## Overload Blacks Out Cherry Hill Homes; Substation Bids Asked

Residents of upper Cherry hill from Fifth street to the boulevard were without lights for over an hour last night due to an overloaded feeder line to homes. Street lights were on another circuit and remained lit.

Lights went out on the peak load about 5:55 and except for several short periods were dark until 7:10. City Light Superintendent B. W. Lean explained today that since the end of the war many electrical appliances using large amounts of power have been installed in homes. But the city has been unable to obtain additional distribution equipment to keep abreast of power demands, he explained.

Lean said he is reasonably certain minor changes made at the substation will handle power demands this winter. In the meantime, the city is calling for bids on four new sub-stations to handle loads over the entire city but these probably cannot be delivered before next year, Lean declared.

## Resolution Urges Planning Advice For Fish Terminal

A motion by President Syd Tozier of the Port Angeles Chamber of Commerce recommending that the port commission of the Port of Port Angeles seek expert advice on planning commercial fish terminal facilities and location of allied industries on terminal land was passed unanimously at the meeting of the fish terminal committee of the chamber Wednesday night.

The resolution was the result of discussion by committee members over a sketch of the fish haven submitted by Port Manager Henry Davies showing the proposed gasoline and oil station inside the harbor at the western extreme of the reclaimed ground.

Tozier and others contended that the gasoline and oil station should be more accessible to boats to avoid the necessity of maneuvering between floats in the haven. It was Tozier's contention that if practicable, the gasoline and oil station should be on the outside of the north breakwater or inside close to the western entrance.

There was a difference of opinion among the committee members, some contending that the gasoline and oil station should be in the shelter of the breakwater at a point convenient to the operator.

Besides the discussion of the gasoline and oil station location there was a general discussion of the location of other facilities and allied industries on the reclaimed ground at the terminal.

Manager Davies explained that any plans for industrial locations are tentative and final decision will be governed by economic conditions such as economy of operation and convenience to the operator and the fisherman. The port manager said that many fish terminals in the northwest have been visited by himself and port commissioners and that the opinion of fishermen and others has been asked. He said that any suggestions for betterment of facilities will be welcomed.

The meeting was presided over by Chairman Melvin Bondelid. Present were Tozier, Davies, Dave Burrowes, port commissioner; H. G. LeGear, Jack Henson, Fred Hipkins, H. B. Molchior, Cedric Payette and Hugo Hendrickson.

## Commissioner Clarifies Building Regulations

Commissioner William S. Johnson pointed out at Wednesday's commission meeting that building permits must be obtained before any new construction or remodeling amounting to $50 or more can be done within the city.

The commission decided that in the future no permit card for posting on the premises will be issued until the permit has actually been granted.

Present routine at city hall is to issue a permit card when applications are made, Assistant City Engineer Paul T. Poulsen told commissioners.

Johnson declared it is against city ordinance not to obtain a permit before building and that separate permits for wiring and plumbing are necessary before work is done. Permits are also necessary for moving a building.

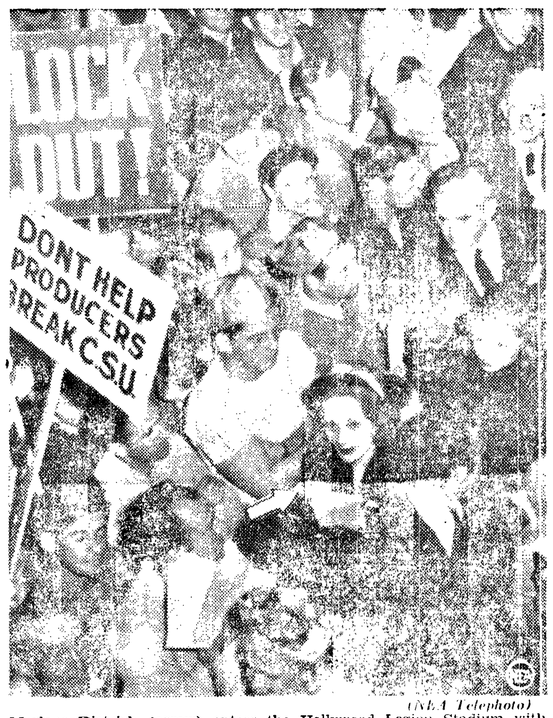
At yesterday's meeting a permit was asked for a house already complete. Commissioners declared the practice of getting a permit after work has been done must stop.

Another permit was held for further investigation by the engineering department when it was discovered a house being remodeled has a cesspool for sewage disposal. City ordinance requires a septic tank be used when sewer connections are not available.

Building permits granted: L. B. Stephens, $100, tool shed, 709 South Pine; J. W. Pike, $400, garage, 1124 West Ninth; Joe Keen, $100, move shop from 1104 West Fifth to 427 East Eighth; Maurice E. Doine, $5650, house, 616 South D; Amy Burke, $200, enclose back porch for laundry room, 610 East Eighth; Charles Faussett, $3,000, four-room house, 717 East Fourth.

**SCRATCHF 4,200 SERVANTS**

TOKYO — (AP) — The imperial household staff has been reduced from 8,200 persons to approximately 4,000 in the first year of occupation, allied headquarters said today.



(NEA Telephoto)

Marlene Dietrich (arrow) enters the Hollywood Legion Stadium with scores of Screen Actors Guild members, at Hollywood, Calif., as pickets outside demonstrate for their cause. Results of the meeting will be made public in a few days.

## 28-Man Squad Leaves Angeles for Crucial Tilt Tonight at Port Orchard; League Lead at Stake

By Bill Fowler

At noon today a 28-man football squad from Roosevelt high school headed for Port Orchard to face the South Kitsap Wolves at 7:45 tonight in the game that may decide the Olympic Peninsula League championship.

The squad will be headed by Coach Leonard Johannes and Assistant Coach Bill Shore, and will be accompanied by managers Bill Larsen, Keith Branstrom and Stanley Halverson.

"I'd like to take the entire squad, but the bus we have isn't large enough to take more than 28," pointed out Johannes this morning.

Other league games today:
**Vashon at Sequim.**
**Bainbridge at Port Townsend.**
Football tomorrow:
**Tacoma Navy vs. Legionaires** at Port Angeles, night game.
**Roosevelt B at Townsend B**
**Townsend Jr. High vs. Roosevelt Juniors**, here 1:30 p.m.
**THURSDAY SCORES**
Lincoln 12, Ballard 6 (Seattle)
Bellingham 18, O'Dea (Seattle) 0

**GRALL TO START**

Vernon Grall, hard-hitting fullback, will open tonight's game at that position, while his predecessor in the position, Bill Thompson will be running from the right-halfback spot. Allan Adams opens at quarter and Bob Roening, at left half, completes the starting backfield.

**Conspicuous by his absence is George Linde, forced out by injuries. Linde's absence will hurt, for he has been probably the most consistent ground gainer on the squad.**

Port Angeles will have two experienced halfbacks in reserve, however, with both Darrell Fairchild and Norman Pollock eager to see action. Other backfield men making the trip are Jim Phillips, Stan Ingraham and Mark Ralston.

**SAME SEVEN LINEMEN**

No changes have been made in the forward wall. It's still Lyle Nelson and Bruce Phillips at the end posts, Don Larrick and Connie Johns at tackle, Joe Murphy and Jim Ohmert at guard and Gerald Page at center.

Reserve linemen suited up for the game are Gene Mullen, Ralph Eldridge and Art Robinson, ends; Don Campbell, Don Hughto, Norm Thomassen, Jack Heath and Jack Neer, tackles; Jim Blagdon, George Palmer and Wayne Neale, guards, and Don Sams, center.

Whether this combination can upset the heavily-favored maroon-shirted Wolves is problematical. A win for the visitors would install them as favorites for the conference championship, while defeat for the Teddies would eliminate the last serious threat to Port Orchard's title hopes.

**ROUGHRIDERS FEARED**

The Angeles boys are given a chance of upsetting the home team this evening. They are plenty respected in Kitsap county as a result of two decisive victories over Sequim and Central Kitsap. "Port Angeles will be the strongest team to appear at Port Orchard this season," according to Kitsap observers.

With tonight's game a homecoming event, any kind of a break on the weather will insure Roosevelt high's participation in one record tonight, win, lose or draw. The attendence record of 2,000 set when South Kitsap played O'Dea in the first night game of the school's history at Port Orchard, is sure to be eclipsed this evening.

New steel bleachers have raised the field's seating capacity to 3,000, and each seat will be occupied barring rain.

**WOLF BACKS DANGEROUS**

The bulk of the spectators expect to see George Pickering ,great 175-pound fullback chalk up some scores for the home team. The hard-running, accurate-passing veteran won't be the only backfield threat, with Bob Knox at right half, Sam Lindsay at left and Don Lucas at quarter all dangerous.

**Coach Stener Kvinsland, former grid great of Pacific Lutheran in the Tommervik-Harshman regime at the Parkland college, has molded a great line, too. No team has scored against them on the ground.**

From left to right, they are: George Campbell, Buck Brownfield, Jim Rogers, Dick Adair, John Rowley, Don Thoreson and Bob Pickering.

Facing those forward bulwarks, quarterback Adams is sure to call for plenty of forward passes as well as the tricky stuff that Johannes has cooked up for this game. The team knows it must score and keep driving to try to score again in order to win the game. It should be the season's top contest.

KONP will carry the game from the opening whistle with Frank Herron, the Bill Stern of the Olympic peninsula, behind the microphone.

## Eagles Plan Huge Salmon Derby Next Summer in Everett

EVERETT —(AP)— Eagles from all points of the nation will gather here next summer to participate in what is expected to be the largest salmon fishing derby ever staged it was announced yesterday by Everett aerie president, Bob Hunt, who has been named general chairman of the event.

A state-wide derby here last summer was proclaimed such a success that the lodge members voted to hold another in 1947 and throw it open to all members in the United States. No date has been set for the event.

**SKIPPER TO STARVE BEFORE HE JOINS**

NEW YORK —(AP)— Commodore Harry Manning, veteran sea skipper and master of the liner America, says he "would starve" before joining the AFL Masters, Mates and Pilots Union and that he considers a demand for union affiliation "an affront to my constitutional liberties."

Manning made his statement yesterday in reply to reports the Norfolk, Va., local of the union had demanded he and his officers join the union before it would permit the refurbished liner to make its first postwar voyage.

**BUS VICTIM RECOVERING**

KLAMATH FALLS, Ore. —(AP)— All of the 25 passengers injured when a bus overturned on Sun mountain north of here yesterday, are recovering, hospital attendants said today.

Several with head injuries were at first believed critically hurt.

## Destroyer Huntington Due in Port Angeles For Navy Day Visit

The destroyer R. K. Huntington will visit Port Angeles and the public will be invited to inspect it Navy day, October 27, the Associated Press reported today.

The press association story credited the announcement as coming from 13th naval district headquarters.

The U. S. S. Iowa, which carried President Roosevelt to the Teheran conference and the submarine Brill will come to Seattle for the celebration, and the vessels of the inactive 19th fleet will also be shown there. They include the battleships West Virginia and Alabama and carriers Essex and Ticonderoga.

Bremerton citizens will inspect the battleship New Jersey and cruisers Duluth and Tucson, while Tacoma will see the destroyer Moale and LST 1122.

The Associated Press said the LST 327 will be at Port Townsend, the destroyer A. M. Sumner at Bellingham and destroyer Ingraham at Grays Harbor.

Flower memorial services will be held honoring all persons who lost their lives at sea.

## Gov't. Protests Enslavement Of Yanks By Slavs

WASHINGTON—(AP)—The United States government condemned in the strongest terms today what it called "slave labor" practices by Yugoslavia against persons in that country claiming to be American citizens.

In a note delivered to the Yugoslav foreign office in Belgrade by Ambassador Richard C. Patterson, Jr., the government charged:

1. Individuals claiming U. S. citizenship "who have been convicted of no crime whatever," have been confined in camps by the Yugoslav government and some died as the result of conditions and treatment to which they were subjected.

2. The persons surviving the camps are being hired out by Yugoslavia to private individuals for all types of hard labor for which they receive no pay.

3. The Yugoslav government receives sums from 15 to 50 dinars per day from the employers of these victims, who frequently work 12 hours daily and get only such food and shelter as the employers determine.

"The United States government states is abhorrence and condemnation of the practices described above," the note said.

"They are violations of the established principles of international law governing the protection of foreign subjects, constituting involuntary or forced labor in denial of the natural rights of human beings and possessing features distinguishable from slave labor."

## Navy Can Defend Self Against Atomic War, Says Admiral Denfeld

CHICAGO —(AP)— Vice Admiral Louis Denfeld, chief of naval personnel, asserted today that "a high degree of success has marked the experiments conducted to determine how to defend our navy against future use of atomic warfare."

Denfeld, assigned to take command of the Pacific fleet next year, said that the U. S. navy — which he termed "still the greatest in the world" despite retirement of many ships — has moved into "an unprecedented period of scientific development."

**"Intense research is being carried on," he said in an address prepared for radio broadcast (over MBS 12:30 p. m. Pacific time), "to enable the navy to share its future responsibility — whatever that may be — in the active protection and enforcement of the conditions of national and international security and peace.**

"This search for self-improvement is motivated not by desire for military strength alone, not by the wish to receive credit for scientific achievement, but by necessity. We must do it. It is imperative."

Denfeld presented certificates of awards to 40 railroads and the heads of four regional railroad passenger associations in recognition of railroad achievements in transferring naval personnel during the war and the demobilization period.

## Air Development Urged For State

SEATTLE —(AP)— Spokesmen for the National Aeronautics Association and the Aircraft Owners and Pilots' Association urged members of the state aeronautics advisory committee Wednesday to seek development of air parks and air harbors.

"The building of these facilities not only is a peacetime move, but a national defense measure," Dr. A. B. MacWhinnie, AOPA trustee, told the six man group and its director, Joseph Adams.

A. Elliott Merill, chief Boeing test pilot, was named chairman of the committee, which met with city, state and federal officials to map plans for aviation development.

The committee directed Adams to proceed with certification of all airports in the state. Under state law it is a misdemeanor to operate airports which are not certified.

Adams said the committee started study on a Washington state airport development plan encompassing 44 new air parks and fields. This program would be carried out in connection with the federal airport act.

The committee also took under consideration improvement of 47 airports in small communities to the end that they might receive service from feeder lines.

**EISENHOWER PRAISES OCCUPATION PROGRESS**

FRANKFURT —(AP)— Gen Eisenhower left by plane for Washington early today after completing an inspection tour of the European theater.

Before he boarded his plane at Rheinman airport, near Frankfurt, Eisenhower told newsmen he was impressed with the "tremendous progress" which had been made in achieving Allied occupation objectives.

**NO FARE**

CHICAGO—(AP)—Streetcar service on South State street was halted temporarily by a passenger who had been ejected for refusing to pay his fare.

Conductor Maurice O'Connor said after he put off Willie Jones, 30, he sat on a safety island, his feet stretched across the tracks, and refused to move.

But a police squad took Jones for a free ride to Central station, where he was charged with disorderly conduct.

**Brig.-Gen. Manuel Roxas**

President Roxas, (above), forwarded to the U. S. embassy today a protest against reckless driving by American soldiers, held responsible for 50 per cent of Manila's traffic deaths. Ambassador McNutt endorsed the protest and passed it on to army headquarters, Associated Press says.

## Port of Embarkation May Leave Seattle; C. O. Blasts Union

SEATTLE—(AP)— A threat to close the Seattle port of embarkation and transfer its operations to other ports precipitated a clash late yesterday between Col. Fenton S. Jacobs, commanding officer of the port, and unionists engaged in the current waterfront strike.

In a sharply worded statement Colonel Jacobs said he would recommend the closure "unless organized labor will extend the co-operation necessary for me to accomplish my mission and duty to our government."

**MANY GRIEVANCES**

He cited a long list of grievances in an open letter to the Committee for Maritime Unity after a CMU decision was announced to remove union members from military vessels here and to limit army transport vessel cargoes to food, clothing and medical supplies.

The colonel's blast brought a CMU reply denying any intention to close the port. It expressed regret "the army should align itself against the welfare of the public and the thousands of maritime workers on strike by taking up the fight in behalf of the steamship operators."

Burt Nelson, northwest CMU chairman, earlier had announced the strikers were "tightening up" on army shipping here.

**"For the past several months," wrote the colonel, "the local maritime unions have exhibited an attitude of hostility and interference which has delayed the operations of the port and added greatly to the cost of government."**

He listed 25 "recent causes for work stoppage not generally known," including:

**REFUSALS LISTED**

"Refusal to work under scrutiny of civilian guards posted to prevent pilfering; refusal to work with members of rival union organizations regardless of the shortage of men; refusal to work with military work details; refusal to work unless permitted to smoke in pier toilets; refusal to work with civil service personnel; threats to stop civil relief cargoes to enemy countries; reveal identification; refusal to work unless permitted to smoke on ships fusal to work because required to repested as 'hot' by post fire marshal in accordance with local ordinances * * *"

"For a time, the port felt that this was merely a part of the 'war of nerves' associated with industrial strife. Recent developments, however, have forced me to the conclusion that the attitude of local labor is offering continued hindrances to the war department's program in a part of a plan to subordinate the operations of the Seattle port of embarkation to the control of the local labor organizations."

**S.P. ORDERS NEW DIESEL-ELECTRICS**

PORTLAND — Twenty powerful diesel-electric freight locomotives have been ordered by the Southern Pacific Company, according to announcement by A. T. Mercier, president.

The new freight diesels are for main line operation and are in addition to the recent purchase of five powerful new passenger diesels.

The new diesels will be of 6,000 horsepower, or equal to that of the Southern Pacific's most powerful steam locomotives, including the huge articulated-consolidated steam engines with cab in front, an exclusive Southern Pacific design.

**BETTER'N FOXHOLE**

NEW YORK—(AP)—The Independent Veterans Committee for Robert H. Thayer, a republican candidate in the 14th congressional district, Brooklyn, will open its headquarters tonight—in a tent.

Committe Chairman Morton B. Lawrence said:

"It is no secret there is not a store or a flat available in the district.

Thayer is assistant commissioner of the New York state division of housing.

**SOUT AFRICA COMES THROUGH**

LONDON —(AP)— South African Prime Minister Jan Christiaan Smuts presented Britain cash gifts of more than $4,000,000 yesterday from the South African people as a "national tribute."

## Byrnes To Tell Soviet Relations To U. S. Public

WASHINGTON —(AP)— Secretary of State Byrnes drafted a report to the American people today on the diplomatic conflict between the United States and Russia.

Top authorities suggested he would make use of the occasion to lash at criticism of his foreign policies by former Secretary of Commerce Henry A. Wallace.

**HALF HOUR TALK**

Byrnes, who returned yesterday from the Paris peace conference and received President Truman's congratulations on a "most excellent job," was scheduled to broadcast for 30 minutes beginning at 7 p.m. (Pacific Time) tonight. NBC and some MBS stations arranged to carry the speech. KOMO, Seattle, will be one station to handle it.

In writing his address Byrnes was reported to have two principal objectives in view.

**1. To try to knock down Russian charges that the capitalist world is seeking to encircle the Soviet Union.**

**2. To smash the Wallace implications that his policy toward Russia is a policy of "toughness" and should be softened even at the risk of action which, in Wallace's words, might be caled appeasement.**

Those in a position to know say Byrnes will reaffirm his basic idea of American-Russian relations with a declaration that the United States intends to stand absolutely firm on its principles where major interests are involved and yet to deal patiently with all difficult issues.

**MORE OF A DISCUSSION**

The secretary's speech thus will be not so much a report on the work of the Paris conference as a discussion of the state of relations with the Soviet Union.

Tomorrow night Senator Vandenberg (R-Mich) intends to broadcast from Washington his reasons for believing that on the whole the Paris meeting actually made some progress toward restoring peace in Europe. Vandenberg and Senator Connally (D-Tex) were advisers to Byrnes. Connally is returning by ship.

## British, Australian Promises Assure Trusteeship Council

LAKE SUCCESS, N. Y.—(AP)—Definite promises of trusteeship agreements from Great Britain and Australia today virtually assured creation of the important United Nations trusteeship council at the coming session of the general assembly.

These, together with agreements already submitted by France, would provide the necessary number of trust territories required for establishment of the council, only major organ of the U. N. not yet in operation.

The only factor which might delay creation of the council is the possibility that the assembly might fail to approve the trusteeship agreements, which outline terms under which the trust territories would be administered.

Informed quarters said an Australian agreement on New Guinea had been completed and was either on its way to the U. N. secretary-general or actually in his office.

While submission of British agreements on Tanganyika territory, the Cameroons and Togoland was not so imminent, British circles said the agreements were virtually completed and definitely would be turned in during the assembly session.

**WYOMING CRASH STILL UNSOLVED**

LARAMIE, Wyo.—(AP)—From the mortuaries of this small, cold, wind-mauled Wyoming town, the bodies of 13 persons who died early yesterday in the unexplained snowstorm crash of a chartered plane were shipped homeward today for burial.

A 300-yard path was ripped through foot-deep snowdrifts, with bodies and plane parts scattered on the edges, and in such a desolate trail of debris investigators from the civil aeronautics board said they could find no clue that might explain the tragedy.

The plane, operated by the NATS air transport service, a private concern of former navy fliers, was scheduled for a fuel stop at Cheyenne, Wyo., but ran into a wailing snowstorm and zero visibility short of its destination.

Secretary of State Byrnes

## FBI Starts Inquiry Of Alleged Vote Fraud In Missouri Primary

KANSAS CITY—(AP)—The federal bureau of investigation turned its spotlight today on alleged vote fraud in the democratic primary election last August in President Truman's home county where a political unknown, backed by the president and the Pendergast democratic organization, defeated Rep. Roger C. Slaughter for renomination in Missouri's congressional fifth district.

The FBI began its investigation following an independent one by the Kansas City Star which resulted in a series of stories containing charger of irregularities at the polls.

The newspaper disclosed that FBI agents had called for all the information it had obtained on the election last Aug. 6 in which Truman-backed Enos Axtell, a newcomer to politics here, won over Slaughter in the congerssional district next door to the president's hometown of Independence, Mo.

FBI agents here, who said orders for the investigation came from the department of justice in Washington, also visited the election board here, but its members remained silent on the purpose of the visit. Its chairman Ludwick Graves, said tersely:

"I am giving out no statement."

It was the second time in 10 years that an election here has been investigated by a branch of the government. In 1936, a federal investigation resulted in the trial of 259 persons, mostly ward workers, and the conviction of scores of them.

Even as the FBI turned its attention to the election, two investigators of the congressional committee on campaign expenditures, J. Raymond Hoy Jr., and Arthur T. Allen, completed their investigation of the primary here with a joint statement saying:

"We have a clear picture of what took place in the August primary and are returning to Washington to make a report that will be prepared there. After the committee studies our reports it will make its own decision as to whether it will continue its investigation."

The Star announced that it had turned its investigation files, compiled by 38 employes and the result of 8,000 interviews in homes of citizens, over to the FBI.

The newspaper printed pictures of cornfields and of a burned out apartment house which it said its investigators had found to be the addresses given for some of the "voters."

**THIS ACCIDENT WAS BOUND TO HAPPEN**

BINGHAMTON, N. Y. —(AP)— A 72-year-old woman suffered a broken leg today in a scramble of 400 women seeking to purchase scarce soap chips and shortening at a local market.

Mrs. Lottie Yeomans was taken to a hospital, after she sustained the fracture in a collision with two other women.

The market had offered 120 cans of shortening and 250 packages of soap chips.

**NOW IT'S OUTLAWED!**

HOLLYWOOD —(AP)— Film Producer Howard Hughes has agreed to remove the motion picture association's official seal of approval from current prints of his movie, "The Outlaw."

The association recently revoked its approval and accused Hughes of using material it had not authorized. Hughes had continued to distribute the film bearing the seal.

A clerk (right) of a New Mexico city supermarket checks the purchases of a customer. Those boxes of soap suds, scarce in the U. S. are plentifully stocked on the store's shelves and a customer can take all he can carry.

## Most Ceilings To Come Off By November 1

WASHINGTON —(AP)— President Truman and his cabinet discussed wage controls today as the administration pushed ahead with plans to take federal curbs off the economy, pegged to a Nov. 1 deadline for removal of most price ceilings.

A high official said that foods, services and many commodities will be taken out from under ceilings by Nov. 1—two months or more earlier than had been planned before President Truman's meat decision.

This official emphasized to a reporter that it will be "an orderly retreat" from controls and will not result in "riot or chaos."

Furthermore, for the somewhat less immediate future, he added that price lids will remain on rents, automobiles, building materials, refrigerators, furniture, basic clothing items and farm implements.

Major developments on the fast-moving decontrol front included:

**NEW DEVELOPMENTS**

1. Flour, bread and other bakery products figured in speculation as the next important food items to be freed of price ceilings.

2. Coffee went off the controlled list completely. And price lids were hoisted slightly on jams, jellies, fruit preserves and men's white handkerchiefs among other things. The increases will amount to one and two cents a pound jar for the sweets and from seven to 14 cents for handkerchiefs.

**3. South of the border, the vanguard of 500,000 lean young Mexican beef cattle began to move toward fattening pastures and ranges throughout the southwest United States.**

The embargo on Mexican cattle was lifted at midnight. The cattle must be fed, fattened and processed, however. Hence their entrance will have little or no immediate effect on the current meat situation.

4. An avalanche of meat—the biggest in 10 months—jammed the nation's livestock markets. Prices collapsed from $1 to $10 a hundred pounds yesterday. Butter, eggs and poultry also dropped.

**5. Administration leaders, forecasting a congressional drive aimed at junking all controls (including rents and the veterans housing program), agreed that the entire OPA staff of 34,000 and its functions must be slashed to the bone before the lawmakers reconvene in January.**

6. Labor members of the wage stabilization board renewed their demands on the White House to kill all wage controls immediately.

Senator Downey (D-Calif.) said in an interview that congress should determine what are "just wages" for government workers, adding: "If we can work out standards we might set an example for industry."

**NO REAL BUYERS' STRIKE**

7. The CIO cost of living committee assailed rising meat prices and declared that "millions of miners, railroad, steel and other workers will lack important ingredients in their diet."

Housewives balked at soaring meat and butter costs in some sections, but there was no immediate indication of a concerted buyers' strike.

**8. Automotive production, still under controls, slumped during September, announcing this, the civilian production administration blamed shortages in sheet steel, pigiron, copper and lead.**

9. With a possible $380,000,000 meat subsidy saving in sight as a result of livestock decontrol, the government announced that an extra $35,000,000 will be expended for flood control.

## Chinese Reds Insist January Boundaries Condition For Peace

SAN FRANCISCO—(AP)—Chinese communist headquarters at Yenan broadcast to the world today that it will negotiate for permanent peace if Chiang Kai-Shek will demonstrate his good faith by abiding by the January cease fire agreement and all agreements reached since then.

The broadcast, recorded by the Associated Press, in effect rejected Chiang's Wednesday peace proposal, transmitted through General Marshall.

The party's central committee issued a lengthy statement recounting negotiations and alleged breaches of agreements since January and concluded:

"If negotiations today are expected to attain actual results, the sacred validity of the cease fire agreement should be recognized; namely, restoration of positions occupied by kuomintang (government party) and communists troops on January 13, should form the criterion for all military talks and the implementation of all political consultation conference decisions should form the criteria for all political cliques."

With both the government and communists charging violations of the January agreement, the civil war has intensified rather than lessened and national forces have seized considerable territory from the reds, including their big military base, Kalgan.

Chiang's Wednesday truce proposal included a provision that the rivals hold territory currently under their control, representing huge gains since January for the government.

**SEATTLEITES REGISTERING**

SEATTLE —(AP)— City Comptroler W. C. Thomas predicted today registrations would top the previous high mark of 259,963 set in 1944. He said voters were registering at the rate of 700 per day, and that the city had more than 247,000 voters registered as of Oct. 1.

## Russian Budget Clue To Peace

By J. M. Roberts, Jr.
AP Foreign Affairs Analyst

The relationship of the new Russian budget to the international search for peace is more important than all of the official Soviet statements since V-E day.

It means a reduction of more than 40 percent in her military establishment, continued maintenance of which has been an ever-present factor in the policies of other powers.

It serves to verify the belief of those who have insisted that, regardless of what her efforts to spread communism may lead to in the future, Russia has no intention of taking chances with war now.

**OCCUPATION EASED?**

It may mean a reduction of the red army forces which are living off occupied countries in Europe and the easing by that much of their struggle for economic rehabilitation.

**It may be a verification of the widely-held opinion that Stalin puts the up-building of the Soviet union at home ahead of ideological warfare, and that the Russians, in their postwar expansion abroad, have merely been making immediate hay out of world unsettlement.**

The size of standing armies, of course, is not everything. The United States war effort, developed on a base of a tiny military establishment and a tremendous industrial establishment, is a constant reminder of that. Diversion of Russia's money and manpower from the military to the industrial field will not weaken, but rather increase, greater ultimate military strength. But in Europe the size of standing armies, and whether they are capable or incapable of quick blows in support of diplomatic policy, always has meant a great deal in the matter of attitude.

**ATOMIC RACE?**

If, as the tremendously increased budget for scientific development indicates, Russia is plunging whole hog into the race for atomic power, she is doing no more than others.

If atomic tools for peacetime purposes cannot be produced without at the same time producing materials which can be made into atomic bombs, neither can great industrial establishments be built which cannot be channeled into war production.

The Russians say frankly that the five-year plan is for the purpose of making the Soviet Union strong economically and militarily.

The result is all a matter of intent. The more Russia reduces her actual military establishment, the less the world will question either her immediate or ultimate motives.

**NO RESERVATION WANTED**

JPUNEAU, Alaska —(AP)— Without reservation, Kukwan Indians declared at an Alaska native service hearing this week they want no reservation. The older generation favored land set aside for exclusive use but objected to the term "reservation," while the younger generation doesn't want any reservation at all but wants to take its place among the whites.

Brazil, with an area of 3 286,170 square miles, is larger than continental United States.

Until the latter part of the 19th century, Brazil was the world's greatest producer of tobacco.

## Friday Fumbles

### . . . Blame It On Willard

While strolling through the downtown section of Port Angeles this morning I conceived the most brilliant idea ever to hit a member of the Brotherhood of International Prognosticators (Headquarters: Swami Junction, India).

It will revolutionize football prediction—make it a science instead of a disease. I expect to rack up scores of 100 per cent week after week.

The idea is simple. You know how the same store window displays ads for both candidates for the same office? "Vote for Chamberlin," it advises you and then your eye sees "Cast Your Ballot for Harper." While I am going to give the orthodox method one more test, if I don't get at least 33 1/3 per cent I'll make a ballot for both teams. Like this: Port Angeles 12, South Kitsap 0. Port Angeles 0, South Kitsap 12.

However, here goes on the old-fashioned method:

**HIGH SCHOOL**
South Kitsap 26, Roughriders 13.
Port Townsend 20, Bainbridge 6.
Sequim 18, Vashon 0.
Everett 28, Seattle Prep 6.

**PACIFIC COAST**
Washington 20, Southern Cal. 6.
Oregon 14, Washington State 7.
U.C.L.A. 33, California 6.
Stanford 20, Santa Clara 0.

**OTHER COLLEGES**
St. Mary's 25, Fordham 6.
L.S.U. 14, Georgia Tech 0.
Michigan 20, Northwestern 12.
Army 20, Columbia 6.
North Carolina 13, Navy 12.
Texas 26, Arkansas 7.
Alabama 12, Tennessee 7.

The gasoline used by one superfort to travel from the Mariannas to Tokyo and back would have kept an average motorist in fuel for ten years.

**FARMERS ORGANIZE**

PUYALLUP —(AP)— A new half-million dollar farmers cooperative union building was dedicated yesterday on opening day of a two-day convention of the Washington-Idaho section of the National Farmers Union. After a morning session today delegates were to tour the Puyallup valley. At last night's banquet for 500 persons it was announced the local union had a $3,000,000 pack of berries in 1946. Among speakers yesyerday were State President Jess Vetter of Coeur d'Alene, Ida., and Ronald Jones, president of the Oregon union.

Greenland is a possession of Denmark.

## Cecil Solly's Garden Notebook

Sponsored by

**WILLSON HARDWARE CO.**

GARDEN NOTES

SQUASH vines seemed to have suffered unduly, from "blight" this season. In many cases this was caused by the use of D.D.T. or Sulfur. These materials should never be used on ANY vines, squash, pumpkin, melon or cucumber.

PEACH TREES (both fruit & flowering) should be sprayed with a good copper spray about one month before the leaves fall. This spray which is generally applied during October is to prevent spread or dissipation of the "LEAF-CURL" disease. Thoroughly drench both sides of all leaves and the newly formed leaf buds.

RED EMPEROR is one of the most spectacular of all tulips. It has the largest flower of any; is quite dwarf and may be used in border, rock garden or window box with equally dazzling effect.

PEONIES may be safely planted at anytime during the winter. When selecting new sorts for your garden, choose those that are sweetly scented. There are perfumed sorts in every peony color.

DON'T BE A POST HOLE DIGGER. Most failures of shrubs, trees and fruit trees are caused by a much-too-small planting hole. In this column on October 25th, 1945, a complete story on this subject was given. If you would like a copy, send a post card to Cecil Solly, care of this paper and your request will be filled at once. Ask for the 'Tree Planting Hole" story.

MOUNT TACOMA is a recently introduced double sweet-scented white cottage tulip. It is a very attractive ,like a big white snowball peony.

THE LAWN should be cut once more —best to do the job right away. Use a grass catcher on the mower and deposit the clippings in the compost heap. See that the mower blades are raised high.

IN THE VEGETABLE GARDEN, multiplier onions, dwarf peas (like Superb) and Broad Windsor beans may be planted early in November. Right now the rows should be prepared, cultivated and some rotted compost placed in the bottom of each trench-row.

CLEAN UP the vegetable garden now. Cut up corn stalks, and all other waste material and put it in the Compost heap. Properly handled, it will be completely decomposed and ready for use in the garden by Spring.

In the vegetable garden, parsnips, salsify and carrots may be left in the rows until needed for the table. There is no need to dig and store them in this district.

The lower leaves of Brussel Sprouts should have all been cut off by now. By the end of the month all side leaves should be cut off, leaving only the rosette at the top of the stem. This will provide some tasty greens for January or February.

DIVIDING PEONIES: From the middle of August until November, peony plants can be divided. They should not be replanted in the same bed, however, but in entirely new soil.

After digging up the old peony plants, clean off the soil with a stream of water from a hose so you can easily see where to make the dividing cuts. Use a sharp knife, first removing any dead roots and shortening those that are overly long. The tops of the clumps can also be cut back at this time.

Each section of a divided peony clump should have a piece of root attached. The crown should only be two inches below the surface.

Peonies will grow in almost any soil, but prefer a rich loam which is friable, well drained, but also well watered. They do not like a too acid soil.

Fertilizers must not come in contact with the roots for fear of burning them, so in the upper eight or ten inches of soil where the roots will set, use rich loam mixed with humus and bone meal.

To keep peony plants growing luxuriantly year after year, they should have light applications of one handful to each plant.

Peonies prefer full sun but grow well in light shade where the flower color is intensified and the blooms last longer. They should not be planted too close to trees or shrubs where the stronger roots will rob the peony plants of necessary food and moisture.

PHLOX PLANTINGS FOR FALL REHABILITATION: As most gardeners know, phlox plantings if left to shift for themselves rapidly go down-hill or, in other words, the plants "go native."

Phlox, now known and loved in nearly every garden, was developed from the wild species of our own countryside. As a filler for the flower border in almost any garden, it is economical, beautiful and most satisfactory.

It grows easily and multiplies rapidly. It can be propagated in various ways—by the division of old clumps, by root cuttings and by cuttings made from young shoots.

A quick method of propagating choice phlox is by means of root cuttings taken in October. Cut the longer pieces of root into 3-inch pieces. Plant these root sections in a shallow trench, on a slight slant, taking care to keep the top, or cut end of the root uppermost. Cover the roots an inch deep with a sandy loam or any good light soil mixture. After the soil freezes, mulch lightly. By next June or July the new phlox plants will be ready to set out in the garden. The parent plant from which the root cuttings are taken can be replanted.

While phlox can be divided in spring, most gardeners get best results in the fall. The top growth should be cut back to within several inches of the soil, to make handling easier. When dividing the clump, discard the hard woody center, and only use the new growth on the outside. Leave three of four young stalks to each division and replant one foot apart.

## Landing On Tokyo Plains Made; No Opposition Though

CHIGASAKI, Japan —(AP)— The U. S. army, navy and air corps combined yesterday to send 1,000 troops streaming ashore on this Sagami Bay Beach—only 30 miles from Tokyo—that would have been the scene of an amphibious landing last May if Japan had not surrendered earlier.

Soldiers of the 187th regimental combat team of the 11th airborne division and first (dismounted) cavalry swept ashore at 9 a.m. and quickly dug in. Japanese pillboxes were grim reminders of what they might have encountered. Automatic weapons teams set up firing points as infantrymen slowly moved forward.

The Yanks experienced much difficulty landing jeeps, trucks and tanks because the LSTs could not get close to the beach. A few jeeps and trucks sank.

## Naval Air Stations To Utilize Radar

WASHINGTON —(AP)— Every important naval air station in the United States and overseas will be equipped by next June with a radar-controlled landing system that has proved itself accident-free in 30 months of study. Nine U. S. fields and four abroad already have the equipment and it will be installed at 26 others.

The ground controlled approach (GCA) system employs radar scopes that indicate the direction and elevation of an incoming plane to within ten feet.

Some 15,000 operational landings have been recorded by the navy, 469 of them under weather conditions when instruments only could be used, a navy announcement said today, adding:

**"So successful is this method of aircraft control, that no plane making its final landing approach under instrument conditions has had an accident while under control of navy GCA."**

The nine airfields in the United States that already have GCA installed are located at **Whidby Island** and **Seattle, Wash.**; Camp Kearney, and Oakland, Calif.; Olathe, Kans.; Charlestown, R. I.; Mintola, L. I.; Patuxent River, Md.; and Oceana, Va.

### VETS HAVE CHANCE FOR ARMY BUILDINGS

WASHINGTON —(AP)— The war assets administration yesterday gave veterans next-to-top priority to buy permanent type housing structures and land at surplus army camps and war plants.

The structures include housing units built for war workers and servicemen, officers' quarters, staff houses and similar buildings.

WAA said these, all built since September, 1939, are suitable for long-term occupancy and will be sold along with the land on which they are located.

Top priority holders, including federal, state and local government agencies, the RFC for resale to small business, and non-profit institutions, will have a 10-day period in which to purchase the properties after they are advertised for sale.

**RHEUMATISM and ARTHRITIS**

I suffered for years and am so thankful that I am free from pain and able to do my work that I will gladly answer anyone writing me for information. Mrs. Anna Pautz, P.O. Box 8825, Vancouver Wash.

## Harold ICKES

**APPROIMATE JUSTICE NOT DONE IN TENNESSEE**

By Harold L. Ickes

An attempt has been made to create the impression that "approximate justice" was done when 23 of the 25 negro defendants in the Columbia, Tennessee, race disorders were acquitted.

The bare facts might seem to warrant such a conclusion. But it will not stand careful analysis. Four police officers were shot in the negro section of Columbia. Obviously someone shot them. But to adjudge all 25 of the defendants guilty would have been ridiculous. It was more persuasive to convict only two. But that is only a superficial way of looking at the trial. Actually, the facts, if carefully considered, throw a somewhat different light on this appraisement of "approximate justice." In fact, "approximate justice" will not be done in Tennessee unless Lynn Bomar, the state commissioner of safety, is brought to justice.

Starting from a fight between a white shopkeeper and a negro woman and her sailor son, unrest spread through the usually quiet city of Columbia and by nightfall a mob of white men had gathered in the court house square. Shortly after dark, automobiles ran up and down through the negro business section with the occupants firing indiscriminately. The negroes, answered with a fusillade and later four policemen who had entered the area were shot.

**SELF DEFENSE INVOLVED**

Thus, in actuality, the negroes thought they were firing in self defense. But there can be no such justification for the actions of Lynn Bomar the next day. Soldiers, and police under Bomar's command, were present "to keep order" when the whole negro community was vandalized, robbed, brutalized and beaten up. More than 100 negroes were arrested and held incommunicado for from three to eight days while every obstacle was thrown in the way of attorneys seeking for them the minimum guarantees of the constitution.

In the jail, the negroes were beaten and intimidated. Two were shot to death. In view of these facts, the title "commissioner of safety" seems to be something of a misnomer.

Mr. Bomar, "commissioner of safety," testified in court that he not only had no search warrant when he broke into negro homes and business houses last February, but—in his defiant words—"I probably won't have one next time, either." Still under oath, he testified further that he put his foot on the neck of Napoleon Stewart, one of the defendants in the Columbia jail, and told him, "I'm going to kill you if you try to get up."

The outrage here is that not even "approximate justice" has been done to the constitution of the United States. There exists today a federal law called the civil rights statute, which subjects to federal punishment state, county and municipal authorities who wilfully deprive citizens of their constitutional rights. This statute was recently applied to Chief of Police Lynwood L. Shull, of Batesburg, S. C., who is under indictment as having tortured and blinded Isaac Woodard, a negro veteran. This is a clear precedent.

**CONSTITUTION DENIED**

"Commissioner of Safety" Lynn Bomar has testified, under oath, that he wilfully deprived citizens of their constitutional rights by indulging in intimidation and brutality in jail and by announcing boldly that he intends to repeat such lawless actions.

Never has there been a more clear-cut and flagrant violation of civil rights. It is to be hoped that Attorney General Tom Clark will instruct the department of justice to arrest Lynn Bomar and the other officials responsible for the outrages against the constitution which occurred at Columbia, Tennessee. In view of his responsibility for the upholding of federal law, Attorney General Clark's duty is clearly marked. He is undoubtedly also familiar with the legal axiom that "justice delayed is justice denied."

Let us not be supine under this peculiar variety of lynching called "southern justice." A federal law has been violated and federal justice is called for.

**STOMACH SUFFERERS FIND CURB**

For Distress Symptoms due to Hyperacidity

Sufferers Rejoice — Remarkable Ant-Acid Rushed Here

New hope for relief from hyperacidity, dread stomach ulcer irritant, is seen today in a new preparation which has the power to curb excess acidity. Reported remarkably effective by users, this new compound, called SUBTANIL, starts relief almost instantly after it reaches the stomach, acts like a magnet in absorbing and neutralizing hyperacidity. Men and women who formerly suffered with symptoms of distress of ulcer pains, gas, heartburn, vomiting due to hyperacidity now tell of remarkable relief after using SUBTANIL. Costing $3.00, SUBTANIL is not expensive considering results experienced, amounts to only a few pennies per dose and is sold with strict moneyback guarantee by

Tom Birk Drug, 115 N. Laurel—Mail Orders Filled.

**Mr. Straight Thinker Says: "166 IS REALLY A COSTLY NO VOTE PROPOSITION"**

Mr. Straight Thinker, a good friend of yours, has been puzzling over what he calls fuzzy-wuzzy 166. S. T. says he likes to vote—feels it is his patriotic duty. However, he says that the "Let the People Vote" appeal in 166 is very deceptive as he can't find where the people vote on the acquisition of existing water and irrigation systems or on the construction of duplicate electric facilities.

"How come?" asks S. T.—"Looks Mighty Peculiar."

It just doesn't make good sense to S. T. to require a vote of the people just on electric property acquisition regardless of how small the amount of property involved and leave the gate wide open for the PUDs to spend huge sums for the duplication of facilities without a vote of the people. Worst of all, says S. T., the language of the bill seems to give the vote O. K. a quick K. O. The way S. T. figures it, 166 does more harm than good because the voting procedure is so cumbersome as to be practically unworkable on overall acquisition and the net result is that PUDs would be practically forced to a costly and wasteful program of duplication, **for which over $6,000,000 of general obligation bonds could be put out without a vote of the people.** S. T. says it is the people who pay the bills and they better know that 166 means **HIGHER ELECTRIC RATES AND HIGHER TAXES.**

**VOTE AGAINST INITIATIVE 166**

*"IT'S FULL OF TRICKS"*

Sincerely, Frank M Laughlin

### Organization Briefs

Larry Venable, Rotarian, spoke to the **LIONS CLUB** at their noon meeting at the Lee hotel yesterday. Venable discussed his experiences in the National Maritime Seaman's Union many years ago. A report was made concerning the street sign fund, and an intensive final drive for the next two weeks was begun.

* * *

### Personals

Mr. and Mrs. Harold Beaver of Hoquiam are coming this evening to spend the week end as guests of Mr. and Mrs. **Walter Miller.** The Beavers are former residents of Port Angeles.

Richard E. Ruud F/2c, who joined the navy last June is now in San Francisco waiting to be shipped to Japan. This will be his first trip outside United States. He is the son of Mr. and Mrs. **Alfred Ruud** of Port Angeles.

Mr. and Mrs. **John Schweitzer,** on a vacation tour of the country recently visited Salt Lake City and report resort places about the lake are closed even though there seem to be many tourists. Schweitzer says, however, there are plenty of auto camps to care for them.

Mrs. **Oscar Nelson** of Lost mountain addressed the Vancouver Island Rock and Alpine Gardens Society at Victoria Tuesday evening, illustrating her talk with lantern slide views of mountains and alpine flowers in the Olympic National Park. Mrs. Nelson and daughter Nita plan to leave this month for Orick, California, where Oscar Nelson and son Darrell are now engaged in constructing a new mill for Sacramento lumber interests.

## Democrats Favor Hospital Plan

At its Wednesday night meeting in the Literary clubhouse, the Clallam County Democratic Club went on record as favoring the hospital district plan appearing on the November 5 ballot.

The housing shortage in Port Angeles came up for discussion. In response to a former club resolution calling attention to the housing situation Wilson Wyatt, federal housing expeditor, advised he is taking steps to prevent non-essential building in favor of veterans' housing.

President C. E. Shields announced that Governor Mon C. Wallgren will speak here Friday night, October 25.

State Representative Francis Pearson spoke on legislative action affecting the peninsula.

"During the immediate past the county and legislative district has received more tangible recognition than ever before. The 125 ladies of the republican club do not know or are unwilling to give legislators credit for their accomplishments. We are proud of our record and think the people of the district are also," Pearson said.

Representative George Adams said he had been in the vanguard of the fight for pension legislation.

"Some republicans in the legislature voted for the bill upon assurance the republican governor would veto it, and he did," Adam said.

All the candidates on the democratic legislative and county ticket spoke briefly.

Seventy-five club members remained after the meeting for lunch.

## Music Club Meets Monday Afternoon

Readings by Mrs. Philip Garland will be an unusual attraction on the program of the Ladies Music Club for the Monday, October 21, meeting at 2 o'clock in the Literary clubhouse.

Mrs. Garland, who came to Port Angeles from Tacoma, where she was active in the Tacoma Drama League, was featured in last spring's Active Club presentation of "Cotton Blossom Showboat," doing humorous readings. On the Music club's program she will read both humorous pieces and serious poems, choosing northwest poets for the serious readings.

Mrs. Garland is also an experienced accompanist and will accompany the vocalists on the program.

Elisabeth Johnson, coloratura soprano, will be heard in solos and also in duets with her husband, Clarence Johnson. Mrs. Johnson studied music at the University of Washington and also studied voice with Wallace Ferguson of Seattle and with Irene B. Wood of Port Angeles. Mr. Johnson, tenor, was a pupil of Maurice Dubin in Tacoma and also of Irene B. Wood of Port Angeles.

The program follows:

Vocal solos, "Spirit Flower," Campbell-Tipton; "Estrellita," Ponce-Elisabeth Johnson.

Readings, Group of Northwest Poets, Mrs. Philip Garland.

Vocal duets, "Bess, Yo Is My Woman," Gershwin; "My Hero," Strauss, Clarence and Elisabeth Johnson.

Readings, "In Quest of Tea," Cornelia Otis Skinner, Mrs. Garland.

Membership dues may be paid at this meeting by anyone wishing to join or renew membership, said Mrs. James F. Hooker, president.

MR. AND MRS. DON W. CARLSON

## Colleen McKnight Wed in Seattle To Don W. Carlson

On Septmber 1st at 5 o'clock in the afternoon, Colleen Jo McKnight, daughter of Mr. and Mrs. J. F. McKnight of Seattle, exchanged marriage vows with Don W. Carlson at a ceremony performed at the Woman's Century Club in Seattle by Rev. Harold V. Jensen.

George T. Woods of Port Angeles, uncle of the bride, gave her in marriage. Her gown was white slipper satin, fashioned in period style with large bustle, gathered skirt and cap sleeves. With it she wore a short veil, held by a halo of lace, and long satin gloves. The bridal bouquet was of white gladioli and pink orchids.

**PERIOD GOWNS**

Taffeta gowns of old-fashioned design were worn by the four bridesmaids. Gloria Nicley and Beti Marler were attired in pale blue. Phyllis Compton and Darline Powell were in pale peach. Their identical gowns were styled with square neck, flared skirt and bustle back. The attendants carried sheafs of gladioli with rose centers.

All the gowns were designed by the bride's aunt, Mrs. Don T. Lucas of Port Angeles, who served as matron of honor. Mrs. Lucas was attired in deep blue taffeta. Powell M. Morris served as best man and Sam G. Morrison, the bridegroom's brother-in-law was vocalist.

Pouring and assisting at the reception were the bridegroom's sister, Mrs. Sam G. Morrison and Mrs. A. S. Marler of Port Angeles, aunt of the bride.

**WEDDING TRIP**

For her wedding trip, the bride chose a slate blue suit with grey plaid topcoat, grey hat and navy accessories. After a trip to Canada the newlyweds are making their home at Ellensburg where Carlson is studying pre-dentistry at Central Washington College.

Mrs. Carlson is a granddaughter of Mr. and Mrs. J. G. Woods of this city. She attended Roosevelt high school for three years and graduated from Broadway high school, Seattle. Mrs. Carlson is a talented water color artist and attended on a scholarship, the California College of Arts and Crafts in Oakland.

Carlson, son of Mr. and Mrs. E. M. Carlson of Seattle, attended the University of Washington last year after discharge from the eighth air force. He was in the service three years and spent nine months in England as turret gunner on a B-17.

## Thankoffering At Lutheran Church

On Sunday evening at 7:30, Holy Trinity Lutheran Church will have its annual Women's thanksgiving service, Mrs. Eric Seastrom, the thankoffering chairman, announced today.

This service, Mrs. Seastrom said, is to be held under the leadership of the women of the church and will include the presentation of a special thankoffering playlet by Janet Smith and Myrna Berg.

The feature of the service will be the ingathering and dedication of thankoffering boxes through which women of the church contribute a gift a day during the year for the various missionary and educational projects of the Women's Missionary Federation of the American Lutheran Church.

Participating in Sunday evenings service will be Mrs. Seastrom, Mrs. Frank Donahue, Mrs. Anselm Blomquist, Gladys Carlson, Mrs. Perry Brackett, Mrs. Robert Brandes, Mrs. Ralph McFadden and Mrs. Bjarne Thomassen. Providing special music will be a women's trio consisting of Mrs. Chester Johnston, Mrs. Andrew Johnson and Charlotte Jurgenson. Serving as ushers will be Mrs. M. J. Fey, Mrs. Vergil Fischer, Mrs. Eldon Anderson and Mrs. C. W. Gormley.

All members and friends of the church including men as well as women are invited to join in the Thankoffering service, Mrs. Seastrom said.

The "Big Inch" is the largest petroleum pipeline in the United States, and measures two feet in diameter.

## Election Issues Explained to PTA

The meeting of Washington school PTA Thursday night was devoted to listening to speakers explain issues in the coming November election which will affect schools.

Frank Fountain discussed referendum 27, timber resources bill, which PTA groups throughout the state are opposing. Fountain declared if passed the bill will put school timber into hands of politicians and leave school funds at the mercy of each new office holder.

John Glann, city superintendent of schools, spoke in favor of the school bond issue and special tax levy for teachers' salaries.

The PTA endorsed the petition presented by Mrs. F. T. Taylor on erection of a traffic control light at Fourth and Lincoln for safety of kindergarten children. Mrs. Taylor explained the school patrol does not function at the time small children use the crossing.

Volunteers were asked for canvassing districts to urge a favorable vote on the school bond issue and also to call voters on election day advising them to vote.

In addition to the speakers, Dr. Melvin Bondelid, in charge of the evening's program, presented navy training films showing the landing on Luzon and the battle of Manila. A Japanese propaganda film was also shown.

The evening's business was completed with the PTA voting in favor of sponsoring a cub pack.

Lotteries were a common practice by which colleges financed themselves during the 18th and 19th centuries in America

## School Head Speaks to Club

John Glann, city superintendent of schools, explained the school expansion program to members of the literature division of the Olympic Study Club at their Wednesday afternoon meeting.

Mrs. P. O. Maloney acted as hostess. Mrs. Lee Larrick and Mrs. Earl Miller were the program committee for the day.

Glann declared there is an urgent need for more classrooms in the city schools and outlined plans developed to alleviate overcrowded conditions. He said expansion was impossible during the war years but enrollment has continued to increase until at last action must be taken.

He urged members to favor the school bond issue at the forthcoming election pointing out other communities also have educational building needs and state matching funds will go to localities where an alert electorate seek to improve their schools by bonding their districts.

Following Glann's talk, members pledged their active support of the plan to provide educational opportunity to children.

Brazil is the only country of Pan America which was an empire for any length of time.

From where I sit ... *by* Joe Marsh

**Want a Vacation from Marriage?**

Alvin Blake went south on his vacation, for some fishing, and left his Missus to enjoy a vacation from the corncob pipe, clothes in a heap, and solos on the harmonica.

First few days, Martha enjoyed it—house neat and quiet, top back on the toothpaste, no morning mess from Alvin's midnight snacks (Al's partial to a bit of cheese and beer at bedtime).

Come the end of the week, she began to fidget; couldn't even read the *Clarion*, it looked so unmussed; didn't have any appetite with nobody to cook for. She was about to wire Al, when he barges home a week ahead of time, and she almost cries for gratitude. ("Felt the same way myself," says Al.)

From where I sit, those differences of habit and opinion—whether they have to do with corncob pipes, a glass of beer, or playing the harmonica, seem mighty trivial when you're separated. And they *are*, too!

Joe Marsh

**No. 3400**
**NOTICE OF SALE OF REAL ESTATE**

In the Matter of the Estate of THOMAS H. GUPTILL, Deceased.

Notice is hereby given that, in compliance with the order of Court entered in the above entitled matter, the undersigned administrator will, on or after the 28th day of October, 1946, sell the following described property at private sale, for cash, at Room 201 First National Bank Building, Port Angeles, Washington, to wit:

Easterly one-half of Lot 4 in Block 69 of the Townsite of Port Angeles;

Lot 18 in Block 24 of Puget Sound Co-Operative Colony's Second Add. to Port Angeles;

No. Half of Northeast Quarter of Southeast Quarter, Sec. 8, Twp. 30, N. R. 5, W. W. M., except such parts as have been deeded for road and railroad rights of way;

The West Half of the Southeast Quarter of Northeast Quarter, Sec. 8, Twp. 30, N., R. 5, W. W. M., except rights of way for railroad;

An equity in the following property, being purchased under executory contract from the trustees of the G. M. Lauridsen Charity Trust Fund of Port Angeles, purchase price $1,030, bal. unpaid $890; West ½ of NE¼ of Sec. 8, Twp. 30, N., R. 5, W. W. M., exc. R/Wy containing 71.15 A. more or less, and that portion of the NW¼ of SE¼ of Sec. 8, Twp. 30, N. R. 5, W. W. M., lying No. of Highway 101, as now located, containing 11.24 acres, more or less.

All bids for said property must be in writing and filed with the undersigned administrator at the above address, or filed with the Clerk of the above Court, on or before October 28, 1946. The bids shall be for cash on delivery of the administrator's deed, and no bid will be considered where the offer is less than ninety per cent of the appraised value.
JOHN M. WILSON,
Administrator, 201 First Nat. Bank Bldg., Port Angeles, Washington.
Pub. Oct. 11, 18, 1946.

Of the presidents of 75 colleges in operation before 1840, 36 were graduates of Yale and 22 of Princeton.

# Six Salmon On Winter Ladder Of Salmon Club

There are six salmon entered on the 100-rung winter qualifying ladder of the Port Angeles Salmon Club. The ladder, which started October 1, ends December 31. The salmon club members, who must register before fishing in ladder competition, who catch the 100 largest salmon between now and the last of the year, will be qualified for the 1947 derby finals, President A. L. Thompson announces.

Prizes for the winter ladder competition will be a dollar a pound to the fishermen who catch the three largest salmon.

President Thompson calls attention to the fact that 1946 club membership tickets are good to November 1. New membership tickets will be available previous to the first of the month, the president said.

Next club activity will be a dance at the Ediz hook clubhouse, Saturday night, for club members and guests. This will be the third of the weekly dances being promoted by the club, Thompson said.

Salmon and their weight on the winter ladder are: W. A. Doty, 17 pounds 8 ounces; M. R. Strong, 12 pounds; Betty Reckstrom, 11 pounds; Otto Allred, 10 pounds, 12 ounces; Edwin Wait, 9 pounds; Phil Gerarde, 2 pounds.

# Army Picked To Beat Columbia

By Harold Claassen

NEW YORK—(AP)—A week ago this football forecaster had the nerve to pick Michigan as the winner over Army—and both he and the Wolverines regretted it.

This week Army is selected as the winner over Columbia's unbeaten forces but the score won't compare in any way with the 54 to 0 pasting the Cadets handed the war-weakened Lions in 1943, their last meeting, when Glenn Davis made his New York debut.

Both teams supposedly have line weaknesses but Army is picked in the belief that the Cadets can apply the more pressure for the longer time.

Texas over Arkansas: Clyde (Smackover) Scott is a questionable starter for the Razorbacks because of a hip injury, virtually ruining the hopes of Coach John Barnhill for an upset triumph over the Longhorns. Texas is battered, too, but not enough to lose. Texas.

Tennessee over Alabama: The Vo's insist their line is the best ever to wear the Tennessee uniform and Knute Rockne once said that backs could score touchdowns in wheel-chairs if they were protected by a long line. Harry Gilmer to keep Alabama in striking distance, however. Tennessee.

Michigan over Northwestern: The Wolverines won't find Frank Aschenbrenner as fleet as Army's Glenn Davis and that will be a relief. It will be a torrid afternoon for Michigan, following its sturdy game with the Cadets last week, but they should win. Michigan.

UCLA over California: When a pre-war all-America end is only a reserve, the team must be good. Therefore, UCLA.

Georgia over Oklahoma A & M: Trippi is healthy and sound, Fenimore is battered and worn. Georgia.

**OTHER PICKS:**

Illinois over Wisconsin; Indiana over Iowa; North Carolina over Navy; Kentucky over Vanderbilt; Pennsylvania over Virginia Tulsa over Detroit.

Skipping over the remainder of the chalklines in a hurry:

Friday night:

Temple over West Virginia, Virginia Tech over Maryland.

Saturday:

East: Delaware over Gettysburg, Bucknell over Buffalo, Penn State over Michigan State, Pittsburgh over Marquette, Franklin and Marshall over CCNY, Boston university over Tufts, Rochester over New York, Yale over Cornell, Harvard over Coast Guard, Connecticut over Maine, Colgate over Kings Point, Rutgers over Princeton, St. Mary's over Fordham, Holy Cross over Syracuse, Dartmouth over Brown, Villanova over Georgetown (Sunday).

Midwest: Ohio State over Purdue, Minnesota over Wyoming, Kansas over Nebraska, Missouri over Iowa State, Oklahoma over Kansas State, Drake over St. Louis, Cincinnati over Ohio University.

South: Missouri State over San Francisco, Miami, Fla., over Florida, Louisiana State over Georgia Tech, Tulane over Auburn, VMI over Davidson, Duke over Richmond, George Washington over Wayne, North Carolina State over Wake Forest, Furman over the Citadel, William & Mary over Washington & Lee.

Southwest: Rice over Southern Methodist, Texas A & M over Texas Christian, Texas Tech over Baylor, West Texas over Texas Mines.

Far West: Hardin-Simmons over New Mexico, Arizona over College of Pacific, New Mexico A & M over Arizona (Flagstaff) State, Utah over Denver, Colorado over Brigham Young, Utah State over Colorado Aggies, Colorado College over Bradley, Southern California over Washington, Oregon over Washington State, Stanford over Santa Clara, Nevada over San Diego State.

**SQUAD INCREASED**

PORTLAND, Ore.—(AP)—Add signs of the times:

Reed college, which because of the war had to whittle the size of its football teams from 11 men to six men, is going back on normal footing again.

There'll be 11 men on Reed's eleven Saturday when they play Pacific.

**TAMMI IS FATHER**

NEW YORK—(AP)—Tami Mauriello, the Bronx heavyweight knocked out by Joe Louis in their title bout last month, is the father of a seven-pound baby boy, born to Mrs. Mauriello yesterday at Parkchester General Hospital. It is their first child.

In 1800 Harvard fined students who went to a party in Boston $5; a visitor to the theatre was fined $10.

## MONTHLY GOLF CLUB EVENT POSTPONED

The monthly two-ball mixed foursome of the Peninsula Golf Club has been postponed to October 27, Team Captain Bob Leamon announced today.

Mr. and Mrs. Jerry Nelson are the committee in charge of the event.

# Bruins, Bears Meet In Coast Title Struggle

(By the Associated Press)

The Bruins of the University of California at Los Angeles in the far west's major football game tomorrow will try flattening the University of California Bears into another milestone on the route to the Rose bowl.

The game at Berkeley is expected to draw some 60,000 fans, with a boosting block of about 10,000 from Los Angeles for the Bruins.

Heavy odds favor the unbeaten UCLA eleven, boasting a crushing line, a pair of ever-dangerous backs in Ernie Case and Calvin Rossi and ample depth in each position, running the total number of the invading squad to 58.

The University of Oregon, standing alone with UCLA in Pacific Coast Conference unbeaten ranks, plays the twice-defeated Washington State Cougars in a homecoming game Saturday at Eugene, Ore.

The game is expected to be the 1946 conference unveiling of the talented triple-threat Jake Leicht, Oregon ball carrier who was out as a result of an injury when the Ducks rolled over Montana and nipped California.

Coach Phil Sorboe remodeled the right side of the Washington State line and named speedy Jerry Williams as a probable starter at left fullback to replace Bill Lippincott.

Washington's Huskies and the University of Southern California Trojans, each beaten once in the conference, tangle tomorrow at Los Angeles, with slight odds on the Trojans. Bruising 235-pound fullback Arnie Weinmeister of the Huskies may be held on the bench because of a hurt knee. The Trojans have sidelined left halfback Don Doll, a usual starter, whose leg was injured in scrimmage. Don Garlin got the nod to replace him.

Stanford's Indians, beaten only by UCLA, held practically every advantage over the Santa Clara Broncos for their engagement tomorrow at the Stanford stadium.

The University of Nevada's pass-happy eleven opposes San Diego State tomorrow night at San Diego. The Nevada Wolfpack boasts an average of 262 yards per game gained through the air.

The college of the Pacific team of Coach Alonzo A. Stagg leaves today for Tucson to meet the University of Arizona, and San Jose state travels to Moscow for a fray with Idaho.

The University of San Francisco tackles Mississippi State at Memphis, Tenn., and St. Mary's Gaels meet Fordham at New York in two intersectional clashes.

## REPORTED 11 DEER KILLED IN BUCK MT. AREA OF DUNGENESS

There have been 11 deer killed in the buck mountain district of the upper Dungeness valley district by 17 hunters, Elmer Shay reports after having been in the area since the opening of the season Sunday. Shay and Fred Sutter, who with J. E. Law made up a hunting party, each got a buck weighing about 160 pounds. When Shay came out Thursday he had heard that nine deer had been killed in the east fork of the upper Dungeness river.

At Buck mountain weather was foggy and hunting difficult until Tuesday when it cleared and most of the deer were killed after that, Shay said.

A four-point buck that weighed 224 pounds dressed was killed by Roy Thomas in the Deep creek area Wednesday. Deep creek is west of Port Angeles between Twin river and Pysht. Thomas' deer is the largest reported killed this season.

A party of five hunters who were in the Lake Chelan district of eastern Washington have returned without any venison. Members of the party were Harold Dodge, Al McKnight, Frank Finch, Paul Roberts and Bob Monpas.

# Trojans Mystery Has Experts On Coast Bothered

SAN FRANCISCO — (AP) — Football's universal question on the west coast today is: what's wrong with the University of Southern California Trojans?

This is the team that was the pre-season choice of practically every picker to win the conference championship and visit the Rose Bowl for the fourth consecutive time.

From a 206-man turnout, Coach Jeff Cravath counted the noses of some 45 lettermen, in fact when it came time to trim the squad to league regulations it was foredoomed that some of the lettermen would be relegated to minor roles.

Results on the field of competition have been disappointing and disheartening. The Trojans won from Washington State, 13-7; lost to Ohio State, 31-0, and to Oregon State, 6-0. The current collection masquerading as football players is so far removed from the terrible Trojans of old the comparison is ridiculous.

It is apparent that Coach Cravath thus far has been unable to find the proper combinations that go to make up a winning team. The talent is there. The coaching strategy is adequate. But the winning type of football is lacking.

Hindsight is easier than foresight, of course, but some of the bleacher coaches are wondering why Cravath hasn't made use of a Japanese-American halfback on his squad named Johnny Naumu. We'll quote Mr. Chin do Kim on this matter, Kim being the coach of a team from Honolulu which has just completed a tour of the west coast, winning and losing one each and tying another game. The players comprise an amateur club known as the Leialums but have been billed here as the Hawaiian All Stars.

"People in Hawaii think that Naumu is as good a player as Herman Wedemeyer of St. Mary's," Coach Kim said. "They wonder why he hasn't been in the line-up for Southern California. Naumu played two years for the University of Hawaii and was a real star when Wedemeyer was in high school. While in the army in Hawaii, Naumu played against such luminaries as Jack Jacobs, the former Oklahoma halfback now in professional football. He certainly stole the show when he played against the mainland stars."

## NORTHWEST TAKE OF FUR REPORTED LARGE

WASHINGTON—(AP)—The Fish and Wildlife Service has announced that Oregon's fur catch for 1945-46 was 79,216, the highest catch in the last six years. It compared with 57,737 in 1944-45.

The catch in Washington totaled 79,336 compared to 97,154 the preceding year and a high of 98,860 in 1941-42.

In Oregon the kill included: 36 badger; 33 bear, 992 bobcat, 1,484 coyote, 494 fox, 867 martin, 6,519 mink, 33 mountain lion, 61,195 muskrat, 31 nutrio, 7 opossum, 201 otter, 4,422 raccoon, 1,804 common skunk, 725 spotted skunk and 374 weasel.

WWashington reported 163 badger, 1,305 bobcat, 9,144 coyote, 165 red fox, 1,233 marten, 7,757 mink, 217 mountain lion, 51,786 muskrat, 401 otter, 4,043 raccoon, 2,133 common skunk, 902 weasel, 97 nutri.

More hunters and trappers will take to the fields this season, the service predicted, because traps and ammunition are more plentiful.

## ALL-STAR PLAYERS EXHIBIT IN SEATTLE

SEATTLE—(AP)—Two star-studded lineups will clash here tomorrow in an exhibition at the Seattle ball park.

Feller will open against Freddie Hutchinson, Seattle's pride who finally hit his stride with Detroit this year.

Behind Feller will be the two major league hitting kings, Stan Musial of the Cardinals and Mickey Vernon of the Senators, as well as Jeff Heath, another Seattleite now with the Browns; Phil Rizzuto and Charley Keller of the Yanks; Ken Keltner of Cleveland, Sam Chapman of the Athletics and John Berardino of the Browns.

Supporting Hutchinson will be Ralph Kress of the Yanks, Jimmy Outlaw and Roger Cramer of the Tigers. Lou Stringer of the Cubs and Mark Christmas of the Browns, among others.

**OPPOSED TO REFERENDUM**

The Washington State Sportsmen's Council in opposing referendum No. 26 is motivated only by a desire to keep the tremendously valuable game and game fish resource, and its administrative personnel out of the mire of partisan politics, its secretary Ken McLeod declared recently.

"In addition to its priceless value as a recreational asset, Washington's wildlife is also one of the state's most valuable business producing resources and should not be made subject to the political whims of any one man in the governor's office, irrespective of the party he represents," McLeod said.

## MOTHERHOOD PAYS OFF IN RUSSIA

MOSCOW —(AP)— Increases in already liberal allowances for Russian mothers—especially those with large families—are expected by some observers to boost the total population of the Soviet Union to more than 200,000,000 within the next few years.

(The 1939 census gave Russia's population as about 170,500,000).

Under a budget proposed by the finance ministry, the government would spend 4,000,000,000 rubles in allowances to mothers next year, as compared with 2,100,000,000 rubles last year.

(The ruble's official value is 5.3 to the dollar).

It is no secret that Russia, which suffered heavy losses during the war, needs manpower to man her machines and till her fields. The new appropriations are expected to provide an incentive for larger families.

he monetary unit in Argentina is the peso.

(NEA Telephoto)

Firemen in vain give artificial respiration to pretty Rose DeFabrizio, 21, who collapsed as she walked up aisle of church at Inwood, Long Island, to be married. Her father carried her to the church lawn after she became entangled in her train and apparently fainted. "She had a rheumatic heart,' her doctor said. "The embarrassment of stumbling over her train was too much for her."

## MULKITEO DUMP GOES TO NAVY

SEATTLE —(AP)— The army has turned over to the navy the Mukilteo ammunition and explosive loading terminal which channeled half a million tons of explosives into the war against Japan.

Col. Fenton S. Jacobs, commander of the Seattle port of embarkation, who made the announcement, said the installation was built in 1942 at a cost of $2,700,000 and operated with a perfect safety record in strictest secrecy.

Recently it has been used for decommissioning ships, an operation now transferred to Cathlamet bay on the Columbia river. The navy will use it as a berthing facility until mid-1947.

**LONG HOP**

CHICAGO —(AP)— Two little frogs made a long hop from their home in Holland to the Lincoln park zoo.

The European grass frogs, or rana temporaria, were sent by air by J. Tinastra, a member of the Terrarium Society of the Hague, Holland. Zoo officials said they are rather common in Europe but a rarity in the United States.

**THIRSTY SCAVENGERS**

SEATTLE —(AP)— A thirsty but frustrated crowd of spectators gathered last night on E. Marginal Way after a truck loaded with scores of cases of state liquor board whiskey sheered off two utility poles and overturned. The driver, Clarence C. Youngblood, 38, Seattle, was unhurt. State patrolmen set up vigil over the overturned load.

## Coffe, Mayonnaise Decontrolled By OPA

WASHINGTON —(AP)— OPA yesterday removed price lids from coffee as it speeded up the decontrol drive.

The price agency said it has approved a decontrol petition on both green and roasted coffee at all levels of distribution.

As the White House prepared to hasten the scrapping of wage controls along with food price ceilings, OPA freed all vegetable fats and oils — margarine, mayonaise and salad dressing—freed federal restraints.

The agency said it agreed to lift its price ceilings on coffee because "data presented by the industry and obtained by OPA" indicated that "supply and demand were approximately in balance."

The action represented the first formal approval of a petition for removal of ceilings on requests of one of OPA's industrial advisory committees.

The petitioner was the coffee industry advisory committee.

OPA must act on such petitions within 15 days and it pointed out that today's action came 10 days after the decontrol petition was accepted.

## MORSE SAYS KRUG'S PROPOSAL POLITICAL

WASHINGTON —(AP)— Senator Morse (R-Ore) said today that announcements by Interior Secretary Krug concerning coordination of federal activities in the Pacific northwest were made to help democratic candidates in that area.

Krug at a press conference Wednesday announced a plan to have a committee representing eight government agencies coordinate work in the Pacific northwest and said he favored a plan for some kind of agency to have authority over the Columbia river problems.

Morse said in a statement that the principles of Krug's coordination plan were sound.

"However," he continued, "I seriously doubht such a plan will even be successful under the democratic administration because it is impossible to coordinate a political program of inconsistencies and inconsistency and political expediency are the chief characteristics of the Truman administration of which Krug is on of the most active political spokesmen.

## Jefferson County

(Port Townsend Leader)

**Large Timber Sales**

Jefferson County Treasurer Sam Peach reports that all records for county land sales have been broken in the past two years when the sales from September 1, 1944 to September 1, 1946 have been about $140,000. In the period the county has sold about 32,000 acres, 3,339 lots and 150 chains of tidelands.

**Shooting Scrape**

Ellery Richardson of Poulsbo was wounded in the abdomen last Saturday night during an altercation outside the Richfield Tavern near the head of Discovery bay. Steve Cowan, former Port Angeles man, in an appearance before F. Webster Cook at Port Townsend, Monday, plead guilty to carrying a pistol without a license and was fined $100. Cowan said he fired at Richardson in self defense, only intending to inflict a minor wound on his hip. Richardson's was not serious as the bullet did not pentrate the abdominal cavity. Cowan was severely beaten and suffered a head cut and broken nose and bruises.

**Drug Store Robbed**

Some time last weekend the Baker Drug Store at Port Townsend was broken into and about $50 in currency stolen. No silver money was taken.

**Airport Improvement**

Jefferson county commissioners recently voted to spend $4,000 on improvements on the county airport, under lease by the county from the federal government.

**Lower Tax Millage**

Port Townsend residents will pay a city tax levy of 22.5 mills per dollar next year, the lowest in the past twenty years. This year the millage was 26 mills, in 1945 it was 29 mills and in 1944 it was 30 mills. City expenses are higher but the reduction is due in part to the final payment of an old bond issue for construction of the city hall in 1891 and continuously refinanced.

**New Yacht Club**

More than a hundred boat owners are organizing the Key City Yacht Club at Port Townsend. H. O. Bromley is temporary chairman of the organization.

**Halloween Entertainment**

Various Port Townsend organizations are planning on cooperating in the sponsorship of a Halloween party for high school students at the community center.

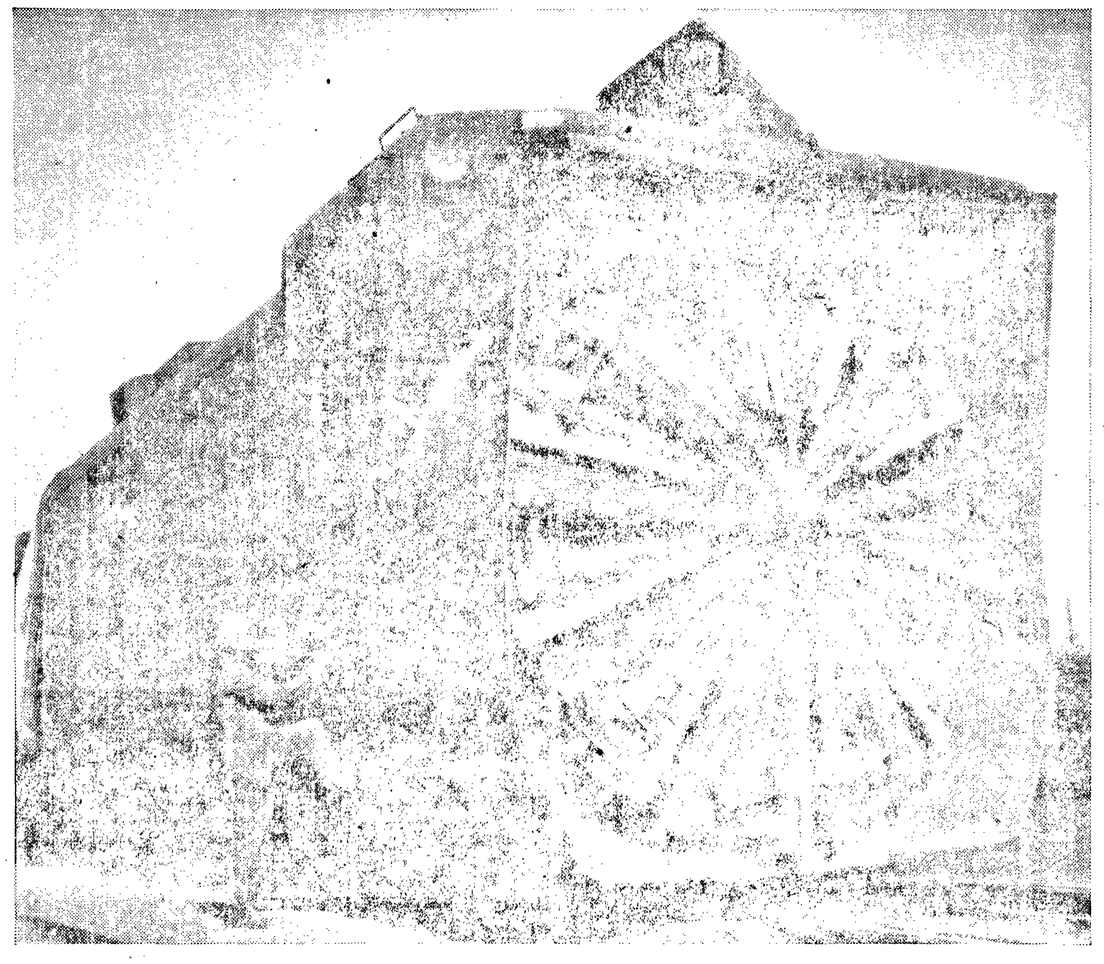
**WORTH CROWING ABOUT**

PIORIA, Ill. —(AP)— Butchers in some cities may be selling steaks at $1 a pound, but a white leghorn rooster sold at auction here carried a higher tag to crow about.

J. Turner Mills of McNabb, Ill., paid $105 for the purebred rooster which weighed about five pounds at an auction sponsored by the Illinois Poultry Improvement Association.

Mills isn't planning to eat the rooster, which will be used for breeding purposes.

# MAIN STREET



## *We hope it's a frozen asset*

This Northern Pacific snowplow may *never* earn back the $98,000 we paid for it. But no matter how bad the blizzards this winter, you'll get through on the North Coast Limited.

All up and down the Northern Pacific you can find equipment units of this kind—many of them "frozen assets". No flood, storm, washout, rock slide or other foreseeable emergency will catch us unprepared. We gladly take our own profit-money to provide this unprofitable equipment because, in the end, good and dependable service means *more* business, *more* profits for us.

This kind of "selfish public service" is a good thing for all our neighbors along "Main Street". Right now (without waiting for any social blueprint) we are using every trick in the book to make this a better railroad. Last year we laid 800,000 new ties . . . tamped 1,400,000 yards of crushed stone into deeper, finer roadbed . . . went ahead with the building of a new $9,000,000 passenger train which is going to carry you in the lap of luxury.

If you know a better way to run a railroad, we'd like to hear from you. We'd like to hear from you anyway.

# Over 700 Lads from Nine to 18 Enrolled In Cub or Scout Troops in This County

During this first post-war year the Boy Scout movement in Clallam county has definitely launched on a program of vitalizinz its work, says J. C. Marshall, district chairman. Better training of leaders, carefully planned activities, a regular schedule of advancement procedures, and a year-long program of organization and extension calculated to make the character building and citizenship training benefits available to all boys throughout the county are the four aims.

Dozens of new leaders have been recruited for the rapidly expanding organization, and the fine morale which these men bring to the job of building better boys was evidenced last month at the first annual potlatch at Lake Crescent, when 75 men spent two days in training sessions. Experts came from the Seattle scout headquarters to provide the technical leadership for the groups.

The successful operation of this year's Community Chest campaign will make possible doubling the number of boys taking part in the scout program throughout the county. It will provide—along with a proportionate participation from Jefferson county—for the maintenance of a full-time scout executive for the two counties and continuation of the field office of the area headquarters here in Port Angeles.

**Half a dozen units are in process of organization at this time, making possible the participation of over a hundred new boys in the cub scout and boy scout sections of the program.** As soon as the leaders of these groups are sufficiently trained and oriented in the methods and objectives of the Boy Scout movement, new groups will be provided in other communities throughout the county.

**PLAN FOR 700**

Based on carefully worked out plans, according to the number of boys available to scouting in Clallam county, the Clallam district committee hopes to have 300 boys from nine to 12 years old taking active part in the neighborhood-centered, parent-controlled program of cub scouting within the next 14 months.

Another 300 boys from 12 to 15 years old will be enrolled in boy scout troops in Angeles, Sequim, Forks, Agnew, Dry Creek, Beaver-Sappho and Clallam Bay.

It is planned that approximately 100 boys of high school age will be using the programs of Explorer Scouting, Sea Scouting, and Air Scouting within the year.

Nearly 200 adult leaders will require year-round training and guidance in their volunteer use of the three phases of the Boy Scouts of America program, said Marshall. This is the main responsibility of the professional field executive and the commissioner staff, who have all of the resources of the headquarters of one of the nation's greater scout councils to draw upon.

**SUMMER CAMP**

Summer scout camp at Camp Parsons on Hood canal is a major element in the year's program which is planned and co-ordinated through the district committeemen. This camp, recognized as one of the finest in the entire nation, is particularly popular with Clallam county scouts who make good use of the opportunity to acquire specialized scout skills for which local training is sometimes lacking. Here boys learn swimming and lifesaving and enjoy the exchange of ideas with scouts from troops throughout the four counties which make up the area council.

Boy Scouts in Clallam county also have the opportunity to participate in the nationally recognized annual scout circus in Seattle, to usher at university football games, to enjoy the fellowship of district-wide camporees and outings, and to get the inspiration of achievement with recognition at the monthly courts of honor held throughout the county this year.

Cub Scout groups were enthusiastic in their participation in the first annual Cub buy derby held in Port Angeles this fall, but the highlights of their annual experience come in their own pack-planned and executed programs, such as the wonderfully successful pack circus conducted by one of the local groups this spring.

**VOLUNTEER LEADERS**

The Clallam district committee, which administers the affairs of scouting in Clallam county, is composed of J. C. Marshall, Lawrence V. Venable, Walter C. Brazel, Henry V. Charnell Jr., John G. Hardy, Harold McLaughlin, Wallace E. Samuelson, J. V. Venables, V. R. Shore, Ralph Smythe, John Resch, Evan David of Forks, James E. Maxfield, Dan E. Pierson, Jack Loewen, Paul Brown, Fred G. Beale, Claude W. Jarvis, D. D. Divine, Elmer Romberg of Agnew, Stanley Taylor, S. A. Taylor of Sequim, Kenneth Reid and Maurice F. Powers.

These men are all actively engaged in the extension of the scout program in the county, and they heartily endorse the Community Chest organization which is making possible the provision of leadership and direction which will guarantee to all the boys in all of the communities of the county the opportunity to be Cub Scouts, Boy Scouts, or Senior Scouts.

## OUR CONGRESSMAN

Many people feared that when the government took over many controls during the war that like tax money, it would be hard to get back again.

The republican candidate for congress claims that on 18 measures involving the issue of bureaucratic decontrol and states right, our Voice in congress sided with the bureaucrats 13 times and was absent 5 times.

We have approximately two million bureaucrats swarming over us and regulating us but our present congressman opposed a 10% reduction in personnel in administrative agencies.

He refused to trim the expanded budget of Wallace's commerce department by $4,460,000.

He opposed a $1,854,000 cut in OPA budget. This amount was asked to hire 1,561 extra bureaucrats to enforce price control.

**Why can't controls be given back to the states and let congressional brains go to solving the peace?**

**This Year—Vote Republican!**

## ALUMINUM HOUSES TO HELP PROGRAM

WASHINGTON —(AP)— Construction of 100,000 factory-built aluminum houses in 1947 by private industry is being planned to speed up the veterans emergency housing program.

The civilian production administration and the national housing agency said that the decision to use aluminum was based on "indications of a serious shortage in steel sheet, wood and other housing materials, extending well into 1947."

An NHA official disclosed earlier this week that at least five air-craft companies are contemplating entering the pre-fabricated housing deal.
