GRADE GRADUATING EXERCISES

Feature of School Life Proved Great Success. Praise is Due County Superintendent, who Introduced Plan.

The eighth grade graduating exerses of the Clallam county schools, eld Tuesday evening, were a pleasant urprise to the large audience which illed the opera house. The program was very interesting and each participant was worthy of the highest praise and deserved the hearty congratulations all received. The stage was resplendent with floral decorations; flowers and vines combined artistic arrangement of er in the class colors made ive appearance. The class ranged in purple and gold ore Beyond."

Athelene Fisher opened the with a piano solo, which orth the heartiest applause of lience. Rev. Loder of the gational Church delivered the ion.

salutatory was given by James ell. He welcomed the many ted friends to this, their first ting exercises, and pointed out vantages it held for the pupil. n read a very interesting paper "Alaskan Exposition" and d his subject well, proving that given it much careful study. e History of Port Angeles" e subject chosen by Ben Kean, ich he related many of the ups owns of our little city since it st founded as a colony.

Miss Gertrude Willson, in a very sweet voice, sang a lullaby which went straight to the hearts of her listeners; Miss Margaret Ritchie was her accompanist.

Angeline Ritchie read the Class Prophesy, a very well written paper indeed, and her delivery was exceptionally good for one of her years. We all hope the bright future she prophesies for Angeles may come true.

"The Great Stone Face" was the subject of the valedictory address given by Miss Mae Webster. By the portrayal of this beautiful story she endeavored to impress upon her audience, and especially her classmates, the importance of having high ideas and endeavoring to live up to them.

Superintendent Thos. Geisness of the city schools gave an address on the "Essentials of Success." It was replete with good advice and suggestions to the young people and added not a little to the success of the evening's program.

Miss Annette Trumbull, county superintendent, to whom much of the credit for the splendid success of the exercises is due, made a pleasing address and presented each of the twenty-eight graduates with a diploma. This diploma admits them to any high school in the state without examination.

The closing number was a song by the high school chorus under the leadership of their instructor, Miss Ball. It delighted the audience who will be glad to have it repeated in the near future. The musical instruction is certainly a splendid addition to our public schools.

ASKS FOR WATER WORKS FRANCHISE

FURNISH CITY ELECTRIC POWER

Application of C. J. Farmer for Fifty Year Waterworks Franchise Read at Tuesday's Council Session.

A proposed ordinance, granting C. J. Farmer a fifty year franchise for a water works and electric power system, was read at the council meeting Tuesday evening, and laid over without action, pending the submission of another similar proposition which it is understood will soon be made by Seattle parties. While the terms of Mr. Farmer's franchise are more favorable to the city than any that have been so far submitted, it is thought best to have both applications for comparison before taking the matter up in committee.

Mr. Farmer specified that the source of supply shall not be nearer than three miles from the nearest point of corporate limits, and that it shall be such as to render contamination impossible, provisions prohibiting use of the present stream and requiring the intake to be located within the forest reserve. He agrees to furnish sufficient pressure, three hydrants being open at the same time, to raise a column of water eighty feet, through the standard fire nozzle, and maintain same for one hour. The city is to be furnished twelve hydrants free, for purposes of fire protection only, additional hydrants to be charged at rate of $3 each per month—city to pay for the twelve hydrants, to be installed where council may direct.

Grantee is required to extend the system to any part of the city upon application of twenty bonafide residents.

The rates to be charged for household use in residences and private families shall in no case exceed $1.50 per month, or if preferred consumers may have a meter of 35 cents per thousand gallons.

The grantee agrees to furnish, for a term of ten years, electric current to the city for lighting purposes at rate of 3½ cents per kilowatt hour, and agrees to commence supplying same not later than one year from date of acceptance of franchise. If city can purchase electric current at a less price, grantee agrees to meet such prices. Permission given to sell surplus current for power purposes only. After ten years city is in no way bound to take electric current from grantee.

City to have right to purchase system at expiration of twenty years, value to be determined by appraisement, and also at expiration of each ten years thereafter.

Mr. Farmer agrees to have the system completed within one year from date of acceptance of franchise, and, beginning ninety days after acceptance, to expend not less than $4,000 per month on construction, said amounts to be certified under oath by engineer.

WILL CELEBRATE THE FOURTH

Committee to Handle Arrangements Selected by Commercial Club.

At an adjourned meeting of the commercial club Tuesday afternoon, the following gentlemen were appointed as an executive committee for the Fourth of July celebration: E. E. Seevers, J. I. Kirschberg, C. S. Stakemiller, P. Grubb, E. E. Day, M. L. Saxton, William B. Ritchie, N. M. Hawkins, E. E. Fisher, J. Lloyd Aldwell, Lewis Levy and James T. Knight.

Word has been received from the Navigation company that the Whatcom will make two round trips to Victoria on the Fourth.

DON'T!!

Don't let your child suffer with that cough when you can cure it with Ballard's Horehound Syrup, a sure cure for coughs, bronchitis, influenza, croup and pulmonary diseases. Buy a bottle and try it. B.B. Laughter, Byhalia, Miss., writes: "I have two children who had croup. I tried many different remedies but I must say your Horehound Syrup is the best croup and cough medicine I ever used."

COMMENCEMENT EXERCISES BEST EVER HELD

SUCH WAS VERDICT OF MANY

Preparation Had Been Thorough; Subjects Ably Handled, and Entire Audience Pleased.

The commencement exercises at the opera house Friday evening brought out a crowded house, as usual on such occasions, and the whole program being a success from start to finish, everyone who attended felt well repaid. Each year sees a marked improvement in this feature of school work, and this year's program is considered by many to have been the best ever given.

The stage was beautifully decorated with trailing vines and flowers, while the whole front was banked with roses and carnations, offerings of friends to "the sweet girl graduates." The class motto, in German, "Was von Herzen Kommt, geht zum Herzen" (What comes from the heart, goes to the heart), was artistically arranged in pink and green, the class colors, over the opening of the stage. The eight young lady graduates were seated in a semi-circle at the right of the stage, and in their dainty white gowns made a very pleasing picture. At the left were Dr. Geisness, Prof. Ullery, Misses Vaupell, Ball, Pugsley and Trumbull, Rev. Rogers, and Messrs. Hansen and Bean.

The subjects chosen by the graduates for their essays and orations were well handled in a complete and thorough manner, evincing hard study under capable and progressive teachers.

The class history by Miss Laurena Ester and the prophecy by Miss Eunice Stakemiller, always of great interest on such occasions, being near to the hearts of fellow pupils and patrons of the school, alike, were handled very entertainingly and contained no small amount of humor. Miss Stakemiller was also the author of the class song which, as sung by the graduates, was one of the prettiest features of the evening. Miss Ester, in a very pleasing manner, presented the Juniors with a small spade, tied with the class colors of '08, as symbolical of the way the Seniors had won their honors "by digging," and hoped the Juniors would do likewise. Robert Polhamus, for the Juniors, made a neat and witty little speech of acceptance and tied on the class colors of '09.

Miss Grace McKechnie's oration, "Our High School," was especially appropriate and thoughtfully prepared.

Miss Leah Myers, in a bright, vivacious manner, told of "The American Girl." She seemed to have a clear and well defined idea of this species of humanity, her superior qualities and advantages as compared with girls of other countries, and her devotion to school work. We are all glad that we are Americans and have such girls of whom we may justly be proud.

"Our American Holidays" was an inspiring number, and the words of patriotism appealed to the hearts of all. This oration was given by Miss Irene McDonald; her thoughts were gracefully expressed and her stage presence good.

There was plenty of food for reflection in "Educational Progress in America" by Miss Rose McMullen. It dwelt with practical questions of the times and was well written and well received.

The salutatory, "Youth's Best Choice," by Miss Ruth Fulmer, was especially well received, and the valedictory, "A Legend of Port Angeles," by Miss Lucy Bonker showed much thought and originality and would have done credit to a person of far more years. At the close of her address, Miss Bonker presented the high school with a photograph, framed, of the graduates, which was accepted by Miss Mable Gehrke, with a few pleasing remarks.

The musical feature of the program, which opened with a piano solo by Miss Morse, were also greatly enjoyed. The high school chorus sang two selections; Miss Bernice Allen gave a sweet rendition of "Springs Awakening," and Misses Jolliette Glen and Ethel Welch are also to be congratulated for the pleasing man-

FORMAL OPENING OF PARISH HALL

HOME OF THE GYMNASIUM CLUB

Handsome Building Devoted to General and Public Use an Honor to Promoters and City.

The Parish Hall and Gymnasium of St. Andrew's Church was formally opened on Monday night in the presence of a large gathering. The Rector introduced the Ven Arch Deacon Grimes who, representing the Bishop of the Diocese, accepted the building and declared it open for the purposes for which it was built. He said that the church must minister to the three parts of man—the soul, the mind, and the body—and the new building was especially fitted to minister to the body, it was to be a place where people may enjoy all the innocent social pleasures. The church believes that a sound body is pretty apt to mean a sound soul.

After the Arch Deacon's address, Mrs. Rixon sang a solo and then there were short addresses by the Rev. James Henderson of Seattle, the Rev. Loder of Angeles, Mr. George S. Garrett, Mr. J. Lloyd Aldwell, who spoke for the building committee, and Mr. John Willson, speaking for the athletic club, who gave a brief histoy of the organization and invited all to join them, saying that within a few days a full line of gymnasium paraphernalia would be installed, and the club would be on a solid basis.

Miss Welch then sang a solo which was followed by "The Worsted Man," presented by the young ladies of St. Margaret's Guild. The play was a clever little one and the young ladies are to be congratulated upon their success.

After the play, the people were invited to remain for refreshments, furnished by St. Andrew's Guild. Afterwards the young people enjoyed dancing.

It is thought there were about four hundred present at this first social evening. In speaking of the building, the Rector thanked the people most heartily for their co-operation and support, both financial and moral. Altho Parish Hall is for general and public use, it is expected that all who wish to use the gymnasium will become members of the club, connected with which there are no religious or sectarian restrictions.

Any man over 16, of good moral character, is eligible. The initiation fee is one dollar, and the dues fifty cents monthly. There will also be organizations for the boys under 16 years. In these and many other ways it is hoped that the hall may prove its usefulness to the city of Port Angeles. The Rector regretted the absence of Mr. Peter Grubb, warden and also chairman of the building committee, to whom he felt a debt of gratitude for the efficient way in which he had fulfilled the duties of his office. The hall is certainly an honor to the promoters and the city. Built in bungalow style with large overhanging roof and large porch, the main structure is 35 x 70, with a wing 35 x 40. The wing has two stories, the lower floor comprising the grand entrance hall, with a large library on one side and kitchen and large reception room on the other. The reception room will be used as a Sunday School class room. Up stairs is the Rector's quarters. The hall is equipped with a fine new Waltham piano. The building is well finished, W. A. Lewis being the contractor, and built at a remarkably low figure.

THE ALUMNI REUNION

Recent Graduates Required to Act Their Future Vocation in Life.

The eighth annual reunion of the P. A. H. S. Alumni Association was held in the opera house Saturday evening, June 6. Eight graduates were admitted, the initiation ceremony, during which each graduate was compelled to act her future vocation as decided by the "Fates," being conducted by Miss Inez McLaughlin The toast to the graduates was given by Superintendent Geisness and the response by Miss Lucy Bonker. Mrs. C. P. Brown favored the company with a piano solo; a violin duet was given by Misses Hazel Hopkins and Jolliette Glen, and a trio by Mrs. Brown, Helen Hopkins and Pearl Stakemiller. After the meeting luncheon was served and the alumni and their guests enjoyed dancing until twelve o'clock.

Of the members of the association there were present: Class of '98, Ella Johnson, Mrs. C. E. Nailor, Ed. Graves; '00, Winfield Wood; '02, Helen Hopkins; '04, Annette Trumbull; '05, Inez McLaughlin, Antone Smith; '06, Fred Bown, Herbert Wood, Lyman McDonald, '07, Hannah Donahue, Pearl Stakemiller.

New members, class of '08: Leah Myers, Lucy Bonker, Irene McDonald, Grace McKechnie, Eunice Stakemiller, Ruth Fulmer, Rose Mc Mullen, Laurena Ester.

The Elks lodge gave a very enjoyable social session on Wednesday night to the members and their ladies. Dancing at the opera house and singing, dancing and refreshments at the hall made the evening one to be remembered.

THE RETURN OF PROSPERITY.

The banks of all parts of the country have been running over with money for several months, yet there has been no great demand for it. Many departments of commerce have not fully recovered from the blow of last fall, and therefore there was little demand for cash.

However, every day brings encouraging news to the effect that the wheels of industry are again beginning to turn. Railway companies are putting in orders for cars and motive power, in spite of the fact that thousands of idle cars have been lining the sidetracks. The steel mills have increased orders and every day sees the resumption of work in manufacturing plants that have been idle or working but a minimum force for many months. In one industry alone, cotton textiles, plants employing 35,000 people in New England have abolished the short time schedules and are running to their capacity.

The situation is most encouraging for all the people of all sections. With money plentiful, all that is needed is a demand for commodities to set the forges and mills and factories at work, and the demand is increasing daily as people are gaining confidence. One of the great factors in the direction of confidence in the future is the growing certainty of the election of a republican president and congress, and the assurance that there will be no violent overturning or disrupting of the tariff laws, which would unsettle business for an indefinite period.

In our own favored state and city there are evidences of greater advancement and prosperity than for years before. More people know of the uparalleled advantages and opportunities of Washington and are preparing to cast in their lot with the fortunate ones who are here. The advent of new railways which will offer opportunities for labor to thousands of workingmen and mechanics and afterwards will tend to give better freight rates, will serve to increase the population and wealth of Washington more rapidly than ever before. It is safe to predict for every city in the state an era of unequalled porsperity the near future.—Tacoma News.

That McBride's popularity is increasing as the fitness of the two leading candidates for the governorship becomes more and more a matter of present interest, is generally conceded among the politicians of the state. There is no longer any doubt but that he will have practically the united support of the counties east of the mountains, the candidacy of Cosgrove being admittedly a failure. In the sound country, Whatcom, Skagit, King, Pierce and others already have enthusiastic McBride clubs, the membership of which has been rapidly on the increase as the people begin to realize what it would mean to the progress of the state to have two years more of Mead. It is said that in Whatcom, Mead's home county, every leading industry is with McBride and the county will at least be divided.

The Olympic Leader is sorry to note that Judge Cochran has withdrawn his announcement as a candidate for legislative honors. Not that we were, or were not, particularly interested in Mr. Cochran's candidacy, but we like his method of making a plan, straighforward statement of his principles in his announcement. He told the people just what he stood for and would work and vote for —and put his statements on record where no man could say, "He promised me this, and agreed with Brown to do that."

Thousands Have Kidney Trouble and Never Suspect it.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, *who content themselves with doctoring the effects*, while the *original disease* undermines the system.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

Official County Paper

FRIDAY, SEPTEMBER 18, 1908

The Good Roads Association of Pacific county will make a trial of the split-log drag, on six miles of the county road out of Willapa, during the coming wet season. Considerable has been said about the good effects of the split-log drag on roads, and it is proposed to give the experiment a fair and intelligent trial that its merits or dis-merits may be fully demonstrated. Work will begin in October, or sooner if the heavy rains set in, and continue up to the first of next April, the end of the rainy season.

The Seattle Times pertinently remarks: "It is fortunate that the next legislature will sit within two months from the time of its election, so that the various faults and weaknesses of the primary law, as developed by experience, will not have been forgotten. The framework of the law is all right—but it has some very crude and misleading elements. —all of which should be remedied by the next legislature—and one of them is "second choice" voting. Probably not two men out of every seven appreciated what these words meant when they marked their votes. To most of them vote "second choice" meant any old thing—just because they all thought that "first choice" would win.

While not much noise was made by K. O. Erickson during the primary canvass for renomination for the office of county commissioner, quite often from most any direction one could hear the good word spoken. Mr. Erickson is evidently the kind of a man people like to vote for, as shown by the returns. His record as county commissioner and as a private citizen is above reproach; his experience during the present term qualifies him to better carry out the measures now before the board for the good of the people than a new man could possibly carry them out. We doubt if there is a man in the Third district who could make himself as useful to the people of the district or to the people of the county as a whole in this position at the present time as Mr. Erickson. He will be sustained at the polls in November upon his record as a faithful, painstaking and conscientious official.

This is the way the South Tacoma Press puts it: "Democrats decided they did not have much show this fall, but they resolved to demonstrate that the republicans were not the whole cheese when it came to making republican nominations.

Sour grapes never pay in politics. When defeat comes, buckle on your armor and up and at it again.

Rev. Simons Goes South for Winter.

Rev. G. H. Simons and family leave today for Los Angeles and Old Mexico to spend the winter. Rev. Simons has been in quite poor health during the past year and they go south trusting that that southern clime of perpetual sunshine and flowers may prove beneficial. Rev. Simons and wife spent several weeks of the past season camping at Lake Crescent, and his health was temporarily very much improved, but it was thot best to go south for the winter. Both of these estimable people will be greatly missed in Angeles where they have endeared themselves in church and society circles during their short stay in our city. As a minister of the Gospel of Christ Rev. Simons is liberal and broad-minded, and his sermons always up-lifting and an inspiration to his people. As a citizen he is loved and respected for his unbiased fairness and charity towards all his fellow men. That he may be restored to complete health and resume the pastorate of the First M. E. Church here is the earnest desire of his many true friends.

JOHN DYKE HAS PASSED AWAY

John Dyke, a pioneer of Port Angeles and a man who took an active part in the founding of the city, died at his home on Front street Monday afternoon, September 14th. After services at the home he was taken to Tacoma for burial, in accordance with his request. Mr. Dyke came to Port Angeles in 1884 from Ohio; he was the first mayor of the city, serving two terms. In recent years he has held a position as forest ranger and for the past year has been in the employ of the Earles camp at Port Crescent. Mr. Dyke was a member of the Masons, Knights of Pythias, Elks and Red Men. His wife six sons and one daughter are left to mourn his loss.

I wish to thank each and every one who was kind to us during Mr. Dyke's long and heart-breaking illness, most especially the Knights of Pythias, who gave aid, sympathy and fraternal love to him, for which I shall always feel grateful.

Anna E. Dyke.

An Ounce of Prevention

Is worth a pound of cure. There are many poor sufferers, Consumptives who are hopeless of getting well—who, if they had taken care of themselves, would now be well. A cough is the foundation of consumption. Ballard's Horehound Syrup will cure that cough. Mrs. S., Great Falls, Montana, writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs.

LOGGED-OFF LAND ASS'N

From page 1.

of the organization. It might be capitalized for $500,000 or more, divided into shares of $1 each, a portion of which could be used as treasury stock for active and immediate operations. A land clearing force could be set to work in two or three counties, on lands owned by the association or some of its membership, and the actual cost of getting the logged off lands in condition for settlers obtained before the next legislature. Such figures could be used as basis for securing legislation authorizing the clearing of state lands and the formation of improvement districts for the purpose of developing certain sections.

"Repeated experiments have demonstrated the possibilities of land clearing under old systems. Men have entered upon tracts not considered worth more than $5 an acre, and at an expense of $50 to $75 have increased the value of those tracts 200 to 300 fold. Cleared land, situated within reasonable distance of a steamboat landing or railroad station, is worth from $100 to $300 an acre. It is a good investment at even higher figures because it pays dividends on greater valuations.

"The possibilities of an organization having the powers of a business corporation are almost without limitation. The funds obtained thru the sale of stock or floating of bonds, could be expended at the beginning and cleared land sold to real settlers in units of five, ten, twenty, and not to exceed eighty acre tracts. Every purchaser could be required to enter upon his farm and proceed to develop its fertility and force production of profit paying crops. As payments are made the fund thus created could become a revolving capital for clearing more lands.

The Whatcom was five hours late Wednesday, caused by the use of the steamer as a freighter, taking a number of carloads of building paper to Everett after arrival at Townsend. Passengers for Port Angeles and other straits points were compelled to endure the long delay as best they might, as the Bellingham was carrying powder and could not take passengers. The question arises, is the Whatcom credited with the receipts as well as being charged with the expenses of the extra trip, or are these extra runs to Tacoma, Everett and other points merely added expense on a line that is said not to pay as at present operated.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason *why* it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed *free* to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper.

embodying the most correct style and perfect workmanship, now comes only from the great metropolitan centers.

A small local tailor shop is today impractical and unprofitable—

It has no labor market from which to secure desirable cutters and tailors—

It cannot afford to install a modern plant designed to reduce cost of production—

It doesn't do sufficient business to enable it to buy woolens direct from the mills—

It cannot keep abreast of metropolitan styles and workmanship.

Clothes we supply in our custom tailoring department are made exactly to the measure of the individual by the "House of Over a Thousand Tailors," Ed. V. Price & Co., of Chicago, and cost you about half the charges of a small tailor.

Owens conducted the negotiations, which involved some $4,000 for lease and established business. Messrs. Saxon and Honse are very agreeable gentlemen and propose to make the hotel business their chief consideration.

Last Saturday afternoon the little sloop yacht "Guiding Star," flying the flag of the Church of England Institute for Seamen, put into the harbor on her way from Vancouver, B. C., to Portland. She was in charge of Leopold Bernays, late of the Royal Navy, who with his two associates are in charge of the Institute for Seamen in Vancouver. The Guiding Star is by no means new, tho but recently acquired by the Institute. She is but 18 feet long and hardly the build one would choose for a voyage to Portland. Mr. Bernay's friends are anxiously awaiting to hear of his safe arrival.

THE PROPOSED AMENDMENTS

Powers of Eminent Domain to Logging Companies and Assessment of Corporations Differently.

Two constitutional amendments are to be submitted to the voters of the state in the November election. One of these was defeated two years ago. It gives to logging companies powers of eminent domain, or in other words, enables the timber owners or the manufacturers of timber products to acquire rights-of-way across other property by condemnation procedings for the purpose of getting their products to market.

The amendment to be voted on this year is almost identical with the one defeated two years ago. The older one added slightly to the existing provisons of the constitution permitting the taking of private property by condemnation for drains, flumes and ditches for agricutural, domestic and sanitary purposes. The amendment to be voted on this year does not enlarge this provision.

The other amendment to be submitted this year gives constitutional sanction to the assessment of one class of property differently from other classes. If carried it will permit the legislature to enact laws exempting or placing a very small tax on money in banks and segregating state from local taxation.

The adoption of the amendment will undoubtedly be considered by the legislature as an approval of a change in the present system of combining local and state taxation. The plan proposed is to assess all railroad property and the property of public service corporations in general, only for state taxes. Under such plan the corporations would pay all the state taxes and other property would be assessed only for local taxes.

Superintendent Geisness, in presenting the diplomas, made a splendid address to the class, paying them a high tribute for the earnest endeavor they had made and for the pleasant memories they had left with both school and teachers.

Our common schools are the hope of the perpetuation of the republic and it is well that they are grandly sustained and appreciated.

IT WAS AWFUL!

Don't mention it to a soul. The Angeles ball team has redeemed itself somewhat. They went up against the Townsend Colts Sunday and took the scalps of the Key City bunch to the tune of 26 to 3. It was awful. The Townsend team with a party of friends came down on a little local steamer, arriving at noon after a pleasant trip. They were in good condition and very confident, but alas, the local boys were too much for them. They took their defeat good naturedly and returned home at 5:30. The manager of the team was heard to remark that "Sunday closing in Angeles has Townsend skinned, as the barkeepers in the latter place do know their friends, but here there is nothing doing."

BLUE MOUNTAIN

Last Friday school closed in district number forty five with a picnic and program. Miss Haggerty returned the next day to her home in Seattle.

Claude Lewis came out Saturday for his wife and babe, who have been spending a few weeks with grandpa and grandma Lewis. They have gone upon a ranch near Angeles.

Mr. and Mrs. Fred Mackenheiner attended Memorial Day exercises in Angeles and find a four hour drive to town much ahead of the old way when it took two days to go to town and back.

Mrs. H. C. Breckenbridge spent a few days with friends in town; her daughter, Mrs. McMillen returned with her for a three days stay.

Francis Stevenson spent Sunday with his mother, Mrs. Jennie Campbell.

Peter Epson came home Monday from Crescent to assist Kelly on the ranch.

The dance for Saturday night has been postponed as so many are to be away that day.

The Farmer's Wife

Is very careful about her churn. **She** scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading leachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a *free* copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.
