NO CESSATION OF RAILWAY WORK.

No money is being shipped out of this state by the Northern Pacific, nor is construction work being discontinued, according to A. D. Charlton, assistant general passenger agent of that company. Said Mr. Charlton: "In fact, whatever money is collected in our freight and ticket offices is remitted to the banks now, the same as in the past. There is absolutly no change in our system of doing business, except perhaps permitting a more liberal policy in accepting local checks from patrons on the purchase of tickets or payment of freight.

"All outside agents that have heretofore remitted to the Merchants' National Bank, Portland, with which we do business, have continued to remit their cash as usual.

"Furthermore, there is no discontinuing of construction work on the North Bank Road or at any other point, and all our employees are at work."

THE WAY THEY ALL WRITE.

United States Senate,
Washington, D. C., Nov.1,'07.
Editor Olympic-Leader,

My Dear Sir: I want to congratulate you upon your article of the 25th inst., relative to the "Opportunities" offered to the investor or homeseeker by the City of Port Angeles.

With its immense timber, mineral and grazing lands, and last and most important of all, a natural land-locked harbor, I can see no reason why Port Angeles with its wonderful resources should not become one of the leading cities on the Coast.

Your Commercial Club has adopted the right method in advancing the city's interests, and with good loyal officers at the head of it, its success is assured.

It is my intention to visit that section of the country immediately after the adjournment of Congress with the object of making some kind of investment should an opportunity present itself.

Very Respectfully,
Frank E. Doesburg.

THANKSGIVING MASQUERADE.

WILL MAKE A NEW RECORD

Next Year's Influx Will Be Greatest in History of State. N. P. Official Predicts Great Prosperity.

Tacoma, Tuesday, Nov. 12.—"After an extended trip to the principal cities of the East and Middle West, during which time I have been in conference with the traveling passenger and immigration agents of the Northern Pacific Railroad, I can say that conditions were never more favorable for an unprecedented movement of immigration to the Northwest and particularly to Western Washington during the next six months," said A. D. Charlton, general western passenger agent of the Northern Pacific, with headquarters at Portland, today.

"The Northwest will be the first section of the country to completely recover from the temporary flurry," continued the railroad man. "The payment of thousands of dollars to Washington farmers for their big wheat crop will speedily end financial troubles in so far as this state is concerned.

"I see no chance for the attendance at the 1909 Exposition in Seattle to be affected by temporary conditions. An indication of the confidence the Northern Pacific officials have in the outcome of our present difficulties is the great advertising campaign they are arranging to exploit the Alaska-Yukon Pacific Exposition. This will be launched at once."

BREWERY TO BUILD WHARF

Will Use Same for Handling of Their Products and Conducting a General Freight Business.

An ordinance empowering the Angeles Brewing and Malting Co. to construct a wharf at the foot of Tumwater street for the purpose of shipping its products and the handling of freight was introduced at the council Tuesday night. The company asks for the right for a period of ten years, construction to begin on or before April 1st, 1908, and work completed on or before Oct. 1st. The proposed wharf is to be not less than thirty feet wide and to extend to a point in the bay where there is not less than 25 feet of water at low tide.

The brewery company, whose business has grown and expanded until the question of promptness in delivery has become almost as important a factor as the excessive freight rates, intends to operate a steamer of their own between Port Angeles and Seattle, Everett, Bellingham, Victoria, and the other sound cities, and will doubtless also do a general freight business in connection therewith. It would not be surprising should their initial venture prove the entering wedge of a new line of steamers, locally owned, which would not only be of great benefit to the city but assist very materally in building up the county as well.

THE COMMERCIAL CLUB

The business transacted by the Commercial Club on Tuesday was not very important, the most stirring proposition being from the Postmaster General, who wishes to know the opinion of the Club on his suggestion that rates on packages be lowered and weights increased. In other words, he advocates changes that will throw a good portion of the trade of local merchants into the hands of eastern department stores. The proposition was deemed too important to be disposed of at the time and was laid over till Tuesday next to hear the views of the mercantile community.

The County Fair committee stated that they had made arrangements to go to Seguin and Dungeness and enlist the co-operation of the farmers there in support of the projeet.

The secretary was authorized to collect the monthly dues of members.

MANY MILLIONS TO EASE SITUATION

COUNTRY NEVER SO PROSPEROUS

Wall Street Bucanneers and Not Condition of Business Responsible for Financial Condition.

It is stated that the U. S. mint at Philadelphia will, within the next three months, coin $52,000,000 in double eagles, and that this sum will be distributed among the sub-treasuries in various parts of the country. This enormous amount of gold with the movement of gold from the vaults of European banks to the United States, which is still in progress, in which the unprecedented total of nearly $60,000,000 has been engaged abroad for import, will be employed to relieve the present stringency and give a new impetus to trade thruout the country.

As soon as the banks and general business of the country shall have gained a little time in which to make settlements and readjustments, everything will go on as usual. There has been a sort of earthquake jar, such as occurs when one great segment of the globe slips past another to find a new equilibrium. But stability is again assured. It should, however, occasion no surprise, in the circumstances, that the disturbance has been great.

The situation is the result of enormous expansion of credit, based on exploitation. In the wild speculation of the past five years all growth of the time and for years to come has been anticipated and discounted. The present cricis is the culmination of the growing excess and irritation of a vast mass of undigested securities, forced on the country by lords of exploitation, who have had acess to life insurance, railway and other great funds, and have used them in immense masses for increase of their own gains. The immense gains made by such concerns as the Standard Oil, United Steel and the Harriman railroads have been used to support and force these operations with fabulous profits to the promoters. Public attention was called again and again by President Roosevelt and by the press of the country to the outrageous methods and general iniquity of the whole scheme, and it has fallen at last. With its fall there is a natural crisis in the money market, from which, however, the country must soon recover, because its strength is in its vast industries and enormous production.

Returns to our banks on the crops of the country, its wheat, lumber and other products, have been arrested by the action of the Eastern banks. Drafts and bills of lading, representing very heavy sums advanced are denied recognition by issue of clearing house certificates. But these millions of money must come to the Northwest. The commodities for which money has been paid out stand for actual values.

No unsafe business has been done in the Pacific Northwest. The progress of the country, the growth of its industries, its general development, though rapid, has been regular and steady. All business in leading lines has pursued rational and conservative courses. There has been unusual activity, indeed, but no departure from the very soundest principles. Hence the present interruption cannot be more than temporary. We are only jostled a little, and soon will be all right again, for we have all our growing resources to draw upon.

REALTY BUSINESS GOOD

A number of good sales of realty are reported this week. Mr. Tillman sells to John Cain 150 acres in 26-30-6 for $6,000. The Wagner property on Eighth and Peabody passes from J. J. Isler to Mrs. Kate Hamilton for $1800. The Derickson property on First street, lately occupied by Herbert Babcock, goes to an eastern sister of Sue LaFollette at $1600. Miss Etta Sherman transfers the former residence of her parents on Eunice and Ninth streets for $1700. So much for a "money-panic" week.

The banks now have a few of the Seattle Clearing House certificates in $5 and $10 denominations. The demand for these has been so great in Seattle that the banks there have been able to send very few to their correspondents; their use will be an advantage to those visiting Seattle.

The Best Doctor.

Rev. B. C. Horton, Sulphur Springs, Texas, writes, July 19th, 1902: "I have used in my family Ballard's Snow Liniment and Horehound Syrup, and they have proved certainly satisfactoro. The liniment is the best we have ever used for headache and pains. The cough syrup has been our doctor for the past eight years."

DISTRESSING ACCIDENT

E. B. Griffin of Elwha is a sufferer from partial paralysis, one of the most distressing of afflictions. He was operating his lumber mill on Indian creek at the time on Friday last and having a large log ready to cut, had gotten under the carriage to oil up when taken by the cramp; unable to move, he remained bent over until Saturday, when he recovered sufficiently to get into the house. H. S. Hansen, his neighbor, found him there and brought him in town. The right arm and right side of his face are still useless, but he is able to walk fairly well, and under the care of Dr. Lewis will doubtless soon recover.

SEARCH UNSUCCESSFUL

Al. Kaufman and party, who were up in the Happy Lake country last week searching for Pat Greelish, the lost Seattle man, returned Sunday, having found little trace of the wanderer. A purse was raised to pay expenses of Geo. Cowan and Henry Daniels, who are now out. Greelish's brother and a party of four from Seattle are also searching the country.

Will Engage in Business.

J. Merton Davis, the popular bookkeeper with the Citizens National Bank, has resigned his position and leaves for Seattle on a business trip tonight. Mr. Davis intends to remain in Angeles and has been making arrangements to engage in business here, but the extra work occasioned by the increased use of checks has prevented his getting away earlier.

New Hotel for Dungeness.

A sale was consumated in this city this week whereby the building, lot and saloon building of the "Board of Trade" saloon at Dungeness, passes from Fred Harned to Arthur Barr of this city. It is said Mr. Barr contemplates erecting and conducting a hotel in connection with the saloon.

Judge Clement of the British Columbia Superior Court, has decided that the courts of that province have no right to grant divorces and the legality of all the divorces obtained during the past 36 years is questioned. The decree has caused great consternation and should the Judge's decision be confirmed by the higher court special legislation to legalize the marriages of divorcees will become necessary.

ALWAYS WAS SICK.

When a man says he always was sick—troubled with a cough that lasted all winter—what would you think if he shod say—he never was sick since using Ballard's Horehound Syrup. Such a man exists. Mr. J. C. Clark, Denver, Col., writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition, I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me."

Winter Apples A Good Investment.

Many will prepare this season to plant fruit trees of different kinds for home use or market. Remember, then, in planning to plant for home use one must have a variety of fruit of different kinds, from the earliest to the latest. For the market one must be able to supply fruit at all times, but it is a good plan to plant most extensively of the long keeping varieties of both apples and pears, and of cherries the ones that will stand shipping best.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. *Why* the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed *free* on request. Address Dr. R.V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Rare Opportunity for a Summer Home

We offer forty lots facing on Lake Crescent, distant 25 miles from Port Angeles, at prices ranging from $50 to $250 each.

This property is desirably situated on the lake front and presents ideal sites for summer cottages.

Lake Crescent abounds in Beardslee trout that range in weight from 2 to 25 pounds and are caught by the fly.

The lake lies within a few miles of the Soleduck Hot Springs, the curative properties of which are widely known. These springs have lately passed into the hands of Eastern capitalists who will erect there a large and handsome tourist hotel.

We wish to draw particular attention to these desirable properties, the prices of which, when situation and surroundings are considered, is ridiculously low. For further particulars address,

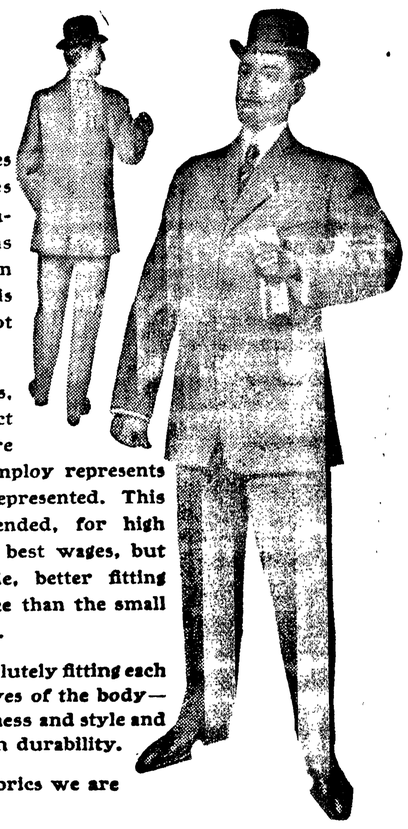
Who's your Tailor?
TRADE MARK REGISTERED 1906



THE MAKING of clothes to measure involves many intricate operations, each of these operations must be performed by an expert, otherwise the suit is irretrievably ruined and not fit to wear.

Our Chicago Clothes Makers, Ed. V. Price & Co., select their operatives with care and every man in their employ represents the best in the professions represented. This means more money expended, for high grade tailors command the best wages, but it also means better made, better fitting clothes for you at less price than the small tailor can or will give you.

They have facilities for absolutely fitting each suit over the lines and curves of the body—suits that carry distinctiveness and style and are their own insurance on durability.
