H. C. HEERMANS STRIKES OUT

Straight From Shoulder on the Water Works Franchise Question.

CORNING, N. Y., Jan. 1, 1906.

Editor Olympic Leader, Sir:—I have received information that my application for a water works franchise at Port Angeles has been rejected. I have also the printed arguments in the case. These arguments are so fallacious that I beg your indulgence in replying to the same. As stated to the city council I would not accept a franchise if any considerable part of the population of Port Angeles were opposed to it. I am now fully satisfied that no experienced water works manager will desire to go into your city to manage a water works plant under private ownership.

The arguments offered are unfair and unjust and for the most part untrue. Only a few people in your city have analized my propositton and understand the magnitude of the plans proposed and the investment required to construct a water works system under my proposed franchise. For my plans embraced a double system for high and low service, of large capacity, superior to that of any city of like size on the const. An investment exceeding $100,000, not less, was required in actual cash outlay. Few men would make such an offer to a town of the present population of Port Angeles with the consumers so widely spread out over an immense townsite. One of your progressive citizens had thoroughly canvassed the town to obtain signatures of water consumers and had obtained about 450 names, with no large water takers, as you have no manufacturing enterprises. This would furnish a revenue of about $500 per month. The city was to pay $900 per year, thus making a total revenue of $6900 per year as the full revenue that could be relied on; and I believe this to be a reliable estimate. Consequently, as I stated to the Council, rates could not be reduced below those offered and obtain capital for the plant. I further stated to the council that any citizen who would put up capital could join me in the scheme on equal terms with the money I put into the business.

There would be about twelve miles of pipe laid within the city limits or an average of three water takers to the block; the city would therefore secure a phenominal outlay for the revenue offered. From a business standpoint therefore it is a surprise that the city did not promptly and unanimously grant the franchise. The only hope for profit to the franchise was in the future growth of the city and in this I now believe that I have been too optimistic. It is true that a smaller investment in a water works plant would meet the present need; but in the end the larger plant will be required. It would in my opinion be bad policy to construct a water system of small proportions for the present requirements as in the end the entire plant would have to be enlarged and the original investment lost.

From the actual facts how ridiculous is the argument of Mr. Aldwell that the probable revenue of the works would be $1748 per mile! It is so absurd on the face of it that further reply is unnecessary. If Mr. Aldwell, or the city or Port Angeles, will guarantee a revenue of $1748 net per mile of pipe I will make a very different proposition for a franchise.

A $26,000 water works plant is proposed. Is it fair to compare such a works with that of a $100,000 investment? You now have a water works in your city that cost $22,000 or more. Do you want another system like it? It is surprising to me how astonshingly cheap some of the learned and inexperienced theorists can construct water works systems. They ought to at once abandon their professions and go into the water business, if by some ledgerdemain they can build systems for twenty-five per cent of the sums required by competent engineers.

A careful examination of my proposition ought to satisfy any business man that it was a liberal offer to the city of Port Angeles and should have been promptly accepted. The rates named in the proposed franchise were maximum rates, and under the meter system therein proposed would have resulted in a minimum rate of one dollar per month to every household where the water was not wasted. The rates for manufacturing were also maximum. A water company would have to supply water at such reduced rates as the natural conditions of business require for manufacturing purposes. While our franchise at Hoquiam allows a maximum charge of twenty cents for 1000 gallons, we are now actually supplying large quantities at eight cents per thousand for manufacturing uses.

Now that the theorists have rejected the best proposition ever offered to the city of Port Angeles for its future growth and prosperity I hope they will come forward with the capital to construct a water works system for the city equally as good as that proposed by me and build the same for the sums they specify in defeating my offer. The "dog in the manger" policy should not be allowed to keep back the growth and progress of your city and the mossbacks should give way to progressive men.

"ELKS REST" AT OCEAN VIEW

Lodge Ask for Section to Improve and Place Emblematic Monument.

Several communications came before the Council at its last meeting in regard to street obstructions and were referred. An animated discussion followed, the opinion of council being that, while such ordinance was in force, it should not be abused, and complaints should not be made unless party be directly injured by such obstructions.

A petition, referred to Cemetery committee, was presented by Naval Lodge, B. P. O. E., asking for donation of section L of Ocean View Cemetery for the purpose of an "Elks Rest," the lodge agreeing to clear section and also provide fencing. They propose to place an emblematic monument on the section at a later date.

Following bills were allowed: Angeles Water Co., $25 and $4; K. O. Hellstrom, lumber and work, $2.50; Johnson & Bork, painting cemetery stakes, $17; Alf. Davis, hall rent, $3; T. S. Brophy, mdse., 70c; Lewis Supply Co., supplies, $121.23; Webster Pub. Co., publications, 2.25.

Ordered that mud be cleaned from East End and Peabody bridges.

In a discussion as to the duties of Marshal, it was suggested that hereafter the Marshal pass along business streets at least once each hour; and that in the future licenses for shows be taken out before performance.

On motion that a day marshal be appointed at a salary of $15 per month, the mayor appointed Irvin Nichols.

Justice Penniman suggested the ringing of the curfew bell at 9:00 p. m., as in former times, thinking it might have a good effect upon the children of the city.

Chamberlain's Cough Remedy Absolutely Harmless.

WELL THEY WERE BIGOTED.

President Northrup Speaks of New England Pioneers.

Chicago, Jan. 8—A dispatch to The Tribune from Madison, Wis., says:

Speaking for the American Bible Society in the Congregational church last night, President Cyrus Northrup, of the University of Minnesota, said:

"It was well for this country that the founders of New England were narrow, bigoted and intolerant, for they founded its civilization upon the enduring laws of the Bible.

"Had some low moral tone then prevailed, as now governs in our political, social and financial life the nation never would have developed to its present spiritual and material greatness."

Trial of Green and Gaynor.

Savannah, Ga., Jan. 8.—After six years of continuous effort to have Benjamin D. Greene and John F. Gaynor brought to trial for alleged conspiracy with Capt. Oberlin M. Carter, of the United States army, to defraud the government out of millions in the harbor improvements at Savannah, their cases will be called for trial here this week before Judge Emory Speer in the United States court for the Southern district of Georgia. The trial bids fair to be a great event in court circles here.

Half Million Fruit Trees.

North Yakima, Jan. 5.—Three hundred thousand fruit trees were received by farmers at the North Yakima station during the month of December just past. These trees are to be planted in the vicinity of this city. They include many varieties of apples, peaches and pears, but the majority of them were winter apples. Prior to December 100,000 trees were received here and about 100,000 for the rest of the valley, making a total of hal a million trees for the season.

Chinese Students Strike.

Peking, Jan. 8.—The Chinse students in Japan, who number 8,000, have struck against the attempts of the govvernment to subject them to official supervision. They are threatening to return to China as a body. If the threat should be carried out, it would prove a disturbing element here, as the sympathies of the majority of the students are anti-foreign and anti-dynastic.

GENERAL UPRISING THROUGHOUT SIBERIA

Nagasaki, Jan. 10.—The transport Mongolia, which arrived here yesterday from Vladivostok with Russian refugees, reports that a general uprising throughout Siberia is feared.

The Russians told a story of horror along the Siberian railway as it had come to them from stories told of stations blocked by mutineers, who looted and burned everything in sight. Many of those who started for Russia have turned back. Trains have been seized and turned on a backward course, and great gaps exist in the line to the European frontier.

According to the refugees there has been a general uprising in Siberian Russia which will stop operations of the railway for the winter at least, considering the difficulties of maintaining the line in winter weather.

The stories of privation and horror told by the refugees from the Vladivostok station confirm in the worst degree the small bits of news that have leaked out from St. Petersburg of the cutting of the railway and the rebellion in the Manchruian army.

LULL IS ONLY A TRUCE OVER THE HOLIDAYS

St. Petersburg, Jan. 10.—The success which thus far has attended the campaign against the violent revolutionists has plainly encouraged the government to believe that the worst is over for the winter.

Except in the Baltic provinces, the Caucasus and the Don region, where thep prevailing anarchy is likely to continue indefinitely, some semblance of order is being gradually restored in the empire.

The socialists and revolutionists stoutly maintain the present lull is only a truce over the holidays, and from mysterious hiding places the leaders continue issuing orders to refuse all compromise with imperialists, to boycott the national assembly and to prepare for a great armed insurrection.

The government, however, professes confidence that the revolutionists will not quickly recover from the loss of strength which they have suffered.

PEASANTS CONTINUING WORK OF DEVASTATION

Riga, Livonia, Jan. 10.—Although the troops are operating energetically in all directions, the revolutionary peasants are continuing their work of devastation, wandering in groups through the provinces, cutting the railway wherever an opportunity is offered and attacking trains and passengers.

Of the many historic castles erected in the days of the Teutonic knights of the Hanzalic league, which were rich in memories of the wars between Russians and Swedes, and Germans and Letts, only a few remain. Among those destroyed was the magnicfient castle of Neunberg, the oldest in Courland, which was built in 1214 and contained historical documents and priceless pictures and antiquities. It belonged to Baron von Derecke.

On account of the cointnual anarchy the summer crops were meager and the revolutioary peasants who are living in the woods and have destroyed estates are forced by famine to attack and plunder villages, where military protection is slight, and are perpetrating many outrages.

Mutiny on Transport.

Copenhagen, Jan. 10.—When the Russian transport Kniaz Gortchakoff was laid up for repairs at Elsinore yesterday, in the harbor, it became known that the whole crew had mutinied, had forced the cabin, threatened to kill the chief engineer, with whom the men were dissatisfied, and had taken possession of the vessel temporarily. After a battle with revolvers, in which much ammunition was spent, but so far as is known no one was killed, the local police took possession of the vessel, restored it to its officers and left it in official control.

LIBERAL MOVEMENT BELIEVED TO BE BROKEN

St. Petersburg, Jan. 6.—Count Witte's published statement that as the realization of the promised liberties, the establishment of civil rule and the removal of the people's disabilities would be useful to the revolutionists, they will be indefinitely postponed, is thought to indicate that the government believes the liberal movement crushed and that the comedy of forming a constitution need no longer be played.

The policy of repression is being persevered in. The strongest liberal organ, Russkia Viedomosti, which not even Alexander III dared to touch, has been suspended. Prince Mestchersky, who is Count Witte's spokesman, asserts that the autocracy is stronger than ever. Premier Witte's newspaper organs unblushingly annonce that "the registration will soon be closed. Nobody has registered, because the country is in a state of siege and the voters are uninstructed. Nevertheless, the douma will assemble on time, as only a small quorum is required."

Lieut. Gen. Merendorf, who has been investigating affairs in Moscow, has made a report officially approving the cruelty of Gov. Gen. Dubassoff's actions in repressing the revolt.

REPORTED RAILWAY DEAL.

N. P. Said to Have Purchased Astoria and Columbia River.

Portland, Or., Jan. 6.—The Oregonian says that it is learned on good authority that the Northern Pacific Railroad Company has purchased the Astoria & Columbia River railway for $4,000,000.

The Astoria & Columbia River consists of about eighty miles of broad gauge road from Goble to Astoria and other coast points. It enters the city of Portland over the tracks of the Northern Pacific under a 99 year lease.

The Astoria & Columbia River railroad is owned principally by A. B. Hammond, of San Francisco, and is reported to have cost $40,000 a mile. It is generally understood that the road pays 6 per cent on a $4,000,000 valuation.

TO RECEIVE CHINESE.

High Commission to be Welcomed by Special Representative.

Washington, Jan. 8.—Prof. J. W. Jenks, of Cornell university, has been designated by Secretary Root as a representative of the state department to receive at San Francisco, upon their arrival, the distinguished Chinese commissioners now on their way to this country to study American methods, with a view to the adoption of those that seem desirable for the improvement of the Chinese people and government.

Prof. Jenks is now on his way to San Francisco, where he will arrange for the execution of certain plans which he has prepared, in connection with Chief Clerk Denby, of the state department, who will look after the commissioners when they arrive in Washington.

It is the intention of the president to give this commission a reception in full accord with its dignity and importance. Therefore the navy will take part in the ceremony upon the arrival of the commissioners in the Golden Gate, and the army will do its share when the members land in San Francicso.

WANTED IN COLORADO.

Orchard Accused of Dynamiting Independence Depot.

Denver, Colo., Jan. 5.—Sheriff Edward Bell, of Teller county, Colo., has telegraphed the sheriff at Caldwell, Idaho, requesting him to hold the prisoner identified as Harry Orchard on a warrant charging him with murder committed in Cripple Creek, Colo., should the charge of assassinating former Governor Steunenberg, of Idaho, not be pressed against him. Orchard is accused of having blown up the Independence depot on June 6, 1904, killing fourteen non-union miners and seriously injuring a number of others. It is said he fled from Cripple Creek immediately after the explosion and has since eluded the Colorado authorities. He has been traced through several states.

MOFFATT WANTS OUTLET.

Colorado Railroad Man Plans to Build to Coast.

Denver, Jan. 8.—D. H. Moffatt, who is building a railroad through Northern Colorado and Utah to Salt Lake, has made the following announcement:

"I intend to extend the Denver, Northwestern & Pacific railroad to Portland, Or. I want to get up in that section for the timber as well as for an outlet on the Pacific ocean. I will begin this extension when I am through to Utah."

The construction of the Moffatt road to Portland would put Denver on a direct Pacific Coast-Gulf of Mexico line.

Little Evidence of Feeling.

Victoria, B. C., Jan. 4.—The Empress of Japan has arrived after a stormy passage. Reports of passengers from China are to the effect that there is little evidence of anti-foreign feeling in China as reported previousy. A. Vignom, a French diplomat; H. Berrick, a German business man, and Dr. Thornhill, all from different parts of the empire, say there is no anti-foreign feeling different from what has always existed.

Morales to Resign.

Washington, Jan. 8.—The state department has received news from San Domingo that ex-President Morales has offered to resign if he will be allowed to leave the country in safety. This proposition, it is understood, will be acceptable to the defacto government.

TWO MILLION BAGS.

Expected Output of the Penitentiary Jute Mill.

Walla Walla, Jan. 8.—The last of the shipment of 3,500 bales of jute from Calcutta has arrived at the penitentiary. The quality of the jute is found to be far superior to that of last year, and on this account it will probably be possible to get nearly if not quite 100 more grain bags to the bale from the stock just received, which will bring the number up to about 550 to the bale.

Warden Kees says he expects to work about the same number of convicts in the jute mills as in 1905, or about 300. It is thought that the total output of grain bags for the season will reach 2,000,000.

On account of the increase in price of the raw material it is expected the board will advance the price of bags considerably from last year, which was $5.85 per 100 f. o. b. Walla Walla, while prices elsewhere ran as high as $8.50.

As it requires about 13,000,000 grain sacks to supply the demand in this district alone, the output at the penitentiary will find ready market at the low price, which price will be determined by the board of control at its next meeting.

BATTLESHIPS COLLIDE IN NEW YORK HARBOR

New York, Jan. 8.—While the battleship squadron, under command of Rear Admiral Evans, was proceeding to sea yesterday the battleships Kearsarge and Kentucky ran aground in the harbor off the West Bank lighthouse. The Alabama and Illinois were following next in line and before they could alter their course the Alabama collided with the Kentucky, striking her a glancing blow. The Illinois just got clear of the tangle and proceeded down the bay, anchoring outside the bar with the flagship Maine. The starboard side of the Kentucky above the water line was quite badly damaged. The accident occurred shortly after 1 p. m. The Alabama stood by to render assistance to the Kentucky and Kearsarge and wireless messages were sent to the Brooklyn navy yard for tugs.

At 2:45 the Kearsarge and Kentucky were floated and started for sea accompanied by the Alabama. The Kentucky, however, was ordered back and returned to Tompkinsville, where she anchored late in the afternoonn.

The Maine, Illinois, Alabama and Kearsarge remained off the bar until 5:20 o'clock, when they weighed anchor and proceeded to sea.

The squadron of battleships was bound for Hampton Roads, where the several divisions of the North Atlantic fleet in home waters are to be assembled under Rear Admiral Evans preparatory to sailing for West Indian and South American waters for the annual winter maneuvers.

PUBLICITY THE WEAPON.

Only thing that Will Combat "Spirits of Sordid Commercialism."

New York, Jan. 8.—Publicity is the only weapon which can be used successfully to combat that "spirit of sordid commercialism, which has clouded the judgment of those who have been the custodians of large and important trusts, causing them to depart from the well-trodden paths of rectitude and high honor which heretofore has characterized our merchants and bankers," as revealed by the recent insurance investigation, according to a report submitted at a regular meeting of the New York Chamber of Commerce. The report was made by Anton O. Raven, chamber of the chamber's committee on insurance, to which had been referred a resolution declaring that in the opinion of the chamber additional legislation was necessary for the proper regulation of life insurance companies and kindred organizations. This committee has concluded that no restrictive legislation can ensure honesty of administration and enforce economy.

ARBITRATION COURT FOR WESTERN HEMISPHERE

Washington, Jan. 8.—It is now understood that one of the objects of Secretary Root's proposed visit to Rio de Janiero next July in the capacity of delegate to the Pan-American conference is the creation of a sentiment in favor of the establishment of an international American court of arbitration, devoted exclusively to the peaceful settlement of disputes arising among the governments of the Western hemisphere. Although most of the Latin-American governments have subscribed to the principles of The Hague convention, it is realized that there would be a great saving of time and money if there were a similar arbitration tribunal on this continent more convenient than The Hague.

Many in Chinese Commission

Washington, Jan. 10.—Chief Clerk Denby, of the state department, has been notified that the Chinese commission now on the way to Washington to study American methods numbers, with the attendants, no less than sixty-two persons. As the number is beyond the capacity of the Chinese legation building, the commission will be entertained at the Arlington hotel. They will remain in this city for two weeks.

BIG HOTEL BURNED

THE WEST, AT MINNEAPOLIS, THE SCENE OF A TRACEDY

Half a Dozen Known to Have Perished and the Number Is Probably Much Greater—Flames Caught at Bottom of Elevator Shaft, Probably From Crossed Wires.

Minneapolis, Jan. 10.—Fire which started at 7:30 this morning, gutted the big West hotel. Six persons are known to have perished, either being overcome with smoke or killed trying to escape. It is believed that the total dead will number at least ten.

The fire started at the bottom of the elevator shaft, presumably from some crossed electric wires.

The West hotel is one of the first-class hotels of Minneapolis and is located at Fifth street and Hennepin avenue, in the center of the business district. It is the largest hotel in the city and, although it has been built many years, it has been recently improved and is considered thoroughly modern. It has always been considered the fashionable hotel of Minneapolis and has been the headquarters of prominent people when visiting here, and of many conventions, among which was the Republican national convention in 1892.

The building has always been considered fire proof. It is eight series in height and probably cost $800,000.

DATE FOR WEDDING NAMED BY PRESIDENT

Washington. Jan. 5.—The president and Mrs. Roosevelt have announced that the wedding of Miss Alice Roosevelt to Representative Longworth, of Ohio, will take place on Saturday, February 17, at 12 o'clock, noon, in the east room of the White House.

ON THE GROSSCUP PLAN.

Bill for Regulation of Railroad Rates Introduced.

Washington, Jan. 8.—A bill following the outlines of a plan proposed by Judge Grosscup of Chicago, for the settlement of complaints of unjust rates and practices in railroad transportation has been introduced by Representative Hogg, of Colorado.

The bill provides for the abolition of the present interstate commerce commission and the substitution therefor of a transportation commission of three members in whom is vested all of the powers of the present commission and upon whom is cast the duty of proceeding in the name of the United States in a special transportation court when they shall have reasonable grounds for belief that the law is being violated, for the purposes of securing the correction of the particular rate or practice.

The speeial court is to consist of seven mebmers; three of the court are to be new appointees and four are to be designated from the existing circuit courts; the court to sit at such places as the public convenience requires and from the decision of the court in general term appeals on point of law lie by writ of certiorari to the supreme court of the United States.

The bill provides for the publicity of accounts, methods of keeping the same, and makes owners and operators of private cars subject to the provisions of the act.

The purpose of the bill is to preserve all of the benefits of the present commission in the capacity of arbitrators of disputes between carriers and users of transportation facilities and to provide effective machinery for the enforcement of remedies against a carrier who fails to act on lines marked out by the transportation committee.

Chinese Ladies are Learning.

Peking, Jan. 8.—A notable movement has recently begun here in the establishment of schools for the education of women under the direction of several princesses with Japanese ladies as volunteer teachers. All the schools are crowded with girls from leading families. Fourteen Mongolian princesses have arrived at Peking for the purpose of seeking instruction in the European languages.

Canadian Pacific Land Sales.

New Westminster, B. C., Jan. 5.—During the year 1905 the Canadian Pacific Railway Company sold a larger acreage of their lands than they did in 1904, but realized less per acre than they did during the previous year. The sales for 1905 show that 782,383 acres sold for $4,041,244, while in 1904 their acreage disposed of was 520,665, sold for $2,240,502.

For Exposition at San Francisco.

Washington, Jan. 8.—Representative Kahn, of California, has introduced a bill providing for an apprvopriation of $5,000,000 for an exposition in San Fcrancisco in 1913 to celebrate the four hundredth anniversary of the discovery of the Pacific ocean by Balboa.

Big Timber Deal Pending.

Spokane, Jan. 8.—Negotiations for a $3,000,000 timber deal, including the holdings of the William Howard Lumber Company, to the Stacks-Gibbs Lumber Company, of Spokane, are pending, and it is expected the deal will be consummated as soon as cruisers can estimate the amount of timber on the tract.

PHILIPPINE TARIFF

BILL PASSES HOUSE BY LARGE MAJORITY.

Practically all the Amendments Offered were Defeated—Rice is Made Subject to the Same Tariff as is Placed on Sugar and Tobacco—Free Trade After 1909.

Washington, Jan. 17.—The Philippine traiff bill was passed by the house yesterday afternoon, substantially as it came from the ways and means committee. The vote stood 258 to 71. Rice was made subject to the same tariff as sugar and tobacco—25 per cent of the Dingley rates—and one or two changes were made as to the language.

Republican opposition to the bill in the interest of American beet and cane sugar and tobacco tried out its strength early and gave up. The opposition refused to affiliate with Democratic efforts, the strongest plea for "insurgent" support being made in behalf of Champ Clark's amendment reducing the differential on refined sugar.

The minority sought to duplicate the house record made on the Cuban reciprocity act, but failed.

Democratic Substitute Defeated.

The Democratic substitute met with only the support of the minority and went down under a vote of 231 to 106. On the final passage the "insurgents" demanded a roll call, that the record might be preserved.

The bill admits goods the growth of products of the Philippines into the United States free of duty, except sugar, tobacco and rice, on which a tariff of 25 per cent of the Dingley tariff rates is levied. It provides that after April, 1909, there shall be absolute free trade each way between the United States and the Philippines. It also exempts Philippine goods coming to the United States from the export duty of those islands. Merchandise from either country is subjected to the internal revenue tax of the country in which merchandise is withdrawn for consumption.

MANY FORGED BONDS.

Total of a Million Issued By a Cleveland Firm.

Cleveland, Jan. 16.—According to a statement made last night by H. R. Newcombe, of the bankers' committee investigating the affairs of Dennison, Prior & Co, which is in the hands of Receiver Thomas H. Bushnell, the developments show that the gross liabilities of the firm are $900,000, not including the $1,000,000 in supposedly forged securities. The assets of the firm, Mr. Newcombe believes, will be about $500,000.

Mr. Newcombe believes that few of the forged bonds were gotten into banks outside the city of Cleveland and the state of Ohio, and maintains that the forgeries were used as collateral mostly in this city. That would make the extent of the involving of outside financial institutions small, Mr. Newcombe said.

The private safe of Mr. Prior was opened after three days' work by experts. It contained no papers or memoranda that would disclose anything as to the status of the firm's affairs.

Among the contents of the safe were insurance policies to the amount of $100,000 on Mr. Prior's life. Stocks representing less than $15,000 were also found in the safe.

PACIFIC RAILWAY ADOPTS PARENT NAME

Olympia, Jan. 13.—President H. R. Williams and Secretary E. W. Cook, of the Pacific Railway Company, have filed with the secretary of state amended articles of incorporation, changing the name of the company to Chicago, Milwaukee & St. Paul Railway Company of Washington.

The stated objects of the company are to build and operate railways from convenient points in the city of Seattle and in the city of Tacoma and running easterly and southeasterly to a convenient point on the eastern boundary of the state, of an estimated length of about 300 miles.

NORTHWESTERN FAIR DATES ARE SETTLED

Portland, Or., Jan. 12.—Representatives of the various fair associations belonging to the North Pacific Fair Association have decided upon dates for the various fairs of importance throughout the Northwest, and elected officers for the ensuing year. Following is the schedule:

Seattle, September 3 to 8; Salem, September 10 to 15; North Yakima, September 17 to 22; Spokane, September 24 to 29; Walla Walla, October 1 to 6; Lewiston, October 8 to 13.

Grazing on Forest Reserves.

Washington, Jan. 17.—Permission has been granted for the grazing of 7250 head of cattle and 65,000 sheep on the Washington forest reserve next summer, a tax of 7 cents being imposed on each sheep and 25 cents on each head of cattle. Permission was also granted for grazing 2,300 cattle in the Maury Mountain reserve in Oregon, at 25 cents per head.

OFFERS TO BUILD ROAD.

Proposal by Milwaukee System in Exchange for Right of Way.

Olympia, Jan. 13.—The Pacific Railway, as part of the Milwaukee system, has made overtures to the state authorities to secure the state Snoqualmie pass highway, offering in return to construct a new state road on the east slope of the Cascades. This announcement is made by State Highway Commissioner J. M. Snow. Mr. Snow said:

"Under the authority of an act of the last legislature we have had surveys made for a better route for the old Snoqualmie pass state road and have been able to secure a route that has a maximum grade of about 5 per cent, though most of the way it is but 3 per cent.

"The Milwaukee wants to make use of parts of our right of way and has practically offered to construct a first class road for the state from near Easton to the summit in exchange for our right of way.

"For highway purposes we avoided all heavy work, but from my personal knowledge of the country and insection of recent surveys I measure the Milwaukee using our lines can get better than a 1 per cent grade from Easton to the point where it is proposed to cut through the hills to Snoqualmie pass with a tunnel.

"There has been some talk that the Milwaukee and the Northern Pacific would combine and bore a double track tunnel at a much lower elevation and beneath the present Stampede tunnel of the Northern Pacific, but I am rather of the belief that the Milwaukee will prefer the Snoqualmie pass line. The state road right of wbay covers the best route, but if the railway will build us a first-class road in exchange for the right of way I am of the opinion it will be a good deal better for the state to make the argeement."

BUGET STATEMENT OUTLINES CONDITIONS

St. Petersburg, Jan. 15.—The budget statement for 1906 shows that it will be necessary to raise $240,500,000 by credit operations to balance the estimate of receipts and expenditures. The latter include $202,500,000 for the liquidation of the expenses of the Russo-Japanese loan for the reparation of troops in the far East and the reduction of the army to a peace footing. For the first time the total cost of the war, $1,050,000,000, is revealed.

The credit operations to balance the budget include the recent authorization of $200,000,000 in treasury bonds, $75,000,000 of which have already been used to renew the Mendelssohn loan, and the credit of $160,000,000 which former Finance Minister Koovsoff is now negotiating in Paris. The primary object of the latter, the proceeds of which will be retained in Paris, is understood by the Associated Press to be the maintenance of the stability of the ruble.

The budget statement does not dodge the prevailing conditions in Russia. It is pointed out specifically that the receipts from all sources have been scaled down, and, moreover, it is stated that if the disorders in the interior do not cease there may be some branch of revenue on which it will be impossible to count.

The statement concludes with the following address to the emperor, which was evidently prepared by Count Witte:

"These facts and figures submitted to your majesty show that the present situation of Russian finances is none too favorable. This state of things is the result of the war and of the troubles which followed. These troubles are of a temporary character, and it is fair to assume that they will be ameliorated in the near future.

"The elimination of those special features has a sure guarantee in the independence granted to a Russian nation by your august will and by the equality which has been assured to all your majesty's subjects."

WITTE DEFENDS HIS HARSH MEASURES

St. Petersburg, Jan. 13.—Premier Witte has made an interetsing statement to a delegation headed by the mayor of this city, which requested a relaxation of the orders of the prefect of police against meetings in the interest of the election campaign. The premier could not promise to do anything until after January 22. While personally he did not sympathize with the harsh measures of Interior Minister Durnovo, he regarded them as essential. He spoke bitterly of the failure of the moderates to give the government support, saying that upon their shoulders largely rests the burden of compelling the government to resort to repression.

The permission to hold meetings was translated into license for street disturbances and assemblages to plot against the life of the government and to the industrial ruin of the country. "I have always been opposed to repression," said Mr. Witte, "but the attitude of the moderates compelled me to adopt harsh measures. I am determined to save Russia."

While the emperor wanted the national assembly to meet as early as possible, Premier Witte said that those charged with the election fear it will not be possible to assemble before April 28.

ENVOYS AT 'FRISCO

CHINESE COMMISSION ARRIVES ON STEAMER SIBERIA.

Welcome of Disdinguished Visitors was Cordial, Government Being Represented by Prof. Jenks—Commission Appointed to Study Social and Economic Conditions.

San Francicso, Jan. 13—The steamer Siberia has arrived from the Orient, having on board the imperial Chinese commissioners, Tuan Fang and Tai Hung Tseu, with their subordinates and suites, 62 persons in all.

The steamer was delayed by adverse weather and did not arrive till late, but the welcome of the distinguished visitors was fully as cordial as had been anticipated. They have crossed the Pacific to study the political and social institutions of the United States and Europe, and this government has received them in a most kindly spirit.

Heading the reception committee was Prof. W. J. Jenks, of Cornell university, who came here as the personal representative of President Roosevelt.

With him were Gen. Sumner and staff, Adjt. Gen. Lauck, representing Gov. Pardee; Gen. Funston and staff, the Chinese consul, vice consul and secretaries, leading merchants and other prominent citizens.

The Chinese officials were cordially greeted, and after the steamer had passed quarantine were landed and escorted to the St. Francis hotel, where they will remain during their sojourn in this city.

They will be given a banquet by the Chinese consul and vice consul, and during their visit will probably meet representative officials of the city at a reception of the Merchants' Exchange.

Were Named by the Emperor.

Both of the commissioners, who are appointed directly by the emperor, are high in the estimation of their countrymen, and they have expressed them selves as greatly pleased with their reception in America.

Tuan Fang is a scholar of recognized standing, an art critic and a collector, who has the finest collection of Chinese antiquities to be found in the Chinese empire. He has been a governor of four provinces and a viceroy of two important provinces prior to his present appointment as viceroy. While governor of Shensi province at the time of the Boxer troubles, he gathered all the foreigners in his province and afforded them official protection.

Tai Hung Tseu is one of the great scholars of China. While quite young he graduated from the Hamlin college, which is the highest scholarly distinction to be secured in the Chinese empire. He has been chief examiner in several of the provinces for the civil service. Recently he has filled the position of secretary of the board of revenue.

The other members of the commission were appointed by the various viceroys, and are all men of exceptional attainment.

FRANCE CUTS RELATIONS WITH VENEZUELA

Washington, Jan. 15.—All diplomatic relations between Venezuela and France are broken, it is said at the state department, and although no formal or official information to this effect has been received, the officials assume that, with the usual procedure, this will involve the early departure from Venezuela of M. Taigny, the French representative there, and from France of M. Marbourguet, the Venezuelan agent at Paris. The officials here are awaiting the turn of events with much interest, although it is expressly stated that definite news regarding the next move France will make has yet to be received. In the event that the request is made by France, it is stated permission will be cabled to Minister Russell to look after French interests.

Although the present breach in the diplomatic relations between France and Venezuela is technically chargeable against the personality of M. Taigny, the French charge at Caracas, the real issue, as it is understood here is the attack by President Castro upon the properties and franchises of the French Cable Company.

President Harper Died Poor.

Chicago, Jan. 17.—It is announced that the estate left by the late President Harper, of Chicago university, is small and consists almost entirely of life insurance policies. It is estimated that President Harper during his life gave between $35,000 and $50,000 to the American Institute of Sacred Literturea, a publishing concern, in the work of which he was greatly interested. He also gave much money to needy students, but the amount of this will never be known. It is said the entire estate is given to the widow without reserve.

President Is Red Man.

Washington, Jan. 15.—President Roosevelt has been made an honorary member of the Improved Order of Red Men. The ceremony took place in the president's private office in the White House. The order is 142 years old, and this was the first time an honorary degree ever was conferred.

CIVILIANS AND TRANSPORTS.

Army Rules Constantly Evaded by Officers and Friends

It is reported from Washington that the war department is renewing its efforts to restrict the use of the transports to officers and soldiers of the army. Similar reports have reached us before. They make periodic appearances, but the transports continue to be filled with civilians, junketing political personages and the sisters, the cousins and the aunts of officers and men, not to mention their wives, children and servants, while the young subalterns continue to be thrust into the cramped quarters 'tween-deck-to accommodate persons who never wear epaulettes or shoulder muskets.

The war department has not yet had the hardihood to deny openly that families of officers are entitled to free transportation across the seas, but it tries to limit the size of the families, not infrequently with amusing results. Not many months ago an infantry captain applied for transportation for his wife, two sisters and children. The allowance of sisters was cut down one-half, only one being given accommodations. However, he managed to ring in the rejected sister as the nurse to his child. This shrewd solution of the problem looked lovely and everybody was happy until on arriving on board the transport it was found that, while the wife and other sister were given cabin staterooms the nurse sister was assigned to the steerage quarters with the wives of enlisted men. Horrible! The roar that arose was heard 'way up Folsom street. The throats of both sexes were taxed to express their horror and indignation. The quartermaster captain was at once summoned and a lively protest made. Of course, the story came out then and the fact that the alleged nurse was really a brother officer's fair sister traveling in disguise was impressed upon the perplexed quartermaster captain, who for a time took refuge in a quiet stateroom to think out the situation. It was finally patched up in some way and both sisters taken to Manila, but the nurse trick was not attempted again by that family, although it has been successfully worked at other times.

Another officer with a wife and two sisters had a less fortunate experience only a few days ago. He had been ordered to the Philippines on special duty. His application for his wife and two sisters to accompany him was frowned upon. He thereupon wrote to the authorities, saying that his position, being on special duty, was not akin to that of those proceeding under routine orders or routine duties. He was in a class by himself, etc. Back from Washington came a telegram just before the vessel sailed giving authority for the two sisters to accompany the officer, but directing that the wife would have to be left behind!—San Francisco Argonaut.

HUNTING THE SEA OTTER.

How Aleuts Procure One of the Most Valuable Fur Skins.

No landsman's still hunt affords the thrilling excitement the otter hunters spearing surrounds, says the Outing Magazine. Fifteen or twenty-five little skin skiffs, with two or three men in each, paddle out under a chief elected by common consent. Whether fog or clear, the spearing is done only in calm weather.

The long line of bidarkas circles silently over the silver sea. Not a word is spoken. Not a paddle blade allowed to click against the bone gun'els of the skiff. Double-bladed paddles are frequently used, so shift of paddle is made from side to side of the canoe without a change of hands. The skin bidarkas take to the water as noiselessly as the glide of a duck. Yonder, where the bowlders lie mile on mile awash in the surf, kelp rafts—forests of seaweed—lift and fall with the rhythmic wash of the tide.

Hither the otter hunters steer, silent as shadows. The circle widens, deploys, forms a cordon round the outermost rim of the kelp fields. Suddenly a black object is seen floating on the silver surface of the water—a sea otter asleep. Quick as flash the steersman lifts his paddle. Not a word is spoken, but so keen is the hearing of the sleeping otter the drip of the lifted paddle has not splashed into the sea before the otter has awakened, looked, dived like lightning to the bottom before one of the alert hunters can hurl his spear.

Silently, not a whisper, the steersman signals again. The hunters deploy in a circle half a mile broad around the place where the sea otter disappeared, for they know that in fifteen or twenty minutes the animal must come up for breath, and it cannot run farther than half a mile under the sea before it reappears.

Suddenly somebody sees a round black red head poke above water, perhaps close to the line of watchers. With a wild shout the nearest bidarkas dart forward. Whether the spear throw has hit or missed, the shout has done enough. The terrified otter dives before it has breath. Over the second diving spot a hunter is stationed, and the circle narrows, for the otter must come up quicker this time.

It must have breath. Again and again the little, round, rufous head peeps up. Again the shout greets it! Again the lightning dive! Sometimes only a bubble gurgling to the top of the water guides the watchers. Presently the body is so full of gases from suppressed breathing it can no longer sink, and a quick spear throw secures the quarry.

When the small boy takes the cake he thinks that he is receiving only his just dessert.

NOTICE OF SHERIFF'S SALE
OF REAL ESTATE

In the Superior Court of the State of Washington for Clallam County.
D. E. McGillivray, Plaintiff, vs William E. Truesdell, Defendant.

Under and by virtue of writ of Execution issued out of and under the seal of the Superior Court of the State of Washington, holding terms at Port Angeles, in and for said county, on the 5th day of January, 1906, upon a judgment rendered in said Court on the 30th day of December, 1905, in favor of D.E. McGillivray, and against William E. Truesdell, for the sum of One Hundred and Seventy-four ($174.00) Dollars, together with attorney's fees, interest, costs, and increased costs, and to me directed and delivered, I have this day duly levied upon all the right, title and interest of the above named Defendant, William E. Truesdell, in and to the following described real estate, to-wit: The South half of the Southwest quarter of the Northeast quarter of Section Twenty-five (25), in Township Thirty (30) North, Range Stx (6) West of the Willamette Meridian, in Clallam County, State of Washington.

Now therefore, notice is hereby given That on Saturday, the 3rd day of February, A. D. 1906,at 10 o'clock in the forenoon of said day, I will sell the above described property, or so much thereof as may be necessary to satisfy said judgment, together with attorney's fees, interest, costs and increased costs, in all amounting to the sum of Two Hundred and Sixteen and 90-100 (216.-90) Dollars.

Said sale will take place at the front door of the court house at Port Angeles in said county and state, and will be at public auction, for cash in hand to the highest and best bidder.

Dated at Port Angeles, Wash., this 5th day of January, 1906.

Order to Show Cause on Sale of Real Estate.

In the Superior Court of Clallam county, State of Washington.
In the matter of the estate of Henry Anderson, Deceased.

J. A. Johnson, the administrator of the estate of Henry Anderson, deceased, having filed his petition in this Court duly verified praying for an order of this Court for the sale of all the real estate of which the said deceased died seized, for the purposes therein set forth:

And it appearing to the Court from said petition, that the personal estate of the said deceased in the hands of said administrator being none at all and is not sufficient to pay the claims against the said estate and the expenses of the administration thereof, and that the sole heir at law of deceased is his mother Anderson residing in Sweden, Europe, that it is necessary to sell all or a portion of the real estate of the said deceased to pay said claims and expenses of the administration. And it appearing to the Court that said petition conforms to, and is in accordance with the requirements of law in such case made and provided, it is ordered by the Court that all persons interested in the estate of the said deceased appear before said Superior Court on Saturday, the 27th day of January, 1906, at the hour of 10 o'clock in the forenoon of said day at the court room of the probate department of said Superior Court in the City of Port Angeles, in said Clallam county, then and there to show cause, if any they have, why an order of this Court should not be granted to said administrator authorizing and empowering him to sell the said real estate of said deceased, or so much thereof, as may be necessary to pay the aforesaid claims and expenses of administration. It is further ordered that a copy of this order to show cause be published at least four successive weeks before the said 27th day of January, 1906, in the Olympic-Leader, a newspaper printed and published in said County of Clallam and of general circulation therein.

Done in open court this 26th day of December, 1905.

GEO. C. HATCH,
Judge of said Superior Court

State of Washington, County of Clallam, ss.

I, E. A. FitzHenry, County Clerk and ex-officio Clerk of the Superior Court of said Clallam County, do hereby certify that the foregoing is a full, true and correct copy of an orignal Order to show cause, made by said Court on the 26th day of December, 1905, in the matter of the estate of Henry Anderson, deceased.

Witness my hand and the seal of said Court this 26th day of December, 1905.

SOCAL, CLUB, AND LODGE NOTES

Mrs. Hatch Entertains

Mrs. Geo. Hatch very graciously and informally entertained a number of her lady friends at luncheon on Monday of this week. Covers were laid for ten and a most excellent four course luncheon was served and thoroughly enjoyed by the guests. The hostess started the good cheer and gay repartee that characterized the whole luncheon by asking each lady to read "the poem" she found beside her plate. These proved to be a few bright and clever rhymes, written by Mrs. Hatch and were descriptive of each of the guests and as they were read the ladies vied with each other in being first to guess to whom they referred. This provoked much laughter and merriment and put all the guests in the best of spirits. After full justice had been done at the banqueting board, all repaired to the handsome parlors where they gathered around the bright and cheerful fireplace and indulged in palmistry, story-telling, and a general happy time. Each one dreaded to be the first to break up the merry company, but as an end must come to all good things, farewells were at last said and pleasant memories of the happy occasion were carried away by each guest.

"WE AIM TO PLEASE"

Phillipp Michals

Phillipp Michals was born in Germany, Nov. 9, 1829, and died in Seguin, Wash., Dec. 27, 1905. When 23 years of age he left the Fatherland for America and settled in Paxton, Ill., where he was married to Orpha Watkins, July 23, 1861. Nine children came to bless their home; six are now living. One son in Iowa, one son and one daughther in Kansas, and three daughters in Washington. three are not, for God took them.

Aug. 11, 1862, Mr. Michals enlisted in Co. K, 76th Illinois Infantry; and for three long years he followed the flag; he was with Grant at Vicksburg, and from there he followed Sherman from Atlanta to the Sea, and in the long, weary marches, as well as in the battle front, he did a soldier's duty, until the last battle of the war he was wounded at Spanish Fort, and was mustered out and came home to enjoy the blessings of a grateful country. After the war Comrad Michals moved to Kansas, and was a member of Jarvis Post, G. A. R. From there he moved to Seguin, Wash., in 1902. In early youth he enlisted in the Christian life; at first he united with the Christian church, after the war he joined the Methodist church, and ever after remained in its fold, an active and useful member, taking deep interest in all the work for the upbuilding of Christ's Kingdom upon earth, especially in the Sabbath school which was his especial joy and delight. As a citizen he was honest and upright in all his dealings; as a friend, true and steadfast; as husband and father, kind and loving, his home life was filled with contentment and happiness; as a Christian he lived up to his profession, and followed the Great Captain with the same resolution and courage that he had shown when he followed Grant and Sherman. His warfare is now over, he has fought his last battle, and with one of old he could exclaim, "Oh death, where is thy sting, Oh, grave, where is thy victory? The sting of death is sin, and the strength of sin is law, But thanks be to God, which giveth us the victory through our Lord Jesus Christ."

"They have no place in storied page;
No rest in marble shrine;
They are past and give with a perished age,
They died and made no sign.
But work that shall find its wages yet,
And deeds that their God did not forget,
Done for their love divine.
These were their mourners, and these shall be
The crowns of their immortality.
O, seek them not where sleep the dead,
Ye shall not find their trace;
No graven stone is at their head,
No green grass hides their face;
But sad and unseen is their silent grave,
It may be the sand or deep sea wave,
Or a lonely desert place.
For they need no prayer, no mourning bell,
They are tombed in the hearts that knew them well,
They healed sick hearts till their's were broken,
And dried sad eyes till their's lost sight.
We shall know at heart by a certain token
How they fought and fell in the fight,
Salt tears of sorrow unbeheld,
Passionate cries and silent strifes for the right,
Angels shall count them and earth shall sigh
That she loft her best children to battle and die.

BALFOUR IS BEATEN

ELECTIONS IN GREAT BRITAIN A SURPRISE TO ALL.

Former Premier and Unionist Leader Badly Defeated by Weak Liberal Candidate—Indications Are That Majority for Liberal Government Will Be Overwhelming.

London, Jan. 15.—The political map of England has undergone a striking change as the result of parliamentary elections held in 39 constituencies in widely scattered, but important centers, in which the Liberals gained 18 seats. The Laborites, who are counted among the Liberal gains, secured four new seats against Unionist candidates.

In the east division of Manchester Arthur J. Balfour, the former prime minister, was defeated by T. G. Horridge, Liberal, who was conceded even by the Liberals to be a weak candidate against such a person as Mr. Balfour. Mr. Horridge secured the remarkable majority of 1980. This victory, notwithstanding the Liberal predictions, was a decidedly sensational outcome of the day's polling and will, it is believed, enormously affect the elections, which will continue for a fortnight.

Liberals Make Great Gains.

Everywhere the Liberal majorities were increased and the net result of the first day's contest between the great political parties was overwhelmingly in favor of the present government. Although only 66 seats are now filled out of the 670 required for the new parilament, which will meet at Westminster February 15, the composition of the house as shown by the results so far, it is agreed, indicate that the Liberal majority in the next parliament will show the overwhelming decision of the country.

Dispatches fromManchester say that the excitement there when the results were known was indescribable. Great crowds swarmed the streets cheering and demonstrating with the utmost enthusiasm.

Balfour Will Try Again.

Mr. Balfour, during the evening addressed a gathering at the Conservative club. He acknowledged the gravity of the disaster, but predicted short life for the Liberal government. He urged the Unionists to continue to work for the party and the future reversal of the day's results.

Of course Mr. Balfour will find another safe seat before the elections are over by one of the Unionist candidates retiring in his favor. Up to the present, however, there is no indication where the former premier will find this place where he can secure a majority which will enable him to take his seat as a leader on the front oppoition bench.

Five of the six divisions of Manchester were won by the Liberals, the other going to a Laborite. Elsewhere in the manufacturing districts in Lancashire and Yorkshire the Liberals took seats from Unionist candidates.

Free traders at Birmingham, who attempted to engage in an anti-Chamberlain demonstration, were roughly handled. A mob of tariff reformers effectually prevented the delivery of speeches, tried to duck the leaders of the free traders in a fountain and ultimately routed them. A strong body of police intervened and prevented serious rioting, which at one time threatened to be the outcome of the political warfare.

FREE JEWISH MOVEMENT.

Rabbi Wise to Engage in Work in New York.

Portland, Or., Jan. 15—Dr. Stephen S. Wise, rabbi of Temple Beth Israel, of Portland, has announced to his congregation his determination to leave Portland next September and organize a free Jewish religious movement in New York.

Every effort has been made by the local congregation to induce Dr. Wise to remain in Portland, the trustees of the congregation offering to recommend his election for life to the congreagtion.

Dr. Wise is much esteemed in this city, as much by people outside his faith as within. He has been identified since coming here with every educational, civic and charitable movement in the Pacific Northwest.

Cigar Trust Invades Portland.

Portland, Or., Jan. 12.—The Oregonian says that the United States Cigar Stores Company, a concern allied with the Amreican Tobacco Company has rented for a period of ten years two of the largest business blocks in the heart of Portland. The Unitesd States Stores Company's entrance into Portland is for the purpose of carrying on a fight against M. A. Gunst & Co., of San Francisco, who have several large estiablishments here.

To Relieve Settlers.

Washington, Jan. 12.—Bills for the relief of entrymen on desert lands in Franklin county, who filed in 1902 and 1903, have been introduced in the house and senate by Representative Humphrey and Senator Piles.

Attorney Collins Secures Bail.

San Francicso, Jan. 12.—George D. Collins has secured his release from the county jail by giving a bond of $7,500, with his mother-in-law and per daughter as sureties. The bond hledges two pieces of property.

WILSON WANTS THE MONEY.

Much Trade May Be Lost Because of Lack of Inspectors.

Washintgon, Jan. 15.—"Unless congress speedily grants the emergency appropriation of $135,000 requested by me for additional inspectors and microscopists, it is probable that over $50,000,000 worth of orders for American pork and beef products placed by German dealers will go unfilled."

This statement was made by Secretary Wilson, of the department of agriculture. Anticipating the high rate of duty on products emanating from the United States, imposed by the new German tariff which will become effective March 1 next, and Germany at the present time being in urgent need of meat supplies, Secretary Wilson said that German dealers have flooded the packing houses of this country with orders.

In speaking of this condition of affairs he referred to recent strictures on his action in creating what was stated to be a deficiency of $135,000, the amount asked by him, in alleged violation of the statute on this subject enacted during the last congress.

He declared that he had created no deficiency, but that, on the contrary, he was asking only for an appropriation to meet the conditions which an enormously increased business of the last few months, with no increase in the inspection force, had created.

From Colfax via the Palouse to the O. R. & N. between Diamonds and Endicott.

ENVOYS AT ALGECIRAS MEET FOR ORGANIZATION

Algericas, Jan. 16.—The opening of the international conference on Moroccan affairs has been definitely fixed for 3 o'clock this afternoon. The Duke of Almodivar, the Spanish minister of foreign affairs, took the initiative soon after arriving here yesterday in arranging plans for the beginning of the deliberations. All the delegates had arrived during the day, and each found a note from the duke advising that a preliminary session for the purpose of organization would take place at 3 o'clock. It is expected that the duke will preside and will make a brief address of welcome, after which he will undoubtedly be made permanent president.

On landing yesterday the American delegates, Ambassador White and Mr. Gummere the American delegates to the conference, were shown marked attention. They were met upon landing by the governor and the alcalde, who escórted them to the hotel.

Now that the delegates are here, the scene before them is suggestive. Plainly visible three miles away rises the gigantic rock of Gibraltar, like a lion guarding the straits, while dimly outlined to the southward are the low mountains of Africa. Algericas lies in the center of this panorama. Thus the powers of the world are gathered at the southernmost point of Europe, and their longing looks toward Africa give the keynote to the meeting about to begin.

PARLAMENT DISSOLVED.

General Election Has Been Ordered in Great Britain.

London, Jan. 13.—King Edward, who has been absent in the country since Sir Henry Campbell-Bannerman's cabinet was formed, has returned to London and held a meeting of the privy council, at which the proclamation dissolving parliament was signed. Immediately afterwards writs were sent to the returning officers for the election of the members of the new parliament, which, in accordance with the law, his majesty has summoned to meet at Westminster February 21.

Blue Jackets Withdrawn.

Shanghai, Jan. 13.—All the foreign bluejackets who have been patrolling the forelign concessions, have been withdrawn.

DUAL TARIFF RATES

LEADERS PROPOSE DINGLEY RATES AS MINIMUM.

Advance of 25 Per Cent May Be Made Applicable to Countries Discriminating Against the United States — Especially Designed to Meet the German Situation.

Washintgon, Jan. 15.—The revival of sentiment in favor of the enactment of a maximum and minimum tariff to meet any discriminations practiced by foreign governments against the products of the United States has resulted in a conference between senate and house leaders to determine where such legislation should originate. This becomes an important question at this session for the reason that the advocates of such a measure are desirous of having it first considered in the body most likely to accept it.

A tariff bill of this character ordinarily would be construed as a measure affecting revenues and therefore entitled to originate in the house. It has been argued nevertheless, that there is a precedent for its introduction in the senate. The precedent brought forward is the meat inspection act of 1890, which authorized the president to suspend importation of products of other countries making discriminations against those of the United States.

The maximum and minimum tariff bill, as introduced by Representative McCleary, of Minnesota, provides that the minimum tariff shall be the present schedules as fixed by the Dingley act, and that the maximum shall be 25 per cent ain addition to these rates. The maximum, it is believed, would prevent any foreign country from competing with countries receiving the minimum rates, and only differs from the act of 1890 in this, that one provides for exclusion absolutely and the other through the enforcement of prohibitive schedules against discriminating states.

It is not proposed to make the legislation retaliatory, especially against Germany, but it is asserted that the need of such a measure is pressing as regards our trade relations with that country.

It Is Up to Congress Now.

It may now be stated that the administration feels that it has exhaustd every effort legitimately within its power to avert the application in March of the new German tariff to American goods, and that if any relief is to be had, it must come from congress. Even the effort to postpone the date of the application of the German act through an arrangment in the nature of a modus vivendi ameliorating the irksome customs regulations complained of by Germany has failed. Secretary Shaw is still with his experts considering some plan of relief in that matter, but it is admmitted that what he can do by administrative order is not of sufficient importance from the German point of view to warrant the hope that the date of the operation of the German tariff act can be postponed.

Already some of the large American producers and exporting interests have addressed themselves to the state department in an appeal to be prepared against what they fear is the certain destruction of their vast business. These people have been told, as was ex-Senator Harris, of Kansas, the otherday, that the executive could do nothing more, and that it was "up to congress."

Secretary Root for a time contemplated the submission to congress of a German reciprocity treaty. He has abandoned that project because he has now definitely satisfied himself that there is not the least ground for hope that such a treaty would be accepted.

CALL IS AMENDED.

Pennsylvania Legislature May Take Up Primary Laws.

Harrisburg, Pa., Jan. 12—Gov. Pennypacker has issued a supplementary proclamation to his call for the extra session of the Pennsylvania legislature, which convenes next Monday, so as to include a primary election system and a civil service for state offices.

He also amends his original call so as to enable the legislature to pass a bill for the consolidation of the cities of Pittsburg and Allegheny.

The governor's supplementary call was a surprise to his official advisers, not one of whom thought he would make any change in his original call, despite the pressure for a uniform primary election system and a new ballot law.

Among the subjects mentioned in the original call are personal registration, state treasury reform and senatorial and legislative reapportionment.

Frenchmen Furnish Money.

Paris, Jan. 11.—The French bankers today definitely decided to make a short time advance of $50,000,000 to Russia at 6½ per cent. interest plus 2 per cent. commission. The loan is to be guaranteed by the Russian state railroads, and is to be repaid from the proceeds of the proposed new loan should the latter be floated.

Rough Riders to Send Present.

Ardmore, I. T., Jan. 13—The rough riders will send to Miss Alice Roosevelt on the occasion of her marriage next month. United States Marshal Colbert, secretary of the Rough Riders' association, is behind the movement.

COMBINE FOR COLONIZING.

Western Roads Will Establish Bureau to Handle Business.

Chicago, Jan. 17.—General passenger agents of Western lines, after three days of almost continuous discussion, have agreed upon a plan for the organization of a general colonization bureau to handle the details of the issuance of certicfiates and tickets for land and immigration business.

Reports of those who attended the Western Passenger Association meetings during the debates on this proposition indicate that there were some representatives of railroads in the conference who were in favor of abolishing the privilege the colonization departments have found so valuable in building up communities along the railroads.

"We were fearful," said a passenger agent of one of the Western roads, "that the issuance of certificates would be abrogated and that every Western state's development would be materially affected by the shutting off of the hoeseekers' colonization certicfiate provisions."

According to one of the pasenger agents, the bureau will handle the coloniaztion buisness for all the roads in the Western Passenger Association, and there will be no diminution in the volume of business.

ROGERS GIVES REASONS FOR REFUSING ANSWERS

New York, Jan. 15.—The attempt by Attorney General Hadley, of Missouri, to compel Henry H. Rogers, the vice-president of the Standard Oil Company, of New Jersey, to answer certain questions put to him during his examination before Commissioner Sanborn, came up before Justice Gildersleeve in the supreme court.

Mr. Hadley said that he should leave New York Sunday night in order to attend to a motion in the United States court in Missouri, relative to the New York Life Insurance Company doing business in that state.

The hearing was postponed because William J. Curtis, counsel for Mr. Rogers, had a case in another court which took him away from the examination.

Attorney General Hadley divided the questions which he asked that Mr. Mr. Rogers be ordered to answer into five sets. The first set of questions refers to Mr. Rogers' ownership of stock in the respondent companies; the second to such ownership of stock in other than respondent companies; the third to the ownership of stock by other parties in the respondent companies, individuals and corporations, other than the respondent, doing business both within and without Missouri.

Mr. Rogers, in his answer to these questions replies, as follows:

The first claim was that the questions are immaterial; second, that a contest regarding the admissibility of the same questions is pending before courts in Missouri; third, that the attorney general of Missouri has no legal right to take depositions in New York, and that the questions are under consideration in the courts of another state; fourth, that the attorney general of Missouri is not asking the questions at issue for purposes of public policy, but is bringing the proceedings in order to gain advertising and personal notoriety and as a foe of the Standard Oil Company.

To support this last-named claim the answer sets forth that the newspapers have been fed with sensational stories about Mr. Hadley and his associates, holding up Mr. Rogers to contempt and ridicule. It was further contended that newspaper photographers and artists have been given a free hand at the hearing before Commissioner Sanborn, causing Mr. Rogers great annoyance.

PRESIDENT HARPER DEAD

Executive Head of the University of Chicago Passes Away.

Chicago, Jan. 11.—Dr. William Rainey Harper, president of the Univervsity of Chicago since its inception, one of the foremost educators and one of the most learned Hebrew scholars of his time, is dead.

Dr. Harper has been in failing health for some years, having undergone several surgical operations. For the past two weeks he had failed rapidly.

Chicago, Jan. 13.—A mammoth university chapel to the memory of President Harper was practically decided upon at a meeting of the board of trustees of the University of Chicago. An auditorium built after plans prepared by Dr. Harper and centrally located on the present university campus, with funds contributed by friends of Dr. Harper and the university will stand as the central edifice of the institution.

American Sculptor Honored.

London, Jan. 13.—The general assembly of the members of the Royal academy has elected Augustus Saint Gaudens, the American sculptor, and Joseph Israel, the Dutch painter, honorary foreign members of the academy.

Nome Townsite Patent.

Washintgon, Jan. 12.—A patent to the townsite of Nome has been issued by the sceretary of the interior. The application for this patent has been pending for two years or more and action was held up for a long time on account of adverse mining claims.

What a strange and terrible thing it is that for nearly two thousand years the bitterest hatred and the fiercest persecution have concentrated upon that race through which the world received its great message of peace and good will! The history of civilization is full of dark pages, but the blackest of all are those which touch the subject of religion. Pagans have fought Christians and Christians have put pagans to the sword. The hand of the Catholic has been turned against the Protestant and the hand of the Protestant against the Catholic; and even the smaller sects have fought each other when they could not unite to fight a common foe. But the Jews have been persecuted or denied civil rights in almost every country in Christendom, and have found enemies in every Christian sect. Even in this twentieth century they suffer moral if not physical persecution in "enlightened" Germany and France. The recent terrible outbreak against the Jews in Odessa and other parts of Russia was doubtless due in part to the ignorance and bigotry of the Russian peasants, and in part to misrepresentations by men in power, to whom every such diversion is a screen for their own evil deeds. In contrast to the outrages in Russia, how brightly shines the conduct of the Jews throughout the world, who have rallied so promptly to the succor of their helpless brethren! Every day has brought its reports of added thousands pouring in to the relief fund, much of the money coming from the poorest Jews in English and American cities. Nor have the Christians withheld the helping hand. Here, at least, is a sign of that larger brotherhood of man which in time must override the barriers of race and creed.

It Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, and heals. Sold for 60 years.

"Ayer's Cherry Pectoral has been a regular life preserver to me. It brought me through a severe attack of pneumonia, and I feel that I owe my life to its wonderful curative properties."—WILLIAM H. TRUITT, Wawa, Pa.

To meet the disclosures of perjury, theft, bribery and other crimes in high places both the bench and the bar must act to prevent the overthrow of real democratic institutions. The arsenals of the law must be reached for effective weapons. The armory of justice must be ransacked for swift procedure. The tide of crime which is now receiving its encouragement from above will swell from the depths beneath unless its exemplars in high places are punished.

Hardly any subject of human interest has failed of official recognition by the British government. Therefore it was not strange that Queen Victoria should make a knight of George Williams, founder of the Young Men's Christian Association, on the fiftieth anniversary of that organization in 1894. Sir George Williams, as he then became, died recently, full of years and of honors, leaving behind him a memory of which his fellow men may well be proud. He was a farmer's

Secretary Wilson's report for the year 1905 shows how the American farmer has sent abroad in the last sixteen years $12,000,000,000 worth of agricultural produce, that staggering figure representing the excess of what we produce over what we need ourselves, and in that time has not only wiped out a balance of trade against us but has "salted down" $5,635,000,000 to his own credit. The farmer has made the nation's prodigious prosperity and is getting a big share of it, whether it is his full equitable share or not.

WARRIORS AT PLAY.

The first anniversary of the victory of the Yalu was celebrated by General Kuroki's men in a most remarkable manner, which, says a London Times correspondent who was with the First Japanese Army, involved work nearly as hard as that required to win the victory. Not being able to go to Japan, they brought Japan to Manchuria. A whole corps that had been in the field for more than a year set out to create in a bare valley overlooked by bare hillsides an illusion of Japan at springtide, all green and park-like.

In Japan carp swim up cataracts—in fables. When they reach the top they become beautiful dragons. That is the national example of the reward for perseverance which takes the place of the story of Robert Bruce and the spider.

One of the brigades, as its part in the battle of deception, built both the carp and the waterfall. For more than a mile, and then up the steep slope which was the scene of their composition, they brought pine boughs to form the sides of the channels, the overhanging verdure of crags and of rocky islets. The foaming torrent was made by bolts of cotton laid in waves that half-submerged the leaping fish, seventy-five feet long, which had cotton crescents for its scales. A mile away the illusion was excellent, especially if you half-closed your Occidental eyes, which are always seeing scaffolding and the prompter's box.

You had to do the same with the dragon-fly on the next hill—a dragon-fly with wings fifty feet long and beaten-out ration-meat tins for its gigantic eyes. You had to do the same in order to realize the Big Lion (properly spelled with capitals). The holes of his nostrils, some fifteen feet wide, were made with matting. Their fleshy part was soldier's red blankets, for he was a fierce Japanese lion, just now in a red fury. His mane was made of evergreens on the summit of a rocky escarpment. Five hundred yards away more evergreens were formed into a lashing tail.

General Fujii, the chief, and the other members of the staff entered into the plan of the effects and the organization of the fete with the same gusto with which they have outmaneuvered the Russians on many fields. Young forests of pines and of wild cherry-trees were literally transplanted, and walks and arbors set among them. A gentle slope was leveled for the approach to the altar. Beyond it a statue of General Kuroki on horseback—a good imitation of bronze—looked down on the scene, with a hanging iris garden at his feet. From the altar led two avenues—even provided with conduits where they crossed gullies—leveled with as much care as if they were meant for a generation's traffic instead of a day's merry-making.

One of the avenues led into the little village of Piau-chi-tun, which had been Kuroki's headquarters since the Battle of Mukden. It had a garlanded bridge, a huge evergreen arch, and what takes the place of an arch in Japan, a torii, which in this instance was formed of Chinese matting covered with cotton cloth. Lining both avenues were alternate pine and cherry trees, and set between them transparencies made by soldier artists. Venerable Fujiyama, the most painted mountain in the world, was there, of course, and scenes both at home and at the front.

On the plain, out of the earth of the dreary kaoliang fields, whose never-ending stubble is as the sands of the desert, had sprung little Japanese gardens, such as you see from one end of Japan to the other. Miniature lakes were set in miniature landscapes, and a fountain played among the beds of imitation iris.

The night before the fete millions of imitation paper flowers, which had been fashioned in the leisure hours of camp with the skilfulness of Parisian shop-girls, were brought in great baskets and fastened to the twigs of the transplanted trees.

The strangest part of it all is that it is as natural for the soldiers of the Japanese army to do these things as it is for them to fight. That same skill which was devoted to making waterfalls and paper flowers, that trick of ready improvisation which brought Japan to Manchuria, was turned the next day into scouting the dead spaces in front of the enemy's works and to desperate charges in the night.

Believes Heaven Filled with Men.

In Moncure Conway's "Reminiscences" is a story told by Helen Taylor, the step-daughter of John Stuart Mill. Once, in Scotland, she called on a poor woman who had lost her little son. The mother was inconsolable and said:

"What troubles me is, they be all men folk up there in heaven and won't know how to do for him."

The first verse of the fifty-first Psalm is called the "neck verse," for the reason that in former times a man condemned to death sometimes had a chance to save his life by proving that he could read, and this verse was used as a test.

One gathers that Secretary Wilson's mind is made up firmly in favor of the hen as the national bird.

Possible Explanation.

"He is a black-browed villain," hissed the beautiful heroine as she stood on the canvas castle.

"How did he get a black brow, Sylas?" whispered an old lady sitting back in the parquet.

"Dnnno," drawled her husband as he munched a doughnut, "but maybe he had been cleaning out the furnace."

Silver Cake.

Cream half a cup of butter with a cup of powdered sugar and beat in the stiffened whites of four eggs and a gill of cold water. How to Exercise the Bowels

Your Intestines are lined inside with millions of little suckers, that draw the Nutrition out of food as it passes them.

But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition.

This Poison makes a Gas that injures your system more than the food should have nourished it.

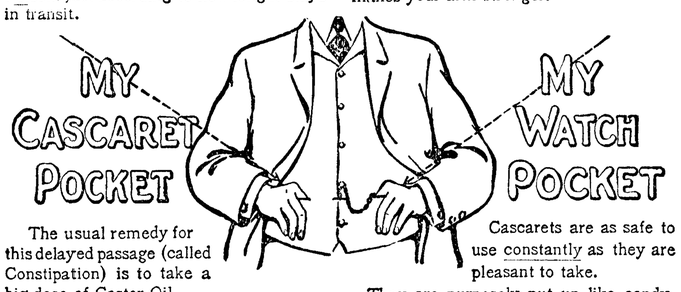
You see, the food is Nourishment or Poison, just according to how long it stays in transit.

They do not waste any precious fluid of the Bowels, as Cathartics do.

They do not relax the Intestines by greasing them inside like Castor Oil or Glycerine.

They simply stimulate the Bowel Muscles to do their work naturally, comfortably, and nutritiously.

And, the Exercise these Bowel Muscles are thus forced to take, makes them stronger for the future, just as Exercise makes your arm stronger.



The usual remedy for this delayed passage (called Constipation) is to take a big dose of Castor Oil.

This merely make slippery the passage for unloading the current cargo.

It does not help the Cause of delay a trifle.

It does slacken the Bowel-Muscles more than ever, and thus weakens them for their next task.

Another remedy is to take a strong Cathartic, like Salts, Calomel, Jalap, Phosphate of Sodium, Aperient Water, or any of these mixed.

What does the Cathartic do?

It merely flushes-out the Bowels with a waste of Digestive Juice, set flowing into the Intestines through the tiny suckers.

* * *

But, the Digestive Juice we waste in doing this today is needed for tomorrow's natural Digestion. We cannot afford to lose it.

That's why Cascarets are the only safe medicine for the bowels.

Cascarets are as safe to use constantly as they are pleasant to take.

They are purposely put up like candy, so you must eat them slowly and let them go down gradually with the saliva, which is in itself, a fine, natural Digestive.

They are put up purposely in thin, flat, round-cornered Enamel boxes, so they can be carried in a man's vest pocket, or in a woman's purse, all the time, without bulk or trouble.

Price 10c a box at all druggists.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

RHEUMATISM

CAN NOT BE RUBBED AWAY

When the joints are sore and swollen, and the muscles throbbing with the pain of Rheumatism, relief must be had at once, and it is natural to rub the affected parts with liniments, oils, etc. This treatment does good in a way, by temporarily relieving the pain and reducing the inflammation, but has no effect on the disease itself, because Rheumatism is more than skin deep; it is in the blood and cannot be rubbed away. Rheumatism is brought on by indigestion, weak kidneys, poor bowel action, stomach troubles and a general sluggish condition of the system. The refuse and waste matters, which should be carried off through the natural avenues of bodily waste, are left to sour and form uric acid and other irritating poisons which are absorbed by the blood, making it thin, weak and acrid. Then instead of nourishing the different nerves, muscles, joints and tissues it fills them with poison to produce the aches, pains and other disagreeable symptoms of the disease. Rheumatism is usually worse in Winter for the reason that cold and dampness are exciting causes. The nerves become excited and sting with pain, the muscles are sore and drawn, the joints swollen and stiff and the sufferer lives in intense agony; and if the disease is not checked it often leaves its victims helpless cripples for life. Rheumatism cannot be rubbed away but it can be driven from the blood by S. S. S. Being a perfect blood purifier this great remedy soon produces a complete change in the entire circulation; the thin, acrid blood is made pure and rich, and as it goes through the body nourishes and soothes the irritated nerves, eases the throbbing muscles, and dissolves and carries out of the system the irritating particles in the joints which are keeping up the pain and inflammation. S. S. S. cures Rheumatism permanently, and in addition tones up the digestion and stimulates the different members of the body to their full duty so there is no cause for another attack. Do not waste time trying to rub Rheumatism away, but get it out of the blood with S. S. S. so that the cold and dampness of Winter will not keep you in continual pain and agony. Special book on Rheumatism and any medical advice will be given free.

While at work for the F. C. & P. R. R. in the swampy region, I contracted Rheumatism and was completely helpless for about four months and spent over $150.00 with doctors, but got worse every day, and finally quit them and began S. S. S. I took a few bottles and was cured sound and well. My health is now splendid, and I weigh 175 pounds. There is a lady living near me who is now taking S. S. S. for acute Rheumatism. For two months she could not turn herself in bed, but since beginning your medicine about three weeks ago has improved rapidly, and is now able to sit up. I can recommend S. S. S. to all suffering from Rheumatism.

Ulah, N. C. S. C. LASSITER.

I was severely troubled with Rheumatism. I had it in my knees, legs and ankles, and any one who has ever had Rheumatism knows how excruciating the pain is and how it interferes with one at work. I was truly in bad shape having been bothered with it for ten years, off and on. A local physician advised me to use S. S. S. I did so. After taking two bottles I noticed the soreness and pain were greatly reduced. I continued the medicine and was thoroughly cured; all pain, soreness and inflammation gone. I recommend S. S. S. to all Rheumatic sufferers.

Eastern People "Mossbacks?"

WAYLAND, IOWA, Jan. 13, '06.
Editor Olympic-Leader:—I was very much pleased to note the good sense of the majority of the courteous people of Angeles in turning down the water plant franchise. Why pay two dollars when you can get the same service for one-fifty and control the situation? The dollars will all have to come from the same source, and your city council are not overburdened as yet with properties to manage; they are able men and ought to support the loyal Mayor. Municipal ownership is all the go in the east now. The west is generally ahead in progress. I am interested in Clallam county.

Your paper was good but is much better now. I save them up to hand around. The county articles are effective.

Yours, M.V.B. MORRIS.

Want Angeles Bonds

Mayor Appleton received an inquiry, this week, concerning bonds, from the Title Trust Company of Seattle, asking that they might have the privilege of bidding on purchase, or of making a price at private sale. The Mayor has since found that the company, of which he knew little, has been investing Eastern money in bonds to a very considerable extent. There is no doubt but that all the money required for the water works proposition will be available on favorable terms.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

SEGUIN NOTES.

In last week's items it was stated that C.W.Cook was elected treasurer of the local telephone Co., which was a mistake, it should have been W. D. Cook.

Manager Wm. Long of the Seguin Shingle and Lumber Co. started his mill Tuesday last.

Any party who desires to secure a nice, comfortable home should communicate with Mrs. Dawson of Seguin, who is desirous of selling her place here.

It is rumored that there is to be some changes in business houses in Seguin in the near future.

We are to have a laundry added to the list of Seguin in the near future.

Butter is up, and feed is out of sight, so the farmer and dairymen say.

Frank C. Doran sold a fine colt to Mrs. Davidson last week.

John Waldron has taken the contract to furnish all bolts for the Happy Valley shingle mill.

The Happy Valley school was opened by Miss Blair on Monday last; they will have a five months term.

For Sale—A house and ten acres of land, on the prairie, J.B.Knapman.

The Seguin Trading Co. have a new delivery wagon.

Miss Mildred Borst received a nice, new buggy from Indiana last week and is busy treating her friends to a jolly good ride.

Miss Lizzie Gunnan spent a few days visiting Mrs. H. J. Bugge at Washington Harbor the first of the week.

Chas. Fitzgerald was a passenger for Seattle Tuesday.

Herman Sindars, Sr., was in town Wednesday, after being held up at his ranch for a month by a severe cold.

J. L. Keeler has placed a new pump in the town well, and only asks that you close the gate when leaving.

Jack Finn of Discovery has taken a contract to haul the bolts and shingles for the Miller & Whitney mill.

Thos. Miller made a business trip to Seattle Tuesday.

Fine young pigs for sale by J. L. Keeler.

The Chinese residents are busy getting ready for their New Year which they will celebrate Tuesday next.

It is rumored that we are to have an electric light plant. Well, that is what we need as this is fast getting to be a night-of-day town.

H. J. Bugge had the misfortune to lose several fine stock hogs the first of the week, they being afflicted with the blind staggers.

The secret of successfully ridding the system of a cold is a thorough evacuation of the bowels. Kennedy's Laxative Honey and Tar does this—Liquid Cold Cure, drives all cold out of the system. Best for Coughs, Croups, etc. Sold by C. E. Nailor & Co.

Dr. Vickery, an army surgeon well known here, died at Riverton, N. J., Jan. 3rd. He was formerly stationed at Townsend, and two years ago was here, with his daughters, on a visit. He owned 800 acres of timber near the city.

The Congregational church social, posponed from this week until Friday of next week, will be held at the home of Mrs. C. J. Farmer. Everyone welcome. A literary and musical program will be given.

Indigestion is easily overcome by the use of Kodol Dyspepsia Cure, because this remedy digests what you eat and gives the stomach a rest—allows it to recuperate and grow strong again. Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.
