OFFICIAL NEWSPAPER FOR City of Port Angeles and Clallam County

# THE OLYMPIC TRIBUNE

THE OLDEST NEWSPAPER In Clallam County

Vol. LXVI. No. 44 — Port Angeles, Washington, Friday, January 25, 1952 — 6 Pages — Weekly Since 1886. $2.00 per year, 5c per copy. Entered as Second-Class Matter on April 17, 1916, at the postoffice at Port Angeles, Washington, under the act of March 3, 1879.

## Police Intensify Search For Man Missing Since Sunday

City police want to know who was with Douglas McLennon last Sunday. If they can talk to that man, they may get some clue as to the whereabouts of the missing Elks Temple caretaker.

Police first were told McLennon was last seen at a local tavern Saturday night. But Police Chief R. O. Ide today said four people have told of seeing McLennon in another man's company Sunday, walking around the Lincoln Street and downtown section.

Chief Ide says his men have been making an intensive search of the city this week, particularly the waterfront area, to no avail. He says he plans to organize a special search detail to step up the hunt.

McLennon is 38 years old, 5 feet 8 inches tall, weighs just over 200, has brown eyes, brown hair, ruddy complexion, and was wearing a green and red plaid shirt, green or tan trousers and black work shoes when last seen. He may also have been wearing a blue jacket.

## Forks To Go Ahead On School Construction

Quillayute Valley School District directors have decided to go ahead immediately with construction of a 10-room grade school at Forks.

Eiford Construction Co., Bellingham, was low bidder at $325,674 when bids were opened two weeks ago. The bid included the entire cost of the building.

The bid figured out to $13.84 a square foot, but the State Department of Public Instruction only matches funds to $13 a square foot. The directors visited Olympia last week and asked for an exception to the rule because of high transportation cost of material to Forks. They expect an answer to their appeal in a couple of months, but decided to go ahead with the building for fear building costs may increase further meanwhile.

The State Board of Education has taken the district's request under advisement, meanwhile the State Department has offered to allow $13 per square foot on the total contract cost of the building, instead of on the $250,000 original estimated cost. This would be approximately $20,000 increase in state money over the original estimated cost of the building, based on pre-Korean prices.

Visiting Olympia on behalf of the district were board members Sheal Parker, Bruno Sarnowski and Walter Roberge. They were accompanied by School Supt. W. H. Brown.

## 5 Tracts of Timber Put Up For Bidding

Olympic National Forest Thursday advertised five units of Calawah fire-killed salvage timber for sale at open auction in Port Angeles Feb. 25 and 26.

Timber totals 234 million board feet on 5,375 acres.

The five advertisements published in the Jan. 24 Evening News will repeat on Jan. 31. Advertisement is required 30 days before sale dates.

The Evening News will publish a detailed tabulation of the sales by units and timber species.

## Filings Close Today For School Districts

With filings closing at 5 p.m. today for school board elections, four candidates have filed for the Port Angeles School Board. Voters will elect two of them for three-year terms at the March 12 election.

Candidates who have filed include Mrs. Helen Radke and Dr. Quentin Kintner, incumbents, Ernest H. Wagner and D. B. Phillips.

School board candidates file at the clerk's office of their respective districts.

## Oregon Forms Kefauver Group

PORTLAND (AP)—An Oregon Kefauver for President Committee was announced here today.

Chairman is Walter J. Dennis, state president of the Young Democratic Clubs of Oregon. He headed a group which circulated petitions to put Kefauver's name on the ballot as a candidate for vice president.

Among committee members are State Sens. Richard Neuberger and Jack Bain.

**HOLD UP NOMINATION**

WASHINGTON (AP) — The Senate Banking Committee today refused to approve the nomination of Harry A. McDonald to head the Reconstruction Finance Corporation pending further study.

It send word of its decision to President Truman.

McDonald now is chairman of the Securities and Exchange Commission, which is under investigation of a House commerce subcommittee.

**STABILIZER ON TAXES**

WASHINGTON (AP) — President Truman's new economic stabilizer said today he thinks adding five billion dollars in taxes would be "helpful" to the nation's economy.

Robert L. Putnam, the economic boss who has been in office less than 606 days, said so in an appearance before the Senate-House committee which is studying Mr. Truman's economic report. The President has asked Congress to enact the increased taxes.

**VETERAN GETS MEDAL**

CRANBROOK, B.C. (AP) —Thirty years after being pensioned for the second time from the British Army, J. P. Fraser has received the meritorious service medal. He enlisted in 1890, was first pensioned in 1911 and rejoined for World War I, coming to Canada in 1921.

NEW ROLE FOR DEPUTY — Deputy Sheriff Robert Polhamus added baby sitting to his duties Monday afternoon, when the Clallam County Sheriff's office found itself with a mother and four small children in custody and no place to put them. Because the sheriff has no facilities for detention of women or juveniles, these four little girls had to be separated from their mother while she was being held here temporarily for the Snohomish County sheriff. Left to right are Phyllis Nelson, 6; Deputy Polhamus; Marilyn, 11, holding year-old Norma, and Marcella Nelson, 10.

## Arrest of Mother and Children Poses Problem For Sheriff

By FRANCES GALLAGHER

Sheriff James Morse was temporarily baffled this week when he was called upon to detain a mother and four children, in a jail which completely lacks facilities for either women or juveniles.

Sheriff Morse finally solved his problem with the aid of baby-sitting deputies, the juvenile officer and a kind-hearted woman who opens her home to unfortunate children. "But what if we couldn't have found a place for them?" Morse asks.

The story began at Forks Monday, when Deputy Mel Loth arrested Mrs. Elsie M. Nelson, 41, wanted by Snohomish County Sheriff Tom Warnock on a child abandonment charge.

Mrs. Nelson had to bring four of her small daughters with her to jail, but the Clallam County jail lacks decent facilities where a woman can be kept in custody, let alone be kept with her children.

With the help of Juvenile Officer Gerard Johnson, Morse finally contacted Mrs. H. H. Balch, who agreed to open her home to the children. Baby Norma's cries for "mommy" followed the mother as a deputy escorted her to a city jail cell, at least more private, but no more deluxe than the county jail. Morse points out that the mother and children could have stayed together, with an acceptable place.

**JUVENILE ADDS TO PROBLEMS**

As if that weren't enough of a headache for Morse in one afternoon, a state patrolman brought in a 17-year-old youth on a traffic charge, to be held on $50 bail. Morse could only put him into the county jail with older law violators already there.

"We should have held two local 17-year-old boys last week," Morse said, "but we released them on their own recognizance because we hadn't the heart to put them in that jail.

"Frankly, it boils down to our neglecting our duty because we have no place to put these kids. Some of them could be helped immeasurably if they could be kept here near the juvenile officers before appearing in court."

Morse maintains the space is available. The large room vacated when the sheriff moved his offices into the health district's former quarters is still unused. Morse estimates $3,000 would adequately remodel the room into quarters for juveniles and for women, separate from the present jail, but in too close proximity to be feasible for any other county use.

**NOW AT EVERETT**

Sheriff Warnock picked up the mother and children Tuesday afternoon.

Both the mother and father, Ernest D. Nelson, 40, are in jail at Everett with bail set at $2,000 each. They are charged with abandoning two daughters, 13 and 8, in a shack east of Goldbar, Wash., without sufficient clothing, food or heat. Nelson was arrested Sunday near Monroe.

## Report Man's Alleged Victim Lives

EVERETT, Wash. (AP)—The third man Harold G. Chase says he killed is reported as being very much alive and the identity of the victim—if such—remains a mystery today.

Chase told Snohomish County Sheriff Tom Warnock Thursday that a man he says he robbed and killed last fall in San Francisco probably was Dr. Richard Podhorsky. The name was on a page which had been torn from a notebook diary the former Darrington marshal kept. Sheriff Warnock found it in Chase's personal effects.

"Yeah, that could be him," Warnock quoted Chase as saying. The page bore a notation about the Yugoslav Information Service in New York City. A Dr. Podhorsky was registered at the Crane Hotel in San Francisco in October, a time Chase is believed to have been in the California city.

But a check in New York revealed that Dr. Richard Podhorsky was a well known Yugoslavian chemist and now living in Zagreb where he teaches at Zagreb University.

**OTHER CHARGES**

Chase already is charged with first degree murder in the deaths of Dr. Russell R. Bradley, 50, Everett optometrist, and Leonard Lewis, Sedro Woolley. He has confessed killing both men, and a third man in San Francisco. The San Francisco "victim's" body has never been found.

The question bothering Sheriff Warnock now is where did Chase get Dr. Podhorsky's name?

## High Schoolers' Slalom Race, Change In Instruction Schedule For Sunday Skiing

President Jud Dailey of the Olympic Ski Club announces a half-hour change in schedules for ski lessons at Deer Park Sunday.

The instruction under Don Spicer, former Snoqualmie Pass instructor, will start at 10 a.m., with a class for advanced skiers until 11:30. Intermediate skiers will be taught from 11:30 to 12:30, beginners from 1:30 to 3 p.m., and intermediates again from 3 to 4 p.m. The change results from adding a half hour to the advanced skier instruction.

Dailey said this schedule is now final, and will carry through for five more Sundays, including all of February.

The Port Angeles Venture Club will sponsor this Sunday's lessons in cooperation with the Olympic Ski Club, making possible free lessons for junior skiers.

"We want our young people to learn to ski safely and correctly," Dailey said. "The lessons are free to all juniors, and they don't have to be Ski Club members to get the instruction. All they need is a permission slip signed by their parents."

**SLALOM RACE SCHEDULED**

In addition to the instruction, a slalom race for high school skiers will feature Sunday's events.

The race will run over a 1,000-foot course, starting at 1 p.m. on the north slope. **All racers should enter the 10 o'clock advanced instruction class which meets on the north slope.** Immediately after the class the racers will pack the course for the race. Racers who don't get to Deer Park in time for the advanced class should go immediately to the north slope to help pack the race course.

Winner of the race will receive a permanent trophy with his name engraved on it. Bruce Kirkland will set the course, Harold Butler is starter, and Jud Dailey timer. The officials ask all competitors to return their race numbers to the lodge following the race.

Spectators may view the race by going over the ridge at the north side of the lower meadow, or may go to the top of the upper tow and follow the road to the right.

**SKID CAUSES DEATH**

LEWISTON, Idaho (AP) — A beer truck skidded on the icy Lewiston grade and crashed into a Greyhound bus early today, trapping the bus driver behind the wheel more than an hour. He died en route to a hospital.

THE EASY WAY UP — These skiers at Deer Park are taking the upper tow to takeoff points near the top of Blue Mountain. The road crossing the ski tow in upper center winds up the mountain to the Olympic National Park lookout at the top. (Photo by Floyd Gossard)

## U.S. Jets Down 10 Red Planes In Big Battle

SEOUL, Korea (AP)—Daring American Sabre jet pilots shot down at least 10 Red jets in four flaming air battles over Northwest Korea today.

Two Communist MIG-15s exploded almost in the faces of American pilots. The blast blew out the jet power in two Sabres, and the Americans had to go into long dives before their jets flamed into action again.

Two other Reds spiraled down in fiery streamers. A fifth went down in long loops, its pilot still trying to regain control, and exploded as it hit the ground.

It was one of the biggest jet victories of the war.

The Fifth Air Force announced 10 Russian-type jets were definitely destroyed, one probably destroyed and three damaged.

**The biggest toll in an all-jet battle was Dec. 13 when 13 Red jets were reported destroyed, two probably and three damaged.**

American losses, if any, in Friday's four battles were not announced. U. S. air casualties are reported weekly.

The air war grew in fury as the day wore on while the ground war lay relatively quiet under a blanket of fresh snow.

## White House Drops Fight Against Capehart Amendment

WASHINGTON (AP)—The White House conceded in effect today that President Truman has lost his fight against what he has called "the terrible Capehart Amendment" in the Economic Controls Law.

Presidential Secretary Joseph Short, asked about a published report that Mr. Truman would not renew his fight for the elimination of the amendment in the law, told reporters:

"The increases under the Capehart Amendment already have gone into effect. Nothing can be done about them. What has been done cannot be undone."

The amendment, added to the Defense Production Act last year under sponsorship of Sen. Capehart (R.-Ind.), permitted manufacturers to include higher labor and material costs arising between the beginning of hostilities in Korea and last July 26, in figuring their ceiling prices.

Short said President Truman is still opposed to the principle of the amendment, but left the impression that the administration feels that the damage largely has been done.

## Negotiators Would Drop Airfield Talk

MUNSAN, Korea (AP) — Allied truce negotiators suggested today that the thorny question of airfield construction be set aside temporarily and staff officers start work immediately on other details of policing a Korean armistice.

Chinese Maj. Gen. Hsieh Fang promised to study the proposal and reply later. He did not say when.

Both subcommittees agreed to meet again at 11 a.m. Saturday or 6 p.m. Friday in Panmunjom.

**HOT IN AUSSIE LAND**

SYDNEY, Australia (AP) — More than a dozen people collapsed in Sydney today as the city's temperature soared 23.7 degrees in five hours to a ten-year record high of 105.1 early in the afternoon.

The furnace like heat prevented people from seeking refuge at harbor and ocean beaches because the sand was too hot to stand on.

(NEA Telephoto)

REBELS AGAINST ARMY RULE—WAC Maj. Alba Thompson of Newark, N. J., who is carrying on a feud with the Army authorities who want to discharge her because she has a child, reads a reply to her appeal from Asst. Defense Secy. Anna Rosenberg. Maj. Thompson said that if the Army wants to discharge her they will have to prove she is a mother, but they'll have to without her help.

## Gov. Dewey Warns Free World Must Stop Aggression in Southeast Asia

NEW YORK (AP)— Gov. Dewey, in a soberly worded warning, said Thursday night that the free world is courting catastrophe if it fails to take prompt action against aggression in Southeast Asia.

He repeated again his months-old demand for a mutual defense treaty of free Pacific nations and said:

"We should make it clear that we will not hesitate to use every weapon at our command and every weapon we may develop in the future in the manner that hurts the aggressor most."

"If we do not issue such a warning," the two-time Republican candidate for President added, "I believe we will have war."

Dewey, who traveled widely last summer in the Far East, called attention to the fact that the United States is committed to the defense of Japan, the Philippine Islands, Australia and New Zealand.

"But, as it stands today, we have guaranteed either too much or too little," he said.

Poised for an invasion of Southeast Asia, the New York governor said, are a quarter million seasoned Red Chinese troops.

Of this threat to Burma and Indochina, he said:

"If we wait for an attack by Red China upon Southeast Asia and then take the case to the United Nations, the Russians will stalemate action until all is lost.

**PROPHECY**

"If the free world does not take action to prevent that Chinese invasion, I make the prophecy that the world will face the greatest catastrophe of our time.

"Three hundred million people—twice the population of the United States—would be lost to Communism.

"Raw materials essential to our survival would fall into the hands of the Soviet."

**And, he warned, "the defense of America would shrink back to Hawaii or to the coast of California."**

Dewey spoke at a meeting of the National Industrial Conference Board.

## Rayonier Plans Georgia Pulp Mill

NEW YORK (AP) —Rayonier Incorporated announced Thursday it will construct a new pulp mill at Doctortown, Ga., capable of producing 250 tons of purified wood cellulose a day.

The company said construction on 530 acres of land will be started as soon as steel and other materials requiring government allocation become available.

The project will constitute an investment of more than 25 million dollars.

Rayonier already owns and operates three mills in the state of Washington and one in Florida, with combined annual capacity of about 430,000 tons of purified wood cellulose.

## Police Seek Father Of Missing Girl

PORTLAND (AP)— Police tried to find the father of a kidnapped 3-year-old girl today, meanwhile pursuing all other clues that might lead to the missing tot.

Detective Capt. William Browne said they still feared little Sherrie Ellen Kader had been abducted Wednesday by a sex offender, but also were trying to trace the father.

Browne said the father was George V. Dollarhide, who separated from the mother two years ago and went to Los Angeles. Dollarhide now is missing from Los Angeles, Browne said.

**Police were getting scores of calls from Portlanders who believed they had seen a man resembling the kidnaper. Some 50 detectives ran down these clues without success.**

The girl was grabbed from her yard in a section where four other attempts to abduct children had been made in two months. In one a boy was carried off by a sex offender, and later released. Sex offenders were blamed for the other attempts.

## Claim So. Koreans Killed 8,000 Reds In Recent Big Drive

SEOUL (AP)—An Eighth Army staff officer today, said South Korean troops killed 8,000 Communists and captured 7,000 in the Chiri Mountains behind Allied lines.

The seven weeks drive against guerrillas cracked their corps of Moscow-trained leaders, the staff officer said.

It cleaned out a centuries-old bandid stronghold in rugged terrain where peaks rise to 6,000 feet.

An officer who took part in the operation said the guerrillas, "general staff of Moscow-trained leaders had been trapped."

## British, Egyptians Battle; 45 Dead

By TOM STONE

CAIRO, Egypt (AP)—British troops with tank support battled Egyptian police for six hours in Ismailia Friday.

British officials reported 42 Egyptian police and three British soldiers killed in the bloodiest fighting yet in the Suez Canal Zone.

The British counted 58 Egyptians and 13 British soldiers hurt in the battle, which the British initiated to disarm Egyptian auxiliary police.

The British claimed the police were fighting them instead of keeping order.

An embittered Egyptian Cabinet was called into emergency session, possibly to consider breaking off diplomatic relations with the British.

Despite appeals from outside sources for efforts to make peace in the Suez, relations between the British and the Egyptians appeared to be at their worst point since Egypt cancelled the 1936 Anglo-Egyptian treaty last October and demanded that British troops get out of the vital Canal area.

The fighting began in Ismailia, a midway point in the canal zone, at dawn. It ended shortly after noon, the British said, when Egyptian police resistance collapsed.

**FIGHT TO END**

Outnumbered two to one, the police had been under orders to fight to the bitter end. They fired 60,000 rounds of ammunition before they yielded.

The fighting occurred at two main ents—the Egyptian Health Center two blocks from the police headquarters and at the police headquarters itself.

The British said 41 Egyptians were killed and 55 wounded at the health center. One was killed and three were wounded at the police station. Four hundred police surrended at each place—a total of 800.

A British spokesman said all would be detained pending "screening and interrogation."

Lancashire Fusiliers moved against the health center under a smoke screen because police inside were sniping at the British.

Egypt is demanding that the British give up their authority in the Anglo-Egyptian Sudan as well as quit the suez.

**WON'T JOIN PACT**

Egypt has turned down a Western proposal that she join in a Middle East defense pact.

The West hoped that by joining such a pact Egypt would become an active partner in defense of the Suez Canal waterway and the Egyptian-British dispute could be ironed out.

King Ibn Saud of Saudi Arabia has come up with a plan for getting British troops out of the Suez within a year.

Britain would undertake the task of training and equipping Egyptian troops for defense of the canal. There has been no official British or Egyptian reaction to Ibn Saud's proposals.

## Powerful British Fleet Leaves Malta

LONDON (AP)—A powerful fleet of British warships left Malta today—possibly headed for the Suez Canal Zone, scene of bloody fighting between British troops and Egyptian police.

The announcement of the fleet's departure was made by the admiralty as the war office received unconfirmed reports that four British soldiers were killed and nine wounded in the battle Friday at Ismailia.

## Gorrie Nomination Gets First OK

WASHINGTON (AP) —The Senate Armed Services Committee today approved President Truman's nomination of Jack Gorrie of Washington State to be chairman of the National Security Resources Board.

Chairman Russell (D.-Ga.) said it and three other nominations were approved by voice vote with no negative votes "although one Senator expressed some doubts about one nomination."

Sen. Cain (R.-Wash.), who questioned Gorrie at length in closed-door sessions before the committee acted, said he would have a statement later.

## Political Committee O.K.'s Russ Plan For U.N. Membership

PARIS (AP) - The United Nations Political Committee, over strenuous U.S. objections, today adopted a Russian resolution calling on the Security Council to reconsider membership applications from 14 countries, including Italy and five Soviet satellites.

The United States said it had no objection to reconsideration of the the candidates but vigorously opposed reconsideration because the Soviet Union made it clear in debate that the proposal was designed to have all 14 admitted in one package deal.

It was the first time in U.N. history that the Political Committee adopted a major Soviet resolution over American opposition.

The vote was 21 to 12 with 25 abstentions. This is less than the two-thirds majority required for final passage in a general assembly plenary session which must confirm the committee action.

U. S. Delegate Ernest A. Gross said he did not construe the vote as a defeat for the United States. He said he was confident the resolution would be defeated in the assembly.

**LIST COUNTRIES**

The Russian resolution calls on the Security Council to reconsider in one group 14 countries who have applied for U.N. membership—Albania, Bulgaria, Hungary, Romania, and Outer Mongolia, all backed by the Soviet Union, and the Western-sponsored countries, Ireland, Italy, Ceylon, Finland, Nepal, Australia, Jordan, Libya and Portugal.

## Protestants Against Vatican Diplomat Plan

WASHINGTON (AP) — President Truman has been advised by a Protestant churchman that his insistence on sending an Ambassador to the Vatican will bring him defeat at the polls if he seeks reelection.

This advice came Thursday night from the Rev. Carl McIntire of Collingswood, N. J., president of the International Council of Christian Churches.

He told a Bible-carrying rally, estimated to number 4,000, that "all the unions there are can't elect" Mr. Truman now.

**The President told his news conference Thursday he would go ahead with his plan to name a full-fledged Ambassador to the Holy See.**

The day-long Protestant rally, sponsored by the American Council of Christian Churches, unanimously adopted a resolution declaring that "so long as we live, we will resist with all our strength the sending of any diplomatic representative to the Vatican."

The resolution said the church and state must avoid "trespassing" on one another's domain.

**WILL WORK FOR DEFEAT**

"We shall as individual citizens work for the defeat at the polls of any man or any party which is disposed to undermine the constitution," it said.

## Canada Gets Own Governor General

LONDON (AP)—Vincen Massey, one-time farm implement manufacturer and elder brother of Actor Raymond Massey, was approved today by King George as the first Canadian-born Governor General of Canada.

Buckingham Palace said Field Marshal Viscount Alexander, whom Massey succeeds, will take on "other responsibilities." He is expected to be named Minister of Defense in Prime Minister Churchill's Cabinet.

Massey will represent the King in the Dominion's replica of the constitutional monarchy by which Britain is governed. His appointment ends 85 years of royal representation by Britons only.

### STRAWBERRY PLANTS NEED PROTECTION

NEW YORK (AP) — Farm experts advise that amateur strawberry raisers should always protect the plants against low temperatures in the winter season. This can be done by covering the beds with straw, leaves, sawdust, or similar mulch.

In the spring, only part of the mulch need be moved to a place between the rows, the remainder staying with the plants to help out both as fertilizer and as a reducer of weed growth.

### DOESN'T MIND 'VEEP'

WASHINGTON (AP) — Mrs. Alben Barkley doesn't mind being called "Mrs. Veep" but she definitely doesn't like being referred to as "The Veepess."

"Sounds like a snake," she says.

AMONG THE ZOO RARITIES—These sleepy-eyed double hybrid bears, biological freaks, lie in Washington, D. C., Zoo during bottle-feeding soon after birth. Their hybrid parents, descended from an Alaskan brown bear and a polar bear, normally do not reproduce.

## Jefferson County

(Port Townsend Leader)

**Building Costs Under Estimate**

Bids received by the Port Townsend School District for a new elementary school building total $214,-032, well under the original estimate of $262,000, Supt. W. H. Carder reports. The square foot cost figures out to $11.5736, which is also well under the state's $13 minimum. The building includes seven class rooms, two kindergarten rooms, office suite, play room and heating facilities.

**Yacht Club to Burn Mortgage**

The Port Townsend Yacht Club will hold a crab feed Tuesday night to celebrate burning its mortgage. "This is the evening we've been waiting for a long time," said Commodore Al Ramsdell.

**Elks Also Burn Mortgage**

Another mortgage burning ceremony took place Thursday night when the Port Townsend Elks Lodge marked the end of indebtedness on a remodeling program undertaken two years ago. At that time the lodge opened a new ground floor cocktail lounge, bar, and other lodge facilities.

**Way Cleared for Park Area Sale**

Jefferson county commissioners this week passed a resolution clearing the way for the city of Port Townsend to sell the Morgan Hill area known as Sather Park. The resolution released restrictions placed upon the property at the time it was deeded by the county to the city many years ago. The city plans to sell the tract for a housing development.

### YEAR OF WATER DRAGON

HONG KONG (AP)—China's New Year—the year of the Water Dragon—begins at midnight Saturday.

Under China's Lunar Calendar it will be year 4649.

The sages aren't too optimistic about the year of the Water Dragon, which rolls around every 12 years. They see a little hope for mid-year, but predict that the 12-month cycle will end on a sorrowful note.

### ARTIFICIAL LAKES TO AID IRRIGATION

CAGLIARI, Sardinia (AP) — Three artificial lakes being made in the upper reaches of the Flumendosa River will enable 8,000 families to have new farms in a 112,000-acre area of formerly uncultivated land.

The three lakes will have a total capacity of 50 million cubic meters of water, and will supply water to 22 towns with a total of 100,000 inhabitants who now have only scanty wells.

This effort has been possible in this Mediterranean island through the financial aid of UNRRA, Interim aid, ERP, ECA, and a new Italian credit institute which appropriated 200 million dollars to be spent over 10 years for the building of roads, aqueducts, industrial plants and land reclamation projects in Sardinia.

### LEGAL PUBLICATION

Emergency Warrants — Light Dept.

**ORDINANCE NO. 1272**

An Ordinance stating the facts of an emergency affecting the public safety, welfare and convenience of the City of Port Angeles; requiring the unforeseen expenditure of funds; providing for the issuance of emergency warrants; and declaring an emergency.

The City Commission of the City of Port Angeles does ordain as follows:

Section 1. That because of unexpected, unusual and unforeseen increases in the volume of electrical energy necessarily purchased by the City of Port Angeles during the year 1951, which increases were not and could not reasonably have been anticipated and foreseen at the time of the preparation and adoption of the budget of the City of Port Angeles for the year 1951, the amounts provided in such budget for the purchase of electrical energy were insufficient and the amount required in excess of the funds so budgeted is the sum of $61,875.66.

Section 2. That the increased, unusual and unforeseen demand for and consumption of electrical energy by the City of Port Angeles and the people thereof, and the expenditure of funds for the purchase thereof during the year 1951 was not and could not reasonably have been foreseen and provided for at the time of the making and adoption of the budget of said City for the year 1951. That the expenditures made in excess of the funds budgeted therefore for the purchase of electrical energy by the City of Port Angeles during the year 1951 were made for the convenience, protection and safety of the inhabitants of such City and were necessary therefore.

Section 3. That by reason of the facts above stated an emergency exists which requires the issuance of emergency warrants to provide for the payment of such deficiency and for the purchase of such electric energy, which warrants shall be in the sum of $61,875.66. That such emergency warrants shall be paid from any monies or funds in the hands of the Treasurer of the City of Port Angeles, properly chargeable with such expenditures, and the Mayor and City Clerk are hereby authorized to execute, sign and deliver, and the City Treasurer to pay, such emergency warrants on and from any such funds so available and properly chargeable therewith.

Section 4. That the amount of such emergency warrants shall be included and provided for in the annual budget of the Light Fund of the City of Port Angeles for the year 1953, and such Light Fund Budget shall include sufficient funds and appropriations to reimburse any fund or funds from which such emergency warrants, of any of them, shall be paid.

Section 5. This ordinance is necessary and urgent for the preservation of the public safety, welfare and convenience of the City of Port Angeles. That an emergency exists, and this ordinance shall be in full force and effect immediately upon its passage, approval and publication in the manner provided by law.

Passed first reading by the City Commission January 14, 1952.

Passed second reading by the City Commission January 11, 1952.

Passed third and final reading and adopted by the City Commission January 21, 1952.

Approved and signed by the Mayor January 21, 1952.

FRANK A. FEELEY, Mayor.

Attest:
J. E. Law, City Clerk.
Approved as to form:
John P. Trumbull, City Attorney.
Published: January 25, 1952.

## Mason County News

(Shelton-Mason County Journal)

**School Measure Rejected**

Voters of the Pioneer Consolidated School District in Mason County last Saturday decisively rejected a $25,-000 bond issue and 30-mill tax levy to erect a new school building. Students have been housed in a Grange hall since the Agate school burned down, but some residents of the district blamed dissention over location of a new school site for the negative vote.

**To Raise Garbage Rates**

Shelton city commissioners have approved a 25 cent per month increase in garbage hauling fees, effective March 1. Commissioners said increased labor costs made the raise necessary.

**Snowfall 36 inches**

A weekend snowfall brought the total snow depth at the Grisdale logging community to 36 inches completely stopping operations of the Simpson Logging Company there.

**Welfare Administrator 'Relieved'**

Mason county commissioners Tuesday announced they were relieving Mrs. Mary McBride, county welfare administrator, of all official duties effective Feb. 5. Commissioners said the move was made in an effort to establish closer harmony and cooperation within the welfare department.

**To Vote on Daylight Time**

Shelton citizens will vote on adopting daylight saving time next summer when they go to the polls March 11. City commissioners this week instructed the clerk to put the issue on the ballot.

**Old County Home Burns**

One of Mason County's pioneer homes went up in flames last week when fire destroyed a herdsman's house on the Wivell dairy farm. The house was built 63 years ago by Charles Wivell, an early pioneer.

### DROP INJUNCTION SUIT

LOS ANGELES (AP)—Attorneys for 15 California Communist Party leaders have dropped their attempt to stop publication of an expose in the Los Angeles Times, and trial of the defendants will begin Feb. 1.

The defense attorneys withdrew their injunction suit against the newspaper Thursday, telling the court they didn't know where to draw the line between the first and sixth amendments of the Constitution. The first guarantees freedom of press, the sixth right to impartial trial.

## Recommend Pollution Control Program Near Grays Harbor

OLYMPIA (AP) — The State Pollution Control Commission has recommended a nine-point program for correcting pollution of streams in the Chehalis-Grays Harbor drainage basin.

The recommendations were drafted after a survey of the drainage basin showed sewage pollution and oxygen depletion resulting from the discharge of waste into the streams by various industries and cities.

The commission recommended that the cities of Montesano, Aberdeen, Hoquiam and Cosmopolis install primary sewage treatment facilities; that the city of McCleary install a secondary treatment plant and that Rayonier Inc., Hoquiam, eliminate the discharge of waste sulfite liquor by some kind of recovery process; that all industries not connected to a municipal sewer system provide waste disposal or treatment facilities.

Centralia was commended by the commission for the new $300,000 sewage treatment plant it has placed in operation.

## Drop Action Against Plywood Makers

SAN FRANCISCO (AP)—The Ninth Circuit Court of Appeals Thursday set aside a civil action brought two years ago by the Federal Trade Commission against 15 plywood manufacturers in the Pacific Northwest.

The action ordered the companies and the Douglas Fir Plywood Association to cease and desist from various trade practices tending to limit production and establish uniform prices. The firms are members of the association.

The alleged Federal Trade Act violations were said to have occurred between 1935 and 1941.

Thursday's order was the outgrowth of an appeal by the association.

O. Harry Schrader Jr. managing director of the association, commented in Tacoma, "The decision upholds our contention all along that the case is old and stale and there isn't anything to cease and desist from. Apparently the court agrees."

### MORE ROTATEES RETURN

SEATTLE (AP) — The troopship Marine Lynx arrived here today with 2,924 military passengers from the Far East.

It was the 60th ship to bring troops here under the Army rotation program and raised the total of arrivals to 78,555.

## Farmer Dies When Well Caves

FOUKE, Ark. (AP) — Clyde Kemp had just cleaned away the last bit of tile from the abandoned well on his farm near here. He stood at the bottom of the 21-foot shaft and waited for a rope to pull him to the surface.

Then the walls gave way, and the 36-year old farmer was buried in the cave-in of dirt and clay.

That was shortly before noon Thursday. About six hours later, after neighbors and rescue workers dug frantically with their hands and shovels, Kemp's body was removed from the well.

*(NEA Telephoto)*

**HARDEST HIT—With their town isolated by heavy snows, these men of Portola, Calif. (left), stand by after setting up a market on the baseball diamond for planes to drop supplies. Portola was hardest hit of all the Sierra towns. Several buildings were crushed by the snow and a woman was killed when a gas stove exploded in her home.**

THE WORLD TODAY

## Persons Making Out Their Tax Return On 1951 Income Realize Taxes Crept Up And Socked Them Hard

By JAMES MARLOW

WASHINGTON (AP)—Some people, making out their tax return on 1951 income, are realizing how the tax has crept up and socked them.

Take a single man who has been making $3,000 steadily for years.

He finds the tax on his 1951 income was 17 per cent higher than on 1950 income and 22 per cent more than on 1949 income.

And the tax on his 1952 income will be 33 per cent greater than the tax on his 1949 income.

The tax varies by individuals and income. For example:

Take a single man who has been making $15,000 steadily for years. The tax on his 1951 income was 12.5 per cent more than on 1950 income and 16.3 per cent more than on 1949 income.

And the tax on his 1952 income will be 27.3 per cent above that on his 1949 income.

Here is how we got into this fix. After the war-taxes reached their peak in 1944 and 1945—Congress cut taxes twice.

But in the past 18 months it has raised them twice.

The first cut was on 1946 and 1947 income. Then Congress cut still further on 1948 and 1949 income to the lowest postwar point.

But in the fall of 1950, after Korea, Congress upped the tax and then, in the fall of 1951, boosted it again.

That tax increase in late 1950 applied to the last three months of 1950. So the tax you paid in 1951, on 1950 income, was higher than the tax you paid in 1950 on 1949 income.

The increase approved in 1950, while affecting only three months of your 1950 income, was to take full effect in 1951, covering your income for all 12 months of 1951.

But when Congress stepped in again in the fall of 1951 with still another increase, it said the new higher tax would apply to the last two months of 1951 income and all 12 months of 1952 income.

**CAN COMPARE**

So you can see how the tax you pay now in 1952 on 1951 income has shot up above the tax you paid in 1951 on 1950 income.

And in 1953, when you pay your tax on 1952 income, it will be even higher than the tax you're paying in 1952 on 1951 income.

Before looking at some examples of how taxes have gone up, remember there's a difference between the percentage of your income taken by taxes and the percentage of increase in the tax itself.

Take Jones. Single man. No dependents. Income, $3,000. He claims only one exemption, his own. And he takes the usual deductions.

He's been making $3,000 from the beginning of 1949 when taxes were at their lowest point after the war.

In 1950, on 1949 income, he paid $356. Which meant the tax took 11.8 per cent of his income.

In 1951, on 1950 income he paid $373, which was 12.4 per cent of his income.

So the amount of his income paid out in taxes went up only 0.6 percentage points.

Subtract the 11.8 per cent in 1950 from the 12.4 per cent in 1951.

But—the increase in his tax was $17 ,which was an increase of 4.8 per cent over what he paid in 1950.

In 1952, on 1951 income, he pays $435, which is 14.5 per cent of his income, an increase of 2.1 percentage points in the amount of his income taken by taxes.

**16.6 PER CENT BOOST**

But—he's paying $62 more than in 1951, which is a 16.6 per cent boost in his tax over last year.

In 1953, on 1952 income, he'll pay $474, which is 15.8 per cent of his income going in taxes, an increase of 1.3 percentage points over this year.

But—the increase over this year is $39, a boost of 8.5 per cent.

Now campare the tax he'll pay in 1953 on 1952 income with the low tax he paid in 1950 on 1949 income.

In 1953 he'll pay $474 on his 1952 income, which will be 15.8 per cent of his income. This is a difference of only 4 percentage points over the amount of his income taken by tax in 1950 on 1949 income when he paid $356, which was 11.8 per cent of his income.

In 1953 he'll be paying $118 more in taxes on his 1952 income than he did in 1950 on 1949 income, which means an increase of 33 per cent in his tax.

## Stevenson Says He's Running For Governor

SPRINGFIELD, Ill., (AP) — Gov. Adlai Stevenson's reply Thursday to all speculation that he was a hot prospect for the Democratic presidential nomination was: "I'm a candidate for governor and nothing else."

Stevenson returned from Washington after visiting with Mr. Truman last Tuesday. The political speculation was that Stevenson might be a candidate in event Mr. Truman decides not to run.

The Illinois governor said he talked politics and the Presidency, among other things, with President Truman.

Asked if he would accept the presidential nomination if it was offered, he said:

"The possibility is so remote it would be presumptuous to comment."

## Farm Records Aid At Income Tax Time

By MELVIN G. MICHEL
County Extension Agent

Farm accounts make income tax reports much easier and can save farmers both time and money.

Farm records of purchases and sales kept over a number of years in accurate books are more important than ever now because of a new income tax ruling for farmers.

Th Revenue Act of 1951 provides that the sale of dairy animals, breeding stock and work animals may be considered as a sale of capital assets.

In most cases, if the animal has been owned for at least 12 months, only 50 per cent of the gain from such sales is taxable. Without a record to show the purchase price, tax may have to be paid on half the entire sale price.

Farm record books may be obtained at the County Extension office, Federal Building ,Port Angeles.

## Two Judgeship Bills in House

WASHINGTON (AP)—Two omnibus judgeship bills now in the House, alike in many respects, differ widely in the way they would affect six states.

One bill, passed by the Senate last October, would create 20 new seats.

A bill just introduced by Chairman Celler (D.-N. Y.) of the House Judiciary Committee would create 19 new seats.

The senate bill would create one additional district judgeship each in California, Nevada, Easten Virginia and Western Washington. The Celler bill does not include these.

The two bills would provide:

Two additional circuit judges for the Ninth Circuit (California, Oregon, Nevada, Montana, Washington, Idaho, Arizona, Alaska, Hawaii and Guam).

One additional district judge each in Colorado, Deleware, South Florida, North and South Dakota, North Ohio, East Pennsylvania, Middle Tennessee (temporary), East Texas, East Wisconsin, Arizona (temporary) and Alaska.

## Ed Got Red In His Own "Hot Water"

**Big Ed started a "Pay-Your-Bill" campaign last week and ended up with a slightly red face. Ed's been our Water Commissioner for ten years, and for ten years now he's been getting riled up over slow payments of bills.**

**So, he finally decided to do something drastic about it. Last week he sent notices that if the slackers didn't pay up by Friday, he'd shut off their water.**

**Naturally, some *still* didn't square accounts. Ed ordered their water turned off, and 14 homes went without all week end—the Commissioner's among them. Seems Ed forgot to pay *his* bill.**

**From where I sit, Ed's mistake is one we all make at times. We are too quick to accuse others while forgetting our own faults. Lots of us do it, for instance, over a difference in taste for a soft drink or a friendly glass of beer. Let's respect each other's preferences and we'll all stay out of "hot water."**

## Voice of America Site At Dungeness

The following letter to the editor arrived Monday and was set in type Wednesday. Publication was withheld until pertinent data could be compiled to print with it. (See adjacent comment).

Meanwhile, because the State Department definitely decided Thursday upon the Dungeness site, the editor has deleted the letter writer's signature.

The Evening News welcomes thoughtful letters of this type, but requests criticisms be specific. Thus, regarding the letter's second paragraph: Just what previous federal projects have harmed Clallam County, and how?—The Editor.

---

Port Angeles, Wash.

Editor, Evening News

The Voice of America is the talk of the town, and all the talk is definitely for it. It would be a great asset to the county if permanent and located properly.

I wonder how many of you have analyzed the future of this project in connection with the site recommended. Have you looked back at the other government projects that have been started in the county the past few years. Do you remember how we all felt, that each one of these was going to be a big boom to the county. Do you remember how many families were displaced from the soil. Do you remember all of the other natural resources that have been tied up and will never be released for private enterprise. How do the books balance on these projects?

Let us suppose that the government wanted our entire harbor for a Naval Base. Every industry would have to move, but we who are left would gain because the income from this project would be much greater than the present income from the mills. Would you be in favor of this change? Would you be willing to sacrifice industries that have operaated for the past fifty years and will continue to operate for generations to come? Industries that are creating new wealth from the land and the sea and are the economic backbone of our city. Industries that will continue to produce new wealth as long as we let them.

These government projects are not controlled by a law of economics, but definitely by an Act of Congress. What assurance have we that this Naval Base would last any longer than the next Act of Congress? Then what would our income be, would we have prosperity or poverty?

The above Naval Base is merely a supposition, but the Voice of America apparently is going to locate some place here on the coast.

This recommended area is located east of McDonnell Creek and will take in about one thousand acres, and when the station is established and they need more land, they will take more land. Fort Lewis is an example.

Due to our rapid increase in population and the depletion of the soil we need more farm land, and this extra land is costing us more money to put into cultivation. The government today is spending up to $5,000 per acre just to irrigate some of the arid land in the southwest states.

This recommended tract is all irrigated, and practically all cleared. Most of it has been in production for the past 50 years producing such crops as hay, grain, seeds, beef and dairy products. The wealth produced by these farmers, is not money takqn from one pocket and put in the other, but new wealth from the soil. As the population increases and demand for agricultural produce increases, these same farms can readily increase income several times over the present amount.

It was stated this this tract only brings in $2000 taxes, but it did not state how much tax from personal property. It never even mentioned the fact that each one of these farms employ people, raise crops, milk cows and bring an income into the county the same as any of our other industries.

You are recommending that we displace these farmers, stop production on these farms and turn this rich soil over to the Voice of America. We have no facts, but we assume that we will get a bigger income from this area. Will the Voice of America be permanent, or is it temporary. When peace really comes, and we all pray it will, then what will happen to the station. Perhaps the next election or the next Act of Congress will abolish it.

I also am in favor of the Voice of America but why sacrifice a permanent industry to bring it here. Why spend more government money when the government has a site that is standing empty today, the Quillayute Air Base.

## Editorial Data On Site At Dungeness

The letter to the Editor herewith is from one of two persons who verbally protested to the Evening News editor against a Voice at Dungeness. The other protestant was a Dungeness resident who said a lot of his neighbors felt the same way. He objected to government acquisition of any Dungeness land because of what unknown disposition might be made of it after Congress cuts the Voice off at the pockets.

The letter writer verbally declared the removal of so much farmland would damage his business. He compared it to the ruin of good agricultural land near Tacoma by construction of Fort Lewis.

The editor suggested a more constructive course would be to join him in seeking State Department permits for neighboring farmers to continue cropping the farmland in the Voice site; also to extend the area of farmland irrigated by the Dungeness River as recommended in the U. S. Reclamation Service survey of the Sequim area.

**QUILLAYUTE AIRBASE**

Assuming extension of high power transmission lines to Forks, which the PUD plans to do anyway, Quillayute Naval Auxiliary Air Station would make an excellent site for Voice of America if the navy had been willing to release it. World conditions make the reasons for unwillingness fairly obvious.

Objections to other possible sites in Clallam County should be fairly apparent from a close reading of the requirements listed in the January 10 Evening News, which contained the first official announcement that a site near Port Angeles was under consideration.

**PERSONAL PROPERTY VALUES**

The Dungeness site includes 1,180 acres in 13 ownerships. Of these 13, eight declared personal property last year. Its assessed valued totalled $8,956 for livestock and $6,018 for farm machinery, or $14,974 combined. At 50 mills levy the tax would be $750.

However, the owners are not selling their personal property to the government. When they move, it will continue taxable. Apparently only one owner contemplates moving outside this county, and was planning to do so before the arrival of Voice agents brought the sale opportunity he was looking for. Assessed value of his farm's personal property last year was $765.

One farmer whose personal property accounted for nearly half the $14,974 total was already in the process of moving to a larger farm outside the site when the Voice agents appeared.

**CLEARED FARMLAND**

The 1,180 acre Voice site is not "practically all cleared." The assessor's records show 435 acres cleared on eight ownerships, totalling 673 acres. Another ownership of 128 acres with unstated clearing has since been consolidated with one of these eight, and it is nearly all cleared.

Five other ownerships totalling 380 acres do not show cleared portions on the the assessor's records but contain about 95 cleared acres.

So the 1,180 acre site contains about 640 acres of cleared farmland. About 80 of these acres, in four ownerships, are not in use.

**RESIDENT FARMERS**

Five of the 13 ownerships have no occupants. Four have occupants who are not farming.

Four farms are in active use by six resident farmers, counting second generations. These four active farms total 405 acres, of which the assessor's records show 341 acres as cleared farmland.

Farmers outside the site have been farming 217 cleared acres out of 400 total acres on three of the non-occupant farms.

**AGREED PRICES**

State Department representatives here in December obtained options to buy 884 acres from 10 owners at agreed prices.

Later the department sought options by mail on three additional outlying ownerships totalling 296 acres, on which one occupant has the use of about three acres cleared.

Largest of these three outlying tracts is 216 acres owned by a Seattle sportsman. It contains about 30 acres of cleared but unused land, and some natural openings; but mainly it is rough woodland. It is visible in the upper right corner of the aerial picture of the site on Page 7 of January 18 Evening News.

Substantial other woodland is also visible in the picture of the site. Some of this may have to be cleared, but the central portion of the site is all cleared ready to use.

**EDITORIAL FANTASIES**

Readers may wish to contrast the above facts with an Aberdeen Daily World editorial on January 11. It stated the owners of the land chosen near Port Angeles "do not want to sell, and if they are to be dispossessed, they are preparing to fight for the highest price possible for this property. They do not want the Voice and have already made their protest at Washington to its location in the Port Angeles area."

Rep. Henry M. Jackson told the Evening News on the telephone Thursday that he received no protests, from the district he represents, against locating the Voice at Dungeness. He received many endorsements from Clallam County organizations who approved the Dungeness site.

## This Is It, Gals, And Leap Year Meets With Male Approval

AP Newsfeatures

Ring in Leap Year with a loud and impressive shout. This is the year: You can Dutch treat without being too, too embarrassed; invite that elusive boy you've had your eye on to your house for an evening by the fireside; lasso your favorite campus Romeo for that school dance.

And all of this meets with the approval of the male animal, we'll have you know. As one young man said: "It's just about time some little ol' year came along to help pay the sweet shoppe bill."

Leap year can be fun. It gives an opportunity for lots of reverse-the-date parties: Such as having the girl take a flower to her date, pick him up at his house, escort him to the party. (However, it is wise to let the boy take you home.)

There are endless possibilities for fun and merriment. You have 366 days to revel in it, so get on your merry way. One thing you should skip, however, is making the romantic overtures. Let the boy be the leader in some things: Asking for a kiss or holding hands, for instance.

**MEN WILL BE WARY**

The young men, of course, will be mighty wary of their female friends this year, particularly those of marrying age. Here are a few tips on how to corral that prince charming for just a date or that big sparkler:

1. If you do invite him to a dance or party, don't shower him with extra attention. And don't invite him to a second party unless he asks you out after that first date.

2. Dutch treats can be carried too far. It might be in the spirit of Leap Year to take care of your share of the expenses, but don't let it get to be a habit. Many a romance ends because Joe gets in the habit of expecting Nancy to pay all her own tabs, and she can blame herself for spoiling him, usually.

**DON'T STEAL HIM**

3. Don't be a man-snatcher just because Leap Year gives you license to do the unusual. If Susie Belle goes out with a boy you like, don't make a play for him every time you are in their company.

4. Don't make marriage your sole topic of conversation. Men are shy of orange blossoms, and the easiest way to set them running is to show your hand of hearts.

5. The slightly aloof approach is more likely to get that man than the uproarious life-of-the-party technique. Men like girls who are good sports—but gigglers are not for romantic evenings in the moonlight.

6. If you have a bigger allowance than your date of the moment, don't impress the fact upon him. And don't suggest places to dine or dance which do not fit his budget. It is all right to suggest making up the difference of a bill on a minor date but it wouldn't do to suggest entertainment so lavish that the boy couldn't even foot his half of the expenses.

7. When you are out with a young man you can make him seem important without showering him with affection. There are other ways to build up your date. Men are vain—so brag on his school marks or athletic prowess, his choice of books or his interest in the theatre or music.

**FORGET OTHERS**

8. Forget about Johnny and Moe when you are out with Joe. Some girls think their object in life should be to make every man jealous. He'll be more fearful of what he doesn't know about your other dates than what you willingly volunteer.

9. Blase girls aren't the most popular co-eds. Most men still prefer the old-fashioned girl, even if he measures her according to modern standards. He won't admire you for bragging about your late hours, lack of religion or criticism of your parents.

10. Don't be a steady dater, unless the boy has proposed, and you've accepted him. And the easiest way to get that man to propose is to give him a little competition.

**TWEED TERRY CLOTH** . . . New look for an old favorite, used in duster worn over gray denim dress.

## Personals

**On Duty In Japan**

Robert W. Tulin, seaman, USN, son of Mr. and Mrs. John W. Tulin of Agnew, has reported for duty at U. S. fleet activities, Yokosuka, Japan, a Navy announcement states. Tulin, who entered the Navy Nov. 1, 1950, received recruit training at San Diego.

**Johns Son Home**

George Johns, USN, son of Mr. and Mrs. A. G. Johns, spent the weekend at the home of his parents here. He arrived Saturday from Treasure Island, San Francisco, Calif. Monday he motored to Bremerton where his ship, the USS Boston, was to leave the following day for the East Coast via the Panama Canal in tow of the USS Canberra.

**Return To United States**

SEATTLE (AP) — Forty seven Washington State men are aboard the Navy transport R. L. Howze, which will arrive here Sunday with 3,227 rotation troops from the Far East.

The state list includes the following men from Port Angeles:

Lt. Robert Frye, Clallam County housing project 72; Cpl. David K. Smith, 613 E. Lopez.

## Army Red-Faced About Candy Story

TOKYO (AP)—Cpl. John W. (for Wilbur) King of Roan Mountain, Tenn., says he doesn't like candy.

He protested today after receiving newspaper clippings naming him as one of the members of Gen. Ridgway's honor guard who were reduced in rank for eating sweets Jan. 3 while on duty outside the general's office.

A check with the Army brought this red-faced explanation:

The soldier involved in the candy incident was Pvt. John W. (for Wesley) King of Jacksonville, Fla. The Army's earlier identification had been Pvt. John W. King of Roan Mountain, Tenn.

The Army said the Tennessee corporal had nothing to do with the case.

---

**RECORD NUMBER HUNT OIL**

EDMONTON, Alta. (AP) — Nearly 30 companies or groups have 120 units active in geophysical exploration of Alberta oil fields at present, a new high total. The figure is 15 more crews than a year ago.

REHEARSAL in the Grass Roots opera school

## South Carolina School Gives Singers Training For Grass Roots Opera Roles

By BRYAN HAISLIP

RALEIGH, N. C. (AP) — The glitter of the Diamond Horseshoe of New York's Metropolitan Opera House is reflected in a studio over a jewelry store here.

It's a long jump between the two points, but Director Robert C. Bird of the Carolina Opera School believes some of his students can make the grade.

The school, launched under the extension service of the University of North Carolina, already has some of the glamor of the Met. One of its staff members is Norman Cordon, a native North Carolinian who sang baritone roles with the Metropolitan.

Another member of the staff is Mrs. Estelle Rucker, equally famed as a concert pianist and as Vice President Alben Barkley's mother-in-law.

Director Bird sees a future for the school as bright as the wares sold in the jewelry store below. There's not another quite like it in the country, he declared.

**GRASS ROOTS OPERA ON ROAD**

Some other universities offer training in opera, but this school has its own touring company to give students actual on-the-road experience, Bird explained. The Grass Roots Opera Company, a project of the North Carolina Federation of Music Clubs, helps the students take the music of Verdi and Mozart to small towns and rural areas of the state. The federation also helped launch the school.

Bird, a former director of the Fort Worth, Tex., Civic Opera Association, said he has found a lot of enthusiasm for opera in touring the state. He directs the opera company as well as the school.

The picture wasn't so rosy when the school first set up shop in a Raleigh residential district last fall. After the first few operatic trills sounded through the neighborhood, distressed citizens took their complaints to the city council.

The council amended zoning ordinances to ban opera schools from residential districts and the school moved downtown. The would-be Carusos and budding prima donnas now practice in the rooms over the jewelry store and in a radio station's soundproof studios.

**GENERAL STAGING TAUGHT**

Singing isn't the only subject taught. Students also get training in opera dramatics, costuming and stage techniques. If they wish, they can receive undergraduate credit at the university at Chapel Hill about 30 miles away.

About 20 students are enrolled. Most take full-time work, but some come in for evening classes.

The operas the students take on the road with the Grass Roots company are all given in English. This is the only way opera will ever gain a secure foothold in America, says Bird. Faculty members and local singers are recruited to fill out the casts for Grass Roots productions. Music is supplied by Mrs. Rucker at the piano.

In choosing operas for production, Bird steers away from such heavy fare as Wagner. Comic opera is the standard choice. Mozart's "School for Lovers" is a favorite. The company also has presented Bizet's "Carmen," and Verdi's "La Traviata."

## Sewing Club Does Bazaar Work

Ten members of the VFW Sewing Club worked on tea towels and other bazaar work when they met Thursday evening at the home of Mrs. Carl Russell.

Membership was the main topic of discussion for the evening. Those attending were the Mesdames A. N. Williams, George Stokes, Oliver Conrad, Harry Irons, Elmer Bradshaw, Russell McDonald, James Caldwell, Lewis Tucker, Ella O'Brien and Miss Lucy Mona.

## High School Juniors Plan 'County Fair'

"County Fair" is the theme of the junior class carnival at Roosevelt High School Saturday. The fun will start at 8 p.m. in the old gym.

Carol Loghry heads the committee in charge of this annual event for raising funds for junior class activities. Carnival booths will include fortune telling and a fun-picture gallery.

Dancing, games and prizes also are planned. Miss Loghry says many committees are working to make this a successful highlight of the school year.

General admission charge will be 10 cents. Miss Muriel Glasson and Dwight Kramer are the class advisors.

## Don Cornell Gets Top Scouting Honor

Don E. Cornell, advancement chairman for Clallam district of Boy Scouts of America, received the Silver Beaver award, highest in Scouting, at the annual Area Council meeting in Seattle Wednesday night.

Cornell is the second Scouter in this county to receive the award. Only other local recipient is Verne Samuelson, who received the badge some years ago.

Cornell moved here in September 1950, continuing the Scouting work which he had started while living in Seattle. He began as an assistant Cubmaster, and has continued to serve Cubbing, Scouting and Explorer units, over a period of 10 years.

The citation accompanying the award said Cornell "has given outstanding leadership in two districts of this council as chairman of an operating committee. Always he has translated policies and procedures into understandable activities for Scouts and then put them into practice with admirable patience. It is no wonder that hundreds of boys love this man, for his leadership has been ideal."

Mr. and Mrs. Cornell have three sons, two of them in Scouting and one not yet old enough, and a daughter.

# Organization News

## Girl Scout Council Plans Annual Meeting Wednesday

The annual Clallam Girl Scout Council meeting is scheduled for 7:30 Wednesday evening at the Jefferson school gym, Mrs. Tony Masi announced Monday evening. Mrs. Masi reported at the regular meeting of the Clallam County Girl Scout board of directors in the committee room of the Elks Temple.

Installation of new officers and directors for the ensuing year will be a portion of the evening's program. The 1951 annual report will be given and the goals for 1952 stated. A film, "Hands Across The Sea," will be shown. The evening will close with refreshments.

The directors are inviting mayors of Port Angeles, Sequim and Forks, the three county commissioners, PTA presidents, school principals, representatives from all sponsoring organizations, and many others.

They emphasize that every registered Girl Scout adult should attend the meeting.

At Monday's meeting the Board previewed two new film strips. Various standing committees reported on their 1951 activities and their plans for 1952-53.

Mrs. Beverly Estes, training chairman and second vice president of the Girl Scout Council, told of a training course for volunteer trainers of leaders which will begin Feb. 19. The course will be for former leaders of Girl Scout troops or interested adults with other group leadership experience who would like to assume responsibility of training new leaders and troop committee members.

It will consist of the basic fundamentals of the Girl Scout program on all three age levels, with emphasis on how to teach them to other adults. Program skills and ways to teach them will be stressed. Visual aids, role playing, group discussion, individual assignment and lecture methods will be used. The course also will include one session on teaching outdoor skills.

Mrs. R. E. Lieurance, president of the council, conducted at Monday's meeting.

## Chapters Observe Founders Day

Members of Chapter BZ, PEO, were hostesses Tuesday evening to Chapter CR for the annual Founders Day celebration of the PEO Sisterhood.

Arrangements of heather and acacia with gold candles decorated tables at the First Methodist Church were the dinner and program were held. Each of the approximately 40 guests attending received a corsage of heather and acacia surrounded by a gold doily and tied with gold or violet ribbons.

Following the dinner, Chapter BZ presented a short play entitled "What Is PEO?" written and directed by Mrs. Verne Samuelson, assisted by Mrs. Calvin Davidson and Mrs. Lex Morgan.

The PEO sisterhood was founded in 1869 by seven girls in Mount Pleasant, Iowa, at Iowa Wesleyan College. The play depicted an imagined reunion of five of the girls 25 years after the founding. Costumes and stage properties were authentic pieces from the period.

Members of the cast were Mrs. Andrew Smith, Mrs. George Linkletter, Mrs. Hugh Hankins, Miss Jodine Janish, Mrs. R. P. Moore, Mrs. Palmer Swenson, Mrs. J. C. Janish, and Mrs. Norma Jones and Mrs. R. C. McGaffee of Sequim.

Incidental music was provided by Vienna Neel Case at the piano, Mrs. George Tradewell, violin, and Miss Janish, singing.

During a recent six-month period, North American readers bought 57 million copies of newspapers every day, says the National Geographic Society.

## Coming Events

**TONIGHT**

Eagles Auxiliary no-host dinner, Holmer's Cafe, 6 p.m. Meeting, initiation, Eagles Hall, 8 p.m.

Jefferson Cub Pack 471, Jefferson gym, inspection, 7:30 p.m.

Cub Pack 463 at Holy Trinity Lutheran Church, 7:30 p.m.

Sheriff's Posse, clubhouse, 8 p.m.

Loyal Arder of Moose and Women of the Moose, Midwinter Frolic for members and guests, Moose Hall, 9 p.m.

Juan de Fuca Commandery 17, K. T., Masonic Temple, Order of the Temple, 7:30 p.m.

**SATURDAY, JANUARY 26**

Fairview Grange card party cancelled.

**SUNDAY, JAN. 27**

Fairview Grange workday at the hall, 10 a.m. Potluck dinner at noon.

**MONDAY, JAN. 28**

Epsilon Sigma Alpha, with Mrs. E. R. Tinsley, Mrs. Jack Broadbent co-hostess, 8 p.m.

Esther Chapter 19, Order of Eastern Star, initiation, Masonic Temple, 8 p.m.

## Organization Briefs

**WOMEN OF THE MOOSE** membership committee met Wednesday evening with Mrs. Doyle Wright. Those attending were Mesdames Lawrence Movius, Joe Wanner, Joe Rupprecht, Virgil Andrews and Louis Hunacek. The meeting concluded with refreshments.

**SEW-WHAT** members spent the evening sewing and visiting in spite of the weather Wednesday. Mrs. Fred Tickner was the hostess. Her mother Mrs. Phillips and Mrs. Fred Cleavenger, mother of Mrs. Walter Krattli Jr. were guests at the meeting. Each member plans to sew one personal article for exhibit at the May 14 meeting.

**SOPHOMORE TRI-HI-Y** girls inducted the following new members at their meeting Monday night. Elaine Mitton, Janet Vibert, Jodelle Anderson, Shirley Olson, Mary Sandas, and Georgia Rhodes. They reviewed their holiday project of selling candy for the YMCA World Service. Hostess Hilgreth Saari served cake and punch.

**LINCOLN HEIGHTS LADIES AID** installed new officers Tuesday. Mrs. Mel Corfee, 1952 president, took charge of the meeting. Mrs. George Rogers is continuing as vice-president, Mrs. Wilbert Bailey is treasurer, Mrs. John Niemela is continuing as secretary, and Mrs. Cecil Bailey is scribe. The group planned items to make for its annual bazaar.

**VENTURE CLUB** saw colored slides of Germany at a noon luncheon Wednesday at Harrington's Cafe. Arnold Hirsekorn, travel agent, showed the series of films he took on a recent trip to Europe. Of special interest to members were many scenes of castles and other famous places such as Beethoven's home, Hitler's mountain retreat, and Goering's castle. He also showed colorful scenes of the Rhine River, with its heavy traffic.

## Thimble Club Installs Officers

Mrs. Clarence Holman was hostess to the Neighbors of Woodcraft Thimble Club luncheon Wednesday. Mrs. A. N. Williams, installing officer, conducted ceremonies for new officers after the lunch.

Mrs. Hannah Williams took charge as the new president. Mrs. Eleanor O'Brien will be vice-president; Mrs. Louis Mariani, secretary, and Mrs. Clarence Holman, treasurer.

A new finance committee will consist of Mrs. Ed Sonnebend, Mrs. Joe Whetham and Mrs. William Sapp. Members also welcomed Mrs. Thomas Vail, who has been absent due to illness.

## LECTURE ON BIRTH COMES IN HANDY

GREAT FALLS, Mont. (AP) — Patrolmen Dean Bailey and Herbert Remus went to a police school lecture on "what to do if called on to attend a birth."

The following day, they made a routine ambulance call—getting to a house just as Mrs. Noel Boule's baby was born.

"That's when the lecture seemed a little hazy," they admitted. "Then the baby yelled like a Comanche . . . we knew we were okay."

Mother and daughter were doing fine at the last report.

**ACTRESS DIES**

LOS ANGELES (AP)—Polly Moran, famed comedy teammate of the late Marie Dressler, died of a heart ailment today at Cedars of Lebanon Hospital. She was 68.

Miss Moran, who entered films as a 1915 Mack Sennett bathing girl, was stricken late last autumn at the Laguna Beach home where she had lived since 1944.

Delicious dessert: Score a banana with the sharp tines of a fork and slice thin; arrange slices around sherbet glasses and fill with chocolate tapioca cream. Top each serving with a spoonful of sweetened whipped cream and a maraschino cherry.

## Bremerton Artists' Showing at KONP Studio Reveals Intensive Devotion to Their Work

That Bremerton Art Guild members take their work seriously is evident from the outstanding display of original paintings and lithographs now on display at KONP.

Especially impressive among the watercolors are scenes by Mrs. Dot Lackey, exhibiting "Bridge in Winter", "Winter Stream", "Lonesome Arizona" and "Mountain Lake".

Mrs. Lackey has painted since childhood, with no formal instruction. She paints swiftly and spontaneously, which perhaps accounts for the freshness in her work, that is the aim of water-colorists.

Mrs. Lackey, a native of the midwest, was married there and raised a family of five, at the same time building an enviable reputation as a newspaperwoman.

Mrs. Pat Ryan, who is largely responsible for arranging the Guild exhibit, herself displays two interesting paintings, "Market Place" and "Picture Show". This active member of the Guild is also mostly self-taught, although she has had some basic training.

The title on Henry C. Hitt's lithograph of "Mabel" doesn't prepare the viewer for the huge mountain goat's face staring pensively at him. Hitt is a native of the Puget Sound area, having lived here 66 years.

He is self-taught and numbers among his accomplishments work with charcoal, print making and lithographic work. He is also an authority on pictorial photography, Chinese snuff bottles and people.

When we saw the title "Rhubarb" listed among works to be displayed, the famous cat naturally came to mind. It's no cat Mrs. Hall has painted, but an attractive nude beside a huge rhubarb plant.

Mrs. Hall is also a native of the Puget Sound area and even though a large family has taken most of her time, she has been painting for some time. The simplicity and directness of her work is refreshing.

The KONP studios will be open from 9 to 5 each day next week and the public is invited to attend the display.—F. G.

## Horizon Girls Plan 'Mile of Dimes'

A group of sophomore Horizon Girls from the high school will start a "mile of dimes" with their own $10 donation Saturday morning, to boost the March of Dimes drive. Mrs. V. J. Neale, advisor, will supervise the girls.

They plan to lay the "mile of dimes" on 1st Street between Lincoln and Laurel.

Meanwhile County Drive Chairman Angus Edwards reports total collections now have reached $968. Latest contribution came from the Central Labor Council, with a note that "we hope it will never be used here."

## OLDSTERS GET FOSTER PARENTS

NEW YORK (AP)—(AP)Eighty-five elderly New Yorkers have been "adopted" into the homes of younger foster parents under the Private Residence program of the Jewish Community Services here. Sponsors of the plan believe that oldsters thus placed have many advantages they would not have in institutions.

**EXCHANGE KEEPS SCHEDULE**

NEW YORK (AP)—The New York Stock Exchange wrote another chapter in the long and bitter fight over trading hours by deciding to do nothing.

In a lengthy policy meeting Thursday, the Board of Governors voted to continue present trading hours.

The exchange is open for business from 10 a.m. to 3 p.m. (EST) Monday through Friday and from 10 a.m. to noon Saturdays with Saturday closing during the months of June, July, August and September.

**WIN SAFETY TROPHY**

TACOMA (AP) — The governor's safety trophy given annually to the Washington firm with the lowest accident rate was awarded to the Longview Fiber Co., of Longview Thursday.

Gov. Langlie presented the trophy at Thursday's session of the pulp and paper industry's State Safety Conference.

The joint labor-management trophy for the best five-year safety record went to the Crown-Zellerbach plant at Port Townsend.

The first machine for making wire nails from iron and brass was built over 100 years ago in New York City.

CURTAIN CALL . . . White bumper cloche with pie-crust brim and jeweled knobs, by G. Howard Hodge.

**PLAN PAY BOOST HEARINGS**

WASHINGTON (AP) — The Senate Armed Services Committee decided to begin hearings Monday on a proposed 10 per cent pay increase for all Armed Services personnel active and retired.

Legislation for the increase has already passed the House.

Some senators want to revise it and limit the increase to lower-ranking officers and enlisted men.

**SEEK NEW TRIAL**

TACOMA (AP)—Attorneys for Bill Smith Jr., convicted of first degree murder in the death of teenager Noreen McNicholas, filed a motion for a new trial Thursday.

The motion submitted by Attorneys Earl D. Mann and Richard Hodge listed eight points including an assertion they have new evidence proving Smith innocent of the slaying.

# Place Emphasis on Texture

BY GAILE DUGAS
NEA Woman's Editor

NEW YORK—(NEA) — Unlikely as it seems in the middle of winter, summer is really on its way. When designers create cottons that will be important hot weather fashions, summer must be considered.

In a season when silhouette is not drastically changed, the emphasis falls on fabric. This year, summer's cottons have a "three-dimensional" look created by the use of dobby dots, shadowed over-plaids, satin stripes woven into gingham, and lots of cording.

Color, too, gains new importance. Colors in cottons this year start with an entire family of blues, from deep sapphire to clear sky-blue.

They continue into sun-yellows, the clear, candy pinks, hibiscus orange reds, deep raspberry reds, and so into neat black-and-white combinations in pencil-line stripes, tiny checks or outstanding squares.

The textured look (left) in a blue Dan River cotton with a raised dobby dot has an organdy insert below the Peter Pan collar and organdy cuffs. Crystal buttons with a raindrop sparkle are used from neckline to the full skirt.

A green chambray that sheds wrinkles (right) is cut into a dress with scalloped, portrait neckline and cap sleeves. Full skirt of unpressed pleats, billowed out by a crinoline, has white embroidered eyelets and scalloped design.

# City Council Candidates' Answers

(Editor's Note: The Evening News has asked each candidate for the Feb. 11 primary election for City Council to answer a questionnaire giving brief biographical data, and answers to the following two questions:

(1) **Why are you running for City Council?**

(2) **What qualifications do you think the Port Angeles city manager should have, and do you have any proposals on where to find him?**

Each day preceding the election the Evening News will print replies of candidates, alphabetically, as follows:)

**A. T. SANDISON, 69, 1105 S. Laurel,** baker (Sandison Bakery). Lived here 31 years. 1 yr. high school. Former member park board, member Shrine Club, Izaak Walton League, Salmon Club.

(1) "Feel the new form of government should have a large slate of candidates for the voters to choose from, and feel it is a civic duty."

(2) "Experienced, honest, progressive, not easily discouraged. Could be found in cities which now have the plan and try to get one of the assistant city managers."

**IVOR SMITH, 48, 114 E. 9th,** self-employed (Smith Ice & Bottling Works). Lived here 48 years, grad. Roosevelt High School. Member planning commission, fire department, Lions Club.

(1) "Friends request."

(2) "Should be chosen solely on the basis of his executive and administrative qualifications with reference to his actual experience to do the duties of his office."

**THOMAS C. SMYTH, 30, 537 W. 8th,** mechanical engineer Crown Zellerbach, formerly 4½ yrs. Army Engineers. Lived here 4½ yrs., grad. University of Washington. President, Junior Chamber of Commerce.

(1) "Because I plan to work and raise my family in Port Angeles I feel that in running for City Council I am accepting some responsibility for the future development of this city."

(2) "Primarily should be an experienced administrator, if possible trained in city management. Should have demonstrated outstanding ability in previous positions. Might be found by consulting Assn. of City Managers or advertisements in publications such as Wall St. Journal."

**LEWIS F. SPICER, 35, 127 E. 14th,** personnel supervisor Crown Zellerbach. Lived here 31 yrs., 3 yrs. University of Washington. Past president Junior Chamber of Commerce.

(1) "To make an effort to provide a city government which can adequately and efficiently meet the needs of the city."

(2) "Experience, education, honesty, cooperative attitude, forcefulness. There is an association of city managers. Also possible that by eliminating the education factor a very good number of prospective men could be found."

**FRED TICKNER, 35, 730 W. 14th,** clerk Niemeyer Jewelry. Lived here 14 yrs., 1 term Southern Oregon Normal.

(1) "Feel the city, also the rest of our governing agents, should get on a pay as you go basis. This is the first important start toward this goal. Would like to have a part in setting it up."

(2) "Needs only one qualification. He must be a good businessman. If he is, would be honest, fair in dealings, have his finger on every job, person and purchase; would eliminate waste time, material and personnel . . .Assistant manager of another city that has been using this system would be the logical place to find a manager. However, anyone can apply."

**GEORGE A. TODD, 59, 305 W. 3rd,** retired merchant (Todd's Cycle Shop). Lived here 33 yrs., including 6 yrs. at Lake Sutherland. Grad. Watson's College Edinburgh, Scotland: Sherrie's Business College, Dundee, Scotland.

(1) "Now that I am retired, have lots of time on my hands. Feel it's my civic duty to get in and help this city. . . . would like to see the taxpayers get their money's worth."

(2) "Must be honest and intelligent, studied business administration, practical experience, good recommendations. Willing to work together with others, know values to be able to buy right, be able to put right men in right places. Write to the Managers Council, New York."

**LAWRENCE V. VENABLE, 40, 1420 E. 3rd,** manager Black Ball Freight Service for Olympic Peninsula. Formerly 5 yrs. transportation publications on West Coast, 5 yrs. Puget Sound Power & Light, Tacoma. High school grad., University of Oregon extension courses. Past President Clallam Co. Republican Club, YMCA, Rotary Club, Chamber of Commerce, former Cub Scout commissioner.

(1) "As parent, wish to help make Port Angeles outstanding community for children to grow up in and as taxpayer, interested in Port Angeles receiving full value for every tax dollar."

(2) "Should have experience either as manager in another city or as assistant city manager. References and recommendations should be thoroughly checked. City managers have an association of their own through which prospective men can be contacted."

**JOHN P. WAGNER, 30, 333 W. 3rd St.,** owner Wagner's Food Shop. Lived here 12 yrs., including two yrs. overseas, high school grad., two-thirds yr. of college.

(1) "I've found since I've been in this town most everything concerning city govt. and improvement has been on the downhill run. It is time some folks who have no personal axes to grind go in and do the town some good."

(2) "A truly qualified man in some law, engineering, business administration, accounting, and in the city management business before. There must be one available were he properly compensated. Go wherever we can find one but get a good one and when we do, back him 100 per cent."

# Marine - Air News

**Lt. (jg) R. J. Tomozer, boat inspection officer** of the Port Angeles Coast Guard air base, repeats his notice that inspection is due for all boats between 16 and 64 feet in length.

A call to Lt. Tomozer will get the inspection service and if it is at the local boat haven and discrepancies are found, the inspector will take note of them and tell the owner what to do to make his boat passable.

But—and this is the point—the Coast Guard officer stresses that if the boat owner neglects to go through inspection and has his craft boarded by the Coast Guard later, the result may be tough. It is customary, when it is necessary to board the craft while it is in use, to slap on stiff fines for all discrepancies.

Moral of this is to call the lieutenant and make a date for inspection at the boat haven.

**Five inbound vessels took on pilots** off Ediz Hook in the past 24 hours. In the same period three vessels dropped pilots while outbound. The strait was quiet as a millpond this forenoon, Puget Sound Pilots report, but much driftwood remains in the harbor and strait.

**ARMY LOPS SENTENCES**

WASHINGTON (AP)—The Army today lopped time off the sentences imposed on four of the six WACS accused of beating up a fellow woman soldier at Camp Breckenridge, Ky., last November.

The official announcement gave no reason for the action, but it is ordinary practice for the board of review to reduce court martial sentences.

Under the Army order, three of the women will be released immediately.

# Local News Briefs

**Marriage Licenses**

Keith Adderman, Sekiu, and Mildred Bonny, Port Orchard.

Dale Shofstall, and Darlene Boe, both Clallam Bay.

Emil W. Dahman and Wilhelmina Cashman, both Port Angeles.

Paul H. Malkasian and Marjorie L. Eisele, both Sequim.

Henry R. Tobach, Oakland, Calif., and Glynes Norman, Sequim.

Robert R. Johnson and Ilah Mae Filley, both Sequim.

**Justice Court Cases**

Judgments Jan. 21

Paul A. Sunde, 1032 E. 3rd, truck overload, $25 fine, $2 costs, $22 state penalty fee.

Marion J. Elder, Route 2, speeding, $12 bail forfeited.

Darrell V. Kreider, Sequim, speeding, $12 bail forfeited.

Jack Miller, Elks Temple, selling parts of game fish; steelhead eggs, $250 fine, $2 costs, $200 suspended.

Gerald Miles, Forks, speeding, $12 bail forfeited.

Judgment Jan. 23

Ivan Priest, Port Angeles, defective equipment, $12 bail forfeited.

**Parrett Formerly Here**

Rayonier Incorporated's newly appointed vice president, Dr. A. N. Parrett of Shelton, formerly worked at the company's Port Angeles mill. His wife, Doreen, is a daughter of Thomas T. Aldwell of Port Angeles, who was the leader in bringing the first hydroelectric and pulp mill developments to Port Angeles. Aldwell's other daughter, Norah, who resides in Seattle, is the widow of another Rayonier executive, Lloyd Raymond. Dr. Parrett is in charge of research and development at Rayonier's central laboratories in Shelton. Rayonier's new president, Clyde B. Morgan of Boston, announced Parrett's elevation Thursday, along with J. T. Sheehy to executive vice president. Sheehy was formerly Rayonier resident manager at Hoquiam.

# Son-in-Law of Local Couple in Plane Crash

George Williams, son-in-law of Mr. and Mrs. C. C. Breiland of this city, was among those killed Tuesday in the crash of an airliner at Elizabeth, N.J.

Williams and 22 other persons died when a two-engined American Airlines Convair plane crashed into a row of houses while feeling for a landing in a blinding snowstorm.

An employe of the Civil Aeronautics Authority, he lived in Washington, D.C., and was making a business trip when killed.

Writing from Pasadena, Calif., C. C. Breiland of this city reports the tragedy took the life of the husband of his youngest daughter Agnes. Mrs. Breiland, who was in Pasadena when news of the air crash came, left Wednesday morning by air for Washington, D.C., to be with her daughter.

The Williams' often visited here.

Mr. Breiland will remain at Pasadena until Mrs. Breiland returns from the east.

# Former Local Man Now Crown Z Vice President

Reed O. Hunt, who started his career with the Crown Zellerbach Corporation in the office of the Port Angeles plant, was elected a vice president of the company Thursday.

Corporation directors at San Francisco also named E. W. Erickson, formerly of Port Townsend and P. T. Sinclair of West Linn, Ore., and Carthage, N. Y., assistant vice presidents.

Hunt, 47, came here in 1927 and was employed in the office. Half a dozen years later he transferred to Camas as assistant office manager there and at West Linn.

He went to San Francisco in 1943 as assistant to Vice President A. Baukus and had several promotions before being named vice president.

Erickson was resident manager of the Port Townsend plant 15 years and has been with the company 32 years. He went to San Francisco in 1950 as assistant manager for manufacture of pulp.

Sinclair, employed by the company 23 years, has been resident manager at Carthage, N. Y., and West Linn. Since 1950 he has been in San Francisco as assistant manager of manufacture of pulp.

# Mrs. Iva Lisk Dies After Long Illness

Mrs. Iva Oralee Lisk, wife of Earl Lisk of Sekiu, died here today after an extended illness.

Funeral services will be at the Harper Funeral Home Monday at 2 p.m. with the Rev. John F. Como officiating. Burial will be in Mt. Angeles Cemetery.

She was born March 27, 1886, in Goldendale, the daughter of Mr. and Mrs. John Tuttle. She married Earl Lisk, Sept. 17, 1906, at Yakima and the family moved to Sekiu in 1915.

Mrs. Lisk was active in the Sekiu-Clallam Bay Community Club for many years.

Surviving are her husband Earl Lisk, a daughter, Mrs. Thelma Bartels, and son, Charles Lisk, all of Sekiu, another daughter, Mrs. Kenneth Knapman, Port Angeles; three sisters, Mrs. Leona Nooner, Seattle; Mrs. Maud Williams, Yakima, and Mrs. Zoula Grant, Sequim; and a brother, Irvin Tuttle, Yakima.

**FIND BODIES IN CAR**

PORTLAND (AP) — The bodies of three men were found in an automobile taken from the Willamette River in North Portland near Linnton today.

Dragging started after a woman told police her husband failed to return home Thursday night and a workman, noting evidence that a car had driven from a loading dock, called police.

The men, all Negroes, were identified as William R. Parker, 36; Herbert C. Parks, and Henry Strong.

The remains of Neanderthal man, who lived about 100,000 years ago, were first discovered in Germany.

(NEA Telephoto)

**PRICE OF PEACE**—President Truman uses a chart to explain a point in his new budget at a press seminar in Washington as Budget Director Frederick J. Lawton (right) looks on. In presenting the 85-billion-dollar spending budget to Congress, President Truman said it is the "heavy price" Americans must pay for preparedness, peace and the free world's survival.

**WEST GERMANY SUPPLIES DYES**

NEW DELHI, India (AP) — West Germany was India's major supplier of dyes during the first five months of the current fiscal year, commerce ministry sources said.

Of India's total imports of 9,600,000 pounds of dyes obtained from coal tar, West Germany sent 3,172,000 pounds, the United Kingdom 2,988,000 pounds, the United States 1,084,000 pounds and Switzerland, 355,000 pounds.

In many cities of India the individual's rationed diet is only 12 ounces of grain a day.

**ASK GAS RATE BOOST**

PORTLAND (AP) — The Portland Gas & Coke Co. asked Oregon and Washington officials Thursday for approval of rate increases expected to bring in $350,000 annually.

The company said the rate for the average householder using gas for heating and other purposes would go up about $7.60 a year.

**REMOVE MAC'S NAME**

SPRINGFIELD, Ill. (AP)—The name of Douglas A. MacArthur was removed from the Illinois Republican presidential primary Thursday after an official request from the general.

# Wandering Scribe

**This is Bobby Burns' . . . birthday . . . observed by Scotsmen . . . all over . . . the world . . . He was the poet . . . nearest . . . to the . . . common folk . . . whose verse . . . has never . . . lost . . . its appeal. Birds had . . . rather . . . rough going . . . and still have . . . because . . . of snow . . . covering . . . the ground. Many folks . . . are feeding them . . . and that helps. At our place . . . we put . . . food . . . on an outdoor table. Robins . . . seemed . . . to like it . . . but . . . they are quarrelsome . . . rascals . . . When one . . . got . . . on location . . . he attacked . . . any others . . . that lit . . . on the table. Each held the fort . . . while . . . eating. Wind . . . direction . . . here . . . is unpredictable. This morning . . . early . . . smoke from PenPly . . . stack . . . was going straight . . . up. Rayonier smoke . . . was veering sharply . . .south . . . from a north wind. In the middle . . . of the . . . business . . . district . . . smoke . . . from buildings . . . was going due . . . north from a south wind. It has . . . been . . . very noticeable . . . that we had . . . no . . . bad weather . . . including snow . . . this winter until . . . a certain . . . citizen . . . on a pleasurd . . jaunt . . . to California . . . returned . . . here . . . bringing the . . . California . . . bad weather . . . back . . . with him. He had not . . . dropped anchor . . . in his home . . . port . . . 24 hours . . . when . . . . down came . . . the snow.**
