Bowling For Better Scores

By Evelyn Teal. 1964-65 All American Team

Third Step in the Four Step Delivery 4th of Seven Articles

You will recall that at the end of the second step, your left foot was balancing the weight of your bowling ball which was passing your right knee in its movement into the backswing.

In the third step the ball reaches its height in the backswing by allowing the ball to swing forward naturally under its own acceleration.

Now you are ready for the last step in the four step delivery.

### BACK TO SCHOOL!

### Forest Fires Doubled

Washington's good fortune, compared to other western states' forest fire record this summer, could well be short-lived if the present rate of fire starts keep up. During the past month alone, from July 15 to August 15, the number of forest fires more than doubled—and acreage burned was nearly six times that of the entire season to July 15.
