Do not fail to embrace this chance of buying seasonable goods at a great saving. We are determined to reduce our summer merchandise to a minimum.

We are sole agents for the American Lady Corsets and Sorosis Black Underskirts

LEWIS LEVY

FERRY PLAN IS APPROVED

Twenty-five Miles of Track to be Laid This Year on Direct Route East.

President Hill, after making a visit to Seattle for the purpose this week, failed to secure suitable ground for the location of wheat elevators, and subsequently closed a deal with J. T. McChesney, of the Everett Improvement Co., for the construction at Everett of a 700,000 bushel warehouse, to be 800 feet in length, 60 feet wide and to have 700 ft. slips on either side, dredged to a depth of 35 feet. A big dock is to be built in connection with the warehouse, which is taken to indicate, says the Seattle Times, a plan to center the business of trans-shipment from rail to water lines at that point.

"Hill plans show that the Northern Pacific is in control of the Port Angeles & Olympia Road and that it will be built under the direction of Northern Pacific officials. Several corps of surveyors are now in the field and President Elliott of the Northern Pacific expects to have twenty-five miles of new track laid this year. The road to Port Angeles will probably be built through and train schedules announced by next year.

"The ferry service that is planned from Port Ludlow will be operated to Everett. The ferry is planned to handle loaded cars from the Port Angeles and Port Townsend lines, transfering them to the Hill system on this side of the sound and doing away with the necessity for hauling the trains to Olympia for a junction with the Northern Pacific. It may be that when the north bank line and the track changes planned north of the Columbia are completed the transcontinental lumber business will be handled via the Columbia River route, but that involves so much extra haulage that railroad men expect trains to be made up and sent east over the mountains."

COUNTY SALE A HUMMER

Best Prices Yet Are Realized at Tuesday's Sale.

The sale of county lands, held Tuesday, realized $5,223.15 and placed some two hundred parcels of land back on the tax rolls. The sale was confined to acreage, and lots in more or less visionary additions in the tall timber. The bidding was spirited, everything offered bringing good prices. Treasurer Burnside acknowledged misgivings as to the success of the sale, prior to Tuesday, but now says if twice the amount had been offered it would have been eagerly taken.

The highest price paid was $965 for a quarter in township 30, range 8, by Hitchings & Wells, of Hoquiam. These gentlemen have recently sold their ship building plant and were looking for another opening. Mr. Wells says there is three million feet of down cedar on the tract. Other foreign bidders were Mr. Nelson, of Mt. Vernon, who invested $433, and J. H. McGear, Ballard, who invested $226. The P. S. Mills & Timber Co. bought in additions to Port Crescent and lands tributary to their holdings, paying in all $1244.50

Recognition of Worth

The cutter Grant, on its way to Neah Bay with the board of army engineers, who are to locate the life-saving station at that point, called in Thursday morning for E. A. FitzHenry, to assist them in the work.

Men's and Boys' White Hats, 75c each. Times Clo. Mart.

Democratic Convention

The Democratic State Convention will be held in Seattle on September 24th. Delegates are to be apportioned on the basis of the vote given George Turner, allowing one for every 125 votes or major portion thereof, with at least two at large for each county.

NEW MERCHANTS

Plans for $25,000 Hotel Submitted to Contractor.

Architect N. C. Gauntt, of North Yakima, having completed the plans and specifications for a new Merchants' Hotel, ordered some weeks since by C. W. Thompson, returned to Angeles Wednesday, and pursuant to instructions, submitted the papers to W. T. Stewart, contractor. The building, as proposed, would cost $25,000. It would be of stone, three stories, and have forty rooms, sixteen of which would be provided with private baths. The intention is to move the present hotel to the rear of the lots and continue its use until the new building is ready for occupancy; a portion of the frame building would be used as kitchen and laundry. It appears to be more than likely "Wint" will order its construction this fall.

SECURES FINE PROPERTY

McChesney Takes Up Another Bunch of Business Lots.

Several additional options secured by T. T. Aldwell for Mr. McChesney were taken up this week; others are to follow later. Those placed on record, besides the Lauridsen and Russell properties mentioned in our last issue, are:

Lots 9 and 10, block 1, west of Laurel, being across the street north of S. J. Lutz & Co.'s, and owned by A. G. Frye, consideration $3,600.

North 56 ft. of lot 9, block 2, east of Laurel, $1,200. This was the Mosher property, at the rear of Johnson & Bork's.

Lots 15 to 19 inclusive in block 34, being on the north side of Second, between Valley and Cherry; price $2,000.

Lot 3, block 31, N. R. Smith's subdivision, sold by Wm. Caldwell for $750. Located on south side of First, between Lincoln and Laurel.

Lots 8 in block 9, 6 in 11, 1 in 49 and 2 block 10 were sold by the Olympic Land & Mining Co., normal consideration.

The City Council

At the council meeting Tuesday evening, upon suggestion by the mayor that the water committee refer back to the council the report of the engineers in order that it might be taken up by committee of the whole, considerable discussion of a rather one-sided nature was indulged in. The water committee asked for more time in which to investigate the route of proposed system and the estimates submitted, which was granted.

Electrician was instructed to notify those who had purchased new globes, rated at 100 watts and above, that such lights could not be used until approved by council. The light committee was directed, by motion, to ascertain at what rate the new style lights should be charged for.

Application by L. Levy for a ten-foot sidewalk along extension was read; no action was taken.

Amateur photographers, get the very best results which they get their developing and finishing done at Fulmer's Studio, where there is no guess or machine work—just a good supply of "know how."

Tents, all sizes, at Baker's.

PECULIAR IDEAS ON REPRESENTATION

Believes Property Instead of Citizens Should Select the County Officials.

Editor Olympic-Leader,

Dear Sir:—It seems to me you are taking a very unfair position on the assessment of timber. You don't go right to the point and say so in so many words, but its plain enough to see you intend to make it hot for any candidate who don't pledge himself against the so-called "timber interests." There are two sides to every question. Even the criminal caught red-handed in the act is given a lawyer to see that he gets fair play. Why, then, not the timber owners?

You say an assessor is wanted who will value all timber on the basis of two or three recent big sales. You want commissioners who are pledged to give it to the "timber interests" in the neck. This is contrary to the principles for which our forefathers fought. Such ideas may be all right for the crowned heads, but we are Americans and believe even so despicable a creature as an owner of timber should have representation on the Board.

Today, this end of the county, which is nearly all timber, is paying taxes on a valuation of nearly one and a quarter million dollars. The central and eastern districts together pay less, and they include Port Angeles. If you add the timber of those two districts to the west end the valuation of the remainder of the property would be almost nothing compared to the total timber of the county. Why, in the name of common sense, shouldn't the timber interests be represented on the Board? The great bulk of the taxable property is rightly entitled to two of the three commissioners, as in some of the past years. The proportion should be four out of five, if the timber is to have justice. Why shouldn't the property that pays all but a trifle of the taxes name its own assessor in accordance with its previous custom? Why shouldn't the dog wag its own tail?

That the people of two or three voting precincts in the east end of the county should take it upon themselves to run the county is preposterous. It is unheard of. The railroads, the express and telegraph companies, the oil, steel, copper, coal, and all other big trusts, even the meat packers and the insurance companies, are represented in Congress by men who own stock in these corporations, or who are owned by these corporations. These men, who have demonstrated by their business ability that they know how to manage big affairs, are just the men to take charge of the affairs of the government. America is blessed with more great business men than any other country on earth, hence its unparalleled progress. Who should dictate railroad legislation if not railroad men through their attorneys, elected as representatives? What does the rancher know about cost of construction, of operation, or of net proceeds? What does he know of running great industrial enterprises, or navi s and armies, or colonies, or the postoffice system, etc? Such great institutions require men of great business experience. What do the ranchers of this state know about timber speculation, or railroads, or roads and bridges, or schools? Has their business experience been great enough, have they shown that measure of success in the affairs of life that qualifies them to manage the business of this large county? Why shouldn't our district continue to elect known railroad men as state senators?

Opera House Block

Why shouldn't those who have the greatest financial interest in the county control the conventions and dictate who shall be nominated as representatives, commissioners, etc. To do otherwise would be entirely without precedent.

There are many other points in this question, too many to be even mentioned in one brief letter, and equally good arguments on them all; if you will publish this in the interest of fair play, I will endeavor to take up the next point in another letter. Yours,

Geo. H. Reynolds.

Judge Penniman will have one of the neatest offices in the city when the work of combining the treasurer's and clerk's office rooms is completed; with new paper, paint and varnish it will be in great contrast to the stuffy little hole that has done duty so long. It is to be hoped the council will appreciate the improvement to the extent of renovating the council chamber in order that it may present a less disreputable appearance to strangers who have business with that body.

Minor Happenings of the Week

Major Dreyfus has been appointed to command the Twelfth regiment of artillery, one of the crack regiments of the French army.

The engagement of Miss Annie Ide, daughter of Governor General Ide of the Philippines, and Bourke Cochran has been announced.

The coroner's jury at Salisbury, England, which investigated the American line train wreck, has returned a verdict that the wreck was caused by excessive speed.

The navy department has cabled the commander of the Marblehead to protect American interests at Salvador, the forces of which are said to have been defeated by the Guatemalan army.

Alfred Beit, the South African financier and diamond merchant, is dead at London. He was one of the most prominent men in the development of South Africa and closely associated with Cecil Rhodes.

This government has been officially notified of food riots in China on account of the scarcity of rice as the result of floods. The Chinese are buying American products, particularly flour, as a result of the famine.

The report is republished at Berlin that Emperor William will probably send his fourth son, August William, to an American university after the young prince has finished his course at the German university.

Brigadier General Louis H. Rucker, U. S. A., retired, died at Los Angeles last week. He had been in continuous military service for more than forty years.

H. Clay Evans, former commissioner of pensions, and recently American consul general to London, has been nominated by Tennessee Republicans for governor.

Abe Hummell, New York lawyer, has been suspended from practice pending an appeal from the conviction of conspiracy in connection with the Dodge-Morse divorce.

The first bale of this year's cotton crop was sold at auction at New York last week and brought 24 cents a pound. It came from Star county, Texas and will be shipped to Liverpool.

Denver Democrats, headed by Senator Patterson, have bolted the "machine," declaring by resolution that the present central committee is "but the mouthpiece of the Denver Utility corporations."

L. M. Mioshi, general passenger agent of the Kiushin railroad in Japan, who is now in this country, says he has ordered a train of Pullman cars after deciding that the railroads of this country are better than the British.

CONTRACTS FOR REBATES

Damaging Evidence Against Standard Oil Is Being Collected.

Cleveland, O., July 16.—Certified copies of contracts which show that the Standard Oil Company has collected rebates from the railroads of the country have been demanded of all the railroads by the interstate commerce commission. Circular letters sent out by the commission at Washington last week have been received by the railroads in this city, and it is understood that most of them will be prompt in sending in the copies of the contracts. In case any of the railroads should decline to comply with the commission's request, that body will at once issue subpoenas for the contracts and will administer punishment to the railroads in case the process-servers fail to get the contracts.

The contracts wanted are for the supplies of lubricating oil that are bought by the railroads from the Galena Signal Oil Company, of Franklin, Pa., which is an offspring of the Standard Oil Company. Independent oil men have put forth every effort to get some of this oil business away from the Galena company, but none of them have ever succeeded.

Railroad Men Discuss Rate Law

Chicago, July 17.—One hundred and fifty traffic managers, attorneys and other high officials representing all the Western railroads, are in session here to consider the new rate bill and discuss means to prevent its damaging railroad interests. One committee of attorneys and one of traffic managers was appointed to canvass the situation.

Craig's Jurisdiction Extended

St. Paul, July 16.—B. Campbell, fourth vice president of the Great Northern, has issued a circular ordering the jurisdiction of A. L. Craig, recently appointed passenger traffic manager of that road, extended to the Great Northern Steamship Company, with the title of general passenger agent.

Transport Thomas Reaches Manila

Manila, July 17.—The transport Thomas, which recently grounded near the island of Guam, has arrived here.

WASHINGTON NEWS

The postoffice department has allowed ten additional clerks for the Seattle postoffice.

Ranchers about Auburn are finding great difficulty in obtaining laborers to harvest the hay crop.

White Salmon, the thriving town on the bluffs opposite Hood River, Or., is to have water works and an electric light plant.

A crew of sixty men has started clearing the right of way along the Interurban line for a double track from Auburn to Seattle.

Everett now boasts of being the largest second-class postoffice town in the state, a fact just made public by Postoffice Inspector Wayland. The gain for the past year was 6.1 per cent.

It is announced that the San Francisco Opera Company, successor to the famous Tivoli company, which held the boards at San Francisco for thirty years, is to be established as a permanent institution in Seattle.

Garfield streets have been put in condition with crushed stone this season. Three thousand cubic yards has been completed and 1,300 cubic yards remain to be done to complete the work outlined.

According to a decision by Judge Hanford in the United States court at Seattle it is not a violation of the United States immigration laws for a master of a foreign vessel to permit an alien sailor who is ill to land in this country and go to a United States marine hospital for treatment.

The convention of the Amateur Press Association of the United States will be held at Seattle in 1907.

At Vancouver W. S. Miller pleaded guilty of horse stealing, was sentenced to fourteen years in the penitentiary.

Ora Kahl, of Wenatchee, Ralph H. Engbaum, of Burlington, and L. R. Battes, of Seattle, have been appointed railway mail clerks.

Spokane is making a strong bid for the next international convention of the Baptist Young People's Union, now in session at Omaha.

Attorney General Atkinson has announced that the state will fight for the escheat of the large Sullivan estate to the school fund instead of to King county.

The Spokane County Electric Company, with capital stock of $10,000, has been organized to furnish electric light to Rockford, Fairfield, Latah and perhaps other towns in the southern part of Spokane county

The state board of control is calling for bids for the furnishing of 200 head of beef cattle to the state penitentiary at Walla Walla for the year beginning August 5 next. Bids will be opened at Olympia August 1.

ALASKA REPUBLICANS NOMINATE MURNANE

Juneau, Alaska, July 17.—Marshall Shoup, when the Republican convention convened for the nomination of a delegate in congress convened, thanked the men who had supported him and issued a statement that he was out of the running. A caucus quickly decided upon C.D. Murnane, and he was chosen.

Spokane Gets Baptist Meeting

Omaha, July 16.—Spokane, Wash., won the 16th annual convention of the Baptist Young People's Union of America. The date of the next meeting was not fixed, but it will be early in July, 1907.

SEATTLE MARKET REPORT

Purchasing Prices.

The following prices are offered to the producer by the local dealers for delivery in round lots f. o. b. Seattle, and are subject to change without notice:

Grain—Oats, $30.00@31 per ton; barley, $23@24.00; wheat, chicken feed, $22@23; bran, $18; shorts, $19; corn, $25.

Hay—Eastern Washington, $18@20 per ton; Puget sound, $10@11; alfalfa, $10@11.

Eggs—Strictly fresh ranch, 25@26c

Poultry—Live hens, 14@15½c per lb; old roosters, 9½@10c; ducks, old, 14c, young, 16c; geese, 12c; turkeys, 16c; spring chickens, $3@5 per doz.

Wool—Eastern Washington, 18@23c per lb; Western Washington, 20@22c; dirty or timber-stained, 18@20c.

Live Stock—Sheep, wethers, 6c per lb; ewes 5@5½c; hogs, 6½@7c; steers, 4½c; cows, 3½c; calves, 5@7c; lambs, $3@5 per head.

Tacoma Quotations.

Wheat—Club, 71c; bluestem, 73c; red, 68c.

Oats $31.50@33.50; rolled oats, $33@34.50.

Hay, Alfalfa, etc.—Wheat hay, $15@16.50; timothy, $22@24; mixed, $13@17; clover, $16@18; alfalfa, $12.50@13.50

Feed—Corn, $28; wheat, $26; barley, whole grain, $25.50; rolled, $26.50; bran, $18.50@19.50; shorts $19.50@20.50.

Poultry—Turkeys, dressed, 25c; chickens, dressed 21, ducks, dressed, 15c; geese, dressed 16c.; Live—Hens, 14c; spring chickens, 15@16c; ducks 11c; geese, 12c.

Butter—Washington creamery, 21@22c.

Eggs—Washington ranch, 25.

WHEAT DAMAGED

LATE SOWN CROP IS CAUGHT IN THE MILK.

Fall Grain Has Not Suffered and is Yielding Well—Loss to Spring Grain Estimated in Some Cases at More than 50 Per Cent. Harvesting Begins.

Portland, Or, July 16.—The hot winds of the past few days have hastened the ripening of wheat and other cereals in the Inland Empire. In the Palouse the fall and winter grain has come through the ordeal very well and the harvest is yielding an average of thirty bushels to the acre. Late sown grain has been shriveled to some extent by the intense heat. Wheat harvest in the Eureka Flat country, Walla Walla county, will begin this week. Two days of hot wind have done great damage to wheat in the milk. The loss is estimated at more than 50 per cent to the late sown wheat. In the Washtucna reigon harvesting will not begin for twenty days.

Hillside spring and fall wheat in Whitman county has felt the ill effects of the warm weather.

Umatilla county, Oregon, will turn out over 4,000,000 bushels despite the loss by the early freezing and the hot weather.

In the Willamette valley spring wheat is coming out of the milk, and the present weather is drying and shriveling the grain, maturing it prematurely and will materially reduce the size of the grains.

Winter wheat is practically out of harm's way, and so far oats and barley are doing nicely. The concensus of opinion among grain dealers and farmers is that the wheat crop in the counties embraced in the valley district will exceed that of the past two or three years about 50 per cent. There will be an enormous crop of hay, and many of the farmers who during the past few years have only had barely sufficient to supply their own needs will have as high as 125 tons to place on the market.

Sherman county is a wreck this year, so far as the wheat crop is concerned. The cold weather of March froze out the fall sown grain and the land had to be resown. It was too late in the season, and the recent hot weather has withered the young grain in the fields. In most cases the crop will not even pay for hay cutting, and so the loss is complete.

SPOKANE WILL FIGHT RAISE IN INSURANCE

Spokane, July 16.—The recent advance of 25 per cent in fire insurance rates in Spokane is to be the subject of an investigation by a joint committee from the Chamber of Commerce and the 150,000 club.

At a joinint meeting of the committee of the Spokane Grocers' Association and the board of directors of the New Fire Insurance Company organized two weeks ago by the Inland Empire Retail Dealers Association, it was decided unanimously that the two organizations should join in forming a mutual fire insurance company to be known as the Inland Mutual Fire Insurance Company.

Seventy retail grocers in Spokane are affected by the formation of the new company, and the principal dealers in all of the important towns in the Inland Empire are also entitled to take out insurance.

Before the company can write insurance it must have $200,000 pledged in insurance. E. N. Cory, secretary of the Spokane Grocers' Association, said they would be able to raise that amount easily and that by the end of one year at least $750,000 would be pledged. A surplus fund will be accumulated to help meet any crisis that may arise.

New Island in Alaskan Group

Nome, July 18.—The revenue cutter Thetis, just arrived here, reports the appearance of a new island at a point 60 miles west of Dutch Harbor. It adjoins Fire island. It is without doubt the result of a volcano. One side of the new island is still enveloped with steam. The elevation of the highest peak is 600 feet above sea level. The island is about three miles in circumference. The Thetis approached to within two miles of it and took measurements. Falling ashes covered her decks.

Delegated to Welcome Bryan

Seattle, July 17.—Former United States Senator George Turner and Col. A. J. Blethen were yesterday appointed by members of the Democratic state central committee to represent this state at the Bryan reception. At the same meeting it was definitely decided to hold the state Democratic convention in Seattle September 23.

Armory Bonds Illegal

Olympia, July 18.—The Seattle, Tacoma and Spokane armory bonds are knocked out by a supreme court decision, the act of 1903 providing for them being declared unconstitutional by unanimous decision of the court. The court held the act to be special legislation in that it applied to only three counties of the state.

Trade Agreement Announced

Ottawa, Ont., July 17.—Lord Gray, before the prorogation of parliament, announced the ratification of the trade treaty between Canada and Japan.

WILL BUILD GREAT CANAL

J. J. Hill Says He Will Connect Hudson Bay With Great Lakes.

Chicago, July 16.—Not satisfied with his gigantic railroad undertakings, which after thirty years appear to be only a little more than half completed, James J. Hill is now turning his attention to canal building and has given his word to his friends that boats will be running from the Great Lakes to Hudson bay before the first vessel passes through Panama canal. As the proposed water route is through the Winnipeg river and Lake Winnipeg, his purpose in making the Manitoba capital the eastern terminal of his new Canadian transcontinental line instead of some point on Lake Superior is explained. The building of the canal will make him practically master of the transportation business of the Northwest and will protect him against the incursions that have been made into his territory by other railroad interests within the past few years.

It is proposed to have the canal start from some place on Lake Superior, traverse the district northwest through the Rainy river and the Lake of the Woods to the Winnipeg river and past the city of Winnipeg to Lake Winnipeg. From there it would be necessary only to dredge out the canal channel into Hudson bay, thus connecting the Gerat Lakes with the bay and Atlantic ocean.

ULTIMATUM TO VENEZUELA IS STILL IN FULL EFFECT

Washington, July 16.—In view of the determination of the state department to renew its demands upon the Venezuelan government for the settlement of American claims against Venezuela, it is a matter of interest to note the precise status of those troubles—some issues when negotiations were suspended in March, 1905. For the first time the red book discloses in terms the ultimatum laid down by the late secretary of state, John Hay, in an instruction to Mr. Bowen, dated March 10 of that year:

"The attitude of the Venezuelan government of the United States and toward the interests of its citizens, who have suffered so grave and frequent wrongs arbitrarily committed by the government of Venezuela, requires that justice should now be fully done, once for all. If the government of Venezuela declines to consent to an impartial arbitration insuring the rendition of complete justice to these injured parties, the government of the United States may be regretfully compelled to take such measures as it may find necessary to effect complete redress without resort to arbitration.

"The government of the United States stands committed to the principle of impartial arbitration which can do injustice to nobody, and if its moderate request is peremptorily refused, it will be at liberty to consider, if it is compelled to resort to more vigorous measures, whether these measures shall include complete indemnification, not only of the expense incurred, but for any expense of the government of the United States which may attend their execution."

The Venezuelan government's answer, received March 23, amounted to a rejection of the ultimatum, for it denied that Venezuela had any questions pending in the United States, and propounded the following interrogation:

"Before giving further consideration to Mr. Hay's note, the Venezuelan government states that it must know whether the United States respects the methods and nobility of the Venezuelans."

Mr. Bowen added that the answer is unyielding and requires no further ultimatum.

HOLDS BONDS WERE VOTED

Supreme Court Rules on Question of Bond Election Majorities.

Olympia, July 18.—The supreme court has affirmed the decision of the King county superior court, which was in favor of the city, in the suit brought by Robert B. Fox against the city of Seattle. The action was to enjoin the issue of $1,000,000 municipal bonds, $600,000 to extend the municipal lighting system and $500,000 for park purposes.

The court held that when three-fifths of the voters who voted on the bond question cast ballots in favor of the bonds, such vote authorized the issue, though the total vote favoring the bonds was much less than three-fifths of the total number of electors voting at such election.

SAYS GREAT NORTHERN IS COMING TO TACOMA

Tacoma, July 17.—The Ledger says: "The Ledger this morning announces authentically that the Great Northern is now arranging for terminal property in Tacoma and will have extensive terminals consisting of warehouses, freight yards, etc., at this point.

"A union station, to be used jointly by the Great Northern and Northern Pacific, will be built in Tacoma and will be one of the finest stations in any city on those lines."

Melvin Heads Elks.

Denver, July 18.—Judge Henry Melvin, of Oakland, Cal., was unanimously elected grand exalted ruler of the Benevolent and Protective Order of Elks in the convention last evening. R. F. Haviland, of Montana, absolutely refused to allow his name to go before the convention.

STATE OF ANARCHY

RUSSIAN PEASANTS CAUSING A REIGN OF TERROR.

They Seize Upon the Land and Drive Landlords Into the Cities. Excesses in the Provinces Even Alarm the Radical Workmen of the Cities.

London, July 16.—Although there seems to be an improvement in the parliamentary crisis in Russia, the general situation throughout the country does not grow better. There are many indications that it is becoming worse. The many cases of mutiny, pillaging of villages and other outrages have placed the troops and the Cossacks on a helpless defensive, and finally the adoption by the lower chamber of the douma of the fundamental provision of the land law calling for the expropriation of all state, crown, church and monastery lands, are representative evils.

As Witte predicted, the principal difficulty is with the peasants in and out of the douma. Their land passion, amounting to fanaticism, threatens to throw the whole country into anarchy. Deputations of landowners arrive daily in St. Petersburg seeking armed troops for their homes. So rampant is this land mania of the moujiks that even the artisans of Moscow and St. Petersburg are dismayed, and the action of the workmen of the capital in protesting against the sweeping demands of the group of toil, as tending toward a fearful economic basis, shows how formidable is the Frankenstein they have helped to create in Russia.

At present events are working destructively with greater vigor throughout the provinces than they are working constructively at the capital. It has become a question of whether the constitutional element will be able to restrain the fanatics at large, even if adimnistrative control is vested in the douma. To such an exteant is the peasantry imbued with the belief that there can be no absolute right of landed property except that of peasant proprietorship.

Milukoff Hailed as Savior

Probably the most encouraging feature of the parliamentary imbroglio is the rapid advance of Paul Milukoff in the confidence of the lower chamber. He has the good will of all sections as an individual. His course during the past two months has impressed the conservatives in the council of the empire favorably. Constitutional Democrats feel that Petrunkevitch is most deserving of honor, but he is unable to undertake the work of the premiership owing to his delicate health. Mouromtseff is invaluable in the chair of the lower house.

It is significant that both the government and the lower chamber desire the moral support of foreigners. The resolution of the parliamentarians to send a deputation to send a deputation to the conference of the interparliamentary union in this city July 22 is the douma's reply to the act of Stolypin, minister of the interior, in sending to the diplomatic corps of the governments the report of the Bialystock affair.

NO ALTERNATIVE TO YIELDING

But Czar Balks at Ultimatum of Democratic Party.

St. Petersburg, July 16.—The beginning of a new week finds the tension of the cabinet crisis unbroken. The failure of the efforts to induce Dimtri Shipoff or some other member of the Conservative party to attempt to form a coalition cabinet on the ground that only a ministry organized from the Constitutional Democrats would have a chance of pacifying the country, seems to leave the emperor without recourse except to summon the Constitutional Democrats to office upon their own terms, and the slate-makers are busy selecting the names of those who probably will compose the cabinet headed by M. Mouromtseff, president of the lower house, or Prof. Milukoff.

Although everything indicates that a triumph for the Constitutional Democrats is at hand, the delay is raising serious misgivings as to the change of heart at St. Petersburg on account of the inflexible insistence of the Constitutional Democrats upon three points, namely: Recognition of the principle of expropriation, general amnesty for political offenders and no summer recess for the lower house.

Trust Busting in China

ictoria, July 12.—The steamer Empress of India brings advices of how Ctinese mandarins at Tahowfu, Central China, dealt with a rice trust. Following the floods the rice dealers cornered the market and raised the price considerably higher than the poor people could pay. Many were starving, but there was plenty of rice. The officials ordered that rice be sold at a reasonable rate, but the trust refused. The officials then accorded the starving people permission to raid the shops. Riots ensued, in which ther ice stores were plundered and wrecked.

Pagains Aid Christians

Tokyo, July 18.—A remarkable instance of the feeling of Buddhists and Shintoists towards Christians is furnished by the action of their leaders, who have decided to contribute voluntarily toward the cost of rebuilding the Christian church which was destroyed during the disturbances in Tokyo last September.

HESSIAN FLY APPEARS

Dreaded Wheat Pest Is Discovered in Clarke County.

Pullman, Wash., July 18—The Hessian fly, the most dreaded wheat pest, has made its appearance in Clarke county, where it has been present, although unsuspected, for two years at leastt. This is a report of Prof. A. L. Melander, of the Washington state college. The report continues:

"This insect annually causes a loss of $100,000,000 to the wheat growers of the Middle states. Its advent, therefore, within the state boundaries must be a matter of grave apprehension to the Washington farmer. If the pest be allowed to go unchecked, sooner or later, the Columbia river, with the railroads, will serve to introduce it into the extensive wheat lands of the inland country.

"It is possible that prompt measures willl avail in stamping out the insect. At the present time it is living as a small brown maggot, resembling flax seeds, in the lower joints of the stalk. If the infected fields be closely mowed and, after drying a day or two, be burned completely over, the insect could be exterminated. Or deep plowing would bury the maggots and smother the fly.

"It is necessary to undertake such treatment immediately, as otherwise the Hessian fly will emerge from the "flaxseed." It is better to utilize one's crop by plowing it under than to give it to a pest that will exact an increasing toll greater than the farmer has yet had.

"The law makes no provision for the state experiment station to take in hand the extermination of the pest. The farmers themselves are advised to co-operate and to be watchful in preventing its spread."

BATTLESHIP NEBRASKA PROVES A SPEEDY BOAT

Seattle, July 17.—The standardization trip of the Seattle constructed battleship, the Nebraska, was held yesterday, with the result that with the exception of the Georgia, tried out last week, the vessel stands at the head of the American navy in the matter of speed for ships of her class. During the thirteen trial runs over the measured mile course off Vashon island, she developed an average speed of 19.237 knots an hour, which is exceeded by the Georgia, the fastest battleship in the navy, by only .023 knots. The average made by the New Jersey, another sister vessel to the Nebraska and Georgia, is 19.20 knots, leaving the local built shoip the second fastest in the navy in point of speed.

FOR SHOSHONE OPENING

Registration Begins July 16 and Drawing Will Occur August 1 and 2.

Cheyenne, Wyo., July 14.—The registration of homesteaders in the Shoshone reservation to be opened to settlement August 15 will begin on Monday, July 16, the places of registration being Lander, Shoshone and Worland. The influx of would-be settlers commenced some time ago and the crowds at each place have increased daily. Several thousand people will undoubtedly put their names on the government books.

The reservation is in Fremont county and embraces approximately 1,500,000 acres, of which 250,000 acres are susceptible of irrigation. The land is in the heart of the big game country and is but a short distance from the Yellowstone national park. The drawings for choices of quarter sections will be held August 1 and 2. The fortunate ones among the registered will make their selections of land on and after August 15.

FISHERIES OUTPUT

Water Products of United States Last Year Near Sixty Millions.

Seattle, July 18.—According to the Pacific Fisherman, the value of the water products taken and sold by United States fishermen in 1905 was approximately $56,250,000, and this sum is exclusive of the very considerable fisheries of insular possessions and the immense quantities of fish taken for home consumption and by sportsmen. The number of persons who make a livelihood in this industry is about 232,000, and the capital invested $82,000,000.

The most valuable of all the fishery products is the oyster, in the output of which the United States surpasses all other countries combined. The crop of 1905 may be placed at 32,000,000 bushels, with a market value of $15,760,000.

Railroad Shoulders Blame

Salisbury, England, July 17.—The coroner's inquest to determine the cause of the wreck of the American special on July 1, in which many Americans were killed, resumed its work yesterday. The directors of the London Southwestern railroad assumed the full responsibility for the disaster.

Blaine and Wilbur Pay

Olympia, July 14.—State Treasurer George Mills has received $850 from the town of Wilbur and $339.56 from the town of Blaine, being respectively payments in full of the state's share of liquor license moneys collected in those towns in past years.

Compulsory Day of Rest

Paris, July 14.—The chamber of deputies has passed a bill providing for a compulsory day of rest weekly. The measure, which is designed to terminate the present system of Sunday labor, has already passed the senate and now goes to the president.

For that Dandruff

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a testimonial—"Sold for over sixty years."

Spiced Crabapples.

Prepare the apples as for preserves. Make a syrup of one pint of vinegar to three and a half pints of sugar. Pour over the fruit and let stand over night. Boil the fruit, a little at a time, in the syrup till tender. Pack the fruit in jars. Add mixed spices to the vinegar to suit the taste, boil down to enough to just cover the fruit, pour over it and seal. Crabapples can be carefully gathered and stored away till the throng of other fruits is over. In fact, the above recipes are those used with wild crabapples, which were formerly buried in the ground to ripen; but these formulas can be used successfully with the cultivated varieties.

Edward Payson Weston, who was the champion long-distance walker a generation ago, lately excelled the feat, which he performed in the year 1863, of walking from Philadelphia to New York in twenty-three hours and forty-nine minutes. He is now 68 years old; and although it took him seven minutes more to walk between the two cities on May 23d last, the route he chose was nine miles longer. Walking is good exercise, but few young men would care to travel afoot nearly a hundred miles in a day.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.
Hall's Family Pills are the best.

An Eastern newspaper says that Jack London was introduced in a cafe to a musician. "I, too, am a musician in a small way," London said. "My musical talent was once the means of saving my life." "How was that?" the musician asked. "There was a great flood in our town in my boyhood," replied London. "When the water struck our house my father got on a bed and floated with the stream until he was rescued." "And you?" said the musician. "Well," said London, "I accompanied him on the piano."—Wasp.

You Can Get Allen's Foot-Ease FREE.

Write Allen S. Olmstead, LeRoy, N. Y., for a free sample of Allen's Foot-Ease. It cures sweating, hot swollen, aching feet. It makes new or tight shoes easy. A certain cure for corns, ingrowing nails and bunions. All druggists sell it. 25c. Don't accept any substitute.

The Sick Poet. "Are you feeling very ill?" asked the physician. "Let me see your tongue, please." "It's no use, doctor," replied the patient; 'no tongue can tell how bad I feel.'"

Five Weeks in Bed With Intensely Painful Kidney Trouble.

Mrs. Mary Wagner, of 1367 Kossuth Ave., Bridgeport, Conn., says: "I was so weakened and generally run down with kidney disease that for a long time I could not do my work and was five weeks in bed. There was continual bearing down pain, terrible backaches, headaches and at times dizzy spells when everything was a blur before me. The passages of the kidney secretions were irregular and painful, and there was considerable sediment and odor. I don't know what I would have done but for Doan's Kidney Pills. I could see an improvement from the first box, and five boxes brought a final cure."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

1888—Great fire at Hull, Ontario; 2,500 rendered homeless.

1889—Great fire in Seattle, Wash.

At a complimentary dinner recently given to a distinguished physician of very advanced age Dr. Osler, who has been so absurdly misquoted and misunderstood with regard to the proper treatment of old age, unfolded his real views on that subject. So far is he from entertaining the preposterous doctrine that a man is necessarily useless after 60 that he speaks of "frosty yet kindly old age" as a reward, provided mental and bodily vigor accompany it. A reward? he asks, and promptly corrects himself. No, he says, it is rather "a legitimate interest" which many should earn, which is open to most of us if we but learn the art of growing old gracefully. The art is hard to learn unless its cultivation is begun early in life. Ibsen makes his master builder distrustful of youth, hostile to and afraid of it. That is because, after all, the master builder feels that his life has been a failure—a life of self-deception, needless compromise and treachery to the ideal. What we should all recognize, says Dr. Osler with King Lear, is that "age is unnecessary"—that it need not be a grievous burden, a period of regret and querulous fault-finding and obscurantist judgments mistaken for wise conservatism. "Life is a progressive evolution; times change, and if we do not change with them the stream leaves us on the banks with no one to lament our fate." The rising generation should be met with a smile, not with a scowl, and sympthetic interest should be taken in the new problems that perpetually arise and in the new ideas and points of view that develop with the march of events and the accumulation of facts and experience. The old men who do this are the guides, philosophers and friends of the younger and young men, and they enjoy the respect and the peace they have earned. Very different gospel this from the scrap-heap teaching of Dr. Woods Hutchinson or the chloroform proposals Dr. Osler is supposed to have half-seriously made for the benefit of all men over 60 years of age.

The use of finger marks and thumb marks on checks as a means of guarding against forgery and preventing dishonest persons from raising the figures on them is one of the latest novelties in business. There is a possibility that it will become more than a novelty. Apparently the first man to adapt the idea to business affairs is a merchant of Plainfield, N. J. After writing a check he places an ink impression of his thumb over the figures, completely covering but not obliterating them. It is manifestly impossible to raise the figures without making the interference obvious on the thumb mark. His banker has an ink impression of his thumb on file and comparison with the mark on the check would instantly reveal any forgery.

SKIN DISEASES

ACNE, TETTER, ECZEMA, PSORIASIS, SALT RHEUM.

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

THE ITCHING WAS ALMOST UNBEARABLE.

Dear Sirs—My body broke out with a rash or eruption which in spite of all efforts to cure continued to get worse. The itching, especially at night, was simply terrible, it would almost disappear at times, only to return worse than ever. I had tried many highly recommended preparations without benefit, and hearing of S. S. S. determined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely, removing every blemish and pimple from my body. I shall not fail to recommend S. S. S. whenever an opportunity occurs to do so.

Escondido, Cal L. MARNO.

ECZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In ***TETTER*** the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. ***ACNE*** makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while ***PSORIASIS,*** a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is ***SALT RHEUM.*** It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

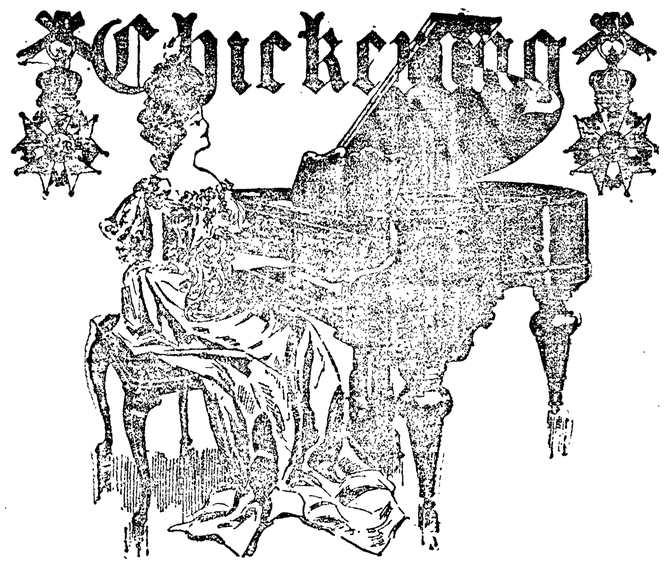
SSS

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

FIRST PRIZE
$900 Metrostyle Pianola Piano

$25,000 Grand Prize Distribution Absolutely Free

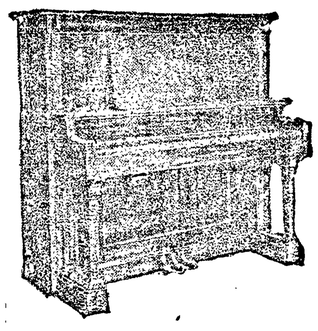


SECOND PRIZE
$850 Chickering "Baby" Grand

D. S. Johnston Co. offer costly prizes in a remarkable word contest. Prizes to be given those who send the largest list of correct words made from letters used in spelling the two words:

"JOHNSTON PIANOS"

1st prize—$900 Metrostyle Pianola Piano.
2nd prize—$850 Chickering "Baby" Grand Piano.
3rd prize—$550 Superb (Art Style) Hobart M. Cable Piano.
4th prize—$350 Fancy Mahogany D. S. Johnston Special Piano.
5th prize—$250 Latest Metrostyle Pianola.
6th prize—$125 Beautiful Latest Style Burdett Parlor Organ.
80 Prize Credit Certificates for $100 each to apply towards payment of regular established retail purchase price of any new high-grade Piano in our warerooms.



THIRD PRIZE
$550 Superb (Art Style)
Hobart M. Cable

Each of the contestants sending the next 20 largest lists of words will be given prize credit certificates for $5 less than the preceding prize, or $95, and following this in groups of 20, each of the contestants sending in the next 20 largest lists of words, will be given credit certificates for $5 less than the preceding prizes, until the entire $25,000 shall have been distributed.

The fairness of this offer appeals at once to the public, from the fact that instruments at the D. S. Johnston Company are sold exclusively upon the uniform or "one-price" plan, all instruments being marked in plain figures. Therefore all winners of Credit Certificates are assured of a bona fide reduction to the amount of the Credit Certificate on any new, high-grade piano which they may select.

Employes of D. S. Johnston Co. or any member of their families are not eligible for this contest. To all others it is entirely open.

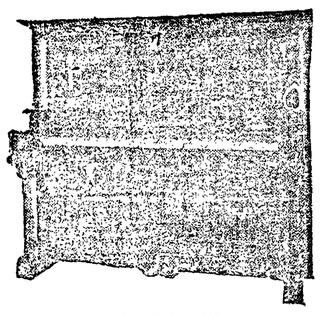
WHY WE DO THIS

This is the biggest contest ever inaugurated in the United States. There is no other house that could afford to attempt a contest of this magnitude; in fact, there are probably not more than three concerns in this country whose business is extensive enough to warrant so gigantic a contest for the purpose of publicity.

The State of Washington is witnessing a most phenomenal growth. Hundreds of families are coming here daily to make new homes. We want every one of these good people to know the D. S. Johnston Co., its methods, its pianos and its money-saving facilities to the buyer, just as people who have lived here for many years know them.

During the fiscal year just closed, the total sales of the D. S. Johnston Co. exceed the half-million dollar mark, an increase of 50 per cent over the preceding year. During 1906-07 we want to reach a grand total of $1,000,000 in sales, and to this end we have set aside beforehand 2½ per cent (2½ cents of every dollar) of this anticipated business, for the purpose of bringing to the attention of every home, old and new, through the State of Washington, the name of the "D. S. Johnston Co."

In other words, when you think "Pianos," "Good Pianos and Reliability," think "D. S. Johnston Co.," and, again, when you think "D. S. Johnston Co.," make it synonymous with "Good Pianos and Reliability."



FOURTH PRIZE
$350 Fancy Mahogany D. S. Johnston Special

FIFTH PRIZE
$250 Latest Metrostyle Pianola

NO CATCH ABOUT IT

There are positively no strings to any of the prizes in this publicity contest. The instruments are now on display and will go to the winners without any expense whatsoever.

Incidentally, we wish to complete our statistics of musical instrument owners in the State of Washington, hence ask each contestant to state whether possessing a piano or organ, and if, so, what name.

Remember, any man, woman or child in the State of Washington is entitled to submit a list of words. Nobody is barred. It will be well to study carefully the subjoined.

CONDITIONS

Only such words of the English language are to be used as are found in Webster's International Dictionary. No names of persons or places or plurals are to be used. Do not use a letter more times than it appears in the two words "JOHNSTON PIANOS." Words spelled the same, but having different meanings, can be used but once.

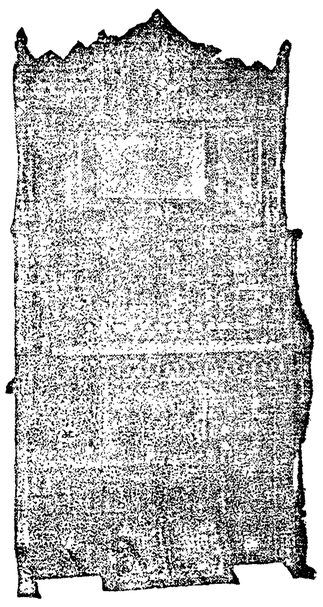
Make out your list of words in alphabetical order, giving the number it contains, sign your full name and address and send it to D. S. Johnston Co., 903 Second Avenue, marked "PUBLICITY DEPARTMENT;" also state whether you have a piano or organ, and what make.

Each and every list will be filed and examined carefully by competent judges immediately at the close of the contest, and winners will be announced through the papers a few days thereafter.

Those who receive the Credit Certificates can apply same on any new piano at the regular established retail price, but cannot apply them on any purchase made prior to August 20, 1906.

Easy payments will be granted to those wishing to be accommodated by applying their Credit Certificates and paying the balance in small monthly payments.

If you secure a Credit Certificate and already have an instrument, you can transfer the same to another party who may wish to buy a piano, by having the transfer made in our office, properly endorsed by our manager. Not more than one Credit Certificate will be accepted on the same piano. All answers must be in our office not later than 6 o'clock, August 18, 1906. In the event of a tie occurring between successful contestants, prizes identical in character and value will be awarded to each. Send in your list at once to "PUBLICITY DEPARTMENT."



SIXTH PRIZE
$125 Beautiful, Latest Style
Burdett Parlor Organ

D. S. JOHNSTON CO.

The Biggest, Busiest and Best Piano and Organ Dealers.

903 Second Avenue

Preserve the above advertisement for reference in your work, as it will not appear again. D. S. JOHNSTON & CO.

Receiver's Notice

Notice is hereby given that, in pursuance of an order of the Superior Court of Washington, for Clallam County, heretofore made and entered in the cause of William Martell vs. Smith-Mastick Construction Company, No. 2,002, I will, on the 4th day of August, 1906, sell at private sale, subject to confirmation of said Court, all the personal property of every kind and description, including bills, accounts and equities belonging to the Smith-Mastick Construction Company, an insolvent corporation, of which I am the duly appointed receiver.

Said property is located in Port Angeles, Washington, and consists of 1 Baldwin locomotive and tender, 4 flat cars, 3 ballast cars, 23 logging trucks, 24½ lengths of 56 lb. rails, 42 lengths of 35 lb. rails, 85 lengths of 56 lb. rails, sundry miscellaneous supplies and building equipment, tools and appliances used in building and operating a railroad; also blacksmith's coal, pipe, spikes, bolts, etc., too numerous to mention; also numerous pieces of bar, round and boiler iron of various sizes, and steel of similar sizes, also railroad builders' and blacksmith's tools and appliances too numerous to mention; also rock drills, picks, etc., and divers miscellaneous articles, including office and boarding house furniture, etc. A more complete description of the character and condition of said property may be had by calling upon the undersigned receiver at Port Angeles, or by inspection of the inventory in this cause in the office of the Clerk of the Superior Court.

TERMS OF SALE.

A certified check for ten per cent of amount bid must accompany each sealed bid, the balance of successful bids to be paid on demand after confirmation of sale. Checks of unsuccessful bidders will be returned. Bids must be in writing, sealed and delivered, or sent by mail to the undersigned, or left at Citizen's National Bank, in city of Port Angeles, Wash., on or before the 3rd day of August, 1906, at 3 o'clock p. m., of said day, and may be for the whole of said personal property in a lump, or for any specific portion thereof. The undersigned reserves the right to reject any bid which he may deem too low, and the names of the successful bidders will be announced at the front door of the Court House in said city of Port Angeles, Wash., on the 4th day of August, 1906, at 10 o'clock a. m. C. J. FARMER,
Receiver of Smith-Mastick Construction Company.
