

Aspire to Become a Seed Steward

Becoming a Seed Steward is an opportunity to become a guardian of a particular variety of seeds. Seed Stewards sign up for a variety of seeds they plan to save, then return a bulk deposit of that variety of seeds to the Seed Library. NOLS Grows Seed Stewards are experienced seed-savers or new seed-savers with a strong desire to learn. Volunteer Seed Stewards help keep the Seed Library a self-sustaining project.

Apply to be a Seed Steward by filling out the Seed Steward application and returning it to your library, or by emailing your electronic Seed Steward application to Discover@nols.org.

NOLS Grows Seed Library Volunteer Seed Steward Application

Please allow 1-2 weeks for your application to be processed.

Name _____ Today's Date _____
