THE BIG BRICK STORE

ARE YET UNTOUCHED BY WINTER'S STORMS

While the East is Experiencing its Usual Blizzards, Angeles' Winter is Half Over and Tea Roses are Still in Bloom.

While other sections of the country are feeling the bite and blight of blizzards, or suffering the meterological uncertainties and sudden changes, due to the annual struggle of cold air currents to break into the tropics, the people of Puget sound, wedged in between the Olympics and the Cascades, are yet untouched by the shock of winter.

Here the season is still autumnal, with an occasional shower to purge the air of its floating impurities and freshen the green traceries that clamber over hedges of brown and gray and gold; an occasional mist to soothe the nerves, and smooth the angles of fortune's raw outline, and occasional sunset glories which rival the beauties of the Alpine horizon; indeed, taking heath and skyline, one instinctively recalls the profound questioning of John Tyndall on Alp Lusgen:

Whence the craft
Which shook these gentian atoms into form,
And dyed the flower with azure deeper far
Than that of heaven itself on days serene?
What built these marigolds? What clothed these knolls
With fiery whortle leaves? What gave the heath
Its purple bloom—the Alpine rose its glow?

The snow is not closer yet than the mighty peaks of the Olympics and the Cascades, though December is more than half gone and the old year is running rapidly through the glass; only the frost has shown in the valleys, and on the lesser hills tumbled down closer to the winding edges of Puget sound, and the fluid in the bulb has not yet fallen low enough to make an overcoat one of life's essentials. Surely a people thus circumstanced, climatically, have much to be thankful for; besides, if they lean to the poetry and art of the environment, a feast for the soul is here spread not to be equaled in any other part of the world. The pearls, of course, are not for the swine.—Post Intelligencer.

ANGELES SCHOOL NOTES

(Edited by the Senior Class.)

The public schools close today, Friday, the 20th, for the the Christmas vacation. Many of the teachers will spend their vacation out of the city.

The pupils of the 8th grade are making preparation for the State examination to be given at the end of the first semester.

The custom of dismissing the pupils at 3:00 p. m. every Friday, which has been in vogue for several years, will be discontinued after the holidays. After Jan. 1, '08, every department of the city schools will remain in session on Fridays up to the usual time for dismissal.

The Washington State Educational Association will meet in Seattle Dec. 31, 07, for a three days session.

The following are the books adopted by the State Board of Education for the eighth grade pupils: Reading Circle work, "Agriculture for Beginners," Ginn & Co.; "Primer of Forestry," Part II, (Government Publication); "American Pioneers," Silver Burdette & Co.; "The Man Without a Country," Little, Brown & Co.; "Self Help," American Book Co.

The Superintendent has directed work begun in the preparation of a new course of study for the grades.

At the Teacher's meeting held Dec. 6, '07, it was decided to begin preparation for a public entertainment, sometime during the latter part of February. All the schools of the city will participate in this program, and the proceeds will go towards buying reference books for the school libraries. The Superintendent appointed the following committee to assign work to each school and to decide in regard to distribution of proceeds, viz: I. L. Ullery, Nellie Roberts, Florence Post, and Minnie LeSourd.

Miss Lucy Bunker left today, Friday, for Seattle to spend her Christmas vacation.

Misses Vaupel, Pugsley, Post, Patrick, LeSourd, Bohn, left Friday night for upsound cities.

Misses Joliette and Jaunita Glenn spend their vacation in Bellingham.

Supt. Geisness and the majority of the teachers will attend the State Association during Christmas vacation.

Fisher's Bazaar is loaded from the hold to the upper decks with a full line of Holiday Goods. Come early; will make the prices low as the lowest.

DEED TRANSFERRING CONTINENTAL'S HOLDINGS

The Milwaukee Land Co. Acquires Fifty Thousand Acres of Timber for Two Dollars and Other Considerations.

The Continental Timber Co., which has generally been known as the purchasing agent of the Chicago, Milwaukee & St. Paul Railways, filed with Auditor Hawkins this week, a book of transfers by which their 25,594 acres of land in Clallam county are deeded to the Milwaukee Land Co. The consideration is $1 and other valuable considerations. The deeds are printed and bound in pamphlet form.

In Jefferson county similar transfers carry 26,000 acres.

TRADE NEVER BETTER

Merchants Report Best Holiday Business They Have Ever Had. Best Qualities are Best Sellers.

"Christmas trade has been unusually good the past week in Angeles," is the universal verdict of the merchants who advertise with the Olympic-Leader. Shoppers are always on the lookout for bargains and the merchant who is not afraid to advertise his wares is sure to get the cream of the trade at this season of the year. Said one live business man today: "There are more Christmas goods now tied up and laid by in our store than are left for sale; should trade keep up until Christmas we'll have nothing to sell." Another dealer reports a daily trade in Christmas goods the past week of from ten to twenty dollars more than for the corresponding period of last year.

This is a cheering outlook, indeed. It shows that our people are not at all frightened over a made-to-order panic on Wall street.

DROPPED FIFTY FEET

Roy LaFlower Has Narrow Escape from Death while Cleaning Well.

Roy LaFlower fell the distance of about fifty feet down their new well Thursday, breaking his ankle in two places. The well needed cleaning, and they being unable to find anyone who would take the risk of going down eighty-five feet, he undertook the task himself. While being hoisted up, the iron ring in which he was standing broke, when he was within thirty feet of the surface; there was about twenty inches of water in the well.

MASQUE BALL NEW YEARS' EVE.

The large list of prizes to be given away by the Eagles at their Masquerade Ball New Years Eve will consist of the following: A prize for the Best Lady and Gent Waltzer, Original Costume, Groups, Coons, Seasons, Dutch, Irish, and Weary Willie character, and a handsome prize will be awarded to the best clog dancer.

The Tyrrell's dance orchestra, assisted by Parks and the slide-trombonist will furnish the music for this occasion. See prizes in Lewis Levy's window.

LOWNEY'S CHOCOLATES.

We purchased our stock of Lowney's candy early in the season, before the price of chocolates advanced, and can sell you your Christmas packages at less than you can buy the cheaper grade chocolates. See our large line of fancy boxed goods.

C. F. Nailor & Co.

My stock of Christmas goods is now complete. Goods all marked in plain figures, and the lowest possible price for cash. One price and the same to all.

Ballard's Horehound Syrup

Immediately relieves hoarse, croupy cough; oppressed, rattling rasping and difficult breathing. Henry C. Stearns, Druggist, Shullsburg, Wis., writes: May 20, 1902, "I have been selling Ballard's Horehound Syrup for two years, and have never had a preperation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it." 25, 50 and $1.00.

Sold at Mathewson's Drug Store.

WHERE RAIL AND SAIL WILL MEET

New Folders Advertising City Set Forth Resources and Advantages in Comprehensive Manner.

The advertising folders, gotten out by Kennedy & Co. of Seattle, for the real estate and business men of Port Angeles have been received and are a first class production, greatly admired by all. The folder, in addition to the bird's-eye view which we have heretofore described, gives a map of the Olympic peninsula, plat of the city, half-tones of Lakes Crescent and Sutherland, the Craig and Manhattan plants, three of the city school buildings, a fruit tree, and a cedar stump. The descriptive matter is brief and to the point, setting forth the resources and advantages of the city and county.

As a folder to place in the hands of a man who has already decided to locate in the Sound country and is on the ground in search of a location, or for use in diverting to Port Angeles a part of the surplus money of the wage earners of the Sound cities, with whom small investments in real estate has become the popular thing, this line of advertising should be successful. But for the purpose of sending East to inquirers and intending homeseekers, its value will be very small, as the available space scarcely more than permits of the headlines—the topics about which the homeseeker will require extended and convincing information.

AN INTERESTING SHOWING

An interesting showing of the immense resources of Washington and Oregon is the statistics for wheat and flour shipments for Puget Sound ports and Portland for the months of October and November, recently compiled. The figures are 7,434,691 bushels of wheat and 640,012 barrels of flour! And then, it must be remembered, that last season's crop is just beginning to move. In face of these figures who will say that the Northwest is facing a financial cricis?

A pair of gloves for a gentleman, a handkerchief for a lady, a Windsor tie with a Teddy bear or anchor on for a boy would make a very suitable present.

Jim Knight,
The Man on the Corner,
Port Angeles.

STILL ANOTHER VEIN

Slide at Mines Exposes Five Foot Vein of Coal. Ready to Ship as Soon as Wharf is Completed.

Mr. Barnett of the Clallam Coal Co., came up from the mines Saturday. He reports a recent slide which exposed a new vein of coal, about five feet in width. The bunkers are now being filled and several experienced miners have been sent for, that the work may be pushed along. Mr. Barnett says that, now the Clallam company is well under way, it is his intention to organize another company for the development of still other deposits in the county.

FIRST ANGELES STEAMER

Brewery Company's Boat Started in Monday as a General Freight Carrier.

The steamer Albion came in from Seattle on Sunday and left Monday evening with a cargo of Port Angeles beer for up sound. The Albion is a little larger than the old Garland. She has accommodations for a few passengers and will carry about 200 tons of freight. She will be employed in carrying beer from this port to other Sound ports and Victoria, and will do a general freighting business. Extensive alterations are under way to secure increased accommodations for freight.

"The Letter Killeth but the Spirit Giveth Life."

We publish this week a letter on timber taxation from Oscar Nelson of Gettysburg which starts off with the surprising statement that he has been coerced by threats into a retraction of statements heretofore made concerning Commissioner Lauridsen.

Mr. Nelson says he cannot retract the facts. Facts are stubborn things. If Mr. Nelson believes that his conclusions concerning Lauridsen, to-wit, that Lauridsen would still have his respect as a private citizen had he not been placed in the responsible position of county commissioner, are erroneous, it is right and just that a retraction should be made. The sincerity of his apology is evident from its face; its completeness leaves nothing to be desired.

But Mr. Nelson's retraction affects his published statements only. His personal opinion, we gather, remains—like that of ourselves and a goodly number of business men and ranchers who have voluntarily expressed themselves to us on the subject—the same. Lauridsen's honesty or dishonesty in fulfilling his pre-election pledges is a matter that every man judges for himself. Upon that question there can be no other decision—unless perhaps Mr. Lauridsen should yet wish to bring suit for libel, in which case the opinion of the courts, based upon the evidence of the tax payers of the county, would be authoritative.

A man whose record as a public or semi-public official is immaculate is always willing to stand upon his record—these threats against Mr. Nelson, this childish effort to force him to give the lie to his own honestly expressed opinion, would seem to indicate that something in his letter touched a very tender spot. However, read the retraction; it's rich in humor and we venture the assertion it will bring forth many a smile at Lauridsen's expense.

In North Yakima, where they have the customary city ordinance making the failure to pay a poll tax a misdemeanor, punishable by fine, or imprisonment in event of the fine not being paid, an appeal has been taken to the supreme court from a decision of the superior court jury. It is contended that the constitution prevents imprisonment for debt.

The County Auditor's office is now resplendent with new paper and paint, and a few other added incidentals. The improvement is marked.

The new steel file furniture for the County Clerk's office arrived this week and is now installed in the Clerk's vault, replacing the old wooden pigeon-holes that have been in use for the past two decades.

The Black Diamond Paint and Shingle Company has gone into voluntary bankruptcy and all laborers holding liens against the company for wages, etc., have been asked to present their claims to the bankruptcy court for settlement. The sale of 27,000 shingles made by the Sheriff Tuesday only brought $1 per thousand owing to the fact that the affairs of the company are in bad shape.

What will probably be the first electric search light to be used for a fog danger signal is being installed at Cape Flattery by the lighthouse tender Columbine.

Electric search lights are believed to be more effective in piercing fog banks than the usual fixed or revolving light. In its movements the electric beam often pierces portions of the fog thinner than others and often out of range of the stationary lamp's rays.

RE-OPENS TIMBER ASSESSMENT QUESTION

Forced to Retract Statement of Opinion Regarding Failure of Commissioner to Redeem Pre-Election Pledges.

GETTYSBURG, WASH., Dec. 14, '07.

Editor Olympic-Leader:—Will you be kind enough to publish this letter, to whom it may concern, as I have been approached by different parties that have undertaken the duty as go-betweens between me and Mr. Lauridsen, and as such parties aver that they have authority from Mr. Lauridsen to say that I must retract such statements in my letter of Oct. 4th, as reflects on his, Mr. Lauridsen's, character and reputation.

Now, I will gladly retract anything that I have written that may reflect on Mr. Lauridsen's character and reputation, and if I have caused any inconvenience to Mr. Lauridsen, then I must humbly apologize; but I cannot retract any of the facts in regard to the assessment and taxation of timber, and discrimination against home-builders in timbered districts.

It seems childish to compare buggies, cows and horses with timber valuations. A buggy, after it has been used, is second hand. Cows and horses do not increase in value with age. I have been requested to produce proof of discrimination in assessment of property. First, let me say, I have not the opportunity so to do as has the person elected and paid for that purpose. We will take for example the Ed. Klene homestead, west of Gettysburg, sold five years ago to C. Clapp for twenty-five hundred dollars. The timber on this is below average, but should be worth ten thousand. Then take the Tower homestead, south of Twin. I can produce the man who wanted to buy that claim eight years ago and was asked seven thousand dollars for it; its above average and should be worth sixteen to twenty thousand, estimating $1.50 per thousand for fir and spruce. Then logged-off land in the hands of small holders is assessed at $4.50 an acre; other land with timber and owned by capitalists is assessed up to $10 an acre. It will, perhaps, be a surprise to some people to hear that the monopolized timber is beld at five dollars a thousand for fir, spruce and cedar. At that valuation, what will the timber be worth in the Solduck and Elwha valleys? I know of several quarter sections with twenty million and over.

For stumpage value, we go back to the years 1896-7. Stumpage was then estimated at one dollar a thousand along the Straits. And at that time No. 1 fir and spruce sold at the mills at from $4.50 to $6.00 a thousand. The same kind of logs in 1906, at from $16.00 to $30.00 a thousand. Then, it should be remembered, that fully one half the timber on land that had no value in 1896 sold from $6 to $12 a thousand in 1906; expense of logging was not appreciably higher in 1906. Average logging expenses were $3 a thousand and average price for logs at mills was $11.50. Sometime in 1900 or 1901 the loggers combined and raised the price of board per man from $14 or $16 a month to $5 a week, and also lengthened the hours of labor from ten to eleven hours per day. And the use of machinery and modern methods have in eight years more than doubled the capacity of a man's labor in logging operations.

We are not complaining about high taxes. We are willing to have our scrub cattle valued at $15, sheep at $3, chickens at 25c, and setting hens at 35c, and being assessed for parlor and bed-room furniture, coal-oil boxes, hand-made tables and beds nailed to the wall, but would humbly ask why cannot timber be assessed as well as other property. The raise in the value of timber did not come in one night, but spread over a period of nine years. Why is the county still paying 8 per cent. interest on a fourteen year old warrant indebtedness?

Respectfully yours,
OSCAR NELSON.

WHAT'S

Worth doing is worth doing well. If you wish to be cured of Rheumatism, use Ballard's Snow Liniment and you will be "well cured." A positive cure for Sprains, Neuralgia, Bruises, Contracted Muscles and all the ills that flesh is heir to. A. G. M. Williams, Navasota, Texas, writes: "I have used Snow Liniment for sprained ankle and it gave the best of satisfaction. I always keep it in the house."

Sold at Mathewson's Drug Store.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

SUMMONS

In the Superior Court of the State of Washington, for Clallam County,

Thomas F. Trumbull, plaintiff, vs. Mary J Singhose, defendant.

The State of Washington, To the said Mary J. Singhose, Defendant:

You are hereby summoned to appear within sixty (60) days after the date of the first publication of this summons, to-wit: within sixty (60) days after the 29th day of November, 1907, and defend the above entitled action in the above entitled court, and answer the complaint of the plaintiff, and serve a copy of your answer upon the undersigned attorneys for the plaintiff at their offices below stated; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court.

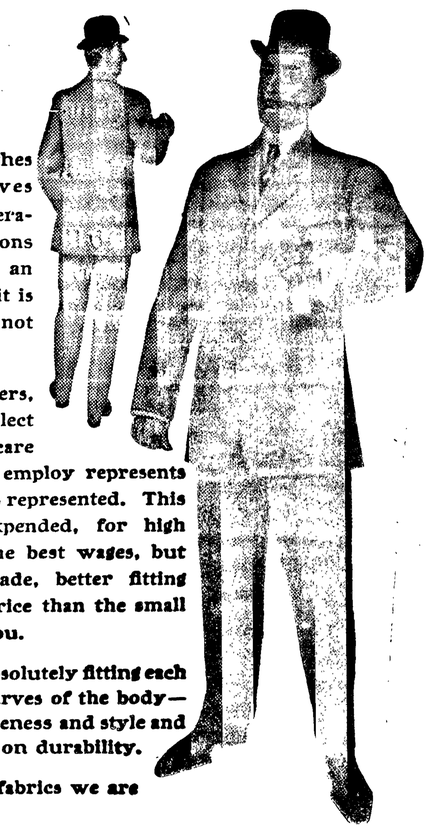
What your Tailor?
TRADE MARK REGISTERED 1906



THE MAKING of clothes to measure involves many intricate operations, each of these operations must be performed by an expert, otherwise the suit is irretrievably ruined and not fit to wear.

Our Chicago Clothes Makers, Ed. V. Price & Co., select their operatives with care and every man in their employ represents the best in the professions represented. This means more money expended, for high grade tailors command the best wages, but it also means better made, better fitting clothes for you at less price than the small tailor can or will give you.

They have facilities for absolutely fitting each suit over the lines and curves of the body—suits that carry distinctiveness and style and are their own insurance on durability.
