### More families than ever are expected this year to participate in the "choose and cut" method of buying. Many now like to make at least one trip to the store to pick their own tree while they're in the ground, then get a little exercise in cutting them.

Wherever you get your tree, check the quality. The Kiplinger magazine offers this advice: Look for one with balanced, pyramidal form, well balanced on all sides and with strong limbs. Check to see that it is fragrant and with bright, smooth deep-green foliage. Try to avoid a tree with dull, yellow-tipped needles, the tell tale warning that they will soon start dropping to your floor.

Store the tree in a cool, protected place away from sun and wind. Rain or snow outdoors will keep it fresh and moist. When you bring it indoors, saw a fresh cut on the butt end to aid absorption. Then place it in a container of water. During the holidays the tree will look a lot better if you keep it in a large pot or jardiniere, with plenty of water.

**A Guide to Health and Happiness**

Exercise alone or diet alone cannot give lasting help to the figure-conscious American girl and woman. They must be coupled to the right psychological approach to acquire total fitness—physical, mental and spiritual. This is the advice of one of the nation's leading authorities on physical education, fitness and figure control, Dr. Mary-Ann Vanier.

This balanced approach to the "weightless" of problems facing both men and women is outlined in her latest book, "A Better Figure for You Through Easy Exercises and Diet," best published by Association Press.

A record attendance of PUD representatives from throughout the State gathered in Seattle, Dec. 9 and 10, for the 29th Annual Meeting of the Washington P.U.D. Association, to hear top leaders in State Government highlight the legislative, executive, and judicial processes under the meeting theme, "Progress Under Democracy." Some 250 persons took part in the two-day session which also saw the election of new Association Officers and approval of the 1966 Association Budget.

**6 TIPS FOR SAFER WINTER DRIVING**

By Prof. A. H. Easton  
Director, Motor Vehicle Research Laboratory  
University of Wisconsin

- 1. Get the "feel" of the road. Accelerate carefully at low speed and away from other traffic to see if the wheels spin, then brake to see if they skid. Reduce speed accordingly, steer gently and smoothly, use gas and brake pedals sparingly.
- 2. Increase your following distance. It takes three to twelve times as far to stop on snow and ice as on dry pavement, so lengthen your following distance to suit road and weather conditions.
- 3. "Pump" your brakes to slow or stop—don't jam them on. Proper pumping technique is to apply and release the brake pedal rapidly once or twice a second. This intermittent pumping action keeps the wheels rolling and helps maintain steering control.
- 4. Have good tires with good treads. Good tire treads are always superior to smooth treads on slippery pavements. Even better for snow are snow tires, which provide half again as much pulling power as regular tires.
- 5. Always carry reinforced tire chains in the trunk of your car and use them for severe snow and ice conditions. They provide four to five times as much traction on snow or ice as regular tires.
- 6. Keep your windshield and windows clear at all times. Replace streaking wiper blades that may have been baked dry by summer sun. Be sure that your windshield washer solution contains adequate antifreeze.

**Growth of U of W On TV**

The changing patterns of growth at the University of Washington will be the topic of the University's annual "Report to Parents" television program which will be shown around the state during December and January. The program will be shown locally on Sunday, December 26 at 10 a.m. on Channel 12 KVOS. The show reports on the University's problems of growth and their solutions to the parents, students, alumni, and friends around the state. President Charles E. Odegaard and nine faculty members from various academic departments take part in the production.

**State Trooper Most Difficult Job**

What's the most difficult job in the State Trooper has to perform? Chances are you haven't given it much thought, and the odds are slim that you would come up with the correct answer. Ask nearly any Trooper this question, and the answer is always the same. It's going to someone's home and relaying a death message. This is one of the unpleasant tasks that has to be done. How do you break the news to another or father that their child has been killed; or how do you tell a wife that her husband has just lost his life in an auto accident? In any event, there doesn't seem to be an easy way.

**A Snowflake Is A Weightless Thing**  
A snowflake is a weightless thing, scarcely noticeable on your eyelash. But pile an overnight accumulation of snowflakes on the driveway and try to lift them with a shovel and you may be risking a heart attack. A Washington State Heart Association advises middle aged fathers to send the youngsters out to shovel the snow and consider this good insurance on Dad's health. In Minnesota, where they scarcely ever run out of snow, a group of middle-aged and elderly volunteers were tapped to electrocardiograph machines and set to shoveling a snow bank in 14 degree cold. Physicians monitoring their heart action ordered two of the subject to stop after one minute of work because instruments showed their hearts were not getting enough oxygen. For men over middle age, the Heart Association advises: "These with heart disease should not shovel snow without a physician's approval. Those in good health may shovel, but should take it easy. Do not shovel after eating or when tired or hungry. Tabasco causes constriction of the blood vessels. So does cold air. The snow bank is 14 degrees cold. When you shovel, lift with the entire body. Use your back and leg muscles as well as your arms. Remember each shovelful of dry snow weighs four pounds plus the shovel. Wet snow is even heavier. If you feel breathless, stop. If you feel a lightness in the chest, quit. Best advice of all: If the Heart Association, is don't even begin. This is one place where it pays to send a boy to do a man's work."

**Fire Damage in the U.S.**

The dollar value of property damaged or destroyed by fire in the United States totaled \$1,067,128,000 in 1964, according to the Insurance Information Institute. It was the eighth consecutive year the total has topped \$1 billion.

**LETTERS**

**To the Editor**

December 9, 1965

Editor, Forks Forum:

Regarding Mrs. Grace Fletcher's comments per "dear mistakes" and "garbled misinformation" on a recent post office history story.

The post office history sources for the article included Guy Lesure, Mrs. Grace Frazer, past copies of the Forks Forum with articles by Mrs. Fletcher, members of the Forks Historical and Pioneer Society and the book, "Hatch Arkell." Also giving information were Thomas Mansfield and Oscar Wahlstrom.

Regarding the statement of receipts, Congressman Lloyd Meeds gave the same information at the

dedication. The arithmetic involved does not involve dividing the total sum by 365. Unless the office was open seven days a week, 62 weeks per year, this "arithmetic" is pretty inaccurate. Congressman Meeds says his information came from the Congressional Record.

Sincerely,  
Ralph Langer,  
Managing editor

**Automobile Insurance**

As the "expensive" season of the year approaches, we are reminded that one of life's expenses is the high cost of automobile insurance. However, what we are really referring to is the high cost of automobile accidents—because that's what's behind those high premiums that most of us pay. And looking behind those accidents we discover

the irresponsible drivers—the traffic law violators. (Or in some cases we might find ourselves looking into a mirror, as the case may be.)

For this reason, shopping around for a "good deal" in car insurance is not the most effective means of protesting against high insurance premiums. According to Chief Bachofner of the Washington State Patrol, there can be no insurance "bargains" when accident costs are steadily climbing.

The only hope for real savings, says Chief Bachofner, is in the way we drive our automobiles—accident

**FORKS FORUM - PAGE THREE**

prevention. This means eliminating accidents-causing violations: speeding, inattention, following too closely, drinking and driving . . .

So, whether money-saving or morality is the motive, it's time to get serious, even grim, about the errant driver who flouts our laws. He needs help and understanding, yes—but he also needs to recognize that the way things are going, he's no hero to any of us.

# What Is The John Birch Society?

The Truth May Surprise You!

This week we are celebrating our seventh anniversary. We are glad to take the occasion therefore, to give as much of an answer to the above question as space will permit, for those who really want to know. So—

## I. LET'S START AT THE BEGINNING

The John Birch Society was founded in Indianapolis, on December 9, 1958. It was chartered under the General Laws of Massachusetts as a non-profit educational organization. We have lived up meticulously to those specifications (including not making any profit) for seven years. During these seven years we have sought to bring into The John Birch Society only men and women of good character, humane consciences, and religious ideals. For we are striving to set an example, by dedication, integrity, and purpose—in word and deed—which our children's children may follow without hesitation.

Members of the Society are of all races, colors, and creeds. We are of all social, economic, and educational levels. We are individualists who disagree among ourselves about many things. But we are firmly united in devotion to those beliefs, principles, and purposes which we do hold in common. For we have voluntarily joined together:

- (1) To combat more effectively the evil forces which now threaten our freedom, our lives, our country, and our civilization;
- (2) To prevail upon our fellow citizens to start pulling out of the deepening morass of collectivism, and then climb up the mountain to higher levels of individual freedom and responsibility than man has ever achieved before;
- (3) To restore, with brighter lustre and deeper conviction, the faith-inspired morality, the spiritual sense of values, and the ennobling aspirations, on which our western civilization has been built. The ingrained objective of the Society has been summarized as *less government, more responsibility, and a better world.*

## II. SO WE COLLIDE WITH COMMUNISM

These purposes bring us immediately into conflict with the Communists, on two levels. For on the ideological plane the Communists seek always and everywhere to bring about more government, less individual responsibility, and an amoral world. And on the plane of action, until the Communists can be stopped from completing their subjugation of the whole world, there will be no opportunity for us to move forward at all towards our permanent goals.

We have undertaken, therefore, to play a leading role in slowing down, stopping, and eventually routing the Communist conspiracy. We realize that the one thing no conspiracy can withstand is the light of day on its activities. The only danger to their gigantic conspiracy which the Communists fear is exposure. For this reason, we do all that we can to bring to our fellow citizens more knowledge and a better understanding of the methods, the progress, and the menace of the Communist machine. In this undertaking we have become a new form of opposition to the Communists which they have never faced before in any of the vast areas they have already taken over.

So the Communists, grasping this fact very early, set out in 1961 to destroy us. The most official Communist publication in the United States is *The Worker*, in which the line is laid down for the faithful. During the last six months of 1961 there was, we believe, only one issue of this weekly paper which did not contain an attack somewhere in its pages on The John Birch Society; and a number of issues contained as many as six or seven separate attacks on us at that many different places. The Comynaps got the point, and have been carrying out the indicated program with increasing feror ever since.

Of course the Communists follow Lenin's basic strategy of advancing Communism by non-Communist hands. They could never impose the tyrannical rule of some three percent of a population over the whole population—which they repeatedly do in one country after another—unless they could inveigle enough non-Communists and even anti-Communists among that other ninety-seven percent into doing their dirty work for them. Deceptively appealing, for instance, to every motivation in human character, from sordid selfishness to "practical politics" to misguided idealism, they have gradually beguiled a lot of very good Americans into joining the attack on us. Until the maligning of The John Birch Society has now probably exceeded, in intensiveness and extensiveness, that faced by any other organization in all American history. And in general our defenders do not ever try to refute the facts on which we

focus attention. They merely call us names for bringing these facts to light.

## III. AND STEER UP THE POLITICIANS

The John Birch Society is in no sense a political organization. We try to give our members information, understanding, and—we hope—even inspiration, which will make them better citizens. As good citizens they may take an active part in politics. But each member does so entirely on his own, working in the party of his choice, for the candidate of his choice, exactly as do members of the American Legion or of the Knights of Columbus or of the Rotary Club or a Baptist Church.

For we regard education as the means, and political action as only the mechanics, for bringing about improvements in government. The mechanics will automatically be used when sufficient education has prepared the way. We mean it quite literally, therefore, when we say that education is our total strategy, and truth is our only weapon. Or, as made clear throughout the Blue Book and emphasized on its last page, our gigantic task is simply to create understanding.

Members of The John Birch Society, however, are extremely hard working, highly respected in their local communities, and always earnestly determined on behalf of any cause or candidate that they support. When circumstances bring any appreciable number together behind any particular candidate, their weight is out of all proportion to their numbers. And that weight is usually felt, of course, on the side of the conservative—or either party. So the Liberals of both parties naturally raise all the clamor they can against Birchers in politics. As the stranglehold of the Liberals on both parties now steadily increases, even Conservative politicians feel increasing pressures to "improve their image" by joining the chorus of attack on The John Birch Society. Very few of them indeed have ever realized the extent to which they were running interference for the Communists.

A related part of the mammoth and many-faceted campaign which the Communists have now generated against us is the deliberate and widespread attempt to associate The John Birch Society in the public mind with the Communist Party, the Ku Klux Klan, and other so-called "extremists" of the left and of the right. Our approach to the problems of today is so different from the viewpoint of the Klans that we have never knowingly admitted a member of any Klan into the Society. We estimate that about forty percent of our total membership is Catholic. Many of our finest Chapter Leaders are Jewish. And we are very proud of our small but growing number of Negro members, who are working so hard—and so courageously—with us to show our fellow citizens, both white and colored, how the Negroes are being used today by the Communists to serve Communist purposes.

So we have no similarity or sympathy whatsoever with the Klans. While the so-called American Nazi Party, according to J. Edgar Hoover, has less than one hundred members. And it is via this given immense publicity by some media for the very purpose of using it, by utterly false association, to discredit The John Birch Society.

Nor is this campaign intended to serve simply the purpose of a vague and general discrediting of the Society; or of merely discouraging our members and prospective members. There are plotters behind it who are obviously working towards a more specific goal. They wish to establish in the public mind, and then to formalize, the concept that since the Communists and Ku Kluxers and John Birchers are all "just alike," and since the Communists and Ku Kluxers are viciously "subversive," then The John Birch Society is "subversive" too. We believe it is to this end, at least in part, that so many high ranking politicians have been seduced into speaking out against us.

## IV. WHAT HAVE WE ACCOMPLISHED?

We have established a nationwide educational army. It has a fully paid field staff. This army is fighting with facts as its only weapons. And the whole army knows that to be better informed is to be better armed.

For help towards informing ourselves first, and then others, we established a publishing division. It is now turning out books and pamphlets with a retail value of about four million dollars per year. We also serve as very sizable distributors of the Conservative books and reprints of approximately one hundred other publishers. And our members now operate some 350 "reading rooms" that sell books, scattered throughout the country—most of them under the name of American Opinion Libraries.

We have certainly helped to re-awaken, restore, and strengthen, in tens of thousands of Americans, the three great basic human loyalties: Loyalty to God, loyalty to country, and loyalty to family. The Communists know that they simply must destroy all three of these foundations of our civilization. For they can never rule "peacefully"—that is, without constant resistance—in any place or at any time where there is loyalty to anything except to the Communist state.

We were the first organization in the United States to start calling widespread attention to the world-wide Communist plot to discredit, demoralize, and destroy local police forces. Our members have distributed in leaflet form literally millions of our messages explaining what the Communists were doing in this area, and why. As a result, our Support of Police drive has now won tremendous backing from patriotic citizens everywhere.

We are engaged in an entirely proper and constitutional movement to bring about the impeachment of the Chief Justice of the Supreme Court. As only one result of our educational efforts in support of that movement, we have awakened hundreds of thousands of our fellow citizens to the vital differences between a republic and a democracy. Many of them have come to realize the lengths to which our Founding Fathers went in order to give us a republic (not a democracy)—if we could keep it! And a growing number now understand how important it is to the Communists to convert this republic into a democracy as rapidly as they can.

Through the distribution by our members of huge quantities of books and pamphlets, we have brought a sizable and increasing fraction of the American people to recognize the high degree of Communist planning, influence, control, and purposes involved in the "civil rights" movement. Our increasing ability to get able, informed, and patriotic Negroes to join in this effort, especially through continuous and widespread speaking engagements, has been an important part of this service to our country.

We have helped mightily to offset the emotional and extravagant tendencies of the prejudiced and poorly informed to blame Communism on any one group or race or organization. The historical facts clearly reveal that the international Communist conspiracy reaches through every conceivable body it can utilize in any way to promote its ends. And we have insisted from the beginning that we are fighting the Communists—and nobody else.

The Factfinding Subcommittee of the California Senate ended the twenty-five thousand word report of its two-year investigation with these paragraphs:

"We believe that the reason the John Birch Society has attracted so many members is that it simply appeared to them to be the most effective, indeed the only, organization through which they could join in a national movement to learn the truth about the Communist menace and then take some positive concerted action to prevent its spread."

"Our investigation and study was requested by the society, which had been publicly charged with being a secret, fascist, subversive, un-American, anti-Semitic organization. We have not found any of these accusations to be supported by the evidence."

What we have accomplished, above all else, is to keep The John Birch Society alive and growing, as a rallying point for the increasing number of informed and patriotic anti-Communists. Our members have achieved this result, through staggering labor and sacrifice, despite increasing harassment, and distortions of their actions, and pressures amounting in many instances to serious persecution. And we intend to keep on growing. For we believe the incredibly vicious and massive attacks on the Society have been due, in any final analysis, not to our mistakes and our failures, but to our successes and our progress.

## V. WHICH DO YOU CHOOSE?

We cannot give you here the full basis for that choice. But let's put down a few points by brief comparisons of the Society with its Communist enemies.

(1) The Communists seek unlimited power for themselves, over the whole human race. The John Birch Society does not want any power at all over anybody, either now or in the future. Agreeing with Lord Acton that "power tends to corrupt; absolute power corrupts absolutely," the Society seeks to make progress towards its goals only by

education and persuasion.

(2) The Communists believe that any means may be used to attain their ends. The Society believes that improper means are never justified by even the noblest of aims, and that means are as important as ends in any worldwide civilization.

(3) The Communists always accuse their enemies—such as The John Birch Society—of exactly those crimes which the Communists themselves are committing. We do not bear false witness against anybody, about anything.

(4) The Communists believe that words should be used to conceal thoughts, and that promises are made to be broken. The John Birch Society believes that simple truth is the very core of morality; and that when we can persuade enough people to make truth the prerequisite to all statements and the accepted guide to all action, at least half of the world's problems will rapidly disappear.

(5) The Communists operate in secrecy and darkness. We follow the preponderant custom, among all American voluntary associations, of not publishing the list of our members. With that exception, The John Birch Society has absolutely no secrets of any kind.

(6) The Communists seek to break down all morality, all tradition, and to destroy the whole spiritual and aesthetic sense of values which we have inherited. The Society believes that a reverent continuity in human affairs is of extreme importance; and that even the most desirable change should be made cautiously, in order to be sure that it constitutes improvement.

(7) The Communists believe that man is just a material combination of atoms, with no other purpose than satisfaction of the desires of the physical entity thus assembled. The John Birch Society believes that a Divine Creator has endowed man with a purpose and an "upward reach" which are far superior to, and frequently prompt a willing sacrifice of, the desires and needs of the individual himself.

(8) The Communists—Lenin, Lunacharsky, and many other leaders—openly preach that "men must learn to hate," and that only through spreading sufficient hatred can the Communists succeed in ruling the world. The John Birch Society hates nobody, not even the Communists, but only the evil which they do. The Society believes that love for one's neighbor and good will towards all men should be a fundamental motivation in all human relationships.

The Communists also pretend to believe—and some of them undoubtedly do believe—that Communism is "the wave of the future." We believe, instead, that the whole world is now tired of so much strife and bestiality, treason and immorality, cruelty and confusion, blasphemy and destructiveness, bitterness and fear, doubt and despair that always go hand in hand with Communism. We believe that mankind may be about ready to arise, shake off this Communist tyranny and terror, and move forward again towards a more enlightened and humane existence. We are doing everything in our power, by all honorable means, to create the understanding that will produce this result.

If you have what it takes, in character and courage, then by all means join us now in our epic undertaking. With the added effort of people like yourself, and with God's help—when and because we have deserved it—we shall break up this immense criminal conspiracy, and return a world gone crazy to sanity once again.
