PORT ANGELES THE LAST WORD IN SCENIC BEAUTY

"If Port Angeles is as You Describe It, Buy Me a Home and I Will Be there with My Family at Once."

Dr. G. W. Crouter, who with Mrs. Crouter is visiting in the city, is in love with Port Angeles, as one will soon discover in talking to the gentleman a few minutes.

Mr. and Mrs. Crouter, whose home is in Michigan, were in Victoria where the Doctor is also largely interested in the lumbering business, when it occurred to them that the British Columbia capitol was the place for their son, Mr. George Crouter of the Port Angeles Title Co., this city, to locate for financial as well as other reasons. Consequently Mr. Crouter, the younger, joined his parents in the British metropolis across the strait.

After looking over the situation there a few days, Mr. Crouter, Jr., having heard of Port Angeles, decided to make our city a visit. Returning to Victoria, he accosted his father with, "Dad, I want you to go over to Port Angeles with me." "Why, what is there over there, my son," was the reply. "Well, I just want you to go over and see for yourself. I am going to locate in Port Angeles, and I want you to see the place." "Nonsense, my boy," replied the elder Crouter. The following afternoon father and son, with two or three friends, took a stroll along the gravelly beach on the other side. The day was a perfect one, the air bracing and the scenery magnificent. This was noted by Dr. Crouter, when he added, "Where can you find anything finer than this?" "Over at Port Angeles," was George's quick retort. "Well, my boy, we'll go over there and see," and they did.

Mr. Crouter says that he hired a team and drove all over the city and out into the country with his son, and the longer they drove and the farther they went the more enthusiastic they became with the country, and more especially with Port Angeles. Mr. Crouter admits that he did not enthuse quite as rapidly as did his son, but that he caught the fever all right, and believes that Port Angeles is destined to be a great city some day—a city of twenty to thirty thousand. He is sure that the Earles mills will be built and that the railroad proposition is a go. He says Angeles has a great future before her, but that the people now here must improve the city. The First street bluff must be cut down, the streets graded and the sea wall built. Then Port Angeles will advance beyond the expectations of the most sanguine.

In speaking of the rows of electric lights to be seen in Victoria, 18 miles across the strait, on every pleasant evening, Dr. Crouter said he was one of a party the evening the U. S. S. Charleston was anchored in our harbor recently, standing on the bluff near the Laurel street zig-zag, enjoying the delightful scene across the strait, as well as the brilliant lights on the shipping at anchor on the placid waters of the bay, when Mrs. Crouter called the attention of the party to the fact that theywere missing the most beautiful sight of all, the glorious glint of the sheen from the silvery moon across the snow-capped crest of the Olympics at the south of them. Dr. Crouter has traveled far and wide, but said that the scene on a bright moonlit night in January, 1913, Port Angeles outclassed them all for grandeur.

Dr. Crouter is also a good booster for Port Angeles. He went home and immediately wrote a letter to a brother-in-law residing in Michigan, describing the beauties of the place, and the moonlight scene in particular. In reply the recipient of the letter wrote, "If Port Angeles is as you describe it, buy me a home and I will be there with my family at once."

WILL BE KNOWN AS THE "PEOPLE'S" DOCK

The steamers of the Inland Navigation Company began landing at the Morse dock Tuesday, which is now practically complete. The new dock is a credit to the city and has supplied one of the crying necessities of the hour. The old warehouse and office will be used for the present but later these will be replaced by more modern buildings. The outer end of the dock is new thruout, being 100x300 feet with all creosoted pilings, and braced from either direction to prevent straining from side strikes. Besides this, the approach of about 450 feet has been entirely rebuilt with the exception of the planking which is practically new. The outer end ofthe dock, in addition to being considerably wider, has also been extended about 100 feet, giving 30,000 feet of space available for freight handling. Coal bunkers of 250 tons capacity will be built It will be known as the "Peoples" dock—tho owned by the Navigation Company, a Guggenheim corporation.

BROTHERHOOD WILL DISCUSS CITY LIBRARY QUESTION

The next meeting of the Congregational Brotherhood will be held in the Congregational Church Monday evening, Feb. 17th. The supper will be served at the usual time by the Ladies Aid, after which a program will be rendered. One of the features of the program will be a discussion of the City Library question, introduced by S. E. Stakemiller and Dr. D. E. McGillivray, after which the question will be open for general discussion.

MOOSE BANQUET SWEETHEARTS

MECCA OF MOOSEDOM REIGNED SUPREME IN PORT ANGELES MONDAY NIGHT

Two Hundred People Were Seated at Banquet Given by This Popular Order.

The Banquet given by the Loyal Order of Moose last Monday evening for the members of the order, their wives and sweethearts and visiting Moose, was a grand success. Never before in our city has there been a more representative gathering assembled in banquet.

11,000 Roses and Sprays of Oregon Ivy Used in Decorations.

The hall decorations could not have been surpassed. C. E. Miles was the originator of the general plan of decoration. To show his loyalty to the order he spent almost a month in preparing 11,000 paper roses, each fastened to a sprig of Oregon Ivy. These were strung in very artistic manner throughout the entire area of the large hall room, together with appropriate bunting, flags and pennants. The Moose head, a magnificent specimen, was placed in the center of the stage and was beautifully decorated.

Opened Festivities with a Rousing Moose Yell.

The opening scene — the officers and degree team were in full uniform on the stage—the curtain was raised and they gave the Moose Yell which would have done credit to a University foot-ball game, after which a photograph was taken.

The New Orchestra, consisting of Theo. Jensen, the wonderful violinist, Chas. I. Thompson on the cornet, W. A. Pollitt on the trombone, W. H. Taylor on the flute, C. E. Kimball with the drums and Howard A. Campbell at the piano, furnished delightful music for the evening.

The speech makers of the evening were Wm. B. Ritchie, G. V. Smith and J. P. Jensen, whose addresses were to the point and much appreciated.

The vocal selections of the evening were rendered by Miss Sadie Robertson, accompanied by Mrs. C. E. Brown, and the audience was so taken with the numbers that it decided that they are entirely eligible to become auxiliary members of the Moose. Very frequent interspersing by the orchestra added to the pep of the evening and while the 200 people were seated at banquet they allowed no moment to wane.

The banquet was very ably handled by W. E. Brown, the popular caterer of the town. The remaining time was fully occupied by the lovers of the dance, all arriving home at an early hour, feeling that the Mecca of Moosedom reigned supreme in Port Angeles.

Sheriff Gallagher picked up on Wednessday C. F. Devoe, recently from Vancouver, charged with extracting something like $100 from the till of the Angeles Hotel while the owners were out of the office. Devoe, with a companion, has been taking pictures of business houses for some days past. His partner is in no way implicated in the robbery.

SUPERIOR COURT PROCEEDINGS

LIEN ON SHINGLES HOLDS GOOD ONLY SO LONG AS PRODUCT IS AT THE MILL.

Shingle Weavers Lose Their Case Against the Seattle Shingle Co. which Purchased Shingles.

Judge Ralston gave a decision Monday in the case of J. V. Coolidge and others vs. Seattle Shingle Co., which is of considerable moment to shingle weavers and loggers who dwell securely in the belief that they have a thirty days lien after quitting work. The Judge stated that it was against his wishes that he gave the decision in that he liked to protect the workingman at all times.

The case at bar was that at the time of the closing of the Clallam Co. Shingle Co.'s plant two years ago the employees placed a lien on some 600,000 shingles to secure them. 400,000 "Perfections" of these had been delivered at the landing of the Seattle Shingle Co. at Freshwater, and after being levied upon by the Sheriff were removed by the defendants Seattle Shingle Co. before the date set for their sale for the benefit of the workmen, the shingle company alleging and at the trial proving that they had paid for the shingles before the liens had been filed.. The Court decided that the case has been decided by the supreme court and that he must follow its decisions, but thought that all workmen in this line should be advised that they have a thirty days' lien on their products only so long as they keep that product at the mill or in the control of their employers.

The Court also gave its decision Monday in the case of Irwin-Hodson Co. v. Clallam County and its Treasurer, to compel the treasurer to pay a certain warrant issued many years ago. Defendant demurred to the complaint alleging that plaintiff must show that the claim for which the warrant issued had been regularly passed upon by the Commissioners. The plaintiff held that the warrant took the place of the claim, and it was up to the defendant to show if they could that the warrant was illegally issued. The Court took the matter under advisement and overruled the demurrer, giving defendant thirty days to further plead.

Mrs. Lottie M. Bowen was granted a decree of divorce from John A. Bowen, formerly an engineer at Dungeness, now of Mt. Vernon. She was also given her maiden name, Lottie Wilder.

In the case of Geo. W. Moore v. E. M. Pound, the Court refused to vacate a judgment rendered against defendant last year on the ground that a sufficient showing had not been made.

Arthur Ahlvers was named guardian of Herman and Fred Ahlvers, minors.

$240.00 AN ACRE

Ray Maxey has sold his ten-acre tract southwest of town to Sam Greenfield, who will take possession this week, says the Sequim Press. $240 an acre was paid for the tract.

$30,000 MUST BE RAISED AND THAT AT ONCE

Realty Dealers Committee Has Secured Over a Third That Amount and Hopes to Complete the Fund within the Week.

The citizens of Port Angeles were called together at the Commercial Club rooms Wednesday afternoon to hear a report on the right-of-way fands by Attorney J. W.Lindsay. Mr. Lindsay stated that he was recently requested by Mr. Erickson and associates to send in a list of the old notes signed up for right-of-way and terminals, also new notes signed and the status of the right-of-way question generally. He replied at that time, giving the latter, but failed to give the amounts raised for the reason that he was somewhat ashamed of the showing,only $55,390 of the $85,000 being subscribed. This week, however, the gentlemen had called upon him in person and he had to give them the figures upon the pledge of the Commercial Club, upon which pledge they have pledged to others. Mr. Erickson said he was surprised, and asked that the matter be fixed up without delay, as he did not want to come in here and go to work with such a deficit facing the Club, as this undoubtedly would compel his company to begin an action against the Club to make good their claim. He was of the opinion that the citizens here would have to act and act quickly as he will have to act one way or another very shortly. Mr. Lindsay stated that he had been called to Seattle Friday to appear before a meeting Saturday to give the details of what has been done, and he hopes that things will then be in shape so that he can report the bulk of this balance subscribed. I believe, he said, that this is very important and may have a terriffic bearing upon the case.

Mr. Lindsay then went into some detail, mentioning some names of people who have promised to give right-of-way or effect a settlement, but who had gone no further. He also called attention to the fact that some outsiders are putting obstacles in the way of the company at every turn by taking options on lands known to be in line of definite location and filing these options of record. From now on I will have to take the position of seeing the parties once, and if they don't make arrangements for giving a deed the court will have to decide the matter.

Mr. Brumfield suggested that an easy way out would be to let the terminals go elsewhere, as the people here did not seem to want them. The $55,000 subscribed would take care of the right-of-way.

Mr. Cain, Mayor Mead, and others spoke at some length, the latter suggesting Mr. Day as chairman of a special committee to go after this deficiency. Mr. Lindsay asked that the Press be added to this committee and accordingly Mr. Day, Mr. Pratt of the T.-T. and Mr.. Webster of the O.-L. were named a committee, and Mr. Tomasson chairman of the realty dealers of the city, who immediately called a meeting for that evening.

Mr. Peet then came forward with a note for $1,000, and Mr. McCarthy stated that he would feel safe in pledging $500 each for his four associates in the Angeles Realty Co., and would himself sign for $500. He would agree to raise the $2,500,and perhaps more.

The meeting of the realty dealers in the evening was attended by practically every real estate dealer in the city, some forty being present, who after organization selected a committee of ten to canvass the pledges and secure subscriptions for the necessary remainder.

PAYMENT MADE ON FRANCIS STREET

Contractors Draw $1640 on Additional Work Done. Two Years' Work Contemplated.

The re-establishment of the grades of the city was again taken up in an ordinance covering the recommendations of Engineer Barkhoff, and adopted.

City Engineer Filion brought in an estimate of additional work done by Hahn & Grierson in the sum of $1640, and the amount was allowed.

Street committee was asked to look after repair of First and Francis as traffic would soon all have to go that way while Front street cut is being made.

Agreement between city attorney and railroad company was approved and counsel directed to hold same in escrow.

Resolution was carried that application be made to land commissioner for right-of-way dedication along the railroad right-of-way from Oak to a conjunction with Railroad avenue at E street.

After adjournment a conference was had relative to the securing of the services of the engineer for future work, the old agreement of $10 a day having expired. Mr. Barkhoff stated that he could not say just what would be expected until he knew about what the city proposed. It is probable that the city will undertake the grading of all streets between Peabody and Valley and east and west streets back to Fourth or Fifth. This he would recommend be done in one contract if possible. Some of the streets north and south should be graded to the Boulevard, all between Valley and Peabody. With the work outlined and with the sea wall and sewers there would undoubtedly be 18 months to two years work.

HAVE YOU DONE YOUR SHARE TOWARDS THE TERMINALS

Have you given your share toward the $85,000 pledged by the Commercial Club to Mr. Erickson and associates to insure the early commencement of work on the railroad which means so much to this city and county, and which has already proven of such great value with only the possibility of construction in sight? You might say yes, and believe it, and you might be fully aware that you have not done near what you should have done, and the thought may at times have caused you some uneasiness when you follow it up to the conclusion that those who have done their share and more will also have to do the share of those who have shirked their responsibility in order to bring about the consummation of that much to be desired end — the construction of a railroad to Port Angeles, which in this instance also means the immediate construction of half a dozen big industries and possibly more tributary to this city. The measure of the just man who wants to do his share is found in the value of his property today and its value a few months ago. Then if he wants to go a little further he might consider the possibilities of a sale today and then.

HAVE CALLED FOR BIDS

The county commissioners met in adjourned session Monday to consider plans and specifications for the proposed Elwha bridge. The plans submitted having been approved by the state highway commissioner, the Board ordered the publication of the call for bids which will be found on another page of this paper. The bridge contemplated will have a single pier and will be a steel structure thruout.

The Recall of Dishonest Judges

The proposed amendment to the state constitution placing the judiciary in the recall list was looked upon by the majority, the standpat Republicans in the legislature, as a strictly progressive measure and was therefore promptly turned down.

The United States Senate dismissed Judge Archbold a few weeks ago. Think you that he should not have been recalled? When an official, be he judge or legislator, has become corrupt and been proven dishonest he should not be permitted to continue his corrupt practices.

Judge Archbold's offense, according to Senator Root, was that he "used the power and influence of his office as a judge of the Court of Commerce to secure favors of money value for himself and friends from railroads, some of which were litigants in his court and all of which were under regulation of the Interstate Commerce Commission.

As the Saturday Evening Post well says: "That sounds tolerably plain." But this did not deter Senator Penrose, a dean in standpatterism, from exclaiming: "My faith in Judge Archbold is unshaken." Again the Post truthfully says: "There speaks the Old Guard, which will presently be exemplifying like faith in every syllable of the tariff."

Judging from the line-up and the vote in the legislature on the subject of recall with that of the vote of the three great parties for president at the recent election, the day is not far distant when the recall, with proper safeguards, will be a weapon of the people against all unfaithful and dishonest public officials.

Again, quoting from the Post, "But it has been said many times, by persons in a good position to form an opinion on the subject, that ten years ago the senate would not have voted to depose Judge Archbold."

Thus public opinion as expressed both east and west, north and south, on the subject of recall and square government in general acted on the nerves of the senators and unfaithful Judge Archbold stepped down and out.

There can be no more valid reason why the senate should be empowered with perogatives for the removal of a malefactor in office than that their peers, the people, should be empowered to do likewise. The constitution empowers the senate to act in the premises. The sovereign people elect judges. If competent to elect, why not competent to recall?

Justice W. O. Howard, one of the supreme court judges of the state of New York, in a speech before the La Salle Institute at Albany, N. Y., last week, said: "Let us not deceive ourselves, the spirit of recall is spreading; the impatience of the masses growing deeper. Something will happen. Unless the judges act, the people will act; if they do not resort to the recall, they will revise the constitution and create new courts—courts that will do rough justice; courts close to the common people; courts without technicalities, sophistry and delay, and where substantial right prevails."

The State Legislature

The mothers pension bill, the first really important measure to be considered by either branch of the legislature, passed the house Tuesday by a vote of 87 for to 4 against. This paper gave a brief text of this measure last week.

And then while on its good behavior, the house proceeded to shelve the salary increase bill. The measure proposed to raise the salary of legislators from $5 to $10 per day. One member suggested "that even the present price is too high for services rendered," and the statement strikes a responsive chord here in Clallam county. Oregon pays her law-makers $3 per day, and there is no dearth of candidates. The measure was defeated by only six votes. Mr. Beam voted with the majority. Representative Sims of Jefferson was the father of the bill.

The senate committee on roads and bridges has agreed to report favorably the house bill providing for a mill and a half levy for the state highway fund. As soon as the increased tax levy is assured, a subcommittee will agree on an appropriation bill to cover road work to be done by the state during the next two years. L. D. McArdle, chairman of the house committee, is insisting on a fair apportionment for the Olympic Peninsula road, and undoutedly he will be able to get it.

H.B. 108 provides that State Road No. 14 shall begin on the north bank of the Duckabush river to connect with the Mason county road.

J. E. Barnes, secretary of the Port Angeles Commercial Club, and actively promoting the peninsula road, was primarily responsible for breaking up the Coffman combination, which sought to eliminate all trans mountain roads. Mr. Barnes has been at Olympia long enough to learn that the mountain roads cannot be ignored and to discover that the bellicose attitude of the Southwest would injure rather than help that section.

The house has passed a bill to submit to the voters a constitutional amendment permitting aliens to hold land in this state. Japanese and Chinese are excluded.

The senate has voted to impose a bounty on crows. But won't the boys of this town have a picnic!

The senate is also of the opinion that 15 per cent for delinquent taxes is exorbitant.

Lincoln's birthday was celebrated in the senate last Wednesday with W. H. Thompson, a confederate soldier, as the principal speaker. Thus is the north and south united.

A road tax levy of 1½ mills, calculated to raise $1,500,000 annually for permanent road building, passed the house. If the senate approves this tax, with the half million dollars already on hand the state will have ample funds to begin permanent road work without issuing bonds.

There was an unsual scene in the Minnesota legislature a few days ago when the question of electing a United States senator came up Knut Nelson, the senior senator, was a candidate for re-election and the choice of the republican party. The democrats had no candidate and when the votes were cast every member present, democrats and republicans, voted for him and he was unanimously elected. It was a tribute to his sterling worth and manhood. Such a case has never before occurred in this country.

Port Angeles has three moving picture shows and each is well patronized. Do you know that the picture shows of the country are exercising a wonderful influence, sometimes good and sometimes bad, but in the main for the better. It has been found that in many cases they have reduced the attendance in saloons materially. They afford a cheap means of entertainment for the single man and the whole family as well. There should be a censorship, an intelligent scrutiny, but nothing of the puritanical sort. The moving pictures are here to stay and are yet in their infancy for doing good.

As an indication of the great demand for houses to rent in Port Angeles, a lady called on the Olympic-Leader for information and was told of the house on Laurel street just vacated by Ray Haynes and family. "Oh," the lady replied, "I enquired about that place days ago, and was told that there were a dozen applicants ahead of me."

The government has announced applications for timber of the Olympic National Forest as follows: 40,000,000 feet south of Washington Harbor, presumed to be wanted by the Sequim Logging Co., 250,000,000 feet on Snow Creek in Jefferson county, 200,000,000 feet west of Brinnon, on the Dosewallops, and 50,000,000 feet on the Elwha and Ennis creek.

1912 taxes are now due and payable. If you pay your taxes before March 15th you will receive a 3 per cent rebate, and several of the big holders take advantage of this provision. Payment may be made in full after March 15th, or half payments will be received up to May 31, when if so paid the balance may run until Nov. 30 without interest.

The logging camps of the county are opening up and will soon follow the shingle mills and road work, and if as seems probable, railroad work also comes in for 1,000 men, and building starts, with the multiplicity of smaller jobs, we will have to ship in some help.

SAM WILBER OF SEQUIM BURNED OUT

Sam Wilber and family were burnt out of house and home on Wednesday morning. They were living in the house on the Kilby farm on Long prairie, which they had under lease. Clothes drying around the sitting room stove caught fire while both Mr. and Mrs. Wilber were outside and the two younger children were alone in the house. Mrs. Wilber had barely time to pick up the children and escape with them. There is $350 insurance on the building, but none on the furniture.—Sequim Press.

MILLINERY ANNOUNCEMENT

The Leader Department Store is pleased to announce to it's customers that hereafter, as soon as the Spring season opens, a complete Millinery Department will be added.

No business is good unless it has good, honest and keen competition. With this view in mind, we are this Spring going to enter the field and be in a position to supply our many customers with some mighty fine looking hats with prices late years not heard of. We have the room, we have the location and last but not least we have the trimmer.

The Leader Department Store will soon celebrate its fourth birthday. Up to this time there have been two or three hat shops every year; for that reason we have kept out of the Millinery business. This year there is only one. This is the opportune time for this store to expand and have a first class up-to-date Millinery Department.

We are satisfied that our customers will welcome and appreciate this announcement. We assure all, that Millinery Goods will be sold as reasonable as all other merchandise that we have heretofore supplied them with.

Mrs. McNeil, who is now in the trimming department of a large wholesale house, will be employed by this store as trimmer and sales lady. Mrs. McNeil having resided here for the past three years, n eds no introduction to the millinery trade. She will be better equipped than ever before, as she has the best opportunity this year to see and learn the very latest style in the Millinery Art. Opportunity of advantage is all in her favor.

Ladies' Spring Suits and Coats

Are now on the way from the East. Both will be sold at factory prices as our arrangements are only to receive a traveling man's commission, and the factory carries the stock in our store. This new venture will mean quite a saving to our customers.

Spring Bolt Goods Are Now Arriving

Our selection this year will surpass any preceeding year. Prices on many articles are lower, and as soon as President Wilson hits the tariff bill a good lick, prices will be still lower. Watered stock will be the only individual to get hurt.

PROCEEDINGS BOARD OF COMMISSIONERS

Tuesday, February 11, 1913, at 9 a. m.

The Board met pursuant to adjournment, all members being present.

The Board decided not to pay any additional bounty on cougar and wolves after February 28th inst., on account of a ruling by the Attorney General holding that Counties have no authority to do so.

All requirements of the law having been complied with, the Board approved plat of Seaview Park Addition to Port Angeles, being a subdivision of SW¼ SW¼ NW¼ of Sec. 13-30-6, filed by Thos. T. Aldwell & Co.

The Board having received the report of the State Highway Commissioner on plans for Elwha bridge, approved said plans and instructed the Auditor to call for bids for said bridge according to said plans and specifications, to be opened on March 10, 1913, at 2:00 p. m.

The Board met with the Health Officer as County Board of Health, and discussed conditions at Sequim, it having been reported that the quarantine is not being properly kept, and the Health Officer was instructed to investigate said reports and to use all means in his power to stamp out the scarlet fever epidemic at that place.

The Board adjourned to meet on Monday, March 10, 1913, at 9:00 a. m.

Mrs. Herman Fisher was hostess to the W. L. C. on last Friday afternoon, Feb. 14th. In honor of St. Valentine the rooms were decorated in hearts and cupids and the program was also suggestive of the dear old saint. The most enjoyable feature of the afternoon's program was furnished by Miss Statira Wilthies, an elocutionist of Seattle, who is a guest at the Fisher home. In a most inimitable manner, she rendered two recitations in dialect, which certainly "brought down the house." A heart shaped card was presented to each lady with the request that she write an appropriate verse or poem upon it. Miss Wilthies and Miss Daisy Finch were awarded prizes for writing the best ones. Stories of first sweethearts and valentines were told by different members and Mrs. Fisher produced and read a poem written to her by her first sweetheart many, many years ago. Dainty refreshments were served before adjournment, and all declared they had spent a most delightful afternoon.

One of the pleasant social events that escaped the attention of our local news gatherer was the surprise given Mr. and Mrs. F. Schular on Sunday, February 9th, almost every German lady in the city participating in the surprise upon this worthy couple. Well filled lunch baskets and a delicious spread in no wise diminished the pleasures of the happy occasion. The surprise was in the nature of a farewell to Mr. and Mrs. Schuler who leave soon for Bellingham to make their home, after a residence here of something like twenty-four years. Mr. Schuler is the owner of a twenty acre tract near Bellingham, where they will reside. Their many friends here will be sorry to see them go. . Their son, Mr. H. STAR THEATER SOLD

There is another business change in Port Angeles this week, E. D. Gatchett & Son having sold their interest in the Star Theater to Seymour H. Kruse, from Seattle. The Messrs Gatchett gave their last picture show Tuesday evening. These men have conducted this business in Angeles for the past two years and with marked success. Under their management the Star Theater has been a popular resort for the amusement loving public. Mr. Gatchett returns to Seattle, where his home is, and will engage in the same business in that city.

Mr. Kruse and his wife are strangers in our city, but will be welcomed by our people, who no doubt will continue their patronage with this popular show house. Mr. and Mrs. Kruse were quietly married in our city only last week, announcement of which appeared in this paper at the time, and they were doubtless so well pleased with themselves, and each other, and Port Angeles, that they decided to remain with us.

We understand that Mr. Kruse contemplates extensive improvements on his play house in the near future.

THE CITY COUNCIL

Tuesday night was the quietest session the city council has held in many weeks and the quietest in store for some weeks to come, judging from work in sight. All members were present.

A resolution was presented by the city attorney as a memorial to the State Legislature asking that a constitutional amendment be submitted to the people for the extension of harbor areas in front of city.

Petition of restaurant men was read asking council to prohibit lunch rooms in saloons. Referred.

Street Supt. was directed to blow stump on 5th street between Oak and Cherry so as to get it out of the way before party builds.

Top railing on Peabody bridge was ordered removed to prevent venturesome boys walking on same, and ordered placed below lower railing for protection of smaller children who might fall and roll off.

N. R. Smith building at Front and Vine streets was reported to council, in a dangerous condition. Referred to Fire Wardens.

Council then adjourned.

The Firemen are giving their annual hop Saturday evening, February 22nd, in the opera house. Everybody in Angeles is, or should be, interested in our fire boys—the men who turn out on every occasion when called upon to fight fires and save our property from destruction. Then we should be willing to assist them in every laudable undertaking, and give them a benefit this time. If you don't dance, send your dollar along anyway and help the boys out. It will be appreciated. Gentlemen 50c; ladies 25c.

E. E. McMahan of Seattle was in Angeles a couple of days this week. He says that they expect to come back to our city about the first of April to resume their traffic to the lakes and hot springs with the big red cars.

George W. O'Brien, editor of the Sequim Press, was a business visitor yesterday. Mr. O'Brien states that it certainly looks like business around Sequim in the railroad and building line and that realty is moving with a vim.

Be sure to keep in mind the date of the next entertainment course, February 25th, and come and hear The Strollers sing, play and read. You will never regret it. Tickets 75c.

Joaquin Miller, poet of the Sierras, is dead. Joaquin Miller, says his biographer, was as much a product of the Pacific coast country as the giant redwoods or the armied firs.

If every bill introduced in the legislature should become a law the state would be in a deplorable condition.

That hammering noise is not coming from the chronic knockers. It means civic improvement for Port Angeles.

Woodrow Wilson will take the presidential chair the best advertised of any president-elect in the history of the country.

The Iowa legislature, now in session, will pass a law allowing a vote on a constitutional amendment at the next election prohibiting the licensing or sale of liquors in that state, unless we lose our guess.

R. Kilmer, who has been in Victoria, B. C., for the past year, is back in Angeles again. Port Angeles is one of the principal subjects discussed in the British Columbia capital just at present, according to Mr. Kilmer.

The Standard Oil company cut another dividend melon first of the month and John D. Rockefeller had to content himself with a $10,000,000 slice. That represents a year's sustenance and comfort for over 15,000 less fortunate families.

Over in England the suffragettes are trying to convince John Bull to give them the ballot by smashing him in the face and kicking his shins, while over here they try to coddle Uncle Sam by tickling him under the chin and looking pleasant. Which, think you, will be the most successful?

Jacob Lukov, of Vancouver, B. C., ormerly from San Francisco, and always a friend and believer in the future greatness of Port Angeles, was here again last week, adding to his realty holdings. Mr. Lukov is very optomistic as to the future of our city and says Port Angeles is sure to forge to the front this time, and that he expects to be here every two weeks in the future.

At the Seattle Chamber of Commerce banquet the other day Governor Lister said, "We want less advertising outside of the state and more development on the inside." The governor is correct as to his second hypothesis, but we are not so sure as to the first. We want more development at home. Outside publicity in an endeavor to secure the bringing into the state of more people and capital is also correct, but we must do something for civic betterment ourselves if we expect to prosper finacially and commercially. It is evident on every hand that our people are waking up to this fact and Port Angeles is beginning to orge ahead as never before.

THE STATE LEGISLATURE

Mr. Chamberlain, from Whatcom county, evidently realizes the importance of the necessity for the removal of dishonest judges, and proposes that the governor, instead of the people, be clothed with authority for their removal. To meet the argument that a corrupt judge might take advantage of such a law, Mr. Chamberlain would recall the governor. Why not get down to first principles at the start?

Representative Dunning of Whatcom thinks that Secretary J. E. Barnes is too persistent as a lobbyist in his demands for the rights of the Olympic Peninsula, and demanded that Mr. Barnes be removed from the floor of the house. The objector lost out when informed by Speaker Taylor that Barnes had a privilege card.

One patriotic legislator would attempt to tighten up our present gambling laws by making it a gross misdemeanor to shake dice for cigars.

Good roads enthusiasts scored a signal victory in the senate when that body followed the lead of the house in adopting a million and a half levy to be expended on the construction by the state of seven great arterial highways, which are to touch every vital part of the state of Washington, and when completed will be a magnificent web of state roads with which permanent county roads can connect.

The question of this levy, which will mean the expenditure of $1,500,000 each year on the construction of these roads, is now up to Governor Lister for approval. The next big road problem to be submitted to the upper house is the bill passed on Thursday of last week by the house providing for $2,500;000 each year for the construction by the counties themselves of permanent highways.

It is thought by some that Governor Lister may veto these measures on the grounds of economy.

Tuesday, the omnibus appropriation bill, carrying $9,563,626.07, was completed by the joint appropriations committee. The total includes all items from both the general and special funds that are effected by the omnibus bill. The compiling means much detail work; it represents four and a half weeks of almost continuous work on behalf of Senator D. S. Troy, chairman of the senate committee.

Today is the last day in which new bills may be introduced in the legislature, except on special order. The total number of new bills is enormous; five hundred and fifty were before the house Tuesday.

H.B. 530, by J. E. Beam provides that every person selling chopped feed must acquaint the purchaser of the ingredients thereof.

The Hughes alien land bill, providing for the submission of a proposed constitutional amendment to the people, passed the house by an overwhelming majority. Under the present constitutional provisions no alien is permitted to own land in the state of Washington. The proposed amendment would remove this inhibition from aliens eligible to citizenship. Orientals not born in this country are not eligible to citizenship. It is claimed that with this restriction removed Canadian capital would seek investment in the state and that business and development would be facilitated. It is evident that our English cousins across the border are confident that the bars are to be removed and Port Angeles is already reaping some of the benefits of the proposed legislation. The Olympic Recorder is authority for the statement that Washington is the only state in the Union having alien ownership laws of any such severity.

Mr. James Lunphy was a Port Angeles visitor this week from Rolla, N. D. Mr. Dunphy, who is a large farmer and land owner in North Dakota, had heard of Port Angele and decided to make our city a visit and at the most unfavorable season for sight-seeing and prospective settlers, during the winter months and the rainy season. When he left home the thermometer stood at twenty below and there was three feet of snow on the ground. Mr. Dunphy was surprised to see no snow here, the grouud not frozen and the weather warmer than in April in his home town, and Angeles so much farther north. He said that the people in his country simply would not believe the stories they heard about the climate of the Puget Sound country. He said it was a revelation to him to see a farmer go to his field on the 17th of February and pull carrots for his stock. In his country roots intended for stock must be housed in a pit by the first of November to keep them from freezing and the pit not opened before the 1st of April and by that time their value as a food for stock was nil. Mr. Dunphy will be a good booster for our climate when he reaches his North Dakota home.

Mrs. O. W. Burdick is looking for a house for rent, but so far is unable to find one. She says that her daughter and family living in Portland would move to Angeles if they could find a house. Three months ago houses for rent in Angeles went begging.

THE DOINGS OF OUR NEIGHBORS

FAIRVIEW

Mr. Land returned from Seattle last week after having spent a few days there on business.

After working nearly twenty months for Mr. Chambers, Ruddy Luther has quit farm life and gone to town to work at the Merchant's Hotel.

Mrs. Bohall spent Saturday night at the Kilmer home. She took her mother home with her on Sunday.

Mr. and Mrs. Phillip McComber came in on the boat last Saturday morning and spent a day or two here with the Harbaugh family before going out to the P. and S. mill where Mr. Mc. is employed. They spent the winter months in Colorado and we are of the opinion that Washington has a "betterish" look to them than ever before.

Singing school has started in a good many of the ponds around here. What song is more welcome than that of the froggies?

Mrs. Lottie Winters and little son Emery Edward spent from Friday until Sunday visiting relatives.

Messrs. Sutter, Fossett and Luke are improving their farms by blowing out stumps the past few days.

Mrs. Fossett is looking forward to an extended visit from her mother this spring.

Those of us who have been on the sick list are all getting able to put our feet under the table three times a day again.

BLUE MOUNTAIN

Written for last week.

Dan Jackson and Chas. Cary got a fine bear last Saturday and Ansel and Charles a cat Thursday.

H.G. Breckenridge leads these parts in ricks of split wood.

Ed Fries has been spending a few days at the home of Mr. and Mrs. Brauer, Sr.

A. B. Camoron and son Lawrence spent a few days at their homestead ast week hunting.

Misses Glen, Birtie Stillwell ,Dorothy Broughton and Chas. Cary attended a surprise party at Texas Valley Saturday night at the home of Mr. and Mrs. Joslin. A fine time reported.

MOUNT PLEASANT

Miss Angie King returned home last Friday accompanied by her sister, Mrs. Toler, who will visit her for some time.

Miss Zella Lee came up from Seattle last Saturday for a few days visit at her home here.

Mrs. Wm. McIvor of Angeles and Mrs. Mollie Phelps of Tacoma visited at the home of M. Eacrett last Thursday. Mrs. Phelps visited Mrs. McLaughlin Friday and Saturday.

Mrs. Epperson took her little daughter to Angeles last Thursday so that she might be near the doctor with her. The child is gaining and they expect to bring her home this week. Mr. Epperson who has been in the hospital there also expects to come home at the same time.

Miss Cecil Garvin returned home Monday from a visit with friends in Angeles the past week.

Dr. Taylor was called to Mount Pleasant Monday to visit Mrs. Henry Boyd, who is on the sick list.

Mr. Lester of Angeles was a business visitor to Mount Pleasadt Monday.

OWNERS, ATTENTION!

Will buy one or more lots on East Front or East First street, between a ce and Penn streets. Give description and lowest cash figure. Address Meyer Krupp, Port Angeles, Wash.

Two good residence lots for sale, fine view of whole city, good bearing orchard; also two lots with five room house and fruit trees. Mary L. Cochran, Cor. 6th and C Sts.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Seattle, Wash., Dec. 26. 1912.

Notice is hereby giventhat Andrew Anderson whose post office address is 706 23rd Ave S., Seattle, Wash., did, on the 12 day of March, 1912, file in this office sworn statement and application, No. 02599, to purchase Lots 2 and 3 of Section 25, Township 32 N. Range 12 W. Willamette Meridian, and the timber thereon, under the provisions of the act of June 3, 1878, and acts amendatory, known as the "Timber and Stone Law," at such value as might be fixed by appraisement, and that, pursuant to such application, the land and timber thereon have been appraised. the timber estimated 595,000 board feet at 25 and 40 cents per M., and the land as of no value; that said applicant will offer final proof in support of his application and sworn statement on the eighth day of March, 1913, before the Register and Receiver, U. S. Land Office, at Seattle, Wash.

Any person is at liberty to protest this purchase before entry, or initiate a contest at any time before patent issues, by filing a corroborated affidavit in this office, alleging facts which would defeat the entry. John C. Denny, Register.

Electric Lighting
Is now recognized as a universal necessity as new inventions and improvements havs so lowered its cost as to remove it from the list of luxuries. Its adaptability and total absence of heat, smoke or odor makes it particularly desirable for the home, store, office and factory. It can be inztalled in old buildings as readily as in new ones. The Angeles Electric Supply Co. will cheerfully furnish all necessary information regarding its use to those who contemplate using it.

HIGH SCHOOL NOTES

By Beth Webster.

The different musical organizations of the High School will render a concert in the new auditorium the evening of Feb. 28th at 8 p. m. The proceeds of this concert will be used toward paying for the piano recently purchased for the new building. Progress in one line means progress in all lines, and so it is in our new building. More room and more convenience, called for another instrument, so we took it upon our shoulders to purchase a new piano for the auditorium, trusting that our parents and friends would help us pay for it, and at the same time encourage us in our musical studies. You are all boosting for the new railway and the sea wall and donating large sums of money toward city improvements, and we are glad of it, but help us also to boost for the school and get our fine new building properly furnished.

Our musical instructor, Miss Thomas, has devoted a great deal of time and work preparing the program for this concert and the girls and boys have put in long hours of practice, so we feel sure you will all be pleased if you come to the auditorium, Friday evening, Feb. 28th. General admission 35 cents, children 25 cents.

Following is the program to be given:

PART I

Chorus—"Blow Soft Winds"—Girls Glee Club.
Instrumental solo—Selected—Vivian Stoval.
Sextette—"Stars of the Summer Night"—Florence Gehrke, Marjory Draper. Emily Campbell, Jeanette Broughton, Ella Pringle, Marcella Schweitzer.
Chorus—"Croon Croon"—Girls Glee Club.
Quartette—"Nature's Lullaby"—Helen Laurens, Lucy MacKechnie Fred Wescott, Ross MacKechnie.
Instrumental Duett—Vivian Stoval, May Brumfield.

PART II

Chorus—"Springtime Revelries—Girls Glee Club.
Vocal Solo—"In the Garden of My Heart"—Helen Laurens.
Sextette—"O, Lovely Night"
Instrumental Solo—Selected—Verna Wolverton.
Quartette—"When You and I Were Young, Maggie."
Chorus—"The Parade."—Girls Glee Club.

The teachers as well as pupils have been very busy this week practising for the different school entertainments to be given soon in the new auditorium.

We are pleased to announce that the first of the three editions of the Tum Tum is now fresh from the hands of the printer and ready for sale.

The girls basket ball team has been putting in extra hours practising this week getting ready for the public exhibition of their skill Friday p. m.

The hand painted covers on the patriotic programs sent out by the 7th and 8th grades are worthy of special mention and have been very much admired. We hope they will reap a harvest of dimes at their program Saturday afternoon.

The 7th and 8th grades under Mrs. McNutt and Miss Watson with the assistance of Miss Thomas, have prepared a patriotic program to be given Saturday afternoon at the new auditorium. Everyone turn out and patronize these school entertainments and help the boys and girls pay for their new piano. Admission ten cents.

Mrs. Perry and Mrs. McDougall are visiting at the home of Dr. and Mrs. D. E. McGillivray. Mrs. Perry is on her way to southern California where she will visit Mrs. Griggs, formerly of this city.

JENSEN, THE SHOE MAN

MORA

The Rhododendron made a trip to the Quillayute last week.

Mrs. Carr, the Mora teacher, was called home by the serious illness of her father.

Mr. Saul, salesman for the Pickard-Garde furnishing house of Seattle is in the West End, combining business and pleasure. He and Max Klahn have formed a partnership and gone into the fur and curio business.

Mr. Thresher, the oil man, and H. O. Milbourne made a trip down the beach to investigate an oil seepage. Mr. Thresher reports everything O. K. at Forks, where work will be resumed as soon as the larger casings arrive.

The first dance on Quillayute for a number of years was given by Mr. and Mrs. Chas. Hosack at the Wentworth place. All the neighbors and a number from Forks made merry till breakfast time, which is all the comment necessary regarding the enjoyment of everyone present.

Mr. and Mrs. Theodore Klahn are guests at the Rixon home on Teahwhit Head.

Eben Morse is shipping steel heads galore, the Palmer boys taking out 6,000 pounds the last boat.

To Lee Palmer belongs the distinction of being the youngest freighter on the road. When a boy of 15 takes his four horse team over a road that tries an old teamster he deserves mention.

LINCOLN HEIGHTS

Mr. and Mrs. Matt Errickson, went out to the Hanson & Glenert mill Monday evening.

Mr. Ester and Mike Doyle have gone to the Goodwin camp to work.

Work on the Tumwater bridge is being delayed on account of lack of material.

Mr. Henhslein is improving his place by putting a wire fence on two sides of his lots.

Fred Tolf has returned from a visit to friends in Kent.

These fine days are suggestive of picnics. One was celebrated Tuesday on the lots on 10th, between C and D streets, by the gentlemen who are cleaning them, and their friends.

Mrs. Headlee and Mrs. Jackson and children visited at the home of J. A. Epperson Tuesday and Wednesday.

Mrs. Geo. Ristine's mother, Mrs. Haig, left for her home in West Branch, Mich., Wednesday.

Mrs. N. D. Harding has returned from a visit to her son, C. V. Harding.

Mrs. Walby is again on the sick list.

Mrs. Gran is gradually growing weaker.

Mrs. Cowan's health is improving and she thinks she will not have to go to the hospital.

It was on 6th street, not 7th street, as announced, where Mr. McLellan sold the lots. This was the reporter's mistake.

Mr. and Mrs. Henry Hemne spent Monday night at E. B. Fleming's.

DE FUCA

Mrs. Wooding went to Seattle last week to spend a few days with her daughter. Mrs. Wooding's mother, Mrs. Potter, accompanied her.

Mrs. Searles and two children of Tacoma are visiting her sister, Mrs. Wm. Richards, this week.

Lillie Burgess went to town to work last week.

Mrs. James Reeve returned a few days ago from her business trip up sound.

One night last week Frank Hebisen and Edwin Champion stopped at the Troy place asking if they could get warm. After they had warmed themselves and had supper they completed their journey.

Nat Broughton stopped at Fernwood Sunday on his way to the camp.

Mr. Burgess sold seven head of cattle this week to Mr. Clint Thompson of Dungeness.

One of the most enjoyable gatherings of young folks in this district was the surprise party at Broughton's on Saturday night—Nat's birthday. The evening was spent with card games, dancing, music and refreshments. Miss Gladys Cays and Miss Hazel Hooker gave several excellent selections on the piano. Some of the party joined in singing some of the popular music. Nat and Dorothy played a duet which received several well deserved encores. There were plenty of good things to eat, and everybody went home happy at five a. m. This Blue Mountain item was given to the DeFuca correspondent by one who attended the party.

An order for several hundred eggs for hatching arrived at Fernwood from Wenatchee last week.

The next Whist Tournament will be held in the Commercial Club room Feb. 28, by the ladies of the Auxiliary, under the direction of Mrs. A. A. Smith and Mrs. Hyde

The Fraternal Brotherhood will give big dance at opera house Saturday, March 1st. Ladies 22c. Gents 50c. Everybody welcome.

Mrs. Dick Eacrett of Dry Creek was in town shopping Thursday. She has as her guest Mrs. John Curry of Sask., Canada.

Call up White 110 for the famous Jorgeson Seed Potatoes at $1.00 per sack, also the White Star

A. H. Gould.

Mrs. F. A. Jensen was hostess to the Thimble Club Thursday afternoon.

Postal card pictures of the High School building at Fulmer's studio.

Mrs. W. A. Stovel's music pupils gave a piano recital at Parish Hall Thursday evening which was largely attended by interested friends and lovers of music. The first part of the program was given over to the little tots and it was pleasing indeed to see how well trained they were and the real ability shown by some. The second part was by the older pupils and was very enjoyable; all of them seemed to have a wonderful talent in a musical way.

Agent Callarman takes exception to our reference to the Guggenheim company as owners of the Navigation company. We stand corrected. Just what difference it makes in the incongruity of the name "Peoples" as applied to the wharf owned by an outside corporation, we are unable to conceive.

Mrs. J. W. Little arrived last week from Valdez, Alaska, to join her husband who has recently gone in business here.

Mrs. Madge Nailor pleasantly entained the Fortnightly Bridge Club at her home Tuesday.

HOLLY HEIGHTS — MT. ANGELES WAY.

Hooray! Hooray! Who are we anyway?
The people out Mt. Angeles Way;
South side of the Boulevard, say,
And some are intending to stay.

Mr. Beaumont is still a booster for a greater Port Angeles, having subscribed for the O.-L. for his sister in the East. One of his sisters owns realty here.

Herman Matthews went over to his ranch recently. It is in section 35. His son Earl was with him. They were four hours on the way, owing to fallen timber and deep snow. Mr. M. thinks of moving his family there this coming summer.

Homer Filion came up from town to the millsite on Wednesday, the 12th. He found that a portion of the mill roof had fallen in; the damage was slight.

Mrs. Walter Mack Clark came up this way on the same day. She was accompanied by a brother-in-law, Mr. H. den Bleyker, of Kalamazoo, Mich. Mr. Mack Clark's land adjoins Beaumont's ranch on the south.

Mr. Davidson has moved from Madison's ranch to the McGill place. It will be nearer to town and to his work at the Madison mill.

Mr. Getchell was talking of trimming his fruit trees and probably has already done so. His family have nearly all had the "grippe." One of the younger boys was very bad and they sent for the doctor. The inmates of the "Home" have been sick too, so they have had quite a siege.

Mr. Pringle and son are clearing the way preparatory to putting up a fence along the roadside.

Ben Chambers has quit raising pigs. "Nothing in it," he says, "when you have to buy all the feed."

Mr. Madison has got a new steel roof for his mill, the old one having been broken down from the weight of the snow. They have repaired the machinery, including the drag saw and are ready for work again.

And the "beautiful snow" is going fast
And will soon be a thing of the past.

MOUNT PLEASANT

A. D. Willson is at the ranch almost every day now and will soon be a full fledged farmer.

A number of Mt. Pleasantites took in the Socialist lecture Sunday evening.

Mr. and Mrs. Brown have enjoyed a visit from a former neighbor of Helena, Mont.

I have a new Newcomb fly shuttle loom and am prepared to do all kinds of work. Rag carpets, fluff rugs, Persian rugs, couch covers and all other kinds of weaving neatly and quickly done.

THE STROLLERS, TUESDAY, FEB. 25.

This will be the Third Number of the Lecture Course, and the most popular one. Mr. Longstreet is a show all by himself and his rendering of Scotch songs and readings is alone worth the price of admission. These four young men are all accomplished musicians and they give a program that children as well as grown-ups can enjoy. It is certainly a treat in store for those who missed hearing them before. Reserved seats 75c, general admission 50c, gallery 25c.
