started in the basement of the girls' restaurant and before the city fire department arrived it was beyond control. Only a portion of the contents of the museum and chemical laboratory were saved.

The loss is estimated at $300,000. There was $100,000 insurance on the building. A meeting of the faculty is now in progress to plan measures for the future. The cause of the fire is not yet known.

CENSURE DEAD CAPTAIN.

Valencia Board Very Severe In Condemning His Conduct.

Washington, April 3.—Capt. Johnson, who commanded the ill-fated steamer Valencia, wrecked on Vancouver island, is to be severely censured by the government board who conducted the recent investigation at Seattle. This board, it is understood, is convinced that Johnson displayed lack of judgment and that there was every evidence of poor navigation, in that he made no calculation for wind or tide on the night when he ran aground. The report of the board will probably not be made public for two weeks.

OUTCOME SATISFIES FRANCE.

Officials and Press Weary of the Moroccan Controversy.

Paris, April 2.—Foreign Minister Bourgeois at an early hour this morning addressed the chamber of deputies, setting forth the government view as to the result of the conference on Moroccan reforms at Algericas.

The agreement is hailed with satisfaction by officials and by the public press, which was weary of the prolonged controversy and the disturbing possibilities of war. The view in official quarters is that France secures a fair degree of success on the principal questions relating to the police and state bank. However, it is regarded that neither France nor Germany has secured all that was wanted. France's desire to have control of the police was partially realized in her being allowed to police the important Atlantic ports, including Mogador, which Germany was suspected of coveting, and also, with her ally, Spain, to police Tangier and Casa Blanca.

On the other hand it is thought that Germany's desire to internationalize Morocco was partly realized, as the Franco-Spanish police is subordinated to an inspector who will report to the diplomatic corps. Thus both countries were in a measure successful, but each is so safeguarded that neither will be able to claim a victory. France's pacific penetration of Morocco, it is thought, is remotely postponed, as it is likewise to the cream of the vast Northwest African empire.

London, April 2—The London newspapers in their editorial articles welcome the settlement of the points in controversy between France and Germany over Morocco as removing the anarchical conditions in Morocco that have constituted a constant menace to the peace of Europe. They consider that although France may be disappointed in her aspirations for the "pacific penetration" of Morocco, she has secured all her immediate and solid interests in Morocco, besides establishing on a firmer basis than ever her prestige in Europe.

CHICAGO DECLARES FOR MUNICIPAL OWNERSHIP

Chicago, April, 4.—Under the result of the city election held yesterday, in which the question of municipal ownership of the street railways was the vital issue, the city of Chicago can proceed to acquire and control the railways, but cannot operate them.

At the same time the voters, while declaring that the city shall not proceed to operate the railroads, declared that as a question of policy it would be desirable for the city to do so.

Three propositions were submitted to the voters, the first of which was: "Shall the city of Chicago proceed to operate street railways?" This proposition required 60 per cent of the total vote cast in order to become effective. The total vote was 231,171. Of this number 120,911 were cast in favor of municipal operation of the street railways and 110,260 against it. In order to become binding the proposition to operate the railways should have received 138,706 votes. It therefore fell short of the required number by 17,792 votes.

The second proposition involved the approval of an ordinance previously passed by the city council, providing for the issue of street railway certificates in amount not to exceed $75,000,000 for the purchase, ownership and maintenance of the street railways. This was carried by a vote of 110,008 against 106,669.

Principle Is Approved.

The third question, which was simply on the question of public policy and has no legal effect whatever, is, "Shall the city council proceed without delay to secure the municipal ownership and operation of the street railways under the Mueller law, instead of granting franchises to private companies?"

This proposition was carried by a vote of 111,620 to 108,025.

Mayor Dunne construed the passage of the $75,000,000 certificates and public policy propositions as a victory for municipal ownership, but expressed his disappointment over the defeat of the proposition for municipal operation.

Of the thirty-five aldermen elected yesterday Mayor Dunne claims that nineteen are avowed champions of municipal ownership and that he will have much less difficulty in passing measures relating to that doctrine through the city council than has been his fortune heretofore. The faction opposed to municipal ownership declares that they still hold control of the council and that Mayor Dunne will have no greater success in the future than he has in the past.

Port Blakely Mill Buys Timber.

Everett, April 4.—The Port Blakeley Mill Company has closed a deal with the Wausau- Everett Investment Company, of this city, for 200,000,000 feet of standing timber in Snohomish county, which will be cut for their mill. It is the largest transaction of the kind on record in the county, as it comprises a sale of 4,500 acres of land.

Tax Certificates Taxable.

Olympia, April 4.—Attorney General John D. Atkinson, in an opinion rendered to the state tax commission, holds that delinquency tax certificates are property and as such should be taxed. He points out the difference between this class of investments for taxing purposes from state and county bonds and warrants, which latter he some time ago held were not taxable.

REVISION OF TARIFF

SPEAKER CANNON SAYS IT IS BOUND TO COME.

Nothing Will Be Done by this Congress and He Would Pospone the Inevitable as Long as Possible---A Letter and an Explanation.

East Liverpool, O., April 7.—Joseph G. Cannon, speaker of the house of representatives, has addressed a letter to Edward Edwards, president of the United States Potters' Associatiion, in which he says a revision of the tariff is sure to come.

"I am satisfied there will be no tariff revision this congress, but it goes without saying that the desire for a change which exists in the common mind will drive the Republican party, if continued in power, to a traiff revi sion. I do not want it, but it will come in the not distant future," says the letter.

Explanation of Letter.

Washington, April 7.— Speaker Cannon has made an explanation of a letter recently written by him to a friend in East Liverpool, Ohio, regarding the tariff. The letter was published and seemed to indicate that the tariff revision would probably come in the future. The statement of the speaker follows:

"I was not aware that I was writing a letter for publication, although I have no objection to its publication. There are many people in the country who believe that a single schedule, or a few schedules, of the tariff may be amended. This is entirely impracticable, or while an amendment to a single schedule imght please a single interest, it would not command enough votes to enact it.

"In my opinion nothing can be done except by a complete revision off the tariff which would be a compromise that would command a majority vote of the 386 members of the house of representatves and ninety senators. The enactment of such a revison and the time necessary to adjust it to conditions would halt production, consumption and commerce or at least twelve months, and when the compromise is enacted as a whole, it will probably not be an improvement on the present law.

"I don't believe a majority off the people at this time desire to interfere with the present conditions, which are the most prosperous conditions we have had in the republic to the labor, er, to the farmer, to the capitalist-producer and to the consumer.

"That the time will come when a general revision will be entered upon I have no doubt, but for the general interest of the whole country, the revision should be postponed as long as possible.

"Congress reflects the will of the people, and the house of representatives is chosen ewery two years. There will be a congressional election next November. Our friends, the enemy, insist on an immediate revision of the tariff. If a majority of the people demand immediate revision they will elect a majority of the mebmers of this house in favor of immediate revision."

M'CURDYS ARE SUED.

Over a Million Demanded by Mutual Life From Father and Son.

New York, April 10.—Charges of conspiracy in the appointment of Robert H. McCurdy as superintendent of the foreign division of the Mutual Life Insurance Company are made in a new action brought by that company against Richard A. McCurdy, former president of the company, and his son Robert. The complaint alleges that the two McCurdy's conspired to enrich Robert H. McCurdy by maintaining his compensation on a commission basis at an enormous profit.

In the suit the Mutual seeks to recover from the defendants $1,002,841. It is alleged in the complaint that Robert H. McCurdy's profits derived from his interests in the firm of C. H. Raymond & Co., Metropolitan agents for the Mutual, amounted to $530,000 in ten years prior to 1893. After he was made superintendent of the foreign department of the Mutual Life in 1886 it is asserted he continued his connection with Raymond & Co., but that it was his duty to devote his entire time and energy to his new office.

It is charged that Richard A. McCurdy conspired with his son to place the commissions derived from Robert's business on such a basis as to prevent their reduction when the business increased and the allegation is made that the defendants knew that the commissions were exorbitant, but concealed the information from the board of trustees.

Acording to the complaint, Robert H. McCurdy received in commissions between 1886 and 1890 the sum of $1,282,841.

A just compensation for his services while superintendent of the foreign department is declared in the complaint to be $10,000 a year prior to 1889; $15,000 a year up to 1896 and $20,000 a year thereafter until he resigned.

New Russian Loan.

London, April 9.—According to the understanding in financial circles here a Russian loan of $400,000,000 will be placed immediately after Easter in New York, London and St. Petersburg, New York getting $40,000,000.

NO USE FOR THEM.

Russian Government Refuses to Seat St. Petersburg Radicals.

St. Petersburg, April 9.—The election by the Constitutional Democrats of St. Petersburg of Prof. Paul Milukoff and M. Hessen as delegates to the provincial convention has been annulled by the election commission on the ground that they are under indictment in connection with the suspension of the Svo Bodanabog, of which papers they were editors.

The commission has replaced them by Conservative candidates who received scarcely a tenth of the vote cast for MM. Milukoff and Hessen. The action of the authorities has aroused a storm in radical circles because the commission did not take exception to their candidates before the balloting. Besides, Prof. Milukoff is one of the prominent leaders of the Constitutional Democrats and was expected to be a power in parliament.

The rigorous press regulations announced Friday have been supplemented by a sweeping repressive measure, making it a prison offense to spread false reports about government officials or troops which tend to produce public excitement. The penalty is multiplied if such reports result in actual rioting.

DOWIE WILL FIGHT IN COURTS FOR RIGHTS

Chicago, April 10.—Weary and worn from his long journey, Dowie arrived here this morning, looking emaciated and apparently unable to enter into any serious fight. A great throng of people greeted him with cheers and catcalls and demanded him to show himself.

As the train drew into the station Dowie announced that he would not go to Zion today, but would take matters directly to the coruts for adjustment. He said:

"I am a peaceable and law-abiding citizen, and have been wrongfully deposed and relieved from my property. I don't care to fight in the streets of Zion for my restoration. I say my property in Zion belongs legally to me not to the chruch."

He is staying at a hotel pending developments.

DOWIES STRONG ROOM.

Said to be Nothing Like It in this Country---Four Walls of Steel.

Chicago, April 11 —A strong room has been discovered in Dowie's house at Zion. Most of the inhabitants of Zion learned of its existence at a meeting held Monday night. The announcement was made by Overseer Voliva in the following words:

"It will surprise you to learn that in Shiloh house there was the most curious room in America. The czar of Russia may have one and need one, but who would think there was one in peaceful Zion? We knew there was a room kept always locked and into which Dowie himself went seldom. We entered it today, but to do so we had to batter through two iron doors. The room was like a vault, except that the bolts and bars were mostly on the inside. Light came into the room through a bull's eye window the outside of which was protected by heavy iron shutters. Air was admitted through a funnel. There was a bed inside, a bed so curious that I cannot attempt to describe it. And this room, this cell, was built by and for a man who used to stand before you and ask you to tell him what fear was like."

The room was electric lighted and contained a telephone.

BETTER FEELING IN CHINA.

Travelers Report that Boycott is Practically Ended.

San Francisco, April 9.—The Bulletin says:

The boycott on American goods in China is practically broken. Returning tourists, business men and China men who arrived on the steamer America say it is only a matter of time when the discrimination against wares from this country will entirely disappear.

A. S. Lambert has just established a mint for the imperial Chinese government in Honan province, in the very heart of the empire. He says there is positively no discrimination against American goods in that province or any of the other small places that he visited.

Chan Ki Leung, a silk merchant from Canton, where the trouble started, said:

"In Canton there are as many as twenty Chinese firms which are handling American goods, and they are finding many buyers.

Austria Becomes Aggressive.

Rome, April 9—The newspaper Vita says that Austria is preparing soon to occupy Novibazar, in Turkey, under a clause of the treaty of Berlin. Austria is said to consider this a favorable momeont because of diminished Russian influence and Germany's irritation against Italy growing out of the Algericas conference. The plan is said to be supported by Marshal Beck, the head of the general staff.

Assessment Blanks Prepared.

Olympia, April 9.—The state tax commissioner has received from the state printer copies of the blanks the commission has prepared upon which all the electric and cable street railways and electric light and power companies of the state will be compelled to make report of their properties for assessment purposes. The blanks call for detailed answers concerning 80 items of property, the last on the list being "value of franchise."

GIVE UP THE FIGHT

PEACE PRACTICALLY ASSURED IN SOFT COAL REGION.

Western Pennsylvania Soft Coal Operators Agree to Sign Scale of 1903---Small Operators in Southwest Also Sign and Men Return to Work.

Pittsburg, Pa., April 7.—Peace is now assured in the mining situation so far as the soft coal fields of Western Pennsylvania are concerned. The organization of the independent operators who were holding out against granting the advance demanded by the miners at a meeting last night decided to give up the struggle and will sign the scale.

All those at the meeting were representatives of operators who had bound themselves not to sign the scale. A number of other members were wavering as to entering the agreement. These latter were not present, but it was assured that they, too, would sign upon learning of the action of the meeting last night.

Absolute peace and quite reign in the bituminous coal fields. The general feeling of satisafction is attributed to the arrival of delegates from the district conventions which Thursday adjourned and returned to their homes and explained the situation to the miners who hesitated to return to work. All danger of fruther trouble is thought to be over, and by Monday it is certain every mine will be in full operation.

Some Sign in Southwest.

Kansas City, April 7.—A large number of small operators in the several Southwestern coal districts have signed the scale and several thousand men have returned to work. The big operators are still holding out, but are not employing nonunion men or attempting to operate their mines.

CHALLENGE OF CANNON ACCEPTED BY WILLIAMS

Washington, April 9.—In reply to the challenge of Speaker Cannon to the Democrats to make the tariff the issue in the coming congressional elections, Representative John Sharp Williams, the minority leader, accepted the "defi" and predicted an early revision of the tariff. He made it plain that the business instability during the enactment of tariff legislation was due to the influence of the special interests and corporations which guide the committee in framing tariff laws and congress in passing them.

is remedy is to divorce the government from private business and make the tariff receipts meet the needs of the public. Mr. Williams said:

"The tariff is going to be revised. If the Republican party has sense enough and courage enough to revise it on right lines it will very materially aid them in staying in power. They may not stay even then, because it is felt that there is a check needed upon them in other directions.

"If they do not revise it on right lines some other party will. It is important in the interest of stability of tariff rates that the proper principle of tariff revision should be recognized and acted upon. That proper principle is the adapting of tariff receipts to the needs of the public, and not to the needs of the trusts and special interests. As long as there is a clash between individuals or industries, each striving for some advantage conferred by tariff laws, there can, in the nature of things, be no end of tariff agitation.

"It is only when business is divorced from goverument that government will be divorced from business and from constant interference with it. Business will never be divorced from government so long as the business interests of individuals or corporations is the rule whereby committees are guided in framing tariff laws and whereby congress is guided in enacting them.

"The tariff is going to be revised. In case there is no tariff revision at this time there will be, in my opinion, a Democratic house and there will be a Democratic tariff bill. There will not be an ideal Democratic tariff, because we must to some extent be guided by actual conditions surrounding us, which will make us swerve to some extent from the ideal, but it will be an approximation to it.

Winnipeg Street Car Strike Ends.

Winnipeg, April 9.—The Winnipeg street railway employes have reached an agreement with the company. The men asked for an advance of 2 cents an hour, but accepted 1 cent. The demand for a recognition of the union were refused, although the men will be allowed to retain union membership.

Seattle Gets Convention.

Washington, April 7.—The National Association of Railway Commissioners has decided to hold the next convention in Seattle in July or August, 1907. John S. McMillin, of the Washington state railroad commission, was elected president of the convention on the seventh ballot.

Hyde and Benson Lose.

Washington, April 9.—The court of appeals has sustained the lower court, which overruled the demurrers of Hyde and Benson to the indictments charging them with complicity in Western land frauds.

BENEFITS AND DAMAGES.

Supreme Court Holds Both May Be Considered.

Olympia, April 7.—The supreme court of the state has decided that it is proper to credit the benefits in making up the amounts to be paid for damages caused by a change of street grade.

The decision was in the Spokane county case of the Spokane Traction Company against Louis Granath and others. The city permitted the railroad company to place a bridge across the Spokane river and to raise the grade of Boone avenue, so the general public could use the bridge, as well as the street cars.

This change of grade made the surface of the thoroughfare from five to thirteen feet higher in front of Granath's property than before, and he asked for damages. The lower court decided that the property had been benefitted considerably by the new bridge and grade, and, subtracting these benefits allowed damages for about $145 to the property and in favor of Granath. The latter appealed.

McCURDY OFFICES DESPOILED.

Magnificent Private Suite Now Rented to Railroad Company.

New York, April 9.—The magnificently furnished offices occupied by Richard A. McCurdy when he was president of the Mutual Life, have been dismantled and the floor space rented to a railroad company. The furnishings, which were imported from France at an expense to the policy holders of almost $100,000, have been stored away in the Mutual Life building.

Comparatively a small number of persons ever saw McCurdy's offices until after he retired from the company. Visitors in search of the president had to pass muster before a series of gray uniformed guards before they reached the inner offices. These offices were finished in the renaissance style. The woodwork was painted pure white and highly polished. The walls were white and gold, heavily set with medallion work. In renovating the rooms for the railroad company the expensive gold work was all painted out.

The recent report of the Truesdale investigating committee said the furniture was paid for out of funds of the Paris office and that the payments were never passed on by the committee of the board of trustees.

COLONIST RATES ALL SUMMER

Hill Roads Ask Other Northern Lines to Continue.

Seattle, April 9.—The Hill roads have asked other Northern lines to continue the colonist rates, which expired Saturday, in effect throughout the summer. It is announced that there is every indication that the cheap one way second-class fare will be preserved.

The railroads expect, besides the heavy travel of tourists and new settlers, to handle thousands of laborers who will be attracted to the Northwest by the heavy railroad building. The $25 rate is necessary to induce this travel, and the new roads must have the men. St. Paul dispatches say the last trains left for the coast crowded, and this record can be duplicated if the rates remain.

Germany Not to Participate.

London, April 9.—The Daily Telegraph's St. Petersburg correspondent says: "Germany's refusal to participate in the Russian loan is construed here as revenge for Germany's isolation by the Algericas conference. German bankers were willing to assist, but at the last moment Emperor William interposed his veto. It is considered that the situation may become serious."

Indian Land Timber for Sale.

Missoula, Mont., April 9.—Indian Agent Bellew of the Falthead Indian reservation, has received instructions from Washington to sell off 8,000,000 feet of timber which was blown down during the recent blizzard. The government will allow the purchasers of the timber to erect temporary saw mills on the reservation with which to manufacture marketable products.

Smelter People to Build Road.

Tacoma, April 9.—The American Smelter Company is to build 125 miles of railroad from Valdez to its Bonanza copper mine in Alaska at once. This has been decided upon by Daniel Guggenheim, president of the company, after a consultation with W. R. Rust, of the Tacoma smelter. The ore will be made into "matte" at Valdez and shipped here to be refined.

Alger Will Not Run Again.

Detroit, April 9.—Announcement has been made from Senator Alger's office in this city that on account of ill health he will not be a candidate to succeed himself in the senate when the legislature meets on January 1 next.

Hill Confirms Report.

Winnipeg, April 7.—James J. Hill has written a letter to the president of the board of trade here, confirming the report that he will build a transcontinental line over Canadian territory. He paid $2,000,000 for his terminals here.

Date of Mining Congress.

Denver, April 9.—The board of directors of the American Mining Congress have announced that the ninth annual convention of the congress will be held November 13 to 17

LITTLE MEN AND LITTLE WOMEN

Tricks of Animals.

There are a surprising number of Quaker animals—animals whose regular method of self protection is to offer no resistance to their enemies. The possum's trick of shamming dead is an old story. The hedgehog and some of the armadillos refuse to fight, but they are protected by sharp spines or armor. Among marine animals is a starfish, often called the "brittle star," which is the despair of collectors. It seems to make it a point that none of its family shall be shown in a bottle or on a museum shelf. When taken from the water this starfish throws off its legs and also its stomachs. The story is told of one collector who thought he had succeeded in coaxing a specimen into a pail, only to see it dismember itself at the last moment. W. H. Hudson describes the death feigning habits of a small South African fox common on the pampas. If caught in a trap or overtaken, it collapses as if dead, and to all appearance is dead. Some kind of beetles, many of the woolly caterpillars which have poisonous hairs on their backs, and numerous spiders adopt the same trick. Perhaps the commonest instance of passive resistance is the land tortoise, which draws up its front piece and pulls in its head and legs and defies its foes by locking them out.

Faults on Both Sides.

Said Cocky to Polly, "You are a greedy bird!
I hardly dare believe the truth of all that I have heard;
The famous nursery regiment shot nuts into your cage,
There was but one which hit the mark, and put you in a rage.
'Twas in the merry May-time, when airs were soft and vernal,
But with delight and wicked spite you gobbled up the colonel!" (kernel).

And Polly said, "I must confess the shocking tale is true;
Yet, Cocky dear, from what I hear I'm not so bad as you;
They teased you with an apple, as me with nuts before,
And in revenge for what they did you swallowed all the corps!" (core).

Tom's Lesson.

Uncle Jack had taken Tom for a walk in the wood, and as they came through the grove Tom idly brought his stick down upon a family of ants that were busy carrying into the home some crumbs that had been left by a picnic party.

"I am sorry that the woodland newspaper will have to report a tragedy," said Uncle Jack, soberly. "They will have to say, 'While busy storing provisions in their home near Long Pond, the ant family was struck by a terrible tornado, and nearly every one perished. This was an excellent family, and was doing no harm. In the home were several little ones, who waited through the night for something to eat, but finding the house overturned and their parents missing, they strayed away into the wood, and were lost. The cause of the tornado is unknown.'"

"Why, is it like that?" asked Tom, in surprise.

"Certainly. They have been at some pains to build that little house; see how ingenious they were in fashioning it! Now it is laid waste, and they must find a new spot. Some of t. little ones are dead, too."

Tom looked down ruefully at the havoc he had made. "I know what will make them happy," he said. "I will leave this piece of nut-cake from my lunch-box, and they will eat that." He laid the cake down carefully, and was rewarded by seeing other ants swarm over it and carry bits to another place, where he thougth they meant to build a new home.

"I think they will soon forget," he said. "Don't you?"

"Probably; but if they forget I am sure you will not," said Uncle Jack. And Tom found that he never did.—Youth's Companion.

A Pavement of Skulls.

The inhabitants of Gwandu, in Africa, have settled the street-paving question entirely to their own satisfaction by using the skulls of their enemies for paving the approaches to their town.

Over twelve thousand skulls have been used on the roads leading to the various gates, and, polished and bleached as they are by the friction of countless feet and the effect of the sun and air, they are said to have the appearance of ivory.

When a new pavement is needed there is no bother and scandal about contracts. All that is necessary is to declare war on some neighboring tribe, for then the roads are repaired as a matter of course!

Apples and the Doctor.

Apples as a health-conducive food are well known, and several rhymes apropos of their properties have been written. One of these is as follows:

"An apple a day keeps the doctor away."

Another says:

"Apple in the morning, doctor's warning."

The third is still more aggressive:

"Roast apple at night, starved the doctor outright."

While a fourth says:

"Eat an apple going to bed,
Knock the doctor on the head."

Strange Pets.

A tollgate keeper at Wytham, near Oxford, England, has some strange pets which he exhibits for a few coppers. He places a piece of bread on the toe of his boot and whistles in a peculiar way. Instantly a dozen or more wild rats emerge from the bushes, eat the bread, and at another whistle go back to their holes. The man places a piece of bread on his shoulder, whistles again, and this time numerous sparrows and finches appear. The gate keeper says that the obedience of his feathered and furry pets is solely due to patience and kindness.

Tommy's Financiering.

Mamma—Tommy, what are you growling about?

Tommy—Why, that penny I lost.

Mamma—But your Uncle John gave you another one for it.

Tommy—I know! but if I hadn't lost the first one, I'd have two now.

NOT AN UNMIXED BLESSING.

Mr. Bennett was about to leave town for a week's vacation, and his wife was helping him pack his suit case. "Here, George," said she, beaming with the consciousness of a good deed done, "is a nice little linen case that I've made for your cake of soap, and here are two others, one for your collars and one for your cuffs. This long one with the ribbon bows is for your ties. They'll keep everything so nice and clean."

"Ye-es," agreed George, eying them somewhat doubtfully, "so they will."

"And this," continued thoughtful Mrs. Bennett, "is a little case for your handkerchiefs, with a violet sachet inside; and here are two others, lined with oil silk, for your wash cloth and bath sponge."

"What's this pillow-case thing?" asked interested George, holding up a large white bag.

"Why, that's to put your starched shirts in, dear. See, it's just the length of your suit case—I measured to get it just right."

"I see," said George, thoughtfully. "Any more?"

"Yes, indeed. I've been planning for this trip for weeks. This blue denim case is for your overshoes, and this striped one is for your slippers. This one with the cunning little button and buttonhole is for your whisk broom, and these others, embroidered with forget-me-nots, are for your comb and your military brushes. This larger case is for your nightshirt, here's another for your razors, and this little long one is for your toothbrush. I did intend to make a case for your soiled linen but——"

Just at this moment Mrs. Bennett was called downstairs. When she returned, half an hour later, George was sitting on the side of the bed among his personal belongings and gazing disconsolately at the bulging sides of his suit case.

"Why," exclaimed Mrs. Bennett, looking at the array on the bed, "you haven't packed a single thing!"

"Yes, I have," replied George, mopping his brow. "I succeeded in getting all those cases into that suit case, but there isn't room for any of my clothes."—Youth's Companion.

MAKES HIM THINK OF HOME.

Negro Woman Servant Causes Turkish Minister to Astonish Guests.

When the first Turkish minister, Mele Mele, came to Washington a grand ball was planned in his honor. Hundreds of invitations were sent out and nearly everybody who received one came, for there was much curiosity to see the important Turk in his native dress.

Particularly were persons anxious to examine the splendid dress turban which had been described and talked about, made, as it was, of plaster of paris, yet looking like the finest muslin. When the evening arrived Mele Mele seemed to be the only one who was not having a good time. He stood looking as if he did not know that everybody was admiring him and altogether was very much bored till suddenly he caught a glimpse of a big negro woman who was assisting in serving the supper.

Instantly he rushed up to her and throwing his arms about her neck gave her a good kiss, explaining that he could not help it, she reminded him so much of his best and most expensive wife, and while the company thought it a very odd thing to do everybody could understand that he was a homesick man and nobody minded it in the least.

The Last Resort.

"No girl yet?" asked Mr. Subbubs, arriving home from the office.

"No," replied his wife, "although one did call to-day. However, our five children scared her. She said she might stand two children, but——"

"Then there is nothing for us to do, dear, but pick out three of our five and drown them." — Philadelphia Press.

The ocean of life is filled with breakers; that is why so many of us go broke.

Fishing Time

Do you need anything in the

Fishing Tackle Line?

Our line of Split Bamboo Poles is the most complete ever shown here, comprising a line of about 75 poles to choose from, ranging in price from $1 to $8 each. If you want a pole do not fail to see our window and our prices. We also have an extra large assortment of fine silk lines from 35c to $1.50 each. Cheaper lines in sea grass and linen 5c to 25c. In reels, flies, spoons, leaders, sinkers, bait hooks, etc., we have all sizes and prices. Our experience as fishermen has qualified us to choose wisely in the assortment of tackle and we can help you make your selections.

MAIL ORDERS **C. E. NAILOR & CO.** ARE SOLICITED

PRESCRIPTION DRUGGISTS

Phone 41

Call and see the new goods in this week at Mrs. Phelps.'

Get some of those fine Canned Peaches at Seevers at 20c the can.'

Gerard Gore of Toronto is here to spend the summer with his uncles, T. T. and J. Lloyd Aldwell.

Mrs. Oscar Morse entertained the members of the Book Club and their husbands Monday evening.

Clallam Lodge No. 72, I. O. O. F., will celebrate the 87th Anniversary of the order with a Ball at the opera house, Thursday, April 26th. Admission 50c per couple. Tyrrell's orchestra will furnish the music.

L. F. Flemming, better known as "Slim," and formerly employed in the various shingle mills in this vicinity, met with an accident that may cause the loss of his right arm, which was caught in an edging saw, near Dayton recently.

Newest fashions in New Idea Patterns just in. Mrs. Phelps.

This is the time of year you want a nice Sweet Ham, We have them. E. E. Seevers.

Mrs. S. J. Lutz is visiting in Seattle this week, having accompanied Donald Lutz home.

C. E. Fulmer keeps cameras and all kinds of amateur photo supplies at his studio. Call and see them.

For a limited time Fulmer's Studio will give, with each dozen Stamp Pictures, a ticket good for one cabinet picture of any child under ten years of age.

All the small tools of the Elmira Logging Co., axes, wedges, mauls, peavies, shovels, etc., many of them never used, for sale cheap at Baker's.

R. C. Button made a trip to Portland this week, securing the agency for the Olympic Peninsula and Islands for the Phillips Hydraulic Ram.

Rules and Regulations

A Few that Are Observed at Our Store:

Courtesy to all customers.
Square dealing and truthfulness.
Take back goods that are not desirable.
Never take advantage of others' mistakes.
Answer all questions.
Be Cheerful—
But Sell the Goods.

E. W. Merrill & Co.

Phone 5

New Hats in to-day. Mrs. Phelps

"Reliance" Canned Corn, 15c of Seevers.

Graniteware cheaper than any place on earth, at Baker's.

Mr. and Mrs. A. L. Johnson returned yesterday from a Seattle trip.

Among the rest of our fine line of Good Things, don't overlook "Lipton's" Tea. E. E. Seevers.

Dr. Chas. Trumbull of Townsend was a guest of his relatives here Monday; Allan Trumbull returned with him.

The Altar Guild will give an Easter social next Thursday afternoon with Miss Jensen. Sale of aprons also held.

Gray & Henderson are moving their grocery and feed store to the Bell building, opposite City Hotel, where they will have larger quarters.

Goldwater Bros. will hold an Ice Cream Opening Sunday, when they will also start their soda fountain and serve all the latest drinks. Their ice cream sodas are just right.

Mr. and Mrs. Ovington returned this week from Seattle to get their camp at Crescent ready for the summer. Mr. Ovington came down in a gasoline launch bought for use on the lake.

Mail Orders Solicited. Port Angeles, Wash.

Celebrated 40th Anniversary.

In response to general orders from headquarters, Pacific Post, G.A.R., on the evening of Friday, April 6th, celebrated the 40th anniversary of the organization of the order. The meeting was called to order by the Post Commander, Orin Mason, who explained the object of the meeting. H. W. Doty, adjutant, read the order and gave a graphic account of the work and object. Some of the old veterans related incidents of their army life which were very interesting and turned the thoughts of many back to the dark days of the rebellion. Mrs. Mamie Smith, senior vice president of the Corps, presented a beautiful ten foot flag to the Post which was thankfully received. A dainty lunch was served by the Post to the company, consisting of the Post and Corps and a few invited guests.

Barnes' Hotel Leased.

Mrs. Rose Saylor has leased Barnes' hotel at Lake Crescent, and commenced moving yesterday. The Barnes' place is the best located of any and has the best buildings. Mrs. Saylor will keep four cows and have a fine garden. J. Lloyd Aldwell acted as agent for Mr. Barnes.

C. F. Glass, secretary of the stone company, arrived Monday to take up the office work and relieve Manager Barnett, in order that he may give his entire time to the work of operation. Mr. Glass is a recent graduate of Columbia College, and a Denver man, where his father, one of the principal stockholders, lives.

Messrs. Warnock returned on Tuesday from their winter's visit at Los Angeles.

ICE CREAM OPENING

Sunday, Apr. 15

Rich Ice Cream Sodas and all the Latest Drinks.

Goldwater Bros.

Can He Do It?

Mr. Williams of the P. A. P. is quite confident, it is said, he can make arrangements whereby the debts incurred can be arranged for, and the line put in shape to handle the available freight, at least. He has been in Seattle two weeks, meeting the creditors, and Receiver Farmer of this city. It would seem as though, if the freight from the quarry pays the stone company sufficiently so they can keep up the track and employ an engineer, and if there is 2,000,000 feet of timber available, the creditors would prefer to put the road on its feet and let it earn its way to the lakes.

The Civic Club will hold a special meeting at the usual place at 2 p. m., Tuesday, April 17. As business of much importance is to be considered all members are requested to be present. The election of the delegates to the state convention and also of a second vice-president will be had at that time.

Amateur photographers get the very best results when they get their developing and finishing done at Fulmer's Studio, where there is no guess or machine work—just a good supply of "know how."

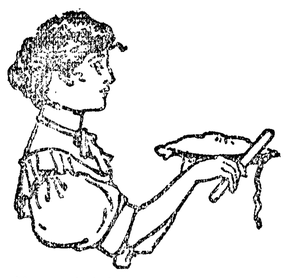
The Very Best

Fruit trees on earth are the Port Angeles Nursery trees grown at Ennis Creek. Biggest, cleanest, most productive and cheapest. Best varieties warranted to grow and to be true to name. Great variety of choice Ornamental Trees and Shrubbery. Berry plants, choice kinds.

T. H. CARTER,
Port Angeles.

The annual meeting of St. Andrews Episcopal Church will be held in the church at 7:30, next Monday. All members are requested to attend.

Amateur photographers find the kind of photo goods that professional photographers use at Fulmer's Studio and one who understands using them will give instructions.



You may think the flour you are using is about as white as flour can be. Yet if you place it beside

PATENT EXCELLENT FLOUR

it will look yellow by comparison. Ask your grocer for Patent Excellent—whitest because purest.

NOVELTY MILL CO.
SEATTLE, U. S. A.

No. 313

Minor Happenings of the Week

Ex-Gov. Swineford has announced his candidacy for delegate in congress from Alaska.

The president has appointed Judge Alfred S. Moore to succeed himself as United States Judge at Nome, Alaska.

The comptroller of the currency has issued a call for the condition of national banks at the close of business Friday, April 6, 1906.

Senator Piles has introduced a bill appropriating $200,000 for a public building at Juneau, Alaska. The building is intended for the new capitol headquarters.

Rt. Rev. Benjamin Wistar Morris, bishop of Oregon, and one of the best known members of the Episcopal clergyi n the United States, died at his home in Portland Saturday night.

The Norwegian parliament rejected by a vote of 65 to 49 the government's bill appropriating 50,000 kroner for renovating the Stiftsgaard at Trondjem for a royal residence.

The Idaho land fraud cases which were scheduled for the May term of the United States court at Moscow have been continued until the September term.

The latest official cable report received by the American National Red Cross from Japan states that the number of people who have to depend upon outside help is over 300,000. Contributions have considerably alleviated conditions.

Finger prints are hereafter to be used by the war department in identifying deserters. An order has been issuedp roviding for the taking of prints of the fingers of all men enlisting in the service, in addition to photographs and various measurements.

British shipbuilders have received from the Brazilian government orders for three first-class cruisers of 10,000 tons.

President Roosevelt will deliver his Decoration Day address this year before the Army and Navy Union at Norfolk, Va.

The United States dry dock Dewey and her convoys, bound for the Philippines, has passed Valetta, Malta, and reported all well on board.

Queen Alexandra has sent to Ellen Terry a beautiful diamond tiara, with a personal message of congratulation on the actress' forthcoming jubilee.

The New York state assembly has passed a bill requiring all legislative agents employed to influence legislation to register and report the fees they receive.

The Iowa legislature has forwarded to President Roosevelt an invitation to come to Iowa in August to attend the national convention of Philippine war veterans.

The Swedish parilament has passed all the bills submitted by the government as the result of the dissolution onf the union with Norway. They place Norwegians in Sweden on an equality with other foreigners.

The Universal Postal Congress is in session at Rome. The United States is represented by Capt. N. M. Brooks, superintendent of foreign mails in the postoffice department and Edward Rosewater, proprietor of the Omaha Bee.

A bulletin issued by the department of commerce and labor showss that the trade of the United States with Mexico in the fiscal year 1905 aggregated in value $92,000,000, as compared with $31,000,000 in 1895 and $18,000,000 in 1885.

The federal court at Chicago has refused to restrain the Chicago board of trade from enforcing an amendment to its bylaws which provides that no members of the Chicago board shall engage in deals in grain and provisions on an exchange foreign to Chicago.

Tinling Succeeds Nadeau.

Seattle, April 11.—Alexander Tinling, general agent of the Northern Pacific railway at Spokane and for a number of years in the same capacity at Tacoma, has been named as the successor to Ira A. Nadeau, who recently resigned as general agent of the Northern Pacific in Seattle to take the position of salaried executive officer of the Seattle Chamber of Commerce. The official announcement of the appointment was received from St. Paul at the local offices of the Northern Pacific yesterday. The change takes effect April 16.

Favorable Report on Burke Bill.

Washington, April 7.—The house committee on Indian affairs has authorized a favorable report on the Burke bill providing for the allotment and distribution of Indian territory tribal funds. These funds aggregate $50,000,000 and are to be distributed to individual Indians on the order of the president, who, upon the application of an Indian, shall determine his fitness to relinquish the tribal relation and become a citizen of the United States.

WASHINGTON NEWS

Molson is to have a bank.

Harrington Baptists will build a new church.

A new rural delivery route has been authorized at Park, Whatcom county.

Sunday was law enforcement day in Seattle churches, many of the ministers speaking on the subject.

Inspector Brown, of Yakima county, says Yakima valley ranchers will plant 750,000 fruit trees this season.

The Sunset Telephone Company has cut its rate between Bellingham and Lynden from 25 cents to 10 cents.

The state penitentiary is filled to its capacity. Work on the new wing is at a standstill becauses of differences with the contractors.

Vancouver has a municipal league, just formed, with a membership of fifty citizens, to look after the enforcement of law and order. The city is now a Mecca for the unemployed on account of the building of the north bank railroad.

The little town of Moscow, eight miles east of Harrington, which in times past has caused much trouble to the postoffice department by the similarity of its name to that of Moscow, Idaho, has decided on a change of name and has adopted "Bluestem."

Work has begun on the new courthouse at Waterville.

A gas franchise has been granted by the Vancouver city council.

Rainfall in Washington for March is reported by the weather bureau to have been remarkably light.

Colfax had a town house cleaning day last week. Everybody turned out to help.

The quarterly report of the county auditor shows 322 coyotes and three lynx were killed in Whitman county in that period.

The grand lodge of Washington, K. of P., will hold its annual session at Seattle May 15, 16 and 17. Competitive drills for prize and trip to New Orleans will be a particular feature.

Found guilty of acting as attorney for both plaintiff and defendant in a number of cases; of acting as an attorney while on the bench and other discrepancies, Atttorney C. V. Martin has been suspended by the court at Wenatchee from the practice of law in this state for three years.

The secretary of the Seattle Chamber of Commerce has received a letter from L. L. Pictus, who has charge of the bulb culture work of the department of agriculture, saying that the department is contemplating the establishment of a bulb farm on Puget sound. Mr. Pictus expects to visit this section soon with a view to taking the matter up.

Root to Round the Horn.

Washington, April 9.—Secretary Root has consented, upon the request of South American diplomats stationed here, to extend his projected visit to Rio de Janeiro around the Horn to the various other South American countries.

Treaty Includes Bribery.

Washington, April 9.—The supplementary treaty between this country and Japan, recently signed at Tokyo, is composed of a single article, including bribery in the list of extraditable crimes.

Woman Suffrage Bill Passed.

Providence, R. I., April 9.—The woman surffage bill, providing that women as well as men may participate in the election of presidential electors has been passed by the state senate.

Butter—Washintgon creamery, 28@30c; ranch, 18c; Eastern creamery, 26@30c.

Eggs—Washington ranch 17½c.

VESUVIUS BELCHES FIRE, SMOKE AND LAVA

Hundreds Perish In the Small Towns Near Great Volcano---Ashes In Naples Crush Buildings.

Naples, April 10.—Yesterday was a day of terror for the cities, towns and country about Mount Vesuvius. According to information received late last night, probably as many as 500 lives were lost.

It is said that more than 200 persons perished in the district of San Guiseppe, where from the ruins of a church which collapsed owing to the weight of ashes on the roof forty-nine bodies were extricated, and it is asserted that at Sorrento twenty-two persons were killed by falling houses. San Guisippe is near Ottajano.

A railway train from San Guiseppe for Naples was derailed owing to showers of stones from the crater.

Cavalry proceeding to the succor of the inhabitants of the devastated region have been unable to make progress, the rain falling on the ashes a foot deep having made it impossible for the horses to travel.

The sea is greatly agitated. The sky has cleared, but heavy clouds hang over the east, threatening a further downpour.

Troops are erecting barricades in the direction of Pompeii to prevent further danger in that quarter.

At midnight the situation had become more reassuring, the lava streams having diminished in volume and in some directions having stopped altogether, while a copious rainfall was cooling the lava where it lies stationary.

Church Destroyed During Mass.

Almost equal to the devastation wrought by the lava is the damage done by cinders and ashes, which, in incredible quantities, have been carried great distances. This has caused the practical destruction of San Guiseppe, a place of 6,000 inhabitants.

All but two hundered of the people had fled from San Guiseppe, and these 200 assembled in a church to attend mass. While the priest was performing his sacred offices, the roof fell in on about sixty persons.

At Ottajano five churches and ten houses fell under the weight of ashes and cinders, which lie four feet deep on the ground. In the fall of the buildings about twelve persons were killed and many were injured. The village is completely deserted by its people. After the evacuation of the place the barracks and prisons fell in.

Towns Devastated.

Reports from the coast and inland towns depict terrible devastation and many of them have been almost completely abandoned.

Most of the buildings in the villages are of flimsy constrcution and have flat roofs, and so are but poorly calculated to bear the weight of ashes and cinders that have fallen upon them. Inevitably it will be found that a considerable number of persons have perished in the falling of their homes. Although the eruption of the volcano is less violent than it was twenty-four hours ago, the ashes are still falling in great quantities.

Refugees Fill Roads.

Refugees from the threatened villages are coming into Naples by every description of conveyance and on foot. The roads are crowded with the processions. Special railway trains, warships and steamers are taking thousands of homeless people to Naples, Rome and Castellamar, while large numbers of people are fleeing overland in the direction of Caserta.

King Victor Emmanuel and Queen Helena have further endeared themselves to the people by their activity in behalf of the sufferers by the eruption.

The military authorities are distributing rations and have placed huts and tents at the disposition of the homeless.

In the course of at our of inspection in an automobile by an Associated Press representative a point was reached from which Vesuvius could be seen under its cloud of smoke. The high cone of the volcano has gone almost entirely, having been swallowed up, so that the height of the mountain is nearly 600 feet less than formerly. On the north side of the mountain new craters have been formed.

NAPLES MARKET FALLS UNDER WEIGHT OF ASHES

Naples, April 10.—A frightful disaster has occurred in the center of this city, following the eruption of Mount Vesuvius. Two hundred people, it is estimated, were buried this morning in the ruins of the market Monte live to when the roof collapsed under the weight of cinders from the volcano. The exact number of people within the building at the moment of the catastrophe is not known, and the list of fatalities is problematical.

Terrifying news is reaching the city this morning from points throughout the district srurounding Ottajano. Reports indicate that an enormous area is buried beneath ashes and cinders.

The present disaster is looked upon as a repetition of the catastrophe to Pompeii and Herculaneum, except that in this instance ashes rather than lava cover the devastated places, and the loss of life is less.

ILLINOIS PRIMARY LAW NOT CONSTITUTIONAL

Springfield, Ills., April 9.—The Illinois primary election law has been declared unconstitutional by the supreme court of the state.

Gov. Deneen at once issued a call for a special session of the state legislature to be held at Springfield Tuesday morning to enact a new primary law.

Chairman West, of the Republican state central committee has isseud a call for the state committee to meet next Saturday to rescind the call for the Republican state convention called for May 14.

Must be Careful of Wires.

Washington, April 11.—Action is contemplated by the war department which will make more stringent the old regulations regarding interference with military telegraph lines. On account of the carelessness of travelers on Alaska trails in felling trees in such a way as to break down telegraph wires, it is proposed to prosecute in cases of mere carelessness the same as in instances of malicious destruction of property.

Independent Steel Plant.

Lorain, O., April 9.—Upon authority it is learned that independent steel interests, backed by monied men of New York and Chicago, have planned a gigantic steel plant to be located at Oak Point, a few miles west of here, by means of which they propose to fight the United States Steel Corporation. According to advance reports, the syndicate, which has purchased 3,000 acres of land, intends to locate furnaces and tin plate mills at that point.

Water Now in Ditch.

Hover, Wash., April 11—Water was turned into the Northern Pacific Irrigation Company's ditch on the first of the month, and owners of property are busy preparing to turn it into the lateral ditches and flumes.

NO GOVERNMENT AID FOR ALASKAN ROADS

Washington, April 9.—Senator Burnham, a member of the committee on territories; senator Piles, of Washington, and Representative Hamilton, chairman of the house committee on territories, have had a conference with the president regarding the granting of government aid to railways projected in Alaska. After the conference Representative Hamilton said that it was quite certain that the government would not guarantee the bonds of any of the Alaskan railroads. Some of the promoters of railroads in Alaska, he said, were very insistent that government aid should be rendered, but the committee could not see their way clear to give the aid asked, as private capital was known to be in readiness to construct the needed roads in the territory.

HOLDING UP A STATE.

Iowa Editor Prevents Many Laws From Going Into Effect.

Des Moines, April 9.—Practically the entire work of the Iowa legislature will be rendered void by the refusal of the Des Moines Capital to publish the laws passed unless paid at double the legal rate. There is no appropriation for the purpose, and as the legislature has adjourned sine die the state is in a plight. Half the laws passed carried a clause which required that they should be published in the paper edited by Lafayette Young before they become effective. Young demanded during the session that the law be amended to permit the payment of a higher scale, as he could not afford to accept the work at the old legal rate.

The amendment failed to pass both houses, and a bill permitting publication in other papers was defeated by Young's friends.

A special session may be necessary to remedy the situation. The most important measure imperiled is the law providng for an investiagtion of the Iowa insurance compranies.

OYSTER RESERVE CREATED.

Four Thousand Acres to Be Kept by State for Seeding Ground.

Olympia, April 9.—The state oyster commission, consisting of Acting Governor Charles E. Coon, State Land Commissioner E. W. Ross and Fish Commissioner J. L. Riseland, have made an order creating "Long Island Oyster Reserve," more than 4,000 acres in extent, in Willapa bay, near South Bend.

The matter of creating this reserve has been pending before the board for several years, and was brought to a head during the week, when State Senator J. T. Welsh, of Pacific county appeared before the board and made application to withdraw thirteen applications of his clients for purchase of oyster lands in Willapa bay, the withdrawal of the applications to purchase being conditioned on the establishment by the board of an oyster reserve.

The order was made and the lands are thus forever reserved from sale or lease, and will be used as seeding grounds, from which oysters for purposes of culture will be sold under the direction of the state fish commissioner.

It is announced by the state oyster board and by Senator Welsh that the action of the board in creating this reserve accounts for the rejection of applications made in the past to purchase oyster lands within the limits of the reserve just created.

AMERICA OBJECTS TO DATE FOR HAGUE CONFERENCE

St. Petersburg, April 9.—Ambassador Meyer, representing the United States, has informed the Russian foreign office that July is not approved of by the United States for The Hague conference, because it would conflict with the Pan-American congress and with the Red Cross convention at Geneva, Switzerland.

The text of the Russian note to the powers on the subject gives the emperor full credit for the initiative, not mentioning President Roosevelt's preliminary step in this direction. The introdcution to the document is in striking contrast to the invitation to the original conference of 1898, which pointed out how the increasingly expensive armaments were weighing down the various nations and threatening the world with a gigantic catastrophe and made a noble appeal for a general disarmament in order to substitute for the era of armed peace, the era of peace based upon the settlement of international disputes by the justice of arbitration.

Not only do s the second invitation not press the idea of disarmament, but it distinctly excludes it from consideration and only presents as a program for discussion the questions raised by the Russo-Japanese war, "without touching on questions relating to the limitation of the naval and land forces."

It is remarkable that alongside this document, "for the further development of the principles of humanity which formed the basis of the conference of 1899," the Official Messenger prints another batch of repressive laws, making it a penitentiary offense of one and a half years and the loss of all civil rights for an unarmed person to resist the police or other government employes, or to make threats designed to prevent an employe or official from fulfilling his duty.

CYCLONE OF SOCIALISM.

Morgan Predicts Disaster as Result of Railroad Legislation.

Washington, April 11.—Mr. McLaurin and Mr. Morgan addressed the senate on the railroad rate question, the former advocating the legislation and the latter opposing it.

The Mississippi senator announced his intention to support the amendment providing for a court review of the decisions of the interstate commerce commission, and also stated his adherence to the Bailey act, prohibiting the temporary suspension of the commission's orders by the inferior courts.

Mr. Morgan said he was opposed to the Hepburn-Dolliver bill because it created a national committee that would ultimately be under the control of the railroads. He said that the bill repealed a law that was sacred to the English speaking people, the right of jury trial and vested in a commission the right to determine the reasonableness of a rate.

In the end, he said, the United States will own all the railroads, a condition which he did not like to contemplate. He spoke of the dangers of the management of the railroad systems of the United States by fifty magnates, and predicted a "cyclone of socialism," with consequent wreckage of values, as the result of their unbridled control of this great power.

He believed the states could control the roads single-handed, but if aid from the national government should be necessary it could be granted by a few simple enactments without entering upon an effort to regulate rates.

"The United States cannot control the roads," he said, "because they have no proprietorship in them; the states can control them because they have proprietorship in them through their charters."

He said he would deny to any railroad the majority of whose stock was controlled by another company or held in another state than that in which the road was owned, the pripilege of doing an interstate business.

RUSSIAN ELECTIONS

OVERWHELMING VICTORY FOR THE LIBERAL PARTIES.

As Far as Ascertained Hardly a Single Reactionary Candidate was Elected --- Issue Between Reaction and Reform Precipitated.

St. Petersburg, April 9.—The electoral colleges in twenty-eight of the fifty-one provinces of European Russia yesterday elected 178 members of the national parliament, about one-third of its entire membership, and returns received up to midnight indicate that the wildest hopes of the Liberals have been reaized, the Constitutional Democrats and other progressivists practically everywhere having gained a tremendons victory over the Octoberists and other conservative parties.

As far as ascertained not a single reactionary candidate pulled through and nowhere did even the Octoberists score a triumph. The majorities obtained by the radicals clinch the character of the victory. From the Volga to the frontier of Poland and from the still ice-bound coast of Archangel to the Black sea the story is substantially the same.

One of the astonishing as well as hopeful signs for the future is the character of many of the peasants elected. Before the electoral colleges began to elect the members allotted to a province, the peasants chose one of their number as a candidate. This provision was designed to appease the peasants and also was regarded by the government as insuring a conservative nucleus, but this calculation has been sadly upset, for in almost every instance the peasants were not only progressivists of the highly educated among their class, but the majority of them at least have a school education.

Among the prominent persons elected are Prince Balataiteff, the well known zemstvoist worker of Simbirsk; Prince Shakeffsky, of Yaroslav, and Prof. Maxim Kovolevsky, of Kharkoff.

While no definite results of the municipal elections held yesterday are known, they seem also everywhere to have gone in favor of the progressivists

Yesterday's results prove beyond question that the calculations of the government have been rudely upset and that the opponsition elements will control the national parliament by a decisive majority. Premier Witte's efforts to induce the emperor to proclaim a constitution should now be greatly reinforced.

Another crisis plainly confronts the government, for the sweeping character of their victory undoubtedly will encourage the Liberals to push the government to the wall, and it would seem that the emperor must yield to the enteraties of those who counsel a final surrender by issuing a constitution to the people or dispersing the national parliament as soon as it assembles. There seems no alternative to the choice of one of these courses.

WITTE RECOMMENDS A CONSTITUTION

St. Petersburg, April 9.—A panic has been caused in government circles by the surprising strength developed by the Constitutional Democrats in the elections, which may have immediate and dramatic consequences.

The issue between reaction and reform, which has been hanging in the balance, has been unexpectedly precipitated by Premier Witte. The elections have greatly strengthened the premier's hand in his fight against the reactionists, and he now feels strong enough to challenge Gen. Trepoff and Minister of the Interior Durnovo and the entire reactionary cabal.

During the past week, it is learned from an unimpeachable source, the premier journeyed twice to Tsarkoe-Selo for interviews with the emperor. It is said that in effect he told the emperor that he regarded the situation as desperate, and that the time had come to choose between himself and Interior Minister Durnovo, and counseled his majesty not only to accept the result of the elections, but to anticipate the demand on the part of the lower house of parliament for a constitution by the issuance of a constitution before parliament convenes, and at the same time mark this change in policy by the proclamation of general amnesty at Easter.

Bills Pass Senate.

Washington, April 9.—The following bills have passed the senate: Authorizing the disposition of government peroperty in Hawaii; incorporating the Archaeological Institute of America; authorizing a cable from Key West, Florida to Guantanamo, Cuba, and thence to the isthmus of Panaama for government and commercial business, at a cost of $927,000; authorizing appeals to circuit courts of interlocutory orders in cases involving constitutional questions.

New Indictments for Packers.

Chicago, April 9.—Rumors that new indictments of packers as individuals are to be asked from the federal grand jury have followed the announcement that District Attorney Morrison and his aids have summoned a grand jury to appear May 15. A petition is to be presented by Assistannt District Attorney Childs to Judge Landis or Judge Bethea.

Pure Blood

Is certain if you take Hood's Sarsaparilla.

This great medicine cures those eruptions, pimples and boils that appear at all seasons; cures scrofula sores, salt rheum or eczema; adapts itself equally well to, and also cures, dyspepsia and all stomach troubles; cures rheumatism and catarrh; cures nervous troubles, debility and that tired feeling.

This is proved by thousands of testimonials, 40,366 by actual count in the last two years—a record unprecedented in the history of medicine.

Be sure to get Hood's Sarsaparilla.

Liquid or tablets. 100 Doses One Dollar.

Mrs. Helen L. Thompson of Lewiston, Me., reports great benefit to her little girl from Hood's Sarsaparilla, which thoroughly purified her blood after an attack of that blood-poisoning disease, scarlet fever. It gave her strength and renewed health. Thousands of others tell of similar cures, also cures of scrofula, salt rheum, eczema, etc.

The argument for a pure food law was concisely stated by Senator McCumber of North Dakota. "The government cannot prescribe a diet for every individual," he said, "but it ought to make it possible for the individual to purchase without fear the things which he knows to be conducive to his health and comfort, and to avoid those things which he knows to be detrimental."

Cucumber Pickles.

Use small cucumbers from two to three inches long; soak in cold water for two hours until thoroughly chilled, in running water if possible. Pack in crocks or jars. Cover to the brim with the following mixture: One gallon of pure cider vinegar, one and a half cups of coarse salt, two ounces of dry mustard.

In a recent article on the "Ethics of Money" appears a searching definition: "A sum of money, large or small, is an order, payable to bearer, for a proportionate amount of service." Hence arises a motto for just dealing and honest work: "A dollar's worth of service for every dollar of money." This is better than Carlyle's true but somewhat cynical aphorism that whoever has sixpence is king—to the extent of sixpence.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

WEST & TRUAX, Wholesale Druggists, Toledo, O.
WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all Druggists. Testimonials free.

Hall's Family Pills are the best.

Cabbage Relish.

Shave one good head of cabbage as fine as possible. Take one tablespoonful of grated horseradish to a quart of the cabbage, and also a pint of cider vinegar; let this come to a boil, then beat three eggs well and stir them into the vinegar until cooked, and pour over the cabbage. Set it away to get cool.

Creamed Grapes.

Boil a gill of water and a pound of sugar to a sirup. Do not stir. When a little is brittle in iced water take from the fire and set in the inner vessel of a double boiler, having boiled water in the outer vessel. Add to the sirup a tablespoonful of lemon juice. Run a stiff straw or a wire through each grape and dip each into the sirup, then lay on waxed paper to dry.

FITS Permanently Cured No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for Free $2 trial bottle and treatise. Dr. R. H. Kline, Ltd., 931 Arch St., Philadelphia, Pa.

Chocolate Ice Cream.

Mix two teaspoonfuls of any of the well-known cocoas, in a gill of cold milk, stir it into one pint of cream or custard, add vanilla flavor and sweeten. Scraped and sifted chocolate, so as to bring it to a fine powder, can be used.

"You have a child, I believe?" asked the manager of the stylish boarding house. "Yes; three years old," replied the mother, gazing through her lorgnette. "She will have to eat at another table with the nurse." "But my dog, may I bring him to the table with me?" "Oh, yes, there's no sort of objection to the dog!"—Yonkers Statesman.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Egg Biscuits.

Sift a pint and a half of flour, add a teaspoon of salt, a tablespoon of sugar, two beaten eggs, a tablespoon of lard and a half a pint of sweet milk to which has been added a teaspoon of cream tartar and half a teaspoon of soda. Work to a smooth dough, roll half an inch thick, cut out in large biscuits, rub over with sweet milk, lay on buttered tins and bake brown in a quick oven.

A GUARANTEED CURE FOR PILES. Itching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 6 to 14 days. 50c.

Wiggs—He doesn't know a good thing when he sees it. Waggs—Of course not. He's a critic.—Philadelphia Record.

Cranberry Relish.

Five pounds of cranberries, washed, and picked over, three pounds of seeded raisins and the peel of five large oranges are put through a meat chopper and cut fine. Add the juice of the oranges and three pounds of granulated sugar. Mix well and let it boil up quickly, then set to simmer for three hours.

"Don't be so sweeping in your judgments. There's that prominent man I mentioned just now, who I am sure has always pursued an upright life." "That may be, but he's never caught up with it."—Baltimore American.

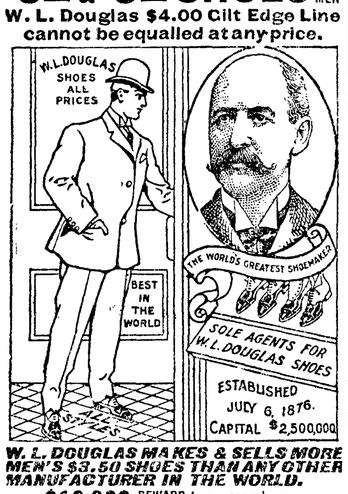
$3.50 & $3.00 SHOES FOR MEN

W. L. Douglas $4.00 Gilt Edge Line cannot be equalled at any price.



W. L. DOUGLAS MAKES & SELLS MORE MEN'S $3.50 SHOES THAN ANY OTHER MANUFACTURER IN THE WORLD.

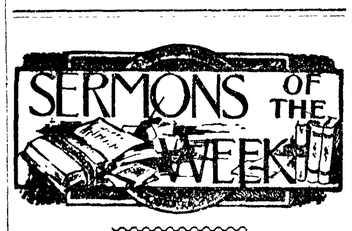
$10,000 REWARD to anyone who can disprove this statement.

If I could take you into my three large factories at Brockton, Mass., and show you the infinite care with which every pair of shoes is made, you would realize why W. L. Douglas $3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other $3.50 shoe.

W. L. Douglas Strong Made Shoes for Men, $2.50, $2.00. Boys' School & Dress Shoes, $2.50, $2, $1.75, $1.50

CAUTION.—Insist upon having W. L. Douglas shoes. Take no substitute. None genuine without his name and price stamped on bottom. *Fast Color Eyelets used; they will not wear brassy.* Write for Illustrated Catalog.

W. L. DOUGLAS, Brockton, Mass.



Children.—Children are happy because of their long hopes and short memories.—Rev. Frank Crane, Universalist, Worcester.

Popular Novels. — Books are also often gates to hell, and many of the popular novels of the day, which strike at the Bible and the church, should be burned.—Rev. A. C. Dixon, Baptist, Roxbury, Mass.

Loyalty.—Be patriotic, be loyal to your country, loyal to your race and loyal to yourselves, and you will be rewarded for your services with a pension to everlasting life.—Rev. M. C. Brooks, Methodist, Brooklyn.

Modern Sodoms.—People have commenced to ask if Sodom was any worse than San Francisco, New York, Pittsburg, Chicago or many other of the larger cities in the country.—Rev. J. M. Van Horn, Disciple, Worcester.

The Devil Behind Them.—The most effective method to get people into church, looking at the facts from the point of numbers, seems to be to drive them in with the devil behind them.—C. J. Harris, Universalist, Atlanta.

Family Prayer.—It is to be feared that in many Christian homes family worship is dying out. Many Christian families to-day say they are too busy for family prayers every day.—Rev. W. G. Partridge, Baptist, Pittsburg.

Irishmen in Politics.—I hope to see the day when the Irish will have no hand in politics. Let him hand over the curbstone business to the Scandinavian and negro and rise to higher planes.—Rev. Father Nugent, Roman Catholic, Des Moines.

The Golden Rule.—There are men today who are giving their millions to endow colleges and libraries whose wealth has been obtained in direct contradiction to the Golden Rule and the principles taught by Christ.—Rev. J. M. Buckley, Methodist, Montclair, N. J.

Two Questions.—Life holds two questions of the first importance: Is there a God, and, if so, how does He feel toward us? Is there another life, and, if so, what about the harvest there of sin that we have sown here?—Rev. N. D. Hillis, Congregationalist, Brooklyn.

Revolution.—Civilization may boast of her attainments, but revolt and revolution are the arbiters of progress. She may exult in the "evolution of government," but turmoil, bloodshed and violence cry out, "We are factors in thy prosperity."—Rev. L. H. Caswell, Methodist, Brooklyn, N. Y.

Ridicule.—Many a general who has ridden into battle with all the appearance of a hero has not been brave enough to stand up before the army and make the sign of the cross. Ridicule is a more powerful enemy than shot and powder.—Archbishop Farley, Roman Catholic, New York City.

The Lynching Evil.—Our courts can aid in educating the people against the lynching evil by expediting trials. People have lost confidence in the sacred ermine and sanctity of law, which has become partly an excuse for this relic of savagery in America.—Rev. E. W. Caswell, Methodist, New York City.

The Joy of Labor.—It is a joy to do what we are able to do. The true workman finds his greatest pleasure in the work itself. With him its work is its own reward. But just as he makes his work his own reward so does it become profitable to others.—Rev. A. S. Crapsey, Episcopalian, Rochester, N. Y.

Fighting Sin.—We must hate sin everywhere. It is not the person we detest, but the principle; not the sinner, but the sin. Don't trifle with sin; crush it at once. We don't want the devil to say anything good about us, because if we live right this is impossible.—Rev. W. L. Hunter, Presbyterian, Brooklyn.

KC BAKING POWDER

is the wonderful raising powder of the Wave Circle. Thousands of women are bringing greater health and better food into their homes by using K C Baking Powder. Costs just one-third what you always pay. If you have never used it you don't know what you've missed. Don't wait! All grocers.

Chicago

The artistic "Book of Presents" free upon request.

President Loubet's Simple Tastes.

In the household of President Loubet great simplicity prevails. This was to be expected, for M. Loubet, a peasant by birth, has always retained the characteristics of the people among whom he was brought up. His meals—even the state dinners—are of the simplest character, when we compare them with the stately formalities of the German Kaiser's dinners of ceremony, while the kitchen establishment of the French executive dwindles into insignificance beside the imposing array of functionaries required to give the Czar his daily bread. All this is in direct contrast with President Loubet's predecessor, M. Faure, whose grand entertainments and royal splendor delighted the monarchists and frightened those Frenchmen who prefer the simple life.

The Light that Failed.

"She told him she must not see him any more."

"What did he do?"

"Turned out the light!"—New York Herald.

The Russian government is planning a system of life insurance. Russia needs nothing so much as life insurance against the arbitrary and cruel reactionary satraps who have been killing people with or without provocation.

MALE HELP WANTED

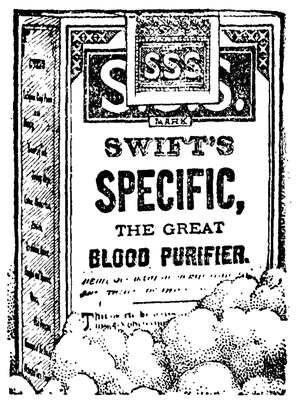
THE KING OF BLOOD PURIFIERS



No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because ***"IT CURES DISEASE."*** It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

Gentlemen:—S. S. S. is used as a family medicine in our home. I myself have taken and always found it what it is claimed to be. It thoroughly cleanses the system of impurities, increases the appetite, improves the digestion, and builds up the general health. I have given it to my children with fine results. It promptly restores the appetite and clears the skin of all eruptions. It is a very fine blood tonic and has my hearty endorsement.

124 S. 9th St., Lebanon, Pa. P. H. THOMPSON.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anaemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.

SUGGEST THIRD PREMIUM

Dungeness and Seguin People Think Rest of County is Too Easy!

The farmers and fruit growers of Seguin are all talking about the Horticultural Fair and judging from their conversations they are all going to take an active part and endeavor to make it a grand success. Seguin should have the largest exhibit in the county. J. M. Grant. a veteran orchardist, is the leading spirit here and in his selection the members have made an excellent choice.

Two families arrived here from the East the past week. One from Iowa and one from Nebraska. Well, come on, we can find room for many more.

G. A. Priest lost a fine horse by colic the first of the week but did not lose any time in purchasing another.

J. L. Keeler is building an addition to his place and will put in a pool and billyard room.

Our Village Blacksmith, A. O. Nelson, has installed an Independent telephone; call him up.

P. J. Edgington returned from Nebraska Wednesday last, accompanied by his daughter and her family, she being a widow.

It is reported on good authority that we are to have a steam laundry in the near future. Mr. Bagge is considering the proposition and may put in machinery at Washington Harbor. It would certainly be a great convenience to the hundred laboring men of the vicinity who have no washerwomen of their own. And we believe it would soon receive the patronage of the entire section including Dungeness.

The following parties have installed the Independent telephone since April 1st. Subscribers please cut out and paste in your directory.

J. W. Grant	W. W. McGeorge
H. L. Grant	Geo. Lotzgasell
Thos. Humes	R. R. Cays
N. S. Stone	Wm. Wooding
A. Wilde	Chas. Agnew
Thos. Allen	Wm. Green
A. O. Nelson	

Dungeness people welcome the news of an Horticultural Fair and will turn out in full force to boost it along. Some of us are of the opinion, however, it will be a Dungeness Fair when it comes to the award of premiums; perhaps the Society will hang up a few third prizes as consolations for the rest of the county.

The nice rain last Sunday evening looked good to the many Dungeness ranchers.

Preparations have been made for an Easter program at the M. E. church Sunday, April 15th. The morning program will be rendered by the smaller children and the evening by the choir assisted by the older children.

Prof. S. Beaulieu, the brush artist, is putting the finishing touches on the new residence of Jack Wilcox. When finished, Jack will have one of the finest cottages in Dungeness.

Let's Hope So.

"Rueben, Rueben, I've been thinking
It's enough to vex a saint
To observe so many houses
All requiring coats of paint.
Cynthia, Cynthia, don't you worry
Wait until the summer's here,
And I'll bet you'll see the owners
All get busy with Rainier Paint."

which may be obtained from Knight & Eby who carry a full line ready mixed.

School was closed this week on account of sickness.

Lloyd Duncan received a very severe scalp wound last Saturday, the result of the explosion of a pop bottle. Dr. Cook was called and dressed the wound; he is now getting on nicely.

Mayer's Honorbuilt shoes for gentlemen are the best on the market. For sale by Knight & Eby.

Miss Vera Simmons of Seattle is visiting at the home of the Knoph's.

Mrs. Capt. Horne returned from a visit upsound Wednesday.

If you want to see a well kept farm, slick cows, and well fed roosters, just visit Prof. A. N. Taylor's ranch. "What a long tail that cat has!"

John Wilder, one of the greatest hustlers in the Dungeness country, has another large boom of logs ready for shipment.

Knight & Eby carry a complete line of Mayers' custom made shoes for men, women and children. Youths' and misses' oxfords, ladies' tan oxfords and gentlemen's oxfords in both tan and patent leather.

Miss Buchanan, accompanied by her cousin Mr. Buchanan, came down from Seattle Monday to spend Easter vacation with their cousin, Prof. A. N. Taylor

There are four vacant houses in Dungeness now, but present indications point to two being occupied soon by newly married couples.

Geo. Davis is treating the down-stairs of his hotel to a new coat of paint and wall paper and remodeling his bar-room which will give him a nice office, a long needed necessity for the accommodation of traveling men and tourists.

Mrs. Fred Harned returned home last Monday from an extended trip upsound.

Jesse Evans, who was quite seriously ill for some time, is now around again.

Mrs. Mamie Rogers returned to Angeles last Sunday evening to resume her duties as a nurse after an extended visit with her mother and relatives.

You can always do better at Knight & Eby's.

B.P.O.E.—Naval lodge No. 353, meets every Thursday evening at 8 o'clock, at Haning Hall on Front st., bet. Laurel and Lincoln sts. Visitors cordially invited. RAY MCLAUGHLIN, Ex. Ruler. E. D. ELIOTT, Secretary.

CHURCH SERVICES

Special Easter services at St. Andrew's church at 11:00 and 8:00. All are invited to attend and enjoy the fine musical program.

Congregational Church. Sunday School at 12:10 p. m. Morning worship at 11:00. Rev. Geo. N. Edwards, pastor. Morning: Special Easter music. Communion and reception of members. Evening: Reading of an Easter Story, "The Love Watch."

Lutheran Church: "Communion services in the morning at 10:30. In the evening at 7:30 the children will render an Easter Sunday school program consisting of singing and speaking. There will also be special music. Parents and friends are urged not to miss this treat. All are cordially invited.

Breeding Stock for Sale.

Prune Your Trees Now!

If you haven't the time to do it yourself, or don't know just how to go at it, I should be pleased to do it for you. I know how to prune trees JUST RIGHT, and will not mutilate and disfigure your orchard, but on the contrary will make good trees out of some of your old cripples.

If you want roses trimmed I will promise to leave them as if a Kansas cyclone had gone through them, but you need not settle with me for that kind of work, either with a rolling-pin or otherwise, until the daffodils bloom in the springtime and the roses will have recovered from the terrible shock and show evidence in my favor.

Spraying will be in order next month sometime. I shall be prepared with a good big outfit to do the work properly, and if you have any poor, worthless fruit trees that you want grafted to better fruit, I can do it for you. I am now cutting my scions (or slips) from some of the best bearing trees I can find in city and country, and shall get some new varieties from Pullman and other places to try.

Can furnish fine strawberry plants from $3.50 to $5.00 per 1,000. Clark's Seedling, Hood River, Sharpless, Marshall, and others. $2.00 extra per 1,000 set and a full stand guaranteed first season; dead and sick plants replaced and planted free of charge.

Leave word at the Port Angeles Grocery or at Seevers' store and I'll call and see what you want.

NOTICE AND SUMMONS
BY PUBLICATION.

In the Superior Court of the State of Washington, for Clallam County.

D. A. Christopher plaintiff, vs. Lewis M. Stone and Jane Doe Stone his wife, and all persons unknown, if any, having or claiming an interest or estate in and to the hereinafter described real property, defendants.

State of Washington to said Lewis M Stone and Jane Doe Stone his wife who are the owners, or reputed owners, of, and all persons unknown claiming or having an interest or estate in the hereinafter described real property.

You and each of you are hereby notified that the above named plaintiff, D. A. Christopher, is the holder of delinquent tax certificate No. 1663, issued by the Treasurer of Clallam County, Washington, embracing the following real property situated in Clallam County, Washington, and more particularly described as follows, to-wit:

Lot numbered Seven (7) in Block Three (3) of the Dyke Land Company's Sub-division of the South Half of Suburban Lot Number Thirty-two (32) in the City of Port Angeles, Washington.

That said certificate was issued on the 21st day of February, 1906, for the sum of $36.70 for delinquent taxes for the years 1900, 1901, 1902, 1903 and 1904, which several sums bear interest at the rate of fifteen per cent per annum from said date of payment.

You and each of you are hereby summoned to appear within 60 days after the date of the first publication of this notice and summons to-wit, within 60 days after the 9th day of March, 1906, and defend the above entitled action or pay the amount of taxes due, together with the costs, penalties and interest; and in case of your failure so to do judgment will be rendered foreclosing said tax lien for such taxes, penalties, costs and interest against said land and premises hereinbefore mentioned.

D. A. Christopher, Plaintiff.

Wm. Ritchie, Attorney for Plaintiff.
Post office address, Port Angeles, Clallam County, Washington.

NOTICE AND SUMMONS
BY PUBLICATION

In the Superior court of the State of Washington, for Clallam county.

Frank Dustman, plaintiff, vs. J. L. Barrie and Jane Doe Barrie, his wife, whose true first name is unknown, and all persons unknown, if any, claiming or having an interest or estate in and to the hereinafter described real property defendants.

State of Washington to J. L. Barrie and Jane Doe Barrie, his wife, whose true first name is unknown, who are the owners, or reputed owners, of, and all persons unknown, claiming or having an interest or estate in the hereinafter described real property.

You and each of you are hereby notified that the above named plaintiff, Frank Dustman, is the holder of a delinquent tax certificate No. 1650 issued by the treasurer of Clallam county, Washington, embracing the following real property situated in Clallam county, Washington, and more particularly described as follows, to-wit:

Lot ten (10) in block five (5) of Puget Sound Co-operative Colony's Subdivision of the Townsite of Port Angeles.

That said certificate was issued on the 10th day of February, A. D. 1906, for the sum of $21.95 for the delinquent taxes for the years 1901, 1902, 1903, and 1904, which sum bears interest at the rate of fifteen per cent, per annum from said date of payment.

You and each of you are hereby summoned to appear within sixty days after the date of the first publication of this notice and summons, to-wit, within sixty days after the 2nd day of March, 1906, and defend the above entitled action or pay the amount of the taxes due, together with the costs, penalties and interest; and in case of your failure so to do judgment will be rendered foreclosing said tax lien for such taxes, penalties, costs and interest against said lands and premises hereinbefore mentioned.

FRANK DUSTMAN, Plaintiff.

Jas. G. McClinton, Att'y for Plaintiff.

Notice of Receiver's Sale.

Notice is hereby given that, in pursuance of an order of the Superior Court for Clallam county, made and entered on the 6th day of April, 1906, in the cause of Puget Sound National Bank of Seattle, plaintiff, against Elmira Logging Company, a corporation, (insolvent) defendant, I will sell at private sale to the highest and best bidder or bidders, for cash, at the front door of the court house in the city of Port Angeles, Washington, on Saturday, the 14th day of April, 1906, at 10 o'clock a. m. of said day (subject to the confirmation of said Superior Court) all the right, title, interest and estate which said Elmira Logging Company had at the time I was appointed receiver thereof on, to-wit, the 5th day of December, 1903, and which has come into my hands and is still in my possession, as such receiver, since said date, and which may come into my possession as such receiver before said day of sale, to wit:

The SW¼ of SE¼ of Section 12 and NE¼ of NW¼ of Section 13, all in Township No. 30 north of range No. 8 west.

Also the equitable interest of said defendant corporation in land contracts on divers and sundry lots and parcels of land in Clallam county too numerous to mention herein.

For further particulars and for examination of abstracts of title to said lands, call at my office in Port Angeles, Washington on or before Thursday, the 12th day of April, 1906.

Sealed bids for all of the property of said corporation as a whole or for any one or more specific articles or lots or parcels thereof, may be delivered to me, or left for me, at the Citizen's National Bank, at Port Angeles, on or before April 13, 1906, at five o'clock p. m., and all bids must be accompanied with certified checks for ten per cent. of the sum or sums bid, balance of bid to be paid in cash by successful bidders on confirmation of sale and tender of receiver's deed or bill of sale or assignment.

Names of successful bidders and the amounts bid by them will be announced at the Court House door aforesaid on said 14th day of April, 1906, at 10 o'clock a. m.

C. J. FARMER, Receiver,
Elmira Logging Company.
Date of first publication April 6, 1906.
