DEPARTMENT OF NATURAL

It is well and good to encourage your children to emulate George Washington, but not where dental health is concerned. Our first president had a long history of troubles with his teeth, and later with his dental the second process of the most prevalent disease of childhood. About 50 per cent of all two-year-olds have one or more decayed teeth and by the time they begin school, they have three or more decayed teeth.

A recent report from the federal vaccination against smallpox.

A namphlet of the American entures.
